INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners
Wilkinson County, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Wilkinson County, Georgia as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Wilkinson County Board of Health and the Development Authority of Wilkinson County, Georgia, major component units, whose statements reflect assets constituting 2 percent and 10 percent, respectively, of total assets at September 30, 2014, and revenues constituting 4 percent and 1 percent, respectively, of total revenues for the year then ended. Those financial statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Wilkinson County Board of Health and the Development Authority of Wilkinson County, Georgia, is based on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Wilkinson County, Georgia, as of September 30, 2014, and the respective changes in financial position, the respective budgetary comparison for the General Fund and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on pages 10 to 13 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis that accounting principles accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Wilkinson County, Georgia's basic financial statements. The combining and individual nonmajor fund financial statements, Schedule of Expenditures of Special Purpose Local Option Sales Tax and the Schedule of Expenditures of Federal Awards, as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, Schedule of Expenditures of Special Purpose Local Option Sales Tax and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, Schedule of Expenditures of Special Purpose Local Option Sales Tax and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 15, 2015, on our consideration of Wilkinson County, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Wilkinson County, Georgia's internal control over financial reporting and compliance.

Very truly yours,

TJS Deemer Dana LLP

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED SEPTEMBER 30, 2014

Net change in fund balances - total governmental funds	$ (1,335,777)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Capital outlays, reported as expenditures in governmental funds, are shown as capital assets in the Statement of Net Position.	1,700,766
Depreciation expenses on governmental capital assets are included in the governmental activities column in the Statement of Net Position but are not shown in the governmental funds.	(782,804)
Bond issuance costs are reported in the government-wide statement of activities, but do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	(10,469)
Post employment pension benefits are reported in the government-wide statement of activities, but do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	(5,288)
Other post employment benefits are reported in the government-wide statement of activities, but do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	(20,522)
In the Statement of Activities, only the gain on the disposal of capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differs from the change in fund balance by the cost of the assets disposed of.	(278,769)
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	
Accrued interest payable	4,736
Compensated absences	(3,604)
Repayment of long-term debt is reported as an expenditure in the governmental funds, but as a reduction of long-term liabilities in the Statement of Net Position.	735,000
Revenues in the statement of activities that do not provide financial resources are not reported as revenues in the funds. The amount of deferred revenues recognized as revenue in the statement of activities is as follows:	
Property taxes	2,841
Other revenues	58,493
Change in net position of governmental activities	$ 64,603

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Wilkinson County, Georgia (the County) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to Government units. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements. The more significant accounting policies established in GAAP and used by the County are described below.

A. Reporting Entity

The County is a local municipality governed by an elected five-member Board of Commissioners. As required by generally accepted accounting principles, these financial statements present the government and its component units, entities for which the County is considered to be financially accountable.

Blended component units, although legally separate entities, are in substance part of the governments operations. The component unit column in the government-wide financial statements (see note below for description) includes the financial data of the County's discretely presented component units. Each discretely presented component unit is reported in a separate column to emphasize it is legally separate from the County.

Component Units and Related Entities

Blended Component Unit -

The Wilkinson County Law Library, an entity separate from the County, is governed by a Board of Trustees. For financial reporting purposes, the Law Library is reported as if it were part of the County's operations because it functions primarily for the courts of the County. The Law Library does not issue separate financial statements. All property purchased with funds expended by the Law Library become the property of Wilkinson County.

Discretely Presented Component Units:

- **Wilkinson County Development Authority** – The Wilkinson County Commissioners appoint the members for the Authority. The Authority is charged with promoting and expanding industry and trade within Wilkinson County. The Authority receives revenue from appropriations from the County. The Authority has a fiscal year ended December 31, 2013. The Authority is fiscally dependent on the County. Complete financial statements can be obtained from the Wilkinson County Clerk.

  Irwinton, GA 31042

- **Wilkinson County Health Department** - The Wilkinson County Public Health Center (the Center) provides various health services for citizens in Wilkinson County under a contract with the Georgia Department of Human Resources (DHR). The Wilkinson County Commissioners appoint the majority of the members for the governing body of the Center.

  The County Commissioners have the authority to remove appointed members of the governing board at will, and the power to disapprove the Center's operating budget. The Center receives revenue through a contractual agreement with DHR as well as from Wilkinson County, Georgia. The Center has a fiscal year ended June 30, 2014.

  Complete financial statements can be obtained at the entity's administrative office.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities* are supported by taxes and intergovernmental revenues and are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customer or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the *economic resources measurement* focus and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they will be collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the Government.

The County reports the following major governmental funds:

The *General Fund* is the general operating fund of Wilkinson County, Georgia. It is used to account for all financial resources of the general government, except those required legally or by sound financial management to be accounted for in another fund.

The 2007 *SPLOST Fund* accounts for the accumulation of SPLOST proceeds and payment of general obligation bond principal and interest.

Additionally, the County reports the following fund types:

The *Special Revenue Funds* account for revenue sources that are legally restricted to expenditure for specific purposes. The following Special Revenue Funds are used by Wilkinson County, Georgia: Drug Abuse Education, Family Connection, Law Library, Law Enforcement Confiscation, Emergency 911 and the Jail Fund.

The *Capital Projects Funds* account for the acquisition of fixed assets or construction of major capital projects not being financed by proprietary or nonexpendable trust funds. The following Capital Projects Funds are used by the County: Special Purpose Local Option Sales Tax 2003, Special Purpose Local Option Sales Tax 2013, LMIG and Balls Ferry.

The *Agency Funds* are custodial in nature and do not present results of operations or have a measurement focus. Agency funds are accounted for using the modified accrual basis of accounting. These funds are used to account for assets that the Government holds for others in an agency capacity.

GASB 34 eliminates the presentation of *Account Groups*, but provides for these records to be maintained and used to account for capital assets and long-term liabilities that are not reflected on the balance sheet of Governmental type funds due to the current financial resources measurement focus that they use.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

Governmental activities have been consolidated in the government-wide financial statements. Total governmental funds have been combined with general fixed assets and long term liabilities. The effect of interfund activity has been removed from the government-wide financial statements. Due to/from other funds have been eliminated as well as operating transfers between funds. Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Non-operating revenues and expenses are revenues and expenses associated with items that are not connected with a proprietary's fund principal ongoing operations.

When both restricted and unrestricted resources are available for use, it is the Government's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities and Net Position or Equity

1. ***Deposits and Investments*** - Cash includes amounts in both interest-bearing and non-interest-bearing demand deposits. State statutes authorize the Government to invest in obligations of the U.S. Treasury, obligations of the State of Georgia or any other states, obligations fully insured or guaranteed by the United States government or governmental agency, Local Government Investment Pool, commercial paper, corporate bonds, obligation of other political subdivisions of the State of Georgia, and repurchase agreements. Any bank deposit in excess of the total FDIC insured amount must be secured by an equivalent amount of State or U.S. obligations. Investments are recorded at cost or amortized cost plus accrued interest, which approximates market value.

   For purposes of the statement of cash flows, the proprietary funds consider all highly liquid investments with maturity of three months or less when purchased to be cash equivalents.

2. ***Receivables and Payables*** - During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. The current portion of these interfund receivables and payables are classified as "due from other funds" or "due to other funds" in the governmental funds.

   Property tax receivables are shown net of an allowance for uncollectibles. The property tax receivable allowance is equal to 20 percent of outstanding property taxes at September 30, 2014. Property taxes are levied as of January 1 on property values assessed as of the same date.

3. ***Prepaid Items*** - For prepaid expenditures in the government-wide and fund financial statements, the County reports the expenditures during the benefiting period.

4. ***Inventories*** – Inventories of expendable supplies held for consumption are not considered material and are recorded as expenditures, or expenses, as appropriate, when purchased. Inventory in the General Fund consists of fuel, which is priced at cost using the First-In First-Out method.

5. ***Capital Assets*** – Capital assets, which include property, plant equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the Government as assets with an initial, individual cost of more than $5,000 and an estimated useful life in excess of two years. All purchased fixed assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated fixed assets are valued at their estimated fair market value on the date received. General infrastructure assets acquired prior to July 1, 2003 are not reported in the basic financial statements.

   The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable. Major outlays for capital assets and improvements are capitalized as projects are constructed. GASB statement 37 prohibits the capitalization of interest on assets constructed for use in governmental activities. However, interest from debt not considered to be general long-term debt may be included as part of the cost of assets constructed for business-type activities. The total interest expense incurred by the County during the current fiscal year was $51,811. Of this amount, $-0- was included as part of the cost of capital assets under construction in connection with public building construction projects.

   Property, plant and equipment of the primary government, as well as the component units, is depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings and improvements	20 - 40
Vehicles	5
Equipment	3 - 10
Roads	30
Infrastructure	30

6. ***Compensated Absences*** - It is the Government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the Government does not have a policy to pay any amounts when employees separate from service with the Government. All vacation pay is accrued when incurred in the government-wide, proprietary and fiduciary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

7. ***Long-term Obligations*** - In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

   In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. ***Fund Equity*** – Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

   Fund Balance

   Generally, fund balance represents the difference between the assets and liabilities under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in the those funds can be spent. Fund balances are classified as follows:

   Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

   Restricted – Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

   Committed – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Commissioners through the adoption of a resolution. Only the Board of Commissioners may modify or rescind the commitment.

   Assigned – Funds balances are reported as assigned when amounts are constrained by the County's intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the County Commissioners can authorize a designee to assign fund balance.

   Unassigned – Fund balances are reported as unassigned when the balances do not meet any of the above criterion. The County reports positive unassigned fund balance only in the General Fund. Negative unassigned fund balances may be reported in all funds.

   The County uses restricted amounts to be spent when both restricted and unrestricted fund balances are available, unless there are legal documents/contracts that prohibit the use of restricted fund balances, such as grant agreements that require a dollar match. Additionally, the County would then use committed, assigned and lastly, unassigned amounts from the unrestricted fund balances when expending funds.

   Net Position

   Net investment in capital assets – This amount consists of capital assets net of accumulated depreciation and reduced by outstanding debt that attributed to the acquisition, construction or improvement of the assets.

   Restricted net position – This amount is restricted by external creditors, grantors, contributors or laws or regulations of other governments.

Unrestricted net position – This amount is all net position that do not meet the definition of "net investment in capital assets" or "restricted net position."

9. ***Estimates*** - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

10. Bond Discounts/Issuance Costs – In governmental fund types, bond discounts ad issuance costs are recognized in the current period. Bond discounts and issuance costs for proprietary fund types are deferred and amortized over the term of the bonds using the straight-line method. Bond discounts are presented as a reduction of the face amount of the bonds payable, whereas issuance costs are recorded as deferred charges.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgets and Budgetary Accounting

Prior to the fiscal year end, the Commission prepares a proposed operating budget for the year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them. The Commission holds a public hearing on the budget, giving notice thereof at least ten days in advance by publication in the official organ of Wilkinson County. The budget is then revised and adopted or amended by the Commission shortly after the beginning of the year to which it applies. The budget so adopted may be revised during the year only by formal action of the Commission in a regular meeting and no increase shall be made therein without provision also being made for financing same.

The budget for the General Fund is adopted on a basis consistent with generally accepted accounting principles (GAAP) inasmuch as encumbrances are not recorded. Budgeted amounts for the year include amounts as originally adopted as well as amendments approved by the Commission.

The County Manager is delegated to transfer sums within departments. No increases in the departmental budgets for the County may be made without the approval of the Board of Commissioners and amendments to the budget. The General Fund is subject to budgetary control on a departmental basis.

III. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

Investments – The Government owns no investments as of September 30, 2014.

Custodial Credit Risk - Deposits – In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. Neither the government, nor the Wilkinson County Development Authority, discretely presented component unit, has a deposit policy for custodial credit risk. The Wilkinson County Public Health Center has a deposit policy. As of September 30, 2014, none of the Government's bank balance was exposed to custodial credit risk.

Additional disclosures with regards to deposits and investments can be located in the *Summary of Significant Accounting Policies* under the *Assets, Liabilities and Equity* section.

B. Property Taxes

State law requires that property taxes be based on assessed value, which is 40% of fair market value. All real and personal property (including motor vehicles) are valued as of January 1 of each year and must be declared and reported on a return for tax purposes by March 1. With the exception of motor vehicles and the property of public utilities, which are valued by the State Revenue Department, the Board of Tax Assessors of Wilkinson County makes all assessments.

Upon completion of all assessments and tax returns, the information is turned over to the Wilkinson County Tax Commissioner for compilation of the tax digest. The completed tax digest must be submitted to the State Revenue Commissioner for approval. The State Revenue Commissioner must ascertain that real property on the tax digest has been assessed at the state mandated forty percent (40%) of fair market value. If not, the Commissioner may require an across the board percentage adjustment to all real property. The County Tax Commissioner distributes tax notices and collects tax payments. Motor vehicle taxes must be paid by the birth date of the owner of the vehicle. Property taxes are usually levied on assessed valuation as of January 1. The bills were mailed (levied) as of November 20, 2013, with a due date of January 20, 2014. Property taxes are attached as an enforceable lien on the day the taxes become delinquent.

The total real and personal property tax levy is recorded as revenue in the fiscal year in which such amounts will be available (collected within 60 days of year-end) as net current assets. In the accompanying financial statements, the portion of the property tax levy for the tax year 2013 collected during the current year and within 60 days of year-end has been recognized as revenue.

Property taxes receivable at September 30, 2014, is composed of the following:

Year of Levy:	
2014	$ 91,142
2013	219,184
2012	86,058
2011	30,374
2010	16,590
2009	12,320
Prior to 2009	29,582
Total	485,250
Less - allowance for uncollectible	82,430
Net receivable	$ 402,820

C. Accounts Receivable

Primary Government

Receivables at September 30, 2014 for the County's individual major funds and its non-major and fiduciary funds in the aggregate, including applicable allowances for uncollectible accounts, are as follows:

	General	SPLOST 2007	Nonmajor Funds	Total
Receivables:				
Taxes	$ 485,250	$ -	$ -	$ 485,250
Accounts	-	-	9,349	9,349
Intergovernmental	125,495	-	127,085	252,580

Less: allowance for uncollectibles	(82,430)	-	-	(82,430)
Net total receivables	$ 604,462	$ 71,708	$ 136,434	$ 812,604

Discretely Presented Component Units

Trade receivables from the Wilkinson County Development Authority and Wilkinson County Public Health Center as of September 30, 2014 are as follows:

	Wilkinson County Development Authority	Wilkinson County Public Health Center	Total
Receivables:			
Accounts	$ -	$ -	$ -
Intergovernmental	2,000	17,013	19,013
Gross receivables	2,000	17,013	19,013
Less - allowance for Uncollectibles	-	-	-
Net total receivables	$ 2,000	$ 17,013	$ 19,013

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue reported in the governmental funds were as follows:

	Unavailable	Unearned
Grant drawdowns not yet available	$ -	$ -

D. Interfund Receivables, Payables and Transfers

Generally, outstanding balances between funds reported as due to/from other funds include outstanding charges by one fund to another for services or goods, subsidy commitments outstanding, and other miscellaneous receivables and payables between funds. Balances to which a fiduciary fund is a party are treated as external receivables and payables. As of September 30, 2014, the composition of interfund balances, were as follows:

	Due From	Due To
Major Fund -		
General Fund	$ 79,352	$ -
Non-major Funds:		
Balls Ferry	-	51,000
Drug Abuse Education	-	1,240
Family Connection	-	18,555
Emergency 911	-	8,557
	$ 79,352	$ 79,352

Transfers and payments within the reporting entity are substantially for the purposes of subsidizing operating functions, funding capital projects and asset acquisitions, or maintaining debt service. Resources are accumulated in a fund or component unit to support and simplify the administration of various projects or programs.

A reconciliation of transfers is as follows:

	Transfers Out	Transfers In
General Fund	$ 188,531	$ -
Emergency 911 Fund	-	188,531
Total interfund transfers	$ 188,531	$ 188,531

IV. OTHER INFORMATION

A. *DEFINED BENEFIT PENSION PLAN*

The following pension and retirement plans are in effect but are not under the direct control of the County.

1. ***Probate Judges' Retirement Fund of Georgia*** - The Probate Judge is covered under a pension plan which requires that certain sums from marriage licenses, fines and bond forfeitures be remitted to the pension plan before the payment of any costs or other claims.

2. ***Clerk of Superior Court Retirement Fund*** - The Clerk of Superior Court is covered under a pension plan which requires that certain sums from fees, fines and bond forfeitures be remitted to the pension plan before the payment of any cost or other claims.
3. ***Sheriff's Retirement Fund/Peace Officer's Annuity and Benefit Fund*** - The Sheriff and sheriff deputies are

covered under separate pension plans which require that certain sums from fines or bond forfeitures be remitted by the Probate Judge or Clerk of Superior Court to the pension plans before the payment of any costs or other claims.

Defined Benefit Pension Plan

a. Plan Description

The County contributes to the Association of County Commissioners of Georgia (ACCG) Defined Benefit Plan (Plan), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for participating counties in Georgia. The County's payroll for employees participating in the Plan as of January 1, 2014, (the most recent actuarial valuation date) was $1,738,559 (based on W-2 earnings for the preceding year). All full-time County employees are eligible to participate in the Plan at their date of hire. Benefits are fully vested after five years of service Participants become eligible to retire at age 65 with 3 years of participation in the Plan. Upon eligibility to retire, participants are entitled to an annual benefit in the amount of 0.50% of average compensation up to $6,600 plus 1.00% of average annual compensation in excess of $6,600 plus $36.00 for each year of credited service payable as a life annuity. Service is limited to 35 years. Compensation is averaged over a five-year period prior to retirement or termination. The Plan also provides benefits in the event of death or disability. These benefit provisions were established by an adoption agreement executed by the County Board of Commissioners.

ACCG issues a publicly available financial report that includes financial statements and required supplementary information (RSI) for the Plan. That report may be obtained by writing to GEBCorp, 400 Galleria Parkway, Suite 1250, Atlanta, Georgia 30339 or by calling (800) 736-7166.

Plan membership consisted of the following at January 1, 2014, the date of the latest actuarial valuation:

Retirees and beneficiaries currently receiving benefits	22
Terminated plan members entitled to but not yet receiving benefits	36
Active employees participating in the Plan	56
Total	114

***b. Summary* of Significant Accounting Policies**

The Plan's financial statements are prepared on an accrual basis, modified to include unrealized gains or losses on marketable securities owned by the Plan and increments in the cash value of pre-retirement life insurance policies owned by the trust.

Plan member contributions are recognized in the period in which contributions are due. County contributions are recognized when due and the County has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable.

Investments in securities are valued at current market prices. The trust fund is invested approximately in 60% equities and 40% fixed income securities on a cost basis. Plan assets do not include any loans, notes, bonds, or other instruments or securities for the County or related parties.

c. Contributions

In order to participate in the Plan, County employees are required to contribute 2% of their salary to the Plan. The County contributes the remaining cost of the Plan, using the actuarial basis described in the annual valuation report. Section 47-20 of the Georgia Code sets forth the funding standards for state and local governmental pension plans. Administrative expenses are based on total covered payroll of plan members and are added to the annual funding requirement.

The Georgia Constitution enables the governing authority of the County, the Board of Commissioners, to establish and amend from time to time, the contribution rates for the employer and its plan member

d. Annual Pension Cost, Net Pension Obligation, and Reserves

Current year annual pension costs for the Plan are shown in the trend information provided below. Annual required contributions were made to the Plan.

Annual Required Contribution	$ 332,169
Interest on Net Pension Obligation	1,951
Amortization of Net Pension Obligation	(2,087)
Annual Pension Cost	$ 332,033

Derivation of Net Pension Obligation:

Annual pension cost for prior year	$ 332,033
Contributions made for prior year	326,745
Increase (decrease) in net pension obligation	5,288
Net pension obligation, beginning of prior year	25,172
Net pension obligation, beginning of year	$ 30,460

There are no assets legally reserved for purposes other than the payment of plan member benefits for either plan. There are no long-term contracts for contributions.

B. *POST – EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)*

In addition to the pension benefits described above, Wilkinson County provides postemployment health care insurance benefits to retired employees through the Health Care Plan of Wilkinson County. Employees who retire from the County at age 62 or older with 15 years of continuous service are eligible for continued health insurance coverage until the employees' 65th birthday. The County will pay the cost of individual coverage, however, if the employee elects family coverage, the employee is responsible for payment of the difference between the cost of individual and family coverage. The accounting and funding policies followed by the County are on a pay-as-you-go basis. The authority to establish and amend the benefit provision of the OPEB plan rests with the County. The plan does not issue separate financial statements.

As of January 1, 2012, employee membership data relative to the OPEB plan consist of the following:

Retirees and beneficiaries currently receiving benefits	1
Active employees participating in the Plan	60
Total	61

Summary of Significant Accounting Policies

The accrual basis of accounting is used with respect to the recognition in the financial statements of contributions in the form of insurance premiums made to the Plan. Plan investments, if any, are reported as their fair value at the reporting date. As of September 30, 2014, the Plan reported no assets.

Funding Policy

The contribution requirements are established and may be amended by the County. The required contribution was determined by an actuarial valuation. During the fiscal year ended September 30, 2014, the County paid premiums (net of retiree contributions) on behalf of current retired employees in the amount of $3,312.

Annual OPEB Cost and Net OPEB Obligation

The County's last actuarial valuation was performed on the plan as of January 1, 2012 to determine the funded status of the plan as of that date as well as the employer's annual required contribution (ARC) for the period according to the parameters of GASB Statement 45. This valuation is completed for the County every 3 years. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The County annual OPEB cost of $23,834 is reduced by the current year contributions of $3,312.

The following table reflects the components of the County's annual OPEB costs for the year, the amount actually contributed to the plan, and changes in the County's net OPEB obligation:

Annual Required Contribution	$ 23,680
Interest on OPEB Obligation	3,431
Amortization of OPEB Obligation	(3,277)
Annual OPEB Cost	$ 23,834

Derivation of Net OPEB Obligation:

Annual OPEB cost for year	$ 23,834
Contributions made for year	3,312
Increase (decrease) in net OPEB obligation	20,522
Net OPEB obligation, beginning of prior year	93,100
Net OPEB obligation, beginning of year	$ 113,622

The County's annual OPEB cost, the percentage of annual cost contributed to the plan, and the net OPEB obligation for 2012 is as follows:

Fiscal Year	OPEB Cost	Percentage of AOC Contributed	OPEB Obligation
2012	$ 23,834	69%	$ 93,100
2013	23,834	69%	93,100
2014	23,834	14%	113,622

2012	$ -	$ 208,265	0.0%	$ 208,265	$ 1,816,941	11.5%

AAL is based on a pay-as-you-go plan.

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability of r benefits.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Calculations are based on the substantive plan in effect as of September 30, 2012.

Actuarial calculations reflect a long-term perspective.

Additional information as of the latest actuarial valuation is as follows:

Valuation date	January 1, 2012
Actuarial cost method	Projected Unit Credit
Asset valuation method	Market Value
Amortization method	Level Percent of Pay (Open)
Remaining amortization period	30 years
Actuarial assumptions:

C. *RISK MANAGEMENT - CLAIMS AND JUDGEMENTS*

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County joined the Association Interlocal Risk Management Agency on September 28, 1991. This membership allows the County to share liability, crime, motor vehicle and property damage risks.

Chapter 85 of Title 36 of the Official Code of Georgia Annotated authorizes Georgia municipalities to form interlocal risk management agencies. The Interlocal Risk Management Agency (IRMA) is a municipal interlocal risk management agency organized to function as an unincorporated nonprofit instrumentality of its member municipalities - IRMA establishes and administers one or more group self-insurance funds and a risk management service to prevent or lessen the incidence and severity of casualty and property losses occurring in the operation of municipal government. IRMA is to defend and protect in accordance with the member government contract and related coverage descriptions any member of IRMA against liability or loss.

The County must participate at all times in at least one fund which is established by IRMA. Other responsibilities of the County are as follows:

- To pay all contributions, assessments, or other sums due to IRMA at such times and in such amounts as shall be established by IRMA.
- To select a person to serve as a Member representative.
- To allow IRMA and its agents reasonable access to all facilities of the County and all records, including but not limited to financial records, which relate to the purposes of IRMA.
- To allow attorneys appointed by IRMA to represent the County in investigation, settlement discussions and all levels of litigation arising out of any claim made against the County within the scope of loss protection furnished by the Fund or Funds established by IRMA.
- To assist and cooperate in the defense and settlement of claims against the County.
- To furnish full cooperation to IRMA's attorneys, claim adjusters, Service Company and any agent, employee, officer or independent contractor of IRMA relating to the purposes of IRMA.
- To follow all loss reduction and prevention procedures established by IRMA.
- To furnish to IRMA such budget, operating and underwriting information as may be requested.
- To report as promptly as possible, and in accordance with any Coverage Descriptions issued, all incidents to municipal property or injuries to persons or property when such loss or injury is within the scope of the protection of a Fund or Funds in which the County participates.

The County retains the first $2,500 of each risk of loss in the form of a deductible. The County files all claims with IRMA. IRMA bills the County for any risk of loss up to the $2,500 deductible.

The basis for estimating the liabilities for unpaid claims is the "IBNR" established by an actuary.

Pursuant to Title 34, Chapter 9, Article 150 of the Official Code of Georgia Annotated, the County became a member of the Association of County Commissioners of Georgia Group Self-Insurance Workers' Compensation Fund. The County is obligated to pay all contributions and assessments as prescribed by the fund, to cooperate with the fund's agents and attorneys, to follow loss reduction procedures established by the fund, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the fund being required to pay any claim of loss. The County is also to allow the fund's agents and attorneys to represent the County in investigation, settlement discussions and all levels of litigation arising out of any claim made against the County within the scope of loss protection furnished by the fund.

The fund is to defend and protect the members of the fund against liability or loss as prescribed in the member government contract and in accordance with the workers' compensation law of Georgia. The fund is to pay all costs taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

D. *JOINT VENTURE*

Under Georgia law, Wilkinson County, in conjunction with other cities and counties in the middle Georgia area, is a member of the Middle Georgia Regional Commission and is required to pay annual dues thereto. Membership in a Commission is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the Commission in Georgia. The Commission Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a Commission.

Separate financial statements may be obtained from:

Middle Georgia Regional Commission
175 – C Emery Highway
Macon, Georgia 31201

E. *COMMITMENTS*

Reservations of fund balances of Governmental funds are established to either (1) satisfy legal covenants that require that a portion of the fund balance be segregated or (2) identify the portion of the fund balance that is not appropriable for future expenditures. Designations of fund balance represent tentative management plans that are subject to change.

F. CONTINGENT LIABILITIES

Grant Funds

The County participates in numerous grant programs on the federal and state level. Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal Government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Government expects such amounts, if any, to be immaterial.

Litigation

During the course of normal operations of the County, various claims and lawsuits arise. The County's legal counsel reports no cases pending against the County. Based upon the information available, management does not expect potential liabilities as of September 30, 2014 to impair the County's financial position.

G. SUBSEQUENT EVENTS

Subsequent to September 30, 2014, the County purchased 400+ acres of land along the Wilkinson County/Baldwin County line as part of a Memorandum of Understanding (MOU) entered into with Baldwin County, Georgia. The County's portion of this land purchase was $290,500.

The County performed an evaluation of subsequent events through May 15, 2015, the date upon which the County's financial statements were available for issue. The County has not evaluated subsequent events after this date. No subsequent events were identified that would have required a change to the financial statements or disclosure in the notes to the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Commissioners
Wilkinson County, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Wilkinson County, Georgia, as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise Wilkinson County, Georgia's basic financial statements and have issued our report thereon dated May 15, 2015. Our report includes a reference to other auditors who audited the financial statements of the Wilkinson County Board of Health and the Development Authority of Wilkinson County, Georgia, as described in our report on Wilkinson County, Georgia's financial statements. This report does not include the results of the other auditors testing of internal control over financial reporting or compliance and other matters that are reported on separately by the auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Wilkinson County, Georgia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Wilkinson County, Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of Wilkinson County, Georgia's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency 2014-001, described in the accompanying schedule of findings and questioned costs to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control, that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies 2014-002 and 2014-003, described in the accompany schedule of findings and questioned costs to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Wilkinson County, Georgia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we have reported to management of Wilkinson County, Georgia in a separate letter dated May 15, 2015.

Wilkinson County, Georgia's Response to Findings

Wilkinson County, Georgia's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Wilkinson County, Georgia's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Very truly yours,

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Board of Commissioners of
Wilkinson County, Georgia

Report on Compliance for Each Major Federal Program

We have audited Wilkinson County, Georgia's compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Wilkinson County, Georgia's major federal programs for the year ended September 30, 2014. Wilkinson County Georgia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Wilkinson County, Georgia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Wilkinson County Georgia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Wilkinson County Georgia's compliance.

Opinion on Each Major Federal Program

In our opinion, Wilkinson County, Georgia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2014.

Report on Internal Control Over Compliance

Management of Wilkinson County, Georgia is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Wilkinson County Georgia's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Wilkinson County, Georgia's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies, and therefore, material weaknesses and significant deficiencies may exist that were not identified. We identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2014-004, that is considered to be a material weakness.

Wilkinson County, Georgia's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Wilkinson County, Georgia's response was not subjected to the auditing procedures applied in the audit of compliance, and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

SECTION II – FINANCIAL STATEMENT FINDINGS AND RESPONSES

FINDINGS – FINANCIAL STATEMENT AUDIT

MATERIAL WEAKNESS:

2014-001 - Segregation of Duties (Reiteration of Prior Year)

Condition: Due to the limited number of personnel, overlapping of duties exists in the County's operations primarily in the areas of cash receipts and disbursements.

Criteria: Internal controls should be in place that provide reasonable assurance that an individual cannot misappropriate funds without being detected during the normal course of business.

Effect: This overlapping of duties presents situations where unauthorized use of assets could occur and not be detected within a timely period.

Recommendation: The duties of recording, processing and reconciliation of cash accounts should be segregated between employees.

Response: We concur with the recommendation. Each elected official is working with the Wilkinson County Board of Commissioners to evaluate and determine the most efficient and effective solution to properly segregate duties between recording, processing and reconciliation of cash accounts to provide reasonable assurance that an individual cannot misappropriate funds without being detected during the normal course of business.

SIGNIFICANT DEFICIENCIES:

2014-002 - Account and Transaction Reporting (Reiteration of Prior Year)

Condition: Certain audit adjustments were required to fairly state the balances on general ledger accounts at the end of the accounting period.

Criteria: Accounts should be properly adjusted and reconciled to ensure that the financial statements are presented fairly at the end of the accounting period.

Effect: Failure to properly record transactions and reconcile accounts could cause the financial statements to not be fairly stated at the end of the accounting period.

Recommendation: Management should establish policies and procedures to assist the County in fairly stating the balances of accounts at the end of the accounting period.

Response: We concur with the recommendation. We will review procedures in place to ensure that account balances are fairly stated at the end of the accounting period.

2014-003 - Controls Over Financial Statement Presentation (Reiteration of Prior Year)

Condition: County personnel do not currently possess the professional skills necessary to prepare or review the financial statements in sufficient detail to detect material misstatements in the financial statements and related footnotes.

Criteria: County personnel should possess professional skills sufficient to be able to perform an adequate review of the County's financial statements in order to determine that the statements are materially correct.

Effect: The deficiency identified above could result in a material misstatement to the County's financial statements that would not be prevented or detected on a timely basis.

Recommendation: The County should consider additional training that would provide accounting personnel with the skills to detect and correct misstatements in the financial statements.

Response: We concur with the recommendation and will evaluate the cost effectiveness of implementing the control and act accordingly.

STATUS OF PRIOR YEAR AUDIT FINDINGS:

2013-1 Segregation of Duties

Condition: Due to the limited number of personnel, overlapping of duties exists in the County's operations primarily in the areas of cash receipts and disbursements.

Recommendation: The duties of recording, processing and reconciliation of cash accounts should be segregated between employees.

Current Status: This finding was not corrected during the year.

2013-2 Account and Transaction Reporting

Condition: Certain audit adjustments were required to fairly state the balances on general ledger accounts at the end of the accounting period.

Recommendation: Management should establish policies and procedures to assist the County in fairly stating the balances of accounts at the end of the accounting period.

Current Status: This finding was not corrected during the year.

2013-3 Controls Over Financial Statement Presentation

Condition: County personnel do not currently possess the professional skills necessary to prepare or review the financial statements in sufficient detail to detect material misstatements in the financial statements and related footnotes.

Recommendation: The County should consider additional training that would provide accounting personnel with the skills to detect and correct misstatements in the financial statements.

Current Status: This finding was not corrected during the year.

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

FINDINGS – SINGLE AUDIT

MATERIAL WEAKNESS:

2014-004 - Segregation of Duties

Condition: Due to the limited number of personnel, overlapping of duties exists in the County's operations primarily in the areas of cash receipts and disbursements.

Criteria: Internal controls should be in place that provide reasonable assurance that an individual cannot misappropriate funds without being detected during the normal course of business.

Effect: This overlapping of duties presents situations where unauthorized use of assets could occur and not be detected within a timely period.

Recommendation: The duties of recording, processing and reconciliation of cash accounts should be segregated between employees.

Response: We concur with the recommendation. Each elected official is working with the Wilkinson County Board of Commissioners to evaluate and determine the most efficient and effective solution to properly segregate duties between recording, processing and reconciliation of cash accounts to provide reasonable assurance that an individual cannot misappropriate funds without being detected during the normal course of business.
