INDEPENDENT AUDITOR'S REPORT

To the Mayor and Council
City of Hahira, Georgia

Report on the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Hahira, Georgia ("the City") as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of December 31, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the comptroller general of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

208 W. Park Ave., Valdosta, GA 31602 Telephone: 229-247-8005, Fax: 229-247-8998

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and the pension related schedules be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. However, management has elected not to include the Management's Discussion and Analysis. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The individual fund financial schedules, the One Percent Special Purpose Local Option Sales Tax Project Cost Schedule, the One Percent Transportation Special Purpose Local Option Sales Tax Project Cost Schedule, and the schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("supplementary information") are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 30, 2025 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. The report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance

Respectfully submitted,

CITY OF HAHIRA
RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS
DECEMBER 31, 2024

Fund Balance - Total Governmental Funds	$1,983,024
Amounts reported for governmental activities in the statement of net position are different because:	
Governmental funds only report liabilites that will be liquidated with current assets. Compensated absences payable, however, which will not be liquidated with current assets, are not liabilites of the governmental funds but are liabilities of the government-wide financial statements.	(36,919)
Long-term debt is not reported in governmental activities because it is not expected to be liquidated with expendable available financial resources but is reported in the government-wide financial statements.	(256,709)
Interest accrued on long-term debt is not reported in the funds but is reported as a liability in the government-wide financial statements.	(9,870)
Pension related assets and liabilities are not reported in the funds but are reported as assets and liabilities in the government-wide financial statements:	
Deferred outflows of resources	181,748
Net pension liability	(314,767)
Deferred inflows of resources	(61,012)
Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the funds.	58,616
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.	5,900,838
Net position of governmental activities	$7,444,949

CITY OF HAHIRA
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
FOR THE YEAR ENDED DECEMBER 31, 2024

Net change in fund balances - total governmental funds	$ (164,988)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay ($1,166,814) exceeded depreciation expense ($370,133).	796,681
Governmental funds only report compensated absence expense if the expense has been paid in the current year or will be paid with current funds. However, on the statement of activities the change in the liability is reflected as program expense. This is the amount of the change in compensated absences payable from the beginning of the year to the end of the year.	3,453
Adjustments to pension expense as a result of changes in pension related expenses recorded in government-wide financial statements are not recorded in the funds. This the amount that pension expense was increased.	(6,902)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. This is the increase in deferred property tax revenue and deferred grant revenue over prior year.	36,523
Repayment of debt is a use of current financial resources in the governmental funds, but the repayment of debt decreaseses liabilities in the statement of activities.	45,063
Change in net position of governmental activities	$ 709,830

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These financial statements present the City of Hahira, Georgia, ("the City") which operates under a mayor-council form of government. The City's major operations in addition to general administrative services include public safety (police and fire protection), public works (highways and streets), sanitation, water and sewer, health and welfare, culture and recreation.

The City of Hahira's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

The more significant accounting policies, established in GAAP and used by the City, are discussed below.

A. Reporting Entity

These financial statements present the City (the primary government) and its component unit, the Downtown Development Authority of the City of Hahira ("DDA"). As defined by Governmental Accounting Standards Board Statement Number 14, component units are legally separate entities that are included in the City's reporting entity because of the significance of their operating or financial relationship with the City. Separate financial statements are not issued for the DDA.

The DDA is organized pursuant to the provisions of the Georgia Downtown Development Authorities Law. The DDA's primary purpose is revitalization and redevelopment of the central business district of the City, to develop and promote for the public good and general welfare, commerce, industry and employment opportunities and to promote the general welfare of the State of Georgia by creating a climate favorable to the location of new industry, trade and commerce and the development of existing industry, trade and commerce with the City.

The DDA is reported in these financial statements as a blended component unit and special revenue fund.

There are no potential component units that are excluded from the City's reporting entity.

B. Basic Financial Statements – Government-wide Statements

The City's basic financial statements include both government-wide (reporting the City as a whole) and fund financial statements (reporting the City's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The City's police and fire protection, highways and streets, health and welfare, culture and recreation and general administrative services are classified as governmental activities. The City's water, sewer and sanitation fund is classified as a business activity. There are no fiduciary funds, nor component units that are fiduciary in nature, included.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In the government-wide Statement of Net Position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, (b) and are reported on a full accrual, economic resources measurement focus, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The City's net position is reported in three parts – net investment in capital assets; restricted; and unrestricted. Restricted assets are liquid assets (generated from revenues and not bond proceeds) that have a third party (statutory, bond covenant, or granting agency) limitation on their use. The City would typically use restricted assets first, as appropriate opportunities arise, but reserves the right to selectively defer the use thereof to a future project or replacement equipment acquisition.

The government-wide Statement of Activities reports both the gross and net cost of each of the City's functions (general government, public safety, public works, etc.) and business activities (water, sewer and sanitation fund). The functions are also supported by general government revenues (taxes, investment earnings, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function (general government, public safety, etc.) or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs (by function or business-type activity) are normally covered by general revenue (taxes, service fees, fines and forfeitures, investment earnings, etc.).

The government-wide focus is more on the sustainability of the City as an entity and the change in the City's net position resulting from the current year's activity.

C. Basic Financial Statements – Fund Financial Statements

The financial transactions of the City are reported in individual funds in the fund financial statements. The governmental funds employ the current financial resources measurement focus. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balance, revenues and expenditures/expenses.

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column in the fund financial statements. GASB No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for determination of major funds.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The City's major funds are the General Fund, ARPA Fund, SPLOST VIII Capital Project Fund, OPB ARPA Capital Projects Fund, and the Water, Sewer and Sanitation Enterprise Fund.

The following fund types are used by the City:

1. Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the City:

a. General Fund - is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

b. Special Revenue Fund – used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The City has three special revenue funds:

   ARPA Fund – used to account for funds received from the U.S. government restricted for specific purposes.

   Drug Seized Fund – used to account for assets confiscated by the police department and restricted to use for qualifying public safety expenditures.

   Downtown Development Authority Fund – used to account for assets, liabilities, revenue and expenditures of the Downtown Development Authority of the City of Hahira.

c. Capital Projects Fund – used to account for special capital projects. The City has three capital projects funds:

   Special Purpose Local Option Sales Tax (SPLOST) VIII - used to account for special purpose local option sales taxes VIII (2019 issue) received and restricted to use for qualifying capital expenditures.

   Transportation Special Purpose Local Option Sales Tax (TSPLOST) – used to account for transportation special purpose local option sales taxes received and restricted to use for qualifying transportation-related capital expenditures.

   OPB ARPA Fund – used to account for water and sewer infrastructure projects.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Proprietary Fund:

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position and cash flows. Goods or services from such activities provided to outside parties are accounted for in enterprise funds. The generally accepted accounting principles applicable are similar to businesses in the private sector.

Enterprise funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs. Operating revenues and expenses for proprietary funds are those that result from providing services and producing and delivering goods and/or services. It also includes all revenue and expenses not related to capital and related financing, non-capital financing, or investing activities. Nonoperating revenues and expenses include subsidies, interest expense from financing and investment earnings resulting from nonexchange transactions or auxiliary activities.

The following is a description of the proprietary fund of the City:

Water, Sewer and Sanitation Enterprise Fund - used to account for the revenues and related expenses of providing water, sewer and sanitation services to the City's residents.

D. Measurement Focus and Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurement made regardless of the measurement focus applied.

1. Government-wide and Proprietary Fund Financial Statement:

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants, entitlements and donations. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Deferred outflows of resources are recorded when consumption of assets (net) by the government are applicable to a future reporting period. Deferred inflows of resources are recorded when an acquisition of assets (net) by the government is applicable to a future reporting period.

2. Governmental Fund Financial Statements:

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues and other governmental fund financial resources are recognized in the accounting period in which they become both measurable and available. The City's

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

definition of "available" means collectible within one year. When an asset is recorded in the governmental fund financial statements, but the revenue is not available, the government reports a deferred inflow of resources until such time as the revenue becomes available. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

3. In fiscal year 2022, the City adopted Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. The primary objective of this statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This statement increases the usefulness of government's financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use the underlying asset. The adoption of this statement did not have an impact on the City's net position.

E. Financial Statement Amounts

1. Cash and Equivalents

Cash shown on the balance sheets and statements of cash flows includes amounts in demand deposits and short-term investments with a maturity date less than three months from the date acquired by the City.

2. Investments

The City is limited by state law to the following investments: obligations of the State of Georgia, other states, or the U. S. Government; obligations fully insured by the U. S. Government or any agency thereof; obligations of any corporation of the U. S. Government; prime bankers' acceptance; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia.

3. Receivables and Property Taxes

Accounts receivable are recorded in the governmental funds for taxes receivable and amounts due from other governments. The accounts receivable for property taxes – real property is recorded net of the associated allowance for doubtful accounts in the general fund.

Taxes on real estate, motor vehicles, intangibles, real estate transfer and mobile homes are collected by the county tax collector and remitted to the City. The City bills and collects all other tax revenues. Georgia statutes do not provide a maximum millage rate which may be levied.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Tax revenues are recognized during the period in which they are levied. An allowance is established for delinquent taxes to the extent their collectability is questionable. Taxes collected during the current period and within sixty days thereafter are considered available to finance current operations.

The property tax rate for 2024 was $4.969 per $1,000 of assessed valuation, and current tax collection for the year then ended was 92.22% of the tax levied.

The full year property tax calendar is as follows:

Assessment date	January 1
Assessors submit returns to tax collector	July 1
Levy date	September 1
Tax collector mails annual tax bills	September 15
Due date of taxes, other than motor vehicles	November 15
Execution (lien) date for unpaid taxes	November 16

4. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the governmental activities column in the government-wide financial statements. All capital assets are valued at historical cost or estimated historical cost if actual historical is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized. Interest has not been capitalized during the construction period on property, plant, and equipment.

Generally, assets with an initial estimated useful life of more than one year and have an original cost of $5,000 or more for infrastructure and $2,000 or more for other than infrastructure are capitalized. Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are listed below:

Buildings, improvements, water system	10 - 40 years
Infrastructure	40 – 50 years
Machinery and equipment	5 - 20 years

GASBS No. 34 requires the City to report and depreciate infrastructure assets. The City has elected not to report major general infrastructure assets retroactively but began reporting newly acquired infrastructure assets effective January 1, 2004. Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc. These infrastructure assets are likely to be the largest asset class of the City.

The expense resulting from amortization of assets recorded under financing leases is included in depreciation expense.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

5. Interfund Activity

Interfund activity is reported as loans, as services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Receipts and/or payments to or from other governmental units included in the reporting entity of the City are not reported as transfers. They are classified according to the purpose for which the receipt or payment has been made.

The principal purpose of the City's interfund transfers, if any, is to reimburse one fund for the expenditures of another fund.

Capital assets that were purchased by a SPLOST Capital Projects Fund and contributed to the Water and Sewer Fund are reported as capital contributions in the proprietary fund and on the government-wide financial statements. Because capital assets are not reported in the governmental funds there is no corresponding reporting of the capital contribution made by the SPLOST Capital Project Fund.

The principal purposes of interfund balances are to record the amount of reimbursement due from the Water, Sewer and Sanitation Fund for expenditures paid by the General Fund, the amount of reimbursement due from a SPLOST Capital projects Fund for expenditures paid by the Water, Sewer and Sanitation Fund, and other reimbursements to be made between funds.

6. Revenues

Substantially all governmental fund revenues are accrued. Property taxes are billed and collected within the same period in which the taxes are levied. Revenues of the governmental funds susceptible to accrual are property taxes, sales tax and alcoholic beverage tax. Subsidies and grants to general or special revenue funds, which finance either capital or current operations, are reported as non-operating revenue based on GASBS No. 33. In applying GASBS No. 33 to grant revenues, the provider recognizes liabilities and expenses and the recipient recognizes receivables and revenue when the applicable eligibility requirements, including time requirements, are met. Resources transmitted before the eligibility requirements are met are reported as advances by the provider and deferred revenue by the recipient.

Program revenues reported on the statement of activities are licenses and permits, fines and forfeitures, nutritional services to the elderly and operating and capital grants and contributions.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

7. Expenditures

Expenditures are recognized when the related fund liability is incurred. Prepaid expenditures/expenses are recorded when an expenditure/expense is incurred but benefits are for a subsequent period.

8. Inventories

Significant materials on hand, if any, are shown as inventory. Inventory in the Water, Sewer and Sanitation Fund is typically comprised of water meters, pipe, pipe fittings, repair parts and related supplies and is valued at cost (first-in, first-out). The cost of other materials and supplies, including gasoline and fuel, are charged to operations using the purchase method of accounting.

9. Compensated Absences and Employee Benefits

Compensated Absences:

The City allows full-time, permanent employees to accumulate unused annual leave and sick leave to a maximum of 160 hours. Upon termination, up to 120 hours of accumulated annual leave is payable. Upon termination or retirement, only those employees employed before December 31, 1985 are entitled to be compensated for sick leave.

Vacation leave is accrued as a liability as the benefits are earned by the employee when the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or other means. Sick leave is accrued as a liability as the benefits are earned by the employees if it is probable that the employer will compensate the employees for the benefits through cash payments conditioned on the employees' termination or retirement.

Compensated absences are recorded as liabilities in the applicable government-wide, business-type activities or proprietary fund type statement of net position. Only current amounts payable for employees terminated or retired at year end are recorded in the governmental funds.

Retirement Benefits:

The City maintains a non-contributory retirement plan (refer to Note 8 for additional plan information).

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

10. Fund Balances/Net Position

Fund Balances. Generally, fund balance represents the difference between the current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

1. Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.
2. Restricted – Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the entity or through external restriction imposed by creditors, grantors or laws or regulations of other governments.
3. Committed – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the Mayor and Council through the adoption of a resolution. The Mayor and Council may also modify or rescind the commitment.
4. Assigned – Fund balances are reported as assigned when amounts are constrained by the Mayor and Council's intent to be used for specific purposes but are neither restricted nor committed. Through resolution the Mayor and Council can authorize the Mayor or City Manager to assign fund balances.
5. Unassigned – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion.

Flow Assumption. When both restricted and unrestricted amounts of fund balance or net position are available for use for expenditures or expenses incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balances in the following order: (a) committed, (b) assigned, (c) unassigned.

Net Position. Contributed capital is recorded in the proprietary fund when the City receives grants from federal, state, or private sources designed for the specific activity. These contributions are part of the net position of the enterprise activity.

NOTE 2 – CASH, CERTIFICATES OF DEPOSIT, CUSTODIAL RISK AND INTEREST RATE RISK

Cash and certificates of deposit are as follows:

Cash	Carrying Amount	Bank Balance
Governmental activities:		
General fund		
Deposits	$ 538,685	$ 615,033
Petty cash	1,925	-
SPLOST VIII fund	101,501	99,124

Business-type activities	180,309	180,309
Total certificates of deposit	$ 741,521	$ 741,520

Custodial Credit Risk - Custodial risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City has no custodial risk policy. Of the above carrying amount, all funds are collateralized by securities or insured by FDIC insurance.

Interest Rate Risk - The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rate risk. However, the City has made no investments that would subject it to interest rate risk.

Restricted Cash - Restricted cash at year end, totaling $367,501, consists of the following:

Governmental activities. Cash in the amounts of $56 in the general fund is restricted for road resurfacing through the LMIG program. Cash in the amount of $101,501 in the SPLOST VIII fund is restricted for specific capital outlay projects, $5,519 in the Drug Seized Fund is restricted for specific public safety expenditures, $53,916 in the TSPLOST fund is restricted for transportation related expenditures, and $42,906 in the Downtown Development Authority fund is restricted to use by the Authority for revitalization and redevelopment projects in the City.

Business-type activities. Cash in the enterprise fund of $163,603 is restricted by bond covenants.

NOTE 6 – LONG-TERM DEBT

Governmental Activities

Financing lease payable to Oshkosh Capital on May 21, 2014, collateralized by a fire truck (received February 2015) with a cost of $632,048. The financing lease is payable in fifteen annual installments of $58,280.75, including interest at 4.38% per annum through 2029.

Business-type Activities

Business-type activities long-term debt consists of the following:

Notes Payable – GEFA

GEFA Note #2. Note payable to the Georgia Environmental Facilities Authority to fund water improvements in an amount of $431,777, payable in 239 monthly installments equal to the amount borrowed including interest at 1% until 20 years from the amortization commencement date.

GEFA Note #3. Note payable to the Georgia Environmental Facilities Authority to fund rehabilitation of the City's wastewater treatment plant and installation of an influent pump station in an amount of $810,000, payable in 239 monthly installments beginning May 2019 until April 2039, including interest at 1.65%.

Water and Sewer Revenue Bonds

Revenue bonds payable consisted of the following:

2014 Refunding Bond. Bond payable to Ameris Bank in the original amount of $2,110,000, payable in monthly installments of $11,974.77, including interest at 3.21% through September 15, 2034. The bonds were issued to finance the cost of refunding and redeeming the City's existing water and sewer revenue bonds.

Water and sewer revenue bonds payable constitute special obligations secured by a lien on and pledge of the revenues of the water and sewer system. The revenue collateralizes the bond payable to Ameris Bank and the special fund established by the ordinance. The ordinances provide that the revenue of the system is to be used first to pay reasonable and necessary costs of operating, maintaining and repairing the system, including salaries, wages, payment of any contractual obligations incurred pertaining to the operation of the system, the cost of materials and supplies, rentals of leased property and facilities, insurance and such other charges as may properly be made for the purpose of operating, maintaining, and repairing the system in accordance with sound business practices, without allowance for depreciation. Provisions also apply to the issuance of additional parity bonds.

NOTE 8 – RETIREMENT BENEFITS

GEORGIA MUNICIPAL EMPLOYEES BENEFIT SYSTEM

Plan Description. The City is a participating member of the Georgia Municipal Employees Benefit System (GMEBS), a noncontributory agent multiple employer defined benefit public employee retirement system that acts as a common investment and administrative agent for governmental entities in the State of Georgia. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. The plan is administered by Georgia Municipal Association. Benefit provisions and all other requirements are established by state statute. Plan features, including benefit provisions, are established by the plan Board of Trustees. Georgia Municipal Association issues a publicly available financial report that includes financial statements and required supplementary information for GMEBS. That report may be obtained from the Georgia Municipal Association, 201 Pryor Street S.W., Atlanta, Georgia 30303-3606.

Employees Covered. As of July 1, 2024, the following employees were covered by the benefit terms for the plan:

		Average			
Participants	Count	Age	Service	Pay	Benefits
Active	37	41.6	6.6	$ 51,708	N/A
Retired	6	68.5	N/A	N/A	$685
Disabled	0	N/A	N/A	N/A	N/A

Contributions. The Board of Trustees of the GMEBS has adopted an actuarial funding policy for the determination of annual contributions and the systematic funding of liabilities arising under the plan. The annual minimum contribution is the sum of 1) the normal cost (including administrative expenses), 2) the closed level dollar amortization of the unfunded actuarial accrued liability over a period that ranges from 10 years to 30 years based on the funding policy adopted by GMEBS Board of Trustees, and 3) interest on these amounts from the valuation date to the date contributions are paid (assumed monthly). The total level dollar amortization must be within a corridor of the 10-year and the 30-year amortization of the unfunded (surplus) actuarial accrued liability.

NOTE 8 – RETIREMENT BENEFITS (CONTINUED)

GEORGIA MUNICIPAL EMPLOYEES BENEFIT SYSTEM (CONTINUED)

The plan is subject to minimum funding standards of the Public Retirement System Standards Law (Georgia Code Section 47-20-10). The recommended employer contribution in accordance with the funding policy of the plan is $73,265, for the year ended December 31, 2024, (4.89% of covered payroll).

Net Pension Liability. The net pension liability as of March 31, 2024 (the measurement date), is $405,293 being the excess of the total pension liability, $1,478,304, over the plan's fiduciary net position, $1,883,597, both as of the measurement date. The total pension liability was determined as of the measurement date using amounts determined from actuarial valuation as of the measurement date.

Actuarial Assumptions

Valuation Date. The actuarially determined contribution rate was determined as of July 1, 2024, with an interest adjustment to the fiscal year. Contributions in relation to this actuarially determined contribution rate will be reported for the fiscal year ending December 31, 2024.

Measurement Date. March 31, 2024

Methods and assumptions used to determine contribution rates.

Actuarial Cost Method. Projected Unit Credit

Amortization Method. Closed level dollar for remaining unfunded liability

Remaining Amortization Period. Remaining amortization period varies for the bases, with a net effective amortization period of 10 years.

Asset Valuation Method. Sum of actuarial value at the beginning of the year and the cash flow during the year plus the assumed investment return, adjusted by 10% of the amount that the value exceeds or is less than the market value at end of year. The actuarial value is adjusted, if necessary, to be within 20% of market value.

Actuarial Assumptions:

Net Investment Rate of Return. 7.375%
Projected Salary Increases. 2.25% plus service-based merit increases
Inflation rate. 2.25%
Cost of living adjustments. 0%
Retirement age. 65+5
Mortality. Based on actuarial experience study for the period of January 1, 2015 to June 30, 2019.

NOTE 8 – RETIREMENT BENEFITS (CONTINUED)

GEORGIA MUNICIPAL EMPLOYEES BENEFIT SYSTEM (CONTINUED)

Long-term Expected Rate of Return – 7.375%, On-going Basis

The long-term expected rate of return on pension plan investments was determined using a building–block method in which best-estimated ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of March 31, 2022, are summarized below:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Domestic equity	45%	6.91%
International equity	20%	7.21%
Domestic fixed income	20%	1.61%
Real estate	10%	3.61%
Global fixed income	5%	1.67%
Cash	0%	
Total	100%	

Plan termination basis. 4.28% (30-year Treasury Securities Rate as of August 2023, published in September 2023; 3.13% last year)

Discount Rate. The discount rate used to measure the total pension liability was 7.375%. The projection of cash flows used to determine the discount rate assumed that contributions from the employer will be made at contractually required rates, actuarially determined. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

GEORGIA FIREFIGHTERS'S PENSION FUND

Plan Description. The City is a participating member of the Georgia Firefighters' Pension Fund (GFPF), a multiple employer cost-sharing defined benefit public employee retirement system funded by Member contributions and tax revenues on insurance premiums in protected areas. All fire departments with members (fulltime, part-time, or volunteer) and/or retirees in the Fund are considered to be Employers. The plan provides retirement benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries.

GFPF issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained from GFPF, 2171 East View Parkway, Conyers, GA, 30013-5756 or at www.gfpf.org.

Current Plan Provisions and Benefit Terms. The plan provisions and contribution revenue are established under Chapter 7 of Title 47 of the Official Code of Georgia. The Chapter has established a five-member Board of Trustees to administer the Fund. The Georgia Legislature has sole authority to change plan provisions, except that the Fund's Trustees may approve ad hoc cost-of-living adjustments each six months not exceeding 1 ½% per increase. The Georgia Legislature also determine source of revenues to the Fund from the State and Members. Employers are not required to make contributions to this fund.

Eligibility. Any person employed as a firefighter or enrolled as a volunteer firefighter making required monthly dues. Members of Peace Officers' Annuity and Benefit Fund are excluded. Regular employees of the fund are eligible.

Credited Service. All service as a Member of the fund rendered while a firefighter or volunteer firefighter excluding year for volunteer firefighters who do not meet attendance, meeting or drill requirements and excluding any leave of absence time. The Board may calculate Credited Service on a monthly basis.

Normal retirement. Full benefits paid at age 55 with at least 25 years of service. Reduced benefits paid if Member has at least 15 years of service.

Vesting. After completion of 15 years of service, a participant is 100% vested. If termination occurs prior to vesting, total member contributions are refunded, less 5%.

Vesting Benefits. Prior to vesting, death benefits equal $5,000. After vesting, the death benefit is as described by the Code.

Member Contributions (Dues). $25 per month.

Cost-of-Living Allowance (COLA). There is no automatic provision.

GEORGIA FIREFIGHTERS'S PENSION FUND (CONTINUED)

Actuarial Assumption and Methods.

Actuarial assumptions used to measure the total pension liability:

Measurement date: June 30, 2023
Actuarial valuation date: June 30, 2023
Inflation: 2.50%
Salary increases: N/A
Investment rate of return: 5.75%, net of pension plan investment expenses, including inflation

Mortality: Mortality rates were based on the PubS.H-2010 mortality tables, projected generationally with MP-2021 projections scale. Pre-retirement mortality rates were based on the PubS.H-2010 Employee, Below Median table. Post-retirement mortality was based on the PubS.H-2010 Healthy Retiree, Below Median table. Post-disability mortality rates were based on the PubS.H-2010 Disabled Retiree Table. Mortality for beneficiaries was based on the PubS.H-2010 Contingent Survivor, Below Median table.

Actuarial assumption used in the June 30, 2023 valuation were based on the results of the last actuarial experience study for the period July 1, 2015 – June 30, 2021.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate arithmetic expected future real rates of return are developed for each major asset class. These assumptions are converted into nominal assumptions by adding inflation, and then combined by weighing them by the target asset allocation percentages. The target asset allocation and best estimate of arithmetic real rates of return for each major class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Fixed Income	34.50%	2.25%
Large Cap Equities	18.00%	5.49%
Small/MidCap Equities	10.50%	6.55%
Int'l Equities (Unhedged)	13.00%	5.69%
Emerging Int'l Equities	6.50%	10.15%
Private Equity	7.50%	10.06%
Real Estate investment trust	5.00%	6.67%

GEORGIA FIREFIGHTERS'S PENSION FUND (CONTINUED)

*Discount rate***.** The discount rate used to measure the total pension liability was 5.75%. The projection of cash flows used to determine the discount rate assumed the plan member contributions will be made at the current contribution rate and that Non-Employer Contributing Entity contributions will remain at the level contributed in the previous fiscal year. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the net collective pension liability calculated using the discount rate of 5.75%, as well as the net pension liability calculated using the discount rate that is one percentage point lower (4.75%) and one percentage point higher (6.75%) than the current rate:

	1% Decrease (4.75%)	Current Discount Rate (5.75%)	1% Increase (6.75%)
Collective net pension liablity	$ 453,661,926	$ 260,496,355	$ 102,257,669

Municipal bond index rate used in the discount rate at the measurement date: 3.66%

Employer's proportionate share of collective net pension liability (NPL): $0

Employer's portion of the non-employer contributing entity's proportionate share of the collective NPL that is associated with the employer: $191,246

Total of the employer's proportionate share of the collective NPL and the portion of the non-employer contributing entity's total proportionate share of the collective NPL that is associated with the employer: $191,246

Employer's percentage of the collective NPL and the changes in percentage since the prior measurement date: N/A, 100% of the collective NPL is allocated to the State.

Change in actuarial assumptions: There were no changes in actuarial assumptions since the prior measurement date.

Change in benefit terms: Since the prior measurement date, a 1.0% Cost-of-Living Adjustment (COLA) was granted to retired members and beneficiaries and to the benefit rate for future retirees effective as of July 1, 2023.

NOTE 9 – RISK FINANCING ACTIVITY

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City is a member of the Georgia Interlocal Risk Management Agency (GIRMA). This membership allows the City to share liability, crime, motor vehicle, and property damage risks. There was no significant reduction of insurance coverage from the prior year. No losses in excess of insurance coverage have occurred in the last three years.

Chapter 85 of Title 36 of the Official Code of Georgia Annotated authorizes Georgia municipalities to form interlocal risk management agencies. The Georgia Interlocal Risk Management Agency (GIRMA) is a municipal interlocal risk management agency to function as an unincorporated nonprofit instrumentality of its member municipalities. GIRMA establishes and administers one or more group self-insurance funds and a risk management service to prevent or lessen the incidence and severity of casualty and property losses occurring in the operation of municipal government. The responsibilities of GIRMA are to defend and protect, in accordance with the member government contract and related coverage descriptions, any member of GIRMA against liability or loss.

The City's deductible limit is $1,000 per occurrence. The City files all claims with GIRMA. GIRMA bills the City for any risk of loss over the deductible.

The City is also a member of the GMA Workers Compensation Self Insurance Fund (GMA). This Fund operates under the authority of OCGA 34-9-150.

The responsibility of the Fund is to defend, in the name of and on behalf of the members, any suits or other proceedings which may at any time be instituted against them on account of injuries or death within the purview of the Workers' Compensation Law of Georgia, or on the basis of employer's liability, including suits or other proceedings alleging such injuries and demanding compensation therefore, although such suits, other proceedings, allegations or demands be wholly groundless, false or fraudulent. The Fund is also responsible for paying all costs taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation, or defense. Coverage provides up to a maximum of $100,000 for each worker's compensation claim. There is no deductible under this Fund.

Responsibilities of the City regarding GIRMA or GMA are as follows:

> To pay all contributions, assessments, or other sums due at such times and in such amounts as shall be established.

NOTE 9 – RISK FINANCING ACTIVITY (CONTINUED)

To allow GIRMA or GMA and its agents, reasonable access to all facilities of the City and all records, including but not limited to financial records, which relate to the purposes of GIRMA or GMA.

To allow attorneys appointed to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of loss protection furnished by the Fund or Funds established by GIRMA or GMA.

To assist and cooperate in the defense and settlement of claims against the City.

NOTE 10 – CONTINGENCIES

The City, in conjunction with cities and counties in an eighteen county South Georgia area are members of the Southern Georgia Regional Commission (SGRC). Membership in a regional commission (RC) is automatic for each municipality and county in the state. The official Code of Georgia Section 50-8-34 (Georgia Planning Act of 1989) provides for the organizational structure of the RCs. Each county and municipality in the state is required by law to pay minimum annual dues to an RC. The RC board membership includes the Chief elected official of each county and the chief elected official of each municipality. The Georgia Planning Act of 1989 (O.C.G.A. 50-8-34) defines RCs as "public agencies and instrumentalities of their members". Georgia laws also provide that the member governments are liable for any debts or obligations of an RC beyond resources (O.C.G.A. 50-8-39.1). Separate financial statements are available from the Southern Georgia Regional Commission, Valdosta, Georgia. Management does not believe the SGRC is currently experiencing fiscal stress that could put a financial burden on the City.

In prior years, the City has received monies through various federal and state grants. These programs are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursement to the grantor agencies for expenses disallowed under the terms of the grants. Management believes that the City will not incur significant losses on possible grant disallowances

NOTE 11 – COMMITMENTS AND SUBSEQUENT EVENTS

On April 12, 2017, the City entered into an operating lease to rent real estate for the use of the police department. The lease term is seven years from the commencement date and will automatically renew up to three additional one-year terms unless the City notifies the lessor. An annual rental payment of $24,000 is due on or before the fifteenth day following the commencement date. The lease was renewed for an additional 5 year term in June 2023, and the annual lease was increased to $52,000.

On November 22, 2024, the City entered into a loan agreement administered by Georgia Environmental Finance Authority for a Waste Water Treatment Plant (WWTP) project. The total amount of this loan is projected to be $7,000,000. The interest rate for this loan is 3.42%, with a 30 year term, and approximate monthly payments of $31,121. With regard to this agreement, no funds have been drawn down as of December 31, 2024. The total amount of the WWTP project is estimated to cost $24,000,000 with the remainder being funded with American Rescue Plan Act Funds of $17,000,000.

NOTE 12 – RELATED ORGANIZATION

The Housing Authority of the City of Hahira, Georgia is registered with the Department of Community Affairs (DCA) as a local government authority and is administered by the National Housing Authority. The mayor of the City appoints members to sit on the board of directors of the Authority. However, the City provides no financial support and is not obligated in any manner for the Authority.

NOTE A - BUDGETS

The City's Finance Ordinance requires the governing authority to adopt budgets for all governmental fund types (general and special revenue funds). An annual budget is also prepared for the City's enterprise fund. Budgets for capital projects fund are adopted on a total project basis rather than on an annual basis. The annual budgets are prepared in accordance with the basis of accounting utilized by that fund. The legal level of budgetary control is the department level.

The budget may be amended by the Mayor and Council during or after the public hearing except that no amendment shall be effective with a public hearing if (1) a new item of appropriation is added in excess of one percent of the total amount of appropriations stated in the initially approved budget, (2) there is an increase or decrease in any item of appropriations by more than 10%, or (3) there is an increase in appropriations requiring an increase in taxes by more than 5%. Notice of hearings on budget amendments must be advertised at least three days prior to the date set for the hearing.

In October 2004, the City Finance Ordinance was amended to provide that: (1) the budget shall state the objectives and services to be provided in a clear general summary for each department, (2) each departmental budget shall include totals for the categories of: salaries and wages, supplies, contracted services and capital outlays, (3) the general fund budget includes designated sections for revenues, debt service, and capital expenditures, (4) the total proposed expenditures shall not exceed the total anticipated revenues.

Department managers may transfer appropriations in any fund among the various accounts within a department with certain restrictions. Transfers within a department, which increase salaries, require approval of the City Council. Any increase in appropriation for any fund or department within a fund requires approval of the City Council. Except for appropriations for capital expenditures, all appropriations, to the extent not expended or encumbered, lapse at the close of the period for which the appropriation was budgeted. Appropriations for capital expenditures continue in effect until the purpose for which it was made has been accomplished or abandoned. Capital appropriations are deemed abandoned after three years when there has been no disbursement or encumbrance of the appropriation. The Mayor and Council advertise and conduct public hearings on the proposed budget in accordance with ordinances and state law requirements.

NOTE B - BUDGET - TO - ACTUAL RECONCILIATION

An explanation of the difference between budgetary inflows and outflows and revenues and expenditures determined in accordance with generally accepted accounting principles are as follows:

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards ("the Schedule") includes the federal award activity of the City under programs of the federal government for the year ended December 31, 2024. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operation of the City, it is not intended to or does not present the financial position, changes in net assets, or cash flows of the City.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts, if any, shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The City has not elected to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

The Honorable Mayor and City Council
City of Hahira, Georgia

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the City of Hahira's ("the City") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended December 31, 2024. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City's federal programs.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2024-002. Our opinion on each major federal program is not modified with respect to this matter.

208 W. Park Ave., Valdosta, GA 31602 Telephone: 229-247-8005, Fax: 229-247-8998

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses,

as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Mayor and Council
City of Hahira, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Hahira, Georgia ("the City"), as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise City's basic financial statements and have issued our report thereon dated May 30, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City's internal control. Accordingly, we do not express an opinion on the effectiveness of City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified a deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2024-001 that we consider to be a material weakness.

208 W. Park Ave., Valdosta, GA 31602 Telephone: 229-247-8005, Fax: 229-247-8998

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

The City's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the City's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED DECEMBER 31, 2024

Section II – FINANCIAL STATEMENT FINDINGS

2024-001

Criteria: Proper segregation of accounting functions strengthens internal control.

Condition: Inadequate segregation of accounting duties among personnel.

Cause: Limited staff size and resources.

Effect: Due to limited staff size certain functions are not segregated including collection/deposit of cash; accounts payable and recording of general ledger and payroll processing and general ledger. Errors, intentional or otherwise, and fraud could occur in the processing of financial transactions and preparation of financial statements.

Recommendation: We recommend that increased management oversight of the accounting function be utilized to mitigate risk.

Management Response: Management concurs with this finding. See management's Corrective Action Plan separately submitted.

Section III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2024-002

Criteria: New rules in the Uniform Guidance, which contains rules pertaining to federal awards, require that procurement polices be written and contain stipulated elements.

Condition: The City's procurement policies and procedures covering expenditures of federal awards are adequate and have been followed. However, procurement policies covering all of the Uniform Guidance requirements must now be in writing.

Cause: These requirements are new.

Effect: Noncompliance with Uniform Guidance requirements.

Recommendation: Written procurement policies meeting Uniform Guidance requirements should be drafted and adopted.

Management Response: Management concurs with this finding. See management's Corrective Action Plan separately submitted.
