INDEPENDENT AUDITOR'S REPORT

Marion County Board of Commissioners
Marion County, Georgia
Buena Vista, Georgia

Report on the Financial Statements

We have audited the accompanying basic financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Marion County, Georgia, as of and for the year then ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the Marion County's basic financial statements as listed in the table of contents. We did not audit the financial statements of the Marion County Department of Public Health. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it is related to the amounts included for the Marion County, Georgia, is based solely on the report of their auditors.

Management's Responsibility for the Financial Statements

Management is responsible for preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United

States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund , and the aggregate remaining fund information of Marion County, Georgia as of December 31, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued a report dated June 26, 2015 on our consideration of the Marion County, Georgia internal control over financial reporting and on tests of its compliance with certain provisions of laws, regulations, contracts, and grants. The purpose of that report is to describe the scope of our testing of internal controls over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal controls over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*, and should be read in conjunction with the auditor's report on financial statements.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was made for the purpose of forming an opinion on the financial statements that collectively comprise the Marion County, Georgia, financial statements. The combining and individual other fund financial statements are presented for purposes of additional analysis and are not a required part of the financial statements, and the supplemental information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

Summary of Significant Accounting Policies

A. Reporting Entity

Marion County, Georgia (hereinafter the County) a political subdivision of the state of Georgia, is governed by a five-member elected board of commissioners.

The accompanying financial statements report on the financial activity for Marion County, Georgia for the year ended December 31, 2014. The financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units.

The reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting of Marion County's financial statements to be misleading and incomplete.

For financial reporting purposes, in accordance with the criteria set forth in GASB 14, the County includes all funds over which the County exercises financial accountability. The Criteria used to determine financial accountability is evidenced by the following:

1. Ability to impose will on an organization by being able to significantly influence the programs, projects or activities of, or the level of services performed or provided by, the organization.

2. Financial benefit to or burden on primary government including responsibility for financing debts, entitlements to surpluses and guarantees or moral responsibility for debt.

3. Fiscal dependency for matters including authority over funds and budgetary appropriations.

4. Ability of primary government to appoint a voting majority of an organization's governing body.

The Governmental Accounting Standards Board (GASB) has issued Statement No. 34. This Statement establishes new financial reporting requirements for state and local governments throughout the United States. Its implementation creates new information and restructures much of the information that governments have presented in the past.

The GASB's intent is to make annual reports more comprehensive and easier to understand.

GASB 34 takes effect for entities the size of Marion County, Georgia during the fiscal year ending December 31, 2004. Some of the more significant changes in GASB Statement 34 incurred:

Summary of Significant Accounting Policies

A. Reporting Entity (Continued)

1. The presentation of a government-wide statement of net assets that includes infrastructure (roads, bridges, etc.) and all debt.

2. The presentation of current and accumulated depreciation by activity.

3. The presentation of a government-wide statement of activities using full accrual accounting.

4. The presentation of the original adopted budget as well as the final amended budget in the budgetary comparison statements.

Legally separate entities, over which the County exercises financial accountability, whose operations are, in substance, part of the County's operations are blended or combined with data from the County.

Entities, over which the County exercises financial accountability, whose operations are distinct from those of the County are discretely presented in a separate column in the government-wide financial statements.

Included for financial reporting purposes using these criteria are:

COMPONENT UNITS
In evaluating how to define the County for financial reporting purposes, management has considered all potential component units. The criteria set forth in GAAP and GASB number 14 are used to determine any potential component units. The basic, but not the only, criteria for including a potential component unit within the reporting entity is the governing body's ability to exercise financial accountability is the appointment of a voting majority of the component unit's board (simple accountability). Other criteria used to evaluate potential component units for including or exclusion from the reporting entity is ability to impose its will, the existence of financial benefit or burden, the fiscal dependency and designation of management.

In accordance with the above criteria the County has determined that the Marion County Board of Health and the Marion County Hospital Authority should be included as a discretely presented component unit. It is presented in a separate column to emphasize that it is legally separate from the County and has a fiscal year end of June 30, 2014. Separately audited basic financial statements may be obtained from the County Commissioners office or the Health Department and the Marion County Hospital Authority.

Excluded from financial reporting using this criteria are:

1. River Valley Regional Commission

2. There are various other related organizations for which the County appoints board members but has no further accountability.

Summary of Significant Accounting Policies

B. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

On the government-wide statement of net assets and statement of activities, both governmental and business-type activities are presented using the economic resources measurement focus. However, in the fund financial statements, the measurement focus differs by fund types as follows:

> All governmental funds are accounted for using a current financial resource measurement focus. Within this measurement focus, only current assets and liabilities generally are included on the balance sheet. Operating statements of these funds present sources/increases (i.e., revenues and other financing sources) and uses/decreases (i.e., expenditures and other financing uses) of available spendable financial resources during a given period. These funds used fund balances as their measurement of available spendable financial resources at the end of the period.
>
> Agency funds are not involved in the measurement of results of operations; therefore no measurement focus is applied to agency funds.

In the government-wide statement of net assets and statement of activities, both governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized as soon as they are earned, and expenses are recognized when the liability is incurred or the economic asset used. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange occurs.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized in the accounting period when they become "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within 60 days after year-end and available to pay obligations of the current period. Expenditures, including capital outlay, are recognized in the accounting period in which the related fund liability is incurred.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

All proprietary and fiduciary funds are accounted for on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Summary of Significant Accounting Policies

B. Measurement Focus and Basis of Accounting (Continued)

Differences exist between the governmental activities columns reported in the government-wide statements and the corresponding total columns reported in the fund financial statement. The differences are the result of the use of the two different measurement focuses between these statements. As stated above, the government-wide statements present governmental activities on the economic resources measurement focus while the fund financial statements present governmental funds on the current financial resources measurement focus. Additional detailed information about the reconciling items can be found on pages 6 and 8.

C. Basis of Presentation

The government-wide financial statements (i.e., the statement of net assets and statement of activities) display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. These statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other non exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The fund financial statements reflect the activities of the County's individual funds. Funds are organized into three categories: governmental, special revenue and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the County (i.e., the general fund) or meets the following criteria:

a. Total assets, liabilities, revenues or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and

b. Total assets, liabilities, revenues or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The County has elected to apply Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989 in the government-wide financial statements unless those pronouncements conflict with or contradict GASB pronouncements, in which case GASB prevails.

As a general rule, the effects of internal activity have been eliminated from the government-wide statements. Exceptions to this general rule are administrative charges between the County's general fund and special revenue funds. Elimination of these charges would distort the direct costs and program revenues for the various functions concerned.

Summary of Significant Accounting Policies

C. Basis of Presentation (Continued)

Program revenues are derived directly from a particular program or from parties outside the County's taxpayers or citizenry. Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions and 3) capital grants and contributions. All taxes are included in general revenues.

Proprietary funds distinguish operating revenues and expenses from non operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. Operating expenses include costs of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non operating revenues and expenses and typically include interest revenue and expense.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted first, then unrestricted resources as they are needed.

Columnar Headings and Description of Funds

The County uses funds to report financial position and the results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

The County reports the following major governmental funds:

General Fund- The general fund is the County's primary operating fund and is always classified as a major fund. It accounts for all financial resources of the general governmental, except those required to be accounted for in another fund.

Special Sales Tax 2010- On November 4, 2008 voters in Marion County approved an additional special 1% sales tax provision for a special sales tax to be imposed for the purpose of being used for roads, streets and bridges, water and sewer projects and emergency medical services. It is to be imposed for six years. The total is not to exceed $8,000,000. The tax was imposed in April 2009. During 2014, $408,033 was collected; $154,604 was transferred to the City of Buena Vista.

Summary of Significant Accounting Policies

C. Basis of Presentation (Continued)

The County reports non-major governmental funds:

Other Governmental Funds- Proceeds received from additional fines for certain activities regarding marijuana, controlled substances, and non-controlled substances are restricted for expenditures for drug treatment and education. During 2014, $3,131 was collected and deposited in an interest-bearing account from such fines. These funds are being expended as required by law.

The County reports the following major proprietary fund:

The *Public System Fund* accounts for the water and sewage services provided by the County. Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Government Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services or privileges provided, and 2) operating grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

The proprietary fund distinguishes *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges to customers for sales and services. Operating expenses for the enterprises fund includes the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are report as non-operating revenues and expenses.

Additional funds were received from a 10% penalty imposed under the Jail Construction and Staffing Act which authorizes counties to impose a penalty for all fines and forfeited bail or bond for any offense against a state criminal or traffic law. These funds are required to be placed in a jail fund for use in staffing and jail repair as required. During 2014, $8,091 was collected from these funds and placed in an interest bearing account. These funds could be accounted for in the general fund, but the County has elected to account for these funds separately to assure that they are properly expended.

Summary of Significant Accounting Policies

C. Basis of Presentation (Continued)

Proprietary Fund Type- Proprietary funds are accounted for using the economic resources measurement focus; the accounting objectives are determination of net income, financial position, and cash flows. All assets and liabilities associated with a proprietary fund's activities are included on its balance sheets. Proprietary fund equity is segregated into contributed capital and retained earnings.

Additionally, the County reports the following fund types:

Fiduciary Funds - Account for assets held, as an agent, for individuals, private organizations, other governments and other funds.

D. Budget and Law Practice

The County Clerk submits an annual budget to the Commissioners prior to the beginning of each fiscal year. The Commissioners adopt annual fiscal year appropriated budgets for County operating funds. These include the General and Special Revenue Funds. Once approved, the Commissioners may amend the legally adopted budget when unexpected modifications are required in estimated revenues and appropriations.

The level of budgetary control is the department level.

The budgets for the operating funds are prepared on the modified accrual basis.

Revenues are budgeted in the year receipt is expected; and expenditures, which include accounts payable are budgeted in the year that the applicable purchase orders are expected to be issued. The budget and actual financial statements are reported on this basis.

Budgetary Control

Each fund's appropriated budget is prepared on a detailed line item basis. Revenues and expenditures are budgeted by source. All budget revisions are subject to final review by the Commissioners.

The budget is not incorporated into the accounting system; however, it is used and compared to actual receipts and disbursements to insure fiscal responsibility.

There were no areas where expenditures were in excess of appropriated budgeted amounts. There are various reasons for this, all of which the County is aware of. The general fund expenditures were below budgeted amounts by $228445. See Financial Statements (page 9).

Summary of Significant Accounting Policies

D. Budget and Law Practice (Continued)

The nature of these funds lends itself to budget variances. The excess expenditures were funded with prior year's cash.

County Commissioners are aware and have approved the variances; however, the budget was not formally amended.

E. Encumbrances

Encumbrance accounting is not used by Marion County. As December 31, 2014 there were no material encumbrance type items outstanding.

F. Inventory

Expendable supplies are recorded as expenditures at the time items are purchased. The County does not record inventories of supplies on the books due to immateriality.

G. Accounts Receivable

These are amounts paid by Marion County which are to be reimbursed during the next fiscal year. The amount is considered fully collectible.

H. Property Taxes Receivable and Property Tax Calendar

Property taxes receivable are uncollected property taxes as of December 31, 2014, but were collected by February 28, 2015. Total amount collected from January 1, 2015 to February 28, 2015 is $335,759.

Property taxes attach as an enforceable lien on property. The tax lien date is January 1, taxes are levied on October 1, and payable on December 20. The County bills and collects its own property taxes as well as taxes for the State and County School District. Collections of the county taxes and remittance of them to the County are accounted for in the Tax Commissioners Agency Fund.

I. Accumulated Unpaid Vacation, Sick Pay, and other Employee Benefit Amounts

Accumulated unpaid sick pay and other employee benefit amounts are not accrued in governmental funds (using the modified accrual basis for accounting.) At December 31, 2014 unrecorded liabilities included approximately $-0- in vacation pay.

J. Accounts Payable and Accrued Expense

These are amounts due or accrued as of December 31, 2014.

Summary of Significant Accounting Policies

K. Cash and Investments

At December 31, 2014, the bank account balances totaled $3,662,703. Cash and time deposits include amounts in demand deposits, passbook savings as well as certificates of deposits. All cash is separately held and reflected in its respective fund. Cash equivalents are short term, highly liquid investments with a maturity date of three months or less that can be converted to known amounts of cash.

County's deposits policy limits deposit choices to checking accounts, money market accounts and certificates of deposits with local banks. All deposits are to be secured as required by state statutes. The state statutes requires the deposits to be secured at an amount equal to the total deposits less FDIC insurance, and then multiplied by 110 percent.

The County's investment policy limits investment choices to investments complying with state statutes. These investments are limited to obligations of states, obligations issued by the U.S. government, obligations fully insured or guaranteed by the U.S. government, or by a government, the local government investment pool established by state law and obligations of other political subdivisions of the State of Georgia.

The Georgia Fund one state investment pool is managed under the policies included in Georgia Law (O.C.G.A 36-83-4). The entire portfolio, including the Government's pro-rata portion, consists of collateralized certificates of deposit and government or governmental agency securities owned outright and under agreement to resell. The title to all investments, including collateral pledged to secure certificates of deposit, is held in the custody of the Directors Fiscal Division, Office of Treasury and Financial Services, State of Georgia in accordance with Georgia law. This is not a SEC-registered investment pool; the fair value, 28 day weighted average method, of the position in the pool is the same as the value of pool shares. At December 31, 2014, the County had $1,445,605 invested in Georgia Fund One. Standard & Poor's assigns its 'AAAm' money market rating to Georgia Fund 1.

Deposits: Custodial credit risk is the risk that in the event of a bank failure, the County's deposits may not be returned to it. The County has a deposit policy for custodial risk.

L. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (i.e., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business type activities column in government-wide financial statements. Capital assets are defined by the County as assets with an initial cost of $5,000 or more and an estimated life of more than one year. All capital assets (governmental and proprietary) are valued at historical cost or estimated historical cost if actual cost is not available. Donated capital assets are valued at their fair market value when donated. Interest costs on debt incurred for the construction of capital assets are capitalized net of interest earned on the invested proceeds of construction debt over the same period. Major improvements that extend the life of an asset are capitalized.

L. CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2014 was as follows

	Balance Jan. 1	Additions Completions	Retirements Adjustments	Balance December
Governmental Activities;				
Capital assets not being deprec.				
Land	$ 126,006	$ 0	$ 0	$ 126,006

Business-type activities assets, net	$ 10,065,777	$ (317,899)	$ 0	$ 9,747,878

Summary of Significant Accounting Policies

L. Capital Assets (Continued)

Capital asset activity for the year ended December 31, 2014 was as follows:

Depreciation by Class:		Propriety Fund:	
General Government			
General Government	$ 3,690	Equipment & Vehicles	$ 4,650
Public Safety	15,055	Plant	313,249
Health & Welfare	30,636		
Public Works	16,242		
Cultural and Recreation	1,043		
Total:	$ 66,666		$ 317,899

Normal maintenance and repairs are charged to expense as incurred. Preliminary and interim costs incurred by governmental and proprietary funds for capital projects are reported as "construction in progress." Costs related to abandoned projects are expensed when the project is abandoned.

The County has recorded all infrastructure assets acquired subsequent to October 1, 2003 and is currently reviewing its infrastructure to ensure that all such assets are recorded before the phase-in date for retroactive general infrastructure reporting under Governmental Accounting Standards Board Statement.

Capital assets are depreciated over their estimated lives for both General Government and Proprietary fund using the straight-line method as follows:

Asset Class	Estimated Useful Lives
Furniture and Fixtures	5 to 7 Years
Machinery and Equipment	5 to 15 Years
Buildings	20 to 50 Years
Plant	15 to 40 Years
Infrastructure	50 Years

The county made an inventory of its governmental activities capital assets at September 30, 2003. Capital assets were adjusted for this inventory and for a change in its capital asset policy. Because of the above, governmental activities capital assets at December 31, 2003 will not agree with the previously released financial statements for December 31, 2003.

Long Term Debt

Phase 1 - Water Fund Construction - Proprietary Fund

The first phase of Marion County Water Fund Project was completed in 1994, in which Marion County received a $400,000.00 grant from the Department of Community Affairs.

Summary of Significant Accounting Policies

Long Term Debt (Continued)

The United States Department of Agriculture, Farmers' Home Administration, made grants of $1,453,400 during 1994 and 1995 toward Phase 1 of this project. A loan of $558,100 was made by Farmers' Home Administration to finance the construction of the first phase of the water works facility at 5% interest. This loan was financed by the issuance of Marion County Water System Revenue Bonds, Series 1994A, in the principle amount of $505,100 for the acquisition, construction, and installation of the County's water system and the issuance of $53,000 Series 1994B Marion County Water System Revenue Bonds for the purpose of financing the cost of acquisition, construction, and installation of additions to the water system. Balance as of December 31, 2014 is $354,888 and $37,128.

Marion County Water System Sinking Fund

A special trust fund to be known as the "Marion County Water System Sinking Fund" is to be created within the water fund. Two accounts will be created in the sinking fund.

(1) A Debt Service Account to which deposits of $2,719.00 are to be made monthly to fund the principal and interest on the bonds coming due in the current sinking fund year on the Series 1994A and B bonds. As parity bonds are issued, this monthly payment will be increased to meet the principal and interest payments on the parity bonds.

(2) A Debt Service Reserve Account of funds of a minimum of ten (10%) percent of monthly installment of principal and interest on the bond must be deposited to the bond reserve fund. This reserve fund monthly deposits are to be made until the fund has accumulated an amount equal to that needed to pay the principal and interest on the bonds for the next succeeding year. This debt service reserve requirement means $32,620 (which consists of $29,520 (the maximum annual principal and interest payments) of the Series 1994A Bonds] and $3,108.00 (the maximum annual principal and interest payments of the Series 1994B Bonds) or from and after the date of issuance of any Parity Bonds, $32,628 plus the maximum annual principal and interest payment on each parity bond issued and outstanding. As of December 31, 2014, the Water Fund has cash funds of $32,628 deposited in the account and $0 shortage.

Phase II -Water Fund Construction

On August 17, 1998, Marion County approved the issuance of Marion County Water System Revenue Bond, Series 1998, in the principal amount of up to $1,236,490 for the purpose of financing the cost of Phase II Construction cost of the County Water System. The bond issued will be payable from a first lien on the net revenue of the County's water system. The bonds were issued in January, 1999, with payments to begin in January of 2000. The first payment was interest only. These bonds were purchased through the United States Department of Agriculture and bear interest at the rate of 4.5%.

Long Term Debt (Continued)

Phase II - Water Construction

These funds, with federal grants made available through the United States of America, acting through the Rural Development, United States Department of Agriculture for assistance provided through the Consolidated Farm and Rural Development Act (7 U.S.C. 192 et.seq.), as amended, will provide the needed funds for financing of the improvements. A grant of $3,574,470 was received during the construction of this phase of the water fund project from the United States Department of Agriculture, along with a grant from the Department of Community Affairs of $500,000. Phase II of the water fund project was completed in December of 1999.

A Debt Service Fund was created which requires funds to be credited to the sinking fund until $67,368.00- has been credited to the account to cover the principal and interest on the Parity Bonds for one year.

The first payment on the Bonds was made in January 2000, and was for interest only of $55,642.05. All payments thereafter will be made monthly of both principal and interest of $5,614.00.

A payment of $5614 per month is being made to the Debt Service Reserve Account until the Debt Service Fund is fully funded. As of December 31, 2014, $67,368 has been deposited in the account. There is shortage of $0.

The date of closing on the Bonds was January 14, 1999.

The balance as of December 31, 2014 is $987,624.

Phase III - Water Fund Construction

A Debt Service Fund was created as required which requires funds to be credited to the sinking fund until $118,740 has been credited to the account to cover the principal and interest on the Parity Bonds for one year. As of December 31, 2014, $74,884 has been deposited in the account. This is a shortage of approximately $44,000.

A payment of $990 per month is being made to the Debt Service Reserve Account until the Debt Service Fund is fully funded.

The first payment on the Bonds was made in January 2006, and was for interest. All payments thereafter will be made monthly of both principal and interest of $9,895.

Interim financing in the amount of $2,051,847 for the Bonds was provided by Columbus Bank and Trust at 70% of prime rate. Interest was charged only on the amount drawn down to finance construction as it progresses. Interest of $29,324.69 was paid on this interim financing. The loan was closed on 12-22-05.

The balance as of December 31, 2014 is $2,040,786.

Pension Plan

The County sponsors the Association County Commissioner's of Georgia Restated Pension Plan for Marion County Employees (The Plan), which is a defined benefit pension plan.

The Plan provides retirement, disability, and death benefits to participants and beneficiaries. The Plan, through execution of the adoption agreement, is affiliated with the Association County Commissioners of Georgia Third Restated Defined Benefit Plan (The ACCG Plan), an agent multiple- employer pension plan, administered by GEB Corp. The ACCG Plan, as provided in Section 19.03 of the ACCG Plan document.

The County has the authority to amend the adoption agreement, which defines the specific benefit provisions of The Plan, as provided in Section 19.02 of the ACCG Plan document and is available upon request to 1100 Circle 75 Parkway, Suite 300, Atlanta, Georgia 30339:

The County sponsors the Association County Commissioner's of Georgia Restated Pension Plan For Marion County Employees (The Plan), which is a defined benefit pension plan.

The Plan provides retirement, disability, and death benefits to participants and beneficiaries. The Plan, through execution of the adoption agreement, is affiliated with the Association County Commissioners of Georgia Third Restated Defined Benefit Plan (The ACCG Plan), an agent multiple-employer pension plan, administered by GEB Corp. The ACCG Plan, as provided in Section 19.03 of the ACCG Plan document.

Funding Policy: The County is required to contribute an actuarially determined amount annually to the Plan's trust. The current rate is 8.1% of the annual covered payroll. The contribution amount is determined using actuarial methods and assumptions approved by the ACCG Plan trustees and must satisfy the minimum contribution requirement contained in the State of Georgia statutes. Active members are not required to make contributions.

Annual Pension Cost: The County's annual pension cost and net pension obligation for the pension plan for the current year were determined as follows:
Derivation of Net Pension Obligation.

Litigation

Marion County is a defendant in some lawsuits and the outcome of those suits, in the opinion of the county's attorney, will not have an adverse effect on the financial condition of the county.

Contingent Liabilities

(A) Risk Management

The County is exposed to various risks of losses related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County maintains commercial insurance coverage insuring each of the above risks of loss. Management believes that the coverage is adequate to preclude any significant uninsured risk exposure to the County. Marion County carries its liability insurance with the Baldwin Agency with policy issued by National Union Fire Insurance Company of Pittsburgh, Pennsylvania.

Pursuant to Title 34, Chapter 9, Article 5 of the Official Code of Georgia Annotated, Marion County became a member of the Georgia Municipal Association Workers' Compensation Self Insurance Fund. The effective date of membership was December 1, 1982.

The County of Marion carries its workman Compensation Insurance with the Workman Comprehensive Self Insurance Fund.
The County of Marion has the following responsibilities:

To pay all contributions, assessments or other sums due to WCSIS at such times and in such amounts as shall be established by WCSIS.

To select a person to serve as a Member representative.

Summary of Significant Accounting Policies

To allow WCSIS and its agent's reasonable access to all facilities of the County and all records, including but not limited to financial records, which relate to the purposes of WCSIS.

To allow attorneys appointed by WCSIS to represent the County in investigation, settlement discussions and all levels of litigation arising out of any claim made against the County within the scope of loss protection furnished by the Fund or Funds established by WCSIS.

To assist and cooperate in the defense and settlement of claims against the County.

To furnish full cooperation to WCSIS's attorneys claims adjusters, Service Company, and any agent, employee, officer or independent contractor of WCSIS relating to the purposes of WCSIS.

To furnish to WCSIS such budget, operating and underwriting information as may be requested.

To report as promptly as possible, and in accordance with any coverage description issued, all incidents which could result in WCSIS or any Fund established by WCSIS being required to pay claim for loss or injuries to municipal property or injuries to persons or property when such loss or injury is within the scope to the protection of a Fund or Funds in which the County participates.

The Fund is to defend, in the name of and on half of the members, any suites or other proceedings which may at any time be instituted against them on account of injuries or death within the preview of the Worker's Compensation Law of Georgia, or on the basis of employer's liability, including suits or other proceedings alleging such injuries and demanding compensation therefore, although such suits, other proceedings, allegations or demands be wholly groundless, false, or fraudulent.

The Fund is to pay all costs taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense. Marion County must pay all contributions, assessments, and other sums due and in such amounts as shall be established by the Georgia Municipal Association Worker's Compensation Self Insurance Fund.

Settled claims in the past three years have not exceeded the coverage.

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

Summary of Significant Accounting Policies

Contingent Liabilities (continued)

(B) Marion County Landfill

The use of the Marion County Landfill was discontinued June 28, 1991, and is no longer in operation. The Marion County Board of Commissioners determined at that time the future cost of monitoring, maintaining and closing the landfill to meet the new regulations imposed by the State and Federal agencies would not be cost-efficient to the citizens of Marion County.

Marion County now contracts with Southern States Environmental Service to dispose of solid wastes.

Marion County is in the Post Closure Care Phase. Since Marion County ceased to accept waste before October 8, 1993, a five-year post closure care was authorized by the Georgia Department of Natural Resources. The Director of the Division has the authority to extend the post-closure period when necessary. On March 12, 2008, the Director extended the post-closure period. During 2014, $4,525 was expended to monitor the groundwater.

(C) Component Unit - Marion County Hospital Authority

In prior years, the Authority received Hill-Burton funds to be applied toward the construction and additions to the Hospital. These agreements state that, if at any time within twenty years after completion of the construction of the facilities, the facilities are sold or transferred to any person, agency, or organization, which is not qualified to file an application under the Hospital Survey and Construction Act, or is not approved as a transferor by the Georgia Board of Health, or has ceased to be a nonprofit Hospital, the United States shall be entitled to recover from either the transferor (or, in case the Authority ceases to be a nonprofit organization, from the owner thereof) the contributed percentage of the then value the Authority as determined by agreement of the parties or by action brought in the District Court of the United States for the District in which the Authority is located.

However, under the lease agreement with the Marion Community Hospital, Inc., expenses incurred by the Authority because of the lease contract are to be paid by the Marion Community Hospital, Inc.

(D) Jointly Venture

The Georgia Department of Audits has determined that the River Valley Regional Commission is a joint venture under Georgia Law, O.C.G.A. 20-5-40.

Marion County participates in the support of the River Valley Regional Commission. Marion County contributed to the River Valley Regional Commission operating budget in 2012. Membership in an RVRC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the RVRC in Georgia. Marion County

Summary of Significant Accounting Policies

Contingent Liabilities (continued)

has one commissioner and an appointed citizen of the County to represent Marion County on the board of River Valley Regional Commission who assist the counties and governments in grants and loan applications to support government capital improvements and operating projects within the counties and cities. The RVRC membership included the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of an RVRC.

Summary of Significant Accounting Policies
Contingent Liabilities (continued)

The major source of the Development Corporation operational costs is financed through administration charges for grants and loan applications.

Complete financial statements for the River Valley Regional Commission may be obtained from the River Valley Regional Commission, 228 W. Lamar St. Americus, Georgia, 31709.

Subsequent Events

Subsequent events have been evaluated through June 26, 2015, which is the date these financial statements were available to be issued.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTER BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Marion County Board of Commissioners
Marion County, Georgia
Buena Vista, Georgia

We have audited the governmental activities, the business type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information as of and for the year ended December 31, 2014, and have issued our report thereon dated June 26, 2015. We did not audit the financial statements of the Marion County Department of Public Health which was audited by other auditors whose report has been furnished to us and our opinion as it relates to those amounts is based solely on the reports of other auditors. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Marion County, Georgia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Marion County, Georgia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Marion County, Georgia's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal

control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as identified above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Marion County Georgia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Marion County, Georgia has not made adequate deposits to bond sinking funds as required in the Farmers Home Administration bond agreements. As of December 31, 2014, the shortfall totaled approximately $44,000. Marion County, Georgia is making monthly deposits into the bond sinking fund.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, the communication is not suitable for any other purpose.

HERBERT E. ALLEN CPA

INDEPENDENT AUDITOR'S REPORT ON THE SCHEDULE OF SPECIAL PURPOSE LOCAL OPTION SALES TAX

We have audited the accompanying Schedule of Special Purpose Local Option Sales Tax for Marion County, Georgia for the year ended December 31, 2014. This schedule is the responsibility of Marion County, Georgia's management. Our responsibility is to express an opinion on the Schedule of Special Purpose Local Option Sales Tax based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule of Special Purpose Local Option Sales Tax is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the Schedule of Special Purpose Local Option Sales Tax. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Schedule of Special Purpose Local Option Sales Tax. We believe that our audit provides a reasonable basis for our opinion.

The accompanying Schedule of Special Purpose Local Option Sales Tax was prepared for the purpose of complying with the Official Code of Georgia Annotated 48-8-121 on the modified accrual basis of accounting and is not intended to be a complete presentation of Marion County, Georgia's revenues and expenditures.

In our opinion, the Schedule of Special Purpose Local Option Sales Tax referred to above presents fairly, in all material respects, the original estimated cost, the current estimated cost, and the current and prior year expenditures for each project in Marion County, Georgia's resolution or ordinance calling for the tax for the year ended December 31, 2014, in conformity with accounting principles generally accepted in the United States of America.

GREG S. GRIFFIN
STATE AUDITOR

March 21, 2016

Dear Chief Elected Official:

We have reviewed the following information submitted to our office for Marion County for the fiscal year ended December 31, 2014. This letter summarizes the results of our review of your original corrective action plan.

Corrective Action Plan

We have reviewed the corrective action plan. As a result of our review, **we have determined that the corrective action plan meets the requirements specified in the O.C.G.A.** As a reminder, *Government Auditing Standards* issued by the Comptroller General of the United States require auditors to follow up on known material findings and recommendations from previous audits and determine whether timely and appropriate corrective action has been taken. In addition, the status of uncorrected material findings and recommendations from prior audits that affect the financial statement audit should be reported. Much of the benefit from audit work is not in the findings reported or the recommendations made, but in their effective resolution. Entity management is responsible for resolving audit findings and recommendations, and having a process to track their status can help it fulfill this responsibility.

Department Contact

If you have any questions regarding the review process, please contact Cathy Fredette by telephone at (404) 651-5399 or by email at fredette@audits.ga.gov.

Sincerely,

Russel Clarke
Director
