COMPLIANCE AND INTERNAL CONTROL REPORT

Report on Compliance and on Internal Control over Financial Reporting Based on an Audit of Financial Statements Performed In Accordance with *Government Auditing Standards* 34 - 35

ROBERT A. MCALISTER, CPA, PC

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and City Council
City of Dacula, Georgia

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund of the City of Dacula, Georgia, as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities and each major fund of the City of Dacula, Georgia, as of December 31, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

3875 JOHNS CREEK PKWY, SUITE B, SUWANEE, GA 30024

Other Matters

Required Supplementary Information

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on pages 28 through 29 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise City of Dacula, Georgia's basic financial statements. The supplementary information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The schedule of projects constructed with special sales tax proceeds, community development block grant project cost schedule and the other schedules included in other supplementary information as described in the accompanying table of contents, are presented for the purpose of additional analysis and are not a required part of the basic financial statements. These statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Project Expenditures with Special Option Sales Tax Revenue and the Community Development Block Grant Project Cost Schedule are presented fairly in all material respects in relation to the financial statements taken as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have issued our report dated June 29, 2015 on our consideration of the City of Dacula, Georgia's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of the report is to describe the scope of testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion of the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control over financial reporting and compliance and should be read in conjunction with this report in considering the results of our audit.

Robert A. McAlister, CPA, PC

Suwanee, Georgia

CITY OF DACULA, GEORGIA
RECONCILIATION OF GOVERNMENTAL FUND BALANCE SHEET
TO THE STATEMENT OF NET POSITION
December 31, 2014

Total Fund Balance for Governmental Fund	$ 5,543,469
Amounts reported for governmental activities in the Statement of Net Position are different because:	
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds, net of accumulated depreciation of $1,269,341	5,986,995
Some liabilities are not due and payable in the current period and therefore are not reported in the funds. Balances at December 31, 2014 are:	
Compensated absences	(13,293)
Because some property taxes will not be collected for several months after the City's year ends, they are not considered as "available" revenues in the governmental funds	19,345
Net position of governmental activities	$ 11,536,516

The accompanying notes are an integral part of this statement

CITY OF DACULA, GEORGIA
STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE

Fund Balance - Beginning of Year	3,888,518	1,260,656	5,149,174
Fund Balance - End of Year	$ 4,069,892	$ 1,473,577	$ 5,543,469

The accompanying notes are an integral part of this statement

CITY OF DACULA, GEORGIA
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUND
TO THE STATEMENT OF ACTIVITIES
For the Year Ended December 31, 2014

Net change in fund balance - total governmental fund	$	394,295
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets:		
Capital outlays		755,004
Depreciation		(150,873)
Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available.		
Compensated absences		112
Governmental funds defer all tax revenues not collected within sixty days of year end. However, the Statement of Activities uses the accrual method and, thus, the entire amount is recognized as revenue, regardless of the collection date		9,526
Change in net position of governmental activities	$	1,008,064

The accompanying notes are an integral part of this statement

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The financial statements of City of Dacula, Georgia (the "City") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") as applied to government units. As required by GAAP, these financial statements present the City and its component units, entities for which the City is considered to be financially accountable. Blended component units, although legally separate entities are, in substance, part of the City's operations and so data from these units are combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the combined financial statements to emphasize they are legally separate from the City.

Currently, the City has no blended component units or discretely presented component units.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the City (the primary government) and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The City has elected not to allocate indirect costs among the programs, functions and segments. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

C. Measurement of Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Revenues susceptible to accrual are property taxes, interest and grants. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. Other receipts and taxes become measurable and available when cash is received by the City and are recognized as revenue at that time.

Proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, primarily directed to continuing operations. Reporting focuses on the determination of net income, financial position and cash flows. Principal operating revenues for proprietary funds are charges to customers for services. Principal operating expenses are costs of providing services and includes administrative expenses and depreciation of capital assets.

Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

The City reports the following major governmental fund:

The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

C. Measurement of Focus, Basis of Accounting and Basis of Presentation - Continued

The Capital Projects Fund is for SPLOST activities. It accounts for all financial resources of SPLOST projects such as roads, streets, bridges and recreational facilities.

The City reports the following major proprietary fund:

The Sanitation Fund is used to account for the provision of sanitation services to businesses and residents of the City. All activities necessary to provide such services are accounted for in the fund, including but not limited to, administration, operation, financing and related debt services, and billing and collections.

The City complies with Governmental Accounting Standards Board ("GASB") Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting. This Statement requires the City to apply all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board (APB) Opinions, and Accounting Research Bulletins (ARB's). As permitted by GASB No. 20, the City has elected not to comply with the FASB Statements and Interpretations issued after November 30, 1989.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's proprietary funds are charges to customers for sales and services; operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

C. Measurement of Focus, Basis of Accounting and Basis of Presentation - Continued

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Cash, Cash Equivalents and Investments

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the City.

Investments, if any, are stated at fair market value with unrealized holding gains and losses reported as the "Change in fair market value of investments" in the Statement of Revenues, Expenditures and Changes in Fund Balance.

E. Inventory

Materials purchased during the year are shown as expenditures when acquired and are not inventoried at year end due to lack of materiality.

F. Restricted Assets

There was no outstanding debt at December 31, 2014 that required assets to be maintained.

G. Prepaid Items

Prepaid balances, if any, are for payments made by the City in the current year to provide services occurring in the subsequent year, and are listed as nonspendable for prepaid items to signify that a portion of fund balance is not available for other subsequent expenditures.

H. Capital Assets and Depreciation

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., streets, sidewalks, distribution systems and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

H. Capital Assets and Depreciation - Continued

Prior to January 1, 2004, governmental funds' infrastructure assets were not capitalized.

The costs of normal repairs and maintenance that do not add to the value of the asset or materially extend assets lives are not capitalized. The City generally capitalizes assets with a cost of $500 or more as purchase and construction outlays occur.

Depreciation of capital assets is computed and recorded by the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows:

Buildings	40 years
Infrastructure	40 years
Furniture and equipment	5 - 7 years
Vehicles	5 years
Land improvements	40 years

I. Compensated Absences

Accumulated leave of governmental funds that is expected to be liquidated with expendable available financial resources is reported as expenditure in the fund financial statements. All accumulated leave, including that which is not expected to be liquidated with expendable available financial resources, is reported in the government-wide financial statements. Accumulated leave of Enterprise Funds is recorded as an expense and liability of the respective fund as the benefits accrue to employees. Liabilities for compensated absences are recorded as other liabilities and accrued expenses in the Sanitation Fund. In accordance with the provisions of Governmental Accounting Standards Board Statement No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits.

Full-time, permanent employees who have twenty years of service are allowed to accumulate up to one hundred days sick leave. The employee shall then be paid upon retirement and at the normal rate of pay for an eligible employee. The City had $13,293 of accrued sick leave at December 31, 2014.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

J. Long-Term Obligations

The City has no long-term obligations as of December 31, 2014.

K. Equity Classifications

Government-wide Statements

Equity is classified as net position and displayed in three components:

Investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position – Consists of net positions with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted net position – All other net positions that do not meet the definition of "restricted" or "net investment in capital assets, net of related debt."

Fund Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved further split between designated and undesignated. Proprietary fund equity is classified the same as in the government-wide statements.

L. Interfund Transactions

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly chargeable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers.

2. DEPOSITS AND INVESTMENTS

Primary Government

Deposits – State statutes require that all deposits in financial institutions be fully collateralized by U.S. Government obligations or obligations of Georgia and its agencies that have a market value of not less than the principal amount of the deposits. The City's deposits consist of checking and savings accounts, and non-negotiable certificates of deposits in local banks. At December 31, 2014, the book balance of checking and savings accounts, and non-negotiable certificates of deposits in all banks was $5,967,940 and the bank balance was $5,919,666. Of the bank balance, $925,090 was covered by federal depository insurance and $4,994,576 was covered by collateral held by the banks in the City's name.

The collateral for the City's deposits is categorized to give an indication of the level of risk assumed by the City at year-end. Category 1 includes deposits that are insured or collateralized with securities held by the City or its agent in the City's name. Category 2 includes deposits collateralized with securities held by the pledging financial institution's trust department or agent in the City's name. Category 3 includes deposits that are uncollateralized, including any bank balance that is collateralized with securities held by the pledging financial institution, or by its trust department or agent, but not in the City's name.

Bank Deposit	Category			Bank	Carrying
Covered By	1	2	3	Balance	Value
U.S. Government Agencies and Georgia county government bonds	$ 4,994,576	$ -	$ -	$ 4,994,576	$ 5,042,850
FDIC insurance	925,090	-	-	925,090	925,090
Total Cash and Cash Equivalents	$ 5,919,666	$ -	$ -	$ 5,919,666	$ 5,967,940

Investments – There were no investments at December 31, 2014.

3. PROPERTY TAXES

The value of all real and business personal property located in the City is assessed (appraised) by Gwinnett County. Taxable assessed value represents the appraisal value less applicable exemptions authorized by Gwinnett County. Appraised values are established by Gwinnett County. The City levies property taxes on August 1 of each year and the taxes are due on September 15 for the first installment and December 15 for the second installment, with a lien date of March 15. Taxes are collected by Gwinnett County throughout the year and are remitted to the City. Current tax collections for the year ended December 31, 2014, were 95.2% of the tax levy.

Property taxes are recorded as receivables and deferred at the time the tax levy is billed. Revenues are recognized as the related ad valorem taxes are collected. Additional amounts estimated to be collectible within sixty days following the close of the year, and therefore susceptible to accrual in accordance with GAAP have been recognized as revenue.

4. ACCOUNTS RECEIVABLE

At December 31, 2014, accounts receivable consisted of the following:

	Governmental Activities	Business-type Activities	Total
General fund			
Taxes receivable	$ 31,834	$ -	$ 31,834
Special Purpose Local Option Sales Tax	71,387	-	71,387
Proprietary fund			
Sanitation receivable	-	16,052	16,052
	103,221	16,052	119,273
Allowance for Doubtful Accounts	-	-	-
	$ 103,221	$ 16,052	$ 119,273

5. INTERFUND TRANSACTIONS AND BALANCES

For the year ended December 31, 2014, the General Fund transferred $102,753 to the Sanitation Fund for purposes of subsidizing operating functions.

6. CAPITAL ASSETS AND DEPRECIATION

Capital asset activity for the year ended December 31, 2014 was as follows:

	Balance 12/31/13	Additions	Deletions	Balance 12/31/14
Governmental activities				
Not being depreciated				
Construction in progress	$ -	$ 248,031	$ -	$ 248,031

Depreciation was charged to functions as follows:

Governmental activities	
General government	$ 67,748
Streets	83,125
Business-type activities	
Sanitation	-
	$ 150,873

7. FUND DEFICITS

No fund had a deficit fund balance or net position balance at December 31, 2014.

8. COMMITMENTS AND CONTINGENCIES

Amounts received or receivable from federal grantor agencies are subject to audit and adjustment by the applicable agency. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable fund. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

Litigation

The City Attorney advised that no legal actions were in progress by or against the City at December 31, 2014, that would have a material effect on the City's financial condition.

9. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions, job related illnesses or injuries to employees; natural disaster and unemployment compensation.

The City manages its risk by the purchase of commercial insurance and fidelity bonds. The commercial insurance purchased is in an amount sufficient to the City's risk of loss and consequently the City has effectively not retained the risk of loss. There were no significant reductions in insurance coverage compared to the prior year nor were there any settlements in excess of insurance coverage for the past three years.

10. RETIREMENT PLAN

A. Plan Description

As authorized by the City Council, through the adoption of a city ordinance, the City participates in a defined benefit agent-multiple-employer retirement plan, which is administered through the Georgia Municipal Employees Benefit System (GMEBS). The plan covers all of the City's employees. The plan's actuarial valuation is not computed for individual funds of the City that participates in the plan. Accordingly, the pension plan disclosures herein are for the Plan as a whole.

The City is required to contribute at an actuarially determined rate. Section 47-20 of the Georgia Code sets forth the funding standards for state and local governmental pension plans. Administrative expenses are based on total covered payroll of plan members and are added to the annual funding requirements

10. RETIREMENT PLAN – CONTINUED

The Georgia Constitution enables the governing authority, the City Council, to establish and amend from time to time, the contribution rates of the employer and its plan members.

The Plan issues a publicly available financial report that includes financial statements and required supplementary information for the Plan. A copy of that report may be obtained by writing to the City of Dacula, P.O. Box 400, Dacula, Georgia 30019-0400.

Employees are eligible for participation after one year of continuous service. The City's plan is a Non-Contributory plan, which means the City bears the entire cost of the plan. Covered employees are not required to contribute to the plan. An employee is entitled to a 50% vested benefit after 5 years of credited service; 60% after 6 years; 70% after 7 years; 80% after 8 years; 90% after 9 years; and 100% after 10 years. The benefits of the Plan are paid in the form of a monthly life annuity based on the employees' final average earnings. Benefits are calculated at 1.25% to 2.0% of the average monthly earnings for the period of the five highest years prior to retirement. Normal retirement age is 62, with 5 years of service.

As of July 1, 2014 (the date of the most recent actuarial valuation report), the total current year payroll for the City was $710,702. Total covered payroll for the City was $579,126. The plan covered:

Active Employees (vested)	8
Active Employees (non-vested)	5
Retirees	2

10. RETIREMENT PLAN – CONTINUED

B. Funding Policy

The City's plan is a non-contributory plan, which means the City bears the entire cost of the plan. Covered employees are not required to contribute to the plan. The City contributed $86,558 to the plan for the year ended June 30, 2014. This cost was determined using the actuarial basis known as the projected unit credit method.

C. Annual Pension Cost

The City's contributions to the Plan for the Plan's years ended June 30, 2014, 2013, 2012 were $86,558, $82,322 and $86,169 respectively, and were equal to the required contribution for each year.

A schedule of Employer's required contributions follows:

Fiscal Year Ended June 30	Required Contribution	Percentage Contributed
2005	$ 50,654	100.0%
2006	$ 66,362	100.0%
2007	$ 62,484	100.0%
2008	$ 67,490	100.0%
2009	$ 78,191	100.0%
2010	$ 76,443	100.0%
2011	$ 81,040	95.9%
2012	$ 86,169	100.0%
2013	$ 87,726	93.8%
2014	$ 67,639	128.0%

10. RETIREMENT PLAN – CONTINUED

C. Annual Pension Cost - Continued

Additional information as of the latest actuarial valuation follows:

Valuation Date	July 1, 2014
Actuarial Cost Method	Project Unit Credit
Amortization Method	Level Dollar (Closed)
Remaining amortization period	10 years
(Estimated amortization period for all unfunded liabilities combined into one account)	
Asset Valuation Method	Market Value
Actuarial Assumptions:	
Investment rate of return	7.75%
Projected salary increases	3.5%
Includes inflation at	3.5%
Merit or seniority increases at	0.0%
Cost-of-living Adjustments	N/A
Post-retirement Benefit Increases	N/A

10. RETIREMENT PLAN – CONTINUED

D. Analysis of Funding Progress

Historical trend information designed to provide information about the City's progress made in accumulating sufficient assets to pay benefits due are as follows:

Actual Valuation Date	(1) Actuarial Value of Assets	(2) Actuarial Accrued Liability (AAL)	(3) Percentage Funded (1) / (2)	(4) Unfunded AAL (UAAL) (2) - (1)	(5) Annual Covered P/R (Prior Year)	(6) UAAL as % of Covered P/R (4) / (5)
2005	$ 432,182	$ 742,723	58.2%	$ 310,541	$ 344,373	90.2%
2006	$ 469,918	$ 783,633	60.0%	$ 313,715	$ 394,986	79.4%
2007	$ 524,577	$ 792,834	66.2%	$ 268,257	$ 454,961	59.0%
2008	$ 573,524	$ 846,404	67.8%	$ 272,880	$ 468,610	58.2%
2009	$ 585,503	$ 899,455	65.1%	$ 313,952	$ 480,548	65.3%
2010	$ 653,123	$ 964,941	67.7%	$ 311,818	$ 482,348	64.6%
2011	$ 722,413	$ 1,029,375	70.2%	$ 306,962	$ 524,094	58.6%
2012	$ 793,093	$ 1,104,814	71.8%	$ 311,721	$ 558,642	55.8%
2013	$ 880,279	$ 1,178,478	74.7%	$ 298,199	$ 579,066	51.5%
2014	$ 982,155	$ 1,260,591	77.9%	$ 278,436	$ 579,126	48.1%

Analysis of the dollar amounts of net position available for benefits, actuarial accrued liability and unfunded actuarial accrued liability/(excess funding) in isolation can be misleading. Expressing the net position available for benefits as a percentage of the actuarial accrued liability provides one indication of the plan's funding status on a going-concern basis. Analysis of this percentage over time indicates whether the system is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the plan is. Trends in both unfunded actuarial accrued liability/(excess funding) and annual covered payroll are affected by inflation. Expressing the unfunded actuarial accrued liability/(excess funding) as a percentage of the annual covered payroll approximately adjusts for the effects of inflation and aids analysis of the plan progress made in accumulating sufficient assets to pay benefits when due. Generally, the smaller this percentage, the stronger the plan is.

11. COMPENSATED ABSENCES

Compensated absences are paid primarily by the General Fund. As of December 31, 2014, compensated absences activity was as follows:

	Balance 12/31/2013	Additions	Retired	Balance 12/31/2014
Compensated Absences	$ 13,405	$ -	$ (112)	$ 13,293

12. JOINT VENTURE

Under Georgia law, the City in conjunction with other cities and counties in the ten county metro Atlanta area, is a member of the Atlanta Regional Commission (ARC). The City pays no annual dues to ARC. Membership in a Regional Commissions (RC) is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34, which provides for the organizational structure of the RC in Georgia. The RC Board membership includes each county commission chairman in the region, one mayor from each county (except Fulton County) chosen by the caucus of mayors, one mayor from the northern half and one mayor from the southern half of Fulton County elected by a caucus of mayors within northern and southern Fulton County, the mayor of the City of Atlanta, one member of the Atlanta City Council, fifteen private citizens, one from each of the fifteen multi-jurisdictional districts of roughly equal population, elected by the twenty-three public officials, and one member appointed by the Board of the Georgia Department of Community Affairs. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of an RC. Separate financial statements may be obtained from Atlanta Regional Commission, 40 Courtland Street, NE, Atlanta, GA 30303.

13. GRANTS

In the normal course of operations, the City receives grant funds from various Federal and State agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as the result of these audits is not believed to be material.

CITY OF DACULA, GEORGIA

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

For the Year Ended December 31, 2014

1. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

The City's annual budget is prepared based on anticipated revenues and appropriated expenditures. Revenues anticipation's, generally conservative, are designed to help insure fiscal responsibility and maintain a balanced budget. The responsibility of budgeting is with the Mayor and City Council members. Sums sufficient to provide for debt service may not be diverted to any other purpose by the Mayor and the City Council. Public hearings are held to obtain taxpayer input and a final budget is enacted by passage of an ordinance prior to December 31. The appropriated budget is prepared by fund, function and department. Budgets were adopted for the General Fund on a basis consistent with accounting principles generally accepted in the United States of America (GAAP). The legal level of budgetary control is the department level.

ROBERT A. MCALISTER, CPA, PC

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND
ON INTERNAL CONTROL OVER FINANCIAL REPORTING
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Mayor and City Council
City of Dacula, Georgia

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities and each major fund of City of Dacula, Georgia, as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the City of Dacula, Georgia's basic financial statements and have issued our report thereon dated June 29, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Dacula, Georgia's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing an opinion on the effectiveness of the City of Dacula, Georgia's internal control. Accordingly, we do not express opinions on the effectiveness of the City of Dacula, Georgia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

3875 JOHNS CREEK PKWY, SUITE B, SUWANEE, GA 30024

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Dacula, Georgia's financial statements are free of material misstatement, we performed tests of its compliance with certain provision of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

This purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
