INDEPENDENT AUDITOR'S REPORT

Honorable Board of Commissioners
Johnson County
Georgia

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Johnson County, Georgia (the Government) as of and for the year ended December 31, 2009, which collectively comprise the Government's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Government's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the Johnson County Public Health Center, which represents 43% and 94%, respectively, of the assets and revenue of the discretely presented component units. Those financial statements were audited by other auditors whose report thereon has been furnished to us. And our opinion, insofar as it relates to the amounts included for the Johnson County Public Health Center, is based on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Johnson County, Georgia, as of December 31, 2009, and the respective budgetary comparison for the General Fund, SPLOST – Roads, Streets and Bridges, SPLOST – Jail construction and the Local Resources Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 9, 2010, on our consideration of the Government's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. The County has not presented the management discussion and analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be part of the basic financial statements.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Government's basic financial statements. The combining and individual fund financial statements and schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the report of other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Christian, Kelly, Thigpen & Co., L L C

Johnson County, Georgia
Reconciliation of the Balance Sheet of Governmental Funds
to the Statement of Net Assets
December 31, 2009

Amounts reported for governmental activities on the statement of net assets are different because of the following:

Fund balances - total governmental funds	$ 3,830,798
Capital assets used in governmental activities are not financial resources and are not reported in the governmental funds	7,241,277
Certain long-term assets are not available to pay current expenditures and are therefore deferred in the funds	322,551
Certain liabilities are not due and payable in the current period and therefore are not reported in the funds	(15,011)
The proceeds of debt provide current financial resources to government funds, but debt increases long-term liabilities in the statement of net assets	(2,526,305)
Net assets of governmental activities	$ 8,853,310

The accompanying notes are an integral part of these financial statements.

Johnson County, Georgia
Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Year Ended December 31, 2009

Net changes in fund balances - Total government funds		$ (35,813)
Amounts reported for governmental activities on the statement of activities are different because of the following:		
Governmental funds report capital outlays as expenditures. However, on the statement of activities, the costs of those assets are allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current year:		
Capital outlay - Depreciable capital assets	227,745	
Depreciation	(333,313)	(105,568)
Revenues on the statement of activities that do not provide current financial resources are not reported as revenues in governmental funds:		
Property taxes		(77,965)
Some expenses reported on the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:		
Compensated absences payable		(179)
The repayment of long-term debt consumes the current financial resources of government funds, debt decreases long-term liabilities in the statement of net assets		178,906
Changes in net assets of governmental activities		$ (40,619)

The accompanying notes are an integral part of these financial statements.

Due to other governmental units	$ 1,591,750
Total liabilities	$ 1,591,750

The accompanying notes are an integral part of these financial statements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. The Reporting Entity

The County is governed by a board of five Commissioners elected by the voters of the County. Other officials elected by the voters of the county that manage various segments of the County's operations are Clerk of Court, Sheriff, Tax Commissioner, Coroner, Probate Judge and Magistrate Judge. Although the elected officials manage the internal operations of their respective departments the County Commissioners authorize expenditures as well as serve as the budget and taxing authority, contracting body and the chief administrators of public services for the entire county.

Section 2100 of the standards published by the Governmental Accounting Standards Board (GASB) defines the reporting entity as the primary government and all its component units, if any according to GASB-14, the identification of a financial reporting entity is based on the concept of financial accountability, GASB-14 defines a primary government as a government that:

1. Has a separately elected governing body;
2. Is legally separate
3. Is fiscally independent of other statement local governments.

For financial reporting purposes, in accordance with the criteria in GASB Standards, the County includes all funds, agencies, boards, commissions, and authorities that are within its primary government. A component unit is a legally separate organization for which elected officials of a primary government are financially accountable. There are three sets of criteria that the County evaluates to determine whether a potential component unit will be included in the reporting entity of Johnson County. They are financial accountability, financial accountability as a result of fiscal dependency, and misleading to exclude the component units.

Certain County officials collect and disburse taxes, fees, fines, etc. Separate records of accountability are maintained for such receipts. For purposes of this report, these records are included as a part of agency trust funds with remittances to the General Fund from these officials recorded as revenue. Operating costs for these officials are included as a part of the County's General Fund. These units included Tax Commissioner, Sheriff, Clerk of Courts, Probate Court and Magistrate Court.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. The Reporting Entity: (Continued)

The component unit columns on the basic financial statements include the financial data of the County's discretely component units. They are reported in separate columns to emphasize that they are legally separate from the county.

Johnson County Recreation Department

This component unit is served by a nine-member board who are appointed by the Board of Commissioners. The County is financially accountable for all operations and the budget adopted. The Department offers sport related activities to the citizens of Johnson County. Program revenues are generated mainly from user fees and donations.

Johnson County Development Authority

This component unit is served by an eight-member board who are appointed by the Board of Commissioners. The County is financially accountable for all operations. The Authority serves to promote economic development in Johnson County. Revenues are generated from donations and grants.

Johnson County Public Health Center

This component unit is served by a seven member board who are appointed by the Board of Commissioners. The center provides various health services for citizens of Johnson County under a contract with the Georgia Department of Human Resources (DHR). Under this contractual agreement DHR provides certain administrative and other services to the Center in addition to the grant-in-aid funding. These services are funded through other government entities or directly by DHR and therefore the value of these services are not reflected in these financial statements.

This component unit issues separately audited financial statements. Copies of this report may be obtained from the Health Center. The Johnson County Health Center's fiscal year for reporting is June 30. The fiscal year incorporated into these financial statements is June 30, 2009.

Based on the GASB criteria, the following units are not under the oversight responsibilities of the Board of Commissioners and their operations are not included in this report: Johnson County Board of Education, Johnson County Department of Family and Children's Services.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The financial statements of Johnson County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Also Financial Accounting Standards Board (FASB) pronouncements and Accounting Principle Board (APB) opinions issued on or before November 30, 1989, have been applied unless those pronouncements conflict with or contradict GASB pronouncements. Following are the more significant of the County's accounting policies.

B. Basis of Presentation

The County's basic financial statements consist of government-wide financial statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the county as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the County that are governmental in nature and those that are considered business-type activities. There are no business type activities at December 31, 2009.

The statement of net assets presents the financial condition of the governmental activities of the County at year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods, or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues that are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program is self-financing or draws from the general revenues to the County.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Financial Statements

During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. The focus of governmental and propriety fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type. The County has no proprietary funds.

C. Fund Accounting

The County uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions of the county are financed. Governmental fund reporting focuses on the sources, uses, and balances, of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental funds: assets and liabilities are reported as fund balance. The following are the County's major governmental funds:

General Fund. The General Fund accounts for all financial resources, except those required to be accounted for in another fund. The General Fund balance is available to the County for any purpose provided it is expended or transferred according to the general laws of Georgia.

SPLOST – Roads, Streets, and Bridges. This fund accounts for monies from the special 1% sales tax. These funds are restricted for road repair and road machinery.

SPLOST – Jail Construction – This fund accounts for monies from the special 1% sales tax. These funds are restricted for repayment of Jail cosntruction debt.

LOCAL RESOURCES FUND - This fund accounts for monies that are held for the purchase of equipment and vehicles that are normally purchased from the general fund.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Fund Accounting (Continued)

Governmental Funds (Continued)

The other governmental funds of the county, account for grants and other resources, whose use is restricted for a particular purpose and the acquisition or construction of major capital facilities.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The County's investment trust fund accounts for the external portion of the cash management pool, which represents resources that belong to legally separate entities. The County's agency funds account for assets held by the County for political subdivisions in which the County acts as fiscal agent and for taxes, state-levied shared revenues, and finances and forfeitures collected and distributed to other political subdivisions.

D. Measurement Focus

Government-Wide Financial Statements

The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of the County are included on the statement of net assets.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reflects the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the fund financial statements for governmental funds.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using accrual basis of accounting. Governmental funds use the modified accrual basis of accounting; fiduciary funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues – Exchange and Nonexchange Transactions

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recognized in the year in which the resources are measurable and become available. Available means the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the County, available means expected to be received within sixty days after year end.

Nonexchange transactions, in which the County receives value without directly giving equal value in return, include property taxes, sales taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the year for which the taxes are levied. Revenue from sales taxes is recognized in the period in which the sales are made. Revenue from grants, entitlements, and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the county must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Basis of Accounting (Continued)

Under the modified accrual basis, the following revenue sources are considered both measurable and available at year end: sales taxes, charges for services, fines and forfeitures, grants, interest, and rent.

Deferred Revenues

Deferred revenues arise when assets are recognized before the revenue recognition criteria have been satisfied.

Property taxes for which there was an enforceable legal claim at December 31, 2009, and were levied to finance 2009 operations, have been recorded as deferred revenue.

On governmental fund financial statements, receivables that were not collected within the available period are recorded as deferred revenue. The property tax deferred revenue on these statements amounts to $322,551.

Expenses/Expenditures

On the accrual basis, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

F. Budgetary Data

1. Prior to December 1, the County Budget Officer submits to the Commission a proposed operating budget for fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Budgetary Data (Continued)

2. The Commission holds a public hearing on the budget, giving notice thereof at least fourteen days in advance by publication in the official organ.

3. The budget is then reviewed and adopted by the Commission at the last regular meeting in December for the next year to which it applies.

4. The budget so adopted may be revised during the year only by formal action of the Commission in a regular meeting and no increase shall be made therein without provision also begin made for financing same.

5. Budgets for the General and Special Revenue Funds are adopted on a basis consistent with generally accepted accounting principles.

6. Budgeted amounts are as originally adopted, or as amended by the Commission, if such amendments are considered material to the budget as a whole.

G. Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed. Accordingly, encumbrances outstanding at year-end are not reported as reservations of fund balances nor do they constitute expenditures or liabilities. Generally accepted accounting principles do not require encumbrance accounting. Likewise, Johnson County does not use encumbrance accounting.

H. Inventories

Inventory consists of expendable supplies held for consumption. The cost of these supplies on hand are considered immaterial to the balance sheets of the various funds and are not shown as assets of the funds nor is any portion of the fund balance reported as reserved for inventories. Inventory type items are recorded as an expense/expenditure when purchased.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Cash and Investments

For purposes of the statement of net assets, cash and investments with a maturity of three months or less at the time they are purchased by the County are considered to be cash and cash equivalents. Investments with maturity of more than three months are reported as investments.

J. Prepaid Items

Payments to vendors for services that will benefit periods beyond December 31, 2009, are reported as prepaid items by recording a current asset for the prepaid amount and reflecting the expenditure/ expense in the year in which services are consumed.

K. Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Certain cash resources are set aside for various purposes in the special revenue funds. These restricted funds are classified as restricted assets on the balance sheet because their use is limited.

L. Capital Assets

General capital assets are capital assets, which are associated with and generally arise from governmental activities. They generally result from expenditures in governmental funds. General capital assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and reductions during the year. Donated fixed assets are recorded at their fair market value on the date donated. The County maintains a capitalization threshold of five thousand dollars. The County's infrastructure consists of roads, bridges, and culverts. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Prior infrastructure has not been capitalized.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

L. Capital Assets (Continued)

All capital assets are depreciated, except for land and improvements, and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using mainly straight-line method over the following useful lives:

Description	Estimated Lives
Building and Building Improvements	40-100 years
Improvements Other Than Buildings	40 years
Machinery and Equipment	7-10 years
Vehicles	5 years
Infrastructure	5-50 years

M. Compensated Absences

Primary government

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable the County will compensate the employees for the benefits through paid time.

The compensated absences liability for vacation is reported on the government-wide financial statements.

Employees accumulate sick leave at the rate of ten (10) hours per month. The maximum permissible accumulation is 90 days. No sick leave is paid upon employee termination.

Accumulated sick leave benefits have not been recorded as a liability because these benefits are paid only upon the illness of an employee, and the amount of such payment cannot be reasonably estimated.

Component Unit

Johnson County Public Health Center

Annual and sick leave costs are charged to operations at the time the expenditure is made.

Employees can earn annual leave at the rate of ten (10) hours per month during the first five (5) years of employment; twelve (12) hours per month after five (5) through ten (10) years of employment; and fourteen (14) hours per month after ten (10) years of employment.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

M. Compensated Absences (Continued)

Component Units (Continued)

There is no requirement that annual leave be taken, but the maximum accumulated annual leave is forty-five (45) days. At termination, employees are paid for any accumulated annual leave. The liability for accumulated annual leave at June 30, 2009, is estimated to be $5,211 as recorded in the statement of net asset.

N. Interfund Receivables/Payables

On Fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Due to other funds/Due from other funds. Interfund balances within governmental activities are eliminated on the government-wide statement of net assets.

O. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from estimates.

NOTE 2. CHANGES IN ACCOUNTING PRINCIPLES AND PRIOR PERIOD ADJUSTMENT

Effective January 1, 2003, the County implemented the provisions of GASB 34, "*Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments"*. This statement significantly changes the financial reporting model and reporting requirements. The county implemented the new reporting model one year in advance.

The County also has adopted GASB 33 "*Accounting and Financial Reporting for Nonexchange Transactions"*; GASB 36 "*Recipient Reporting for Certain Shared Nonexchange Revenues"*; GASB 37 "*Basic Financial Statements and Management's Discussion and Analysis for State Local Governments: Omnibus*; GASB 38 "*Certain Financial Statement Note Disclosures"*; and GASB Interpretation 6 "*Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial statements*."

GASB 37 makes certain clarifications regarding escheat property and modifies several provisions of GASB 34 including the management's discussion and Analysis. GASB 38 modifies, establishes and rescinds certain financial statement disclosure requirements.

NOTE 2. CHANGES IN ACCOUNTING PRINCIPLES AND PRIOR PERIOD ADJUSTMENT (Continued)

GASB 34 creates new basic financial statements for reporting on the County's financial activities. The financial statements include government-wide financial statements prepared on the accrual basis of accounting and fund financial statements which present information for individual major funds rather than by fund type. Non-major funds are aggregated and presented in a single column. A major fund is determined by those whose revenues, expenditures/expenses, assets or liabilities are at least 10% of corresponding totals for all governmental or all enterprise funds and for that same element at least 5% of the combined totals of the governmental and enterprise funds.

NOTE 3. CUSTODIAL CREDIT RISK - DEPOSITS

Primary government:

The county government had the following depository accounts. All deposits are carried at cost plus accrued interest.

Primary government:	Carrying Amount	Bank Balance
Cash and Cash equivalents	$ 1,840,531	$ 911,854
Cash restricted	783,464	783,464
Certificates of Deposit (restricted)	900,000	900,000
Certificates of Deposit (unrestricted)	100,000	100,000
	$ 3,623,995	$ 2,695,318

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government's deposit policy requires pledges of collateral for all cash deposits in depository institutions.

As of December 31, 2009, the government's bank balance of $2,695,318 was exposed to custodial credit risk as follows:

Insured or collateralized with securities held by the entity or by its agent in the entity's name.	$ 2,695,318

As all bank balances are insured or collateralized Georgia statue requires collateral at 110% of the government's bank balance, less the amount of FDIC insurance.

Agency Funds:
The Johnson County tax commissioner had the following depository accounts.

	Carrying Amount	Bank Balance
Cash and Cash equivalents	$ 1,054,495	$ 1,027,970

NOTE 3. CUSTODIAL CREDIT RISK – DEPOSITS (CONTINUED)

As of December 31, 2009, the agency's bank balance of $1,027,970 was exposed to custodial credit risk as follows:

Insured or collateralized with securities held by the entity or by its agent in the entity's name.	$ 1,027,970

Georgia statute requires collateral at 110% of the governments, less the amount of FDIC insurance, to be held in the governments name by the safe keeping agent.

Component units –

Johnson County Recreation Department
The Recreation Department had the following depository accounts:

	Carrying Amount	Bank Balance
Cash and Cash Equivalents	$ 5,674	$ 5,701

As of December 31, 2009, the Recreation Department bank balance of $5,701 was exposed to custodial credit risk as follows:

Insured by FDIC insurance	$ 5,701

Johnson County Development Authority
The Development Authority had the following depository accounts

	Carrying Amount	Bank Balance
Cash and Cash Equivalents	$ 1,138	$ 1,138

As of December 31, 2009 the Development Authority's bank balance of $1,138 was exposed to custodial credit risk as follows:

Insured by FDIC insurance	$ 1,138

Johnson County Public Health Center
The Public Health Center had the following depository accounts

	Carrying Amount	Bank Balance
Cash and Cash Equivalents	$ 105,585	$ 116,328
Certificates of Deposit (unrestricted)	231,020	231,020
	$ 336,605	$ 347,348

NOTE 3. CUSTODIAL CREDIT RISK – DEPOSITS (CONTINUED)

As of June 30, 2009, the Public Health Center's bank balance of $ 336,605 was exposed to custodial credit risk as follows:

Insured or collateralized with securities held by the entity or by its agent in the entity's name.	$ 336,605

As all bank balances are insured or collateralized Georgia statue requires collateral at 110% of the government's bank balance, less the amount of FDIC Insurance.

NOTE 4. PROPERTY TAXES

Property taxes attach as an enforceable lien on property as of January 1. Taxes are recognized when levied to the extent they result in current receivables. Taxes of real and personal property are payable once a year. In the governmental funds, taxes not collected within sixty days after year–end, are reported as deferred revenue. The government-wide financial statements are reported on the accrual basis therefore no deferred revenues are reflected for property taxes.

Taxes are generally levied by October 20th and are due by December 20th. As required by law, the County must submit a tax digest to the state of Georgia each year for approval.

The Tax Commissioner collects property taxes on behalf of all taxing districts within the county. The Tax Commissioner periodically remits to the taxing districts their portions of the taxes collected. The Tax Commissioner is one of the agency funds.

The Tax Commissioner had taxes receivable of $1,013,670. The total deferred revenue in the governmental funds at December 31, 2009, totals $322,551 which is deferred revenue on property taxes.

NOTE 5. SIGNIFICANT CONTINGENCIES, STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Retirement Commitments – primary government

The County participates in several retirement and pension plans funded by fees received by the County. The County is not in direct control of the plans and are only committed to fund actual fees collected on a per case basis. The plans are The Probate Judges' Retirement Fund of Georgia, Clerk of Superior Court Retirement Fund, and the Sheriff's Retirement Fund/Peace Officers Annuity and Benefit Fund.

During 2009 the county enrolled in GEBC Corp 457(b) Deferred Compensation plan. All full time and part-time employees are eligible to participate in the Plan. The county government has elected not to make contributions to this plan on behalf of any employee. Age 50 catch-up contributions are allowed. The employee can contribute 100% of his pay up to a maximum of $16,500 in 2009. Any contributions made by the employee are immediately 100% vested along with the investment earnings. At year end there were 76 employees eligible to participate and fourteen employees were participating.

NOTE 5. SIGNIFICANT CONTINGENCIES, STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

Component Unit

Johnson County Public Health Center

The employees of the Center participate in The Georgia State Employees Retirement System. The plan is administered by the State of Georgia, and accumulated benefits and plan assets are not determined or allocated to the individual participating governmental entities. The retirement contributions for the year ended June 30, 2009, were $13,582. Contributions are fully vested to employees after ten (10) years of continuous service.

NOTE 6. PERMISSIVE SALES TAX

The County Commissioners, by resolution, imposed a one percent tax on all retail taxable sales made in the County. As required by State Statute, the County Commissioners established how the sales tax proceeds would be allocated. The sales tax proceeds are credited to special revenue funds. Part of the sales tax proceeds are used for new jail construction and the other proceeds are used for roads, streets and bridges. A receivable is recognized at year-end for amounts that will be receivable from sales in 2009. The total amount of special sales tax receivable at December 31, 2009 total $95,334.

NOTE 7. RECEIVABLES

Receivables at December 31, 2009, consist of accounts, sales taxes, motor vehicle taxes, mobile home taxes, property taxes and user charged services. All amounts due from other governments are considered collectible in full. The County's ambulance service fees have a 50% allowance for uncollectibles recorded. This allowance amount is $92,902. As director of the County's EMS, Washington County EMS has approved collections.

A summary of the principal amounts due from other governments follows:

Fund	Description	Amount
General Fund	Sales tax	$ 61,014
Special Revenue Funds		
SPLOST Jail Construction	Special Sales Tax	95,334
General Fund	Disaster funds	164,320
Total		$ 320,668

NOTE 8. CAPITAL ASSETS

Total depreciation expense - governmental activities	$ 333,314

NOTE 9. NOTES PAYABLE

The County entered into an installment sales agreement on December 30, 2005, with the Association County Commission of Georgia (ACCG) to build a new jail. Financing for this project is provided by SunTrust Leasing Corporation at a cost of $3,200,000. The County is to pay $23,718.15 a month for 119 months and a balloon payment of $1,310,645.37. The interest rate per annum on this agreement is 4.03%. The county may make one (1) prepayment of basic payments in part, in each calendar year, and may make prepayment of basic payments in whole at any time; provided, however, that partial prepayments will not result in the reamortization of the set payment schedule. Since the special purpose local option sales tax is levied for the purpose of paying the installment payments, the receipts in hand of such tax dedicated for such purpose shall be fully used to make prepayment of the basic payments at least every twelve months. The following is a summary of this year's activity on the note and the following nine years of maturities of principal and interest.

	Balance January 1, 2009	Additions	Reductions	Balance December 31, 2009
Suntrust Leasing Corporation	$ 2,705,212	$ -	$ 178,906	$ 2,526,306

On January 28, 2010, the County refinanced the installment sales agreement with Suntrust Leasing Corporation at an annual interest rate of 3.30%. At closing on January 28, 2010, the county made an extra $550,000 principal payment. According to repayment terms the County will make an extra principal payment of $430,265 on October 28, 2010, and one final payment of $33,712 in January 2014. Regular monthly payments excluding the extra principal payments totals $35,000.

Payments for year ending:

	Total Payments	Principal	Interest
December 31, 2010	$ 1,358,718	$ 1,297,779	$ 60,939
December 31, 2011	420,000	385,251	34,749
December 31, 2012	420,000	398,158	21,842
December 31, 2013	420,000	411,498	8,502
December 31, 2014	33,712	33,620	92
Total	$ 2,652,430	$ 2,526,306	$ 126,124

The above schedule does not include any prepayment penalties.

NOTE 10. INTERFUND BALANCES

Generally outstanding balances between funds are reported as due from/due to other funds. The due to and due from are current and involve no long–term receivables and payables. There are no interfund balances at 12-31-09.

NOTE 11. OTHER LONG-TERM LIABILITIES

Primary government:

Vacation benefits are accrued as a liability as benefits are earned if the employees right to receive compensation are attributable to services already rendered. The following is a schedule of vacation benefits payable during the year.

Compensated Absences Payable	
Beginning Balance	$ 14,834
Increases	15,011
Decreases	(14,834)
Ending Balances	$ 15,011
Current	$ 15,011
Long Term	$ -

In the past all compensated absences has been paid out of the general fund and the current amount is expected to be paid from the same fund.

NOTE 11. OTHER LONG-TERM LIABILITIES (CONTINUED)

Component unit:

The Johnson County Public Health Center has accumulated annual leave at June 30, 2009 totaling $5,413. The following is a schedule of annual leave payable during the year.

Compensated Absences Payable	
Beginning Balance	$ 5,413
Increases	-
Decreases	202
Ending Balances	$ 5,211
Current	$ 1,042
Long Term	$ 4,169

In the past all compensated absences has been paid out of the general fund of the health center and the current amount is expected to be paid from the same fund.

NOTE 12. RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The county has joined together with other municipalities in the state as part of the Georgia Municipal Association Group Self-Insurance Workers Compensation Fund and the Association County Commissioners of Georgia – Interlocal Risk Management Agency (ACCG-IRMA), public entity risk pools currently operating as a common risk management and insurance program for member local governments. The County pays an annual premium to the funds for its insurance coverage. The funds are owned by participating member municipalities and is to be self-sustaining through member premiums. The funds are to defend and protect members of the fund against liability or loss as prescribed in the member governments contracts and in accordance with the worker's compensation laws of Georgia. The agreement between the members of the public entity risk pool provides that members may be required to pay additional assessments as shall be established by the Board of the pool however, no additional assessments have been required of the members since formation of the pool.

NOTE 13. JOINT VENTURE

Under Georgia law, Johnson County, in conjunctions with other cities and counties in the eight county west central Georgia area, is a member of the Heart of Georgia Altamaha Regional Commission (RC) and is required to pay annual dues thereto. Membership in a RC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the RC in Georgia. The RC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a RC. Separate financial statements may be obtained from:

Heart of Georgia Altamaha Regional Commission
501 Oak Street
Eastman, Georgia 31023

NOTE 14. SANITARY LANDFILL CLOSURE AND POST-CLOSURE CARE COSTS

State and federal laws and regulations require Johnson County to place a final cover on its landfill sites when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and post-closure cash costs will be paid only near or after the date that the landfill stops accepting waste, the county reports a portion of these closure and post-closure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date.

The county received a closure certificate from the Georgia Department of Natural Resources on August 26, 1996. The county no longer accepts waste at the site and contracts waste management services to private entities.

Due to the competitive nature of the market which serves landfill monitoring and care and changes in inflation and technology, the estimated post-closure and closure care costs may fluctuate from year to year. There was no change in the estimated post-closure and closure care costs during the fiscal year ended December 31, 2009.

NOTE 15. CONTINGENCIES

There are no contingencies or threatened litigation that would have a material effect on the financial statements.

NOTE 16. CONDUIT DEBT

In 1999 the Johnson County Development Authority issued $2,500,000 Revenue Bonds dated April 15, 1999, for facilities used by a private corporation. These bonds have been transferred to First Commercial Bank, as trustee, to finance the acquisition, construction and installation of the project. The Development Authority, or the county, is not obligated in any way to pay debt charges on the bonds, and therefore; the debt has been excluded entirely from these financial statements. As of December 31, 2009, $-0- of these bonds were outstanding.

NOTE 17. INTERFUND TRANSFERS

The following is a schedule of transfers between funds:

	Transfers In		Transfers Out
General Fund	$ 11,000	Jail Fund	$ 11,000
General Fund	4,000	Drug Fund	4,000
Total	$ 15,000		$ 15,000

The purpose for most of these interfund transfers is to provide funds with sufficient funds for ongoing operations.

NOTE 18. SUBSEQUENT EVENTS

There are no events after December 31, 2009, that would have a material effect on the financial statements.

NOTE 19. FINANCIAL RESPONSIBILITY AND COMPLIANCE

Among those items over budget in the general government category include governing body, chief executive, Juvenile Court, Probate Court, and Public buildings. The County government was not expecting the governing body expenditures to be as high. As a result the county did not increase the budget. The juvenile court costs increased as court was held more often than ususal. For public buildings the county experienced higher than expected court house repairs.

Public Safety was over budget as a result of the cost of training and education. The jail continued to be overbudget as food costs, salaries, medical expense was higher than expected.

The recreation department was overbudget as repairs to property and buildings were made after the destruction from tornadoes that occurred in May 2008.

In surmmary the County should have amended the budgets to compensate for the increased expenditures in these groups.

NOTE 20. RESERVED FUND BALANCES

Primary government:

SPLOST - Roads, Streets, and Bridges	$	587,788
SPLOST - Jail Construction Debt		1,112,907
Jail Fund		15,576
Drug Fund		4,882
Multiple Grant Fund		-
Capital Projects Fund		147
Local Resources Fund		25,895
Law Library Fund		35,109
	$	1,782,304

NOTE 21. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Separate financial statements on the Johnson County Public Health Center may be obtained from:

Laurens County Board of Health
2121 Bellevue Road
Dublin, Georgia 31021

Separate financial statements are not issued on the Johnson County Development Authority and Johnson County Recreation Department and are included since they are component units.

Johnson County's policy for the use of restricted net assets where both unrestricted and restricted are available for an expense is to use the restricted net assets first before applying the unrestricted.

NOTE 22. COMPONENT UNITS

A. Johnson County Recreation Department

Basis of Accounting – The financial statements of The Johnson County Recreation Department have been prepared on the accrual basis of accounting and, accordingly, reflect all significant receivables, payables, and other liabilities. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect amounts reported in the financial statements. Actual results may differ from those estimates.

B. Johnson County Development Authority

Basis of Accounting – The financial statements of The Johnson County Recreation Department have been prepared on the accrual basis of accounting and, accordingly, reflect all significant receivables, payables, and other liabilities. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect amounts reported in the financial statements. Actual results may differ from those estimates.

C. Johnson County Public Health Center

Basis of Accounting – The financial statements of The Johnson County Recreation Department have been prepared on the accrual basis of accounting and, accordingly, reflect all significant receivables, payables, and other liabilities. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect amounts reported in the financial statements. Actual results may differ from those estimates.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Board of Commissioners
Johnson County, Georgia

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Johnson County as of and for the year ended December 31, 2009, which collectively comprise Johnson County's basic financial statements and have issued our report thereon dated June 9, 2010. Our report was modified to include a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards,* issued by the Comptroller General of the United States. Other auditors audited the financial statements of the Public Health Center as described in our report on Johnson County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and os of maturities of principal and interest.s to the County.□□□□□

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Johnson County’s internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Johnson County’s internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Johnson County's internal control over financial reporting.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity’s ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity’s financial statements that is more than inconsequential will not be prevented or detected by Johnson County's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Johnson County's financial statements are free of material missstatemnt, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our test disclosed no instances of noncompliance or other matters that are required to and reported under *Government Auditing Standard.*

This report is intended solely for the information and use of management and others within the entity, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON THE SCHEDULE OF SPECIAL PURPOSE LOCAL OPTION SALES TAX

Honorable Board of Commissioners
Johnson County
Georgia

We have audited the accompanying Schedule of Special Purpose Local Option Sales Tax for Johnson County, Georgia for the year ended December 31, 2009. This schedule is the responsibility of the Johnson County's management. Our responsibility is to express an opinion on the Schedule of Special Purpose Local Option Sales Tax based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule of Special Purpose Local Option Sales Tax is free of material misstatement. An audit includes examining, on a test basis evidence supporting the amounts and disclosures in the Schedule of Special Purpose Local Option Sales Tax. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Schedule of Special Purpose Local Option Sales Tax. We believe that our audit provides a reasonable basis for our opinion.

The accompanying Schedule of Special Purpose Local Option Sales Tax was prepared for the purpose of complying with the Official Code of Georgia Annotated, 48-8-121 on the basis of accounting used for the SPLOST schedule as described in note 1 and is not intended to be a complete presentation of Johnson County's revenues and expenditures.

In our opinion, the Schedule of Special Purpose Local Option Sales Tax referred to above presents fairly, in all material respects, the original estimated cost, the current estimated cost, and the current and prior year expenditures for each project in Johnson County's resolution or ordinance calling for the tax for the year ended December 31, 2009, in conformity with accounting principles generally accepted in the United States of America.
