INDEPENDENT AUDITORS' REPORT

Honorable Mayor and Members of the Town Council,
Town of Cohutta

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the Town of Cohutta as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the Town of Cohutta's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

201 N. THORNTON AVE | P.O. BOX 749 | DALTON, GA 30722 | PHONE 706.529.0749 | FAX 706.529.5549

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Town of Cohutta as of December 31, 2015, and the respective changes in financial position and the budgetary comparison information for the general fund and the SPLOST capital projects fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 8 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 24, 2017, on our consideration of the Town of Cohutta's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Cohutta's internal control over financial reporting and compliance.

Town of Cohutta
Management's Discussion and Analysis
December 31, 2015
(Unaudited)

Within this section of the Town of Cohutta's ("Town") annual financial report, the Mayor is pleased to provide this narrative discussion and analysis of the financial activities of the Town for the calendar year ended December 31, 2015. The Town's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section.

Financial highlights

- The Town's assets exceeded its liabilities by $1,345,601 (net position) for the calendar year reported.
- Total net position is comprised of the following:
  (1) Investment in capital assets of $603,494 includes property and equipment, net of accumulated depreciation.
  (2) Restricted net position of $484,857 represents SPLOST funds that are restricted for capital projects.
  (3) Unrestricted net position of $257,250 represents the portion available to maintain the Town's continuing obligations to citizens and creditors.
- At the end of the current calendar year, unrestricted fund balance for the general fund was $257,250, or 82% of total general fund expenditures.

The above financial highlights are explained in more detail in the "financial analysis" section of this document.

Overview of the financial statements

This management discussion and analysis document introduces the Town's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. Comparative data is presented when available.

Government-wide financial statements

The Town's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the Town's overall financial status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds.

The first of these government-wide statements is the statement of net position. The statement of net position presents information that includes all of the Town's assets and liabilities, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town as a whole is improving or deteriorating. Evaluation of the overall health of the Town would extend to other nonfinancial factors such as diversification of the taxpayer base or the condition of Town infrastructure, in addition to the financial information provided in this report.

Governmental activities include general government, judicial, public safety, and public works.

The government-wide financial statements are presented on pages 9 and 10 of this report.

Fund financial statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The Town uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the Town's most significant funds rather than the Town as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation.

The Town has only governmental funds. Governmental funds are reported in the fund financial statements and encompass the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the Town's governmental funds. These statements report short-term calendar accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the general fund balance sheet and the general fund operating statement provide a reconciliation to assist in understanding the differences between these two perspectives.

The basic fund financial statements are presented on pages 11 through 14 of this report.

Notes to the basic financial statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin on page 17.

Other supplementary information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Town's budget presentations. Budgetary comparison statements demonstrate compliance with the Town's adopted and final revised budget. Budgetary comparison statements for the general fund and SPLOST capital projects fund can be found on pages 15 and 16 of this report.

Financial analysis of the Town as a whole

The Town's net position at year end is $1,345,601. The following table provides a summary of the Town's assets, liabilities, and net position:

	Governmental activities	
	2015	2014
Assets:		
Current assets	$ 760,232	$ 257,606
Capital assets	603,494	654,911
Total assets	1,363,726	912,517
Liabilities:		
Current liabilities	18,125	9,080
Total liabilities	18,125	9,080
Net position:		
Investment in capital assets	603,494	654,911
Restricted for capital projects	484,857	-
Unrestricted	257,250	248,526
Total net position	$ 1,345,601	$ 903,437

Current assets are primarily comprised of cash, and current liabilities consist of accrued payroll and related costs. The Town maintains a high current ratio. The current ratio compares current assets to current liabilities and is an indication of the ability to pay current obligations. The current ratio for governmental activities was 42 to 1 in 2015.

Note that approximately 45% of the governmental activities' net position is invested in capital assets. The Town uses these capital assets to provide services to its citizens. A significant portion of this amount is related to Town-owned land and buildings.

The following table provides a summary of the Town's change in net position:

	Governmental activities		
	2015	2014	Increase (Decrease)
Revenues:			
Program:			
Charges for services	$ 118,809	$ 92,771	$ 26,038
Operating grants and contributions	9,918	9,104	814
Capital grants and contributions	485,000	-	485,000
General:			
Taxes	183,073	185,360	(2,287)
Donations	10,586	6,250	4,336
Investment earnings	417	33	384
Other	459	5,338	(4,879)
Total revenues	808,262	298,856	509,406
Program expenses:			
General government	235,787	242,947	(7,160)
Judicial	22,609	19,982	2,627
Public safety	100,697	125,801	(25,104)
Public works	7,005	5,303	1,702
Total expenses	366,098	394,033	(27,935)
Change in net position	442,164	(95,177)	537,341
Beginning net position	903,437	998,614	(95,177)
Ending net position	$ 1,345,601	$ 903,437	414,229

Governmental revenues

Governmental revenues were up $509,406 (170%) from the prior year. The capital grants and contributions revenue of $485,000 is an inflow from special purpose local option sales tax ("SPLOST"), which began in July 2015. The Town entered into an intergovernmental agreement with Whitfield County, Georgia and the other cities within Whitfield County. It was agreed that the smaller cities, the Town included, would receive SPLOST proceeds up front, while Whitfield County and the City of Dalton, Georgia would receive theirs over the five year SPLOST period. The Town received their full share of $485,000 in SPLOST proceeds in 2015, and this amount will be spent over the next several years on four projects: police cars, repairs to the medical rescue unit, renovations to the walking track and city hall, and sewer projects. The Town also receives revenues from local option sales tax ("LOST"). The Town's allocable share of those proceeds increases slightly every year, based upon an intergovernmental agreement with Whitfield County and the other cities within Whitfield County.

Governmental functional expenses

This table presents the cost of each of the Town's programs, including the net costs (i.e., total cost less revenues generated by the activities). The net costs illustrate the financial burden that was placed on the Town's taxpayers by each of these functions for the year ended December 31, 2015.

	Total cost of services	Net cost of services
General government	$ 235,787	$ (94,268)
Judicial	22,609	(22,609)
Public safety	100,697	136,511
Public works	7,005	227,995
Total	$ 366,098	$ 247,629

The net cost of services is a positive for the public safety and public works functions, indicating the revenues generated by those functions are higher than the costs. This information is misleading for the 2015 year, as $485,000 in SPLOST revenues were received during the year, with essentially no expenditures of those revenues. SPLOST revenues were allocated as follows: $170,000 to the public safety function, $80,000 to the general government function, and $235,000 to the public works function. SPLOST expenditures for the year for all functions totaled $143. In future years, these functions will experience higher deficits as the Town spends the $485,000 collected and reported in 2015.

Capital assets

The Town's investment in capital assets as of December 31, 2015 was $603,494. The following table provides a summary of capital asset activity. See Note 5 for additional information.

	2015	2014
Non-depreciable assets:		
Land	$ 412,530	$ 410,115
Depreciable assets:		
Buildings and improvements	1,043,237	1,043,237
Vehicles	104,093	104,093
Total depreciable assets	1,147,330	1,147,330
Less accumulated depreciation	956,366	902,534
Book value - depreciable assets	$ 190,964	$ 244,796
Percentage depreciated	83%	79%
Book value - all assets	$ 603,494	$ 654,911

Financial analysis of the Town's funds

Governmental funds

As discussed, the governmental funds are reported in the fund statements with a short-term, inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending fund balances of $742,107.

The total ending fund balances of governmental funds show a net increase of $493,581 (199%) from the prior year.

The general fund is the Town's primary operating fund and the largest source of day-to-day service delivery. The general fund's fund balance increased by $8,724. The Town also has a new SPLOST capital projects fund which had a balance of $484,857 at year end.

Budgetary information

The Town of Cohutta adopts a budget each year for the general fund. The budget is approved by the Town Council, however, the Town did not adopt a detailed budget.

There were no budget amendments during the year.

The final budget figures varied significantly from the actual figures due to the lack of a detailed and amended budget. All of the government functions were over budget.

Economic conditions affecting the Town

The Town's annual budget relies heavily on the performance of the local economy. The revenues collected from certain revenue streams are somewhat predictable, but are subject to variation with the local economy. The Town received benefit from the 1% SPLOST that was approved by voters in March 2015. The SPLOST will be spent over a period of four years, and will primarily be used to fund road and public safety projects.

Contacting the Town's financial management

This financial report is designed to provide a general overview of the Town's finances, comply with finance related laws and regulations, and demonstrate the Town's commitment to public accountability. If you have questions about this report or would like to request additional information, contact the Town of Cohutta's Town Clerk Office at (706) 694-3170.

NOTES TO THE BASIC FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies

The Town of Cohutta ("Town") operates under a Mayor-Council form of government and provides the following services as authorized by its charter: public safety, culture and recreation, public improvements, and general administrative services.

The financial statements of the Town have been prepared in conformity with generally accepted accounting principles ("GAAP") as applied to government units. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Reporting Entity

The reporting entity is comprised of the primary government and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the Town consists of all funds, departments, boards, and agencies that are not legally separate from the Town. The entity includes the legal entity, the Town of Cohutta.

Component units are legally separate organizations for which the Town is financially accountable. The Town is financially accountable for an organization if the Town appoints a voting majority of the organization's governing board and (1) the Town is able to significantly influence the programs or services performed or provided by the organizations or (2) the Town is legally entitled to or can otherwise access the organization's resources; the Town is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the Town is obligated for the debt of the organization. Component units also may include organizations that are fiscally dependent on the Town in that the Town approves the budget, levies their taxes or issues their debt. Based upon the application of these criteria no potential component units exist.

Under Georgia law, the Town, in conjunction with other cities and counties in the region, is a member of the Northwest Georgia Regional Commission ("NWGRC") and is required to pay annual dues thereto. The Town utilizes the NWGRC for projects such as performing planning and administrative services. During its year ended December 31, 2015, the Town paid $634 in dues to the NWGRC. Membership in a NWGRC is required by the Official Code of Georgia Annotated ("OCGA") Section 50-8-34 which provides for the organizational structure of the NWGRC in Georgia. The NWGRC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of the NWGRC. Separately issued financial statements may be obtained from the Northwest Georgia Regional Commission, PO Box 1798, Rome, Georgia 30162.

Note 1. Summary of Significant Accounting Policies - continued

Basis of Presentation

The Town's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide financial statements - The government-wide financial statements include the statement of net position and the statement of activities. These statements report financial information for the Town as a whole. Individual funds are not displayed at this financial reporting level. These statements present governmental activities, which are generally supported by Town general revenues.

The statement of net position presents the financial position of the governmental activities of the Town at year end.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Town's governmental activities. Direct expenses are those that are specifically associated with a function and therefore are clearly identifiable to that particular function. The Town does not allocate indirect expenses to functions in the statement of activities.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services, which includes fees and other charges to users of the Town's services, (2) operating grants and contributions which finance annual operating activities including restricted investment income, and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. For identifying to which function program revenue pertains, the determining factor for charges for services is which function generates the revenue. For grants and contributions, the determining factor is to which functions the revenues are restricted.

Other revenue sources not properly included with program revenues are reported as general revenues of the Town. The comparison of direct expenses with program revenues identifies the extent to which each governmental function and each identifiable business activity is self-financing or draws from the general revenues of the Town.

Fund financial statements - During the year, the Town segregates transactions related to certain Town functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Town at this more detailed level. Fund financial statements are provided for governmental funds. Major individual governmental funds are reported in separate columns.

Note 1. Summary of Significant Accounting Policies - continued

Fund accounting - The Town uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The Town has two funds.

General fund - The general fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund. General fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various general funds according to the purposes for which they may or must be used. Fund liabilities are assigned to the fund from which they will be liquidated. The Town reports the difference between general fund assets and liabilities as fund balance. The general fund is always a major fund.

Major governmental funds - The SPLOST capital projects fund is used to account for SPLOST revenue and the related expenditures for capital projects.

Measurement Focus

Government-wide financial statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the Town are included on the statement of net position. The statement of activities reports revenues and expenses.

Fund financial statements - The general fund is accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reports the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the fund financial statements.

Budgets and Budgetary Accounting

The Town adopts a budget each year for the general fund which is made public prior to enactment. The hearing date is posted at the local post office and the budget is made available for public inspection at Town Hall. The budget is enacted through a vote of the Town Council. The budget for the general fund is adopted on a basis consistent with GAAP. The budget is amended as necessary throughout the calendar year, as approved by the council. All annual appropriations lapse at year end. The legal level of budgetary control is at the department level.

The statements of revenues, expenditures, and changes in fund balance – budget and actual – general fund and the SPLOST capital projects fund present a comparison of budgetary data to actual results of operations for which annual operating budgets are legally adopted. The fund utilizes the same basis of accounting for both budgetary purposes and actual results.

Note 1. Summary of Significant Accounting Policies - continued

Basis of Accounting

The basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. At the fund reporting level, the general fund uses the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, in the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues – exchange transactions - Revenue resulting from exchange transactions in which each party gives and receives essentially equal value is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the year in which the resources are measurable and become available. Available means that the resources will be collected within the current calendar year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the Town, the phrase "available for exchange transactions" means expected to be received within 60 days of year-end.

Revenues – nonexchange transactions – Nonexchange transactions in which the Town received value without directly giving equal value in return include grants and donations. On an accrual basis, revenue from sales tax is recognized in the period in which the taxable sale takes place. Revenue from grants and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the Town must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Town on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions also must be available (i.e., collected within 60 days) before it can be recognized. Under the modified accrual basis, the following revenue sources are considered to be susceptible to accrual: sales tax, interest, federal grants, and state grants.

Expenses and expenditures – On the accrual basis of accounting, expenses are recognized at the time they are incurred. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due, if measurable.

Cash, Cash Equivalents, and Investments

Cash and cash equivalents include amounts in demand deposits, cash on hand, non-negotiable certificates of deposit, and short-term investments with a maturity date three months or less of the date acquired by the Town. State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements. Investments are stated at fair value.

Note 1. Summary of Significant Accounting Policies - continued

Prepaid Items

Payments made to vendors for goods and services that will benefit periods beyond the end of the calendar year and prepaid deposits are recorded as prepaid items. The expense is recognized during the benefiting period.

Capital Assets

General capital assets - These assets result from expenditures in general fund. The Town reports these assets in the governmental activities column of the government-wide statement of net position but does not report these assets in the general fund financial statements.

The Town has not officially adopted a capitalization policy for capital assets, but utilized the following guidelines for the year, which they intend to adopt in the future.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The Town maintains a capitalization threshold of five thousand dollars. Improvements to capital assets are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed.

All reported capital assets are depreciated except for land, right-of-ways, and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. The Town has not recorded any infrastructure, such as streets, bridges, or like items, as those assets within the Town limits are maintained by Whitfield County, and are capitalized in their records. Depreciation is computed using the straight-line method over the following useful lives:

Description	Estimated lives governmental activities
Buildings	20 - 40 years
Building improvements	20 - 40 years
Streets	25 years
Equipment	5 - 10 years
Furniture	5 - 10 years
Vehicles	5 - 7 years

Accrued Liabilities

All payables and accrued liabilities are reported in the government-wide financial statements. In general, payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the general fund.

Note 1. Summary of Significant Accounting Policies - continued

Net Position and Fund Balances

The Town's net position on the government-wide statement net position is classified as follows:

Investment in capital assets - This represents the Town's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets. The Town uses the term investment in capital assets rather than net investment in capital assets as they have no outstanding debt related to capital assets.

Restricted net position - These represent resources for which the Town is legally or contractually obligated to spend resources for continuation of federal programs, debt service, and capital projects in accordance with restrictions imposed by external third parties.

Unrestricted net position - Unrestricted net position represents resources derived from sales taxes, grants and contributions not restricted to specific programs, charges for services, and miscellaneous revenues. These resources are used for transactions relating to general operations of the Town, and may be used at the discretion of the Town Council to meet current expenses for those purposes.

The Town reports fund balance under the guidance of GASB No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. Fund equity at the fund reporting level is classified as "fund balance". Generally, fund balance represents the difference between the assets and liabilities under the current financial resources measurement focus of accounting. In the fund financial statements, the general fund reports fund balance classifications that comprise a hierarchy based primarily on the extent to which the Town is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The Town's fund balance is classified as follows:

1) Non-spendable fund balance - Non-cash assets such as inventories or prepaid items.

2) Restricted fund balance - Funds with limitations imposed on their use by external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

3) Committed fund balance - Amounts that can only be used for specific purposes pursuant to a majority vote of the Town Council, the Town's highest level of decision making authority, by resolution or contractual obligation. Commitments may only be modified or rescinded by a majority vote of the Council.

4) Assigned fund balance - Amounts intended by the Town Council for specific purposes may be assigned by the Town administrator under the authorization of the Town Council. Equity amounts reported in special revenue funds, capital projects funds, and debt service funds not otherwise classified as nonspendable, restricted, or committed shall constitute assignments of fund balance.

Note 1. Summary of Significant Accounting Policies - continued

5) Unassigned fund balance - Residual spendable fund balance after subtracting all above amounts.

Non-spendable fund balances and restricted fund balances are considered restricted net position on the statement of net position. Committed, assigned, non-spendable, and unassigned fund balances are considered unrestricted net position on the statement of net position.

The Town has not officially adopted a utilization policy for fund balance, but utilized the following guidelines for the year, which they intend to adopt in the future.

When expenditures are incurred by the Town that would qualify for payment with either restricted or unrestricted funds, it will be paid from restricted funds. When an expenditure is incurred that qualifies for payment from one of the three unrestricted fund balances categories, it will be applied in the following order: committed, assigned, then unassigned.

Deferred Outflows/Inflows of Resources

The Town reports financial information in accordance with GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and No. 65, *Items Previously Reported as Assets and Liabilities*. These standards establish accounting and financial reporting for deferred outflows/inflows of resources and the concept of net position as the residual of all other elements presented in a statement of financial position.

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town has no items that qualify for reporting in this category.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until then. The Town has no items that qualify for reporting in this category.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates.

Note 1. Summary of Significant Accounting Policies - continued

Subsequent Events

Management has evaluated subsequent events through July 24, 2017, the date the financial statements were available to be issued.

Note 2. Stewardship, Compliance, and Accountability

Budgetary Information

The Town adopts an annual operating budget for the general fund. The annual budget is adopted on a basis consistent with GAAP. The legal level of control (the level at which expenditures may not legally exceed appropriations) for the adopted annual operating budget is at the department level. All unexpended annual appropriations lapse at year-end.

Material Violations of Finance-Related Legal and Contractual Provisions

A detailed budget was not adopted for the 2015 year, and no amendments were made to the summarized budget. The final budget figures varied significantly from the actual figures, and each of the funds and functions expenditures exceeded their respective budgets.

Note 3. Cash

The Town does not have formally adopted deposit and investment policies. At December 31, 2015, the Town held bank balances of $698,743, all of which was adequately insured and collateralized by securities held by the pledging financial institution.

Note 4. Receivables

Receivables at December 31, 2015 consisted of taxes, franchise fees, and intergovernmental revenues. Receivables and payables are recorded on the Town's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectability.

Note 5. Capital Assets

Governmental activities capital asset activity for the year ended December 31, 2015 was as follows:

	Balance at 12/31/2014	Additions	Disposals	Balance at 12/31/2015
Capital assets not being depreciatied:				
Land	$ 410,115	$ 2,415	$ -	$ 412,530
Total capital assets not being depreciated	410,115	2,415	-	412,530
Other capital assets:				
Buildings and improvements	1,043,237	6,821	(6,821)	1,043,237
Vehicles	104,093	-	-	104,093
Total other capital assets	1,147,330	6,821	(6,821)	1,147,330
Total cost	1,557,445	9,236	(6,821)	1,559,860
Accumulated depreciation:				
Buildings and improvement	823,958	42,546	(14)	866,490
Vehicles	78,576	11,300	-	89,876
Total accumulated depreciation	902,534	53,846	(14)	956,366
Governmental activities capital assets, net	$ 654,911	$ (44,610)	$ (6,807)	$ 603,494

Governmental activities depreciation expense:	
General government	$ 42,546
Public safety	11,300
Total governmental activities depreciation expense	$ 53,846

Note 6. Risk Management

The Town is exposed to various risks of losses related to torts, thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town has joined together with other municipalities in the state as part of the Georgia Interlocal Risk Management Agency Property and Liability Insurance Fund, public entity risk pool currently operating as a common risk management and insurance program for member local governments.

As part of these risk pools, the Town is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pool's agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The Town is also to allow the pool's agents and attorneys to represent the Town in investigation, settlement discussions and all levels of litigation arising out of any claim made against the Town within the scope of loss protection furnished by the funds.

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the worker's compensation law of Georgia. The funds are to pay all cost taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense. There were no significant reductions in insurance coverage in relation to the prior year. For the years ended 2015, 2014, and 2013, there were no settlements in excess of insurance coverage.

SPECIAL REPORTS SECTION

ESTES & WALCOTT
CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITORS' REPORT ON SPECIAL PURPOSE LOCAL OPTION SALES TAX

Honorable Mayor and Members of the Town Council,
Town of Cohutta

We have audited, in accordance with auditing standards generally accepted in the United States of America, the accompanying schedule of projects constructed with special purpose local option sales tax as of December 31, 2015. The schedule of projects constructed with special purpose local option sales tax is prepared using the accrual basis of accounting. This schedule of projects constructed with special purpose local option sales tax is the responsibility of the Town of Cohutta's management. Our responsibility is to express an opinion on the schedule of projects constructed with special purpose local option sales tax based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of projects constructed with special purpose local option sales tax is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the schedule of projects constructed with special purpose local option sales tax. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the schedule of projects constructed with special purpose local option sales tax. We believe that our audit provides a reasonable basis for our opinion.

The accompanying schedule of projects constructed with special purpose local option sales tax is prepared for the purpose of demonstrating compliance with the rules and regulations identified in the resolution or ordinance calling for imposition of the special sales and use tax authorized by Section 48-8-110 OCGA.

In our opinion, the schedule of projects constructed with special purpose local option sales tax referred to above presents fairly, in all material respects, the financial progress of the two projects being constructed using the Special Purpose Local Option Sales Tax for the period ended December 31, 2015, in conformity with accounting principles generally accepted in the United States of America.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Mayor and Members of the Town Council,
Town of Cohutta

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the Town of Cohutta as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the Town of Cohutta's basic financial statements and have issued our report thereon dated July 24, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Cohutta's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Cohutta's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Cohutta's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charges with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies. (2015-001, 2015-002, 2015-003, 2015-004)

201 N. THORNTON AVE | P.O. BOX 749 | DALTON, GA 30722 | PHONE 706.529.0749 | FAX 706.529.5549

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Cohutta's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses as item 2015-005.

Town of Cohutta's Response to Findings

The Town of Cohutta's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. Town of Cohutta's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Estes & Walcott

Dalton, Georgia
July 24, 2017

Town of Cohutta
Schedule of Findings and Responses
December 31, 2015

Significant Deficiencies:

2015-001 Condition: Accounts receivable, accounts payable, and other accruals are not recorded.

Effect: Failure to record accounts receivable and other accounts on the modified accrual basis could lead to financial statement misstatement that is material to the basic financial statements.

Recommendation: The government should record receivables, payables, and like accounts on the modified accrual basis of accounting.

View of responsible officials and planned corrective actions: The Town agrees. We intend to record accounts receivable and other accruals in the future.

2015-002 Condition: Inadequate segregation of duties.

Effect: Inadequate segregation of duties makes the government more susceptible to fraud.

Recommendation: Since the Town is unable to hire more employees to increase segregation of duties, management oversight of accounting functions is imperative.

View of responsible officials and planned corrective actions: The Town agrees. Management does provide oversight of accounting function. The timeliness and promptness of such oversight will be improved.

2015-003 Condition: The Town has not adopted a deposit and investment policy, a capitalization policy, or a fund balance policy.

Effect: These policies exist to ensure Town compliance with Council intentions, and allow for monitoring and safeguarding.

Recommendation: The Town should create and implement policies for the noted areas.

View of responsible officials and planned corrective actions: The Town agrees. We will create and implement the policies noted.

Significant Deficiencies (continued):

2015-004 Condition: Numerous adjusting entries were required to reclassify postings and, in limited circumstances, record activity.

Effect: The Town's internal financial statements were not appropriately classified and reported, which does not allow for adequate oversight.

Recommendation: The Town should record all adjusting journal entries from the audit, should take steps to verify that all balance sheet accounts are reconciled on a monthly basis, and should review income and expense items monthly to ensure that all activity is appropriately posted.

View of responsible officials and planned corrective actions: The Town agrees. We will perform additional review procedures on an ongoing basis to ensure the financial information is reliable.

2015-005 Condition: The Town experienced material violations of the budget.

Effect: Failure to properly adopt and amend the budget during the year could cause data analysis to be inaccurate.

Recommendation: The Town should adopt a detailed budget in accordance with their legal level of budgetary compliance, and should amend it throughout the year as needed.

View of responsible officials and planned corrective actions: The Town agrees. A detailed budget will be prepared and adopted for 2016, and amendments will be made as necessary.
