## INDEPENDENT AUDITOR'S REPORT

To the County Commissioners
Brantley County, Georgia

We have audited the accompanying financial statements of the governmental activities, discretely presented component unit, each major fund and the aggregate remaining fund information of Brantley County, Georgia as of and for the year ended December 31, 2010, which collectively comprise the County's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of Brantley County, Georgia's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Brantley County Health Department, which statements reflect total assets of $335,425 as of June 30, 2010 and total revenues of $521,975 for the year then ended. Those financial statements were audited by other auditors whose report thereon has been furnished to us and our opinion insofar as it relates to the amounts included for the Brantley County Health Department, is based solely on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements presentation. We believe that our audit and the report of the other auditors provides a reasonable basis for our opinions.

In our opinion, based on our audit and the report of the other auditor, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Brantley County, Georgia, as of December 31, 2010, and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 22, 2011, on our consideration of Brantley County, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements and other matters. The purpose of that report is to describe the scope of our testing of internal controls over the financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information on pages 13 through 20 and 69 through 92, are not a required part of the basic financial statements but are supplementary information required by the accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Brantley County, Georgia financial statements. The combining and individual non-major fund financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Respectfully submitted,

BYRT CPAs, LLC

## MANAGEMENT'S DISCUSSION AND ANALYSIS

*Management's Discussion and Analysis (MD&A) is a narrative introduction, overview and analysis of the basic financial statements prepared by the County.*

## Management's Discussion and Analysis

Within this section of Brantley County, Georgia (County) annual financial report, the County's management provides narrative discussion and analysis of the financial activities of the County for the year ended December 31, 2010. The County's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section. The discussion focuses on the County's primary government and, unless otherwise noted, component units reported separately from the primary government are not included.

### FINANCIAL HIGHLIGHTS

The County's total assets exceeded its total liabilities by $23,146,334 (net assets) for the year reported. This compares to the previous year when the total assets exceeded the total liabilities by $20,667,545.

Total net assets are comprised of the following:

1. Capital assets, net of related debt, of $12,866,211 include property and equipment, net of accumulated depreciation, and reduced by outstanding debt related to the purchase and construction of capital assets.
2. Net assets of $2,595,461 are restricted by constraints imposed upon the County by laws and regulations.
3. Unrestricted net assets of $7,684,662 represent the portion available to maintain the County's continuing obligations to citizens and creditors.

The County's governmental funds reported total ending fund balance of $8,553,228 this year. This compares to the prior year ending fund balance, of $7,961,690 showing an increase of $591,538 during the current year.

At the end of the current year, unreserved fund balance for the General Fund was $5,037,452 or 49.93% of total General Fund expenditures.

Overall, Brantley County, Georgia, continues to maintain a strong financial position, in spite of a somewhat depressed economy.

## USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities on pages 22-23 provide information about the activities of the County as a whole and present a longer-term view of the County's finances. Fund financial statements start on page 24. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the County's operations in more detail than the government-wide statements by providing information about the County's most significant funds. The remaining statements provide financial information about activities for which the County acts solely as trustee or agent for the benefit of those outside of the government.

### Overview of the Financial Statements

Management's Discussion and Analysis introduces the County's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The County also includes in this report additional information to supplement the basic financial statements.

### Government-wide Financial Statements

The County's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the County's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of internal activities.

The first of these government-wide financial statements is the Statement of Net Assets. This is the County-wide statement of position presenting information that includes all of the County's assets and liabilities, with the difference reported as Net Assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County as a whole is improving or deteriorating. Evaluation of the overall health of the County would extend to other nonfinancial factors such as diversification to the taxpayer base or the condition of County infrastructure in addition to the financial information provided in this report.

The second government-wide statement is the Statement of Activities which reports how the County's net assets changed during the current year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the County's distinct activities or functions on revenues provided by the County's taxpayers.

Governmental activities include general government, judicial, public safety, public works, health and welfare, culture and recreation and community development. The County's fiduciary activities simply hold resources temporarily for others and are not included in the government-wide statements since these assets are not available to fund County programs.

The County's financial reporting includes the funds of the County (primary government) and, additionally, organizations for which the County is accountable (component units). These component units operate independently or provide services directly to the citizens, though the County remains accountable for their activities. These component units are governed by a board of directors that the County Commission has appointed. The County Health Department is reported separately from the primary government, though included in the County's overall reporting entity.

The government-wide financial statements are presented on pages 22-23 of this report.

**Fund Financial Statements**

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The County uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the County's most significant funds rather than the County as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for non-major funds is provided in the form of combining statements in a later section of this report.

The county has two kinds of funds:

*Governmental funds* are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different, with fund statements providing a distinctive view of the County's governmental funds. These statements report short-term fiscal accountability focusing on the use of spending resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes a long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to assist in understanding the differences between these two perspectives.

Budgetary comparison statements are included in the required supplementary information for the general fund. Budgetary comparison schedules for special revenue funds and the capital project funds can be found in a later section of this report. These statements and schedules demonstrate compliance with the County's adopted and final revised budget.

*Fiduciary funds* (i.e., the agency funds) are reported in the fiduciary fund financial statements, but are excluded from government-wide reporting. Fiduciary fund financial statements report resources that are not available to fund County programs. Fiduciary fund financial statements report similarly to proprietary funds.

The basic fiduciary fund financial statement is presented on page 30 of this report.

*Notes to the basic financial statements*

The accompanying notes to the basic financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements are presented on pages 32-66 of this report.

*Other information*

Other supplementary information includes detail by fund and component units for receivables, payables, transfers, and payments within the reporting entity. Supplementary information can be found on pages 69-92 of this report.

Major funds and component units are reported in the basic financial statements as discussed. Combining and individual statements and schedules for non-major funds are presented in a subsequent section of this report on pages 94-143.

**Financial Analysis of the County as a Whole**

The County's combined net assets were $23,146,334 at December 31, 2010. This is a $2,478,789 increase from last year's net assets of $20,667,545. The following table provides a summary of the County's net assets:

| | Summary of Net Assets | | | | | |
|---|---|---|---|---|---|---|
| | Governmental Activities | | Total | | Percentage of Total | |

The County continues to maintain a high current ratio. The current assets to current liabilities ratio is an indication of the ability to pay current obligations. The current ratio for governmental activities is 8.34 to 1. This is a strong ratio.

Note that approximately 55.59% of the governmental activities' net assets are tied up in capital (with 15.89% of the capital assets being infrastructure). The County uses these assets to provide services to its citizens.

The County reported positive balances in the net assets for governmental activities. Net assets increased by $2,478,789 for governmental activities. The County's overall financial position improved during year 2010.

## Financial Analysis of the County's Funds

*Governmental funds*

As discussed, governmental funds are reported in the fund statements with a short-term inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financial requirements.

The General Fund is the County's primary operating fund and the largest source of day-to-day service delivery. The general fund reported ending fund balances of $5,037,452. Of this year-end total, $4,946,937 is unreserved indicating availability for continuing County service requirements. Reserved fund balances include: $37,054 for the amount the County has spent on inventory, and $53,461 for the County's prepaid expenditures.

## General Fund Budgetary Highlights

The original and revised budget adopted anticipated a $0 increase in its fund balance. The actual fund balance increase was $1,185,813, reflecting a positive variance from the revised budget of $1,185,813.

## Capital Asset and Debt Administration

*Capital assets*

The County's investment in capital assets, net of accumulated depreciation, for governmental activities as of December 31, 2010, was $22,746,147. The total increase in the net investment was 9.60% for governmental activities.

See Note 3-G on pages 52-63 for additional information about the County's long-term debt.

## ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The County's elected and appointed officials considered many factors when setting the fiscal year 2010 budget and tax rates. Sales tax, which is the second largest revenue source decreased for the year ended December 31, 2010. Property tax, the largest revenue source, was due in January, 2010 for the 2009 property tax bills and February, 2011 for the 2010 property tax bills. Slow or no growth in assessed valuations is expected to continue in the next fiscal year.

**Brantley County, Georgia**
**Reconciliation of the Statement of Revenues, Expenditures,**
**and Changes in Fund Balance of Governmental Funds to the Statement of Activities**
**For the Year Ended December 31, 2010**

| | | |
|---|---|---|
| NET CHANGES IN FUND BALANCES | | |
| TOTAL GOVERNMENTAL FUNDS | | $ 549,861 |
| Amounts reported for Governmental Activities in the Statement of Activities are different because: | | |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period. | | |
| Capital outlay | 3,471,575 | |
| Depreciation expense | (1,058,842) | |
| | | 2,412,733 |
| In the statement of activities, only the loss on the sale of assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differs from the change in fund balance by the net book value of the assets sold: | | |
| Book value of assets sold | (844,614) | |
| Accumulated depreciation on net assets sold | 424,928 | |
| | | (419,686) |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. | | |
| Property Taxes: | | |
| Deferred at 12/31/10 | 1,857,651 | |
| Deferred at 12/31/09 | (2,139,529) | |

| Issuance of long-term debt provides current financial resources to governmental funds while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. The issuance of long-term debt increases long-term liabilities and the repayment of long-term debt reduces long-term liabilities in the statement of net assets. | | |

Brantley County, Georgia (the County), was incorporated under the laws of the State of Georgia. The County operates under a Commissioner-Chairman form of government. The County is governed by a board of five commissioners elected by the voters of the County.

### *Note 1 – Summary of Significant Accounting Policies*

The financial statements of the County have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting. The County also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental and business-type activities at the government-wide financial reporting level and to its proprietary funds at the fund reporting level, provided they do not conflict with or contradict GASB pronouncements.

The most significant of the County's accounting policies are described below.

### *1-A. Reporting Entity*

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the County consists of all funds, departments, boards and agencies that are not legally separate from the County. For Brantley County, this entity includes all departments and activities that are directly operated by the elected county officials.

Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services performed or provided by the organizations; or (2) the County is legally entitled to or can otherwise access the organization's resources; the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to the organization; or the County is obligated for the debt of the organization. Component units also may include organizations that are fiscally dependent on the County in that the County approves the budget, levies their taxes or issues their debt.

The Component unit columns included on the government-wide financial statements identifies the financial data of the County's discretely presented component units. They are reported separately to emphasize that they are legally separate from the County.

***Note 1- Summary of Significant Accounting Policies (Continued)***

***1-A. Reporting Entity (Continued)***

Brief descriptions of the discretely presented component units follow:

Brantley County Health Department (Health Department) - The Health Department provides health care services and health education to residents of Brantley County. The Health Department receives financial support from Brantley County, Georgia, the State of Georgia and the Federal Government. The County Commission appoints a majority of the Board of Directors. The Health Department issued separately audited financial statements with a fiscal year ended June 30, 2010 and copies of these financial statements may be obtained from their administrative office at:

Brantley County Health Department
Nahunta, Georgia 31533

Other public entities located within the County that are not included in the government-wide financial statements include municipalities and the following independent taxing districts authorized and established by the laws of Georgia.

Brantley County Development Authority
Brantley County Board of Education
Brantley County Board of Family & Children Services

Disbursements to these units by the County are based on contractual agreements, have been budgeted, and expended as part of the regular operations of the County.

The accounting policies of Brantley County, Georgia conform to generally accepted accounting principles, as applicable to governments. The following is a summary of the more significant policies.

***1-B. Basis of Presentation***

The County's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities and fund financial statements, which provide a more detailed level of financial information.

***Note 1- Summary of Significant Accounting Policies (Continued)***

***1-B. Basis of Presentation (Continued)***

***Government-wide Financial Statements –*** The government-wide financial statements include the statement of net assets and the statement of activities. These statements report financial information for the County as a whole. The primary government and the component units are presented separately within these financial statements with the focus on the primary government. Fiduciary activities are not included at the government-wide reporting level. Individual funds are not displayed but the statements distinguish governmental activities which are generally supported by taxes and County general revenues, from business-type activities which are generally financed in whole or in part with fees charged to external customers.

The statement of net assets presents the financial position of the governmental and business-type activities of the County and its discretely presented component units at year-end.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the County's governmental activities and for each identifiable activity of the business-type activities of the County. Direct expenses are those that are specifically associated with a function and therefore clearly identifiable to that particular function. The County does not allocate indirect expenses to functions in the statement of activities.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) Charges for services which report fees and other charges to users of the County's service; (2) Operating grants and contributions which finance annual operating activities including restricted investment income; and (3) Capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. The determining factor for identifying to which function program revenue pertains is which function generates the revenue. For grants and contributions, the determining factor is to which functions the revenues are restricted.

Taxes and other revenue sources not properly included with program revenues are reported as general revenues of the County. The comparison of direct expenses with program revenues identifies the extent to which each governmental function and each identifiable business activity is self-financing or draws from the general revenues of the County.

***Note 1- Summary of Significant Accounting Policies (Continued)***

***1-B. Basis of Presentation (Continued)***

***Fund Financial Statements***- During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. Fund financial statements are provided for governmental, proprietary and fiduciary funds.

Major individual governmental and enterprise funds are reported in separate columns with composite columns for non-major funds. The fiduciary funds are reported by type.

***Fund Accounting***- The County uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The County uses two categories of funds: governmental and fiduciary.

***Governmental Funds*** - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Fund liabilities are assigned to the fund from which they will be liquidated. The County reports the difference between governmental fund assets and liabilities as fund balance. The following is the County's major governmental funds:

**General Fund** - The general fund accounts for all financial resources except those required to be accounted for in other funds. The general fund's fund balance is available to the County for any purpose provided it is expended or transferred according to the general laws of Georgia.

**One-Georgia Grant Fund** – This fund is used to account for the construction of the new airport.

**Special Local Option Sales Tax** - This fund is used to account for the proceeds from the Special Local Option Sales Tax of 2007, for the use of these funds as provided by the resolution passed by the voters.

**Fiduciary Fund** - The fiduciary fund reporting focuses on net assets. The County's fiduciary fund collects the related revenue and disburses the revenue to the agencies for which it is collected. The County has the following fiduciary fund:

**Agency Fund** - This is the fund used by the constitutional officers of the County to deposit the collection of their offices and to disburse these funds to the various agencies.

***Note 1- Summary of Significant Accounting Policies (Continued)***

### *1.C. Measurement Focus*

***Government-wide Financial Statements*** – The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the County are included on the statement of net assets. The statement of activities reports revenues and expenses, including depreciation.

***Fund Financial Statements*** – All governmental funds are accounted for using a flow of current financial resources measurement focus in these financial statements. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports the sources (i.e. revenues and other financing sources) and uses (i.e. expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus on both financial reporting levels. All assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statements of changes in the fund net assets present increases (i.e. revenue) and decreases (i.e. expenses) in net total assets. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

#### *1-D. Basis of Accounting*

In the government-wide Statement of Net Assets and Statement of Activities, both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due. The revenues susceptible to accrual are property taxes, franchise fees, licenses, charges for services, interest income and intergovernmental revenues. Sales taxes collected and held by the state at year-end on behalf of the government are also recognized as revenue. All other governmental fund revenues are recognized when received, as they are deemed immaterial.

When both restricted and unrestricted resources are available for use, it is the City’s policy to use restricted resources first, then unrestricted resources as they are needed.

***Note 1- Summary of Significant Accounting Policies (Continued)***

***1-D. Basis of Accounting (Continued)***

All proprietary funds and fiduciary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

***Deferred Revenue***- Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

On governmental fund financial statements (i.e., on the modified accrual basis), receivables that will not be collected within the available period have been reported as deferred revenue (I.e., they are measurable but not available) rather than as revenue.

Property taxes receivables not collected within 60 days of year-end have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met (e.g., cash advances) also are recorded as deferred revenue.

***Expenses/Expenditures***- On the accrual basis of accounting, expense are recognized at the time they are incurred. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due, if measurable.

***1-E. Assets, Liabilities and Fund Equity***

***1-E-1 Cash, Cash Equivalents and Investments***

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the County.

Investments are stated at fair value based on quoted market prices.

Georgia law authorizes the County to invest in the following type of obligations:

- Obligation of the State of Georgia or of any other states
- Obligations of the United States Government
- Obligation fully insured or guaranteed by the government or governmental agency
- Obligation of any corporation of the government
- Prime bankers' acceptances
- The State of Georgia local government investment pool (i.e., Georgia Fund I)
- Repurchase agreements
- Obligations of the other political subdivisions of the State of Georgia

Any investments or deposit in excess of the Federal Deposit Insurance Corporation (FDIC) insured amount must be secured by 110% of an equivalent amount of State or U.S. obligations.

***Note 1- Summary of Significant Accounting Policies (Continued)***

***1-E. Assets, Liabilities and Fund Equity (Continued)***

***1-E-2 Receivables***

All trade and property tax receivables are reported net of an allowance for uncollectible.

***1-E-3 Interfund Balances***

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental and business-type activities columns of the statement of net assets, except for any net residual amounts due between governmental and business-type activities, which are reclassified and presented as internal balances.

***1-E- 4 Consumable Inventories***

On the government-wide financial statements, inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as expenditures in the governmental fund types when consumed. Inventories of the proprietary funds are expensed when consumed.

***1-E-5 Prepaid Items***

Payments made to vendors for services that will benefit periods beyond December 31, 2010, are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting then expenditure/expense in the year in which services are consumed. At the fund reporting level, an equal amount of fund balance is reserved as this amount is not available for general appropriation.

***Note 1 – Summary of Significant Accounting Policies (Continued)***

***1-E. Assets, Liabilities and Fund Equity (Continued)***

***1-E-6. Capital Assets***

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in governmental funds. The County reports these assets in the governmental activities column of the government-wide statement of net assets but does not report these assets in the governmental fund financial statements. Capital assets utilized by enterprise funds are reported both in the business-type activities column of the government-wide statement of net assets and in the enterprise fund's statement of net assets.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The County maintains a capitalization threshold of five thousand dollars. The County's infrastructure consists of roads and bridges. Improvements to capital assets are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed. Interest incurred during the construction of capital assets utilized by the enterprise is capitalized.

All reported capital assets are depreciated except for land, right-of-ways and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

| Description | Governmental Activities Estimated Lives | Business-Type Actvities Estimated Lives |
|---|---|---|
| Improvements other than buildings | 10-60 years | 10-60 years |
| Buildings | 40-60 years | 40-60 years |
| Machinery and equipment | 3-10 years | 3-10 years |
| Infrastructure | 40 years | 40 years |

***Note 1- Summary of Significant Accounting Policies (Continued)***

***1-E. Assets, Liabilities and Fund Equity (Continued)***

***1-E-6 Capital Assets (Continued)***

At the inception of capital leases at the governmental fund reporting level, expenditures and an "other financing source" of an equal amount are reported at the new present value of future minimum lease payments.

***1-E-7 Compensated Absences***

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the County's past experience of making termination payments.

All compensated absences liabilities include salary-related payments, where applicable.

The total compensated absences liability is reported on the government-wide financial statements. Proprietary funds report the total compensated liability in each individual fund at the fund reporting level. Governmental funds report the compensated absences liability at the fund reporting level only "when due."

***1-E-8 Accrued Liabilities and Long-term Obligations***

All payables, accrued liabilities and long-term obligation are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of these funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are "due for payments" during the current year. Bonds and capital leases are recognized as a liability in the governmental fund financial statements when due.

***Note 1- Summary of Significant Accounting Policies (Continued)***

***1-E. Assets, Liabilities and Fund Equity (Continued)***

***1-E-9 Fund Equity***

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net assets."

***Fund Balance*** – Generally, fund balance represents the difference between the current assets and current liabilities. The County reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent available, spendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund balance that is available for appropriation in future periods. Designations are management's intent to set aside these resources for specific services.

***Net Assets*** – Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. All other net assets are reported as unrestricted.

The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

***1-E-10 Operating Revenues and Expenses***

**Policy for Defining Operating and Non-operating Revenues and Expenses:**

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing-services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues are charges to customers for sales and services. The County also recognizes as operating revenue the portion of fees intended to recover the cost of providing services to new customers. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

***Note 1- Summary of Significant Accounting Policies (Continued)***

***1-E. Assets, Liabilities and Fund Equity (Continued)***

***1-E-11 Contributions of Capital***

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets, tap-in fees to the extent they exceed the cost of the connection to the system, or from grants or outside contributions of resources restricted to capital acquisition and construction.

***1-E-12 Interfund Activity***

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses section in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Transfers between governmental and business-type activities on the government-wide statement of activities are reported as general revenues. Transfers between funds reported in the governmental activities column are eliminated. Transfers between funds reported in the business-type activities column are eliminated.

***1-E-13 Extraordinary and Special Items***

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the County and that are either unusual in nature or infrequent in occurrence.

***1-E-14 Estimates***

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes.

***Note 2 - Stewardship, Compliance and Accountability***

**2-A. Budgetary Information** – The County normally adopts an annual operating budget for the general fund, each special revenue fund, and each capital project fund. The budget resolution reflects the total of each department's appropriation in each fund. The County's budget is prepared on the modified accrual basis for all budgeted funds.

For 2010, the County did not adopt annual budgets for the following special revenue funds: Drug Abuse & Treatment, DFCS Building Maintenance, Confiscated Assets, Vending, Jail Fund, Law Library, Recreation Department, Sheriff's Task Force, Mark Stone Fund, and the Inmate Account Fund, and the General Capital Project Fund.

Budgets are adopted on a basis consistent with GAAP with the exception of the capital project funds, which have project length budgets rather than annual budgets.

All unexpended, annual appropriations lapse at year end.

The Government is required to adopt an annual budget no later than sixty (60) days prior to the beginning of each year. Each department head is required to submit an annual budget to the Board of County Commissioners.

The level of legal budgetary control (the level at which expenditures may not exceed appropriations) is the departmental level with the following provisions:

> The County Clerk may transfer funds from one object or purpose to another within the same department.
>
> The County Commission may amend the budget by motion during the year.

Formal budgetary integration is employed as a management control device during the year for all budgeted funds, except those referred to above.

***Note 2 – Stewardship, Compliance and Accountability (continued)***

***2-B. Excess of Expenditures over Appropriations (continued)***

The following funds reported expenditures/expenses over appropriations:

| Fund | Appropriation | Expenditures | Over-Appropriation |
|---|---|---|---|
| General Fund: | | | |
| County Commissioner | 323,076 | 333,798 | 10,722 |

***3-A. Deposits and Investments***

Following is a reconciliation of the County's deposit and investment balances as of December 31, 2010.

The bank balance for the reporting entity totaling $3,120,444 includes $3,044,168 classified as restricted assets.

***Cash and investments reconciliation:***

| Primary Government: | Cash |
|---|---|
| Fund Reporting Level: | |
| Governmental Funds - Balance Sheet | $ 3,120,444 |
| Statement of Fiduciary Assets and Liabilities | 152,417 |
| Total | $ 3,272,861 |

Any bank deposit in excess of the total of the FDIC insured amount must be secured by an equivalent amount of State or U.S. Obligations.

***3-B. Receivables***

Receivables at December 31, 2010 consisted of taxes, interest, accounts, and intergovernmental receivables arising from grants.

Receivables and payables are recorded on the County's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectability.

Receivables at December 31, 2010 consist of the following:

| | Fines | Taxes | Accounts | Due from Other Governments | Net Receivables |
|---|---|---|---|---|---|
| General Fund | $ 15,686 | $ 6,650,268 | $ 192,978 | $ 321,431 | $ 7,180,363 |

| Total Primary Government | $ 15,686 | $ 6,986,117 | $ 247,722 | $ 321,431 | $ 7,570,956 |

***Note 3 – Detailed Notes on All Funds (continued)***

***3-C. Property Taxes***

The Board of Commissioners normally levies property taxes by or about August 25th of each year. Property taxes attach as an enforceable lien on property as of January 1st. The 2010 tax digest was not levied until November 18, 2010 due to reappraisals of property located in the County. The County bills and collects its own property taxes and also collects property taxes for the Brantley County Board of Education, the City of Nahunta, the City of Hoboken, and the State of Georgia. Collection of the County's taxes, and for the other government agencies, is the responsibility of the Tax Commissioner's Office, which is accounted for as an Agency Fund. County property tax revenues at the fund reporting level are recognized when levied to the extent that they result in current receivables.

| | |
|---|---|
| Beginning of year for property taxes | January 1, 2010 |
| Millage rate adopted by resolution | November 18, 2010 |
| Property tax digest approved by State | December 1, 2010 |
| Property tax invoices rendered | December 7, 2010 |
| Property tax due date | February 20, 2011 |

Deferred Revenue – Delinquent property taxes not collected within sixty (60) days after year-end are recognized as deferred revenue.

***3-E. Interfund Balances and Transfers***

Interfund balances at December 31, 2010, consisted of the following amounts and represent charges for services or reimbursable expenses. These remaining balances resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting period, and (3) payments between funds are made. The County expects to repay all interfund balances within one year.

***Note 4 – Pension Plan***

The Brantley County Retirement Plan is a defined contribution plan which was adopted by the Brantley County Board of Commissioners and was effective January 1, 1990. The plan is administered by Met Life. The plan is open to all full-time employees with three months of service. The employee can contribute a percentage of his salary up to the limits allowed by law with up to an additional 2% matched by the County. Employees are immediately 100% vested in the County contribution.

The contribution for 2010 to the County-funded plan was $25,350, which is 0.58% of the 2010 payroll. Employees do not contribute to this plan and the County does not have a required contribution. Contributions are established by the County Commissioners on an annual basis.

***Note 5 – Other Notes***

***5-A. Risk Management***

The County maintains third party coverage for claims arising from property and casualty claims, general liability claims, and medical claims.

The Government is exposed to various risks of losses related to torts, thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disaster. The Government has joined together with other municipalities in the State as part of the Georgia Municipal Association Group Self-Insurance Workers Compensation Fund, a public entity risk pool currently operating as a common risk management and insurance program for member local governments.

As part of these risk pools, the Government is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pool's agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The Government is also to allow the pool's agents and attorneys to represent the Government in investigation, settlement discussions and all levels of litigation arising out of any claim made against the Government within the scope of loss protection furnished by the funds.

The funds are to defend and protect the members of the funds against liability or loss as proscribed in the member government contract and in accordance with the workers' compensation law of Georgia. The funds are to pay all cost taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

Settled claims in the past three years have not exceeded the coverages.

There were no significant reductions in insurance coverage from prior year, and there have been no settlements that exceed the County's insurance coverage during the past three years.

***5-B. Subsequent Events***

The County has evaluated subsequent events through August 22, 2011, the date which the financial statements were available to be issued. No subsequent events came to our attention that are expected to have a material effect on the County's financial statements.

***Note 5 – Other Notes (continued)***

***5-C. Contingent Liabilities***

The County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could result in a request for reimbursement of the grantor agency for costs disallowed under terms of the grant. Based on prior experiences, the County believes that such disallowances, if any, will be immaterial.

The County is not a defendant in any lawsuits at December 31, 2010.

In the opinion of County management, the outcome of these contingencies will not have a material effect on the financial position of the County.

***5-D. Joint Ventures***

Under Georgia law, the County, in conjunction with other cities and counties in the eight county southeast Georgia area, is a member of the Southeast Georgia Regional Development Center (RDC) and is required to pay annual dues thereof. During its year ended December 31, 2010, the County paid $26,342 in such dues. Membership in an RDC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the RDC in Georgia. The RDC Board membership includes the chief elected official of each county and municipality of the area. The OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of an RDC. Separate financial statements may be obtained from:

Southeast Georgia Regional Development Center
3395 Harris Road
Waycross, Georgia 31503

***5-E. Prior Period Adjustments***

Net assets at the beginning of the fiscal year ended December 31, 2010 have been adjusted to correct an error in recording certificates of deposit in the Calvary Volunteer Fire Department special revenue fund. Had the error not been made, net income for prior years would have increased by $41,677 for the Calvary Volunteer Fire Department special revenue fund.

## Independent Auditor's Report on the Schedule of Special Local Option Sales Tax

To the County Commissioners
Brantley County, Georgia

We have audited the accompanying Schedule of Special Purpose Local Option Sales Tax for the Brantley County, Georgia for the year ended December 31, 2010. This schedule is the responsibility of the Brantley County's management. Our responsibility is to express an opinion on the Schedule of Special Purpose Local Option Sales Tax based on my audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule of Special Purpose Local Option Sales Tax is free of material misstatement. An audit includes examining, on a test basis, evidence suppurating the amounts and disclosures in the Schedule of Special Purpose Local Option Sales Tax. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Schedule of Special Purpose Local Option Sales Tax. We believe that our audit provides a reasonable basis for our opinion.

The accompanying Schedule of Special Purpose Local Option Sales Tax was prepared for the purpose of complying with the Official Code to Georgia Annotated, 48-8-121 on the modified accrual basis of accounting used for the SPLOST schedule as described in Note 1-D and is not intended to be a complete presentation of Brantley County's revenues and expenditures.

In our opinion, the Schedule of Special Purpose Local Option Sales Tax referred to above presents fairly, in all material respects, the original estimated cost, the current estimated cost, and the current and prior year expenditures for each project in Brantley County's resolution or ordinance calling for the tax for the year ended December 31, 2010, in conformity with accounting principles generally accepted in the United states of America.

Respectfully submitted,

To The Board of Commissioners
Brantley County, Georgia

Independent Accountant's Report

We have examined management's assertion included in the accompanying Annual Report of 9-1-1 Collections and Expenditures about Brantley County's compliance during the fiscal year ended December 31, 2010 with requirement to expend 9-1-1 funds in compliance with the expenditure requirements of the Official Code of Georgia Annotated, Section 46-5-134. Management is responsible for Brantley County's compliance with this requirement. Our responsibility is to express an opinion on management's assertion about Brantley County's compliance based on our examination.

Our examination was conducted in accordance with the attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about Brantley County's compliance with this requirement and performing such other procedures as we considered necessary in the circumstances. We believe that my examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on Brantley County's compliance with the specified requirement.

In our opinion, management's assertion that Brantley County complied with the aforementioned requirement during the fiscal year ended December 31, 2010 is fairly stated, in all material respects.

This report is intended solely for the information and use of management and the Georgia Department of Audits and Accounts and is not intended to be and should not be used by anyone other than the specified parties.

Respectfully submitted,

Certification of Local Government Officials

I have reviewed the information presented in this report and certify that it is accurate and correct. I further certify that the 9-1-1 funds were expended in compliance with the expenditure requirements specified in the Official Code of Georgia Annotated (OCGA), Section 46-5-134. I understand that, in accordance with OCGA Section 46-5-134(m)(2), any local government which makes expenditures not in compliance with this Code section may be held liable for pro rata reimbursement to telephone and wireless telecommunications subscribers of amounts improperly expended. Further, the noncompliant local government shall by solely financially responsible for the reimbursement and for any costs associated with the reimbursement. Such reimbursement shall be accomplished by service providers abating the imposition of the 9-1-1 charges and 9-1-1 wireless enhanced charges until such abatement equals the total amount of the rebate.

## Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the County Commissioners
Brantley County, Georgia

We have audited the financial statements of the governmental activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of Brantley County, Georgia as of and for the year ended December 31, 2010, which collectively comprise Brantley County's basic financial Statements and have issued our report thereon dated August 22, 2011. Our report was modified to include a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits *cont*ained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Other auditors audited the financial statements of the Brantley County Health Department, as described in our report on Brantley County, Georgia's financial statements. This report does not include the results of the other auditor's testing of internal control over financial reporting or compliance and other matters that are reported separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit, we considered Brantley County, Georgia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements but not for the purpose of expressing an opinion on the effectiveness of Brantley County, Georgia's internal control over financing reporting. Accordingly, we do not express an opinion on the effectiveness of Brantley County, Georgia's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect, and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Brantley County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws,

regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

We noted certain matters that we reported to management of Brantley County, Georgia, in a separate letter dated August 22, 2011.

This report is intended solely for the information and use of the audit committee, management, and County Commissioners, others within the entity and federal awarding agencies and is not intended to be used and should not be used by anyone other than these specified parties.

Respectfully submitted,
