INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and
Members of the City Council
Poulan, Georgia

Report on the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Poulan, Georgia, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Poulan, Georgia, as of December 31, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Poulan, Georgia and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Poulan, Georgia's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Poulan, Georgia's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Poulan, Georgia's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison schedule on pages 32 through 35 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Poulan's basic financial statements. The combining and individual major and nonmajor fund financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of Special Purpose Local Option Sales Tax Proceeds is presented for purposes of additional analysis as required by Official Code of Georgia 48-8-121 and is not a required part of the financial

statements. The accompanying schedule of expenditures of Transportation Special Purpose Local Option Sales Tax Proceeds is presented for purposes of additional analysis as required by Official Code of Georgia 48-8-269.5 and is not a required part of the financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards,* we have also issued our report dated June 28, 2023, on our consideration of the City of Poulan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Poulan's internal control over financial reporting and compliance.

CITY OF POULAN, GEORGIA
RECONCILIATION OF THE GOVERNMENTAL
FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
DECEMBER 31, 2022

Total Fund Balances for Governmental Funds			$ 714,481
Total net position reported for governmental activities in the statement of net position is different because: Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. Those assets consist of:			
Land	$ 45,000		
Other capital assets, net of $1,615,151 of accumulated depreciation	775,306		
Total capital assets			820,306
Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not fund liabilities. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities - both current and long-term are reported in the statement of net postion. Balances at December 31, 2022 are:			
Notes Payable	(16,474)		
Total long-term liabilities			(16,474)
Total Net Position of Governmental Activities			$ 1,518,313

See accompanying notes to financial statements.

CITY OF POULAN, GEORGIA
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF
ACTIVITIES
FOR THE YEAR ENDED DECEMBER 31, 2022

Net Changes in Fund Balances - Total Govermental Funds		$	43,158
The changes in net position reported for governmental activities in the statement of activities is different because:			
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount of of capital assets recorded in the current period.			130,979
Depreciation expense on capital assets is reported in the statement of activities, but it does not require the use of current financial resources. Therefore, this amount of depreciation expense is not reported as an expenditure in the governmental funds.			(76,284)
The issuance of long-term debt provides current financial resources to governmental funds, but increases liabilities in the statement of net position. Repayment of debt is an expenditure in the governmental funds, but reduces long-term liabilities in the statement of net posision.			
Long-term debt proceeds	-		
Long-term debt payments	6,321		6,321
Change in Net Position of Governmental Activities		$	104,174

See accompanying notes to financial statements.

See accompanying notes to financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Poulan (the City) is a political subdivision of the State of Georgia. The City operates under a mayor and council form of government and provides the following services as authorized by state law: general administration, public safety, streets and roads, culture and recreation, and water and garbage services. These financial statements have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) as applied to government units. There are no component units operating under other boards, which should be included in the Basic Financial Statements.

The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental and financial reporting. The City does not follow subsequent private-sector guidance for enterprise funds.

The accounting and reporting framework and the more significant accounting principles and practices are discussed in subsequent sections of this Note. The remainder of the Notes is organized to provide explanations, including required disclosures, of the Government's financial activities for the year ended December 31, 2022.

A. REPORTING ENTITY

For financial reporting purposes, in accordance with the criteria in GASB Standards, the City includes all funds, agencies, boards, commissions, and authorities that are within its primary government. A component unit is a legally separate organization for which elected officials of a primary government are financially accountable. There are three sets of criteria that the City evaluates to determine whether a potential component unit will be included in the reporting entity of the City of Poulan. They are (1) financial accountability; (2) financial accountability as a result of fiscal dependency; and (3) misleading to exclude the component unit.

The reporting entity of the City of Poulan includes only the funds of the City that comprises the primary government. There are no potential component units.

In conclusion, the City of Poulan did not combine any component units to form the reporting entity. The reporting entity is comprised of the following major funds, all under the direct control of the Mayor and City Council:

- General Fund – This is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- Special Purpose Local Option Sales Tax Fund – This fund accounts for the City's proceeds from special purpose local option sales tax used for the acquisition and construction of approved capital projects. This fund is a capital projects type fund.
- Transportation Special Purpose Local Option Sales Tax Fund – This fund accounts for the City's proceeds from transportation special purpose local option sales tax used for including construction of roads, streets, and bridges as allowed under O.C.G.A. 48-8-260(4). This fund is a capital projects type fund.
- American Rescue Plan (ARP) Act Fund – This is a special revenue fund used to account exclusively for Local Fiscal Recovery Funds received by the City through the American Rescue Plan Act (ARPA).

The City reports the following major enterprise fund:

- Water System – This fund accounts for the operation and maintenance of the water system and services.

A. REPORTING ENTITY (Cont.)

RELATED ORGANIZATIONS

A related organization is defined as an organization that is financially accountable to the City because, either the City imposes its will on the organization or has a financial benefit or burden relationship with the organization. As of December 31, 2022, the City had no related organizations.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. Government-wide financial statements do not provide information by fund but distinguish between the City's governmental activities and business-type activities. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The statement of net position will include non-current assets which were previously reported in the General Fixed Assets Account Group and non-current liabilities previously reported in the General Long-Term Debt Account Group. In addition, the government-wide statement of activities reflects depreciation expense on the City's capital assets.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not considered program revenues are reported instead as general revenues.

The government-wide financial statements are reported using the economic resource measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Revenues considered susceptible to accrual are property taxes, sales taxes, franchise taxes, charges for services, fines, forfeitures and interest income. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. The proprietary fund financial statements are reported using the economic resource measurement focus and the accrual basis of accounting.

The format of the fund financial statements has been modified by GASB Statement No. 34 and subsequently

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION (Cont.)

amended by GASB Statement No. 63. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. GASB Statement No. 34 also requires, as supplementary information, Management's Discussion and Analysis which includes an analytical overview of the City's financial activity.

D. CASH AND INVESTMENTS

Investments are recorded at cost plus accrued interest, which approximates market value.

For the purposes of the statement of cash flows, cash and cash equivalents include all short-term highly liquid investments with original maturities of three months or less. Instruments considered to be cash equivalents include Treasury bills, certificates of deposit, money market funds, and cash management pools.

E. CAPITAL ASSETS

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of donation. Capitalization thresholds are based on the estimated length of useful life of the asset as well as the purchase cost of the asset. Currently management reviews capitalization of assets on a case-by-case basis. General infrastructure assets, such as roads and bridges, are reported. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Construction period interest is capitalized with the cost of the asset.

Capital assets utilized in Proprietary Fund activities are accounted for in the appropriate fund. Depreciation of all exhaustible capital assets used by Proprietary Funds is charged as an expense against their operations. Accumulated depreciation is reported on the Proprietary Fund balance sheet.

Depreciation has been provided over the estimated useful lives using the straight-line method. As a Phase 3 government, the City can elect to capitalize infrastructure from the date of inception forward. The City has elected to do so and as such, has not reported infrastructure assets acquired prior to implementation of GASB Statement 34. The estimated useful lives are as follows:

Asset Class	Estimated Useful Lives
Infrastructure	40 years
Buildings	10-30 years
Building Improvements	10-30 years
Equipment and Vehicles	5-10 years

F. BUDGETS AND BUDGETARY ACCOUNTING

Budgets are adopted on a basis consistent with Generally Accepted Accounting Principles. Annual appropriated budgets are adopted for the general fund and each special revenue fund. A budget is prepared for the enterprise fund as a management control device only. Each fund's appropriated budget is prepared on a detailed line-item basis. Revenues are budgeted by source. Expenditures are budgeted by department. This constitutes the legal level of control. Expenditures may not exceed appropriations at this level. All budget revisions at this level are subject to final review by the City Council. Within these control levels, management may transfer appropriations without Council approval. All annual appropriations lapse at fiscal year-end.

F. BUDGETS AND BUDGETARY ACCOUNTING (Cont.)

Project-length financial plans are adopted for all capital projects funds.

Public hearings are conducted to obtain taxpayer comments. The budgets are legally adopted through passage of an ordinance. All appropriations lapse at year's end. Budgets were adopted for the major Governmental Funds. For further information on the City's budget, see the Required Supplementary Information (RSI) Section.

G. ENCUMBRANCES

Encumbrances represent commitments related to unperformed contracts for goods and services. Encumbrance accounting--under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation--is not utilized in the Governmental Fund types. Encumbrances outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year.

There were no material purchase orders, contracts, or other commitments at year-end, which should have been encumbered.

H. CAPITALIZATION OF INTEREST COST

The City follows the policy of recognizing interest as an expenditure in Governmental Funds and an expense in Proprietary Funds.

I. COMPENSATED ABSENCE

Accumulated sick pay benefits have not been recorded as a liability because these benefits are paid only upon the illness of an employee, and the amount of such payments cannot be reasonably estimated. They are not paid upon termination of employment.

Cost of vacation pay is not recorded until such benefits are paid. GASB Standards require that vacation pay be accrued when:

- The employer's obligation to employees' right to receive compensation for future benefits is attributable to employees' service already rendered.
- The obligation related to rights that vest or accumulate.
- Payment of the compensation is probable
- The amount can be reasonably estimated.

J. RECEIVABLES AND PAYABLES

Outstanding balances resulting in transactions between funds are reported as "interfund."

Receivables are stated net of an allowance for uncollectible accounts. Accounts receivable in excess of 60 days comprise the allowance for uncollectibles. Delinquent taxes receivable are offset by the deferral of the related revenues until payment is received except amounts received within 60 days of the balance sheet date.

J. RECEIVABLES AND PAYABLES (Cont.)

Property taxes are administered on a calendar year basis subject to the following dates:

Lien Date	January 1
Levy Date	July 1
Collection Period	July 1 – November 20
Due Date	November 20
Delinquent Date	November 21

K. INVENTORIES

Inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method.

L. SHORT-TERM INTERFUND RECEIVABLES/PAYABLES

During the course of operations of the City of Poulan, numerous transactions have occurred between individual funds for goods provided or services rendered. These receivables and payables are classified as "interfund" on the balance sheet.

M. ADVANCES TO OTHER FUNDS

It is the policy of the City of Poulan that noncurrent portions of long-term interfund loan receivables are reported as advances and are offset equally by a Fund Balance Committed Account which indicates that they do not constitute expendable available financial resources and therefore are not available for appropriation.

N. PREPAID ITEMS

Payments made to vendors for services that will benefit periods beyond December 31, 2022, are recorded as prepaid items.

O. LONG-TERM OBLIGATIONS

Long-term obligations are reported on the government-wide financial statements. All long-term obligations payable from the enterprise funds are reported on the enterprise fund financial statements. Loans and capital leases are recognized as a liability on the fund financial statements when due.

P. COMPARATIVE DATA

Comparative total data for the prior year has not been presented in the accompanying financial statements.

Q. STATEMENT OF CASH FLOWS

The City considers all highly liquid debt instruments with a maturity of three months or less to be cash equivalents.

R. FUND EQUITY

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between the current assets and current liabilities. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

- Restricted – Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

- Committed – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the City Council through the adoption of a resolution. The City Council also may modify or rescind the commitment.

- Assigned – Fund balances are reported as assigned when amounts are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. The City does not have a formal process in place to assign fund balances.

- Unassigned – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The City reports positive unassigned fund balance only in the general fund. Negative unassigned fund balances may be reported in all funds.

Flow assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

R. FUND EQUITY (Cont.)

Net Position – Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the City has spent) and adjusted for any deferred outflows or deferred inflows of resources used for the acquisition, construction or improvement of those assets. Components of net position are reported as restricted as described in the fund balance section above. All other assets are reported as unrestricted.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted components of net position are available.

S. INTERFUND TRANSACTIONS

Quasi-external transactions are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund increase expenditures/expenses in the reimbursing fund and are accounted for as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

T. MANAGEMENT ESTIMATES

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amount of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - LEGAL COMPLIANCE - BUDGETS

Prior to January 1 of each year, the City Clerk asks department heads for requests for appropriations to the City's mayor so that a budget may be prepared. The budget is prepared by fund, function and activity and includes information on the past year, current year estimates and requested appropriations for the next fiscal year.

Before January 1, the proposed budget is presented to the City's council for review. The City's council holds public hearings and may add to, subtract from or change appropriations, but may not change the form of the budget. Any changes in the budget must be within the revenues and reserves estimated as available by the Government's mayor or the revenue estimates must be changed by an affirmative vote of majority of the Government's council.

The legal level of control (the level at which expenditures may not legally exceed appropriations) for each legally adopted annual operating budget is at the department level within departments.

NOTE 2 - LEGAL COMPLIANCE – BUDGETS (Cont.)

Formal budgetary integration is employed as a management control device during the year for the General and Proprietary Funds. Budgets for the General Fund are adopted on the modified accrual basis (GAAP). Budgets for the Proprietary Funds are adopted on the accrual basis (GAAP).

Budgeted amounts are as originally adopted, or as amended, by the Council. Appropriations lapse at year's end.

There were no material supplementary appropriations made during the year.

The actual results of operations are presented in the Required Supplementary Information section in order to provide a meaningful comparison of actual results with the budget.

NOTE 3 - DEPOSITS AND INVESTMENTS

Georgia law authorizes local governments to invest in the following types of obligations:

1. Obligations of the State of Georgia or of any other states;
2. Obligations issued by the United States;
3. Obligations fully insured or guaranteed by the United States government or governmental agency;
4. Obligations of any corporation of the United States government;
5. Prime banker's acceptances;
6. Office of the State Treasurer's local government investment pool;
7. Repurchase agreements; and
8. Obligations of other political subdivisions of the State of Georgia.

Any bank deposit in excess of the total FDIC insured amount must be secured by 110% of an equivalent amount of state or U.S. obligations.

It is the investment policy of the City of Poulan, Georgia to invest all of its cash into checking accounts, certificates of deposits, and the Georgia Office of the State Treasurer's Local Government Investment Pool (L.G.I.P. comprised of Georgia Fund 1 and the Georgia Extended Asset Pool). These accounts are reported at cost which equals market value. The City follows OCGA 36-83-4 for its investing objectives.

The L.G.I.P., created by OCGA 36-83-8, is a stable net asset value investment pool which follows Standard and Poor's criteria for AAAf rated money market funds. However, it operates in a manner consistent with rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the SEC as an investment company. The Office of the State Treasurer is the oversight agency for the pool. The pool's primary objectives are safety of capital, investment income, liquidity, and diversification while maintaining principal ($1.00 per share value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participant's shares sold and redeemed based on $1.00 per share. Investments in the pool are reported as cash on the financial statements.

NOTE 3 - DEPOSITS AND INVESTMENTS (cont.)

At year end, the carrying amount of the City's deposits and cash on hand was $1,257,789 and the bank balances were $1,284,745. The breakdown between the balances of bank deposits and investments for the City is as follows:

Bank Deposits (checking accounts, saving accounts, and certificates of deposits) and Cash on Hand	$ 1,192,727
Local Government Investment Pool (Georgia Fund 1)	65,062
Total	$ 1,257,789

Credit Risk:
The City limits the credit risk of the primary government by investing its cash with the Georgia Office of the State Treasurer's Local Government Investment Pool, an AAAf/S1 rated investment pool by Standard and Poors, and bank deposits which are covered by Federal Depository Insurance. The Office of the State Treasurer is the oversight agency for the pool. The City does not have a formal policy addressing credit risk.

Interest Rate Risk:
The investments of the City are invested in highly liquid investments to limit the risk of interest rate fluctuations. All bank certificates of deposit have varying maturity dates of one year or less. The local government investment pool's assets have a weighted average maturity of 43 days.

Custodial Credit Risk:
Custodial credit risk is the risk that in the event of a bank failure, the City's deposits (in excess of FDIC insurance) may not be returned to the City. As of December 31, 2022, all of the City's deposits were covered either by FDIC coverage or collateralized with securities held by the City's agent in the City's name.

The City does not have a formal deposit policy for custodial credit risk.

NOTE 4- RESTRICTED ASSETS

The City's Water Fund restricted cash consists of cash used for payment of its long-term debt.

NOTE 5 - INTERFUND RECEIVABLES / PAYABLES

Fund	Receivable	Payable
General Fund	$ 24,412	$ -
Enterprise Funds:		
Water Fund	-	24,412
	$ 24,412	$ 24,412

The above interfund balances were created from the General Fund paying invoices on behalf of the Water Fund. The above balances are to be paid within one year.

NOTE 6 – LONG-TERM OBLIGATIONS

Governmental Activities: Notes Payable	1/1/2022	Increases	Decreases	12/31/2022	Amounts Due Within One Year
1. United States Department of Agriculture Police vehicles for Police Department Due in monthly installments of of $567 through June, 2025 at 2.375% Original Amount of $32,000	$ 22,795	$ -	$ 6,321	$ 16,474	$ 6,472
Total Notes Payable Governmental Funds	$ 22,795	$ -	$ 6,321	$ 16,474	$ 6,472
Business-Type Activities: Notes Payable					
1. Georgia Environmental Facilities Authority for water improvements Due in monthly installments of $1,239 through June 2027 at 3.0% Original Amount of $240,337	$ 81,564	$ -	$ 12,596	$ 68,968	$ 12,980
2. Georgia Environmental Facilities Authority for water system improvements Due in monthly installments of $776.55 through October 2040 at 1.25% Original Amount of $252,642	156,300	-	7,407	148,893	7,500
3. Georgia Environmental Facilities Authority for water system improvements Monthly installments will be decided upon completion of the project at 0%. As of December 31, 2022, the City has received $22,950 in cummulative drawdowns with $9,180 in cummulative loan forgiveness.	2,754	18,360	7,344	13,770	13,770
Total Notes Payable Business-Type Activities	$ 240,618	$ 18,360	$ 27,347	$ 231,631	$ 34,250

The City obtained financing for water system improvements from the Georgia Environmental Facilities Authority (GEFA) under a construction financing loan. At December 31, 2011, the total outstanding of this loan was $231,385. The City obtained an additional $8,952 in financing through this loan during 2012. $60,888 of the loan was forgiven during 2012 through a principal-forgiveness grant offered through the GEFA loan. The remaining portion of the loan was converted to a fixed rate loan at 3.0% interest rate amortized over 180 months.

The City obtained financing for water system improvements from the Georgia Environmental Facilities Authority (GEFA) under a construction financing loan dated September 25, 2018 and subsequently modified from a construction status to a fixed amortization loan on April 1, 2020 for $181,902 related to new water meters and improvements to one of the City's water wells. $24,656 of the loan was forgiven during 2020 through a principal-.

NOTE 6 – LONG-TERM OBLIGATIONS (cont.)

forgiveness grant offered through the GEFA loan. The remaining portion of the loan was converted to a fixed rate loan at 1.25% interest rate amortized over 240 months.

The City obtained financing for upgrades to its water distribution system and related appurtenances from the Georgia Environmental Facilities Authority (GEFA) under a Drinking Water State Revolving Fund loan dated June 14, 2021 for up to $532,500. Of that amount, GEFA agrees to forgiveness of $213,000 of the loan, if all funds are drawn. During 2022, the City received $18,360 in loan draw downs for the engineering phase of the project. Of this amount, $7,344 was considered forgiven under the terms of the promissory note. Under the loan agreement, GEFA agrees to advance to the City, on or prior to the earlier of (1) the Completion Date of the project, (2) April 1, 2023, or (3) the date that the loan is fully disbursed, at which time the loan will convert to a fixed rate loan at a 0% interest rate amortized over 239 months.

The annual requirements to amortize the note payable obligations, as of December 31, 2022, are as follows:

	Governmental Activities		
Year Ended December 31,	Principal Amount	Interest Amount	Total Amount
2023	6,472	331	6,803
2024	6,628	175	6,803
2025	3,374	28	3,402
	$ 16,474	$ 534	$ 17,008

	Business-Type Activities		
Year Ended December 31,	Principal Amount	Interest Amount	Total Amount
2023	34,250	3,710	37,960
2024	20,969	3,221	24,190
2025	21,472	2,718	24,190
2026	21,988	2,202	24,190
2027	22,517	1,673	24,190
2028-2032	40,935	5,658	46,593
2033-2037	43,574	3,019	46,593
2038-2043	25,926	476	26,402
	$ 231,631	$ 22,677	$ 254,308

NOTE 7 – ACCOUNTS RECEIVABLE

Accounts receivable in the General Fund includes accounts receivable for refuse collection of $15,672. Accounts receivable in the Water Fund includes accounts receivable for water services of $21,501.

NOTE 8 – SUBSEQUENT EVENTS

In preparing these financial statements, the City has evaluated events and transactions for potential recognition or disclosure through June 28, 2023, the date the financial statements were available to be issued.

NOTE 9 - PROPERTY TAX REVENUE

Property tax bills were issued on August 20, and became past due on November 21th. Property taxes attach as an enforceable lien on property as of November 21th. The City of Poulan contracts with the County to bill and collect its property taxes. City property tax revenues are recognized when levied to the extent that they result in current receivables, i.e., are available. The property tax receivable on December 31, 2022 was $2,017.

NOTE 10 – CHANGES IN CAPITAL ASSETS

Summary of Capital Assets

The following is a summary of changes in Capital Assets follows:

	1/1/2022	Increases	Decreases	12/31/2022
Governmental Activities:				
Capital Assets not being depreciated:				
Land	$ 45,000	$ -	$ -	$ 45,000
Construction in Progress	-	-	-	-
Total Capital Assets not being depreciated	$ 45,000	$ -	$ -	$ 45,000
Capital Assets being depreciated:				
Building and Improvements	471,013	3,726	-	474,739
Equipment, Furniture, and Vehicles	1,466,486	120,100	-	1,586,586
Infrastructure	321,979	7,153	-	329,132
Total Capital Assets being depreciated	$ 2,259,478	$ 130,979	$ -	$ 2,390,457
Less accumulated depreciation				
Building and Improvements	181,006	16,304	-	197,310
Equipment, Furniture, and Vehicles	1,321,584	48,449	-	1,370,033
Infrastructure	36,277	11,531	-	47,808
	1,538,867	76,284	-	1,615,151
Total Capital Assets being depreciated, Net	720,611	54,695	-	775,306
Capital Assets, Net	$ 765,611	$ 54,695	$ -	$ 820,306

NOTE 10 – CHANGES IN CAPITAL ASSETS (Cont.)

	1/1/2022	Increases	Decreases	12/31/2022
Business-type Activities:				
Capital Assets not being depreciated:				
Land	$ -	$ -	$ -	-
Construction in Progress	4,590	18,360	-	22,950
Capital Assets being depreciated:				
Infrastructure	2,280,641	-	-	2,280,641
Building and Improvements	3,241	-	-	3,241
Equipment, Furniture, and Vehicles	29,974	-	-	29,974
Total Capital Assets being depreciated	$ 2,313,856	$ -	$ -	$ 2,313,856
Less accumulated depreciation				
Infrastructure	770,895	67,317	-	838,212
Building and Improvements	2,285	83	-	2,368
Equipment, Furniture, and Vehicles	29,974	-		29,974
	803,154	67,400	-	870,554
Total Capital Assets being depreciated, Net	1,510,702	(67,400)	-	1,443,302
Capital Assets, Net	$ 1,515,292	$ (49,040)	$ -	$ 1,466,252

Depreciation expense was charged to functions as follows:

General Government	$ 5,650
Public Safety	34,889
Culture & Recreation	1,620
Streets & Roads	34,125
	$ 76,284

NOTE 11 - CONTINGENT LIABILITIES

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the state and federal governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Government expects such amounts, if any, to be immaterial.

It is the opinion of the City's management and its attorneys that legal actions in progress or against the City at December 31, 2022 are at a stage in the proceedings in which an opinion as to the probable outcomes cannot be determined. The City is vigorously defending its position.

NOTE 12 – INTERFUND TRANSFERS

Fund	Transfer In		Transfer Out	
General Fund	$ -		$ 8,083	(a)
Enterprise Funds:				
Water Fund	8,083	(a)	-

NOTE 13 - RISK MANAGEMENT

The City is exposed to various risks of loss for claims associated with torts, thefts of, damage to, and destruction of assets, errors and omissions, and natural disasters.

Risk Pool – The City has elected to be a member of the Georgia Interlocal Risk Management Agency (GIRMA), a risk management agency created under Georgia law. The agency established and administers one or more group self-insurance funds and a risk management service to prevent or lessen incidence and severity of casualty and property losses occurring in the operation of the government. The agency is to defend and protect in accordance with the member government contracts and related coverage descriptions any member of the agency against liability or loss.

The City must participate at all times in at least one fund which is established by the agency. Other responsibilities of the City are as follows:

- To pay all contributions, assessments or other sums due the agency at such times and in such amounts as shall be established by the agency.
- To select a person to serve as a member representative.
- To allow the agency and its agents reasonable access to all facilities of the City and all records, including but not limited to financial records, which relate to the purposes of the agency.
- To allow attorneys appointed by the agency to represent the City in investigation, settlement discussions, and all levels of litigation arising out of any claim made against the City within the scope of loss protection furnished by the fund established by the agency.
- To assist and cooperate in the defense and settlement of claims against the City.
- To furnish full cooperation to the agency's attorneys, claims adjusters, service company, and any agent, employee, officer or independent contractor of the agency relating to the purposes of the agency.
- To follow all loss reduction and prevention procedures established by the agency.
- To furnish to the agency such budget, operating, and underwriting information as may be requested.
- To report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the agency or any fund established by the agency being required to pay claim for loss or injuries to City property or injuries to persons or property when such loss or injury is within the scope of the protection of a fund or funds in which the City participates.

The City retains the first $1,000 of each risk of loss in the form of a deductible. The City files all claims with the agency and the agency bills the City for any loss up to the $1,000 deductible.

NOTE 13 - RISK MANAGEMENT (cont.)

There were no significant reductions in insurance coverage from coverage in the prior year. Management believes that the coverage is adequate to preclude any significant uninsured risk exposure to the City. Settled claims have not exceeded the commercial excess coverage in any of the past three fiscal years.

Pursuant to provisions of Georgia law, the City became a member of the GMA-GSIWCF (a Worker's Compensation Self-Insurance Fund). The liability of the fund to the employees of any employer is specifically limited to such obligations as are imposed by the applicable state laws against the employer for workers' compensation and/or employers' liability.

As part of these risk pools, the City is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pools' agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the findings being required to pay any claims of loss. The City is also to allow the pools' agents and attorney to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of loss protection furnished by the funds.

The fund is to defend, in the name of and on behalf of the members, any suits or other proceedings which may at any time be instituted against them on account of injuries or death within the preview of the Workers' Compensation Law of Georgia, or on the basis of employer's liability, including suits or other proceedings alleging such injuries and demanding of compensation therefore, although such suits, other proceedings, allegations or demands be wholly groundless, false, or fraudulent. The fund is to pay all costs taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation, or defense.

NOTE 14 - JOINT VENTURE

The Government, in conjunction with cities and counties in the Southwest Georgia area is a member of the Southwest Georgia Regional Commission (RC). Membership in an RC is automatic for each municipality and county in the state. The official Code of Georgia Section 50-8-34 (Georgia Planning Act of 1989) provides for the organizational structure of the RCs. Each county and municipality in the state is required by law to pay minimum annual dues to the RC. The Government paid annual dues in the amount of $0 to the RC for the year ended December 31, 2022. The RC Board membership includes the chief elected official of each county. The county board members and municipal board members from the same county elect one member of the Board who is a resident (but not an elected or appointed official or employee of the County or municipality) to serve as the non-public Board member from a county.

The Georgia Planning Act of 1989 (O.C.G.A. 50-8-34) defines RCs as "public agencies and instrumentalities of their members." Georgia laws also provide that the member governments are liable for any debts or obligations of an RC beyond its resources.

The Southwest Georgia Regional Commission (RC) is not considered to be a component unit of the City of Poulan. There are no financial reporting obligations between the City of Poulan and the RC. Separate financial statements may be obtained from:

NOTES TO

REQUIRED SUPPLEMENTARY INFORMATION

CITY OF POULAN, GEORGIA
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
DECEMBER 31, 2022

NOTE 1 - BUDGETS AND BUDGETARY ACCOUNTING

Budgets are adopted on a basis consistent with Generally Accepted Accounting Principles. Annual appropriated budgets are adopted for the general fund and special revenue fund. A budget is prepared for the enterprise fund as a management control device only. Each fund's appropriated budget is prepared on a detailed line-item basis. Revenues are budgeted by source. Expenditures are budgeted by department. This constitutes the legal level of control. Expenditures may not exceed appropriations at this level. All budget revisions at this level are subject to final review by the City Council. Within these control levels, management may transfer appropriations without Council approval. All annual appropriations lapse at fiscal year-end. Project-length financial plans are adopted for all capital projects funds.

Public hearings are conducted to obtain taxpayer comments. The budgets are legally adopted through passage of an ordinance. All appropriations lapse at year's end. Budgets were adopted for the Governmental Funds.

NOTE 2 - LEGAL COMPLIANCE - BUDGETS

Prior to January 1 of each year, the City Clerk asks department heads for requests for appropriations to the Government's mayor so that a budget may be prepared. The budget is prepared by fund, function and activity and includes information on the past year, current year estimates and requested appropriations for the next fiscal year.

Before January 1, the proposed budget is presented to the Government's council for review. The Government's council holds public hearings and may add to, subtract from or change appropriations, but may not change the form of the budget. Any changes in the budget must be within the revenues and reserves estimated as available by the Government's mayor or the revenue estimates must be changed by an affirmative vote of majority of the Government's council.

The legal level of control (the level at which expenditures may not legally exceed appropriations) for each legally adopted annual operating budget is at the department level within departments.

Formal budgetary integration is employed as a management control device during the year for the General, Special Revenue, and Proprietary Funds. Budgets for the General Fund and Special Revenue Fund are adopted on the modified accrual basis (GAAP). Budgets for the Proprietary Funds are adopted on the accrual basis (GAAP).

Budgeted amounts are as originally adopted, or as amended, by the Council. Individual amendments were not material in relation to the original appropriations, which were amended. Appropriations lapse at year's end.

There were no material supplementary appropriations made during the year.

The actual results of operations on the budgetary basis are presented in the Schedules of Revenues, Expenditures and Changes in Fund Balance-Budget and Actual (GAAP) General Fund and Special Revenue Fund in order to provide a meaningful comparison of actual results with the budget.

General Fund and Special Revenue Fund budgetary comparison schedules are presented at the legal level of control.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Honorable Mayor
and Members of the City Council
City of Poulan, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Poulan, Georgia as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the City of Poulan, Georgia's basic financial statements, and have issued our report thereon dated June 28, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Poulan, Georgia's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Poulan, Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Poulan, Georgia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report On Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Poulan, Georgia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and

grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
