Members of the Cartersville School Board
Cartersville, Georgia

The Comprehensive Annual Financial Report of the Cartersville School Board, Cartersville, Georgia, for the fiscal year ending June 30, 2015, is submitted herewith. The Superintendent and Director of Finance prepared this report. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the School Board. It is our opinion that the information, as presented, is accurate in all material aspects; that it is presented in a manner designed to set forth fairly the financial position and results of operations of the school system as measured and reported by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain an adequate understanding of the School Board's financial affairs have been included.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Cartersville School Board MD&A can be found immediately following the report of the independent auditors.

Economic Condition and Outlook

Under the Charter of the City of Cartersville, the school system is dependent upon the city council for providing funds for the operation and maintenance of the schools. On March 27, 1998, Act Number 646 (H.B.1701), Governor Zell Miller signed into law local legislation amending Section 5.07 of the Charter of the City of Cartersville. Specifically, this new amendment to the Charter struck all language in Section 5.07, and inserted in lieu thereof a new Section 5.07. Below is a copy of the exact language amending Section 5.07 of the Charter of the City of Cartersville:

It is the policy of the Cartersville School Board not to discriminate on the basis of sex, race, marital status, age, religion, national origin or handicap in its educational programs, activities or employment practices.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

Section 1.

An act reincorporating the City of Cartersville, approved March 28, 1974 (Ga. L. 1974, p. 3697), as amended, is amended by striking Section 5.07 and inserting in lieu thereof a new Section 5.07 to read as follows:

"Sec. 5.07.
Budget, tax levy, etc.

(a) On or before August 10, or another date specified by the city council, the Cartersville School Board shall submit to the city council the Cartersville School Board's annual recommendation for the rate of tax levy within the limitations fixed by law to be made upon all taxable property within the city limits pursuant to the authority granted in Article VIII, Section VI, Paragraph I of the Georgia Constitution and Code Section 48-5-405 of the O.C.G.A. The city council shall levy said tax upon the assessed value of all taxable property within the city limits within the limitations fixed by law.

(b) The city council shall cause the levied taxes collected to support the Cartersville public schools to be appropriated to the Cartersville School Board and deposited into the school board account and disbursed from the account to the Cartersville public schools within ten days of receipt. The City of Cartersville shall invoice the Cartersville School Board for the pro rata cost of collecting property taxes and for bond payments and other debt service charges owed by the Cartersville public schools. The Cartersville School Board shall pay to the City of Cartersville the amount invoiced for tax collection within ten business days and at least four business days prior to the due date for bond and all other debt service costs owed to the city by the Cartersville public schools. The school board, as prescribed or approved by resolution, may incur indebtedness within the limits and manner prescribed by state law and may redeem such indebtedness by the issuance of checks or vouchers drawn upon the Cartersville School Board account subject to prior approval of a resolution by the city council.

Section 2.

This Act shall become effective July 1, 1998. On and after said effective date, the City of Cartersville shall provide no funds for the support of the Cartersville public schools except as provided in this Act.

Section 3.

"All laws and parts of laws in conflict with this Act are repealed."

Under the newly amended Charter, the school system now has the authority to recommend to the city council the "rate of tax levy . . . and the city council shall levy said tax upon the assessed value of all taxable property within the city limits within the limitations fixed by law." The school system holds title to no real property; all real property titles are held by the City of Cartersville.

Incorporated in 1850 and established as the county seat following the Civil War, Cartersville has thrived as an important city located approximately 40 miles north of Atlanta along the I-75 corridor. With a rich history of mining resources, abundant agriculture and more recently manufacturing and industry, Cartersville is strategically located as a prime area for growth on the outskirts of metropolitan Atlanta.

Located within Bartow County, the city of Cartersville has a honored history while simultaneously standing ready to embrace the inevitable changes of the future.

With a current population of over 18,000 residents and ranking 36th in terms of population size among Georgia's cities, Cartersville boasts a rich standard of quality living. Visitors as well as residents have come to recognize the balance of a strong economic community and one that is culturally blessed. Since the city is practically landlocked, growth has been controlled and regulated by the city government.

Manufacturing and retail industries make up the majority of the commercial development in Cartersville. Georgia Highlands College, has opened a new campus in Cartersville. Additionally, Kennesaw State University in Kennesaw, and Shorter and Berry Colleges in Rome are all within easy commutes from Cartersville.

The District encountered significant financial challenges in the 2015 fiscal year due to cumulative austerity cuts in state funding totaling $20,037,243. Conservative budgeting practices allowed the District to absorb these substantial state funding cuts by recognizing additional local revenues and not filling position vacancies during the year. State funding for the upcoming 2016 fiscal year is expected to improve, which will allow some relief. The school system gave a one-time 6% payment of salary to all employees on August 2015.

Major Initiatives

Cartersville School System has served the students of the City of Cartersville for 125 years. It is one of the most senior school systems in Georgia, serving children of the City of Cartersville as well as a limited number of eligible students from outside the school district who pay an annual tuition fee, which is set by the School Board. Over the past 15 years the Cartersville School System has grown from 3,643 students to over 4,316 students. All indications are that enrollment will steadily continue to increase in future years.

All schools comprising the Cartersville School System have been cited for outstanding programs and academic performance. During Fall of 2006, the Cartersville City Schools was awarded initial District Accreditation through AdvancED, the major P-12 accrediting agency in the world, after an onsite Quality Assurance Review visit. In 2011, that level of District Accreditation was renewed. The district is scheduled for its next accreditation in Fall 2016. Finally through a lengthy process during the 2009-2010 school year, Cartersville City Schools applied for "System Charter" status under provisions allowed by Georgia law. In July 2010, the Georgia State Board of Education approved the "System Charter" status for an initial 5–year period. In March 2015 the district was approved for a renewal of the system charter for an additional 10 years. The System Charter gives the school system and its schools flexibility in its operation and exemption of most all State Board rules and GA education laws in exchange for higher student performance goals over the period of the charter.

The school system is committed to having the best available staff in each position. For the past eight years Cartersville had 100 percent of all its teachers and paraprofessionals meet the "highly qualified" requirements of the Georgia Professional Standards Commission and Federal legislation. 91% of the teaching staff have advance degrees, including 28% with degrees beyond the masters level.

Realizing the increase use of educational technology to support classroom instruction, the district has hired instructional technologists at the middle and high school to enhance and enrich effective technology strategies. The system plans to expand this program in the other schools in the future.

The Board of Education has adopted a process of standards review recommended by the Georgia School Boards Association. During the Fall of the 2009-2010 school year, the Board of Education's policies, practices and operations underwent a standards review process conducted by Board members and administrators. This standards review process is designed to maintain efficient and effective governance procedures, which enhance the learning environment for students. The Board of Education has regularly achieved satisfactory compliance with the "Standards of Local Boards of Education." The Board of Education has submitted verification to the GSBA recertifying that the Board continues to meet the "Standards of Local Boards of Education." Over the past two years the school system has implemented a system-wide initiative to become "paperless" in as many processes and functions as possible. During the 2013 – 2014 the system implemented applicable processing in hiring applications, employee leave management, and substitute teaching assignments. Additionally, the School Board has begun using iPads for its meeting agendas and documents.

The citizenry of Cartersville and surrounding Bartow County have been especially supportive of the school system as evidenced by the passage of the four consecutive Special Purpose Local Options Sales Tax (SPLOST) votes in 1997, 2002, 2007 and 2010. Additionally, city residents have approved several school bond referenda to fund school construction and renovation efforts in the city schools. Surveys of the parent stakeholders show that citizens widely support and have confidence in the school system and its schools.

A five-year facilities plan (2012 - 2017) was approved by the local Board and the State Board of Education in the Spring of 2013. This plan provides the basis for the school system in earning state funding for facility construction and renovation projects. The plan will be updated and subjected to an outside review in Spring 2017. In November 2015 the district will pay off all outstanding debt.

The district has an ongoing Strategic Plan which is reviewed and updated annually. The plan contains academic goals from the System Charter and ways to improve the effective and efficient operation of the district. The goals of the system's strategic plan guide the District's approach to the delivery of classroom instruction. Some of the learning initiatives in place in Cartersville City schools include:

- Music, Art and P.E. with in-field certified teachers at all grade levels
- After School Programs for tutoring and enrichment
- Gifted Challenge Program (K-12)
- Georgia Pre-Kindergarten "Bright from the Start" Program
- Music instruction using Yamaha music in Education Program in grades 3-5
- Driver Education Program
- Free a.m. & p.m. study/tutorial sessions
- Renaissance program (6-12)
- State Longitudinal Data Systems program and Classworks for benchmark assessments, data utilization, instructional planning (Grades 1-12)
- Increased Honors and Advanced Placement Courses (6-12)
- Ombudsman Alternative Education Program (6-12)
- Character Education (K-12)
- Use of academic coaches and Instructional Technologists to support teachers in the instructional process and academic program
- Job-embedded professional development
- New Teacher induction and mentor program
- Improved and expanded use in instructional technology
- Striving Readers Literacy Grant ($2.6 million)

Financial Information

The School Board is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the School Board are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles.

The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits are estimates and judgments made by management.

As a recipient of federal, state and local financial assistance, the School Board is also responsible for ensuring that an adequate internal control structure is in place to ensure and document compliance with applicable laws and regulations related to these programs. This internal control structure is subject to periodic evaluation by management and the internal audit staff of the School Board.

As part of the School Board's single audit, tests were made of the internal control structure and of its compliance with applicable laws and regulations, including those related to federal financial assistance programs. The audit for the year ended June 30, 2015, disclosed that the School Board complied, in all material respects, with the requirements of its major federal programs.

In addition, the School Board maintains extensive budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the School Board. Activities of the general fund, capital project funds, and special revenue funds are included in the annual appropriated budget. The level of budgetary control is the function level.

As demonstrated by the statements and schedules included in the financial section of this report, the School Board continues to meet its responsibility for sound financial management.

Long Term Financial Planning

In June of 2011 the Board refinanced both the 2001 and 2002 bonds. The Board plans to call these bonds in November 2015. Currently the SPLOST fund has $11.6 million in fund balance. The balance will be used to fund planned summer projects and also continue to fund the reserve to pay off the 2011 bonds in 2015. SPLOST revenue has increased in FY 2015 by 3%. This was a result of the General Assembly changing how sales taxes are paid on vehicles sold in Georgia. This is now a one-time tax paid to the local government instead of a sales tax. This has increased our local revenue but our SPLOST revenue has had modest increases.

The system continues to monitor budget related activity in the Georgia General Assembly. State revenues have risen modestly over the past year. However, significant funding cuts continue to be passed to local school systems by the state and are expected for the foreseeable future. The System is reviewing several aspects of operations to identify areas for cost reduction and improvement in efficiency including personnel allocation, employee benefits, student transportation services, and document production practices. Sustainability is becoming a key phrase when budget issues are discussed. Budget items proposed for inclusion or modification are viewed in terms of the system's ability to sustain the item into the future. Adequate, available fund reserves are key to preserving the school system's ability to operate free of short-term borrowing to fund daily operations.

OTHER INFORMATION

Independent Audit

State statutes require an annual audit by independent certified public accountants. The firm of Mauldin Jenkins, LLC, was selected by the School Board's finance committee. In addition to meeting the requirements set forth in state statutes, including the Official Code of Georgia's Section 48-8-121 pertaining to Special Local Option Sales Tax, the audit was designed to meet the requirements of the federal Single Audit Act of 1984 and the related U.S. Office of Management and Budget's Circular A-133. Generally accepted auditing standards and the standards set forth in the General Accounting Office's *Government Auditing Standards* were used by the auditors in conducting the engagement. The auditor's report on the basic financial statements and combining and individual fund statements and schedules are included in the financial section of this report. The auditor's report on internal controls and compliance with applicable laws and regulations can be found in the compliance section of this report.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Cartersville Board of Education for its comprehensive annual report (CAFR) for the fiscal year ending June 30, 2014. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements.

Acknowledgements

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated service of the entire staff of the Finance Department. We express our appreciation to all members of the Department who assisted and contributed to its preparation. We also extend appreciation to the School Board for their interest and support in planning and conducting the financial operation of the school system in a responsible and progressive manner.

Respectfully submitted,

FINANCIAL SECTION

MAULDIN & JENKINS

INDEPENDENT AUDITOR'S REPORT

To the Superintendent and Members of
the City of Cartersville Board of Education
Cartersville, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Cartersville Board of Education, a component unit of the City of Cartersville, Georgia, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City of Cartersville Board of Education's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Cartersville Board of Education, as of June 30, 2015, and the respective changes in financial position and the budgetary comparisons for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Notes 8 and 12, the City of Cartersville Board of Education implemented Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, as well as Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*, as of July 1, 2014. These standards significantly changed the accounting for the City of Cartersville Board of Education's net pension liability and the related disclosures. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of Proportionate Share of the Net Pension Liability – Teachers Retirement System, Schedule of Contributions, and Schedule of Proportionate Share of Net Pension Liability – Public Schools Employee Retirement System on pages 4 through 12, and 43, 44 and 45 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Cartersville Board of Education's basic financial statements. The combining and individual fund financial statements and schedules, schedule of expenditures of federal awards, as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit* Organizations, schedule of expenditures by object – lottery programs, the schedule of expenditures of special purpose local option sales tax proceeds, as required by the Official Code of Georgia 48-8-21, and the introductory and the statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules, schedule of expenditures of federal awards, schedule of expenditures by object – lottery programs, and the schedule of expenditures of special purpose local option sales tax proceeds (collectively "the supplementary information") is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Governement Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 9, 2015 on our consideration of the City of Cartersville Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Cartersville Board of Education's internal control over financial reporting and compliance.

Mauldin & Jenkins, LLC

Atlanta, Georgia
November 9, 2015

The discussion and analysis of the City of Cartersville Board of Education's financial performance provides an overall review of the Board's financial activities for the fiscal year ended June 30, 2015. The intent of this discussion and analysis is to look at the Board's financial performance as a whole; readers should review the notes to the basic financial statements and the financial statements to enhance their understanding of the Board's financial performance.

Financial Highlights

Key financial highlights for 2015 are as follows:

- In total, net position increased $5.9 million during 2015. This increase was due to an increase in revenues and a decrease in expenses as compared to 2014 for governmental activities.
- General revenues accounted for $20.1 million in revenue or 42% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for $27.5 million or 58% of total revenues of $47.6 million.
- The Board had $41.7 million in expenses related to governmental activities; only $27.5 million of these expenses were offset by program specific charges for services, grants or contributions. General revenues of $20.1 million were adequate to provide for these programs.
- Among major funds, the General Fund had $34.6 million in revenues and $33.8 million in expenditures. The General Fund's fund balance increased to $13.1 million from $12.2 million.

Using the Basic Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the City of Cartersville Board of Education as a financial whole or as an entire operating entity.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole Board, presenting both an aggregate view of the Board's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the Board's most significant funds with all other nonmajor funds presented in total in one column. In the case of the City of Cartersville Board of Education, the General Fund is by far the most significant fund.

Reporting the Board as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the Board to provide programs and activities, the view of the Board as a whole looks at all financial transactions and asks the question, "How did we do financially during 2015?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by

most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the Board's net position and changes in the net position. This change in net position is important because it tells the reader that, for the Board as a whole, the financial position of the Board has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the City's property tax base, facility conditions, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the Board has one distinct type of activity:

- Governmental Activities – All of the Board's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation, food service, after school program, school activity funds, and various others.

Reporting the Board's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the Board's major funds. The Board uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the Board's most significant funds. The Board's major governmental funds are the General Fund and Special Purpose Local Option Sales Tax (SPLOST) Capital Projects Fund.

Governmental Funds. All of the Board's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Board's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

The Board as a Whole

The perspective of the Statement of Net Position is of the Board as a whole. Table 1 provides a summary of the Board's statement of net position for 2015:

.

Table 1
Statement of Net Position

	Governmental Activities		%
	2015	2014	Change
Assets			
Current and Other Assets	$ 32,173,388	$ 27,911,234	15.3%

Changes in Net Position from Operating Results

Revenues

The district's total revenue for 2015 was $47.6 million which represents a $3.8 million or an 8.7% increase over 2014. Revenue from state sources accounted for the majority of the school district's revenue. Operating grants and contributions revenue in 2015 increased 9.3% or $2.1 million. Increased state revenue is attributable to enrollment changes. Capital grants and contribution increased to $1.2 million. This is attributed to a State capital outlay grant received to replace the HVAC at the primary and middle schools.

Local revenue sources including property taxes, sales taxes and interest income increased $500 thousand or 2.8%. The increase in property tax revenue of 2.6% was due to very little change in the tax digest. Sales tax revenue increased by 3.3% or $140 thousand in 2015.

Expenses

The school district's total expenses decreased 4.3% over fiscal year 2014. Pupil services increased by 25.8% and Improvement of Instructional Services decreased by 20.6%. This was a result of a change in the expenditure coding. Also the increase in pupil services was for the purchase of an academic software. Maintenance and Operation went down by 21.8%. HVAC repairs were expensed in FY 2014. Other support services increased by 33.9% because a school resource officer was hired for the primary and elementary school. Each of the other major functions increased and/or decreased by minor amounts.

Instruction comprises 60% of governmental program expenses.

The rest of this page intentionally left blank.

Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Table 3
Governmental Activities

Governmental Activities

The Net Cost of Governmental Activities reports the total and net cost of major district activities: instruction, pupil and instructional services, school and administrative services, maintenance and operations, transportation, and other.

Net Cost of Services is the total cost less fees generated by the activities and intergovernmental revenue provided for specific programs. The net cost shows the financial burden on the district's taxpayers by each activity. The total cost of governmental services in 2015 was $41.7 million. Users of the district's programs financed $1.2 million of costs. Federal and state grants subsidized programs, and contributions financed $26.3 million of the cost. The district taxpayers financed the other portion of the school district's cost, which was $14.2 million for 2015.

The Board's Funds

The Board's governmental funds are accounted for using the modified accrual basis of accounting. Total governmental funds had revenues and other financing sources of $47.6 million and expenditures and other financing uses of $43.6 million. The General Fund had an increase of $825 thousand; the Special Purpose Local Option Sales Tax Capital Projects Fund had an increase of $2.9 million. The increase in the General Fund was due to tax revenue and State funding revenues which came in greater than anticipated. The SPLOST Fund's increase was a result of the timing of SPLOST projects, as the revenues continued to exceed the current year SPLOST expenditures. At the end of 2015, the district has an increase of $4.0 million in fund balance as a result of increases in state funding, and more local tax revenue. Also a State Capital Outlay grant was received for HVAC renovations that were expensed in FY 2014. Fund balance for the general fund increased by $825 thousand. Conservative budgeting and spending allowed for the increase in fund balance. The change in fund balance for the Special Purpose Local Option Sales Tax Capital Projects was saving money for the bond payoff in November 2015.

General Fund Budgeting Highlights

The Board's budget is prepared according to Georgia law. The most significant fund is the General Fund.

Prior to April 1st of each year, the Superintendent and the School Board have work sessions to prepare the new upcoming budget. As soon as the School Board receives the budgeted allocations from the State of Georgia, the Board adopts the budget on or before the regular June meeting. The Board can then submit to the Cartersville City Council an estimate of the local revenue that will be required for the maintenance and operation of the school system for the succeeding year no later than June 30th. Based on the budgeted requirements, the Board will recommend to the City Council the rate of tax levy that in its judgment, and considering other sources of revenue, shall be necessary and advisable to meet the expenditures contemplated. The City Council shall cause the tax levy to be set for the upcoming fiscal year. The proceeds from the City tax levy will be appropriated to the Board to meet budgetary requirements of the school system for the succeeding school year.

For the General Fund, the final budgeted revenues and other financing sources of $32.4 million was an increase from the original budgeted amount of $32.3 million. The actual revenues and other financing sources of $34.2 million was more than the budgeted amount by $1.8 million.

The final budgeted expenditures and other financing uses of $35.0 million exceeded the original budgeted amount of $34.7 million by $300 thousand. The major difference was maintenance and operations cost spent. The actual expenditures and other financing uses per budget basis of $33.4 million was $1.6 million less than budgeted. The majority of the difference was due to on behalf payments by the Georgia Department of Education for Health Insurance of non-certified personnel and also conservative spending based on revenues received.

General Fund revenues and other financing sources were more than the expenditures and other financing uses by $825 thousand. The school board has made a concerted effort to watch spending and this is evidence of their work.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal 2015 the Board had $4.1 million invested in capital assets, all in governmental activities. Table 4 shows fiscal 2015 balances:

Table 4
Capital Assets at June 30
(Net of depreciation, in Thousands)

	Governmental Activities 2015	Governmental Activities 2014	% Change
Building and Land Improvements	$ 240,481	$ 247,260	-2.7%
Vehicles	781,595	789,872	-1.0%
Computers	1,653,974	1,191,596	38.8%
Furniture and Equipment	1,454,667	1,179,827	23.3%
Total	$ 4,130,717	$ 3,408,555	21.2%

The primary increases occurred in computers. The Board purchased network equipment and desktop computer for the teachers. The increase in furniture and equipment was a new freezer and a new track at the high school.

Additional information on the City of Cartersville Board of Education's capital assets can be found in Note 5 on page 31 of this report.

Economic Factors and Next Year's Budgets

The local economy experienced a change in property tax revenue, a 0.6% increase in property tax revenue, a 3.3 % increase in the Special Purpose Local Option Sales Tax revenue. Property tax remained the same due to the millage rate being rolled back to 17.93. The Special Purpose Local Option Sales Tax revenue increased by $140 thousand or 3.3% which is a direct result of an improving economy.

The City of Cartersville Board of Education adopted its 2016 budget on June 8, 2015. The General Fund budget for 2015 reflected revenues of $33,481,865 and expenditures of $36,474,300. Unreserved fund balance in the amount of $2,992,435 was used to make up the difference. The Board decided to roll back the millage rate. The approved millage rate to fund the 2016 budget is 16.82 mills. This budget reflects an increase from the 2015 budget of $1.8 million or 5.29%.

Contacting the Board's Financial Management

The financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the Board's finances and to show the Board's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Richard Dyke, Director of Finance at the City of Cartersville Board of Education, P.O. Box 3310, Cartersville, Georgia 30120. You may also email your questions to rd@cartersville.k12.ga.us.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2015

Amounts reported for governmental activities in the statement of activities are different because:		
Net change in fund balances - total governmental funds		$ 4,022,139
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period.		
Capital outlay	$ 1,428,533	
Depreciation expense	(704,111)	724,422
The net effect of the disposal of capital assets is to decrease net position.		(2,260)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		28,061
Contributions to the pension plan in the current fiscal year are not included on the statement of activities		2,732,088
In the governmental funds, current year expenditures related to pensions are comprised solely of amounts contributed to the plan for the current year. However, in the statement of activities, expenses related to pensions include amounts that do not require the use of current financial resources. This amount represents the difference in the required accounting treatment of pensions and related items.		(1,601,013)
Changes in net position - governmental activities		$ 5,903,437

The accompanying notes are an integral part of these financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Cartersville Board of Education (the "Board") have been prepared in conformity with accounting principles generally accepted in the United States of America ("USGAAP") as applicable to governmental units. The more significant of the Board's accounting policies are summarized below.

Reporting Entity

The City of Cartersville Board of Education was established in 1889. In its present state, the Board operates under a Board/Superintendent form of government. The seven member Board is elected by the public and the Board appoints the superintendent. Funding is received primarily from City, State and Federal sources. The City of Cartersville must authorize and approve any bond issuance of the Cartersville School Board and the legal liability for the general obligation portion of the Board's debt remains with the City of Cartersville. The Board does not have the authority to levy taxes. The City holds title to school land and buildings. Based upon criteria set forth by the Governmental Accounting Standards Board (GASB), the City of Cartersville School Board is a component unit of the City of Cartersville, Georgia.

The Board has one blended component unit, the Cartersville School Capital Improvement Foundation, Inc. (the "Foundation"). The Foundation was formed as a nonprofit corporation to engage and assist the School System in the development, financing, construction, acquisition, and reconstruction of capital projects and equipment. There was no activity for the Foundation during the year ended June 30, 2015. Members of the Board serve as directors of the Foundation.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the Board. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The Board does not consider any of its activities to be business-type activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the fiduciary funds. Agency funds are custodial in nature and do not present results of operations or have a measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue when all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Property taxes are recognized as revenue in the period for which they were levied, if they are collected within sixty days of year end. All other revenues are considered to be available when they are collectible within one hundred twenty days of year end. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, are recorded only when payment is due.

Revenue from grants and donations are recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the Board must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Board on a reimbursement basis.

The State of Georgia reimburses the Board for teachers' salaries and operating costs through the Quality Basic Education (QBE) Formula Earnings program. State of Georgia law defines the formula driven grant that determines the cost of an academic school year and the State of Georgia's share in this cost. Generally teachers are contracted for the school year (July 1 – June 30) and paid over a twelve month contract period, generally September 1 through August 31. In accordance with the requirements of the enabling legislation of the QBE program, the State of Georgia reimburses the Board over the same twelve month period in which teachers are paid, funding the academic school year expenditures. At June 30, the amount of teachers' salaries incurred but not paid until July and August of the subsequent year are accrued as the State of Georgia has only postponed the final payment of their share of the cost until the subsequent appropriations for cash management purposes. By June 30 of each year, the State of Georgia has a signed appropriation that includes this final amount, which represents the State of Georgia's intent to fund this final payment. Based on guidance in Government Accounting Standards Board (GASB) Statement No. 33, paragraph 74, the State of Georgia recognizes its QBE liability for the July and August salaries at June 30, and the Board recognizes the same QBE as a receivable and revenue, consistent with symmetrical recognition.

Property taxes, sales taxes, grant revenue, state Quality Basic Education (QBE) revenue and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period if availiability criteria is met. All other revenue items are considered to be measurable and available only when cash is received by the government.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The Board reports the following major governmental funds:

The General Fund is the Board's primary operating fund. The General Fund is used to account for all financial transactions of the Board except those required to be accounted for in another fund.

The SPLOST Capital Projects Fund accounts for resources which are used exclusively for acquiring school sites, constructing and equipping new school facilities, and renovating existing facilities. The major revenue sources are sales taxes.

Additionally, the Board reports the following non-major funds:

The special revenue funds account for revenue sources that are legally restricted or committed to expenditure for specific purposes. Restricted revenues consist of federal and state grants while the charges from the after school and local revenues from the student activities have been committed by the Board to fund the after school programs and student services, respectively.

The Board reports the following fiduciary fund type:

The agency fund accounts for assets held by the Board as an agent for student activity groups or individuals as it relates to the clubs and organizations of the school district.

The effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Inventories

Inventories of the School Food Services Fund are stated at cost using the first-in, first-out method. Donated food commodities are recorded at fair value. The Board utilizes the consumption method to recognize inventory usage. Under the consumption method, inventories are recorded as expenses/expenditures when used rather than when purchased.

Interfund Receivables and Payables

During the course of its operations, the Board makes transfers between funds to finance operations, provide services and acquire assets. To the extent that certain transfers between funds had not been received as of year end, balances of interfund amounts receivable or payable have been recorded.

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Capital Assets

General capital assets result from expenditures in governmental funds. The Board reports these assets in the governmental activities column of the government-wide statement of net position but does not report these assets in the governmental fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The Board maintains a capitalization threshold of five thousand dollars. Improvements to capital assets are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are expensed. Improvements are depreciated over the remaining useful lives of the related capital assets. The City of Cartersville owns the majority of the Board's buildings. Any renovations of existing buildings or construction of new buildings are recorded as an expense of the Board. Property, plant and equipment is depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Building and Land Improvements	20-25
Vehicles	8-15
Computers	5
Furniture and Equipment	5-15

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Compensated Absences

It is the Board's policy to permit employees to accumulate earned but unused sick pay benefits. There is no liability for unpaid accumulated sick leave since all accumulated sick leave is forfeited upon separation from the employer. It is the Board's policy not to accrue vacation leave and any unused vacation leave not taken before June 30 shall be forfeited.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers Retirement System of Georgia (TRS) and additions to/deductions from TRS's fiduciary net position have been determined on the same basis as they are reported by TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Fund Equity/Net Position

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between the assets and liabilities under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the Board is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- ***Nonspendable*** – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Equity/Net Position (Continued)

- ***Restricted*** – Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Board or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

- ***Committed*** – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the Board members through the adoption of a resolution. Only the Board members may modify or rescind the commitment.

- ***Assigned*** – Fund balances are reported as assigned when amounts are constrained by the Board's intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the Board members have authorized the Board's Superintendent and Director of Finance to assign fund balances.

- ***Unassigned*** – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The Board reports positive unassigned fund balance only in the general fund. Negative unassigned fund balances may be reported in all funds.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the Board's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the Board's policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

Net Position – Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources for activities and funds which use the accrual basis of accounting. Amounts shown as net investment in capital assets are made up of capital asset costs, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the Board has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position is reported as unrestricted.

The Board applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Governmental Activities report one type of deferred outflows of resources related to the reporting of the net pension liability. The deferred outflow of resources being recognized is the Board's actual contributions to the pension plan during the fiscal year ended June 30, 2015 which will be applied to future measurement periods.

In addition to liablities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Board has one type of deferred inflow under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes and these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available. The Board has two items that qualify for reporting in this category which occurs only in the governmental activities. Governmental Activities report (1) a deferred inflow of resources for the net difference between projected and actual investment earnings on the pension assets; and (2) a deferred inflow of resources for the difference between the Board's actual contributions towards the pension plan and the Board's proportionate share of contributions. These differences will be amortized over the remaining service period.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Data

The City of Cartersville Board of Education adopts annual budgets, as required by Georgia law and the State of Georgia Department of Education.

Prior to April 1st of each year, the Superintendent and the Board have work sessions to prepare the new upcoming budget. As soon as the Board receives the budgeted allocations from the State of Georgia Department of Education, the City of Cartersville School Board adopts the budget on or before their regular June meeting. The Board can then submit to the Cartersville City Council an estimate of the local revenue which will be required for the maintenance and operation of the public schools for the succeeding year no later than June 30th. Based on the budgeted requirements, the Board will recommend to the City Council the rate of tax levy that in its judgement, and considering other sources of revenue, shall be necessary and advisable to meet the expenditures contemplated. The City Council shall cause the tax levy to be set for the upcoming fiscal year. The proceeds from the City tax levy will be appropriated to the City of Cartersville Board of Education to meet budgetary requirements of the Board for the succeeding school year.

The budget shall be adopted at the level of budgetary control, which is the function level. For management control, the Board shall prepare and present the annual budget by fund type, fund function and object. Annual budgets are adopted for all governmental funds except the School Activities Fund. Encumbered appropriations are carried forward to the subsequent year automatically with no formal action required by the Board.

The Superintendent is authorized by the Board to approve an unlimited number of transfers of appropriations to make adjustments of less than five percent of the amount budgeted for expenditures in any function for any fund without the approval of the Board. If at any time during the budget year, expenditures of funds in any budget function for any fund are anticipated to exceed, by five percent or more, the amount budgeted; the Board must authorize the additional anticipated expenditures. Therefore, the legal level of budgetary control is the function level.

During the year the budget was amended to show previously unbudgeted grant fund receipts and the previously unbudgeted uses of those funds.

Budgetary/GAAP Basis Reconciliation

In the General Fund, accounting principles used in developing budgets on a budgetary basis differ from those used in preparing financial statements in conformity with generally accepted accounting principles (GAAP). Because related 2015 revenues and expenditures for certain personnel are budgeted in June 2014, based on information concerning cash to be received from the Georgia Department of Education's Quality Basic Education revenues and the City of Cartersville during the fiscal year which ends June 30, 2015, the July and August 2015 salaries for a number of employees of the Board have not been considered in the budgeted revenues and expenditures. Additionally, the recording of revenues and expenditures for on-behalf pension benefits and health insurance benefits from the State of Georgia were not considered in the budget period.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

Budgetary/GAAP Basis Reconciliation (Continued)

Thus, there is an accounting basis difference between the budget and actual Statement of Revenues, Expenditures and changes in Fund Balances in the General Fund that is reconciled as follows:

Actual Revenues GAAP Basis	$ 34,648,743	
Revenues Receivable Increase	(349,066)	
On-Behalf Benefit Contribution	(74,879)	
Budgeted Revenues, Budgetary Basis		$ 34,224,798
Expenditures GAAP Basis	$ 33,795,448	
Accrued Salary Increase	(349,066)	
On-Behalf Benefits Expenditure	(74,879)	
Budgeted Expenditures, Budgetary Basis		33,371,503
Other Financing Uses, Net		(28,346)
Revenues Over Expenditures and Other Financing Uses, Budgetary Basis		$ 824,949
Revenues Over Expenditures and Other Financing Uses, GAAP Basis		$ 824,949

The following functions had excesses of actual expenditures over appropriations in the amount shown for the fiscal year ended June 30, 2015.

General Fund:	
Support Services:	
Central support services	$ 7,989
Other support services	129,541
Capital Outlay	92,681

NOTE 3 - DEPOSITS AND INVESTMENTS

Composition

Cash consists of deposits (including certificates of deposit, savings accounts and interest bearing checking accounts) in authorized financial institutions. Georgia Law authorizes the Board to deposit its funds in one or more solvent banks, insured federal savings and loan associations, or insured state chartered building and loan associations. The placement of proceeds from bond issues in certificates of deposits is limited to financial institutions located within this state.

Interest rate risk. The Board does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit risk. The District is authorized by state statutes to invest in the securities of the United States Treasury, United States agencies and instrumentalities, repurchase agreements and the Georgia Fund 1 administered by the State of Georgia. It is the government's policy to limit any investments in these to the top rating issued by NRSROs. At June 30, 2015, all investments of the Board were invested in Georgia Fund 1, the local government investment pool, administered by the State of Georgia and are considered cash equivalents. The Georgia Fund 1 investment pool is not subject to credit risk classification and the carrying amount of $12,367,439 is at fair value, which is the same as the value of pool shares.

Georgia Fund One, created by OCGA 36-83-8, is a stable net asset value investment pool which follows Standard and Poor's criteria for AAAf rated money market funds. However, Georgia Fund One operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. Regulatory oversight of the fund is provided by the State Treasurer of the State of Georgia. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal ($1.00 per share value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participants' shares sold and redeemed based on $1.00 per share. As of June 30, 2015, the Board's investment in Georgia Fund 1 was rated AAAf by Standard & Poor's.

At June 30, 2015, the District had the following investments:

Investment	Maturities	Fair Value
Georgia Fund 1	56 day weighted average	$ 12,367,439

NOTE 3 - DEPOSITS AND INVESTMENTS (Continued)

Custodial credit risk. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the Board will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of June 30, 2015, the Board's cash accounts were insured and/or collateralized as defined by GASB Standards.

NOTE 4 - RECEIVABLES

Intergovernmental receivables consist of grant reimbursements due from federal, state or other grantors for expenditures made but not yet reimbursed. The Georgia Department of Education is the main government agency that grants are due from as of June 30, 2015.

Property taxes are levied on property values assessed as of January 1. The City of Cartersville bills and collects property taxes for the City of Cartersville Board of Education. The taxes are levied by October 15 based on the assessed value of property as listed on the previous January 1 and are due and collectable on Novmeber 15. Leins are enforceable on March 1 of the following year.

Property taxes are recorded as receivables and deferred revenues when assessed. Revenues are recognized when available.

NOTE 5 - CAPITAL ASSETS

Changes in capital assets used in the Board's governmental activities during the year ended June 30, 2015 were as follows:

	Beginning Balance	Additions	Reductions	Transfers	Ending Balance
Governmental activities:					
Building and land improvements	$ 271,125	$ -	$ -	$ -	$ 271,125
Vehicles	2,751,315	186,434	(223,506)	-	2,714,243
Computers	1,878,897	808,658	(76,078)	-	2,611,477
Furniture and equipment	2,338,889	433,441	(43,330)	-	2,729,000
Total depreciable	7,240,226	1,428,533	(342,914)	-	8,325,845
Accumulated depreciation:					
Building and land improvements	$ 23,865	$ 6,779	$ -	$ -	$ 30,644
Vehicles	1,961,443	194,707	(223,502)	-	1,932,648
Computers	687,301	346,274	(76,072)	-	957,503
Furniture and equipment	1,159,062	156,351	(41,080)	-	1,274,333
Total depreciable	3,831,671	704,111	(340,654)	-	4,195,128
Governmental activities capital assets, net	$ 3,408,555	$ 724,422	$ (2,260)	$ -	$ 4,130,717

Depreciation expense was charged to functions of the Board as follows:

Governmental activities:	
Instruction	$ 227,562
Pupil Services	1,222
Improvement of instructional services	1,432
Educational media services	1,606
General administration	7,993
School administration	3,944
Business administration	71,148
Maintenance and operations of plant services	47,828
Student transportation services	5,026
Central support services	65,852
Other support services	11,330
School nutrition program	259,168
Total depreciation expense	$ 704,111

NOTE 6 - INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of June 30, 2015 is as follows:

Due to / from other funds:

Receivable Fund	Payable Fund	Amount
General Fund	Non-major governmental funds	$ 622,356

These balances resulted from the time lag between the dates that payments between funds are made.

Transfers are used to use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Interfund transfers for the year ended June 30, 2015 are as follows:

Transfer in / out:

Transfer In	Transfer out	Amount
Non-major governmental funds	General Fund	$ 34,346

NOTE 7 - RISK MANAGEMENT

The Board is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; natural disaster; and unemployment compensation. The Board purchases commercial insurance for all risks of loss. Settled claims have not exceeded purchased commercial insurance coverage in any of the past three years. There was no significant reduction in insurance coverage.

NOTE 8 - RETIREMENT PLANS

GENERAL INFORMATION ABOUT THE TEACHERS RETIREMENT SYSTEM OF GEORGIA (TRS)

Plan description: All teachers of the Board as defined in §47-3-60 of the Official Code of Georgia Annotated (O.C.G.A.) and certain other support personnel as defined by §47-3-63 are provided a pension through the Teachers Retirement System of Georgia (TRS). TRS, a cost-sharing multiple-employer defined benefit pension plan, is administered by the TRS Board of Trustees (TRS Board). Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. TRS issues a publicly available financial report that can be obtained at www.trsga.com/publications.

Benefits provided: TRS provides service retirement, disability retirement, and death benefits. Normal retirement benefits are determined as 2% of the average of the employee's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. An employee is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. Ten years of service is required for disability and death benefits eligibility. Disability benefits are based on the employee's creditable service and compensation up to the time of disability. Death benefits equal the amount that would be payable to the employee's beneficiary had the employee retired on the date of death. Death benefits are based on the employee's creditable service and compensation up to the date of death.

Contributions: Per Title 47 of the O.C.G.A., contribution requirements of active employees and participating employers, as actuarially determined, are established and may be amended by the TRS Board. Pursuant to O.C.G.A. §47-3-63, the employer contributions for certain full-time public school support personnel are funded on behalf of the employer by the State of Georgia. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employees were required to contribute 6.00% of their annual pay during fiscal year 2015. The school district's contractually required contribution rate for the year ended June 30, 2015 was 13.15% of annual school district payroll. District contributions to TRS were $2,732,088 for the year ended June 30, 2015.

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS

Effective July 1, 2014, the District implemented the provisions of GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27, which significantly changed the Board's accounting for pension amounts. The information disclosed below is presented in accordance with this new standard.

NOTE 8 - RETIREMENT PLANS (Continued)

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS (Continued)

At June 30, 2015, the Board reported a liability for its proportionate share of the net pension liability that reflected a reduction for support provided to the Board by the State of Georgia for certain public school support personnel. The amount recognized by the Board as its proportionate share of the net pension liability, the related State of Georgia support, and the total portion of the net pension liability that was associated with the Board were as follows:

Board's proportionate share of the net pension liability	$ 25,141,783
State of Georgia's proportionate share of the net pension liability associated with the Board	256,843
Total	$ 25,398,626

The net pension liability was measured as of June 30, 2014. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2013. An expected total pension liability as of June 30, 2014 was determined using standard roll-forward techniques. The Board's proportion of the net pension liability was based on contributions to TRS during the fiscal year ended June 30, 2014. At June 30 2014, the Board's proportion was 0.199006%, which was a decrease of 0.003791% from its proportion measured as of June 30, 2013.

For the year ended June 30, 2015, the Board recognized pension expense of $1,601,013 and revenue of $16,669 for support provided by the State of Georgia for certain support personnel. At June 30, 2015, the Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	$ -	$ 8,764,959
Changes in proportion and differences between Board contributions and proportionate share of contributions	-	538,248
Board contributions subsequent to the measurement date	2,732,088	-
Total	$ 2,732,088	$ 9,303,207

NOTE 8 - RETIREMENT PLANS (Continued)

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS (Continued)

Board contributions subsequent to the measurement date of $2,732,088 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2016	$ (2,313,568)
2017	(2,313,568)
2018	(2,313,568)
2019	(2,313,568)
2020	(48,935)
Total	$ (9,303,207)

Actuarial assumptions: The total pension liability as of June 30, 2014 was determined by an actuarial valuation as of June 30, 2013 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00%
Salary increases	3.75 – 7.00%, average, including inflation
Investment rate of return	7.50%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females set back two years for males and set back three years for females.

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period July 1, 2004 – June 30, 2009.

NOTE 8 - RETIREMENT PLANS (Continued)

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS (Continued)

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Long-term expected real rate of return*
Fixed income	30.00%	3.00%
Domestic large equities	39.70	6.50
Domestic mid equities	3.70	10.00
Domestic small equities	1.60	13.00
International developed market equities	18.90	6.50
International emerging market equities	6.10	11.00
Total	100.00%	

* Rates shown are net of the 3.00% assumed rate of inflation

Discount rate: The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and State of Georgia contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 8 - RETIREMENT PLANS (Continued)

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS (Continued)

Sensitivity of the Board's proportionate share of the net pension liability to changes in the discount rate: The following presents the Board's proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the Board's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

	1% Decrease (6.50%)	Current discount rate (7.50%)	1% Increase (8.50%)
District's proportionate share of the net pension liability	$ 46,332,933	$ 25,141,783	$ 7,691,311

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued TRS financial report which is publically available at www.trsga.com/ publications.

GENERAL INFORMATION ABOUT THE PUBLIC SCHOOLS EMPLOYEES RETIREMENT SYSTEM (PSERS)

Plan description: PSERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly in 1969 for the purpose of providing retirement allowances for public school employees who are not eligible for membership in the Teachers Retirement System of Georgia. The ERS Board of Trustees, plus two additional trustees, administers PSERS. Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. PSERS issues a publicly available financial report that can be obtained at www.ers.ga.gov/formspubs/formspubs.

Benefits provided: A member may retire and elect to receive normal monthly retirement benefits after completion of ten years of creditable service and attainment of age 65. A member may choose to receive reduced benefits after age 60 and upon completion of ten years of service.

Upon retirement, the member will receive a monthly benefit of $14.75, multiplied by the number of years of creditable service. Death and disability benefits are also available through PSERS. Additionally, PSERS may make periodic cost-of-living adjustments to the monthly benefits. Upon termination of employment, member contributions with accumulated interest are refundable upon request by the member. However, if an otherwise vested member terminates and withdraws his/her member contribution, the member forfeits all rights to retirement benefits.

NOTE 8 - RETIREMENT PLANS (Continued)

GENERAL INFORMATION ABOUT THE PUBLIC SCHOOLS EMPLOYEES RETIREMENT SYSTEM (PSERS) (Continued)

Contributions: The general assembly makes an annual appropriation to cover the employer contribution to PSERS on behalf of local school employees (bus drivers, cafeteria workers, and maintenance staff). The annual employer contribution required by statute is actuarially determined and paid directly to PSERS by the State Treasurer in accordance with O.C.G.A. §47-4-29(a) and 60(b). Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Individuals who became members prior to July 1, 2012 contribute $4 per month for nine months each fiscal year. Individuals who became members on or after July 1, 2012 contribute $10 per month for nine months each fiscal year. The State of Georgia, although not the employer of PSERS members, is required by statute to make employer contributions actuarially determined and approved and certified by the PSERS Board of Trustees.

Pension Liabilities and Pension Expense

At June 30, 2015, the Board did not have a liability for a proportionate share of the net pension liability because of the related State of Georgia support. The amount of the State's proportionate share of the net pension liability associated with the District is as follows:

State of Georgia's proportionate share of the Net Pension Liability associated with the Board	$ 170,734

The net pension liability was measured as of June 30, 2014. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2013. An expected total pension liability as of June 30, 2014 was determined using standard roll-forward techniques. The State's proportion of the net pension liability associated with the Board was based on actuarially determined contributions paid by the State during the fiscal year ended June 30, 2014.

For the year ended June 30, 2015, the Board recognized pension expense of $14,827 and revenue of $14,827 for support provided by the State of Georgia.

***Actuarial assumptions*:** The total pension liability was determined by an actuarial valuation as of June 30, 2013, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0%
Salary increase	N/A
Investment rate of return	7.50%, net of pension plan investment expense, including inflation

NOTE 8 - RETIREMENT PLANS (Continued)

GENERAL INFORMATION ABOUT THE PUBLIC SCHOOLS EMPLOYEES RETIREMENT SYSTEM (PSERS) (Continued)

Mortality rates were based on the RP-2000 Combined Mortality Table set forward one year for males for the period after service retirement, for dependent beneficiaries, and for deaths in active service, and the RP-2000 Disabled Mortality Table set back two years for males and set forward one year for females for the period after disability retirement.

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period July 1, 2004 – June 30, 2009.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Long-term expected real rate of return*
Fixed income	30.00%	3.00%
Domestic large stocks	39.70	6.50
Domestic mid stocks	3.70	10.00
Domestic small stocks	1.60	13.00
International developed market stocks	18.90	6.50
International emerging market stocks	6.10	11.00
Total	100.00%	

* Rates shown are net of the 3.00% assumed rate of inflation

Discount rate: The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and nonemployer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 9 - COMMITMENTS AND CONTINGENCIES

Grant Programs

The Board participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies.

Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the Board has not complied with the rules and regulations governing the grants, refunds of any amounts received may be required and the collectibility of any related receivable at year-end may be impaired. In the opinion of the Board, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

Litigation

The Board is a defendant in certain legal actions in the nature of claims for alleged damages to persons and property and other similar types of actions rising in the course of Board operations. While the ultimate results of these legal actions cannot be determined, the Board does not expect that these matters will have a material adverse effect on the financial condition of the Board.

Encumbrances

As discussed in Note 2, the Board's policy is to automatically carry forward encumbered amounts into the subsequent budget period. As of June 30, 2015 the General Fund's encumbrances expected to be honored upon performance by vendor in the next year are $72,352.

NOTE 10 - ON-BEHALF PAYMENTS FOR FRINGE BENEFITS

The Board has recognized revenue and expenditures in the amount of $74,879 for retirement contributions paid on the Board's behalf as follows:

Paid by the Office the State Treasurer of the State of Georiga to the Public School Employees Retirement System for Public School Employees Retirement (PSERS) in the amount of $50,069.

Paid by the Georgia Department of Education to the Teachers Retirement System for Teachers Retirement (TRS) in the amount of $24,810.

NOTE 11 - POSTEMPLOYMENT BENEFITS

Georgia School Personnel Employees Postemployment Health Benefit Fund

Plan Description. The Board contributes to the Georgia School Personnel Postemployment Health Benefit Fund (the "Benefit Fund"), a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the Department of Community Health. The Benefit Fund provides health insurance benefits to eligible retirees and their qualified beneficiaries. Pursuant to Title 45, Chapter 18 of the Official Code of Georgia Annotated, the authority to establish and amend the benefit provisions of the plan is assigned to the Board of Community Health. The Department of Community Health issues a publicly available financial report that includes financial statements and required supplementary information for the Benefit Fund. That report may be obtained from the Department of Community Health at 2 Peachtree Street, Atlanta, Georgia 30303.

Funding Policy. The contribution requirements of the plan members and participating employers are established and may be amended by the Board of Community Health. Contributions of plan members or beneficiaries receiving benefits vary based on plan election, dependent coverage, and Medicare eligibility and election. On average, plan members pay approximately twenty-five percent (25%) of the cost of health insurance coverage. Participating employers are statutorily required to contribute in accordance with the employer contribution rate established to fund both the active and retired employee health insurance plans based on projected pay-as-you-go financing requirements.

The employer contribution rates for the combined active and retiree plans for the fiscal year ended June 30, 2015, were as follows:

Certified Employees	
July 2014 – June 2015	$945 per member per month
Non-Certified Employees	
July 2014 – June 2015	$596.20 per member per month

No additional contribution was required by the Department of Community Health for fiscal year 2015 nor contributed to the Benefit Fund to prefund retire benefits. Such additional contribution amounts are determined annually by the Board of the State of Georgia Department of Community Health in accordance with the State plan for other postemployment benefits and are subject to appropriation. The City of Cartersville Board of Education's contributions to the health insurance plans for the fiscal year ended June 30, 2015, 2014 and 2013 were $3,360,439, $3,290,309, and $3,238,191, which equaled the required contribution.

NOTE 12 – CHANGE IN ACCOUNTING PRINCIPLE

In conjunction with the implementation of Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, and Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*, the Board is required to change its accounting treatment of pension liabilities and the related pension expense. The new standard requires that the Board's proportionate share of the Net Pension Liability be recorded on the Statement of Net Position.

Therefore, in conjunction with the implementation of Statement No. 68 and Statement No. 71, the following restatement was required to the beginning net position of the Governmental Activities to properly recognize the Board's Net Pension Liability and related deferred outflows of resources for contributions subsequent to the measurement date as of the end of the prior period:

	Governmental Activities
Net position, as previously reported	$ 26,150,593
Restatement for implementation of GASB Statement No. 68:	
Net pension liability as of June 30, 2014	(35,337,134)
Deferred outflows of resources - contributions	2,493,157
Net position, as restated	$ (6,693,384)

Note: Schedule is intended to show information for the last 10 fiscal years. Additional years will be displayed as they become available.

Teachers Retirement System of Georgia:

***Changes of assumptions*:** In 2010 and later, the expectation of retired life mortality was changed to the RP‑2000 Mortality Tables rather than the 1994 Group Annuity Mortality Table, which was used prior to 2010. In 2010, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience. In 2010, assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

***Method and assumptions used in calculations of actuarially determined contributions*:** The actuarially determined contribution rates in the schedule of contributions are calculated as of June 30, three years prior to the end of the fiscal year in which contributions are reported. The following actuarial methods and assumptions were used to determine the contractually required contributions for year ended June 30, 2015 reported in that schedule:

Valuation date	June 30, 2012
Actuarial cost method	Entry age
Amortization method	Level percentage of payroll, open
Remaining amortization period	30 years
Asset valuation method	Seven-year smoothed market
Inflation rate	3.00%
Salary increases	3.75 – 7.00%, including inflation
Investment rate of return	7.50%, net of pension plan investment expense, including inflation

Public Schools Employees Retirement System of Georgia:

***Changes of assumptions*:** The last experience investigation was prepared for the five-year period ending June 30, 2009, and based on the results of the investigation various assumptions and methods were revised and adopted by the board on December 16, 2010. The next experience investigation will be prepared for the period July 1, 2009 through June 30, 2014.

(1) The School District's original cost estimate as specified in the resolution calling for the imposition of the Local Option Sales Tax.

(2) The School District's current estimate of total cost for the project(s). Includes all cost from project inception to completion.

(3) The voters of Bartow County approved the imposition of a 1% sales tax to fund the above projects and retire associated debt.

STATISTICAL SECTION

This part of the City of Cartersville Board of Education's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Board's overall financial health.

Page

Financial Trends **57**

These schedules contain trend information to help the reader understand how the Board's financial performance and well-being have changed over time.

Revenue Capacity **61**

These schedules contain information to help the reader assess the Board's most significant local revenue source, property tax.

Debt Capacity **65**

These schedules present information to help the reader assess the affordability of the Board's current levels of outstanding debt and the Board's ability to issue additional debt in the future.

Demographic and Economic Information **67**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the Board's financial activities take place.

Operating Information **75**

These schedules contain service and infrastructure data to help the reader understand how the information in the Board's financial report relates to the services the Board provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial report for the relevant year.

DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT AS OF JUNE 30, 2015 *

Governmental Unit	Debt Outstanding	Estimated Percentage Applicable (1)	Estimated Share of Overlapping Debt
City of Cartersville, Georgia	$ 10,735,000	100%	$ 10,735,000
Bartow County, Georgia	55,520,000	25%	13,880,000
Total overlapping debt	$ 66,255,000		$ 24,615,000

Sources: Assessed value data used to estimate applicable percentages provided by the Bartow County Tax Commissioner. Debt outstanding data obtained from the City of Cartersville.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the County's taxable assessed value that is within the government's boundaries and dividing it by the County's total taxable assessed value.

COMPLIANCE SECTION

MAULDIN & JENKINS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMLPIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Superintendent and Members of
the City of Cartersville Board of Education
Cartersville, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Cartersville Board of Education (the "Board"), a component unit of the City of Cartersville, Georgia, as of and for the year ended June 30, 2015, and the related noted to the financial statements, which collectively comprise the City of Cartersville Board of Education's basic financial statements, and have issued our report thereon dated November 9, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Board's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, we do not express an opinion of the effectiveness of the Board's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MAULDIN & JENKINS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Superintendent and Members of
the City of Cartersville Board of Education
Cartersville, Georgia

Report on Compliance for Each Major Federal Program

We have audited the City of Cartersville Board of Education's, a component unit of the City of Cartersville, Georgia, compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the City of Cartersville Board of Education's major federal programs for the year ended June 30, 2015. The City of Cartersville Board of Education's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City of Cartersville Board of Education's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Cartersville Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City of Cartersville Board of Education's compliance.

Opinion on Each Major Federal Program

In our opinion, the City of Cartersville Board of Education complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of the City of Cartersville Board of Education is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Cartersville Board of Education's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Cartersville Board of Education's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
