INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Council
Of the City of Dallas, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund information of City of Dallas, Georgia as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities and each major fund information of the City of Dallas, Georgia, as of June 30, 2016, and the respective changes in financial position, and where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedules of Funding Progress on page 47, Schedule of Changes in Net Pension Liability and Related Ratios on page 48 and Schedule of Required Contributions on page 49, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting

Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis, that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Dallas' basic financial statements. The Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the basic financial statements. The Individual Fund Schedules and Schedule of Special Purpose Local Option Sales Tax Expenditures, as required by the Georgia code section OCGA §48-8-121, are presented for purposes of additional analysis and are also not a required part of the basic financial statements.

The Individual Fund Schedules, the Schedule of Special Purpose Local Option Sales Tax Expenditures, and the Schedule of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain limited procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Individual Fund Schedules and the Schedule of Special Purpose Local Option Sales Tax Expenditures, and the Schedule of Federal Awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 1, 2016, on our consideration of the City of Dallas, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Dallas, State Georgia's internal control over financial reporting and compliance.

The accompanying notes are an integral part of this financial statement.

CITY OF DALLAS, GEORGIA
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO STATEMENT OF ACTIVITIES
JUNE 30, 2016

Net Change in Fund Balances - Total Governmental Funds		$ 742,161
Amounts reported for Governmental Activities in the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. This is the amount by which capital outlays exceeded depreciation in the current period.		
Expenditures for capital assets	684,629	
Less current year depreciation	(1,087,280)	(402,651)
In the Statement of Activities, the lease proceeds are shown as a source of funds, these are net capital assets and not reflected financial resources. Repayment of principal of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets.		
Add Repayment of Principal		260,733
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.		
Net change in long-term compensated absences		(20,471)
Net Change in long-term OPEB Liability		31,992
Net Change in long term Pension Liability		(22,848)
Change in Net Position of Governmental Activities		$ 588,916

The accompanying notes are an integral part of this financial statement.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City operates under a Council-Manager form of government and provides the following services as authorized by its charter: public safety (police), streets, sanitation, health and social services, culture-recreation, public improvements, planning and zoning, and general administrative services. In evaluating how to define the government for financial reporting purposes, management has considered all potential component units. As required by generally accepted accounting principles, certain potential component units are considered for inclusion in the financial report because of the significance of the City's influence over their operation or finances. Significant influence or accountability is based primarily on operational or financial relationships with the City (as distinct from legal relationships). In accordance with the above criteria, the City does not include any component units.

Related organization: The Housing Authority of the City of Dallas is a related organization that has not been included in the reporting entity. The Authority provides low-income housing to eligible families in the City. The Authority's Board consists of six members that are appointed by the Dallas City Council. The City is not financially accountable (does not impose will or have a financial benefit or burden relationship) for the Authority.

The more significant of the government's accounting policies are described below.

B. Government-wide and Fund Financial Statements

The basic financial statements include both government-wide and fund financial statements, each of which present different views of the City. The government-wide and fund financial statements categorize primary activities as either governmental or business type.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of inter-fund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, permits and fines, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported as *general revenues*.

Fund financial statements emphasize major funds in either the governmental, proprietary and fiduciary (if any) funds. Non-major funds (if any) are reported as a separate column in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The financial statements of the City have been prepared in conformity with generally accepted accounting principles (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The City uses GASB 62 for guidance on accounting and financial reporting principles.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Taxes, licenses, and interest associated with the current fiscal period are all considered susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when the government receives the cash. In applying the susceptible to accrual concept, non-exchange transactions are recognized in accordance with GASB Statement 33.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and unrestricted as needed.

D. Fund Types and Major Funds

Major Governmental Funds:

These are the funds through which most governmental functions typically are financed. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. The funds included in this category are the:

General Fund - This fund is established to account for resources devoted to financing the general services that the City performs for its citizens. General tax revenues and other sources of revenue used to finance the fundamental operations of the City are included in this fund. The fund is charged with all costs of operating the government for which a separate fund has not been established.

Special Revenue Fund- This fund is used to account for revenue sources that are legally restricted to expenditures for specific purposes (not including expendable trusts or capital projects). The City has elected to present three special revenue funds: Confiscated Drug Fund, Hotel/Motel Tax Fund and Subdivision Infrastructure Fund as major funds. The Confiscated Drug Fund accounts for cash received from the confiscation or sale of capital assets acquired through confiscations. The Hotel/Motel Tax Fund accounts for tax proceeds from the hotel/motel tax. The Subdivision Infrastructure Fund accounts for revenues and expenses the City incurs while in the process of getting the infrastructure of undeveloped subdivisions to comply with City/State mandates.

Capital Projects Funds- These funds are used to account for major capital expenditures not financed by Enterprise Funds, Internal Service Funds, or Trust Funds. These funds are used to account for projects funded by grants and the Special Local Option Sales Tax. The City maintains a SPLOST capital project fund.

Proprietary Funds:

Proprietary funds are used to account for operations for which a fee is charged to external users for goods or services and the activity is intended to be self-supporting.

Major Proprietary Funds

The City reports the water and sewer, and sanitation funds as major funds. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues are charges to customers for sales and services. The water and sewer fund recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's proprietary funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions.

Amounts reported as program revenues include charges to customers for good, services or privileges provided, operating grants and contributions, and capital grants and contributions, including any special assessments. General revenues include all taxes. These funds are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting.

E. Stewardship, Compliance, and Accountability

Budgetary Data:

Formal budgetary accounting is employed as a management control for all funds of the City. Annual operating budgets are adopted each fiscal year through passage of annual budget ordinance and amended as required and the same basis of accounting is used to reflect actual revenues and expenditures/expenses recognized on a generally accepted accounting principles basis. Budgetary control is exercised at the department level and expenditures may not legally exceed appropriations at this level. No supplemental budgetary appropriations were necessary during the current year. All unencumbered budget appropriations lapse at the end of each fiscal year.

The general and special revenue funds legally adopt an annual budget. The department heads may amend their budget, so long as the total department level budget does not change. The Capital Projects Funds adopt a project length budget.

Deposits with Financial Institutions:

State statutes require that the City's deposits be collateralized by securities held in the name of the City by the trust department of a bank that does not hold the collateralized deposits.

F. Cash

Cash consists of amounts in demand deposits that are insured or collateralized as required by law.

G. Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Estimated unbilled revenues from the enterprise fund are recognized at the end of each year on a pro rata basis. The estimated amount is based on billings during the month following the close of the fiscal year.

H. Interfund Receivables and Payables / Internal balances

Due To and Due From Other Funds - Interfund receivables and payables arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed.

I. Inventories/Prepaid

Inventories for all governmental funds are recorded as expenditures when purchased; however, material amounts, if any, of inventories are reported as assets of the respective fund. Inventories of the enterprise fund, if any, are valued at the lower of cost (first-in, first-out) or market.

Prepaid are certain payments to vendors that reflect costs applicable to future accounting periods and are recorded as prepaid items in both government wide and fund balance statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather when purchased.

J. Other Assets

Other assets held are recorded and accounted for at cost.

K. Restricted Assets

The enterprise fund, based on certain bond covenants, is required to establish and maintain prescribed amounts of resources that can be used only to service outstanding debt.

L. Capital Assets

The City's property, buildings, equipment and infrastructure (streets, bridges, curbs, sidewalks, drainage systems, lighting system, etc) with useful lives of more than one year and a cost greater than a thousand dollars are capitalized and depreciated. The assets are reported in the applicable government or business-type activity columns in the government-wide financial statements.

Property, plant, and equipment are stated at cost. When cost could not be determined from the available records, estimated historical cost was used to record the estimated value of the assets. Assets acquired by gift or bequest are recorded at their fair market value at the date of transfer.

Depreciation of exhaustible capital assets used by enterprise funds is charged as an expense against operations, and accumulated depreciation is reported on its balance sheet. Depreciation has been provided over the estimated useful lives using the straight-line method of depreciation.

Interest incurred during the construction phase of capital assets of enterprise funds is included as part of the capitalized value of the assets constructed.

The City's infrastructures are acquisitions of general infrastructure assets made after the implementation of GASB 34 on June 15, 2003.

M. Long-Term Debt and Bond Issuance Cost

Long-term obligations of the City are reported as a liability in the government-wide and proprietary fund financial statements. Outstanding debt and other obligations are reported as a liability in the government-wide and proprietary financial statements. Bond discounts/premiums and issuance costs for proprietary funds are capitalized and amortized over the term of the respective bonds using a method that approximates the effective interest method. Bond discounts are presented as a reduction of the face amount of bonds payable; premiums are presented as an increase of the face amount of bonds payable. In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as debt service expenditures.

N. Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/ expenditure) until then. The City of Dallas has only one type of item that qualifies for reporting in this category. It is deferred expenses related to pensions reported in the government-wide and proprietary funds statement of net position.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources,* represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The City of Dallas has only one type of item that qualifies for reporting in this category. It is deferred revenues related to pensions reported in the government-wide and proprietary funds statement of net position.

K. Net Position Flow Assumption

Sometimes the City will fund outlays for a particular purpose from both restricted (grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

L. Fund Balance Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

N. Compensated Absences

Full-time, permanent employees are granted vacation and sick leave benefits. Vested or accumulated vacation leave is accrued in the government-wide and proprietary financial statements and governmental

funds only report the portion expected to be liquidated within the current year. Governmental funds report compensated absences only when employees are no longer employed with the City. Vacation leave is calculated based on an employee's anniversary date. For governmental activities, compensated absences are liquated by the general fund. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

O. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City of Dallas' Retirement Plan (the Plan) and additions or deductions from Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

P. Fund Equity/ Net Position

Fund equity at the governmental fund reporting level financial is classified as "Fund Balance". Fund equity for all other reporting is classified as "Net Position".

Fund Balance - represents the difference between current assets and current liabilities. In the fund financial statements, governmental funds report fund balance classifications based on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- *Nonspendable* – fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (for example, items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

- *Restricted* – fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

- *Committed* – fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the City Council through the adoption of a resolution. Only the City Council may modify or rescind the commitment.

- *Assigned* – fund balances are reported as assigned when amounts are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. Intent would be expressed by the City Council itself or the Council would delegate the authority to assign fund balance to management.

- *Unassigned* – fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criteria. The City reports positive unassigned fund balance only in general fund. Negative unassigned fund balance may be reported in all funds.

When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted fund balance, it is the City's policy to use fund balance in the following order: committed, assigned and unassigned.

Net Position – represents the different between assets and liabilities. Net Investment in Capital Assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any unspent borrowings for the acquisition, construction of capital assets. Net Position may be reported as restricted or unrestricted.

Q. Property Taxes

Property taxes are levied when the digest is received from the county (usually in October), based on the assessed value of property, which is 40% of estimated (appraised) market value. A re-valuation of all real property must be made if state criteria are not met regarding recent sales and assessed values. The City bills and collects its own property taxes.

Property taxes are recognized as revenue when they are levied because they are considered to be both measurable and available. Proper allowances are made for estimated uncollectible accounts and delinquent accounts.

NOTE 2. CASH AND INVESTMENTS

The City's cash and investments are considered to be cash on hand, demand deposits and certificates of deposit. Investments are stated at fair value (the City has no investments other than cash.)

Primary Government:

Cash as of June 30, 2016, is classified in the financial statements as follows:

Statement of Net Position

Cash	$ 4,374,228
Restricted Cash	1,948,862
Total Cash	$ 6,323,090

At year-end, the book balance of the City's deposits was $6,323,090, including restricted cash of $1,948,862 and the bank balance was $6,518,463. The bank balance is insured or collateralized by securities held by the City or by its agent in the City's name (category 2).

Reconciliation of enterprise fund cash per combined balance sheet to cash (and cash equivalents-investments) per combined statement of cash flows as of June 30, 2016:

Statement of Cash Flows

Cash	$ 3,227,648

NOTE 3. RECEIVABLES

Accounts receivable consists of amounts due from customers for charges related to providing water/sewer and sanitation services. Accounts receivable also consist of amounts due from other customers. Taxes due consist of property tax.

Amounts due as of June 30, 2016, including the applicable allowances for uncollectible accounts, are as follows:

	General	Capital Projects	Water & Sewer	Sanitation	Total
Accounts	$ 294,933	$ -	$ 970,907	$ 121,069	$ 1,386,909
Taxes	58,291	93,473	-	-	151,764
Less: Allowance for Uncollectible	(36,650)	-	(259,137)	(40,934)	(336,721)
Net Total Receivables	$ 316,574	$ 93,473	$ 711,770	$ 80,135	$ 1,201,952

Property tax is levied upon receipt of the digest from Paulding County and based upon the assessed value at January 1, 2015. Taxes were levied October 20, 2015 and due by December 20, 2015. The billings are considered past due 60 days after the tax billing date, at which time the applicable property is subject to lien and penalties and interest begins to accrue. Generally, liens may attach to property for unpaid taxes on January 1st of the subsequent year.

Assessed values are established by the Paulding County Tax Assessor's office and are currently calculated at 40% of the market value. The gross assessed value of property at January 1, 2015 was $1,025,599.

Based on the 2015 millage levy of 4.170, a property owner would pay $4.17 per $1,000 of assessed valuation.

Current tax collections of $1,003,958 for the fiscal year ended June 30, 2016 were 98 percent of the tax levy.

All property taxes are recognized in compliance with NCGAI-3 (Revenue Recognition-Property Taxes) which states that such revenue is recorded when it becomes measurable and available. Available means due, or past due, and receivable within the current period and collected no longer than 60 days after the close of the current period.

Enterprise accounts receivable consists of billed and unbilled services to utility customers at June 30, 2016. The allowance for uncollectible accounts represents approximately 27% of water/sewer and approximately 34% of sanitation total outstanding utility billings.

Capital projects taxes receivable consists of special local option sales tax collected during the month of July 2016.

NOTE 4. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Outstanding balances between funds reported as "due to/from other funds" include outstanding charges by one fund to another for services, goods, short-term non-operating subsidies, and other miscellaneous transactions between funds. This activity is similar to lending/borrowing arrangements and outstanding balances at yearend are presented as "due to/from other funds". Balances between governmental or proprietary funds are netted when presented in the government-wide statements and reported as "internal balances".

As of June 30, 2016, interfund receivables and payables that resulted from various interfund transactions were as follows:

Receivable Fund	Payable Fund	Amount
Confiscated Drug	General Fund	1,606
General Fund	Solid Waste	45,000
General Fund	Capital Projects	27,694
Solid Waste	Water/Sewer	27,336

NOTE 5. CAPITAL ASSETS

The following table provides a summary of capital asset activity for governmental activities:

Governmental Activities:	Balance July 1, 2015	Additions	Transfers/ Deletions	Balance June 30, 2016
Land	$ 4,067,056	$ 7,319	$ -	$ 4,074,375
Construction In Progress	649,022	114,045	-	763,067
Total Capital Assets Not Being Depreciated	4,716,078	121,364	-	4,837,442
Capital Assets Being Depreciated				
Infrastructure	11,243,773	242,745	-	11,486,518
Buildings and Improvements	8,172,998	9,623	-	8,182,621
Machinery and Equipment	3,298,391	310,896	(66,446)	3,542,841
Total Capital Assets Being Depreciated	22,715,162	563,264	(66,446)	23,211,980
Less Accumulated Depreciation For:				
Land Improvements	38,131	15,114	-	53,245
Infrastructure	3,556,041	507,072	-	4,063,113
Buildings and Improvements	2,060,850	238,715	66,446	2,233,119
Machinery and Equipment	2,310,055	326,379	-	2,636,434
Total Accumulated Depreciation	7,965,077	1,087,280	66,446	8,985,911
Total Capital Assets Being Depreciated, Net	$ 14,750,085	$ (524,016)	$ (132,892)	$ 14,226,069
Governmental Activity Capital Assets, Net	$ 19,466,163	$ (402,652)	$ (132,892)	$ 19,063,511

The following table provides a summary of capital assets activity for business-type activities:

Business-type Activities:	Balance July 1, 2015	Additions	Transfers/ Deletions	Balance June 30, 2016
Capital Assets, Not Being Depreciated				
Land	$ 555,711	$ -	$ -	$ 555,711
Construction In Progress	18,767,483	2,609,146	(4,909,593)	16,467,036
Total Capital Assets Not Being Depreciated	19,323,194	2,609,146	(4,909,593)	17,022,747
Capital Assets, Being Depreciated				
Utility Systems - Water	7,722,182	-	-	7,722,182
Utility Systems - Sewer	14,627,695	-	4,909,593	19,537,288
Buildings and Improvements	245,915	5,961	-	251,876
Machinery and Equipment	1,846,759	106,834	(31,562)	1,922,031
Total Capital Assets Being Depreciated	24,442,551	112,795	4,878,031	29,433,377
Less Accumulated Depreciation For:				
Utility Systems - Water	1,919,320	231,033	-	2,150,353
Utility Systems - Sewer	5,632,993	427,327	-	6,060,320
Buildings and Improvements	134,592	14,068	(31,562)	117,098
Machinery and Equipment	1,084,348	128,812	-	1,213,160
Total Accumulated Depreciation	8,771,253	801,240	(31,562)	9,540,931
Total Capital Assets Being Depreciated, Net	15,671,298	(688,445)	4,909,593	19,892,446
Business-type Activities Capital Assets, Net	$ 34,994,492	$ 1,920,701	$ -	$ 36,915,193

Depreciation expense was charged to function/programs of the government as follows:

Governmental Activities:	
General Government	$ 75,610
Public Safety	204,347
Public Works	561,652
Community Development	310
Theater	96,330
Civic Center	51,061
Parks	85,451
Marshal	12,519
Total Depreciation Expense	$ 1,087,280

Business-type Activities	
Water/Sewer	$ 801,240

Estimated useful lives used to compute depreciation are:

Infrastructure	10-20 years
Machinery and Equipment	5-10 years
Buildings	30-40 years
Water Lines and Meters	10-40 years
Sewer Lines	40 years

NOTE 6. LEASES

Operating Leases

On June 30, 2015, the City entered into a four year operating lease agreement with Tyler Technologies for the lease of Tyler's computer software products. This lease with Tyler qualifies as an operating lease for accounting purposes (title will not transfer at end of lease). This operating lease gives the City access to Tyler's general ledger reporting software, utility billing software, municipal fines software, property tax software, and business licenses software, all used in the daily activities of the City. The City will pay a yearly subscription fee of $40,361 for these services. City has a renewal option six months prior to agreement expiration. Termination fees are as follows: termination prior to 2 years from effective date of agreement 60% of the remaining lease fee is paid, for termination between 2 and 5 years from effective date of agreement 30% of remaining lease fee is paid.

Capital Leases

The City has entered into a lease agreement as lessee for financing the acquisition of building. On November 4, 2004, the City executed an agreement with RBC Centura Bank whereby funds were appropriated. The lease was transferred to PNC Bank in 2011. The lease agreement with PNC Bank qualifies as a capital lease for accounting purposes (title transfer at the end of the lease term) and, therefore, has been recorded at the present value. Amounts drawn down under the lease agreement bear interest at 3.44%. Lease proceeds were used to fund the City's construction and renovation for the city auditorium and police department. The City entered into an agreement with PNC Bank for a capital lease of $3,500,000 with quarterly installments of $75,103.

The following schedule presents the future lease payments at June 30, 2016:

Year Ending June 30	Principal	Interest
2017	269,930	30,482
2018	279,336	21,076
2019	289,070	11,343
2020	148,289	1,916
Total	$ 986,625	$ 64,817

Assets acquired by Capital Lease and Accumulated Depreciation are as follows:

Governmental Activities:	
Theater Building Renovations	$3,401,796
Police Building Renovations	463,881
Less Accumulated Depreciation	(966,419)
Net Assets	$2,899,258

Current year depreciation expenses for these assets are included in the Governmental Activities Depreciation Schedule on page 27.

NOTE 7. LONG-TERM DEBT

Business-type Activities

Revenue Bonds:

The City issued bonds where revenues from the business-type activities are used to pay debt service.

Recovery Zone Economic Development Bonds, Series 2010

On August 1, 2010, the Paulding County Industrial Building Authority and the City of Dallas entered an Intergovernmental agreement to issue Water and Sewer Revenue Bonds of $6,445,000 with interest rates of 3.75% to 5.37% to advance the Recovery Zone Economic Development Bonds, Series 2010 which mature in years 2020 and 2030. Proceeds from the sale of the Series 2010 Bonds will be used to finance various renovations, additions, extensions and expansions to the City's water and sewage system.

These Recovery Zone Economic Development Bonds "qualify for a federal subsidy through a refundable tax credit allowed under section 6431 of the Code equal to 45% of the interest payable by the issuer payable to the holders of the bonds." This qualification legally assures the City of Dallas to be responsible for only 55% of interest accrued during the life of the bonds. However, the City is still responsible for 100% of the principal amounts due during the life of the Series 2010 Bonds.

The following schedule presents debt service requirements to maturity for Water Sewer Revenue Bonds:

Year Ending June 30	Principal	Interest
2017	$ 220,000	$ 166,142
2018	225,000	161,600
2019	230,000	156,955
2020	265,000	152,206
2021	390,000	146,731
2022-2026	2,270,000	551,360
2027-2030	2,310,000	177,144
Total	5,910,000	1,512,138

Note Payables as of June 30, 2016 are composed of the following:

Notes Payable	Interest Rates	Date of Issue	Date of Last Payment	Amount Issued	Amount Outstanding
GEFA 97-L83WS	5.43%	12/01/97	06/01/16	$2,000,000	$ 451,286
GEFA 2002-LE13WQ	4.30%	09/11/03	05/01/16	1,600,000	389,122
GEFA 2005 L56WJA	3.92%	06/30/06	06/01/16	1,992,945	1,463,998
GEFA 6 2005 L56WJB	3.92%	06/30/10	04/01/16	754,477	612,088
GEFA Waste Water Treatment Plant	1.40%	05/01/16	06/01/16	18,494,186	18,427,332
				Total	$21,343,826

During the 2014 audit year, the City acquired a loan from Georgia Environmental Finance Authority for the construction of a new waste water treatment facility. As of June 30, 2016, the City had only drawn down $18,494,186 of the total $18.5 million approved balance.

The following schedule presents debt service requirements to maturity for Water Sewer (GEFA) notes payable:

Year Ending June 30	Principal	Interest
2017	$ 1,101,896	$ 370,249
2018	1,126,127	346,018
2019	1,153,258	318,887
2020	1,067,516	293,385
2021	1,047,131	273,322
2022-2026	5,387,591	1,062,174
2027-2031	5,426,632	573,804
2032-2036	5,033,675	179,613
Total	$ 21,343,826	$ 3,417,452

The City's long-term debt transactions for the year ended June 30, 2016 are as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental Activities:					
Compensated Absences	$ 100,235	$ 88,433	$ 67,961	$ 120,707	$ -
OPEB Liability	87,807	-	31,992	55,815	-
Net Pensionn Liability	808,874	354,493	232,204	931,163	-
Capital Leases	1,247,359	-	260,734	986,625	269,930
Total Governmental Activities	$ 2,244,275	$ 442,926	$ 592,891	$ 2,094,310	$ 269,930

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Business-type Activities:					
Compensated Absences	$ 11,166	$ 10,892	$ 7,146	$ 14,912	$ -
OPEB Liability	20,550	-	3,924	16,626	-
Net Pension Liability	189,735	99,985	65,493	224,227	-
Notes Payable	18,395,094	3,296,141	347,409	21,343,826	1,101,896
Bonds Payable	6,125,000	-	215,000	5,910,000	220,000
Total Business-type Activities	$ 12,326,237	$ 3,407,018	$ 638,972	$ 27,509,591	$ 1,321,896

The liabilities for compensated absences and net pensions are liquidated proportionally by the general and water/sewer funds.

NOTE 8. PENSION PLAN

Plan Description.

The City has a non-contributory defined benefit plan covering all full time employees and elected officials. The plan, the City of Dallas Retirement Plan, is administered by the Georgia Municipal Employees Benefit System (GMEBS) a statewide, agent multiple employer defined benefit plan. GMEBS policy direction and oversight for the fund is provided by a 15-member board comprised of elected and appointed municipal officials from among the fund's membership. GMEBS handles all administrative and investment functions relative to the plan. The Georgia Municipal Employees Benefit System issues a publicly available annual financial report that includes financial statements and required supplementary information. This report may be obtained by contacting the Georgia Municipal Employees Benefit System, C/O Georgia Municipal Association – Risk Management and Employee Benefit Services, 201 Pryor Street, SW, Atlanta, Georgia 30303.

The plan provides pension benefits, death and disability benefits for all employees and elected officials at the time of employment/service (no waiting period). The City continues to have the authority to establish, amend or discontinue the Plan. The City does not require employees to contribute to the Plan in order become a member of the Plan and receive pension benefits. The Plan is fully funded by the City of Dallas' (employers) contributions. Employees are vested after 5 years of service and elected officials are vested in the Plan immediately. Members may retire at age 65 with 5 years of service or take an early retirement at age 55 with 10 years of service. Benefits are calculated at 1.0% to 1.75% of the average monthly earnings for the period of the five highest years prior to retirement.

Funding Policy and Pension Cost.

The City's funding policy for the plan is to contribute an amount equal to the actuarial recommended contribution each year. These contributions are determined under the projected unit credit actuarial cost method and the asset valuation method for developing the actuarial value of assets. The period, and related method, for amortizing the initial unfunded actuarial accrued liability is 30 years from 1981 and current changes in the unfunded actuarial accrued liability over 15 years for actuarial gains and losses, 20 years for plan provisions and 30 years for actuarial assumptions and cost methods as a level dollar amount. The amortization periods, if applicable, are closed for this plan year.

The Plan is subject to the minimum funding standards of the Public Retirement Systems Standards Law (Georgia Code Section 47-20-10). According to the latest actuarial valuation dated January 1, 2016, the estimated minimum annual contribution under these funding standards is $185,437. The GMEBS Board of Trustees has adopted an actuarial funding policy that requires a different funding level than the estimated minimum annual contribution. Since the City's policy is to pay the actuarial recommended contribution amount proposed by GMEBS in each year, the Plan will meet applicable funding standards. According to the latest actuarial valuation dated January 1, 2016 the recommended contribution to the plan is $219,871 ($0 employee and $219,871 employer), or 11.84% of annual covered payroll. The City's contribution to the Plan as of June 30, 2016 was $219,871, which is equal to 100 percent of the required contribution for the year.

Funded Status

The City's annual pension cost, percentage of annual percentage cost contributed and net pension obligation for the most recent three years are as follows:

Three-Year Trend Information

For the Year	Employer Annual Pension Cost (APC)	Percentage of APC Contributed	Net End of Year Pension Obligation
2015	$219,871	100%	$ -
2014	282,041	100%	-
2013	262,993	100%	-

Net Pension Liability

The City's Net Pension Liability (NPL) was measured as of January 1, 2016, along with the Total Pension Liability (TPL) and Fiduciary Net Position (FNP) used to calculate the NPL. These actuarial assumptions are based on the results of an actuarial measurement date of September 30, 2015.

Changes in Net Pension Liability

	(TPL) Total Pension Liability (a)	(FNP) Fiduciary Net Position (b)	(NPL) Net Position Liability (a) - (b)
Balances at September 30, 2014	$ 4,082,767	$ 3,084,158	$ 998,609
Changes for the year:			
Service cost	100,970	-	100,970
Interest	309,722	-	309,722
Differences between expected and actual experience	33,666	-	33,666
Contributions- employer	-	266,499	(266,499)
Contributions- employees	-	-	-
Net Investment income	-	31,198	(31,198)
Benefit payments, including refunds of employee contributions	(172,704)	(172,704)	-
Administrative expense	-	(10,120)	10,120
Other	-	-	-
Net changes	271,654	114,873	156,781
Balances at September 30, 2015	$ 4,354,421	$ 3,199,031	$ 1,155,390

Sensitivity of the NPL to Changes in Discount Rate

1% Decrease (6.75%)	Current Discount Rate (6.75%)	1% Increase (8.75%)
$ 1,669,314	$ 1,155,390	$ 721,815

As of January 1, 2016 the plan membership includes the following categories of participants:

Retirees and beneficiaries currently receiving benefits	18
Inactive participants with vested rights	9
Vested active participants	43
Not vested participants	18
Total	88

Significant Actuarial Assumptions:

Actuarial Assumptions:

Net Investment Rate of Return	7.75% per year
Projected Salary Increase	3.25% plus service based merit increases
Inflation Rate	3.25%
Post Retirement Benefit Increase	N/A

Actuarial Methods:

Actuarial Cost Method	Projected Unit Credit
Amortization Method	Closed Level dollar for remaining unfunded liability
Remaining Amortization Period	Remaining amortization period varies for the bases, with a net effective amortization period of 10 years
Actuarial Value of Assets	Roll forward prior year's actuarial value with contributions, disbursements, and expected return on investments, plus (minus) 10% of investment gains (losses) at end of year. The actuarial value is adjusted, if necessary, to be within 20% of market value.
Mortality Rate	Mortality assumptions are based on the RP-2000 mortality tables, which are founded on a four year review of mortality experience for the period January 1, 2010 to June 30, 2014.

According to the January 1, 2016 actuarial report, the City recognized a $155,515 pension expense for the June 30, 2016 reporting year.

The following tables show the recognized Deferred Outflows/Inflows of Resources Related to Pensions as of June 30, 2016 and for future years:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	47,164	-
Changes of Assumptions	-	(178,164)
Net Differences between projected and actual earnings on pension plan investments	-	-
Total as of June 30, 2016	$ 47,164	$ (178,164)

Deferred Outflows/Inflows Recognized in Future Years

	FY 2017	FY 2018	FY 2019	FY 2020
Fiscal Year Outflows				
Demographic	13,477	13,477	13,477	6,733
Investment	42,213	42,213	42,213	42,213
Total Outflows	$ 55,690	$ 55,690	$ 55,690	$ 48,946
Fiscal Year Inflows				
Investment	(19,337)	(19,337)	(19,337)	-
Assumption Changes	(59,388)	(59,388)	(59,388)	-
Total Inflows	$(78,725)	$(78,725)	$(78,725)	$ -
Total	$(23,035)	$(23,035)	$(23,035)	$ 48,946

Net investment Return

The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net pension plan investment expense and inflation) are developed for each major asset class. These ranges

are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset collection as of September 30, 2015 are as summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return	Long-Term Nominal Real Rate of Return
Domestic equity	50%	5.95%	9.20%
International equity	15%	6.45%	9.70%
Fixed income	25%	1.55%	4.80%
Real estate	10%	3.75%	7.00%
Cash	0%		
Total	100%		

Plan termination basis: 2.86% (30 year Treasury Securities Rate as of August, 2015, published in September 2015)

NOTE 9. SPECIAL LOCAL OPTION SALES TAX

On July 20, 2010, Paulding County voters passed a referendum on the question of "yes/no" shall special one percent sales and use tax be imposed in Paulding County for a period of time not to exceed twenty four calendar quarters. Actual collection of the tax began April 1, 2011. The City of Dallas' distributive share of the revenue is projected to be $6,840,000 and used for street and road improvements, recreational facility capital outlay projects, and public safety capital outlay projects. This SPLOST referendum should be in full force and effect until March 31, 2017.

On May 24, 2016, Paulding County voters passed a referendum on the question of "yes/no" shall special one percent sales and use tax be imposed in Paulding County for a period of time not to exceed twenty four calendar quarters. Actual collection of the tax will begin on April 1, 2017 and will be in full force and effect until April 1, 2023. The City of Dallas' distributive share of the revenue is projected to be $5,861,900 and used for street and road improvements, recreational facility capital outlay projects, and public safety capital outlay projects.

NOTE 10. RISK MANAGEMENT

At year-end there were no legal actions taken by or against the City that would have an adverse effect on the City's financial condition. The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City's attorney the resolution of these matters will not have a material adverse effect on the financial condition of the City.

The City is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; injuries to employees and natural disasters. The City has joined with other municipalities in the state as part of the Georgia Interlocal Risk Management Agency (GIRMA) for its property and liability insurance, and the Worker's Compensation Self-Insurance Fund (WCSIF) for injuries to employees. Both are public entity risk pools currently operating as common risk management and

insurance programs for member local governments. The Georgia Municipal Association (GMA) administers both risk pools.

As part of these risk pools, the City is obligated to pay all contributions and assessments as prescribed by the pools, cooperate with the pools' agents and attorneys, follow loss reduction procedures established by the funds and to promptly report all incidents which could result in the funds being required to pay any claim for loss. The City is also to allow the pools' agents and attorneys to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of loss protection furnished by the funds. The funds are to defend and protect its members against liability or loss as prescribed in the member governments' contracts and in accordance with the workers' compensation laws of Georgia. The funds are to pay all cost taxed against members in any legal proceedings defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

During the past three fiscal years the cost of any settlements have not exceeded insurance coverage

NOTE 11. RESTRICTED ASSETS AND RESTRICTED NET POSITION

Restricted Assets

The City is required to establish and maintain cash accounts to comply with external legal requirements. The construction funds are restricted for specified capital project or improvements. The Drug enforcement account is restricted for monies used in law enforcement activities. The Tourism cash account is for monies designated for the use of promoting tourism in the City of Dallas. The Subdivision Infrastructure cash account is restricted for monies used in the renovation of existing subdivision infrastructure to meet required ordinances/laws.

At June 30, 2016, the balances in the restricted asset accounts are as follows:

Governmental Activities:

Confiscated Drug Account	$ 6,772
Tourism Account	200
Subdivision Infrastructure	44,126
Capital Projects	1,945,702
Total Restricted Assets	$1,996,800

Restricted/Committed Net Position

Reserves are used to indicate that a portion of the fund balance/net assets is not available for appropriation or is legally segregated for specific future use. The City uses the following reserves:

Governmental Funds:

Reserved for capital project activities- Created to segregate money received from federal or state sources that restrict the funds eligible for capital construction projects.

Reserved for drug enforcement activities- Created to segregate money received from federal or state sources that restrict use for law enforcement purposes only.

Reserved for tourism promotion- Created to segregate money received from local Hotels/Motels for the use of promoting, attracting, stimulating, and developing tourism.

Reserved for subdivision infrastructure- Created to segregate money received from fees generated in the constructing of new homes on existing subdivision lots.

NOTE 12. HOTEL MOTEL TAX

The City of Dallas levies a 5 percent hotel/motel tax. The City is required to distribute 2% to Chamber of Commerce and 3% back to the City for the purpose of promoting tourism. For the year ended June 30, 2016, the amount of revenue the City collected for hotel motel tax was as follows:

Balance of Hotel/Motel Tax Fund at July 1, 2015	$ 2,270
Hotel/motel receipts	13,526
Disbursements to City	(8,410)
Disbursements to Chamber of Commerce	(7,186)
Balance of Hotel/Motel Tax Fund at June 30, 2016	$ 200

NOTE 13. POST EMPLOYMENT HEALTH CARE BENEFITS

Plan Description: In addition to providing pension benefits, the City of Dallas offers certain health care benefits to qualified retired employees through an OPEB plan called the City of Dallas (the "City") plan. The plan, the City of Dallas Other Postemployment Benefits Plan, is administered by the Georgia Municipal Employees Benefit System (GMEBS) a statewide, agent multiple employer defined benefit plan. GMEBS policy direction and oversight for the fund is provided by a 15-member board comprised of elected and appointed municipal officials from among the fund's membership. GMEBS handles all administrative and investment functions relative to the plan. The City continues to have the authority to establish, amend or discontinue the Plan. Employees are not required to contribute to the Plan.

All current employees and future employees who are at least fifty years of age and have at least 20 years of service may be eligible for the health care benefits. The health care benefits offered to the retirees will continued to be paid for until the retiree reaches the age of 65. Benefits are payable to a surviving spouse until they are Medicare eligible. The plan is administered by Georgia Municipal Association statewide, agent multiple-employer type plan.

The Georgia Municipal Employees Benefit System issues a publicly available annual financial report that includes financial statements and required supplementary information. This report may be obtained by contacting the Georgia Municipal Employees Benefit System, C/O Georgia Municipal Association – Risk Management and Employee Benefit Services, 201 Pryor Street, SW, Atlanta, Georgia 30303.

Funding Policy:

The City currently funds the plan on a pre-funded basis.

Annual OPEB Cost and Net OPEB Obligation: The City's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 43 and No. 45 as of January 1, 2016. The ARC is the amount calculated to determine the annual cost of the OPEB plan for accounting purposes as if the plan were being funded through contributions to a trust fund.

The City's Schedule of Employer's Contributions for the last three years were as follows:

Schedule of Employer Contributions

Period Ended	Annual Required Contributions	Annual OPEB cost	Actual Contributions	Percentage of Annual Required Contribution	Percentage of Annual OPEB Cost Contributed
2014	$ 63,172	$ 61,703	$ 72,626	115%	118%
2015	63,172	61,661	63,172	100%	102%
2016	39,916	38,221	63,172	158%	165%

The City's net OPEB Obligation and UAAL as of June 30, 2016, are as follows:

Net OPEB Obligation as of Prior Year	$ 97,392
Annual OPEB Cost	38,221
Actual Contribution to Plan	(63,172)
Decrease in Net OPEB Obligation	(24,951)
Net OPEB Obligation as of End of Fiscal Year	$ 72,441
Actuarial accrued liability (AAL)	$ 468,858
Actuarial value of plan assets	353,728
Unfunded actuarial accrued liability (UAAL)	$ 115,130
Funded Ratio (actuarial value of plan assets)	75.4%
Covered payroll (active plan members)	$2,004,326
UAAL as a percentage of covered payroll	5.7%

Actuarial Methods and Assumptions.

In the January 1, 2016, actuarial used in the plan are as follows:

Normal Cost and Actuarial Accrued Liability-	Projected Unit Credit
Actuarial Value of Assets-	Market Value
Amortization Method-	Level dollar, closed, 25 years
Remaining amortization period-	19 years as of January 1, 2016
Asset valuation method-	Market Value
Investment Rate of Return-	7.75%
Medical and Drug Cost trend rate-	7.00% graded to 4.50% over 5 years
Dental cost trend rate	4.00%

Plan Membership:	January 1, 2016
Current retirees, beneficiaries, and dependents	0
Current Active participants	61
Total	61

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Funding Status and Funding Progress:

As of January 1, 2016, the most recent actuarial valuation date, the plan was 75.44% funded. According to the latest actuarial valuation dated January 1, 2016 the recommended contribution to the plan is $39,916 ($0 employee and $39,916 employer; 1.99% of covered payroll). The City met the recommended contribution amount for the June 30, 2016 year. The City's employees are not required to contribute any money to the plan. The actuarial accrued liability for benefits was $468,858, resulting in an unfunded actuarial accrued liability of $115,130. The covered payroll was $2,004,326, and the ratio of UAAL to the covered payroll was 5.74%. Actuarial valuations of an ongoing plan involve estimates of the value of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

NOTE 14. JOINT VENTURE

The City of Dallas is a member of the Northwest Georgia Regional Commission. The Northwest Georgia Regional Commission was created under the laws of the State of Georgia and cities and counties in the area served by the Northwest Georgia Regional Commission are required to be members. The membership of this commission includes 15 counties and 49 municipalities. The City has no equity interest in this commission nor does the City materially contribute to the continued existence of this commission. The Official Code of Georgia Annotated Section 50-8-39.1 states that in the event the Northwest Georgia Regional Commission ceases operation, the membership can be assessed for any debt or obligation of the Northwest Georgia Regional Commission. Separate financial statements may be obtained from: Northwest Georgia Regional Commission 1 Jackson Hill Drive, Rome, Georgia 30162-1798.

NOTE 15. SUBSEQUENT EVENTS

Subsequent to year end, the City of Dallas, Georgia issued refunding revenue bonds (City of Dallas W&S Projects, Series 2016) in the amount of $8,165,000, for the purpose of eliminating the following Water/Sewer Fund debt: GEFA loans 97-L83WS, 2002-LE13WQ, 2005-L56WJA, 2005-L56WJB, and Series 2010 Bonds RZEBs. Beginning February 1, 2017, the City will start annual payments on the W&S Projects Series 2016 Revenue Bonds, in addition to semiannual interest payments. The City will make final principal and interest payments on February 01, 2030.

NOTE 16. CONSTRUCTION COMMITMENTS

The City's construction projects in progress as of June 30, 2016 are as follows:

Governmental Activities

The City has a project for the improvement of historical land marks and recreational areas in the City limits. This project, the Dallas Battlefield Project, had a cost to the City of $86,671 for the 2016 audit year.

The City will provide $410,000 to match a $1,640,000 Livable Centers funding award for new sidewalks, lighting, and handicap improvements along South Johnston, Spring Street, Griffin Street, and Park Street. The cost for this project for the City of Dallas in 2016 was $15,160. Design is underway and construction is scheduled for early 2017. Gateway signs along the major roadways entering the City are included in the project.

Business-type Activities

At June 30, 2016, the City had a construction project for a Waste Water Treatment Plant. This project is being funded by a loan the City acquired through Georgia Environmental Finance Authority.

NOTE 16. Restatement of Prior Year's Net Position/Fund Balance

In the 2016 audit year, the City of Dallas, Georgia, made prior period adjustments in the General Fund, Capital Projects Fund, Water/Sewer Fund and the Sanitation Fund, for activities previously recorded by the City as Due To/From Other Funds, which should have been recorded as transfers.

Business-type Activities:
The Water/Sewer Fund recorded a prior period adjustment of $953,420 that affected Due From Other Funds and Net Position balance. The City also recorded a prior period adjustment in the Sanitation Fund for $1,410,565 that affected Due To Other Funds and Net Position balance.

Governmental Activities:
The City made a prior period adjustment in the General Fund that affected Due To/From Other Funds balances and Net Position/Fund balance for $838,594. A prior period adjustment was made in the Capital Projects Fund for $381,449 that affected Due From Other Funds balance and Net Position/Fund balance.

	Governmental Activities	Water/ Sewer Fund	Sanitation Fund
Net Position June 30, 2015 as Previously Reported	$ 2,964,498	$ 11,629,176	$ (1,303,948)
Removal of Due To/Other Funds	(457,145)	(953,420)	1,410,565
Net Position June 30, 2015 as Restated	$ 2,507,353	$ 10,675,756	$ 106,617

	General Fund	Captal Projects
Fund Balance June 30, 2015 as Previously Reported	$ 1,921,545	$ 1,017,350
Removal of Due To/Other Funds	(838,594)	381,449
Fund Balance June 30, 2015 as Restated	$ 1,082,951	$ 1,398,799

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

The Honorable Mayor and City Council
City of Dallas, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities and each major fund information of the City of Dallas, Georgia, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City of Dallas, Georgia's basic financial statements, and have issued our report thereon dated November 1, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Dallas, Georgia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Dallas, Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Dallas, Georgia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over financial reporting that we consider to be a material weakness. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Dallas, Georgia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We noted certain matters that we reported to management of the City of Dallas in a separate letter dated November 1, 2016.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Honorable Mayor and Council
Of the City of Dallas, Georgia

Report on Compliance for Each Major Federal Program

We have audited the City of Dallas, Georgia's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the City of Dallas, Georgia's major federal program for the year ended June 30, 2016. City of Dallas, Georgia's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the City of Dallas, Georgia's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Dallas, Georgia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance the major federal program. However, our audit does not provide a legal determination of the City of Dallas, Georgia's compliance.

Opinion on the Major Federal Program

In our opinion, the City of Dallas, Georgia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2016.

Report on Internal Control over Compliance

Management of the City of Dallas, Georgia is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Dallas, Georgia's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance

with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Dallas, Georgia's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified no deficiencies in internal control over compliance that we consider to be material weaknesses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to the Schedule of Expenditures of Federal Awards

Note 1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the City of Dallas, Georgia, under programs of the federal government for the year ended June 30, 2016. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City of Dallas, Georgia, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the City of Dallas, Georgia.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified basis of accounting, which is the basis of accounting used in the presentation of the fund financial statements.
