January 31, 2024

Honorable Edward Johnson Jr., Mayor
Members of the City Council
and Citizens of Fayetteville, Georgia

Ladies and Gentlemen:

The Annual Comprehensive Financial Report ("ACFR") of the City of Fayetteville, Georgia (the "City") for the fiscal year ended July 31, 2023 is hereby submitted. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the government. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the government. All disclosures necessary to enable a reader to gain an understanding of the City's financial activities have been included.

The City's management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. We believe the City's internal accounting controls adequately safeguard assets and provide reasonable assurance that all financial information has been recorded accurately.

State law requires that every general-purpose local government publish, within six months of the close of each fiscal year, a complete set of audited financial statements. These statements are to be presented in conformity with generally accepted accounting principles ("GAAP") and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

The accounting firm of Maudlin & Jenkins, LLC, is the City's auditing firm. The independent auditor's report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report.

As a recipient of federal and state financial assistance, the City of Fayetteville is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. The internal control structure is subject to periodic evaluation by the management of the City.

Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of the Management's Discussion and Analysis ("MD&A"). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City of Fayetteville's MD&A can be found immediately following the report of the independent auditors.

Reporting Entity. This report includes all funds of the primary government. The government provides a full range of services. These services include police protection, fire protection, court system, the construction and maintenance of highways, street and drainage improvements, planning and zoning, engineering, building and code enforcement, economic development, water, sewer, and stormwater services, and Main Street activities and events. Residential sanitation services are provided through a contractual agreement with a private carrier.

Government Structure. A Mayor and five (5) City Council members serve the City. The Mayor and City Council are elected at large and serve four (4) year staggered terms. The Mayor and City Council serves as the legislative body responsible for enacting City ordinances, resolutions, appropriating funds, and providing policy direction to City staff. The City Council appoints a City Manager, City Attorney, Municipal Court Judge and various Boards, Commissions and Authorities. The City Council annually adopts a balanced budget and establishes a tax rate for the support of the City programs. The City Manager and Department Directors have the responsibility of administering these programs in accordance with policies and the annual budget adopted by the City Council.

An organizational chart depicting the current structure associated with the management of the City is included in this introductory section.

General Information. The City is named for General Marquis de Lafayette of France, who aided the American colonists during the Revolutionary War. Fayetteville was named as the county seat in 1823 and the present-day courthouse in the town square was built in 1825. Listed on the National Registry, it remains the oldest courthouse in Georgia and boasts the longest court bench in the world.

There was more or less a city/county government until the 1880's. The first mayor elected in the City was W. P. Redwine in 1889.

Downtown Fayetteville is rich in history with the preservation of many notable places of interest. Most of the store buildings that exist today around the courthouse square were built in the late 1890s and early 1900s.

In 1900, the first gas lamps and telephones were installed. The Fayette County Daily Newspaper that began in 1886 is still in operation. Electricity lit up the City in the 1920s. In 1926, the first public water system was installed with a 60,000-gallon tank above the city well. In 1953, the water system was upgraded with the construction of a new water plant just northwest of the City. In 1996, the City built a four MGD water treatment plant.

A sewer system was installed in the early 1960s. In 2007, the City added additional capacity for wastewater by upgrading the City's wastewater treatment plant from 2.75 MGD to 5 MGD. The City updated the treatment processes at the wastewater treatment plant in 2022 to maintain the 5 MGD capacity as the state and federal requirements have changed.

The history of the City remains in the downtown area, the historic district, through a program that initially was created in 1994 to bring businesses and activities into the historic district. Development standards have been developed just for the historic district. Fayetteville was designated Georgia's 37th Main Street City by the Georgia Department of Community Affairs in 1996.

West of the square, one of the City's finest historical attractions, The Holliday Dorsey Fife House was built in 1855, an antebellum structure with large white columns considered by many to be one of the most refined of the Greek revival houses in Fayette County. The house derives its name from the three main owners that dwelled there: Dr. John Stiles Holliday, who built the house, and was the uncle of the "Doc" Holliday of Western fame; Solomon Dawson Dorsey, a Colonel of the State Militia during the war between the States who helped enlist volunteers for the confederacy; and Robert E. Lee Fife, a former Fayetteville City Council member related to the last family to occupy the house as a residence. The house has ties with well-known personalities such as Margaret Mitchell of *Gone with the Wind* fame and former Georgia Governor Hugh M. Dorsey, and it abounds in Civil War history. The City of Fayetteville Downtown Development Authority owns the Holliday Dorsey Fife House, which is leased by Revival Wine Bar.

Across the street lies the historic Fayetteville City Cemetery, circa 1823. The Fitzgeralds', great grandparents of Margaret Mitchell, as well as the Hollidays', Dorseys', and Fifes' are laid to rest there. Recent enhancements to the cemetery have been completed to the entryway as well as the repairing and refurbishing of headstones. A self-guided cemetery tour brochure is available.

Adjacent to Fayetteville City Cemetery is the new Fayetteville City Hall & City Center Park. Opened in 2021, City Hall offers 34,000 square-feet of offices, conference rooms, training rooms, a City Council chamber, and customer service desks. City Center Park, which also opened in 2021, covers almost eight adjoining acres. It features a popular spray pad in warmer months along with year-round playgrounds, picnic pavilions, great lawn, walking paths, pond, dog park, and restroom facilities.

The new City Hall & City Center Park attracted private investment, which resulted in the renovation of the adjacent old Fayette County Public Schools bus barn into Triumph Station, featuring restaurants and an ice cream shop, as well as the renovation of the old gym into Southside Center, home to Southside Church and made available for public rental.

South of the Courthouse Square, the Fayetteville Academy and Seminary was built in 1857, which later became the publicly-attended Glynn Street School. It was renovated in 1994 and used as the City's City Hall until 2021. The building is presently owned by the Fayetteville Development Authority and leased by developers, who have repurposed it as a retail, restaurant, and boutique services destination branded as 240 Glynn Street.

In May 2006, a Georgia Historical Marker was unveiled at the former City Hall site, honoring former Georgia Governor Hugh M. Dorsey. He was born in Fayetteville and served as governor for two terms from 1917 to 1921.

In 2007, First Lady Laura Bush awarded the City of Fayetteville the Preserve America Designation in recognition of the continuing commitment to preserving and using its cultural and natural resources for the benefit and enjoyment of the public.

The City has a strong historical preservation ethic that is evident throughout the downtown district. At present, there is an effort underway by the Main Street program to revitalize the downtown area. The city limits have been extended far beyond the courthouse and the City business district now runs from a couple of miles south of the courthouse to almost three (3) miles north for a total of about five (5) miles of business area. There are now seven (7) schools in the City, an outdoor shopping center (the Pavilion), the Ville Amphitheater (formerly Villages Amphitheater, Southern Ground Amphitheater, and Brightmoor Healthcare Amphitheater), three (3) hotels, specialty shops of all descriptions, and a developing west side, that includes the Fayette Piedmont Hospital, medical complexes, all which make the City an attractive community. In 2014, Pinewood Atlanta Studios, the largest film and television production studio in the United States outside the state of California located on the west side of the City, opened. Also developing on the west side of the City includes the town of Trilith; a community developed around the studios that has gained attraction to the City after bringing the movie industry to Atlanta, Georgia. QTS Data Center also broke ground, anticipating completing their first of two (2) buildings in the north and south campus by 2025. Numerous festivals and events are held on the square during the calendar year, which brings thousands of people downtown to participate in fellowship and community. Additionally, the Ville Amphitheater plays host to a wide array of concerts, films, and dramatic events.

Economic Condition and Outlook. Located approximately 21 miles south of Atlanta, the City continues to benefit economically by being an integral part of Metropolitan Atlanta. The City is well positioned geographically to Atlanta and to the Hartsfield-Jackson Atlanta International Airport, which makes it convenient for the residents to travel for business and/or pleasure. The City has a wealth of natural, cultural, historical, and commercial resources that provides an amenity for residents, a destination for tourists, and an attractive location for commercial businesses.

The population of the City is 19,687 The median housing value in the City is $299,500. Renters make up about 29.2% of the City's population; while 70.8% own homes. Vacancy rates within the City are currently 2.9% for rental units and 1.2% for residential structures. The City remains affordable to residents as the per capita income is $38,901.

The total number of building permit inspections for fiscal year 2023 was 5,676 compared to last fiscal year, which was 4,132. The total number of development plan applications was 26 compared to last fiscal year, which was 35, and the total number of erosion control inspections was 1,000 compared to last fiscal year, which was 1,564.

The unemployment rate for the City was 3.1%, a slight increase over 2021's 2.8%. Sales and office type jobs are the most prominent jobs in the City, followed by management, business, and financial operation.

Financial Planning. The annual budget(s) serves as the current foundation for the City's financial planning and control. The City budget(s) are adopted by the City Council on or before July 31 at a regular Council meeting that is open to the public. The level of legal budgetary control is the departmental level. A budget is legally adopted for all Governmental Fund types and Proprietary Fund types. Formal budgetary integration is employed as a management control device during the year. The budget is based on the same method of accounting as the fund it represents. Transfers of appropriations within a departmental budget or within a non-departmental expenditures category require the approval of the finance director. Increase or decrease (change) in appropriations within a departmental budget or in a non-departmental expense category requires approval of the governing body in the form of amendments to the budget ordinance.

The Mayor and City Council have set the goals that our financial planning adheres to by providing the necessary and available resources. The overall goals are: 1) achieve all goals while striving for the lowest total cost for public services; 2) maintain a managed growth policy that requires quality development in concert with our economic development strategy; 3) provide for the public safety and welfare by committing appropriate resources to police, fire, streets, recreation, water and sewer, and support services; 4) continue cooperative efforts with other governments and government agencies; and 5) preserve our historic and cultural heritage and encourage revitalization of downtown through support of Main Street initiatives.

The financial position of the City continues to improve from the recent recession and COVID-19. We have seen five (5) years of positive growth in the tax digest. Most revenue sources seem to be stabilizing with even some slight increases in other revenue sources. Our City has been optimizing the use of limited resources to preserve core services. The City continues to work on capital expenditures for mostly public safety needs, however, other departments have needs as well and are funded when needed. The City continues to try and hold costs down through fuel conservation policy and debt restructuring.

The City has continued to maintain adequate fund balances consistent with our reserve fund policy. With continued monitoring of our revenues and expenditures, the City can meet goals and objectives in the public service area: police and fire protection, street and drainage improvements, and infrastructure.

Major Initiatives. In fiscal year 2024, the fire department will be doing building renovations to Station 92 to upgrade the bay doors from a manual opening door to an automated swing opening door, to improve response times to and from calls as well as building maintenance. The fire department will also be replacing outdated fire equipment, replacement radios and turnout gear.

The public works department has plans to purchase two (2) pickup trucks to replace aging ones, ensuring a more efficient and reliable fleet for their operations.

The water and sewer department put the wastewater treatment plant with upgraded treatment processes into operation in 2022 and are continuing the process of installing generators used at lift stations where there are none now for emergency backup power.

The Parks & Recreation Department continues to enhance the new City Center that consists of a 7.7-acre park and City Hall. Upgrades will include the installation of additional sunshades to the splash pad and playground areas.

The police department has plans to purchase replacement of outdated radios and computer technology, along with replacing outdated police protective equipment.

In 2023, Fayette County voters approved the continuation of the one-penny (1%) Special Purpose Local Option Sales Tax ("SPLOST") program, that will generate revenues over a six (6) year time span, estimating to collect $40,380.000 through 2029. Projects to be funded through the 2023 SPLOST program will include road resurfacing, enhancements to recreation areas, stormwater infrastructure upgrades, and construction of a multi-use trail system. Other projects, including public safety vehicles, facilities improvements, equipment, and City-wide technology improvements, are needed to enhance the City's overall service delivery capabilities.

Strategic Financial Planning. The City has initiated processes that have it looking to the future and planning for services, programs and facilities to meet the needs of the residents and businesses of the community. The most current budget process addressed both revenues and expenditures for its operating programs for the current year. The five (5) year financial forecast is developed to begin the process of looking at future needs and financial trends in order to better plan for the long-term needs of the City; which included personnel, and operations and maintenance. The capital improvement program establishes a continuing five (5) year look at facility and equipment needs. The City also has a capital improvement program for transportation and infrastructure.

Financial Analysis and Planning is essentially a process, which assesses the future to the extent possible and determines what the picture of the community, from many different perspectives, should look like in the future years. The Mayor and City Council have recognized the need for this type of planning effort, which will in turn provide the roadmap for future budgeting and capital planning efforts. Such a plan provides guidance to the legislative and administrative arms of City government, but also provides a guideline for residents and businesses of the community to act upon in the development of private programs and services.

Relevant Financial Policies. Financial policies and procedures have also been implemented to ensure balance, control, and stability to maintain and oversee the finances within and throughout the City. These policies and procedures address fund balances, reserve fund policy, purchasing, contract administration, debt administration, accounting, auditing, financial reporting, budget, capital outlay, investment, revenue administration, fixed assets, strategic planning, and grant administration.

Awards. The Government Finance Officers Association ("GFOA") of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Fayetteville for its Annual Comprehensive Financial Report ("ACFR") for the fiscal year ended July 31, 2023. This was the 27th consecutive year that the government has received this prestigious award. In order to be awarded a Certificate of Achievement, the government must publish an easily readable and efficiently organized ACFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one (1) year only. We believe that our current ACFR continues to meet the Certificate of Achievement program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the City also received the GFOA Award for Distinguished Budget Presentation for the annual budget for fiscal year 2023. This was the 17th consecutive year that the government has received this prestigious award. In order to qualify for the Distinguished Budget Presentation Award, the City's budget document was judged proficient as a policy document, a financial plan, an operations guide, and a communication device.

A Distinguished Budget Presentation Award is valid for a period of one (1) year only. We believe our current budget continues to conform to the Distinguished Budget Presentation Award program's requirements, and we are submitting it to the GFOA to determine its eligibility for another award.

Acknowledgments. The preparation of the ACFR on a timely basis was made possible by the dedicated service of the City staff and department directors and the auditors of our accounting firm, Mauldin and Jenkins, LLC. In closing, without the leadership and support of the Mayor and City Council, the preparation of this report would not have been possible. My sincere appreciation is extended to each individual for the contributions made in the preparations of this report.

Respectfully submitted,

Ray Gibson

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Members
of City Council
City of Fayetteville, Georgia
Fayetteville, Georgia

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **City of Fayetteville, Georgia** (the "City") as of and for the year ended July 31, 2023, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of July 31, 2023, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund and the American Rescue Plan Act ("ARPA") Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We have conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS") and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States ("*Government Auditing Standards*"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (on pages 5 – 14), the Schedule of Changes in the City's Net Pension Liability and Related Ratios (on pages 69 and 70), and the Schedule of City Contributions (on pages 71 and 72) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements of the City. The accompanying Schedules of Expenditures of Special Purpose Local Option Sales Tax ("SPLOST") proceeds is presented for purposes of additional analysis as required by the Official Code of Georgia Annotated ("O.C.G.A.") §48-8-121 and is not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by *Title 2 U.S. Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements of the City.

The combining and individual nonmajor fund financial statements and schedules, the Schedules of Expenditures of SPLOST proceeds, and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining and individual nonmajor fund financial statements and schedules, the Schedule of Expenditures of SPLOST proceeds, and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory, statistical, and continuing disclosure sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required By *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 31, 2024, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Fayetteville, Georgia's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JULY 31, 2023

The Management's Discussion and Analysis ("MD&A") of the City of Fayetteville, Georgia's (the "City") financial performance provides an overall review of the City's financial activities for the fiscal year ended July 31, 2023. It is designed to give the reader an objective and easily readable analysis of the City's financial performance. The primary intent of this MD&A is to look at the City's financial performance as a whole; readers should also review the letter of transmittal, notes to the basic financial statements, and the financial statements to enhance their understanding of the City's financial performance.

Financial Highlights

Key financial highlights for FY 2023 are as follows:

In total, combined net position increased by $17,396,851 which represents a 149.79% increase over FY 2022. This increase can be attributed to investments in capital assets, American Rescue Plan Act ("ARPA") funds transferred to the General fund for lost revenues, and an increase in licenses and permits.

- Combined tax revenues accounted for $20,735,707, or 47.71%, of all revenues from governmental activities. Service specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions accounted for $22,111,514, or 50.88%, of total revenues of $43,458,163 from governmental activities.

- The City had $26,248,103 in expenses related to governmental activities; $4,136,589 of these expenses were offset by charges for services, grants, and contributions. General revenues (primarily taxes) of $21,254,388 provided for these services as well. The net result was an increase in the City's net position by $17,117,799.

- Total Water and Sewer Fund revenues for FY 2023 were $8,626,024. Total expenses for FY 2023 were $8,074,617. Capital contributions were recorded in the amount of $367,625, including but not limited to donated property and sewer proportionate share. The change in net position after depreciation and non-operating revenues/expenses was $337,238 for FY 2023.

- Revenues from the General Fund were $24,138,450 for FY 2023, an increase of approximately 21.74% over the prior fiscal year. The increase is mainly contributable to property taxes increasing, due to a large increase in the digest for the City, sales and use taxes continued to increase due to people continuing to spend money within Fayette County, and all other taxes increased by $577,000 representing an 11% increase over last year. Licenses and permits increased by 88% over last year due to continued constructing throughout the City, but especially on the west side of town near the film studios. We also saw a large increase in interest income in FY 2023. General Fund expenditures totaled $27,204,716 for the fiscal year ended July 31, 2023, an increase of 38.11% over last fiscal year due mostly to raises, promotions, and a 12% cost of living increase for all employees working for the City. Additionally, the general government expenses increased to a consolidation of expenses used by the entire government like computer maintenance, automobile insurance, and the Bicentennial event held in March. Public safety saw increases in computer maintenance and in the purchase of supplies for a drug program. In housing and development, we saw a large increase in revenues for permits and inspections which, in turn, created a large expense for the vendor preforming those duties, and an increase in grant-related expenses for a multi-use trail project.

Overview of the Financial Statements

This Annual Comprehensive Financial Report ("ACFR") consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the City as a financial whole, or as an entire operating entity.

Statements of Net Position and Statement of Activities

The Statement of Net Position and Statement of Activities provide information about the activities of the whole City, presenting both an aggregate view of the City's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. For proprietary funds, the statements offer short- and long-term financial information about activities the City operates like businesses, such as water and sewer. The fund financial statements also look at the City's most significant funds with all other nonmajor funds presented in total in one column.

These two statements report the City's net position and changes in net position. This change in net position is important because it tells the reader that, for the City as a whole, the financial position of the City has improved or diminished. The causes of this change may be the result of many factors, some financial and some non-financial, including the City's property tax base, facility conditions, and other factors.

In the Statement of Net Position and the Statement of Activities, the City has both governmental and business-type activities:

- Governmental activities: Most of the City's programs and services are reported here including general government, judicial, public safety, public works, culture and recreation, and housing and development. Sales taxes, property taxes, occupation taxes, and fines and forfeitures finance most of these activities.
- Business-type activities: The City charges fees to cover the services it provides. These activities include water and sewer services, stormwater services, sanitation services and recycling services.

Reporting the City's Most Significant Funds

Fund financial reports provide detailed information about the City's major funds. The City uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the City's most significant funds.

Governmental Funds

Most of the City's activities are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general governmental operations and basic services it provides. Governmental fund information helps the reader determine whether there are more financial resources that can be spent in the near future to finance governmental services. The relationship (or difference) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements. See Note 2 to the Financial Statements.

The Capital Projects Funds are used to account for financial resources to be used for the acquisition, construction, or renovation of major capital assets. The City has five Capital Projects Funds: 1) Building Fund, 2) Impact Fee Fund, 3) Capital Projects 2 Fund, 4) 2017 Special Purpose Local Option Sales Tax ("SPLOST") Fund, 5) 2023 Special Purpose Local Option Sales Tax ("SPLOST") II, and 6) the Tax Allocation Districts ("TAD") Fund.

The Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes. The City has eight Special Revenue Funds: 1) Confiscated Assets Fund, 2) Hotel/Motel Tax Fund, 3) Vehicle Excise Tax Fund, 4) Cemetery Fund, 5) Veterans Memorial, 6) Downtown Development Authority Fund, 7) Main Street Tourism Association Fund, and 8) American Rescue Plan Act ("ARPA") Fund.

Proprietary Funds

Proprietary funds are activities that a city operates similar to a business in that it attempts to recover costs through charges to the user. The City's proprietary funds consist of two Enterprise Funds and one Internal Service Fund. Enterprise Funds may be used to account for any activity or service that charges a fee to external users to cover the cost of operations, including cost of depreciation and debt service. The City operates its water and sewer fund and solid waste fund as Enterprise Funds. The City's only Internal Service Fund is used to account for the City's insurance plan which is self-funded. Proprietary Fund statements use the accrual basis of accounting similar to the City-wide statements.

Financial Analysis

The net position over time may serve as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows of resources exceeds liabilities and deferred inflows of resources by $133,858,959, at the close of the most recent fiscal year.

The City's overall net position increased $17,396,851 from the prior fiscal year. Net position for governmental activities increased $17,117,799 from the prior fiscal year. This increase can be attributed to investments in capital assets, ARPA funds transferred to the General Fund for LOST revenues, and an increase in licenses and permits in the current year. Net position for business-type activities increased $279,052 from the prior fiscal year. The reason for this overall change in net position for business-type activities is mainly the result of a rate increase for water and sewer and stormwater fees.

Governmental Activities

Governmental activities total revenues were $43,458,163 at July 31, 2023, an increase of $13,053,434 over the prior year. Key elements of changes from the prior year were mainly attributable to the following program revenues and general revenues: 1) Operating grants and contributions increased by $6,393,821 due to a transfer of ARPA Fund to the General Fund due to past lost wages. 2) Capital grants and contributions increased by $2,860,636due to grant for a bridge project near Piedmont Fayette Hospital, 3) Charges for services increased by $1,434,160 due to more permits and inspections for personal and commercial uses.

Governmental activities total expenses were $26,248,103 at July 31, 2023, a increase of $2,924,379 over the prior year. Key elements of changes from the prior year were mainly attributable to the following functional areas: 1) Public safety expenses increased by $1,837,755 due to a 12% cost of living adjustment across the board for all City employees and expenses related to a grant for collection of drugs and proper disposal, and 2) Housing and development expenses increased by $2,235,2331 due to an increase in permits and inspections throughout the City, and 3) Public works expenses decreased by $1,209,137, due mainly to unfilled vacancies and reclassifying two employees and reduction of park repairs and maintenance.

In addition, the most significant functional expense for governmental activity was for public safety of $13,759,755, which represents 52.42% of the total governmental expenses. The next most significant program expense is housing and development, which totals $5,067,819, or 19.31%, of the total.

Business-type Activities

The most significant business-type activity of the City is the Water and Sewer Department. The City's Water and Sewer Department experienced a significant increase in revenues and expenses during the current year from the increased user fees charged for product and service and from the increased customer usage along with the capital upgrades to the sewer treatment plant.

Cost of Program Services

The *Statement of Activities* shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for governmental and business-type activities, the combined total cost of services and the combined net cost of services; that is, it identifies the cost of these services supported by tax revenue.

This information was taken from the *Statement of Activities* on pages 15 and 16.

TABLE 3 – Governmental and Business-type Activities

	Total Cost of Services		Net Cost of Services	
	2023	2022	**2023**	2022
General government	**$ 4,273,440**	$ 3,982,343	**$ 5,639,930**	$ (1,462,066)
Judicial	**650,510**	641,860	**361,869**	479,492
Public safety	**13,759,755**	11,922,000	**(13,201,863)**	(11,445,279)

Business-type activities	**9,853,716**	9,460,857	**163,012**	(121,502)
Total expenses	**$ 36,101,819**	$ 32,784,581	**$ (3,973,577)**	$ (12,022,329)

Governmental Fund Balance

At the end of FY 2023, the combined ending fund balances for the City's Governmental Funds were $33,069,912. Of the total fund balance, $32,515,184 is available as working capital for current spending in accordance with the purposes of the specific funds. The remainder of the fund balance, $554,728, is not available for new spending because it is considered non-spendable (pre-paid items and inventory).

The General Fund's fund balance for the fiscal year ended 2023 was $12,584,925, which indicates an increase in fund balance over the previous year by $3,057,163. The increase in the General Fund's fund balance is due mainly to a transfer of ARPA funds to the General Fund for lost wages relating to the COVID pandemic. Operating revenues and expenditures resulted in a deficiency of revenues over expenditures of ($3,066,266) and when we add back the total other financing sources of $6,123,429, we get the ending fund balance of $12,584,925. The SPLOST 2017 Fund collected $234,432 more in revenues than we spent in expenses in 2023. Information provided in Table 4 is from the *Governmental Funds Balance Sheet* on pages 16 and 17. The SPLOST 2017 Fund collected $3,951,277 more in revenues than we spent in expenditures in 2023. The Building Fund's fund balance increased by $109,681 for FY 2023, which was mainly due to decreased capital outlay on Local Maintenance and Improvement Grants ("LMIG") projects. The Impact Fee Fund's fund balance increased by 1,473,423 due to an increase of new construction projects in the local economy.

Information provided in Table 4 is from the *Governmental Funds Balance Sheet* on pages 17 – 20.

TABLE 4 – Governmental Fund Balance

	2023	2022
General Fund	**$ 12,584,925**	$ 9,527,762
SPLOST 2017 Fund	**9,234,472**	5,283,195
SPLOST 2023 Fund	**470,729**	-
Building Fund	**420,937**	311,257
Impact Fee Fund	**5,642,311**	4,168,888
Other Governmental Funds	**4,716,538**	3,643,547
	$ 33,069,912	$ 22,934,649

Proprietary Net Position

At the end of FY 2023, the combined net position of the City's Enterprise Funds was $19,766,157, which resulted in a change of net position of $279,052. The City's only Internal Service Fund had a change in net position of $555,880.

General Fund Budgeting Highlights

- The City's budget is prepared according to Georgia law. The most significant budget fund is the General Fund.
- For the General Fund, the actual revenues of $24,138,450 were less than the final budgeted amount of $24,481,618 by $343,168.
- The actual expenditures of $27,204,716 were less than the final budgeted amount of $30,823,808 by $3,619,092. This difference was primarily due to original budgets not being reduced to match actual expenditures in general government, public safety, culture and recreation, and housing and development.

- The original budget had to be increased by $3,402,801 due mainly to the collection of more revenues over budgeted projections. Licenses and permits were originally budgeted as $1,042,750 with actual revenues of $3,335,506 for a total increase of $2,292,756; intergovernmental revenues were originally budgeted as $150,000 with actual revenues of $471,653 for an increase of $321,653; and Investment income were originally budgeted as $20,000 with actual revenues of $470,957 for an increase of $450,957.

Capital Assets and Debt Administration

At the end of FY 2023, the City had $150,454,966 invested in capital assets, which is an increase over FY 2022 of $6,518,405. The main reason for the increase was the purchase of 28 acres for $4,380,000 and new construction in progress across both government funds as well as business-type funds. Table 5 shows fiscal years 2023 and 2022 balances of the *Capital Assets, Net of Accumulated Depreciation* as presented in Note 7.

TABLE 5 – Capital Assets, Net of Accumulated Depreciation

Debt

The City reported outstanding debt of $27,641,389 as of July 31, 2023 for the business-type activities. Debt for the business-type activities relates to the Water and Sewerage Revenue Bonds that were issued in FY 2019 to refinance the cost of the 2013 Water and Sewerage Revenue Bonds, the Water and Sewer Fund's allocated portion of the net pension liability, and Water and Sewerage issuance of Georgia Environmental Finance Authority ("GEFA") notes payable in FY 2017 and FY 2019 to make improvements to the City's stormwater infrastructure. The amount of outstanding debt in governmental activities includes revenue bonds, compensated absences, financed purchases, and net pension liability totaling $34,936,204. This amount increased due to actuarial assumptions changing for the City's pension plan, new lease purchases purchased in FY 2023, and additional compensated absences. Table 6 – *Outstanding Long-Term Liabilities* reflects information provided in Note 8.

Current Issues

Economic Factors and Next Years Budget and Rates

The City revenues continued to be steady in most areas. The City's Digest has increased by $200,000,000 since 2021 which has led to an increase in taxes of $1,234,567. The City is concerned that some of this increase could be due to inflation and could result in a negative digest which would potentially lead to a reduction in taxes being collected. If the economy slows and people stop spending money as they have been spending, we could see a reduction in sales tax revenues and hotel/motel and excise fees as well. With our operating expenses in salaries, contract services, general supplies, and capital outlay continuing to increase, it would create a negative situation if our revenues declined which is cause for concern.

The City conducted a Pay and Class Study to make sure we are providing adequate pay and benefits to all employees during FY 2022. By the end of FY 2022, the City provided a cost-of-living adjustment ("COLA") of 12% for all City employees, which is on top of the nearly 10% increase due to the pay study. Based on the large turnover of employees in the public safety department, we do expect to see an increase in salary related expenses in the upcoming budgets. Increases are also expected in insurance costs for health insurance as well as general liability insurances. The City will continue to see our debt service expenses increase over the coming years due to the construction of a permanent Fire Station 93, an addition to the police department and an expansion of the City Court facility. Additional costs will be spent improving the road network in and around the City. As the City grows and our workforce continues to get bigger, we will see additional requirements placed on our pension plan as the pension liabilities grow larger.

Staff developed a ten-year plan that includes workload indicators and trend analysis to assist the City in long-range financial planning and forecasting. The city is currently in the middle of the 10-year plan, and items that could affect the plan for FY 2023 are as follows:

- Reductions of assessed values in the digest.
- Inflation concerns where people spend less, reducing the sales tax revenue.
- Possible slow down in the economy where other revenues could see a decline.
- Inflation where the City will have to pay more money for goods needed to operate.

The above concerns can affect revenues that are received by the City and can also affect the expenditures related to services provided by the City. This 10-year plan was developed with input from each department and is updated annually to reflect any changing needs. This plan is a very conservative forecast of the City's financial resources and departmental needs to maintain our existing service levels to the community. The Mayor and Council and staff will need to continue to closely evaluate the service and staffing levels on an ongoing basis to ensure that adequate personnel resources and financial resources are available to achieve the desired service levels.

Contacting the City's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, please contact:

Amounts reported for governmental activities in the Statement of Net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

Other long-term assets are not available to pay for current period expenditures and, therefore, are deferred in the funds.

The net pension liability and related deferred outflows and inflows of resources are not financial resources and, therefore, are not reported in the governmental funds.

Internal Service Funds are used by management to charge the costs of various benefits and services to individual funds, and the assets and liabilities of the Internal Service Funds are included in governmental activities in the Statement of Net Position.

Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JULY 31, 2023

Amounts reported for governmental activities in the Statement of Activities are different because:		
Net change in fund balances - total governmental funds	$	10,135,263
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation expense in the current period.		6,793,187
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins and donations) is to decrease net position.		(91,279)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.		(273)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		(115,692)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		(159,287)
Internal Service Funds are used by management to charge costs of various services and benefits to individual funds. The net revenue (expense) of certain activities of Internal Service Funds is reported with governmental activities.		555,880
Change in net position - governmental activities	$	17,117,799

The accompanying notes are an integral part of these financial statements.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Fayetteville, Georgia (the "City") have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governments. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

A. Reporting Entity

The City operates under a Council/Manager form of government. As required by accounting principles generally accepted in the United States of America, the financial statements of the reporting entity include those of the City of Fayetteville, Georgia (the "primary government"t) and its component units. The component units discussed below are included in the City's reporting entity because of the significance of their operational or financial relationship with the City. In conformity with accounting principles generally accepted in the United States of America, as set forth in GASB Statement No. 14, and as amended by Statements No. 34 and 61, the financial statements of the component units are blended in the government-wide financial statements.

The City of Fayetteville Downtown Development Authority (the "Downtown Development Authority") was organized to develop and promote commerce, industry and general welfare within the City. The City appoints the Downtown Development Authority's board members and provides the majority of funding for the Downtown Development Authority's operating budget. The Downtown Development Authority's debt outstanding is expected to be repaid almost entirely from the resources of the City. The Downtown Development Authority is reviewed and audited along with the primary government financial statements in accordance with the GASB statements noted above, however, separate financial statements are not prepared.

The Fayetteville Main Street Tourism Association, Inc. (the "Main Street Tourism Association") was organized to serve the needs and interests of tourism within the City, and in particular, tourism within the Main Street District of the City. The City's governing body is substantively the same as the Main Street Tourism Association's governing body and has operational responsibility for the Main Street Tourism Association in that the City manages the activities of the component unit in essentially the same manner in which it manages its own programs, departments, or agencies. The Main Street Tourism Association is reviewed and audited along with the primary government financial statements in accordance with the GASB statements noted above, however, separate financial statements are not prepared.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the activities of the government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: 1) charges to those who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

Property taxes, intergovernmental grants and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The **G*eneral Fund*** is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The ***Special Purpose Local Option Sales Tax ("SPLOST") 2017 Fund*** is the fund that accounts for expenditures relating to the renovation of existing stormwater projects, recreation projects, public safety uses, construction of roads, and all such projects under the SPLOST 2017 referendum.

The ***Special Purpose Local Option Sales Tax ("SPLOST") 2023 Fund*** is the fund that accounts for expenditures relating to the renovation of existing stormwater projects, recreation projects, public safety uses, construction of roads, and all such projects under the SPLOST 2023 referendum.

The ***Building Fund*** is used to account for the accumulation and expenditures of resources for various public improvements which are funded by a percentage of property taxes.

The ***American Rescue Plan Act* (*"ARPA") Fund*** is used to account for the financial resources provided and subsequently expended from the ARPA grant received from the federal government.

The ***Impact Fee Fund*** is used to account for capital projects activity funded by development impact fees.

The City reports the following major proprietary fund:

The ***Water and Sewer Fund*** accounts for the operation of the water and sewerage system including all revenues from sources applicable to these operations and all expenses of the operation.

The City also reports the following fund types:

The ***Internal Service Fund*** accounts for the City's self-insurance program.

The ***Special Revenue Funds*** account for specific revenues that are legally restricted or committed to expenditures for particular purposes.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

The ***Capital Project Funds*** account for resources provided for acquisition, construction, or renovation of major capital facilities.

The ***Enterprise Fund*** accounts for the provision of solid waste services to the residents of the City.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's water and sewer function and the other functions of the government. Elimination of these charges would distort the direct costs reported for the various functions concerned.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges for goods and services provided. Operating expenses of the enterprise funds include the cost of these goods and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Cash and Deposits

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the City to invest in: obligations of the United States, the State of Georgia and other political subdivisions of the State of Georgia, and other states; prime bankers' acceptances; repurchase agreements; and the Georgia Fund 1. Georgia Fund 1, created by the Official Code of Georgia Annotated ("O.C.G.A.") §36-83-8, is a stable net asset value investment pool which follows Standard & Poor's criteria for AAAf rated money market funds. The investment in the Georgia Fund 1 represents the City's portion of a pooled investment account operated by the Office of the State Treasurer. The pool consists of U.S. treasury obligations, securities issued or guaranteed by the U.S. Government or any of its agencies or instrumentalities, bankers' acceptances, overnight and term repurchase agreements with highly rated counterparties, and collateralized bank accounts. The pool also adjusts the value of its investments to fair value as of year-end and the City's investment in the Georgia Fund 1 is valued at fair value.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year as well as all other outstanding balances between funds are reported as “due to/from other funds”. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances”.

F. Inventories

Inventories are valued at cost, which approximates market, using the first in/first out (“FIFO”) method. The consumption method is used to account for inventories. Under the consumption method, inventory items are recognized as expenditures when used.

G. Prepaid Expenditures/Expenses

Prepaid items are accounted for using the consumption method. A prepaid item is recognized when a cash expenditure/expense is made for goods or services that were purchased for consumption, but not consumed as of July 31.

H. Restricted Assets

Certain proceeds of enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants.

I. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than $5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. The City has retroactively reported major general infrastructure assets. In this case, the City chose to include all items regardless of their acquisition date. The City was able to estimate the historical cost for the initial reporting of these assets through back trending. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets’ lives are not capitalized.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Capital Assets (Continued)

Property, plant and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following useful lives:

Asset	Years
Land improvements	3 – 50
Buildings	3 – 40
Public domain infrastructure	3 – 100
System infrastructure	3 – 40
Equipment	3 – 30

J. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the City does not have a policy to pay any amount when employees separate from service with the City. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations or retirements.

K. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bond using the straight-line method, which approximates the effective interest method. The gain/loss on defeasance of bonds is presented as an increase/decrease to the face amount of bonds payable and is being amortized over the life of the bonds through interest expense. Bond issuance costs are expensed in the period incurred.

In the fund financial statements, governmental fund types report the face amount of debt issued as other financing sources. Bond issuance costs, whether or not withheld from proceeds, are reported as expenditures when incurred.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

L. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City had five items that qualified for reporting in this category. The first relates to the deferred charge on refunding reported in the government-wide and proprietary fund statements of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or the refunding debt. The other four items relate to the City's defined benefit pension plan. The pension experience differences, pension assumption changes, investment earnings, and the contributions made subsequent to the measurement date are deferred and recognized as pension expense in future years.

In addition to liabilities, the Statement of Net Position and the Governmental Funds Balance Sheet reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City had two items which qualified for reporting in this category. The first item, unavailable revenue, arises only under the modified accrual basis of accounting, and is reported only in the Governmental Funds Balance Sheet. The governmental funds report unavailable revenues from property taxes and these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available. The other item relates to the City's defined pension plan.

The experience gains and losses result from periodic studies by the City's actuaries which adjust the net pension liability for actual experiences for certain trend information that was previously assumed, for example, the assumed dates of retirement of plan members. These experience gains and losses are recorded as deferred inflows of resources and are amortized over the expected remaining service lives of plan members.

M. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balances". Fund equity for all other reporting is classified as "net position".

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

M. Fund Equity (Continued)

Fund Balances – Generally, fund balances represent the difference between the assets and liabilities under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Fund balances are classified as follows:

- ***Nonspendable*** – Fund balances are reported as nonspendable when amounts cannot be spent because they are either: a) not in spendable form (i.e., items that are not expected to be converted to cash), or b) legally or contractually required to be maintained intact.

- ***Restricted*** – Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

- ***Committed*** – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the City Council through the adoption of a resolution. Only the City Council may modify or rescind the commitment.

- ***Assigned*** – Fund balances are reported as assigned when amounts are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the City Council has authorized the City Manager or the City's Finance Director to assign fund balances.

- ***Unassigned*** – Fund balances are reported as unassigned when the balances do not meet any of the above criterion. The City reports positive unassigned fund balance only in the General Fund. Negative unassigned fund balances may be reported in all funds.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

M. Fund Equity (Continued)

Net Position – Net position represents the difference between assets, deferred outflows, deferred inflows, and liabilities in reporting which utilizes the economic resources measurement focus. The net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the City has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position is reported as unrestricted.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

N. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

O. Pension

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City of Fayetteville Retirement Plan (the “Plan”) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

P. Tax Abatement Agreements

During the year ended July 31, 2017, the City implemented GASB Statement No. 77, *Tax Abatement Disclosures*. This statement requires the City to disclose information for any tax abatement agreements either entered into by the City, or agreements entered into by other governments that reduce the City’s tax revenues.

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

The Governmental Fund Balance Sheet includes a reconciliation between *fund balances – total governmental funds* and *net position – governmental activities* as reported in the government-wide Statement of Net Position. One element of that reconciliation explains that "Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds." The details of this difference are as follows:

Accrued interest payable	$ (207,763)
Compensated absences payable	(812,107)
Financed purchases	(1,474,963)
Revenue bonds	(21,695,000)
Premium on revenue bonds	(1,864,929)
Net adjustment to reduce *fund balance - total governmental funds* to arrive at *net position - governmental activities*	$ (26,054,762)

B. Explanation of Certain Differences between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide Statement of Activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their useful lives and reported as depreciation expense." The details of this difference are as follows:

Capital outlay	$ 9,574,418
Depreciation expense	(2,781,231)
Net adjustment to increase *net changes in fund balance - total governmental funds* to arrive at *changes in net position of governmental activities*	$ 6,793,187

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

B. Explanation of Certain Differences between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

Another element of the reconciliation states that "The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities." The details of this difference are as follows:

Debt issued:	
Financed purchases	$ (1,000,000)
Principal repayments:	
Amortization of premium on revenue bond	122,011
Financed purchases	762,297
Net adjustment to reduce *net changes in fund balances - total governmental funds* to arrive at *changes in net position of governmental activities*	$ (115,692)

Another element of that reconciliation states that "Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds." The details of this difference are as follows:

Compensated absences	$ (86,204)
Net pension liability and related deferred outflows and inflows of resources	(73,083)
Net adjustment to reduce *net changes in fund balances - total governmental funds* to arrive at *changes in net position of governmental activities*	$ (159,287)

NOTE 3. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Data. Budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund, Special Revenue Funds and Capital Projects Funds. Enterprise Fund budgets are prepared and utilized as a management tool to assess the operations of the Enterprise Funds. All annual appropriations lapse at fiscal year-end. Prior to July 31, the Director of Finance with the City Manager receives budget requests from the various departments and their department chairmen. A budget is then formulated which the City Manager and Mayor present to full Council sixty (60) days prior to the beginning of each fiscal year. After review by full Council, the budget is published for public hearing. A public hearing is held and the budget is legally adopted by the City Council on the second Council meeting in July before the new year begins on August 1. The legal level of budgetary control is the department level.

The appropriated budget is prepared by fund, function, and department. Transfers of appropriations within a department budget or within a non-departmental expenditure category can be authorized by the Director of Finance, except expenditures for additional personnel. Increases in appropriations in a departmental budget or in a non-departmental expenditure category, as well as increases in appropriations for employing additional personnel, require approval of the governing body in the form of amendments to the budget resolution. The Council made several immaterial supplemental budgetary appropriations throughout the year.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year-end are reported as assignments or commitments of fund balances, as appropriate, and do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year. At July 31, 2023, there were no outstanding encumbrances.

NOTE 4. DEPOSITS AND INVESTMENTS

Credit Risk. State statutes authorize the City to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. Government; obligations fully insured or guaranteed by the U.S. Government or by a government agency of the United States; obligations of any corporation of the U.S. Government; prime bankers' acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia. The City has no formal credit risk policy other than to only invest in obligations authorized by the State of Georgia. As of July 31, 2023, the City's investment in Georgia Fund 1 was rated AAAf by Standard & Poor's and is valued at fair value.

At July 31, 2023, the City had the following investments:

Investment	Maturities	Fair Value
Georgia Fund 1	32-day weighted average	$ 9,204,651
		$ 9,204,651

NOTE 4. DEPOSITS AND INVESTMENTS (CONTINUED)

Interest Rate Risk. The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Fair Value Measurements. The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The Georgia Fund 1 is an investment pool which does not meet the criteria of GASB Statement No. 79, and is thus valued at fair value in accordance with GASB Statement No. 31. As a result, the City does not disclose investment in the Georgia Fund 1 within the fair value hierarchy.

Custodial Credit Risk – Deposits. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. Government, or bonds of public authorities, counties, or municipalities. As of July 31, 2023, all of the deposits for the City were fully collateralized in accordance with the state statutes.

NOTE 5. RECEIVABLES

Receivables at July 31, 2023 for the City's individual major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts are as follows:

	General	SPLOST 2017	SPLOST 2023	Impact Fee
Receivables:				
Taxes	$ 712,742	$ -	$ -	$ -
Accounts	256,416	-	470,729	24,362
Due from other governments	24,223	510,902	-	-
Gross receivables	993,381	510,902	470,729	24,362
Less allowance for uncollectibles	30,764	-	-	-
Net total receivables	$ 962,617	$ 510,902	$ 470,729	$ 24,362

	Nonmajor Governmental Funds	Water and Sewer	Total
Receivables:			
Taxes	$ 122,869	$ -	$ 835,611
Accounts	-	1,304,953	2,056,460
Due from other governments	1,432,478	-	1,967,603
Gross receivables	1,555,347	1,304,953	4,859,674
Less allowance for uncollectibles	-	164,469	195,233
Net total receivables	$ 1,555,347	$ 1,140,484	$ 4,664,441

NOTE 6. PROPERTY TAXES

The City receives its property tax revenue from Fayette County, which assesses, levies and collects the taxes, including real and personal property, mobile homes, and motor vehicles. Tax bills were levied to taxpayers on September 10, 2022, and were due and payable on November 15, 2022. All unpaid taxes became delinquent as of November 16, 2022. Property taxes attached as an enforceable lien on property as of November 15, 2023. Receivables are recorded when taxes are levied.

NOTE 7. CAPITAL ASSETS

Capital asset activity for the fiscal year ended July 31, 2023 is as follows:

	Beginning Balance	Increases	Decreases	Transfers	Ending Balance
Governmental activities					
Capital assets, not being depreciated:					
Land	$ 11,484,691	$ 4,380,000	$ -	$ -	$ 15,864,691
Historical treasures	91,279	-	(91,279)	-	-
Construction in progress	3,418,630	3,643,809	-	(225,178)	6,837,261
Total	14,994,600	8,023,809	(91,279)	(225,178)	22,701,952
Capital assets, being depreciated:					
Buildings	21,790,786	-	-	-	21,790,786

Infrastructure	74,100,437	696,504	-	-	74,796,941
Equipment	10,744,234	854,105	(495,536)	70,211	11,173,014
Total	120,940,344	1,550,609	(495,536)	225,178	122,220,595
Less accumulated depreciation for:					
Buildings	5,346,624	545,793	-	-	5,892,417
Land improvements	858,636	368,310	-	-	1,226,946
Infrastructure	17,563,813	930,975	-	-	18,494,788
Equipment	7,558,068	936,153	(495,536)	-	7,998,685
Total	31,327,141	2,781,231	(495,536)	-	33,612,836
Total assets, being depreciated, net	89,613,203	(1,230,622)	-	225,178	88,607,759
Governmental activities capital assets, net	$ 104,607,803	$ 6,793,187	$ (91,279)	$ -	$ 111,309,711

NOTE 7. CAPITAL ASSETS (CONTINUED)

	Beginning Balance	Increases	Decreases	Transfers	Ending Balance
Business-type activities					
Capital assets, not being depreciated:					
Land	$ 1,630,139	$ -	$ -	$ -	$ 1,630,139
Construction in progress	442,568	1,128,018	-	-	1,570,586
Total	2,072,707	1,128,018	-	-	3,200,725
Capital assets, being depreciated:					
Water and plant distribution system	12,669,621	-	-	-	12,669,621
Sewer plant and extensions	35,187,272	197,772	-	-	35,385,044
Stormwater system	23,197,132	-	-	-	23,197,132
Equipment	1,555,332	-	(189,488)	-	1,365,844
Total	72,609,357	197,772	(189,488)	-	72,617,641
Less accumulated depreciation for:					
Water and plant distribution system	11,410,714	90,008	-	-	11,500,722
Sewer plant and extensions	21,270,104	1,229,323	-	-	22,499,427
Stormwater system	1,398,148	136,714	-	-	1,534,862
Equipment	1,274,340	53,248	(189,488)	-	1,138,100
Total	35,353,306	1,509,293	(189,488)	-	36,673,111
Total assets, being depreciated, net	37,256,051	(1,311,521)	-	-	35,944,530
Business-type activities capital assets, net	$ 39,328,758	$ (183,503)	$ -	$ -	$ 39,145,255

Depreciation expense was charged to functions/programs of the City as follows:

Governmental activities:	
General government	$ 691,465
Public safety	941,125
Public works	1,017,172
Housing and development	131,469
Total depreciation expense - governmental activities	$ 2,781,231
Business-type activities:	
Water and sewer	$ 1,509,293
Total depreciation expense - business-type activities	$ 1,509,293

NOTE 8. LONG-TERM DEBT

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities					
Bonds payable:					
Revenue bonds	$ 21,695,000	$ -	$ -	$ 21,695,000	$ -
Deferred amount:					
Premium	1,986,940	-	(122,011)	1,864,929	-
Total bonds payable	23,681,940	-	(122,011)	23,559,929	-
Financed purchases	1,237,260	1,000,000	(762,297)	1,474,963	698,724
Net pension liability	4,287,671	6,353,071	(1,551,537)	9,089,205	-
Compensated absences	725,903	745,983	(659,779)	812,107	406,053
Governmental activities					
long-term liabilities	$ 29,932,774	$ 8,099,054	$ (3,095,624)	$ 34,936,204	$ 1,104,777
Business-type activities					
Bonds payable:					
Revenue bonds	$ 12,035,000	$ -	$ (675,000)	$ 11,360,000	$ 710,000
Deferred amount:					
Premium	419,911	-	(58,714)	361,197	-
Total bonds payable	12,454,911	-	(733,714)	11,721,197	710,000
Notes payable	14,127,993	-	(339,837)	13,788,156	348,602
Net pension liability	1,005,750	1,490,227	(363,941)	2,132,036	-
Business-type activities					
long-term liabilities	$ 27,588,654	$ 1,490,227	$ (1,437,492)	$ 27,641,389	$ 1,058,602

For governmental activities, compensated absences and pension liabilities are liquidated by the General Fund. For business-type activities, pension liabilities are liquidated by the Water and Sewer Fund.

Governmental activities

Revenue bonds. During the year ended July 31, 2020, the City of Fayetteville Public Facilities Authority issued the following Series 2019 Bonds: (i) $21,695,000 City Hall and Park Projects Revenue Bonds, Series 2019 (the “Series 2019 New Money Bonds”), (ii) $5,395,000 Water and Sewage Refunding Project Revenue Bonds, Series 2019 (the “Series 2019 Refunding Bonds”), and (iii) $7,890,000 Water and Sewer Refunding Project Taxable Revenue Bonds, Series 2019 (the “Taxable Series 2019 Refunding Bonds”).

NOTE 8. LONG-TERM DEBT (CONTINUED)

Governmental activities (Continued)

Revenue bonds (Continued). The Series 2019 New Money Bonds in the amount of $21,695,000 were used to finance the costs of the acquisition, construction, upgrading, and equipping of various public facilities including City Hall, acquisition, construction, renovation, upgrading, and equipping of recreational facilities, property acquisition/demolition, and infrastructure improvements located within the City.

Purpose	Interest Rate	Term	Due Date	Original Amount	Outstanding Amount
Series 2019 New Money Bonds	3.00 - 5.00% Plus unamortized premium	30 years	2050	$ 21,695,000 -	$ 21,695,000 1,864,929
	Total Series 2019			$ 21,695,000	$ 23,559,929

Year Ending July 31,	Principal	Interest
2024	$ -	$ 831,050
2025	475,000	821,550
2026	495,000	802,150
2027	515,000	781,950
2028	535,000	758,275
2029 – 2033	3,100,000	3,364,125
2034 – 2038	3,820,000	2,645,750
2039 – 2043	4,640,000	1,802,750
2044 – 2048	5,615,000	828,875
2049 and 2050	2,500,000	75,600
Total	$ 21,695,000	$ 12,712,075

NOTE 8. LONG-TERM DEBT (CONTINUED)

Governmental activities (Continued)

Financed Purchases. During the year ended July 31, 2018, the City entered into a purchase agreement with a financial institution for the purchase of vehicles, equipment, and land in the amount of $650,000. The lease agreement qualifies as a financed purchase agreement for accounting purposes (title transfers at the end of the lease term) and has been recorded at the present value of the future minimum lease payments as of the date of inception. This agreement is being serviced by the Building Fund and the SPLOST 2017 Fund payments with an annual interest rate of 2.42%.

During the year ended July 31, 2019, the City entered into one purchase agreement with a financial institution for the purchase of vehicles and equipment in the amount of $500,000. The agreement qualifies as a financed purchase agreement for accounting purposes (title transfers at the end of the agreement term) and has been recorded at the present value of the future minimum payments as of the date of inception. This purchase agreement is being serviced by the SPLOST 2017 Fund payments with an annual interest rate of 3.10%.

During the year ended July 31, 2020, the City entered into a purchase agreement with a financial institution for the purchase of equipment in the amount of $940,000. The agreement qualifies as a financed purchase agreement for accounting purposes (title transfers at the end of the agreement term) and has been recorded at the present value of the future minimum payments as of the date of their inception. The agreement is being serviced by the Building Fund and the SPLOST 2017 Fund payments with an annual interest rate of 2.14%.

During the year ended July 31, 2021, the City entered into a purchase agreement with a financial institution for the purchase of equipment in the amount of $500,000. The agreement qualifies as a financed purchase agreement for accounting purposes (title transfers at the end of the agreement term) and has been recorded at the present value of the future minimum payments as of the date of their inception. The agreement is being serviced by the Building Fund payments with an annual interest rate of 1.45%.

During the year ended July 31, 2022, the City entered into a purchase agreement with a financial institution for the purchase of equipment in the amount of $400,000. The agreement qualifies as financed purchases for accounting purposes (title transfers at the end of the agreement term) and has been recorded at the present value of the future minimum payments as of the date of their inception. The agreement is being serviced by the Building Fund payments with an annual interest rate of 1.46%.

NOTE 8. LONG-TERM DEBT (CONTINUED)

Governmental activities (Continued)

Financed Purchases (Continued). During the year ended July 31, 2023, the City entered into a purchase agreement with a financial institution for the purchase of equipment in the amount of $1,000,000. The agreement qualifies as financed purchases for accounting purposes (title transfers at the end of the agreement term) and has been recorded at the present value of the future minimum payments as of the date of their inception. The agreement is being serviced by the Building Fund payments with an annual interest rate of 4.05%.

The following is a schedule of future principal and interest financed purchase payments as of July 31, 2023:

Year Ending July 31,	Principal	Interest
2024	$ 698,724	$ 38,677
2025	513,801	19,631
2026	158,852	5,435
2027	72,928	2,440
2028	30,658	411
	$ 1,474,963	$ 66,594

Business-type activities

Revenue bonds. The “Series 2019 Refunding Bonds” in the amount of $5,395,000 were used to: (a) refund a portion of the Water and Sewage Revenue Bonds, Series 2010 Bonds, (b) refund a portion of the Water and Sewer Revenue Bonds, Series 2013A, and (c) pay the issuance cost of the Series 2019 Refunding Bonds. The **“**Taxable Series 2019 Refunding Bonds” in the amount of $7,890,000 were used to: (a) refund a portion of the Water and Sewer Refunding Bonds, Series 2010, and (b) pay the issuance costs of the Taxable Series 2019 Refunding Bonds.

The issuance of the Series 2019 Refunding Bonds and the Taxable Series 2019 Refunding Bonds were used to refund the Series 2010 and Series 2013A Bonds. The difference between the cash flows required to service the old debt and the cash flow to service the new debt and complete the refunding totaled $3,435,629. The economic gain resulting from the refunding was $1,204,390.

NOTE 8. LONG-TERM DEBT (CONTINUED)

Business-type activities (Continued)

Revenue bonds (Continued)

Purpose	Interest Rate	Term	Due Date	Original Amount	Outstanding Amount
PFA Revenue Bonds Series 2019					
Water and Sewer Refunding Taxable	2.125 - 2.850%	13 years	2032	$ 7,890,000	$ 7,750,000
PFA Revenue Bonds Series 2019	3.00 - 4.00%	15 years	2034	5,395,000	3,610,000
Water and Sewer Refunding	Plus unamortized premium				361,197
					3,971,197
	Total Series 2019			$ 13,285,000	$ 11,721,197

Debt service requirements to maturity on the revenue bonds are as follows:

Year Ending July 31,	Principal	Interest
2024	$ 710,000	$ 332,373
2025	740,000	304,498
2026	1,010,000	278,415
2027	1,035,000	253,869
2028	1,060,000	227,940
2029 – 2033	5,735,000	687,888
2034	1,070,000	21,400
Total	$ 11,360,000	$ 2,106,383

Notes payable. The City has also incurred debt to the Georgia Environmental Facilities Authority ("GEFA") for construction of various water and sewer system projects. This note is a construction line of credit agreement with a rate of 2.03% for $961,221.

The City has also incurred debt to the GEFA for construction of various water and sewer system projects. This note is a construction line of credit agreement with a rate of 2.62% for 13,334,150.

NOTE 8. LONG-TERM DEBT (CONTINUED)

Business-type activities (Continued)

Notes Payable (Continued). Notes payable outstanding July 31, 2023 are as follows:

Interest Rate	Term	Due Date	Original Amount	Outstanding Amount
2.03%	20	2040	$ 961,221	$ 851,008

Interest Rate	Term	Due Date	Original Amount	Outstanding Amount
2.62%	30	2052	$ 13,334,150	$ 12,937,149

The annual requirements to pay the notes outstanding are as follows:

Year Ending July 31,	Principal	Interest
2024	$ 348,602	$ 353,009
2025	357,595	344,034
2026	366,822	334,825
2027	376,287	325,377
2028	385,998	314,778
2029 – 2033	2,084,719	1,419,163
2034 – 2038	2,368,237	1,135,644
2039 – 2043	2,525,193	817,769
2044 – 2048	2,731,658	550,208
2049 – 2053	2,243,046	178,876
Total	$ 13,788,157	$ 5,773,683

NOTE 9. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of July 31, 2023 is as follows:

	Payable Fund						
Receivable Fund	General Fund	SPLOST 2017 Fund	Water and Sewer Fund	Building Fund	Self Funded Insurance Fund	Nonmajor Governmental Funds	Total
General Fund	$ -	$ -	$ 85,256	$ 7,990	$ 8,081	$ 1,185,094	$ 1,286,421
Water and Sewer Fund	-	-	-	17,588	-	-	17,588
Nonmajor Governmental Funds	56,817	85,103	-	-	-	177,012	318,932
Total	$ 56,817	$ 85,103	$ 85,256	$ 25,578	$ 8,081	$ 1,362,106	$ 1,622,941

These balances resulted from the time lag between the dates that: 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system, and 3) payments between funds are made.

Interfund transfers:

	Transfers out						
Transfers In	General Fund	Water and Sewer Fund	ARPA Fund	SPLOST 2017 Fund	Impact Fee Fund	Nonmajor Governmental Funds	Total
General Fund	$ -	$ 550,000	$ 6,131,643	$ -	$ 23,740	$ -	$ 6,705,383
Water and Sewer Fund	-	-	-	642,261	-	-	642,261
Building Fund	172,993	-	-	-	75,500	-	248,493
Nonmajor Governmental Funds	479,718	-	139,569	662,012	-	944,747	2,226,046
Total	$ 652,711	$ 550,000	$ 6,271,212	$ 1,304,273	$ 99,240	$ 944,747	$ 9,822,183

Transfers are used to: 1) move revenues from the fund that the statute or budget requires to collect them to the fund that the statute or budget requires to expend them, and 2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 10. JOINT VENTURE

Under Georgia law, the City, in conjunction with other cities and counties in the ten county Atlanta area, is a member of the Atlanta Regional Commission ("RC") and is required to pay annual dues thereto. During its fiscal year ended July 31, 2023, the City's membership dues were paid by Fayette County, Georgia. The City did not pay any annual dues. Membership in an RC is required by the O.C.G.A. §50-8-34 which provides for the organizational structure of the RC in Georgia. The RC Board membership includes the chief elected official of each county and municipality of the area. O.C.G.A. §50-8-39.1 provides that the member governments are liable for any debts or obligations of an RC. Separate financial statements may be obtained from:

Atlanta Regional Commission
3715 Northside Parkway
200 Northcreek Suite 300
Atlanta, Georgia 30327

NOTE 11. DEFINED BENEFIT PENSION PLAN

Plan Description

The City's Pension Plan (the "Plan") is administered through the Georgia Municipal Employee Benefit System ("GMEBS"), an agent multiple-employer pension plan administered by the Georgia Municipal Association. The Plan provides retirement and disability benefits and death benefits to plan members and beneficiaries. Benefits are provided by the Plan whereby retirees receive 2% multiplied by the average of the last three years of regular earnings multiplied by the total credited years of service. The City Council, in its role as the Plan sponsor, has the governing authority to establish and amend from time to time, the benefits provided and the contribution rates of the City and its employees. The Georgia Municipal Association issues a publicly available financial report that includes financial statements and required supplementary information for GMEBS. That report may be obtained at www.gmanet.com or by writing to:

Georgia Municipal Association
Risk Management and Employee Benefit Services
201 Pryor Street NW
Atlanta, Georgia 30303
or by calling (404) 688-0472

NOTE 11. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Plan Membership

As of January 1, 2023, pension plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	85
Inactive plan members entitled to but not receiving benefits	104
Active plan members	168
	357

Contributions

The Plan is subject to minimum funding standards of the Georgia Public Retirement Systems Standards law. The Board of Trustees of GMEBS has adopted a recommended actuarial funding policy for the Plan which meets state minimum requirements and will accumulate sufficient funds to provide the benefits under the Plan. The funding policy for the Plan, as adopted by the City Council, is to contribute an amount equal to or greater than the actuarially recommended contribution rate. This rate is based on the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of plan members, as determined by the City Council. For the year ended July 31, 2023, the City's contribution rate was 14.5% of annual payroll. City contributions to the Plan were $1,426,464 for the fiscal year ended July 31, 2023.

Net Pension Liability of the City

The City's net pension liability was measured as of September 30, 2022. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2023.

Actuarial Assumptions. The total pension liability in the January 1, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.20%
Salary increases	2.25% plus service based merit increase
Investment rate of return	7.375%

Mortality rates were based on the RP-2000 Combined Healthy Mortality Table (set forward two years in age for males and one year for females) to the gender-distinct Pri-2012 head-count weighted Healthy Retiree Mortality Table with rates multiplied by 1.25.

The actuarial assumptions used in the January 1, 2023 valuation were based on the results of an actuarial experience study for the period January 1, 2015 – June 30, 2019.

NOTE 11. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Net Pension Liability of the City (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of March 31, 2023 are summarized in the following table:

Asset Class	Target Allocation	Long-term expected real rate of return
Domestic equity	45 %	6.40 %
International equity	20	6.80
Real estate	10	3.90
Global fixed income	5	0.46
Domestic fixed income	20	0.40
Total	100 %	

Discount Rate

The discount rate used to measure the total pension liability was 7.375%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all of the projected benefit payments to determine the total pension liability.

NOTE 11. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Changes in the Net Pension Liability of the City

The changes in the components of the net pension liability of the City for the fiscal year ended July 31, 2023 were as follows:

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Beginning balance	$ 29,957,078	$ 24,663,657	$ 5,293,421
Changes for the year:			
Service cost	514,025	-	514,025
Interest	2,198,679	-	2,198,679
Differences between expected and actual experience	980,332	-	980,332
Contributions - employer	-	1,635,847	(1,635,847)
Contributions - employee	-	279,631	(279,631)
Net investment income	-	(4,102,581)	4,102,581
Benefit payments, including refunds of employee contributions	(1,317,015)	(1,317,015)	-
Administrative expense	-	(47,681)	47,681
Net changes	2,376,021	(3,551,799)	5,927,820
Ending balance	$ 32,333,099	$ 21,111,858	$ 11,221,241

The required Schedule of Changes in the City's Net Pension Liability and Related Ratios immediately following the notes to the financial statements presents multi-year trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the City, calculated using the discount rate of 7.375%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.375%) or 1-percentage-point higher (8.375%) than the current rate:

	1% Decrease (6.375%)	Current Discount Rate (7.375%)	1% Increase (8.375%)
City's net pension liability	$ 15,671,398	$ 11,221,241	$ 7,532,494

NOTE 11. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate (Continued)

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of September 30, 2022, and the current sharing pattern of costs between employer and employee.

Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended July 31, 2023, the City recognized pension expense of $1,702,721. At July 31, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 1,318,197	$ (393,146)
Changes in assumptions	203,996	-
Investment earnings	2,729,341	-
City contributions subsequent to the measurement date	1,188,719	-
Total	$ 5,440,253	$ (393,146)

City contributions subsequent to the measurement date of $1,188,719 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ending July 31, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending July 31,	
2024	$ 1,134,462
2025	769,587
2026	765,972
2027	1,188,367
Total	$ 3,858,388

NOTE 12. DEFINED CONTRIBUTION PENSION PLAN

The City participates in the Georgia Municipal Association 401(a) Defined Contribution Plan (the "Plan") which is administered by the Georgia Municipal Association through their service manager, New Port. The Plan provides retirement benefits to plan participants and beneficiaries. Plan provisions and contribution requirements are established and may be amended by the City. Employees are not required to contribute to the Plan. The City contributes an amount equal to 50% of the amount contributed by participants to the City's deferred compensation plan, except that the City shall not match in excess of 2% of the participant's annual compensation. The City's contribution for each employee is 100% vested after five years of continuous service. For the fiscal year ended July 31, 2023, the City's contribution to the Plan was $97,002. The amount contributed by employees was $304,587.

NOTE 13. RISK MANAGEMENT

The City is exposed to various risks of losses related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has contracted with Apex Insurance Agency, Inc. and coverage has been placed with Argonaut Insurance Company, with the exception of workers' compensation, which has been placed with BITCO Insurance Company. The City is fully insured on workers' compensation, automobile insurance, general liability, employment practices liability, property coverage, cybersecurity. These plans have various deductibles the City is responsible of meeting.

Settled claims in the past three years have not exceeded the coverages.

The City established an Internal Service Fund for group health insurance which is funded by charges to the City's other funds. Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported ("IBNR"s). The result of the process to estimate the claims liability is based on the medical plan in-network preferred provider organization ("PPO") negotiated amount or based on the usual, customary, and reasonable charges for out-of-network charges. Accordingly, claims are re-evaluated periodically to consider the effects of proper claims adjudication. The estimate of the claims liability also includes amounts for incremental claim adjustment expense related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims.

The City has entered into a self-funded group insurance plan with major medical coverage. The City currently utilizes Allied Benefit Services as the third-party administrator. A stop loss carrier is in place to cover claims in excess of $50,000. Management continues to monitor the performance of this fund to ensure that premiums charged to the funds and agencies of the City are adequate.

NOTE 13. RISK MANAGEMENT (CONTINUED)

Changes in the respective claims liability amount for the fiscal years ended July 31, 2023 are as follows:

Self-Insurance Fund	July 31, 2023
Unpaid claims, beginning of fiscal year	$ 128,876
Claims incurred and changes in estimates	1,065,781
Claims payment	(959,812)
Unpaid claims, end of fiscal year	$ 234,845

NOTE 14. FUND EQUITY

Fund Balances

- ***Nonspendable*** – The following fund balances are nonspendable because they are allocated to:

General Fund	
Prepaid items	$ 491,452
Inventories	4,587
Main Street Tourism Association Fund	
Inventories	26,189
Prepaid items	32,500

NOTE 14. FUND EQUITY (CONTINUED)

Fund Balances (Continued)

- ***Restricted –*** The following fund balances are restricted for:

Special Revenue Funds	
Confiscated Assets Fund - used to account for public safety-related expenditures funded by drug confiscations.	$ 115,519
Veterans Memorial Park Fund - used for the design and construction of a Veterans Memorial.	2,291
Cemetery Fund - accounts for the revenues earned from a trust set up for cemetery improvements.	52,109
Downtown Development Authority Fund - used for housing and development within the City.	779,940
Main Street Tourism Association Fund - used for the promotion of tourism in the City.	809,881
Capital Projects Funds	
Capital Projects 2 Fund - used to account for capital projects financed with intergovernmental revenues that are in the completion phase.	252,621
Impact Fee Fund - accounts for capital projects activity funded by development impact fees.	5,642,311
Building Fund - accounts for capital projects activity funded by state road maintenance fees.	420,937
TAD Fund - accounts for capital projects activity funded by tax allocation districts revenues.	2,645,488
SPLOST 2017 Fund - used to account for capital projects financed with intergovernmental revenues.	9,234,472
SPLOST 2023 Fund - used to account for capital projects financed with intergovernmental revenues.	470,729

- ***Assigned –*** The following fund balance is assigned for:

General Fund	
Three-month operating reserve, as provided for in adopted City policy	$ 5,250,000

NOTE 15. COMMITMENTS AND CONTINGENCIES

Litigation

The City is involved in several pending lawsuits. Liability, if any, which might result from these proceedings, would not, in the opinion of management and legal counsel, have a material adverse effect on the financial position of the City.

Grant Contingencies

The City has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to the disallowance of certain expenditures previously reimbursed by those agencies. Based upon prior experience, management of the City believes such disallowances, if any, will not be significant.

Contractual Commitments

In addition to the liabilities enumerated in the balance sheet at July 31, 2023, the City has contractual commitments on uncompleted construction contracts of $3,290,543.

NOTE 16. HOTEL/MOTEL LODGING TAX

The City has levied a 5% lodging tax. The O.C.G.A. §48-13-50 requires that all lodging taxes levied of 5% or more be expended or obligated contractually for the promotion of tourism, conventions, or trade shows. For the fiscal year ended July 31, 2023, the City collected $615,335 of hotel/motel taxes, and transferred 100% of the lodging tax received during the year ended July 31, 2023 to the Downtown Development Authority Fund, where it was used for the promotion of tourism.

NOTE 17. EXCISE TAXES ON RENTAL MOTOR VEHICLES

Under the provisions of the O.C.G.A. §48-13-93, the City has imposed and collected an excise tax on rental motor vehicles. The Code section requires the City to expend taxes collected for the purpose of promoting tourism, conventions, trade shows, etc., and promoting the City and business therein. During the year ended July 31, 2023, the City transferred all motor vehicle excise taxes to the Downtown Development Authority Fund, where it was used for the promotion of tourism. The following schedule represents the revenues and expenditures pertaining to the tax for the fiscal year ended July 31, 2023:

Revenues	$177,930
Expenditures	$177,930

NOTE 18. TAX ABATEMENT AGREEMENTS

Pursuant to GASB Statement No. 77, *Tax Abatement Disclosures,* the City is required to disclose certain information about tax abatements as defined in the statement. For the purposes of GASB No. 77, a tax abatement is a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which: a) one or more governments promise to forgo tax revenues to which they are otherwise entitled, and b) the individual or entity promises to take specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the City or the citizens of the City. The City has entered into such agreements. The following is a description of the City's abatement program where the City has promised to forgo taxes.

The Fayette County Board of Commissioners authorizes industries which promote the development of trade, commerce, industry and employment opportunities in the City to participate in the Economic Development Program. Abatements of real and personal property taxes are provided to companies based on a criteria calculation which includes targeted industry, capital investment and employment. The abatement may reduce the amount of property taxes paid over 10 or 20 years. The agreements may contain claw back provisions which would result in the re-payment of the annual tax abatement for each year the Company fails to meet its jobs/investment commitment. For the fiscal year ended July 31, 2023, the City abated property taxes totaling $172,350.

NOTE 19. NET INVESTMENT IN CAPITAL ASSETS

The following schedule provides the details of the net investment in capital assets classification of net position:

	Governmental Activities	Business-Type Activities
Calculation of net investment in capital assets:		
Capital assets, non-depreciable	$ 22,701,952	$ 3,200,725
Capital assets, depreciable	122,220,595	72,617,641
Accumulated depreciation	(33,612,836)	(36,673,111)
Bonds payable	(21,695,000)	(11,360,000)
Financed purchases	(1,474,963)	-
Notes payable	-	(13,788,156)
Unspent financed purchase proceeds	-	-
Unamortized premiums on bonds payable	(1,864,929)	(361,197)
Deferred charges on refunding	-	432,847
	$ 86,274,819	$ 14,068,749

NOTE 20. SHORT-TERM DEBT

Line of Credit. On January 7, 2022, the Downtown Development Authority obtained a line of credit from a financial institution to assist in the completion of an expansion project at 119 Glynn Street South with an approved limit of $300,000. The line of credit has a variable interest rate of 3.75%, which is the prime rate with interest due monthly and principal due on July 10, 2024. The unused line of credit balance at July 31, 2023 is $228,321.

The following is a summary of short-term debt transactions for the City for the year ended July 31, 2023:

	Beginning Balance	Additions	Reductions	Ending Balance
Line of credit	$ 63,127	$ 236,873	$ (71,679)	$ 228,321
Total	$ 63,127	$ 236,873	$ (71,679)	$ 228,321

Contributions as a percentage of covered payroll	**14.5%**	17.7%	12.4%	12.7%

Notes to the Schedule:

Valuation date	January 1, 2023
Cost method	Projected unit credit
Actuarial asset valuation method	Sum of actuarial value at beginning of year and the cash flow during the year plus the assumed investment return, adjusted by 10% of the amounts that the value exceeds or is less than the fair value at the end of the year. The actuarial value is adjusted, if necessary, to be within 20% of fair value.
Assumed rate of return on investments	7.375%
Projected salary increases	2.25% plus service based merit increases
Cost of living adjustments	0.00%
Amortization method	Closed level dollar for remaining unfunded liability
Remaining amortization period	Remaining amortization period varies for the bases, with a net effective amortization period of 10 years.

The schedule will present 10 years of information once it is accumulated.

COMBINING AND INDIVIDUAL FUND STATEMENTS AND SCHEDULES

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Vehicle Excise Tax Fund – This fund is used to account for revenues from an excise tax on rental motor vehicles, which must be used for the promotion of recreation, tourism and commerce and for the construction or repair of related facilities.

Confiscated Assets Fund – This fund is used to account for cash received either as a result of a cash confiscation or from the sale of capital assets acquired from a drug raid.

Hotel/Motel Tax Fund – This fund is used to account for hotel/motel taxes collected.

Veterans Memorial Park Fund – This fund is used to account for funds donated to the City for the design and construction of a Veterans Memorial, representing those persons from Fayette County, Georgia who have died in service of our country.

Cemetery Fund – This fund is used to account for revenues earned from a trust set up for cemetery improvements.

Downtown Development Authority Fund – This fund is used to account for downtown revitalization and preservation of the historic district.

Main Street Tourism Association Fund – This fund is used to account for revenues and expenditures associated with the promotion of tourism in the City.

CAPITAL PROJECTS FUNDS

Capital Projects 2 Fund – This fund is used to account for the accumulation and expenditures of resources for various capital projects which are funded by a percentage of property taxes.

TAD Fund – This fund is used to account for taxes collected and expended from the City's tax allocation district.

STATISTICAL SECTION

STATISTICAL SECTION

This part of the City's Annual Comprehensive Financial Report ("ACFR") presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the City's overall financial health.

Contents **Page**

Financial Trends ..... **92 – 105**

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity ..... **106 – 115**

These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.

Debt Capacity ..... **116 – 121**

These schedules contain information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information ..... **122 and 123**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information ..... **124 – 127**

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive financial reports for the relevant year.

Notes:
Details regarding the City's outstanding debt can be found in the notes to the financial statements.

(1) See the Schedule of Demographic and Economic Statistics for personal income and population data.

(2) Due to the implementation of GASB 61, the Downtown Development Authority was changed from a discretely presented component unit to a blended component unit and the related debt became part of the primary government in fiscal year 2013.

Total overlapping debt			6,807,440
City of Fayetteville direct debt			25,034,892
Total direct and overlapping debt			$ 31,842,332

Source:
Fayette County School District and Fayette County Public Facilities Authority.

Notes:
Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Fayetteville. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and, therefore, responsible for repaying the debt of each overlapping government.

[1] The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the County's taxable assessed value that is within the City's boundaries and dividing it by the County's total taxable assessed value.

CITY OF FAYETTEVILLE, GEORGIA

WATER AND SEWER USER FEES AND CHARGES

In accordance with the requirements of Rule 15c-2-12 promulgated by the Securities and Exchange Commission ("SEC"), the City has covenanted to disclose the following annual financial information.

User fees are set by the Mayor and Council to recover independently the cost of providing water and sewerage service, to pay principal and interest on debt obligations of the System and to general reserves for emergencies and expansion of the System. The Mayor and Council last adopted a schedule for rates, tolls, assessments and fees charged by the System in August 2009. The City has covenanted in the Ordinance to revise and adjust such schedules of rates, fees and charges for water sewerage services and facilities to the extent necessary to produce funds at least equal to the amount necessary to: 1) operate and maintain the System on a sound business-like basis but before provision for depreciation or amortization; 2) produce an amount equal to 115% of the Debt Service Requirement for the then current Sinking Fund Year; 3) create and maintain in the Debt Service Reserve Fund an amount equal to the Debt Service Reserve Requirement; and 4) make the payments then required to be made into the Renewal and Extension Fund.

The minimum water and sewer bill is based on the first 2,000 gallons of water usage. In addition to the charges for water and sewerage usage, the City charges a connection fee for new water and sewer services based upon the size of the water meter as indicated in the following table:

Meter Size	Meter Charge	Installed	Tap	Sewer	Total for Water and Sewer
5/8 - 3/4"	$ 900	Y	$ 400	$ 1,479	$ 2,779
1"	1,200	Y	400	2,464	4,064
1.5"	1,500	Y	400	4,928	6,828
2"	2,000	Y	400	7,885	10,285
3"	2,500	N	-	14,785	17,285
4"	7,800	N	-	24,642	32,442
6"	10,540	N	-	49,283	59,823
8"	14,000	N	-	78,854	92,854

Based on the current rate structure and average residential water of usage of 6,500 gallons per month, the average water bill for a residential customer is approximately $30.97 per month. The average residential sewer bill is approximately $33.03 per month.

COMPLIANCE SECTION

MAULDIN & JENKINS
CPAs & ADVISORS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Honorable Mayor and Members
of City Council
City of Fayetteville, Georgia
Fayetteville, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States ("*Government Auditing Standards"*), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Fayetteville, Georgia (the "City") for the year ended July 31, 2023, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated January 31, 2024.

Report on Internal Control Over Financial Reporting
In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

To the Honorable Mayor and Members
of City Council
City of Fayetteville, Georgia
Fayetteville, Georgia

Report on Compliance For Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the City of Fayetteville, Georgia's (the "City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended July 31, 2023. The City's major federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, the City complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended July 31, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America ("GAAS"); the standards applicable to financial audits contained in *Government Auditing Standards* as issued by the Comptroller General of the United States ("*Government Auditing Standards"*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City's federal programs.

Auditor's Responsibility for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.

- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.

- obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit, we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
