MAULDIN & JENKINS

INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners
of Macon-Bibb County, Georgia
Macon, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of **Macon-Bibb County, Georgia** as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Macon-Bibb County, Georgia's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Macon-Bibb County Industrial Authority, the Middle Georgia Regional Library, the Macon-Bibb County Transit Authority, the Macon-Bibb County Board of Health, the Macon-Bibb County Urban Development Authority, the Macon-Bibb County Convention and Visitors Bureau, the Macon-Bibb County Planning and Zoning Commission, or the Development Authority of Bibb County which represent 97.5% of the assets, 97.5% of net position, and 98.9% of revenues of Macon-Bibb County, Georgia's component units as of and for the year ended June 30, 2015. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Macon-Bibb County Industrial Authority, the Middle Georgia Regional Library, the Macon-Bibb County Transit Authority, the Macon-Bibb County Board of Health, the Macon-Bibb County Urban Development Authority, the Macon-Bibb County Convention and Visitors Bureau, the Macon-Bibb County Planning and Zoning Commission, and the Development Authority of Bibb County is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our report and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Macon-Bibb County, Georgia, as of June 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof and the budgetary comparison information for the General Fund and the Grants Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 12, the County implemented Governmental Accounting Standards Board (GASB) Statement No. 68*, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, as well as Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*, as of July 1, 2014. These standards significantly changed the accounting for the County's net pension liability and the related disclosures. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the schedule of changes in the County's net pension liabilities and related ratios, the schedule of County contributions for the respective pension plans, the schedule of pension investment returns for the respective pension plans, and the schedule of funding progress other postemployment benefit plans on pages 100 through 113 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Macon-Bibb County, Georgia's basic financial statements. The combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedules of expenditures of special purpose local option sales tax proceeds are presented for purposes of additional analysis as required by the Official Code of Georgia 48-8-121, and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules, the schedules of expenditures of special purpose local option sales tax proceeds, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules, the schedules of expenditures of special purpose local option sales tax proceeds, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 30, 2015, on our consideration of Macon-Bibb County, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Macon-Bibb County, Georgia's internal control over financial reporting and compliance.

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION JUNE 30, 2015

Total fund equity per balance sheet of governmental funds	$	88,919,739
Amounts reported for governmental activities in the statement of net position are different from amounts reported in the balance sheet of governmental funds due to the following:		
Net OPEB obligation		
To recognize liability resulting from contributions under the annual required contribution.		(41,889,935)
Capital assets		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.		
Cost of the assets		740,787,409
Accumulated depreciation		(448,752,547)
Deferred outflows of resources		
Deferred outflows of resources are not due and payable in the current period and therefore are not reported in the funds. These deferred outflows of resources consist of pension related contributions.		11,721,534
Revenues		
Some of the government's revenues will be collected after year-end, but are not available soon enough to pay for the current period's expenditures and therefore are deferred in the funds.		9,274,665
Internal service funds		
Internal service funds are used by management to charge the costs of risk management and health insurance services to individual funds. The assets and liabilities of the internal service funds are included in the governmental activities in the statement of net position.		
Total net position of internal service funds		1,752,173
Less amount attributable to business-type activities		120,576
Deferred inflows of resources		
Deferred inflows of resources are not available to pay for current expenditures and therefore are not reported in the funds. These deferred inflows of resources consist of pension related differences between projected and actual earnings on plan		(33,143,860)
Long-term liabilities		
Long-term liabilities are not due and payable in the current period and therefore are not reported as fund liabilities. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities both current and long-term are reported in the statement of net position. Long-term liabilities at year end consist of the following:		
Bonds payable		(101,895,480)
Certificates of participation		(13,452,000)
Capital leases payable		(2,019,774)
Workers' compensation payable		(8,962,000)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2015

Net change in fund balances, total governmental funds	$	958,612
Amounts reported for governmental activities in the statement of activities differ from amounts reported in the governmental gund statement of revenues, expenditures and changes in fund balances due to the following:		
Net OPEB Obligation		
To recognize change in liability resulting from contributions under the annual required contribution.		(4,653,998)
Capital Assets		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.		
Total capital outlays		27,035,363
Total depreciation		(14,643,601)
The net effect of the disposal of capital assets is to decrease net position		(9,027,930)
Long-term Debt		
The issuance of bonds and similar long-term debt provides current financial resources to governmental funds, and thus contributes to the change in fund balance. In the statement of net position, however, issuing debt increases long-term liabilities and does not affect the statement of activities. Similarly, repayment of principal is an expenditure in the governmental funds, but reduces the liability in the statement of net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The amount of the items that make up these differences in the treatment of long-term debt and related items are as follows:		
Debt issued or incurred		(30,389,961)
Principal repayments and refundings:		
Leases payable		1,064,766
Bonds payable		25,825,000
Under the modified accrual basis of accounting used in governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues. The adjustments for these items are as follows:		
Compensated absences		60,539
Workers' compensation		547,965
Accrued interest on debt		(16,324)
Amortization of bond premium		523,202
Pension contributions		
Contributions to the pension plans in the current fiscal year are not included in the statement of activities.		6,329,455
Revenues		
Because some revenues will not be collected for several months after the County's fiscal year end, they are not considered available revenues and are deferred in the governmental funds. Deferred inflows related to revenues decreased by this amount during the fiscal period.		(84,215)
Internal service funds		
Internal service funds are used by management to charge the cost of risk management and health insurance services to individual funds. The net revenue is reported with governmental activities.		
Net loss of internal service funds		(539,539)
Portion of net loss allocated to business-type activities		170,831
Total adjustments		2,201,553
Change in net position of governmental activities	$	3,160,165

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. The Reporting Entity

On April 20, 2012, Act 625 was signed into law by the Governor of Georgia to create and incorporate a new consolidated government under the name of Macon-Bibb County, subject to the approval by the voters of both the City of Macon and Bibb County, Georgia. The referendum was held on July 31, 2012, and the Act was approved by both the voters of the City of Macon and Bibb County. The consolidation was effective January 1, 2014. The new government consolidated the governments of the City of Macon, Georgia and Bibb County, Georgia.

The accompanying financial statements present the County and its component units, entities for which the County is considered to be financially accountable. The component unit's column in the government-wide financial statements includes the financial data for the County's discretely presented component units as reflected in their most recent audited financial statements. This is reported in a separate column in the government-wide financial statements to emphasize that the component units are legally separate from the County.

Macon-Bibb County Industrial Authority

The Macon-Bibb County Industrial Authority (the “Authority”) is charged with promoting and expanding industry and trade within Macon-Bibb County. The Authority is governed by a six (6) member board consisting of the Mayor of Macon-Bibb County, four (4) Macon-Bibb County appointees and one (1) appointment by the other appointed members. The Authority receives appropriations from the County, with the County paying 100% of the annual budget request. An annual budget request must be submitted to Macon-Bibb County for approval of the appropriation amount, with an annual audit required to monitor performance. The Authority issues separate financial statements with a June 30 fiscal year end. A complete copy of these statements may be obtained from the Macon-Bibb County Industrial Authority, 439 Mulberry St., Macon, Georgia 31201.

Middle Georgia Regional Library

The Middle Georgia Regional Library (the “Library”) provides complete library services with the main facility in Macon-Bibb County, branch libraries located in the six surrounding counties, and a bookmobile service. The Library is governed by a Board of Trustees appointed by the County. The County contributes significant funding to the Library and exercises control over expenditures. An annual budget must be submitted for approval, with an annual audit required to monitor performance. The Library issues separate financial statements with a June 30 fiscal year end. A complete copy of these statements may be obtained from the Middle Georgia Regional Library, 1180 Washington Avenue, Macon, Georgia 31201.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. The Reporting Entity (Continued)

Macon-Bibb County Board of Health

The governing board of the Macon-Bibb County Board of Health (the "Board of Health") consists of seven members appointed by the County. The County, by virtue of its appointments, controls a majority of the governing body positions. The County contributes significant funding to the Board of Health. An annual budget must be submitted for approval, with annual audits required to monitor performance. The Board of Health issues separate financial statements with a June 30 fiscal year end. A complete copy of these statements may be obtained from the Macon-Bibb County Board of Health, 171 Emery Highway, Macon, Georgia 31217.

Macon-Bibb County Convention and Visitors Bureau

The Macon-Bibb County Convention and Visitors Bureau (the "CVB") is a nonprofit 501 (c)(6) organization, organized and existing under the laws of the State of Georgia, whose purpose is to promote tourism and conventions in the Macon-Bibb County area. The Mayor of Macon-Bibb County is a member of the Board of Directors. Through contract with the County, the CVB receives hotel-motel tax proceeds. The CVB is required to submit a detailed budget to the County reflecting performance against budget. Any unexpended hotel-motel tax funds are required to be returned to the County at termination of the contract. The CVB issues separate financial statements with a June 30 fiscal year end. A complete copy of these statements may be obtained from the Macon-Bibb County Convention and Visitors Bureau, 450 Martin Luther King, Jr. Blvd., Macon, Georgia 31201.

Macon-Bibb County Planning and Zoning Commission

The Macon-Bibb County Planning and Zoning Commission (the "Commission") is responsible for community planning, establishing and enforcing zoning regulations, and administration of certain grant programs. The Mayor and County Commissioners appoint members to the Board of the Commission. The County provides significant funding for the operating costs of the Commission. Excess revenue over expenditures or excess working capital is returned to the County. The Commission submits annual budget requests to the County for approval and reports on performance against budget with the submission of an annual audit. The Commission issues separate financial statements with a June 30 fiscal year end. A complete copy of these statements may be obtained from the Macon-Bibb County Planning and Zoning Commission, 682 Cherry Street, Suite 100, Macon, Georgia 31201.

Development Authority of Bibb County

The governing board of the Development Authority of Bibb County (the "Development Authority") consists of seven members appointed by the County. Macon-Bibb County, by virtue of its appointments, controls a majority of the governing body positions. If the Development Authority is dissolved, all assets and debts and rights and obligations of the Development Authority shall devolve to the County. Annual audits are required to monitor performance. Complete financial statements may be obtained from the Development Authority of Macon-Bibb County, 305 Coliseum Drive, Macon, Georgia 31202.

Macon-Bibb County Urban Development Authority

The Macon-Bibb County Urban Development Authority (the "Urban Development Authority") is responsible for the revitalization and redevelopment of the downtown areas of Macon-Bibb County. The County Commissioners nominate board members. The Urban Development Authority submits annual budget requests to the County for approval. Annual audits are required to monitor performance. Complete financial statements may be obtained from the Macon-Bibb County Urban Development Authority, P.O. Box 169, Macon, Georgia 31298.

Macon-Bibb County Land Bank Authority

The Macon-Bibb County Land Bank Authority (the "Land Bank Authority") is a nonprofit organization, whose purpose is to allow Macon-Bibb County to provide housing, new industry and jobs for the citizens of the Middle Georgia area by effectively utilizing property previously in a non-revenue generating, non-tax producing status. The County Commissioners appoint four members of the Land Bank Authority Board, and participate in the operating costs of the Land Bank Authority. The Land Bank Authority submits annual budget requests to the County for approval of appropriation. Annual audits must be submitted to the County. Complete financial statements may be obtained from the Macon-Bibb County Land Bank Authority, P.O. Box 4298, Macon, Georgia 31208.

Macon-Bibb County Transit Authority

The governing board of the Macon-Bibb County Transit Authority (the "Transit Authority") consists of five members. The Mayor and County Commissioners nominate five individuals to serve as board members. Initial and final approval of a board member is made by the Mayor and County Commissioners. The County, by virtue of its appointments, controls a majority of the governing body positions. The Transit Authority and Macon-Bibb County have entered into an agreement under which the County provides support to the Transit Authority from the annual tax digest. The Transit Authority submits an annual operating budget each year to the County. Annual audits must also be submitted to the County. Complete financial statements may be obtained from the Macon-Bibb County Transit Authority, 200 Cherry Street, Macon, Georgia 31202.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. The Reporting Entity (Continued)

Under Georgia law, the County, in conjunction with other cities and counties in the middle Georgia area, is a member of the **Middle Georgia Regional Commission** (the "MGRC") and is required to pay annual dues thereto. During the fiscal year ended June 30, 2015, the County paid $171,900 in such dues. Membership in the MGRC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the MGRC in Georgia. The MGRC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a regional development center. Separate financial statements may be obtained from the Middle Georgia Regional Commission, 175-C Emery Highway, Macon, Georgia 31217.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and the fiduciary fund financial statements, although the agency funds have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 30 days of the end of the current fiscal period for property taxes and 60 days for most other revenues. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes and licenses associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source. Expenditure driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source. All other revenue items are considered to be measurable and available only when cash is received by the County.

The County reports the following major governmental funds:

The ***General Fund*** is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The ***SPLOST 2012 Fund City*** is used to account for the expenditures on the former City of Macon projects to be paid from the 1 cent special purpose local option sales tax approved by the voters of the former City of Macon on November 8, 2011.

The ***SPLOST 2012 Fund County*** is used to account for the expenditures on the former Bibb County projects to be paid from the 1 cent special purpose local option sales tax approved by the voters of Bibb County on November 8, 2011.

The ***Grants Fund*** is used to account for the various federal and state grant programs administered by Macon-Bibb County.

The ***2015 MBCUDA Fund*** is used to account for expenditures to be funded with proceeds from the Macon-Bibb County Urban Development Authority, Series 2015 Revenue Bonds.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

The County reports the following major proprietary funds:

The ***Solid Waste Fund*** accounts for the operations and activities of the landfill and activities associated with solid waste pickup.

The ***Airport Fund*** accounts for the activities of a municipal airport in Macon-Bibb County.

Additionally, the County reports the following fund types:

The ***internal service funds*** are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and to other governmental units, on a cost reimbursement basis. The following activities are reported in internal service funds: maintenance of group health and maintenance of the motor-vehicle fleet.

The ***employee benefit trust funds*** account for the activities of the Employee Pension Trust Fund, the General Employees' Pension Trust Fund, the Fire and Police Pension Trust Fund and Other Post-Employment Benefits Trust Fund, which accumulates resources for pension and other post-employment benefit payments to qualified employees of the County.

The ***agency funds*** are used to account for the collection and disbursement of monies by the County on behalf of other governments and individuals, such as cash bonds, traffic fines, support payments and property taxes.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. However, interfund services provided and used are not eliminated in the process of consolidation.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and of the County's internal service funds are charges to customers for sales and services provided. Operating expenses for the enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Deposits and Investments

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments for the County are reported at fair value, which is generally based on quoted market prices. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. Investments that do not have an established market are reported at estimated fair values.

State statutes authorize the County to invest in obligations of the U.S. Treasury, other U.S. Government agencies, State of Georgia, other states, prime bankers' acceptances, repurchase agreements, other political subdivisions of the State of Georgia, and the Local Government Investment Pool (Georgia Fund 1).

The investment in Georgia Fund 1 represents the County's portion of a pooled investment account operated by the Office of the State Treasurer. The pool consists of U.S. Treasury Obligations, securities issued or guaranteed by the U.S. Government or any of its agencies or instrumentalities, banker's acceptances, overnight and term repurchase agreements with highly rated counterparties, and collateralized bank accounts. The investment in Georgia Fund 1 is valued at fair market value.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Deposits and Investments (Continued)

In accordance with authorized investment laws, the County employee benefit trusts invest in various asset-backed securities, such as mortgage-backed securities. These securities represent an ownership interest in a pool of residential mortgage loans, the interest in which is, in most cases, issued and guaranteed by an agency or instrumentality of the U.S. government. These securities are reported at fair value in the balance sheet.

E. Receivables

"Due from other governments" represents funds to be received from other local governments, state grant-in-aid, state contracts, or federal funds. No allowance is deemed necessary for these receivables.

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances."

All trade and property tax receivables have been reduced to their estimated net realizable value, and are shown net of an allowance for uncollectible accounts. Estimated uncollectible accounts are based upon historical experience rates.

F. Inventory and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method and consist of certain supplies which are recorded as assets at the time of purchase. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased. Inventories of other expendable supplies are not considered material and the cost of such items is recorded as expenditures/expenses, when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditure/expense when consumed rather than when purchased.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Capital Assets

Capital assets include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) and are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an estimated useful life in excess of one year and costs exceeding the following:

- $25,000 for furniture, fixtures and equipment
- $75,000 for infrastructure
- $5,000 for capital assets purchased with federal grant funds
- All land and vehicles are capitalized, regardless of cost

As the County constructs or acquires capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. In the case of the initial capitalization of general infrastructure items (i.e., those reported by governmental activities), the County chose to include all such items regardless of their acquisition date. The County was able to estimate the historical cost for the initial reporting of these assets through backtrending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year).

Normal maintenance and repairs, which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life, are expensed as incurred.

Major outlays for capital assets and major improvements are capitalized as projects are constructed. Interest incurred during the construction period of capital assets of the business-type activities is included as part of the capitalized value of the assets constructed. During the fiscal year ended June 30, 2015, interest expense incurred by the County's business-type activities was $145,895. Of this amount, none was applicable to construction of capital assets.

Land and construction in progress are not depreciated. The other property, plant, equipment, and infrastructure of the primary government are depreciated using the straight-line method over the following estimated useful lives:

Land improvements	10 - 30 years
Dam improvements	15 - 20 years
Buildings	20 - 50 years
Building improvements	7 - 30 years
Machinery, equipment and furniture and fixtures	5 - 20 years
Vehicles	5 - 15 years
Infrastructure	20 - 60 years

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Capital Assets (Continued)

In accordance with generally accepted accounting principles, depreciation is not provided for on the earthen dam reported in the Tobesofkee Recreation Fund. The earthen dam has no determinable depreciable life.

H. Compensated Absences

The County's policy permits employees to accumulate earned but unused vacation benefits, which are eligible for payment upon separation from government service. The liability for such leave is reported as incurred in the government-wide, proprietary and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The liability for compensated absences includes salary-related benefits, where applicable.

There is no liability for unpaid accumulated sick leave. Accumulated sick leave lapses when employees leave the employ of the County and, upon separation from service, no monetary obligation exists.

I. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

J. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for *deferred outflows of resources*. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense / expenditure) until then. The County currently has one item that qualifies for reporting in this category, which relates to pensions. Contributions made by the County to the pension plans before year end but subsequent to the measurement date of the County's net pension liability are reported as deferred outflows of resources.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. Deferred Outflows / Inflows of Resources (Continued)

In addition to liabilities, the statement of net position will sometimes report a separate section for *deferred inflows of resources*. This separate financial statement element, deferred inflows of resources, represents an acquisition of fund balance that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has only one type of these items which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue,* is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from five sources: taxes, housing and development loans, grants, special assessments and other. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

In addition, the County has two items under the full-accrual basis of accounting that qualify for reporting in this category. One item is an e*ffective hedge* that is reported in the government-wide statement of net position. The effective hedge results from the change in market value of a swap agreement related to the certificates of participation. The amount is deferred and will mature on June 1, 2028, at the same time as the certificates of participation.

The County also has deferred inflows and outflows related to the recording of changes in its net pension liability. Certain changes in the net pension liability are recognized as pension expense over time instead of all being recognized in the year of occurrence. Experience gains and losses result from periodic studies by the County's actuaries which adjust the net pension liability for actual experiences for certain trend information that was previously assumed, for example the assumed dates of retirement of plan members. These experience gains or losses are recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. Changes in actuarial assumptions which adjust the net pension liability are also recorded as deferred outflows or resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. The difference between projected investment return on pension investments and actual return on those investments is also deferred and amortized against pension expense over a five year period.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as fund balance. Fund equity for all other reporting is classified as net position.

Fund Balance

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment or an assignment. Fund balances are classified as follows:

Nonspendable: Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

Restricted: Fund balances are reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Committed: Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the County Board of Commissioners through the adoption of a resolution prior to the end of the fiscal year. Once adopted, the limitation imposed remains in place until a similar action is taken to remove or revise the limitation. Only the Board of Commissioners may modify or rescind the commitment.

Assigned: Fund balances are reported as assigned when amounts are constrained by the County's intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the Board of Commissioners has authorized the County's Finance Director to assign fund balances. The Board of Commissioners may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. An additional action does not normally have to be taken for the removal of an assignment.

Unassigned: Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criteria. Positive unassigned fund balance may be reported only in the General Fund. Negative unassigned fund balances may be reported in all governmental funds.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Fund Equity (Continued)

Net Position

Net position represents the difference between assets and liabilities in reporting which utilizes the economic resources measurement focus. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the County has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. The residual amount of equity not classified as net investment in capital assets or net position restricted is reported as net position unrestricted.

Flow Assumptions – Fund Balance

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted-net position and unrestricted-net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted-net position to have been depleted before unrestricted-net position is applied.

L. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2. BUDGETS AND BUDGETARY ACCOUNTING

Budget Process

The County prepares a separately issued budget report. The annual budget document is the financial plan for the operation of Macon-Bibb County. The budget process exists for the purpose of providing a professional management approach to the establishment of priorities and the implementation of work programs while providing an orderly means for control and evaluation of the financial posture of the County.

The department and agency heads begin budget preparation in February. The County's Budget and Strategic Planning Office conducts budget hearings with all departments and agencies. The County's Budget and Strategic Planning Office then formulates and remits the budget to the Mayor. After a review by the Mayor, the budget is presented to the Board of Commissioners. After review by the Board of Commissioners and a public hearing, a final budget is approved when the budget resolution is adopted.

Budgetary Basis of Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles. An annual operating budget is prepared for the general, special revenue and debt service funds.

The appropriated budget is prepared by fund, function and department. The legal level of budgetary control is the department level.

The Assistant to the County Manager for Budget and Strategic Planning is delegated the authority to transfer funds up to $10,000 from one budget line item to another within a department, provided the line items are within the same budget category and department. Transfers from one budget category to another cannot be made without approval of the appropriate committee. No increase in the overall budget can be made without the approval of the Board of Commissioners and amendment to the budget.

Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e., purchase orders, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year end, valid outstanding encumbrances (those for which performance under the executor contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget.

NOTE 2. BUDGETS AND BUDGETARY ACCOUNTING (CONTINUED)

Capital Improvements Budget

Major capital facilities and improvements, which are accounted for by the County within the capital projects funds, are appropriated on a project-length basis. The budget is prepared based upon architectural and engineering estimates and other factors. Appropriations covering capital projects are normally approved by the Board of Commissioners at the time the annual operating budgets are approved. The Assistant to the County Manager for Budget and Strategic Planning is delegated the authority, upon the direction of and approval by unanimous vote of the buildings and properties committee, to transfer sums from one project to another. No increase in the overall capital projects budget can be made without the approval of the Board of Commissioners and amendments to the budget. Appropriations for a specific project do not lapse until completion of the project. During the fiscal year ended June 30, 2015, the County's expenditures for capital improvement projects were within the authorization provided in the budget.

Deficit Fund Equity

For the period ended June 30, 2015, the following funds had deficit fund balances:

	Fund Deficit
Special Revenue Funds:	
Sponsored Program	$ 68,362
Capital Projects Funds:	
Special Purpose Local Option Sales Tax Transportation Fund	321,276
Proprietary Funds:	
Solid Waste Fund	3,189,202
Internal Service Funds:	
Vehicle Maintenance	1,332,265

The deficit in the Sponsored Program and Special Purpose Local Option Sales Tax Transportation Funds will be eliminated through recognition of unearned revenue or deferred inflows of resources in future periods. The deficit in the Solid Waste Fund was created due to the Solid Waste Fund's share of the net pension liability required to be recognized under GASB 68.

NOTE 3. DEPOSITS AND INVESTMENTS (CONTINUED)

Interest Rate Risk. In accordance with its investment policy, the County manages its exposure to declines in fair values by diversifying its use of investment instruments to avoid unreasonable risks inherent in over investing in specific instruments, individual institutions, or maturities.

Credit Risk. It is the policy of Macon-Bibb County to invest public funds in accordance with state and local statutes. State statutes authorize the County to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. government; obligations fully insured or guaranteed by the U.S. government or by a government agency of the United States; obligations of any corporation of the U.S. government; prime bankers' acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia.

Custodial Credit Risk – Deposits. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the County will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of June 30, 2015, the County had no uncollateralized deposits. Additionally, with the exception of the Macon-Bibb County Convention and Visitors Bureau, none of the component units of the County had uncollateralized deposits. At June 30, 2015, the Macon-Bibb County Convention and Visitors Bureau had uncollateralized deposits of $177,472.

Custodial Credit Risk – Investments. Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State statutes require all investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities.

NOTE 4. TAX REVENUE

Property Tax

State law requires that property taxes be based on assessed value, which is 40% of market value. All real and personal property (including motor vehicles) are valued as of January 1 of each year and must be returned for tax purposes by March 1. With the exception of motor vehicles and the property of public utilities, which are valued by the State Revenue Department, all assessments are made by the Board of Tax Assessors of Macon-Bibb County. This board has five members appointed by the Macon-Bibb County Board of Commissioners for staggered six-year terms.

Upon completion of all assessments and tax returns, the information is turned over to the Macon-Bibb County Tax Commissioner for compilation of the tax digest. The completed tax digest must be submitted to the State Revenue Commissioner for approval. The State Revenue Commissioner must ascertain that real property on the tax digest has been assessed at the state mandated forty percent (40%) of fair market value. The State Revenue Commissioner has the option to withhold certain state funding if the mandated 40% level is not reached.

The Macon-Bibb County Tax Commissioner distributes tax notices and collects tax payments. Motor vehicle taxes are due based upon the birthday of the owner. Property taxes are usually billed in August of each year. Real and personal property taxes may be paid in two installments – the first payment is due 30 days following the mailing of the bills and the final payment is due 60 days following the mailing of the bills. Tax executions are issued for delinquent taxes approximately 90 days following the due date of the second installment.

The property tax calendar for the most recent digest is as follows:

	Real/Personal Property (Excluding Vehicles)	Motor Vehicles
Assessment date	January 1, 2014	January 1
Levy date	August 19, 2014	January 1
Due date and collection date	October 17, 2014 and November 17, 2014	Staggered

C. Certificates of Participation

In June 1998, the County entered into a lease pool agreement with the Georgia Municipal Association (Association). The funding of the lease pool was provided by the issuance of $150,126,000 Certificates of Participation by the Association. The Association passed the net proceeds through to the participating governments with the County's participation totaling $13,452,000. The lease pool agreement with the Association provides that the County owns their portion of the assets invested by the pool and is responsible for the payment of their portion of the principal and interest of the Certificates of Participation. The principal is due in a lump sum payment on June 1, 2028. Interest is payable at a rate of 4.75% each year. The County draws from the investment to lease equipment from the Association. The lease pool agreement requires the County to make lease pool payments back into its investment account to fund the principal and interest requirements of the 1998 Georgia Municipal Association Certificates of Participation.

NOTE 8. LONG-TERM DEBT (CONTINUED)

C. Certificates of Participation (Continued)

As part of the issuance of the certificates of participation, the County entered into an interest rate swap agreement. Under the Swap Agreement, the County is required to pay (1) a semi-annual (and beginning July 1, 2003, a monthly) floating rate of interest based on the Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index (plus a 31 basis points spread) to, or on behalf of, the Swap Counterparty (the "Swap Payment"); and the Swap Counterparty will pay to, or on behalf of, the County a semi-annual payment based on a rate equal to the fixed rate on the certificates of participation (4.75%) times a notional amount specified in the Swap Agreement, but generally equal to the outstanding unpaid principal portion of such Contract, less the amount originally deposited in the Reserve Fund relating to the Contract, and (2) a one-time Swap Premium to be paid on the effective date of the Swap Agreement. The semi-annual payments from the Swap Counterparty with respect to the County are structured, and expected, to be sufficient to make all interest payments due under the Contract, and related distributions of interest on the Certificates. Monthly interest payments between the County, the holders of the Certificates of Participation, and the Swap Counterparty can be made in net settlement form as part of this agreement. Under the Swap Agreement, the County's obligation to pay floating payments to the Swap Counterparty in any calendar year may not exceed an amount equal to the SIFMA Municipal Swap Index plus 5% to be determined on the first business day of December in the preceding year. This agreement matures on June 1, 2028, at the same time of the certificates of participation. This derivative qualifies as a fair market hedge.

In the unlikely event that the Swap Counterparty becomes insolvent, or fails to make payments as specified in the Swap Agreement, the County would be exposed to credit risk in the amount of the Swap's fair value. To minimize this risk, the County executed this agreement with counterparties of appropriate credit strength, with the counterparty being rated Aa1 by Moody's. At June 30, 2015, the floating rate being paid by the County is 0.33% and the market value of this agreement is $3,720,296, an increase of $466,244 from the market value at June 30, 2014. The market value of the hedge was determined using settlement prices at the end of the day on June 30, 2015 based on the derivative contract. This market value is reported as an asset in the statement of net position. As this derivative is an effective hedge, qualifying for hedge accounting, the inflow from the hedge (any change in fair value from inception until fiscal period end) is deferred and reported as deferred inflows in the statement of net position.

D. Capital Leases

The County has obtained several leases through a local financial institution to finance the acquisition of various equipment. The leasing arrangement is structured in a way that requires the County to first expend the money for purchase of the assets. The lease proceeds are then remitted to the County by the financial institution and the lease agreement begins.

The following is a schedule of future minimum lease payments for the financial institution leases together with the present value of net minimum lease payments as of June 30, 2015 (governmental activities; Solid Waste Management Fund and Bowden Golf Course Fund - proprietary funds):

	Governmental Activities
2016	$ 835,950

E. Business-Type Activities Note Payable

The following note payable is included in the Solid Waste Management Fund:

$111,002 note payable to the Macon Water Authority due in an annual principal installment in fiscal year 2016. No provision for interest is considered required due to the immateriality of such amounts bearing interest at approximately .15%. These funds were obtained to assist the former City of Macon in addressing certain matters at the landfill.

F. Business-Type Activities Revenue Bonds

The following revenue bonds are included in the Airport Enterprise Fund:

$4,500,000 1993 Macon-Bibb County Industrial Authority Airport Improvement Revenue Bonds are due in annual installments of $257,208 to $355,435 through May 1, 2018, interest at 3.9% to 6.1%. These Bonds were to assist in the financing of the acquisition, construction, and installation of a new maintenance hangar at the Middle Georgia Regional Airport in Bibb County, Georgia.

$3,600,000 2002 Macon-Bibb County Industrial Authority (Airport Improvement – Atlantic Southeastern Airlines Project) due in annual installments of $325,500 to $337,250 through April 1, 2018, interest at 4% to 5%. The Bonds were used to finance the acquisition, construction, and installation of a 7,500 square foot training and storage facility and an aircraft wash facility. Both improvements are located at the Middle Georgia Regional Airport in Bibb County, Georgia.

G. Closure/Post-Closure Care Costs

The County owns and operates a landfill site located in Macon-Bibb County, Georgia. State and federal laws will require the County to close the landfill once its capacity is reached and to monitor and maintain the site for 30 subsequent years. The County recognizes a prorated portion of the closure and post-closure care costs in each operating period even though actual payouts will not occur until the landfill is closed. The amount recognized each year to date is based on the landfill capacity used as of the balance sheet date. As of June 30, 2015, the City has determined that it has used approximately 4,001,892 cubic yards out of a total available capacity of approximately 4,700,000 cubic yards which approximates 85% capacity used. Further, estimated costs of closure and post-closure care costs as determined at June 30, 2015 amount to approximately $20,500,000. Based on the above facts and estimated amounts, the City has recorded a liability of $16,400,000 which represents the amount of costs reported to date based on 85% of landfill capacity used to date as of June 30, 2015. The estimated costs of closure and post-closure care are subject to changes such as the effects of inflation, revision of laws and other variables. The estimated remaining life of the landfill is approximately 3.8 years.

Internal service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. Claims payable totaling $1,338,979 and net pension liability totaling $1,345,769 are reported in the internal service funds and will be liquidated by those funds. Also, for the governmental activities, compensated absences are generally liquidated by the General Fund. The net postemployment benefit obligation is expected to be liquidated by the General Fund.

NOTE 9. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Interfund receivable and payable balances as of June 30, 2015, are as follows:

	Due From				
Due To	General Fund	2015 MBCUDA	Grants Fund	Nonmajor Governmental	Total
General Fund	$ -	$ 186,603	$ 2,304,727	$ 947,824	$ 3,439,154

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that the statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

The transfers out of the 2012 SPLOST City Fund and the 2012 SPLOST County Fund are for approved SPLOST projects paid and accounted for in the Debt Service Fund.

NOTE 10. FUND EQUITY

Fund Balance

Restricted fund balance represents amounts subject to externally enforceable limitations on use. The most significant amounts reported include the following:

- Amounts legally restricted for debt service by the terms of the original debt instruments.
- Amounts restricted for capital outlay by state law and by debt instruments.

Committed fund balance represents amounts that can be used only for the specific purposes determined by the Macon-Bibb County Board of Commissioners.

- The budget resolution commits the resources of the Law Enforcement Commissary Fund to Macon-Bibb County Law Enforcement.

NOTE 11. POST EMPLOYMENT HEALTH CARE BENEFITS

As of June 30, 2015, Macon-Bibb County administers a single-employer, defined benefit, other post employment benefit plans (OPEB). For the year ended June 30, 2015, the former City of Macon OPEB plan was consolidated with the former Bibb County OPEB plan. The single plan for the County is the Macon-Bibb County Government Health Care Plan. The plan does not issue a separate stand-alone report and is not included in the report of another entity. Plan assets may be used only for the payment of benefits to the members of the plan, in accordance with the terms of the plan.

A. Plan Description

In accordance with a resolution, Macon-Bibb County provides certain post employment benefits for retired employees. Substantially all full-time employees, of the former Bibb County, Georgia, employed prior to May 1, 2011 become eligible for the benefits if they reach normal retirement age while working for the County. Substantially all full-time employees, of the former City of Macon, Georgia, employed prior to January 1, 2014 become eligible for the benefits if they reach normal retirement age while working for the County. The Plan provides health care and life insurance benefits to plan members and their beneficiaries. Life insurance is provided at the rate of two times the employee's ending salary up to a maximum death benefit of $100,000. The benefit is reduced to 65% upon reaching age 65, to 45% upon reaching age of 70, to 30% upon reaching age of 75, and to 20% upon reaching age of 80. The Macon-Bibb County Board of Commissioners is authorized to establish and amend all Plan provisions.

NOTE 11. POST EMPLOYMENT HEALTH CARE BENEFITS (CONTINUED)

B. Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the Plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

C. Method Used to Value Investment

Investments are reported at fair value, which is determined using selected bases. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair value, and the carrying amount of cash deposits reasonably estimates fair value.

	Fair Value
Cash and cash equivalents	$ 2,641,805
Common stock	10,771,045
Corporate bonds	1,659,552
Government bonds	3,371,094
Mutual funds	164,806
Asset backed securities	3,116,984
Foreign securities	327,733
Fixed rate securities	348,418
Georgia Fund 1	1,203
Total investments	$ 22,402,640

D. Membership

Membership data as of June 30, 2015, the date of the latest actuarial valuation:

Active participants	1,182
Retired participants and beneficiaries currently receiving benefits	663
Terminated participants and beneficiaries entitled to, but not yet receiving benefits	-
Total	1,845

NOTE 11. POST EMPLOYMENT HEALTH CARE BENEFITS (CONTINUED)

E. Funding Policies

The contribution requirements of plan members and the County are established and may be amended by the Board. Retired plan members and beneficiaries currently receiving benefits are required to contribute specified amounts toward the cost of insurance premiums. Plan member contributions are based upon coverage elections. Retiree health coverage is $167-$199 per month; dependent coverage is an additional $266-$325 per month. The premiums are included as revenues in the Group Insurance Internal Service Fund. Current retiree health care expenses are reflected as expenditures of the Group Insurance Internal Service Fund and are included in the calculation of benefits as contributions toward the County's ARC when not reimbursed to the Group Insurance Fund from the OPEB Trust Fund. Retiree life insurance premiums for the fiscal year ending June 30, 2015 were paid from the OPEB Trust Fund.

The County may contribute additional amounts to prefund benefits as determined annually by the Board of Commissioners. Such amounts are contributed to the OPEB Trust. Administrative costs of the plan are financed through investment earnings.

As of the most recent valuation date, June 30, 2015, the funded status of the Plan was as follows (dollars are in thousands):

Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability	Unfunded Actuarial Accrued Liability	Funded Ratio	Covered Payroll	AAL as a Percentage of Covered Payroll
6/30/2015	$ 19,675	$ 103,660	$ 83,985	19.0%	$ 47,008	178.7%

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

F. Annual OPEB Cost and Net OPEB Obligation

The County's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

NOTE 11. POST EMPLOYMENT HEALTH CARE BENEFITS (CONTINUED)

F. Annual OPEB Cost and Net OPEB Obligation (Continued)

The following table shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County's net OPEB obligation:

Annual required contribution	$	6,632,308
Interest on net other postemployment benefit obligation		1,417,622
Adjustment to annual required contribution		(2,285,533)
Annual OPEB cost		5,764,397
Employer contributions		(1,110,399)
Increase/decrease in postemployment benefit obligation		4,653,998
Net other postemployment benefit obligation beginning		37,235,937
Net other postemployment benefit obligation ending	$	41,889,935

The schedule of employer contributions presents trend information about the amounts contributed to the plan by the County in comparison to the ARC. Information is presented beginning with the year of transition.

Period Ending	Annual OPEB Cost	Total Contributions	Percentage Contributed	Net OPEB Obligation (Asset)
6/30/2015	$ 5,764,397	$ 1,110,399	19%	$ 41,889,935

The annual required contribution (ARC) was determined as part of the June 30, 2015, actuarial valuation using the Projected Unit Credit Cost Method. The actuarial assumptions included (a) 6.0% investment rate of return (including inflation at 4.0%); and (b) healthcare cost trend rate of 5 - 7.50% (initial) and 5% (ultimate) per year. The actuarial value of assets was determined using market value of assets. The Plan's unfunded actuarial accrued liability is being amortized as a level dollar method on a closed basis. The remaining amortization period was 26 years.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

NOTE 11. POST EMPLOYMENT HEALTH CARE BENEFITS (CONTINUED)

G. Reserves

There are no assets legally reserved for purposes other than the payment of plan member benefits. The Plan held no individual investments whose market value exceeds 5% or more of net assets available for benefits. There are no long-term contracts for contributions.

NOTE 12. PENSION PLANS

Employee Pension Trust

Plan Description

Plan administration. The County administers a single-employer, defined benefit, public employee retirement system. This plan does not issue a separate stand-alone report and is not included in the report of a public employee retirement system or another entity. Assets are held separately and may be used only for the payment of benefits to the members of the plan.

The County Employee's Pension Plan (the "Plan") provides retirement benefits for substantially all full-time employees except certain employees in the State Court, Agriculture Agent's Office, and the Tax Commissioner. The Plan was created by resolution of the Board of Commissioners which grants the authority to establish and amend the benefit terms to the Employees' Pension Plan Board (the "Board"), subject to the Board of Commissioner approval. The Plan provides retirement, disability, and death benefits to Plan members and their beneficiaries.

Plan Membership. At July 1, 2014, Plan membership consisted of the following:

	General	Law Enforcement	Total
Active participants	523	278	801
Retired participants and beneficiaries current receiving benefits	281	138	419
Terminated participants and beneficiaries entitled to, but not yet receiving benefits	57	11	68
Total	861	427	1,288

Benefits Provided. Retirement benefits for Plan members are calculated as 2% of final average monthly base earnings multiplied by years of service (for employees hired prior to May 1, 2011). For employees hired after May 1, 2011, but before January 1, 2014, the formula is 1.5% of final average monthly base earnings multiplied by years of service. For members hired on or after January 1, 2014, the formula is 1.5% of final average monthly base earnings multiplied by years of service with a maximum benefit of 50% of final average monthly base earnings. Early retirement reduces the monthly benefit by 2% per year for each year the early retirement precedes the normal retirement date. In the line of duty disability benefits for law enforcement officers is equal to two thirds of the final average monthly base earnings less actual Social Security payments. For all other retirements due to disability, the benefit is based on the final average monthly earnings and years of service at the date of disability reduced by the amount of workers compensation or Social Security disability benefit received. Death benefits equal 50% of basic pension formula.

NOTE 12. PENSION PLANS (CONTINUED)

Employee Pension Trust (Continued)

Plan Description (Continued)

Benefit terms provide for annual cost-of-living adjustments to each member's retirement allowance as of each January 1 at least one year after retirement, if approved by the Macon-Bibb County Board of Commissioners.

Contributions. A resolution by the Board of Commissioners grants the authority to establish and amend the contribution requirements of the County to the Pension Plan Board, subject to Board of Commissioners approval. The Pension Plan Board establishes rates based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by Plan members during the year, with an additional amount to finance any unfunded accrued liability. The County is required to contribute the difference between the actuarially determined rate and the contribution rate of plan members. For the year ended June 30, 2015, the County's contribution rate was 16.85 percent of annual payroll. Plan members do not make contributions. County contributions to the Plan were $5,393 (in thousands) for the year ended June 30, 2015.

Net Pension Liability of the County

Effective July 1, 2014, the County implemented the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pension – an amendment of GASB Statement No. 27*, which significantly changed the disclosures related to the Plan.

The County's net pension liability was measured as of July 1, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability in the July 1, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	4.0%
Salary increases	4.25%, including inflation
Investment rate of return	7.5%, net of pension plan investment expense, including inflation

Mortality rates were based on the 1994 Group Annuity Mortality Table set forward two years for the period after service retirement and for dependent beneficiaries as well as for deaths in active service. The RP-2000 Disability Mortality Table set forward three years is used for the period after disability retirement.

NOTE 12. PENSION PLANS (CONTINUED)

Employee Pension Trust (Continued)

Net Pension Liability of the County (Continued)

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the five year period ended June 30, 2008.

The long-term expected rate of return on Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of Plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's **target asset allocation as of June 30, 2015 are 7.5% per year.**

Discount Rate. The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that County contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members until 2115 to determine the total pension liability. Based on the assumptions used in the most recent actuarial valuation, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability and a municipal bond rate was not used in determining the discount rate.

Changes in the Net Pension Liability. The changes in the components of the net pension liability of the County for the year ended June 30, 2015, were as follows (in thousands):

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension (Asset) Liability (a) - (b)
Balances at 6/30/14	$ 142,893	$ 101,929	$ 40,964

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the net pension liability of the County, calculated using the discount rate of 7.5 percent, as well as what the County's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50 percent) or 1-percentage-point higher (8.50 percent) than the current rate (in thousands):

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)

General Employees' Pension Plan (Former City of Macon)

Plan Description

Plan Administration. The General Employees' Pension Plan was administered by the former City of Macon, Georgia. Upon consolidation of the City of Macon, Georgia and Bibb County, Georgia on January 1, 2014, this plan was frozen to new entrants.

The General Employees' Pension Plan – a single-employer defined benefit pension plan – provides retirement benefits for substantially all full-time employees of the former City of Macon, Georgia other than former City of Macon, Georgia sworn fire and police officers. The Plan was created by resolution of the former City of Macon, Georgia City Council which granted the authority to establish and amend the benefit terms to the Pension Plan Board (the "Board"), subject to City Council approval. Upon consolidation on January 1, 2014, the authority, with respect to the Plan, of the former City of Macon City Council was assumed by the Macon-Bibb County Board of Commissioners. The Plan provides retirement, disability, and death benefits to plan members and their beneficiaries.

Plan Membership. At July 1, 2014, Plan membership consisted of the following:

	Total
Active participants	443
Retired participants and beneficiaries current receiving benefits	414
Terminated participants and beneficiaries entitled to, but not yet receiving benefits	260
Total	1,117

Benefits Provided. The Plan provides retirement, disability, and death benefits. Retirement benefits for plan members are calculated as the greater of (i) 2% of the average monthly earnings times service minus 1.50% of primary social security benefit times up to 33 1/3 years of service, or (ii) 1.52% of average monthly earnings up to $1,250 times service plus 1.90% of average monthly earnings above $1,250 times service (for employees as of June 30, 1984). For employees hired after June 30, 1984, the formula is 1.52% of average monthly earnings up to $1,250 times service plus 1.90% of average monthly earnings above $1,250 times service. Disability benefits are determined as the greater of (i) 50% of average monthly earnings minus 50% of social security disability benefits plus 0.50% of average monthly earnings for each completed year of service in excess of five years, or (ii) basic pension formula. The disability pension requires five years of service. Death benefits equal 50% of basic pension formula.

Benefit terms provide for annual cost-of-living adjustments to each member's retirement allowance as of each January 1 at least one year after retirement, unless suspended by the Macon-Bibb County Board of Commissioners.

NOTE 12. PENSION PLANS (CONTINUED)

General Employees' Pension Plan (Former City of Macon)

Plan Description (Continued)

A resolution by the Board of Commissioners grants the authority to establish and amend the contribution requirements of the County to the Pension Plan Board, subject to Board of Commissioners approval. The Board establishes rates based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The County is required to contribute the difference between the actuarially determined rate and the contribution rate of plan members. For the year ended June 30, 2015, the County's contribution rate was 27.88 percent of annual payroll. Plan members do not make contributions. County contributions to the Plan were $3,547 (in thousands) for the year ended June 30, 2015.

Net Pension Liability of the County

Effective July 1, 2014, the County implemented the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pension – an amendment of GASB Statement No. 27*, which significantly changed the disclosures related to the Plan.

The County's net pension liability was measured as of July 1, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability in the July 1, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0%
Salary increases	3.00%
Investment rate of return	7.54%, including inflation

Mortality rates were based on the sex distinct rates set forth in the RP-2000 Mortality Table, projected to 2007 by scale AA, as published by the Internal Revenue Service (IRS) for purposes of Internal Revenue Code (IRC) section 430. Future generational improvements in mortality have not been reflected.

NOTE 12. PENSION PLANS (CONTINUED)

Net Pension Liability of the County (Continued)

The long-term expected rate of return on Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of Plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2015 are: Equity Securities – 6.00% and Fixed Income Securities – 2.00%.

Discount Rate. The discount rate used to measure the total pension liability was 7.54%. The projection of cash flows used to determine the discount rate assumed that County contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members until 2101 to determine the total pension liability. Based on the assumptions used in the most recent actuarial valuation, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability and a municipal bond rate was not used in determining the discount rate.

Fire and Police Pension Plan (Former City of Macon)

Plan Description

Plan Administration. The Fire and Police Pension Plan was administered by the former City of Macon, Georgia. Upon consolidation of the City of Macon, Georgia and Bibb County, Georgia on January 1, 2014, this plan was frozen to new entrants.

The Fire and Police Pension Plan – a single-employer defined benefit pension plan – provides retirement benefits for substantially all full-time sworn police and fire officers of the former City of Macon, Georgia. The plan was created by resolution of the former City of Macon, Georgia City Council which granted the authority to establish and amend the benefit terms to the Pension Plan Board (the "Board"), subject to City Council approval. Upon consolidation on January 1, 2014, the authority, with respect to the Plan, of the City of Macon City Council was assumed by the Macon-Bibb County Board of Commissioners. The Plan provides retirement, disability, and death benefits to plan members and their beneficiaries.

Plan Membership. At July 1, 2014, Plan membership consisted of the following:

	Total
Active participants	633
Retired participants and beneficiaries current receiving benefits	466
Terminated participants and beneficiaries entitled to, but not yet receiving benefits	239
Total	1,338

The Plan provides retirement, disability, and death benefits. Retirement benefits for Plan members are calculated as 2.00% of average monthly earnings times up to 35 years of service; minimum normal retirement benefit is $500 per month. Retirement benefit is reduced by 2.50% for each year by which the participant's early retirement age precedes 50. Disability benefits are determined as 40%, 45%, 50%, 55%, 60%, or 65% of the basic pension formula for 15, 16, 17, 18, 19 or 20 to 25 years of service, respectively. Death benefits are 50% of the basic pension formula immediately for life to the spouse, plus 15% (for one minor child), 20% (for two minor children), or 25% (for three or more minor children) for married employees who die in the line of duty; 50% of basic pension formula (for one minor child), plus 5% (for two minor children), or 10% (for three or more minor children) for unmarried employees who die in the line of duty; 50% of the non-service-connected disability pension payable immediately for life to the spouse, plus 15% (for one minor child), 20% (for two minor children), or 25% (for three or more minor children) for married employees who die other than in the line of duty and who have earned at least 15 years of service; 50% of the non-service-connected disability pension (for one minor child), plus 5% (for two minor children), or 10% (for three or more minor children) for unmarried employees who die other than in the line of duty and who have earned at least 15 years of service.

Fire and Police Pension Plan (Continued)

Plan Description (Continued)

Benefit terms provide for annual cost-of-living adjustments to each member's retirement allowance as of each January 1 at least one year after retirement, unless suspended by the Macon-Bibb County Board of Commissioners.

A resolution by the Board of Commissioners grants the authority to establish and amend the contribution requirements of the County to the Pension Plan Board, subject to Board of Commissioners approval. The Board establishes rates based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The County is required to contribute the difference between the actuarially determined rate and the contribution rate of plan members. For the year ended June 30, 2015, the County's contribution rate was 6.1 percent of annual payroll. Plan members do not make contributions. County contributions to the Plan were $3,746 (in thousands) for the year ended June 30, 2015.

Net Pension Liability of the County

Effective July 1, 2014, the County implemented the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pension – an amendment of GASB Statement No. 27*, which significantly changed the disclosures related to the Plan.

The County's net pension liability was measured as of July 1, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability in the July 1, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0%
Salary increases	3.00%
Investment rate of return	7.54%, including inflation

Mortality rates were based on the sex distinct rates set forth in the RP-2000 Mortality Table, projected to 2007 by scale AA, as published by the Internal Revenue Service (IRS) for purposes of Internal Revenue Code (IRC) section 430. Future generational improvements in mortality have not been reflected.

Fire and Police Pension Plan (Continued)

Net Pension Liability of the County (Continued)

The long-term expected rate of return on Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of Plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2015 are: Equity Securities – 6.00% and Fixed Income Securities – 2.00%.

Discount Rate. The discount rate used to measure the total pension liability was 7.54%. The projection of cash flows used to determine the discount rate assumed that County contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members until 2109 to determine the total pension liability. Based on the assumptions used in the most recent actuarial valuation, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability and a municipal bond rate was not used in determining the discount rate.

Changes in the Net Pension Liability. The changes in the components of the net pension liability of the County for the year ended June 30, 2015, were as follows (in thousands):

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension (Asset) Liability (a) - (b)
Balances at 6/30/14	$ 203,798	$ 191,413	$ 12,385

The required schedule of changes in the net pension liability and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of Plan assets is increasing or decreasing over time relative to the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the net pension liability of the County, calculated using the discount rate of 7.54 percent, as well as what the County's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.54 percent) or 1-percentage-point higher (8.54 percent) than the current rate (in thousands):

	1% Decrease (6.54%)	Current Discount Rate (7.54%)	1% Increase (8.54%)
Net pension liability (asset)	$ 9,663	$ (14,938)	$ (35,366)

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect long-term perspective. Calculations are based on the substantive plan in effect as of July 1, 2014 and the current sharing pattern of costs between employer and employee.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2015, the County recognized pension expense of $3,009 (in thousands). At June 30, 2015, the County reported deferred outflows of resources and deferred inflows of resources related to the pension plan from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	$ -	$ 15,421
Demographic experience	-	7,983
Contibutions subsequent to the measurement date	3,746	-

Macon-Bibb County Board of Health (Component Unit)

Employees Retirement System of Georgia

Plan Description: All full-time personnel employed by the Macon-Bibb County Board of Health participate in the Employees' Retirement System of Georgia (ERS), which is a cost-sharing multiple-employer, defined benefit pension plan established by the Georgia General Assembly during the 1949 Legislative Session for the purpose of providing retirement allowances for employees of the State of Georgia and its political divisions. ERS is directed by a Board of Trustees. Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. ERS issues a publically available financial report that can be obtained at www.ers.ga.gov.

Benefits provided: The ERS Plan supports three benefit tiers: Old Plan, New Plan, and the Georgia State Employees' Pension and Savings Plan (GSEPS). Employees under the old plan started membership prior to July 1, 1982 and are subject to plan provisions in effect prior to July 1, 1982. Members hired on or after July 1, 1982 but prior to January 1, 2009 are new plan members subject to modified plan provisions. Effective January 1, 2009, new state employees and rehired state employees who did not retain membership rights under the Old or New Plans are members of GSEPS. ERS members hired prior to January 1, 2009 also have the option to irrevocably change their membership to GSEPS.

Under the old plan, the new plan, and GSEPS, a member may retire and receive normal retirement benefits after completion of 10 years of creditable service and attainment of age 60 or 30 years of creditable service regardless of age. Additionally, there are some provisions allowing for early retirement after 25 years of creditable service for members under age 60.

Retirement benefits paid to members are based upon the monthly average of the member's highest 24 consecutive calendar months, multiplied by the number of years of creditable service, multiplied by the applicable benefit factor. Annually, postretirement cost-of-living adjustments may also be made to members' benefits, provided the members were hired prior to July 1, 2009. The normal retirement pension is payable monthly for life; however, options are available for distribution of the member's monthly pension, at reduced rates, to a designated beneficiary upon the member's death. Death and disability benefits are also available through ERS.

NOTE 12. PENSION PLANS (CONTINUED)

Employees Retirement System of Georgia (Continued)

Contributions: Member contributions under the old plan are 4% of annual compensation, up to $4,200, plus 6% of annual compensation in excess of $4,200. Under the old plan, the state pays member contributions in excess of 1.25% of annual compensation. Under the old plan, these state contributions are included in the members' accounts for refund purposes and are used in the computation of the members' earnable compensation for the purpose of computing retirement benefits. Member contributions under the new plan and GSEPS are 1.25% of annual compensation. The Board's contractually required contribution rate, actuarially determined annually, for the year ended June 30, 2015 was 21.96% of annual covered payroll for old and new plan members and 18.87% for GSEPS members. The Board's contributions to ERS totaled $316,018 for the year ended June 30, 2015. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the Board reported a liability for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2013. An expected total pension liability as of June 30, 2014 was determined using standard roll-forward techniques. The Board's proportion of the net pension liability was based on contributions to ERS during the fiscal year ended June 30, 2014. At June 30, 2014, the Employer's proportion was 0.076049%, which was an increase of 0.000530% from its proportion measured at June 30, 2013.

Employer's proportionate share of net pension liability	$	2,852,307
Employer's proportion of net pension liability		0.076049%
Increase/(decrease) from proportion measured as of June 30, 2013		0.000530%
Empoyer's recognized pension expense	$	184,079

NOTE 12. PENSION PLANS (CONTINUED)

Employees Retirement System of Georgia (Continued)

For the year ended June 30, 2015, the Board recognized pension expense of $184,079. At June 30, 2015, the Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	$ -	$ 696,161
Changes in proportion and differences between employer contributions and proportionate share of contributions	15,827	-
Employer contributions subsequent to the measurement date	383,754	-
Total	$ 399,581	$ 696,161

Board contributions subsequent to the measurement date of $383,754 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30,	
2016	$ (164,149)

NOTE 12. PENSION PLANS (CONTINUED)

Employees Retirement System of Georgia (Continued)

Actuarial Assumptions: The total pension liability as of June 30, 2014 was determined by an actuarial valuation as of June 30, 2013 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0%
Salary increases	5.45-9.25%, including inflation
Investment rate of return	7.5%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 Combined Mortality Table for the period after service retirement, for dependent beneficiaries, and for deaths in active service, and the RP-2000 Disabled Mortality Table set back eleven years for males for the period after disability retirement.

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period July 1, 2004 to June 30, 2009.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term expected real rate of return*
Fixed income	30.00 %	3.00 %
Domestic large stocks	39.70	6.50
Domestic mid stocks	3.70	10.00
Domestic small stocks	1.60	13.00
International developed market stocks	18.90	6.50
International emerging market stocks	6.10	11.00
Total	100.00 %	

* Rates are shown net of the 3.0% assumed rate of inflation

NOTE 12. PENSION PLANS (CONTINUED)

Employees Retirement System of Georgia (Continued)

Discount rate: The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's proportionate share of the net pension liability to changes in the discount rate: The following presents the Board's proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the Board's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) that the current rate:

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
Net pension liability	$ 4,159,230	$ 2,852,307	$ 739,812

Middle Georgia Regional Library (Component Unit)

Teachers Retirement System of Georgia

Plan Description: All teachers of the Library as defined in 47-3-60 of the *Official Code of Georgia Annotated* (O.C.G.A.) are provided a pension through the Teachers Retirement System of Georgia (TRS). TRS, a cost-sharing multiple-employer defined benefit pension plan, is administered by the TRS Board of Trustees (TRS Board). Title 47 of the *O.C.G.A.* assigns the authority to establish and amend the benefit provisions to the State Legislature. TRS issues a publicly available financial report that can be obtained at www.trsga.com/publications.

Benefits provided: TRS provides service retirement, disability retirement, and death benefits. Normal retirement benefits are determined as 2% of the average of the employee's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. An employee is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. Ten years of service is required for disability and death benefits eligibility. Disability benefits are based on the employee's creditable service and compensation up to the time of disability. Death benefits equal to the amount that would be payable to the employee's beneficiary had the employee retired on the date of death. Death benefits are based on the employee's creditable service and compensation up to the date of death.

Contributions: Per Title 47 of the O.C.G.A., contributions requirements of active employees and participating employers, as actuarially determined, are established and may be amended by the TRS Board. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employees were required to contribute 6.00% of their annual pay during fiscal year 2015. The Library's contractually required contribution rate for the year ended June 30, 2015 was 13.15% of annual payroll. Library contributions to TRS were $193,455 for the year ended June 30, 2015.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:

At June 30, 2015, the Library reported a liability for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2013. An expected total pension liability as of June 30, 2014 was determined using standard roll-forward techniques. The Library's proportion of the net pension liability was based on contributions to TRS during the fiscal year ended June 30, 2014. At June 30, 2014, the Library's proportion was 0.015609%, which was a decrease of 0.000800% from its proportion measured as of June 30, 2013.

Macon-Bibb County Transit Authority (Component Unit)

Macon-Bibb County Transit Authority Pension Plan

Plan Description

The Authority participates in a single-employer, defined-benefit, and public employees retirement system Macon-Bibb County Transit Authority Pension Plan (the "Plan") covering substantially all employees. The Plan provides retirement, disability and death benefits to plan members and beneficiaries. Assets are held separately and may be used only for the payment of benefits to the members of the plan. The funds are managed by independent money managers at BB&T and administered by the Authority's board. The financial statements of the Plan are included in the financial report of the Macon-Bibb County Transit Authority.

Actuarial valuations are performed bi-annually by Stanley, Hunt, Dupree & Rhine Benefit Consultants, a division of BB&T. There are no loans to any of the Authority's officials nor are there any other "party-in-interest" or prohibited transactions.

As authorized by the Board of the Authority, the plan provides pension benefits and death and disability benefits for all full-time employees. Employees who were participants in the plan prior to January 1, 1989 who worked at least 30 hours per week may participate in the plan after they have competed one (1) year of continuous service. Benefits vest after 10 years of service. Early retirement is permitted provided the participant is at least 50 years of age and has completed ten (10) years of service.

Funding Policy

The plan members are not required to contribute to the plan. The Authority's funding policy requires the Authority to contribute to the Plan an amount at least equal to the employee contribution but not less than the minimum contribution required under Georgia Law for the fiscal year. The Authority is required to contribute at an actuarially determined rate; the current rate is 3.11% of annual covered payroll. The contribution requirements of the Authority are established and may be amended by the Authority.

NOTE 12. PENSION PLANS (CONTINUED)

Macon-Bibb County Transit Authority Pension Plan (Continued)

Authority contributions subsequent to the measurement date of $518,546 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30,	
2016	$ 156,861
2017	156,861
2018	156,861
2019	156,863
2020	169,163
	$ 796,609

Actuarial Assumptions: The total pension liability as of June 30, 2015 was determined by an actuarial valuation as of January 1, 2014 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5%
Salary increases	3.0% annually
Investment rate of return	7.0%
Future municpal bond rate	4.0%

Mortality rates were based on 1994 Group Annuity Mortality Table projecting scale AA to 2024 for actives and non-disabled inactives. For disabled lives, mortality rates were based on Healthy Table with ages set forward 10 years, projecting scale AA to 2024.

NOTE 12. PENSION PLANS (CONTINUED)

Macon-Bibb County Transit Authority Pension Plan (Continued)

Net Pension Liability

The components of the net pension liability of the Authority as of June 30, 2015 are as follows:

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension (Asset) Liability (a) - (b)
Balances at 6/30/14	$ 9,585,361	$ 4,935,306	$ 4,650,055
Changes for the year:			
Service costs	58,682	-	58,682
Contributions - employer	-	475,967	(475,967)
Net investment income	-	313,669	(313,669)
Benefit payments	(772,094)	(772,094)	-
Expected increase due to passage of time	621,831	-	621,831
Change in actuarial assumptions	19,623	-	19,623
TPL (gain)/loss: assets (loss)/gain	11,419	61,493	(50,074)
Net changes	(60,539)	79,035	(139,574)
Balances at 6/30/15	$ 9,524,822	$ 5,014,341	$ 4,510,481

The Plan's fiduciary net position as a percentage of the total pension liablity 52.64%

Discount Rate: The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of the projected benefit payments to determine the total pension liability.

Sensitivity of the Authority's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the Authority's proportionate share of the net pension liability calculated using the discount rate of 7.0 percent, as well as what the Authority's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.0 percent) or 1-percentage-point higher (8.0 percent) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Net pension liability	$ 5,436,911	$ 4,510,481	$ 3,720,863

NOTE 12. PENSION PLANS (CONTINUED)

Macon-Bibb County Transit Authority Pension Plan (Continued)

***Pension Plan Fiduciary Net Position*:** Detailed information about the pension plan's fiduciary net position can be found in the financial report of the Macon-Bibb County Transit Authority.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and net estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of January 1, 2014.

Investments

As of June 30, 2015, the Plan's investments, which represent 5% or more of the net position are as follows:

Asset Class	Amount
Artisan Mid Cap Value	$ 396,263
Goldman Sachs Growth	271,214
Sterling Capital Securitized (Bonds)	396,457

Effective December 31, 2011, the Authority closed the Macon-Bibb County Transit Authority Pension Plan to employees hired or rehired after December 31, 2011 and froze accrued benefits for all non-vested employees at that date.

Effective January 1, 2012, the Authority adopted the Macon-Bibb County Transit Authority Deferred Compensation Plan (457(b) deferred compensation plan) and the Macon-Bibb County Transit Authority Employees Plan (defined contribution plan). Employees are eligible to participate after 90 days of service. Contributions to the defined contribution plan are 4% of the compensation of all eligible participants and an amount equal to ½ of each participant's contribution to the 457(b) deferred compensation plan, not to exceed 3% of the participant's compensation for each payroll period. Contributions to both plans for fiscal year ending June 30, 2015 were $112,574.

NOTE 13. ACCG DEFINED CONTRIBUTION PLAN

The ACCG Defined Contribution Plan for Senior Management of the County is a defined contribution pension plan established by the County to provide retirement benefits for certain eligible County employees. Eligible employees must be designated by County resolution or other written record. The County has designated ACCG to administer the plan. During the current period, there were 2 Plan members from the government. Plan members are required to make contributions to the Plan. County resolution requires the County to contribute 8 percent of compensation of Plan participants. Plan provisions and contribution requirements are established by County resolution and may be amended by the County. Total contributions for the period ended June 30, 2015 were $10,330 by the employees and $10,330 by the County. In addition, there was an early retirement incentive contribution made to the plan by the County totaling $42,511 for certain senior management that opted for early retirement as of June 30, 2015.

NOTE 14. RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; natural disasters; and losses resulting from providing accident and health benefits to employees, retirees, and their dependents. The County purchases commercial insurance for most types of risk. For these risks, settlements have not exceeded coverage.

The County established an internal service fund for group health insurance which is funded by charges to the County's other funds. Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of payouts), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expense related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate.

The County has entered into a self-funded group insurance plan with major medical coverage. The County currently utilizes Blue Cross Blue Shield as the Third Party Administrator. A stop loss carrier is in place to cover claims in excess of $250,000. Management continues to monitor the performance of this fund to ensure that premiums charged to the funds and agencies of the County are adequate.

NOTE 14. RISK MANAGEMENT (CONTINUED)

Changes in the respective claims liability amount for the fiscal year ended June 30, 2015 were:

Fiscal year ended June 30, 2015

	Beginning	Claim estimates	Claims paid	Ending
Workers' Compensation	$ 9,509,965	$ 3,196,257	$ 3,744,222	$ 8,962,000
Group Health	$ 1,338,979	$ 16,953,708	$ 16,953,708	$ 1,338,979

NOTE 15. COMMITMENTS AND CONTINGENCIES

A. Construction Commitments

The County has active construction projects as of June 30, 2015. The projects include street construction, building renovations, and construction of a new Juvenile Justice Facility and a new fire station. As of June 30, 2015, the County has contractual commitments on uncompleted construction contracts of approximately $10,000,000.

The remaining commitment amounts were encumbered at the end of the fiscal year. The encumbrances and related appropriation lapse at the end of the year, but are re-appropriated and become part of the subsequent year’s budget because performance under the executor contract is expected in the next year.

B. Litigation

Macon-Bibb County, Georgia is a defendant in numerous lawsuits and legal proceedings. County management and legal counsel is of the opinion that ultimate disposition of the lawsuits and legal proceedings will likely not have a material adverse effect, if any, on the financial condition of the County. However, any pending lawsuits or legal proceedings that could be successful against the County would in all likelihood range from $300,000 to $500,000.

C. Grant Funds

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the Federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

NOTE 15. COMMITMENTS AND CONTINGENCIES (CONTINUED)

D. Contracts with Macon-Bibb County Industrial Authority

Macon-Bibb County entered into a contract with the Macon-Bibb County Industrial Authority to provide $350,000 annually for 20 years, with payments beginning October 31, 2008. The funds are to be used for the purpose of land acquisition, infrastructure development, transaction costs and other industrial development services.

E. Macon-Bibb County Industrial Authority Employee Incentive Program Grant

The Georgia Department of Community Affairs (DCA) through its Community Development Block Grant (CDBG) Employment Incentive Program (EIP) entered into an Economic Development and Construction Agreement with Macon - Bibb County, Macon-Bibb County Industrial Authority, and Kumho Tire Georgia, Inc. for an EIP grant, awarded September 2, 2009. The grant award was $500,000, and draws on the grant totaled $496,240. Macon-Bibb County and the Industrial Authority guaranteed the funds in the EIP grant. Project Kumho failed to meet performance standards provided in the grant. As a result, DCA issued a letter of sanction to Macon-Bibb County in February 2012. The County, Industrial Authority and DCA agreed in March 2012 to enter into a repayment agreement requiring minimum annual payments of $70,891 over seven years. The first payment was made by the Industrial Authority in August 2012. Sanctions shall remain lifted as long as payments under the agreement are made as provided. The liability for the repayment of this grant is shown in the financial statements of the Macon-Bibb County Industrial Authority.

F. Development Authority of Bibb County Intergovernmental Contract

The Development Authority of Bibb County issued $5 million Series 2012 Taxable Revenue Bonds in June 2012. Funds will be used by the Authority to provide loans to developers and nonprofit organizations for various downtown housing and commercial development projects. The bonds are obligations of the Authority and are secured by rental or loan payments received by Urban Development Concepts, LLC under a Management Agreement with the Authority. An Intergovernmental Contract between the Development Authority and Macon-Bibb County obligates the County to pay debt service to the extent not paid from the revenues of the projects. The bonds bear interest at the fixed rate of 3.04% per annum until June 2016. Semiannual interest payments are required each December and June, beginning December 2012. Principal payments are due June 2017 through 2030. The liability for the bonds is shown in the financial statements of the Development Authority of Bibb County, which is also a component unit of the County.

NOTE 16. RESTATEMENT

The County has determined that a restatement to the July 1, 2014 beginning net position was required to recognize the change in accounting principle for implementation of Government Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* as well as Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – An Amendment of GASB Statement No. 68*, through which accounting for pension plans and related disclosure requirements were modified. NOTE 17. SUBSEQUENTLY DISCOVERED FACT

Subsequent to the release date of the financial statements, the management of the Macon-Bibb County Transit Authority (a discretely presented component unit) became aware of a material error in the actuarial valuation report of the Macon-Bibb County Transit Authority's defined benefit pension plan. Management of the Macon-Bibb County Transit Authority had relied upon the incorrect report in preparing its financial statements. Upon request by management of the Macon-Bibb County Transit Authority, the actuary revised its valuation report. The revised report, dated January 13, 2016, required management to revise the financial statements as follows:

Description	As Previously Stated	Adjustment	As Revised
Deferred Outflows of Resources	$ 478,868	$ 885,481	$ 1,364,349
Deferred Inflows of Resources	836,287	(787,093)	49,194

TEACHERS RETIREMENT SYSTEM OF GEORGIA
JUNE 30, 2015

Changes in assumptions: In 2010 and later, the expectation of retired life mortality was changed to the RP-2000 Mortality Tables rather than the 1994 Group Annuity Mortality Table, which was used prior to 2010. In 2010, rates of withdrawel, retirement, disability and mortality were adjusted to more closely reflect actual experience. In 2010, assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

Method and assumption used in calculation of actuarially determined contributions: The actuarially determined contribution rates in the schedule of contributions are calculated as of June 30, three years prior to the end of the fiscal year in which contributions are reported. The following actuarial methods and assumptions were used to determined the contractually required contributions for the year ended June 30, 2015 reported in that schedule:

Valuation date	June 30, 2013
Actuarial cost method	Entry age
Amortization method	Level percentage of payroll, open
Remaining amortization period	30 years
Asset valuation method	Seven-year smoothed market
Inflation rate	3.00%
Salary increases	3.75 - 7.00%, including inflation
Investment rate of return	7.50%, net of pension plan investment expense, including inflation

Note: Actuarial calcuations were not available prior to fiscal year 2012.

Changes in assumptions:

Plan changes: None

Accounting Method Changes: This is the first year GASB 68 applies. Under GASB 68, the asset gains/losses are spread over 5 years. Liability gains/losses and liability changes due to changes in assumptions are recognized over the average future working lifetime of the active and inactive participants.

Assumption Changes: The interest rate has been decreased from 7.50% to 7.00% to reflect payment of investment related expenses from the trust account. For funding purposes, this change was first recognized at January 1, 2014.

Funding Method Change: The funding contribution is now referred to as the Actuarially Determined Contribution ("ADC") and is set by the Plan Sponsors governing body by the adoption of a Funding Policy Statement. The Georgia State Minimum Required Contribution is based on the pension expense under GASB 27. For this reason and to continue past practice, GASB 27 computation remains the basis for determining the Actuarially Determined Contribution.

Method and assumption used in calculation of actuarially determined contributions:

Valuation date	January 1, 2014
Actuarial cost method	Entry age
Amortization method	Difference in actual and expected return on assets is recognized over 5 years. Experience gains and losses and assumption changes are amortized over the average future service of all participants (currently 6 years)
Remaining amortization period	15 years
Asset valuation method	Market value of assets
Inflation rate	2.50%
Salary increases	3.00% annually
Investment rate of return	7.00%
Future municipal bond rate	4.00%
Mortality	Actives and non-disabled inactives: 1994 Group Annuity Mortality Table projecting scale AA to 2024. Disabled lives: Healthy Table with ages set forward 10 years, projecting scale AA to 2024.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Commissioners
of Macon-Bibb County, Georgia
Macon, Georgia

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Macon-Bibb County, Georgia (the "County"), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated December 30, 2015. Our report includes a reference to the changes in accounting principle resulting from the implementation of Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27* as well as Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – An Amendment of GASB Statement No. 68*, as of July 1, 2014. Our report also includes a reference to other auditors. Other auditors audited the component unit financial statements of the Macon-Bibb County Industrial Authority, the Middle Georgia Regional Library, the Macon-Bibb County Transit Authority, the Macon-Bibb County Board of Health, the Macon-Bibb County Urban Development Authority, the Macon-Bibb County Convention and Visitors Bureau, the Macon-Bibb County Planning and Zoning Commission, and the Development Authority of Bibb County as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Macon-Bibb County, Georgia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Macon-Bibb County, Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of Macon-Bibb County, Georgia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Macon-Bibb County, Georgia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Board of Commissioners of
Macon-Bibb County, Georgia
Macon, Georgia

Report on Compliance For Each Major Federal Program

We have audited Macon-Bibb County, Georgia's (hereinafter referred to as the "County") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended June 30, 2015. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

The County's basic financial statements include the operations of the Macon-Bibb County Transit Authority as of June 30, 2015, which received $4,899,945 in federal awards which are not included in the schedule of expenditures of federal awards of the County for the year ended June 30, 2015. Our audit, described below, did not include the operations of the Macon-Bibb County Transit Authority as the component unit engaged other auditors to perform an audit in accordance with OMB Circular A-133.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as item SA 2015-001. Our opinion on each major federal program is not modified with respect to this matter.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program, and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

FEDERAL AWARDS FINDINGS AND QUESTIONED COSTS

SA 2015-001. Airport Improvement Program Verification Check for Covered Transactions Procurement (Suspension/Debarment)

Federal Program Information:	CFDA No. 20.106 Airport Improvement Programs U.S. Department of Transportation, passed through the Georgia Department of Transportation Grant No. AP014-9022-34 (021)
Criteria:	As a recipient of federal awards, the County is charged with the responsibility of verifying that covered transactions (procurement contracts for goods and services that are expected to equal or exceed $25,000, or meet certain other specified criteria) are not awarded to suspended or debarred parties.
Condition:	During our testing, we noted two instances for which documentation of a verification check for suspension/debarment was not provided.
Effects or possible effects:	Without proper documentation, suspended/debarred parties could be improperly awarded federal grant monies.
Questioned Costs:	None
Cause:	Lack of management oversight and review.
Recommendation:	We recommend the County take appropriate measures to ensure that complete documentation of all federal award procurements, including verification checks for suspension/debarment, be properly maintained.
Views of Responsible Officials and Planned Corrective Action:	Management concurs with the finding. Purchasing personnel will coordinate with Airport management personnel to ensure proper documentation of verification checks is obtained for all required procurements.
