**INDEPENDENT AUDITORS' REPORT**

To the Board of Commissioners
of Lee County, Georgia
Leesburg, Georgia

**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Lee County, Georgia, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents. We did not audit the financial statements of the Lee County Health Department, which represent 100% of the assets, net position, and revenues of the discretely presented component unit. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion on the basic financial statements, insofar as it relates to the amounts included for the Lee County Health Department is based on the report of the other auditors.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Development Authority of Lee County, which represent 18%, 18%, and 13%, respectively, of the assets, fund balances, and revenues of the nonmajor governmental funds. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Development Authority of Lee County, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Opinions**

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of Lee County, Georgia, as of June 30, 2014, and the respective changes in financial position, the respective budgetary comparison for the General Fund and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Other Matters**

*Required Supplementary Information*

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

*Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Lee County, Georgia's basic financial statements. The combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying

accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the report of the other auditors, the combining and individual nonmajor fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

The accompanying schedule of Special Purpose Local Option Sales Tax Expenditures is presented for purposes of additional analysis as required by Official Code of Georgia 48-8-121, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated January 6, 2015, on our consideration of Lee County, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Lee County, Georgia's internal control over financial reporting and compliance.

## Lee County, Georgia
## Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities
## June 30, 2014

| | |
|---|---|
| Net change in fund balances - total governmental funds | $ (754,766) |
| Amounts reported for governmental activities in the statement of activities are different because: | |
| Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. | |
| Capital asset purchases capitalized | 1,041,969 |
| Depreciation expense | (3,108,572) |
| The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. | |
| Debt payments made | 3,469,616 |
| Amortization of bond premiums | 80,266 |
| Tax revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds. | |
| Unavailable revenues - property taxes | 4,578 |
| Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. | |
| Change in pension asset | (53,504) |
| Compensated absences | (95,404) |
| An internal service fund is used by management to charge the costs of the County's medical benefit plan to individual funds. The net revenues (expenses) the internal service fund is reported with governmental activities in the statement of net position. | (155,211) |
| Change in net position of governmental activities | $ 428,972 |

## NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Lee County, Georgia have been prepared in conformity with generally accepted accounting principles as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

### I. Reporting Entity

Lee County, Georgia operates under a five member Commission form of government. Commissioners serve staggered terms of four years. The Board elects its own chairman. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the government.

#### Blended Component Units

The *Lee County Utility Authority* is a blended component unit. The data from this unit is combined with data of the primary government and reported as the Utility Authority enterprise fund. Separate financial statements for the Authority are not issued.

The *Lee County Parks and Recreation Authority* is a blended component unit. The data from this unit is combined with data of the primary government and reported as the Parks and Recreation Authority enterprise fund. Separate financial statements for the Authority are not issued.

The *Development Authority of Lee County* is a blended component unit. The component unit is a legally separate organization for which the County is financially accountable. The data from this unit is combined with data of the primary government and reported as a special revenue fund. Separate financial statements for the Development Authority of Lee County may be obtained at the entity's administrative office at 100 Starksville Rd Leesburg, GA 31763.

#### Discretely Presented Component Unit

The *Lee County Board of Health (Board)* provides healthcare services for the citizens of the County. The County Commissioners appoint a voting majority to the Board. The Board is presented as a governmental fund type. The financial data of the Board reflects their most recent audited financial statements. The fiscal year end of the Board is June 30. Complete financial statements for the component unit may be obtained at the entity's administrative offices.

## II. Government-Wide and Fund Financial Statements

The government-wide financial statements (Statement of Net Position and Statement of Changes in Net Position) report information on all non-fiduciary activities of the primary government and its component units. As a general rule, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is accountable.

The Statement of Activities demonstrates the degree to which direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

## III. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

### Government – Wide Financial Statements

The County's government-wide financial statements include a Statement of Net Position and a Statement of Activities. These statements present summaries of Governmental and Business-Type activities for the County. Fiduciary activities of the County are not included in these statements.

These statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. The fiduciary fund financial statements are presented on the accrual basis. Accordingly, all the County's assets and liabilities, including capital assets, as well as infrastructure assets, and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in assets. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. The types of transactions reported as program revenues for the County are reported in three categories: 1) charges for services to customers who directly benefit from goods, services, or privileges provided by a given function, 2) operating grants and contributions that are restricted to meeting the operational needs requirements of a particular function, and 3) capital grants and contributions that are restricted to meeting the capital needs requirements of a particular function.

Certain eliminations have been made as prescribed by GASB Statement No. 34 in regards to interfund activities, payables, and receivables. All internal balances in the Statement of Net Position have been eliminated. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

Fund Financial Statements

Governmental Fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures, and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. Governmental Fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Accordingly, only current assets and current liabilities are included on the Balance Sheets. The Statement of Revenues, Expenditures, and Changes in Fund Balances presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Those revenues susceptible to accrual are property taxes, sales taxes, licenses, interest revenue, and charges for services. Sales taxes collected and held by the state at year end on behalf of the government are also recognized as revenue. Fines are not susceptible to accrual because, generally, they are not measurable until received in cash. The County considers revenues to be available if they are collected within 60 days after year end.

The County reports the following major governmental funds:

The *General Fund* is the principal fund of the County and is used to account for all of its activities not otherwise accounted for by a specified fund.

The *1% SPLOST V BONY Advance Capital Projects Fund* is used to account for the general obligation sales tax bonds, series 2007, used to finance a portion of the capital projects of the special purpose local option sales tax which was approved by the voters for a six year period effective October 1, 2007 through September 30, 2013.

The *1% SPLOST V Tax Proceeds Capital Projects Fund* is used to account for the capital projects financed from the special purpose local option sales tax which was approved by the voters for a six year period effective October 1, 2007 through September 30, 2013.

The County reports the following major proprietary funds:

The *Utility Authority Fund* accounts for the activities of the Lee County Utility Authority. The Authority operates a water and sewer system for the County.

*Proprietary Funds* are reported using the *economic resources measurement focus* and the *accrual basis of*

*accounting* and are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided to outside parties (enterprise funds) or to other departments or agencies primarily within the government (internal service funds). Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

*Enterprise Funds* account for activities that are usually self-sustaining, principally through user charges for services rendered.

The *Solid Waste Fund* accounts for the activities of the county's inert waste landfill.

The *Parks and Recreation Authority* accounts for the activities of the Grand Island Golf Complex, a recreational facility owned by the county.

Additionally the County reports the following fund types:

*Special Revenue Funds* are used to account for proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes.

The *Internal Service Fund* accounts for the costs of the County's medical benefit plan provided to other departments and agencies of the County.

*Fiduciary Funds* are reported using the *economic resources measurement focus* and the *accrual basis of accounting* and are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the government. Agency funds generally are used to account for assets that the government holds on behalf of others as their agent. The County utilizes the following fiduciary funds:

> *Agency Funds* are used to account for assets held by the County as an agent for individuals, private organizations, other governments, and the County departments.
>
> The *Pension Trust Fund* accounts for the activities of the government's defined benefit pension plan.

*Discretely Presented Component Unit*: The discretely presented component unit is reported using the *economic resources measurement focus basis* and the *accrual basis of accounting*. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

Cash and Investments

Cash and cash equivalents, as reported in the statement of cash flows, includes amounts in demand deposits, amounts with fiscal agents, and investments with an original maturity of three months or less.

Statutes authorize the County to invest in obligations of the U.S. Treasury, other U.S. Government agencies, the State of Georgia, other counties, municipal corporations and political subdivisions of the State of Georgia, and pooled investment programs sponsored by the State of Georgia for the investment of local government funds.

Investments are reported at fair value. Short term investments are reported at cost, which approximates fair value. The fair values of investments in external investment pools are the same as the value of the pool shares.

Receivables

Receivables and Due from Other Governments represent funds to be received from other local governments, state grant in aid, state contracts, or federal funds. No allowance is deemed necessary for these receivables. All amounts due from other governments are considered collectible in full.

Outstanding balances between funds at the end of the fiscal year are referred to as either "Due From Other Funds" or "Due To Other Funds".

All trade and property tax receivables have been reduced to their estimated net realizable value and are shown net of an allowance for doubtful accounts. Estimated uncollectible amounts are based upon historical experience rates.

Inventories

Inventories are valued at cost using the first-in/first-out (FIFO) method in the Parks and Recreation Authority fund. The costs of inventories are recorded as expenditures when purchased in all other funds.

Prepaid Items

Payments made to vendors for services that will benefit future accounting periods are recorded as prepaid items in both the government-wide and fund financial statements.

Restricted Assets

Proceeds from certain revenues and other resources in the General Fund, Special Revenue Funds, and

Capital Projects Funds are classified as restricted assets on the balance sheet because they are maintained in separate accounts and their use is limited by applicable statutes or agreements.

Capital Assets

Capital assets include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) and are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost which exceeds certain capitalization thresholds and has an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities) the County chose to include all such items regardless of their acquisition date or amount. As the County constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical costs. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable.

Major outlays for capital improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of assets constructed. No interest expense was capitalized during the fiscal year ending June 30, 2014.

Property, plant and equipment of the primary government and the discretely presented component unit are depreciated using the straight-line method over the following estimated useful lives:

| Assets | Capitalization Thresholds | Estimated Service Life in Years |
|---|---|---|
| Primary Government | | |
| Buildings | $ 10,000 | 25-50 |
| Machinery and equipment | 5,000 | 5-15 |
| Improvements | 5,000 | 10-20 |
| Infrastructure | 25,000 | 15-50 |
| Water & sewer systems | 5,000 | 15-50 |
| Board of Health | | |
| Machinery and equipment | 5,000 | 5-7 |

Deferred Inflows of Resources

In addition to liabilities, the County will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The County has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the government funds balance sheet. The governmental funds report unavailable revenues from property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Compensated Absences

It is the policy of the County to permit employees to accumulate earned but unused vacation and sick pay benefits. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Long-Term Obligations, Debt Premiums and Discounts

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Debt premiums and discounts are netted against debt payable. On the government-wide financial statements,

unamortized debt premiums and discounts are deferred and amortized over the life of the debt using the straight-line method. At the government fund reporting level, debt premiums and discounts are reported as other financing sources separately from the face amount of the debt issued.

Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance". Fund equity for all other reporting is classified as net position. GASB Statement 54 "*Fund Balance Reporting and Governmental Fund Type Definitions*" provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance – amounts that are not in spendable form (such as inventory) or are required to be maintained intact;
- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance - amounts constrained to specific purposes which are imposed by a formal action of the County Commission through adoption of a resolution. Only the County Commission may modify or rescind the commitment;
- Assigned fund balance – amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance – amounts that are available for any purpose; positive amounts are reported only in the general fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available, it is the policy of the County to generally consider restricted amounts to have been reduced first. When an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, it is the policy of the County that committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts. In both instances, when a proposed expenditure is made with specific balances identified as the source of the funding, that specific fund balance will be used.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

Subsequent events were evaluated through January 6, 2015, which is the date the financial statements were available to be issued.

**NOTE B - BUDGETS AND BUDGETARY ACCOUNTING**

**I. Budget Process**

The annual budget document is the financial plan for the operation of the County. The budget process exists for the purpose of providing a professional management approach to the establishment of priorities and the implementation of work programs while providing an orderly means for control and evaluation of the County's financial position. An annual operating budget is prepared for the General Fund and Special Revenue Funds.

The County follows the following procedures in establishing the budgetary data reflected in the financial statements:

1) Prior to June 30, the County Administrator submits to the Board of Commissioners a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
2) Public notice of budget and tax proposals is provided in conformance with Georgia law.
3) Public hearings are conducted to obtain taxpayer comments.
4) Prior to June 30, the budget is formally adopted.
5) Budgets for the General Fund and Special Revenue Funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America.

The appropriated budgets are prepared by fund, function, and department. Transfers of appropriations between departments require the approval of the County Commissioners. The legal level of budgetary control (i.e. the level at which expenditures may not legally exceed appropriations) is at the department level.

The County does not employ the use of encumbrance accounting in governmental funds and no material purchase orders, contracts, or other commitments existed at the end of the fiscal year which should have been encumbered.

**II. Capital Projects Budget**

The construction of certain major capital facilities and improvements, which are accounted for by the County in the Capital Projects Fund, are subject to budgetary control on a project basis. The budgets are approved by the Board of Commissioners and are generally subject to specific provisions of voter referendums, State statutes, and/or grant agreements. Appropriations for a specific project do not lapse until completion of the project.

**III. Excess of Expenditures Over Appropriations in the General Fund**

The following General Fund departments incurred actual expenditures in excess of budgeted amounts for the year ended June 30, 2014:

| Department | | Excess of Expenditures Over Budgeted Amounts |
|---|---|---|
| General government | $ | 335,899 |
| Public safety | | 489,263 |
| Public works | | 68,027 |
| Public health and welfare | | 6,811 |
| Culture and recreation | | 1,761 |
| Library | | 257 |

The excess of actual expenditures over appropriations was funded by available fund balance of the General Fund.

## IV. Excess of Expenditures Over Appropriations in Individual Funds

The following funds incurred actual expenditures in excess of budgeted amounts for the year ended June 30, 2014:

| Department | Excess of Expenditures Over Budgeted Amounts |
|---|---|
| Drug Abuse Treatment & Education Fund | $ 1,410 |
| E-911 Fund | 56,996 |
| Special Assessment Fund | 26,485 |
| Development Authority | 271,655 |

## NOTE C - DEPOSITS AND INVESTMENTS

Total deposits and investments as of June 30, 2014, are summarized as follows:

| | |
|---|---|
| Primary Government | |
| Amounts as presented on the entity-wide Statement of Net Position: | |
| Cash and cash equivalents | $ 4,389,244 |
| Investments | 3,264,481 |
| Restricted cash and cash equivalents | 1,758,473 |
| Restricted investments | 1,310,114 |
| Amounts as presented on the Statement of Fiduciary Net Position: | |
| Cash | 1,138,526 |
| Investments | 280,150 |
| Total | $12,140,988 |
| Deposits with financial institutions | $ 8,670,377 |
| Deposits with Georgia Fund 1 | 3,190,461 |
| Investment in mutual funds | 280,150 |
| Total | $12,140,988 |
| Lee County Board of Health: | |
| Cash and cash equivalents | $ 349,538 |
| Cash deposited with financial institutions | $ 349,538 |

The County does not have a formal investment policy for interest rate, credit, concentration of credit, or custodial credit risks. As of June 30, 2014 the credit rating for the County's investment in mutual funds was unavailable.

*Credit risk.* The County's investments in Georgia Fund 1 are rated AAAm (Standard & Poor's). Georgia Fund 1, created by OCGA 36-83-8, is a stable net asset value investment pool which follows Standard and Poor's criteria for AAAm rated money market funds. However, the State of Georgia Office of Treasury operates Georgia Fund 1 in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and it is considered to be a 2a-7 like pool. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal ($1.00 per share value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participant's shares sold and redeemed based on $1.00 per share. Other investments in debt securities which require disclosure of credit ratings were not rated.

*Custodial credit risk – investments.* Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments that are in the possession of an outside party. State statutes require all investments (other than federal or state government instruments) to be collateralized by depository insurance, obligation of the U.S. government, or bonds of public authorities, counties, or municipalities.

*Custodial credit risk – deposits.* In the case of deposits, this is the risk that in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be collateralized by depositor insurance, obligation of the U.S. government, or bonds of public authorities, counties, or municipalities. As of June 30, 2014, the County's bank balance was not exposed to custodial credit risk because it was insured and collateralized with securities held by the pledging financial institution's trust department or agent in the County's name.

**NOTE D – RECEIVABLES AND TAX REVENUE**

**I. Property Tax**

Property taxes are levied on property values assessed as of January 1. State law requires that property taxes be based on assessed value, which is 40% of market value. The levy date and payment due date for fiscal year 2014 property taxes were September 27, 2013 and December 20, 2013, respectively. The billings are considered past due 60 days after the billing date and penalties and interest are assessed. The applicable property is subject to lien after the billings are 90 days delinquent.

Upon completion of all assessments and tax returns, the information is turned over to the Lee County Tax Commissioner for completion of the tax digest. The completed tax digest must be submitted to the State Revenue Commissioner for approval.

The Lee County Tax Commissioner distributes tax notices and collects tax payments. Collections of the county taxes and remittance of them to the appropriate fund or government are accounted for in the Tax Commissioner Agency Fund.

## II. Receivables

Receivables as of June 30, 2014 for the County's individual major funds, nonmajor funds, and fiduciary funds in the aggregate are as follows:

## II. Interfund Transfers

Interfund transfers are used to move revenues from the fund that the Statute or budget requires to collect them to the fund that the Statute or budget requires to expend them and to use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Interfund transfers for the year ended June 30, 2014 consisted of the following:

**NOTE I – RESTRICTIONS OF FUND BALANCES**

In the governmental fund financial statements, fund balances consist of restricted and unassigned amounts. Restrictions of fund balances represent that portion which is not appropriable for expenditure or is legally segregated for a specific future use. The remaining portion is unassigned.

Fund balance restrictions at June 30, 2014 include:

| | |
|---|---|
| Special Revenue Funds | |
| Reserve for restricted purposes to reflect resources legally restricted for specific purposes | $ 1,154,189 |
| Capital Projects Funds | |
| Reserve for specific purposes to reflect resources funded by Special Purpose Local Option Sales Tax and Federal grants | $ 1,989,535 |

**NOTE J – BENEFIT PLANS**

**Primary Government**

**I. Closed Single-Employer Defined Benefit Plan**

The County adopted a defined benefit pension plan on April 2, 1986, which became effective July 1, 1986. This single-employer plan was funded solely by the County and employee contributions were not permitted. Effective June 1, 1997, the County converted from that particular plan. Under the conversion, all current and future eligible employees were enrolled in a different defined benefit plan. Employees were given credit for the present value of their accrued benefits in the defined benefit plan at conversion. This particular plan was retained for eleven retirees already receiving or eligible to receive benefits and who did not elect to convert to the defined benefit plan.

The County's Closed Single-Employer Defined Plan, administered by Southern Actuarial Services provides retirement and death benefits to plan members and beneficiaries. All persons eligible to receive benefits under this plan are no longer active employees of the County. The benefit provisions of the plan are established by the County ordinance and may be amended by County ordinance. The financial statements of the plan are prepared using the accrual basis of accounting. Plan contributions are recognized when due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. All plan investments are reported at fair value. Securities traded on a national exchange are reported at the last reported sales price on the County's balance sheet date. Securities without an estimated established market are reported at estimated fair value.

**Primary Government (Continued)**

**I. Closed Single-Employer Defined Benefit Plan (Continud)**

A financial report that includes financial statements and required supplementary information for the plan may be obtained by writing to Southern Actuarial Services, 7878 Roswell Road, Sandy Springs, Georgia 30350.

Funding Policy

Retired or terminated County employees are not required to contribute to the Plan. The County is required to contribute at an actuarially determined rate. All contribution requirements of plan members and the County are established by County ordinance.

Annual Pension Cost

For the year ended June 30, 2014, the County's annual pension cost of $0 was equal to the County's required contributions. The required contribution was determined as part of the July 1, 2013, actuarial valuation using the terminal funding method. Under this method, the entire actuarial present value of benefits for each individual is contributed to the plan's fund at the time of withdrawal, retirement or benefit commencement. The actuarial assumptions included (a) 5% investment rate of return and (b) the 1983 individual annuity mortality tables (c) no inflation rate assumption due to the fact all participants are no longer employees of the County. The actuarial value of Plan assets was determined using techniques that smooth the effect of short-term volatility in the market value of investments.

## II. ACCG Defined Benefit Plan

### Plan Description

The County sponsors the Association County Commissioners of Georgia Restated Pension Plan for Lee County Employees (The Plan), which is a defined benefit pension plan.

The Plan provides retirement, disability and death benefits to plan participants and beneficiaries. The plan, through execution of the adoption agreement, is affiliated with the Association County Commissioners of Georgia Third Restated Defined Benefit Plan (The ACCG Plan), an agent multiple-employer pension plan, administered by GEBCorp. The ACCG, in its role as the Plan Sponsor, has the sole authority to amend the provisions of the ACCG Plan, as provided in Section 19.03 of the ACCG Plan document. The County has the authority to amend the adoption agreement, which defines the specific benefit provisions of the Plan, as provided in Section 19.02 of the ACCG Plan document.

The Association of County Commissioners Deferred Benefit Plan issues a publically available financial report that includes financial statements and required supplementary information for the statewide plan. That report may be obtained by contacting the Pension Service Company at 1100 Circle 75 Parkway, Suite 320, Atlanta, GA 30339.

All full-time County employees are eligible to participate in the Plan on the employee's employment commencement date. Benefits are fully vested after five years of service. Participants become eligible to retire at age 65 or 5 years of vesting service. Upon eligibility to retire, participants are entitled to an annual benefit in the amount of 1.50% of Average Annual Compensation multiplied by years of Credited Service. The plan also provides benefits in the event of death or disability.

### Funding Policy

The County is required to contribute an actuarially determined amount annually to the Plan's trust. The contribution amount is determined using actuarial methods and assumptions approved by the ACCG Plan trustees and must satisfy the minimum contribution requirement contained in the State of Georgia statutes.

Annual Pension Cost

The County's annual pension cost and net pension obligation for the pension plan for the current year were determined as follows:

| | 2014 | 2013 |

## III. Component Units

*Lee County Board of Health*

Retirement Plan

The employees of the Lee County Health Department are covered by the Employee's Retirement System of the State of Georgia. Total retirement contributions for the year ended June 30, 2014 were $68,605 based on qualifying salaries of $429,663. Ten year historical information may be obtained from the Employee's Retirement System of Georgia.

**NOTE K – RISK MANAGEMENT**

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. Settled claims from these risks have not exceeded insurance coverage for the past three years. To cover the risks, the County is a member of the Association County Commissioners of Georgia - Interlocal Risk Management Agency (ACCG-IRMA). The ACCG-IRMA operates under the authority of O.C.G.A. 36-85-1 *et Seq*. and administers group self-insurance funds, which receive contributions from its members in order to pool the risks of general liability, motor vehicle liability and property damage. Through participation in the agency, members jointly purchase insurance with other counties participating in and belonging to the agency and are coinsured under master policies with the total premium apportioned among the participants. The County is jointly and severally liable for all legal obligations of the funds which arise out of an event which occurs while the County is a member of the fund. The County's deductible for coverage ranges from $1,000 to $2,500 with various limits of liability up to $1,000,000 for liability, and $39,135,929 for property. Boiler and pressure vessels are covered objects per values submitted.

For its workers compensation coverage, the County is a member of the Association County Commissioners of Georgia-Group Self-Insurance Workers' Compensation Fund (ACCG-GSIWCF). The ACCG-GSIWCF operates under the authority of O.C.G.A 34-9-150 *et Seq*. The County pays into the fund its share of the fund's projected obligation for workers' compensation liability, administrative expenses, and other costs incurred by the fund. The County's share is adjusted by the board of the fund according to the claims experience of each participating member in accordance with criteria set forth in the bylaws of the fund. The fund makes payments to the employees of the members for workers' compensation benefits pursuant to and in accordance with the claims procedures set forth in title 34, chapter 9 of O.C.G.A. The County is jointly and severally liable for all legal obligations of the fund, including, but not limited to, any obligations of the fund to pay claims against the fund arising out of any occurrence, incident, or accident covered under title 34, chapter 9 of O.C.G.A.

The County has an employee benefit plan designed to protect employees covered against catastrophic health expenses. The plan is a self-funded welfare plan consisting of an insured part and a self-funded part. Under the plan, the self-funded part provides medical coverage for employees and their dependents up to a maximum of $80,000 per participant per plan year. The insured part provides insurance coverage for claims in excess of the coverage provided by the self-funded part, providing the County with protection from risk of loss. The total amount of the County's liability for a contract year, which begins February 1 and ends January 31, is the premium for each employee per month plus the maximum claim liability of $80,000 per employee per year not to exceed an estimated annual maximum cost of $3,077,136. The total claims incurred for the year ending June 30, 2014 by the County totaled $3,038,788. The County contracts with the plan administrator to examine, review, determine benefits, calculate payments, approve or disapprove all claims for the plan.

**NOTE L – JOINT VENTURES**

Under Georgia law, the County, in conjunction with other cities and counties in a fourteen county Southwest Georgia area, is a member of the Southwest Georgia Regional Commissions and is required to pay annual dues thereto. Membership in a regional commission is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the regional commission in Georgia. The Regional Commission Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a Regional Commission. Separate financial statements may be obtained from:

Southwest Georgia Regional Commissions
P.O. Box 346
30 West Broad St.
Camilla, Georgia 31730

**NOTE M – RELATED ORGANIZATIONS**

Related organizations are excluded from the financial reporting entity because the County's accountability does not extend beyond making appointments. Related organizations are described as follows:

Lee County Housing Authority

The Lee County Housing Authority administers Federal funding and/or other financing for improvement of housing conditions in the County. The six citizens who serve as the Governing Board are appointed by the County Commission. The County has no significant influence over management, budget, or policies of the Authority. The Authority reports independently.

**NOTE N – COMMITMENTS AND CONTINGENCIES**

The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the County's counsel that resolution of most of these matters will not have a material adverse effect on the financial condition of the County.

On July 22, 2008, the County adopted a resolution authorizing the County Administrator or the Finance Director to seek a loan in the form of a Tax Anticipation Note in an amount of up to $4,000,000.

The County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to the disallowance of certain expenditures previously reimbursed by those agencies. Based upon prior experience, management of the County believes such disallowances, if any, will not be significant.

**NOTE O – LANDFILL POST CLOSURE CARE COSTS**

State and federal laws and regulations require that the County place a final cover on its landfill when closed and perform certain maintenance and monitoring functions at the landfill site for five years after closure of landfills prior to April 1994 and thirty years for all other landfills. For the County's landfill, which was closed prior to April 1994, the estimated liability for post closure care cost is $751,736, which is based on 100% of landfill capacity used to date. Actual costs may be higher due to inflation, deflation, revisions to laws or regulations, or changes in technology.

**NOTE P – HOTEL/MOTEL TAX**

The County imposes a 5% hotel/motel tax on lodging facilities within the County. Revenues collected during the fiscal year ended June 30, 2014, were $2,501. The funds were expended by the County for tourism as required by O.C.G.A 48-13-51.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Commissioners
of Lee County, Georgia
Leesburg, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of Lee County, Georgia, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise Lee County, Georgia 's basic financial statements and have issued our report thereon dated January 6, 2015.

We did not audit the financial statements of the Development Authority of Lee County or the Lee County Health Department. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Lee County Health Department, is based solely on the report of the other auditors.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Lee County, Georgia 's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lee County, Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of Lee County, Georgia's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and responses, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

We consider the deficiencies described in the accompanying schedule of findings and responses to be material weaknesses (Findings 2014-1, 2014-2, 2014-3, 2014-4). A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

We consider the deficiencies described in the accompanying schedule of financial statement findings to be significant deficiencies in internal control over financial reporting

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by Lee County, Georgia's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. We consider the significant deficiencies described above to be material weaknesses.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Lee County, Georgia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Lee County, Georgia's Response to Findings**

Lee County, Georgia's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. Lee County, Georgia's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Financial Statement Findings and Responses**

Findings noted on the Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards.*

**2014 - 1**
**Criteria:**
Duties should be segregated between employees so that the responsibility for authorizing transactions, recording transactions, and maintaining custody of assets are assigned to different personnel.

**Condition:**
Lee County, Georgia is a small local government and has a limited amount of resources and employees. Therefore, the County does not have an adequate number of employees to provide for the proper segregation of duties.

**Cause of Condition:**
Since the County is a small local government, it is not financially feasible for the County to hire additional employees to provide for an adequate segregation of duties.

**Effect of Condition:**
The County's internal control structure does not contain adequate safeguarding controls provided by segregation of duties that would provide for the prevention or timely detection of unauthorized transactions and unauthorized access to assets that could result in losses that are material to the financial statements.

**Response of Management:**
Management concurs with this finding and is continually working to improve controls to mitigate the risks associated with this condition including the cross-training of staff for rotation of responsibilities.

**2014 - 2**
**Criteria:**
Generally accepted accounting principles require Governmental Fund financial statements to be reported using the current financial resources measurement focus and the modified accrual basis of accounting.

**Condition:**
The County's year end closing policies and procedures did not prevent a misstatement of accounts payable and deferred revenue in the General Fund.

**Cause of Condition:**
Two additional year end closing entries were required for reporting in accordance with generally accepted accounting principles.

**Effect of Condition:**
Two audit adjustments were required for reporting in accordance with generally accepted accounting principles.

**Response of Management:**
Management concurs with this finding and is developing additional policies and procedures and monitoring activities over financial reporting.

**2014 - 3 Lee County Utilities Authority ("Utilities Authority")**
Generally accepted accounting principles require Governmental Fund financial statements to be reported using the economic resource measurement focus and the accrual basis of accounting.

**Condition:**
The Utilities Authority year end closing policies and procedures did not prevent misstatements in the fund.

**Cause of Condition:**
Additional year end closing entries were required for reporting in accordance with generally accepted accounting principles.

**Effect of Condition:**
Audit adjustments were required for reporting in accordance with generally accepted accounting principles.

**Response of Management:**
Management concurs with this finding and is developing additional policies and procedures and monitoring activities over financial reporting.

**2014 -4 Lee County Sheriff's Department**
**Criteria:**
County officers are authorized by state statute to collect a variety of fees associated with their individual departments. With exceptions, money collected by county officers should be deposited into the county treasury on a timely basis.

**Condition:**
A portion of the funds collected by the Lee County Sheriff's department were not remitted to the county treasury on a timely basis.

**Cause of Condition:**
An accounting of all funds received by the Lee County Sheriff's department was not submitted to management.

**Effect of Condition:**
Funds collected by the Lee County Sheriff's department were not remitted to the county treasury on a timely basis.

**Response of Management:**
Management concurs with this finding and is developing additional policies and procedures and monitoring activities over financial reporting.
