INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and City Council
City of Mount Vernon, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the City of Mount Vernon, Georgia, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the City of Mount Vernon as of December 31, 2020, the respective changes in financial position, and where applicable, cash flows thereof, and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require the pension schedules and notes be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted Management’s Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Mount Vernon, Georgia's basic financial statements. The schedule of expenditures of Special Purpose Local Option Sales Tax proceeds is presented for purposes of additional analysis as required by Georgia code and is also not a required part of the basic financial statements.

The schedule of expenditures of Special Purpose Local Option Sales Tax is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of Special Purpose Local Option Sales Tax proceeds is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 2, 2022 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

City of Mount Vernon, Georgia
Reconciliation of the Balance Sheet of Governmental Funds
to the Statement of Net Position
December 31, 2020

Amounts reported for governmental activities on the statement of net position are different because of the following:

Total funds balances for governmental funds		$ 229,261
Capital assets used for governmental activities are not financial resources, and therefore, are not reported in the governmental funds		1,649,841
Deferred outflows of resources are not due and payable in the current period and are not reported in the funds. These deferred outflows consist of pension related experience differences, assumption changes and contributions.		171,216
Deferred inflows of resources are not available to pay for current expenditures, and therefore, are not reported in the funds. These deferred inflows of resources consist of pension related differences between projected and actual earnings on plan benefits.		(2,619)
Long-term liabilities applicable to the city's governmental activities are not due and payable in the current period, and accordingly, are not reported as fund liabilities:		
Net pension liability	(424,678)	
Notes payable	(170,256)	
		(594,934)
Total net position of governmental activities		$ 1,452,765

The accompanying notes are an integral part of these financial statements.

City of Mount Vernon, Georgia
Reconciliation of the Statement of Revenues, Expenditures
And Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Year Ended December 31, 2020

Amounts reported for governmental activities on the statement of activities are different because of the following:

Net change in fund balances - total government funds		$ 55,565
Governmental funds report capital outlays as expenditures. However, on the statement of activities, the costs of those assets are allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense exceeded capital outlay in the current year:		
Capital outlay - Depreciable capital assets	$ 254,578	
Depreciation	(174,206)	
		80,372
The net effect of various miscellaneous transactions involving capital assets (i.e. sales and trade-ins) is to increase net assets.		-
Some expenses reported in the statement of activities do not require the use of financial resources, and therefore, are not reported as expenditures in the government funds. These expenses are:		
Change in net pension liability		(44,063)
The repayment of long-term debt consumes the current financial resources of the government funds; debt repayment decreases long-term liabilities in the statement of net postion.		130,250
The issuance of long-term debt is reported as an other financing source at the fund level but is reported as a liability on the government wide statement of net position		(114,081)
Change in net position of governmental activities		$ 108,043

The accompanying notes are an integral part of these financial statements.

City of Mount Vernon, Georgia
Statement of Cash Flows
Proprietary Funds
For the Year Ended December 31, 2020

	Water & Sewer
Cash flows from operating activities:	
Receipts from customers	$ 690,808
Payments to suppliers for goods and services	(358,041)
Payments to employees	(208,097)
Net cash provided (used) by operating activities	124,670
Cash flows from capital and related financing activities:	
Interest paid on debt	(18,241)
Principal paid on GEFA loans	(71,970)
Revenue bonds retired	(41,662)
Purchase of capital assets	(62,239)
Transfer in from General fund / SPLOST	196,078
Net cash provided (used) by capital and related financing activities	1,966
Cash flows from noncapital financing activities:	
Transfers out to other funds	(96,370)
Net cash provided (used) by noncapital financing activities	(96,370)
Cash flows from investing activities:	
Investment income	22
Net cash provided (used) by investing activities	22
Net increase (decrease) in cash	30,288
Cash, January 1, 2020	22,354
Cash, December 31, 2020	$ 52,642
Reconciliation of operating income to net cash provided (used) by operating activities:	
Operating income	$ (44,741)
Depreciation	163,068
Change in accounts receivable	1,613
Change in accounts payable	4,730
Net cash provided (used) by operating activities	$ 124,670

The accompanying notes are an integral part of these financial statements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of Mount Vernon, Georgia (the "City") operates under a council/mayor form of government and provides the following services: general and administration, public safety, and highways. In addition, the City operates a water and sewer system for the incorporated areas.

For financial reporting purposes, in accordance with the criteria in GASB Standards, the City includes all funds, account groups, agencies, boards, commissions, and authorities that are within its primary government. A component unit is a legally separate organization for which elected officials of a primary government are financially accountable. There are three sets of criteria that the City evaluates to determine whether a potential component unit will be included in the reporting entity of the City of Mount Vernon. They are financial accountability, financial accountability as a result of fiscal dependency, and misleading to exclude the component unit.

The reporting entity of the City of Mount Vernon includes only these funds and account groups that comprise the primary government. There are no potential component units.

B. Basis of Presentation

The City's basic financial statements consist of government-wide financial statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government. The statements distinguish between those activities of the City that are governmental in nature and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental activities of the City at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities.

Direct expenses are those that are specifically associated with a service, program, or department and, therefore, are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods, or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues that are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with the program revenues identifies the extent to which each governmental program is self-financing or draws from the general revenues of the City.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation (Continued)

Fund Financial Statements

During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental and proprietary fund financial statements is on major funds. Each major fund is presented in a separate column.

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The City has two categories of funds, governmental and proprietary, which are summarized below.

Governmental Funds

Governmental funds are those through which most governmental functions of the City are financed. Governmental fund reporting focuses on the sources, uses, and balances, of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance.

The following are the City's major governmental funds:

General Fund - The General Fund accounts for all financial resources, except those required to be accounted for in another fund. The General Fund balance is available to the City for any purpose provided it is expended or transferred according to the general laws of Georgia.

SPLOST Fund – This is a capital projects fund, which accounts for monies from the special 1% sales tax. These funds are restricted for road and street repairs, retirement of debt, capital projects, and recreation.

T-SPLOST Fund- This fund accounts for monies from the 1% transportation special purpose sales tax. These funds are restricted for transportation projects.

Hotel / Motel Fund - This Hotel/Motel Fund account is from the 5% lodging tax levied by the city. The funds are restricted for tourism.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation (Continued)

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable - The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of interfund loans.

Restricted - Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation (City ordinances). Enabling legislation authorizes the City to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. Legal enforceability means that the City can be compelled by an external party - such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation only for the purposes specified by the legislation.

Committed - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (ordinance or resolution) of the City Council. The committed amounts cannot be used for any other purpose unless the City Council removes or changes the specified use by taking the same type of action (ordinance or resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, committed fund balance classification may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by the City Council, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints is not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned - Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the City Council or a City official delegated that authority by the City or ordinance.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation (Continued)

Unassigned - Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The City applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, or unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Proprietary Funds

The Proprietary Fund types are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable.

The principal operating revenues of the City's proprietary fund are sales and services related to the water and sewer system. Operating expenses for the proprietary fund are cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. All assets and liabilities associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into net investment in capital assets, restricted net position, and unrestricted net position.

The following is the City's major Proprietary Fund:

Water/Sewer Fund – This fund accounts for the operating activities of the City's water and sewer utilities services.

C. Measurement Focus and Basis of Accounting

The government-wide financial statements are prepared using the *economic resources measurement focus* and the *accrual basis of accounting*. All assets and all liabilities associated with the operation of the City are included on the statement of net position. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus and Basis of Accounting (Continued)

Governmental fund financial statements are prepared using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reflects the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the fund financial statements for governmental funds.

Revenues – Exchange and Nonexchange Transactions

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recognized in the year in which the resources are measurable and become available. Available means the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the City, available means expected to be received within sixty days after year-end.

Non-exchange transactions, in which the City receives value without directly giving equal value in return, include sales taxes, grants, entitlements, and donations. On the accrual basis, revenue from sales taxes is recognized in the period in which the sales are made. Revenue from grants, entitlements, and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the City must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered both measurable and available at year end: sales taxes, charges for services, fines and forfeitures, grants, interest, and rent.

Deferred Revenues

Deferred revenues arise when assets are recognized before the revenue recognition criteria have been satisfied.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus and Basis of Accounting (Continued)

Expenses/Expenditures

On the accrual basis, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

D. Budgetary Data

The City's annual budget is prepared based on anticipated revenues and appropriated expenditures. Revenue anticipations, generally conservative, are designed to insure fiscal responsibility and maintain a balanced budget. The responsibility of budgeting is with the Mayor.

Prior to December 1, the Mayor submits to the Council a proposed operating budget for the fiscal year commencing on January 1. The operating budget includes proposed expenditures and the means of financing them. The Council holds a public hearing on the budget, giving notice thereof at least ten days in advance by publication in the official organ. The budget is then revised and adopted by the Council at the first regular meeting in January of the year to which it applies.

The budget so adopted may be revised during the year only by formal action of the Council in a regular meeting, and no increase shall be made therein without provision also being made for financing. Budgets for the General Fund are adopted on a basis consistent with generally accepted accounting principles. Budgeted amounts are as originally adopted, or as amended by the council, if such amendments are considered to the budget as a whole. All budgeted appropriations lapse at year end.

E. Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed. Accordingly, encumbrances outstanding at year-end are not reported as reservations of fund balances nor do they constitute expenditures or liabilities. Generally accepted accounting principles do not require encumbrance accounting. Likewise, City of Mount Vernon does not use encumbrance accounting.

F. Inventories

Inventory consists of expendable supplies held for consumption. The cost of these supplies on hand are considered immaterial to the balance sheets of the various funds and are not shown as assets of the funds nor is any portion of the fund balance reported as reserved for inventories. Inventory type items are recorded as an expense/expenditure when purchased.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Cash and Investments

For purposes of the statement of net position, cash and cash equivalents are considered to be cash on hand, demand deposits, and investments with a maturity of three months or less at the time they are purchased by the City. Investments with maturity of more than three months are reported as investments.

H. Prepaid Items

Payments to vendors for services that will benefit periods beyond December 31, 2020, are reported as prepaid items by recording a current asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed.

I. Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Certain cash resources are set aside for various purposes in the special revenue funds. These restricted funds are classified as restricted assets on the balance sheet because their use is limited. When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

J. Capital Assets

General capital assets are capital assets, which are associated with and generally arise from governmental activities. They generally result from expenditures in governmental funds. General capital assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and reductions during the year. Donated capital assets are recorded at their fair market value on the date donated. The City maintains a capitalization threshold of five thousand dollars. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All capital assets are depreciated, except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using mainly the straight-line method over the following useful lives:

Description	Estimated Lives
Building and Building Improvements	15-40 years
Water and Sewer System	30-40 years
Machinery and Equipment	5-15 years

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Compensated absences

Accumulated unpaid vacation, sick pay, and other employee benefit amounts are accrued when incurred in all fund types. At December 31, 2020, no significant accruals existed.

L. Interfund Receivables/Payables

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “Due to other funds/Due from other funds". Interfund balances within governmental activities are eliminated on the government-wide statement of net position.

M. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from estimates.

N. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government only has one item that qualifies for reporting in this category; it is related to pensions.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises under the accrual basis of accounting, that qualifies for reporting in this category; it is related to pensions.

NOTE 2. DEPOSITS WITH FINANCIAL INSTITUTIONS

All deposits are in one financial institution and are carried at cost plus accrued interest. Below is a summary of deposits held by the City at December 31, 2020.

Carrying Amount	Bank Balance
$ 127,160	$ 145,011

Custodial credit risk is the risk that in the event of bank failure, the government's deposits may not be returned to it. State statutes and the government's depository policy require all deposits to be collateralized by depository insurance or pledged collateral. As of December 31, 2020, the City's bank balances were covered by FDIC insurance.

NOTE 3. PROPERTY TAXES

The City of Mount Vernon, Georgia, did not levy any property taxes for the year ended December 31, 2020.

NOTE 4. PENSION PLAN

Plan Description

The City contributes to the Georgia Municipal Employees Benefit System (GMEBS), an agent multiple employer public retirement system that acts as an investment and administrative agent for cities and municipalities in Georgia. The City has the right to establish and amend the benefit provisions of the plan. These amendments become effective once approved by the Board of Trustees of GMEBS. The plan is a defined benefit plan.

Benefits Provided

The City's defined benefit plan provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions and all other requirements are established by state statute and City ordinance. Benefits are paid in relation to the participants final average earnings for the five years of service preceding retirement. There is no waiting period for employees to become eligible to participate in the plan. Participants begin vesting after five years and are fully vested after ten years.

NOTE 4. PENSION PLAN (Continued)

Funding Policy

The City's policy is to fund the accrued pension expense each year, which is the sum of the normal cost plus the amount required to amortize the unfunded frozen initial liability over thirty years plus interest thereon. Under Part I, Article VIII of the Master Retirement Plan for the City of Mount Vernon, Georgia adopted by ordinance of the City of Mount Vernon, the City has the sole obligation for making contributions to the Plan. The City's current year covered payroll and current year total payroll were $496,344 and $569,945, respectively. Total pension plan expense for the current plan year is $94,995. The interest rate used in making the projections was 7.375%. Projected salary increases included 2.25% for inflation.

At July 1, 2020, the following individuals were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	4
Vested terminated participants	2
Active participants	12
Total membership in the plan	18

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The City's net pension liability was measured as of March 31, 2020. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020.

At December 31, 2020, the City reported a net pension liability of $424,678.

NOTE 4. PENSION PLAN (Continued)

The changes in the components of the net pension liability of the City for the year ended December 31, 2020, were as follows:

	Schedule of Changes in Net Pension Liability		
	Total Pension Liability	Fiduciary Net Position	Net Pension Liability
Balance at March 31, 2019	$ 1,114,001	$ 832,147	$ 281,854
Changes for the year:			
Service cost	18,623	-	18,623
Interest	83,947	-	83,947
Differences between expected and actual experience	16,395	-	16,395
Contributions - employer	-	50,932	(50,932)
Contributions - employee	-	-	-
Net investment income	-	(59,714)	59,714
Benefit payments, including refunds of employee contributions	(26,667)	(26,667)	-
Administrative expense	-	(3,790)	3,790
Other	11,287	-	11,287
Net changes	103,585	(39,239)	142,824
Balance at March 31, 2020	$ 1,217,586	$ 792,908	$ 424,678

For the year ended December 31, 2020, the City recognized pension expense of $44,063. At December 31, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 56,307	$ (2,302)
Changes of assumptions	16,188	(317)
Net difference between projected and actual earnings on pension plan investments	98,721	-
Total	$ 171,216	$ (2,619)

NOTE 4. PENSION PLAN (Continued)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year	Amount
2021	$ 42,888
2022	45,629
2023	46,111
2024	29,355
2025	4,614

Actuarial Assumptions

The total pension liability in the July 1, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Projected salary increases	2.25% plus service-based merit increases
Investment rate of return	7.375%
Cost of living adjustment	N/A

Morality rates for healthy retirees were based on the sex-distinct Pri-2012 head-count weighted Healthy Retiree Mortality Table with rates multiplied by 1.25. Mortality rates for disabled participants were based on the sex-distinct Pri-2012 head-count weighted Disabled Retiree Mortality Table with rates multiplied by 1.25. The mortality rates for active participants were based on the sex-distinct Pri-2012 head-count weighted Employee Mortality Table.

The methods and assumptions used in the July 1, 2020 valuation were approved by the Board in December 2019 based on the results of an actuarial experience study for the period January 1, 2015 through June 30, 2019 conducted by Segal in November and December of 2019. The mortality tables are adjusted from 2012 to future years using sex-distinct generational projection under scale SSA2019-2D to reflect expected mortality improvement.

The long term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target allocation percentage and by adding expected inflation. The target allocation and best estimate of arithmetic real rates of return for each major asset class as of March 31, 2019, are summarized in the following table:

NOTE 4. PENSION PLAN (Continued)

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equity	45%	6.41%
International equity	20%	6.96%
Domestic fixed income	20%	1.96%
Real estate	10%	4.76%
Global fixed income	5%	3.06%
Cash	0%	
Total	100%	

Discount Rate

The discount rate used to measure the total pension liability was 7.375%. The projection of cash flows used to determine the discount rate assumed that plan contributions will be made at the current contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all of the projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the City, calculated using the discount rate of 7.375%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.375%) or 1 percentage point higher (8.375%) than the current rate:

	1% Decrease (6.375%)	Current Discount Rate (7.375%)	1% Increase (8.375%)
Net Pension Liability	$ 572,230	$ 424,678	$ 300,367

NOTE 5. PERMISSIVE SALES TAX

On May 20, 2014, a referendum was passed by the voters of Montgomery County to impose a 1% special purpose tax on all retail taxable sales within the County. The tax became effective January 1, 2015, with an expiration date of December 31, 2020, or the raising of not more than $5,500,000, whichever comes first.

The Transportation Investment Act passed and was implemented beginning January 1, 2013 by the Heart of Georgia region of which City of Mount Vernon is a member. This is a 1% regional sales tax that will fund transportation improvements.

NOTE 6. RECEIVABLES

Receivables at December 31, 2020, consist of the following:

Fund	Description	Amount
Proprietary Fund		
Water/Sewer	Charges for services	$ 63,516
Total proprietary funds		$ 63,516
Governmental Funds		
General Fund	Franchise tax	$ 97,089
General Fund	LOST	18,639
General Fund	TAVT	2,684
General Fund	Fire service	2,248
General Fund	Garbage fees	17,688
SPLOST Fund	Special sales tax	35,117
TSPLOST Fund	Special sales tax	3,417
Total governmental funds		$ 176,882

NOTE 7. CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2020 was as follows:

	Balance at January 1, 2020	Additions	Reductions	Balance at December 31, 2020
Governmental Activities				
Nondepreciable capital assets:				
Construction in progress	$ 105,170	$ -	$ -	$ 105,170
Land	355,387	-	-	355,387
Total nondepreciable capital assets	460,557	-	-	460,557
Depreciable capital assets:				
Buildings	712,363	55,010	-	767,373
Equipment	1,069,705	120,006	-	1,189,711
Improvements	1,060,672	79,562	-	1,140,234
Total depreciable capital assets	2,842,740	254,578	-	3,097,318
Less accumulated depreciation for:				
Buildings	(511,459)	(32,735)	-	(544,194)
Equipment	(888,016)	(66,596)	-	(954,612)
Improvements	(334,353)	(74,874)	-	(409,227)
Total accumulated depreciation	(1,733,828)	(174,205)	-	(1,908,033)
Total depreciable capital assets, net	1,108,912	80,373	-	1,189,284
Governmental activities capital assets, net	$ 1,569,469	$ 80,373	$ -	$ 1,649,841

	Balance at January 1, 2020	Additions	Reductions	Balance at December 31, 2020
Business-type Activities				
Depreciable capital assets:				
Water & sewer system	$ 5,182,527	$ -	$ -	$ 5,182,527
Equipment	333,792	62,239	-	396,031
Improvements	33,764	-	-	33,764
Total depreciable capital assets	5,550,083	62,239	-	5,612,322
Less accumulated depreciation for:				
Water & sewer system	(2,910,667)	(150,997)	-	(3,061,664)
Equipment	(324,204)	(9,820)	-	(334,024)
Improvements	(7,966)	(2,251)	-	(10,217)
Total accumulated depreciation	(3,242,837)	(163,068)	-	(3,405,905)
Busines-type activities capital assets, net	$ 2,307,246	$ (100,829)	$ -	$ 2,206,417

NOTE 7. CAPITAL ASSETS (Continued)

Depreciation expense was charged to governmental functions as follows:

Governmental activities:	
General government	$ 79,300
Public safety	17,985
Sanitation and environmental	1,622
Streets and highways	75,299
Total depreciation expense - governmental activities	$ 174,206

NOTE 8. NOTES PAYABLE

A summary of activity in short-term debt for the year ended December 31, 2020, is as follows:

	Beginning Balance	Additions	Reductions	Ending Balance
Governmental Activities:				
Note payable to Mount Vernon Bank, interest rate of 3.00%, matures 4/22/2021	$ 60,844	$ 350	$ (7,430)	$ 53,764

Totals	$ 999,123	$ 122,743	$ 1,121,866

NOTE 9. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has joined together with other municipalities in the state as part of the Georgia Municipal Association Self-Insurance Workers Compensation Fund and the Association of City Commissioners of Georgia Interlocal Risk Management Agency Property and Liability Insurance Fund (ACCG-IRMA), public entity risk pools currently operating as a common risk management and insurance program for member local governments.

As part of these risk pools, the City is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pool's agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim or loss. The City is also to allow the pool's agents and attorneys to represent the City in an investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of loss protection furnished by the funds.

NOTE 9. RISK MANAGEMENT (Continued)

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the worker's compensation law of Georgia. The funds are to pay all cost taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

NOTE 10. JOINT VENTURE

Under Georgia law, the City of Mount Vernon, in conjunction with other municipalities in the seventeen-county central Georgia area, is a member of the Heart of Georgia Altamaha Regional Commission and is required to pay annual dues thereto. Membership in an RC is required by the official code of Georgia Annotated (OCGA) Section 50-8-34, which provides for the organizational structure of the RC in Georgia. The RC board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39-1 provides that the member governments are liable for any debts or obligations of an RC.

Separate financial statements may be obtained from:

Heart of Georgia Altamaha Regional Commission
5405 Oak Street
Eastman, Georgia 31023

NOTE 11. CONTINGENCIES

There are no contingencies or threatened litigation that would have a material effect on the financial statements.

NOTE 12. SUBSEQUENT EVENTS

The City assessed events that occurred subsequent to December 31, 2020, and through December 2, 2022, the date the financial statements were available to be issued. There were no events that would have a material effect on the financial statements and require adjustment or disclosure.

NOTE 13. RELATED ORGANIZATIONS

The Housing Authority of the City of Mount Vernon, Georgia is considered a related organization based upon the criteria in GASB Statement 14. The Housing Authority is a legally separate entity having a board composed of members appointed originally by the City of Mount Vernon, Georgia. The City of Mount Vernon, Georgia is not able to impose its will upon the Housing Authority, and a financial benefit/burden relationship does not exist between them. Therefore, based upon the criteria above, the Housing Authority of the City of Mount Vernon, Georgia is a related organization.

NOTE 14. INTERFUND TRANSFERS

The SPLOST Fund transferred $99,161 to the Water Fund to help with debt payments and capital expenditures. The T-SPLOST Fund transferred $23,423 to the Water Fund to help cover debt payments and purchase capital assets. The General Fund transferred $73,494 to the Water & Sewer Fund to help cover general expenses. The Water & Sewer Fund transferred $96,370 to the General Fund to help cover the general government expenses, mainly salaries.

NOTE 15. FISCAL RESPONSIBILITY AND COMPLIANCE

No expenditures exceeded appropriations for the year ended December 31, 2020.

* The 2020 information was not available at the the time of the actuarial report. These amounts will be determined after the fiscal year end and will be included in the 2021 valuation report.

This schedule is intended to show information for 10 years. Additional years will be displayed as they become available.

1. Changes in Assumptions

Amounts reported for the fiscal year ending in 2020 and later reflect the following assumption changes based on an actuarial study conducted in November and December 2019:

- The mortality table for healthy retirees and beneficiaries was changed from the sex-distinct RP-2000 Combined Healthy Mortality Table, set forward two years in age for males and one year for females to the sex-distinct Pri-2012 head-count weighted Healthy Retiree Mortality Table with rates multiplied by 1.25.
- The mortality table for disabled participants was changed from the sex-distinct RP-2000 Disabled Retiree Mortality Table to the sex-distinct Pri-2012 head-count weighted Disabled Retiree Mortality Table with rates multiplied by 1.25.
- The mortality active participants, terminated vested participants, and deferred beneficiaries was changed from the sex-distinct RP-2000 Combined Healthy Mortality Table, set forward two years in age for males and one year for females to the sex-distinct Pri-2012 head-count weighted Employee Mortality Table.
- Future mortality improvement is based on projecting generationally from 2012 using 60% of the sex-distinct Scale SSA2019. Previously future mortality improvements were not explicitly projected.
- The prior retirement assumption was based on the Plan's normal retirement eligibility. If normal retirement eligibility was only available on or after age 65, the prior assumption was 60% at ages 65 to 69 and 100% at age 70 and older. If normal retirement eligibility was available prior to age 65, the rates were 10% at ages 55 to 59, 20% at age 60, 25% at age 61, 35% at age 62, 40% at age 63, 45% at age 64, 50% at ages 65 to 69, and 100% at age 70 and older as long as a participant was at least eligible for early retirement.
- The new assumption relates to when a given participant is eligible for normal retirement (either regular normal retirement or alternative normal retirement). Retirement rates do not apply if a participant is not eligible for either early or normal retirement. The retirement rates where normal retirement is available on or after age 65 are 5% at ages 55 to 59, 7% at ages 60 and 61, 20% at age 62, 10% at ages 63 and 64, 35% at age 65, 25% at ages 66 to 71 and 100% at ages 72 and older.
- Where normal retirement is available to a given participant at age 62, 63, or 64, the new retirement rates are 3% when first eligible for early retirement through age 60, 10% at ages 61 to 64, 35% at age 65, 25% at ages 66 to 71 and 100% at ages 72 and older. In addition, in the first year a participant is eligible for normal retirement, the rate is increased by 30%.
- Where normal retirement is available at age 60 or 61, the new retirement rates are 3% when first eligible for early retirement through age 59, 10% at ages 60 to 64, 35% at age 65, 25% at ages 66 to 71 and 100% at ages 72 and older. In addition, in the first year a participant is eligible for normal retirement, the rate is increased by 20%.
- Where normal retirement is available prior to age 60, the new retirement rates are 3% when first eligible for early retirement through the year prior to normal retirement eligibility, 10% from normal retirement eligibility through age 59, 20% at age 60, 25% at age 61, 35% at age 62, 40% at age 63, 45% at age 64, 50% at age 65, 25% at ages 66 to 71 and 100% at ages 72 and older. In addition, in the first year a participant is eligible for normal retirement, the rate is increased by 10%.
- The turnover rates were changed from the greater of age-based rates and select rates for the first five years of service followed by age-based rates thereafter to service-based rates only.
- The disability rates were changed to 50% of the rates in the prior age-based table.
- The inflation assumption was decreased from 2.75% to 2.25%.

- The salary increase assumption was changed from a service-based salary scale starting at 8.25% for the first two years of service with an ultimate rate of 3.25% at ten years of service to a service-based scale starting at 8.50% for the first two years of service with an ultimate rate of 3.00% at 15 years of service.
- The investment return assumption was decreased from 7.50% to 7.375%

2. ***Benefit Changes***

There were no changes in benefit provisions in the last two fiscal years.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Mayor and City Council
Mount Vernon, GA

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and each major fund of the City of Mount Vernon, Georgia as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City of Mount Vernon's basic financial statements and have issued our report thereon dated December 2, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Mount Vernon, Georgia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Mount Vernon, Georgia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of Mount Vernon, Georgia's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying *Schedule of Findings and Questioned Costs* that we consider significant deficiencies. Refer to Item 2020-1.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Mount Vernon, Georgia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

City of Mount Vernon, Georgia's Responses to Findings

City of Mount Vernon, Georgia's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The City's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Christian, Kelly, Thigpen & Co., LLC

Dublin, GA
December 2, 2022

City of Mount Vernon, Georgia
Schedule of Findings and Questioned Costs
For the Year Ended December 31, 2020

Section 1 - Summary of Auditor's Results

Financial Statements

Type of auditor's report issued: unmodified

Internal Control over financial reporting:

Material weaknesses identified?	[ ]	Yes	[X]	No
Control deficiency (s) identified not considered to be material weaknesses?	[X]	Yes	[ ]	None reported
Noncompliance material to financial statements notes?	[ ]	Yes	[X]	No

Section II – Financial Statement Findings and Responses

Item 2020-1
Segregation of Duties

Findings:

Due to the limited number of office personnel, overlapping of duties exist in the City's operations, primarily in the area of cash receipts and disbursement. This overlapping of duties presents a situation where unauthorized use of assets could occur and not be detected within a timely period.

Recommendation:

We recommend that management continue to exercise alert supervision of employees in order to protect the assets of the City.

Planned corrective action:

The City's management plans to exercise alert supervision of employees and continue good internal controls within the City's daily activities to prevent the lack of separation of duties from causing a fraudulent environment.

City of Mount Vernon, Georgia
Status of Prior Year Audit Findings
For the Year Ended December 31, 2020

Item 2019-1:

Segregation of Duties

Finding:

Due to the limited number of office personnel, overlapping of duties exist in the City's operations, primarily in the area of cash receipts and disbursement. This overlapping of duties presents a situation where unauthorized use of assets could occur and not be detected within a timely period.

Auditee Response/Status:

Unresolved - see audit finding 2020-1

Item 2019-2:

Expenditures Exceed Appropriations

Finding:

The City spent more during the year than was appropriated for capital outlays in the General Fund by $24,704 and for transportation expenses in the T-SPLOST Fund by $28,175.

Auditee Response/Status:

Resolved

City of Mount Vernon, Georgia
