TABLE OF CONTENTS

Introductory Section

Table of Contents	i-iii
Letter of Transmittal	iv-ix
Board Members	x
Organizational Chart	xi

Financial Section

Independent Auditor's Report	1-3
Management's Discussion and Analysis	4-14
Basic Financial Statements:	
Government-wide Financial Statements:	
Statement of Net Position	15
Statement of Activities	16
Fund Financial Statements:	
Balance Sheet – Governmental Funds	17
Reconciliation of the Governmental Balance Sheet to the Statement of Net Position	18
Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds	19
Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities	20
General Fund – Statement of Revenues, Expenditures, and Changes in Fund Balance – Budget to Actual	21
Notes to the Basic Financial Statements	22-50
Required Supplementary Information:	
Schedule of Proportionate Share of Net Pension Liability – Teachers Retirement System of Georgia	51
Schedule of Contributions – Teachers Retirement System of Georgia	52
Schedule of Proportionate Share of Net Pension Liability – Employees' Retirement System of Georgia	53
Schedule of Contributions – Employees' Retirement System of Georgia	54
Schedule of Proportionate Share of Net Pension Liability – Public School Employees Retirement System of Georgia	55
Schedule of Proportionate Share of Net OPEB Liability – School OPEB Fund	56
Schedule of Contributions – School OPEB Fund	57
Notes to the Required Supplementary Information	58

Individual Fund Schedules Section:

Capital Projects Fund – Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget to Actual 59
Debt Service Fund – Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget to Actual 60
Schedule of Expenditures of Educational Local Option Sales Tax Proceeds 61

Statistical Section

Financial Trends – These schedules contain trend information to help the reader understand how the School District's financial performance and well-being have changed over time.

Net Position by Component 62
Changes in Net Position 63
Fund Balances – Governmental Funds 64
Changes in Fund Balances – Governmental Funds 65

Revenue Capacity – These schedules contain information to help the reader access the School District's most significant local revenue source, property tax.

Assessed Value and Estimated Actual Value of Property by Type 66
Property Tax Rates – Direct and Overlapping Governments 67
Principal Property Taxpayers 68
Property Tax Levies and Collections 69

Debt Capacity – These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.

Ratios of Total Debt Outstanding by Type 70
Ratios of General Bonded Debt Outstanding 71
Direct and Overlapping Governmental Activities Debt 72
Legal Debt Margin 73

Economic & Demographic – These schedules offer demographic and economic indicators to help the reader understand the environment within which the School District's financial activities take place.

Demographic and Economic Statistics 74
Principal Employers 75

Operating Information – These schedules contain service and infrastructure data to help the reader understand how the information in the School District's financial report related to the services the School District provides and the activities it performs.

Employees by Function 76
Teacher Salary Schedule 77
School Buildings Capacity 78-79
Number of Personnel and Ratio of Pupils to Professional Personnel 80
Operating Statistics 81

Compliance Section

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* 82-83
Independent Auditor's Report on Compliance for Each Major Federal Program and on Internal Control Over Compliance Required by the Uniform Guidance 84-85
Schedule of Expenditures of Federal Awards 86
Notes to the Schedule of Expenditures of Federal Awards 87
Schedule of Findings and Questioned Costs 88-89

18 December 2020

To: Members of the Cherokee County Board of Education
Citizens of Cherokee County

Please see the attached Comprehensive Annual Financial Report (CAFR) for the fiscal year that ended June 30, 2020, submitted on behalf of the Cherokee County School District (School District). The report that follows was prepared by staff within the Office of Financial Management as fulfillment of the requirements for audit prescribed by Georgia Statutes for local boards of education, as well as the Single Audit Requirements of Federal and State governments.

The CAFR conforms to generally accepted accounting principles as applied to governmental entities, as well as to standards of the Governmental Accounting Standards Board (GASB) and the Government Finance Officers Association (GFOA). Responsibility for the accuracy, completeness and fairness of the information presented, including all disclosures and assurances, rests with the School District management team, based on a comprehensive framework of internal controls established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Williamson and Company CPAs has issued an unmodified ("clean") opinion on the Cherokee County School Board's financial statements for the fiscal year that ended June 30, 2020. The independent auditor's report is located at the front of the financial section of this report.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Following the MD&A are the basic financial statements, including the government-wide financial statements, the fund financial statements and the

1205 Bluffs Parkway
Canton, Georgia 30114
770.479.1871
www.cherokeek12.net

notes to the financial statements. The required supplementary information and the statistical section complete the CAFR.

Profile of Cherokee County School District

The School District is a political subdivision of the State of Georgia, separate from and legally and fiscally independent of Cherokee County and all other political subdivisions. The boundaries of the School District are coterminous with the territorial limits of Cherokee County. The School District is the only school district in Cherokee County and is vested by the Georgia Constitution and enabling legislation with the power to conduct a system of kindergarten through grade twelve public education within the territorial limits of Cherokee County.

Under the Georgia Constitution, the Cherokee County Board of Education (School Board) was created to manage and control the School District. The School Board consists of seven members, six elected within designated geographic districts and one Chair elected on a county-wide basis by all qualified voters of Cherokee County. Each School Board member is elected to office for a term of four years or until his/her successor is elected and qualified.

The School Superintendent is the Chief Executive Officer of the Board of Education and is employed by the School Board under written contract for a term of not less than one year and not more than three years. The School Superintendent acts as the Secretary of the Board of Education, ex officio.

Dr. Brian V. Hightower has been the Superintendent of Schools for the School District since February 1, 2016 and is responsible for the day-to-day operations of the School District. Dr. Hightower has been employed by the School District for 34 years, and, prior to his appointment as Superintendent, served in various capacities, including teacher, assistant principal, principal, Director of School Operations, Assistant Superintendent of School Operations and Deputy Superintendent. Dr. Hightower's educational background includes the following: Reinhardt College (A.A., Liberal Arts), Kennesaw State University (B.S., Education, 7-12), North Georgia College & State University (M.Ed., Education, 7-12), Georgia State University (Ed.S., Education, 4-8), and Samford University (Ed.D., Educational Leadership).

The School District is comprised of 23 elementary schools, seven middle schools, six high schools, one alternative school, one evening school, one special education school and one pre-school center. These facilities currently serve 41,223 students. All schools are accredited by the Georgia Accrediting Commission and have met requirements for Standard Schools as set forth by the Georgia Department of Education. The School District and its schools are accredited by Cognia (formerly AdvancED).

As of October 2020, the School District employed 4,891 full time employees in the following categories:

• Certified Classroom Teachers	2,763
• Classroom Paraprofessionals	374
• Other Instructional and Student Support Staff	378
• Administrators (includes Central Office)	206
• School Nutrition, Transportation, Clerical and Maintenance	1,170

All certified classroom teachers hold Bachelor's degrees, with 73% earning advanced degrees (Master's, Specialist's and/or Doctoral degrees). The 2020-21 school year estimated overall pupil-teacher ratio, not including non-teaching personnel (such as counselors, therapists and media specialists), is 15:1.

Local Economy and Outlook

Cherokee County is located approximately 35 miles north of the City of Atlanta, a major national center for finance, transportation, distribution and communications. The Cherokee community benefits from this proximity, particularly as it relates to the earnings potential for residents.

The per capita income in Cherokee County is approximately 10% above that of the State of Georgia and growing at a rate of 3.2% in 2019, the latest year for which figures are available. The median household income in Cherokee County was $79,670 in 2018, compared to the State average of $55,679 and the National average of $60,293.

The 2020 median home value in Cherokee County is $310,000, a 6.9% increase over 2019. Home values are projected to increase another 7.5% in 2021. This translates to a growing tax digest that has greatly benefited the

students of Cherokee County. After tax base declines during 2009, 2010 and 2011 (as a direct result of the national recession), the Cherokee County tax digest has grown an average of more than 7.6% in each of the last six years.

Sales tax collections are a major indicator of the strength of a local economy. In Cherokee County, collections from the Education Special Purpose Local Sales Tax (Ed-SPLOST) have grown by more than 51% since 2011 and approximately 73% since 2004. In fact, revenue from the one percent sales tax has grown in every year since 1998 except for four (3 of which were due to the national recession), with many of those years growing in double digits. This, along with the strong growth in the tax digest, indicate a healthy and thriving economy.

Due in large part to the strong and healthy local economy, the School District has seen two credit rating upgrades since 2015. Moody's credit rating is currently Aa2 with a Stable outlook and S&P's credit rating is currently AA with a Stable outlook. Both credit agencies cited a large, diverse tax base, stable and growing reserves and positive general fund results in recent years as rationale for credit rating upgrades.

Long Term Financial Planning

Unrestricted fund balances in all funds have increased in recent years, in large part due to increased revenues but also due to expenditure controls, management inquiry and analysis, and School Board expectations. The unassigned general fund balance at June 30, 2020 is $60.7 million, representing 14% of the previous year budgeted expenditures, which is within the School Board's Policy of 12-15%. Debt service fund balance is anticipated to continue to increase due to Ed-SPLOST collections coming in above projections, an additional one-half mill of property tax revenue being dedicated to debt service by the School Board and strong growth in property tax digest.

The School District plans capital improvements as needs arise due to increased student population, age of the physical plant and future growth patterns. Formalized capital outlay plans are reviewed at least annually and are generated based on enrollment forecasts, facility assessments and anticipated revenue.

The School District relies on revenue generated by Ed-SPLOST, approved overwhelmingly by voters in November 2016, for repayment of bonds issued in previous years that resulted in 21 new and replacement schools, installation of major technology infrastructure, land acquisition and major renovations of aging facilities. Additionally, in June 2017 and again in June 2019 the School Board approved shifting one-half mill in property tax from Maintenance and Operations to Debt Service (total of 1 mill beginning in 2019) to generate supplementary revenue to permit use of monthly Ed-SPLOST funds for current expenditures, such as replacement of classroom technology devices and major building repairs.

Formal School Board Policies relative to financial management are analyzed annually in order to provide a strong basis for ongoing financial decisions. The following are examples of such Policies:

- Goals and Objectives (Revised 2019)
- Annual Operating Budget (Revised 2016)
- Fund Balance (Revised 2017)
- Local Tax Revenues (Revised 2019)
- Debt Management (Adopted 2017)
- Accounting and Reporting – Capital Assets (Adopted 2019)
- Cash Management and Investments (Adopted 2018)
- Expenditure of Funds (Revised 2018)
- Contract and Compensation Procedures (Revised 2019)
- Purchasing (Revised 2018)
- Student Activities Funds Management (Revised 2018)

Awards and Acknowledgements

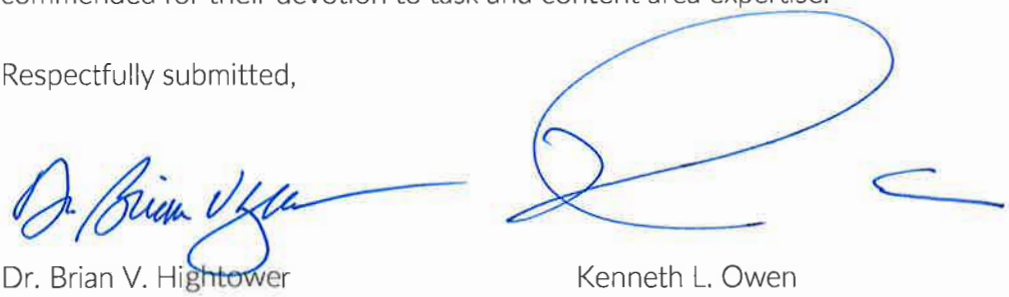

The GFOA awards a Certificate of Achievement for Excellence in Financial Reporting to governmental entities annually. The CAFR for year ending June 30, 2018 was the first year the School District developed a CAFR and submitted to GFOA for consideration of this important award. While the FY2018 and FY2019 CAFR were not awarded a Certificate of Achievement, valuable feedback was provided by GFOA and is reflected in the FY2020 CAFR attached.

The School District's FY2020 Annual Budget received the Silver award from the Georgia School Public Relations Association (GSPRA) for Special Publications based on readability, use of graphics and ease of understanding.

Future iterations of the Annual Budget will be submitted to GFOA for consideration of the Distinguished Budget Presentation Award.

The preparation of this report was completed by the dedicated and professional staff within the Office of Financial Management. Specifically, Jenna Williams, Coordinator for Financial Compliance and Reporting, and Marjorie DeFrank, Executive Director for Financial Management, are to be commended for their devotion to task and content area expertise.

Respectfully submitted,

Dr. Brian V. Hightower

INDEPENDENT AUDITOR'S REPORT

To the Superintendent and Members of
The Cherokee County Board of Education
Canton, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Cherokee County School District (the "School District"), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Cherokee County School District, as of June 30, 2020, and the respective changes in financial position thereof, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4-14 and the schedules related to the School District's pension plan and other post-employment benefits plan on pages 51-58 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Cherokee County School District's basic financial statements. The introductory section, individual fund schedules, statistical section, Schedule of Expenditures of Educational Local Option Sales Tax Proceeds, as required by the Official Code of Georgia §48-8-121 and the Schedule of Expenditures of Federal Awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The individual fund schedules, Schedule of Expenditures of Educational Local Option Sales Tax Proceeds, and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund schedules, Schedule of Expenditures of Educational Local Option Sales Tax

Proceeds and the Schedule of Expenditures of Federal Awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 18, 2020 on our consideration of the Cherokee County School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance, and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Cherokee County School District's internal control over financial reporting and compliance.

Williamson and Company
Certified Public Accountants
December 18, 2020

Introduction

The discussion and analysis of the Cherokee County School District's (the "School District") financial performance provides an overview of the School District's financial activities for the fiscal years ended June 30, 2020 and June 30, 2019. The intent of this discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the notes to the basic financial statements and the financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2020 are as follows:

- Total Fund Balance increased from $154.7 million in 2019 to $203.3 million in 2020, an increase of $48.7 million, or 31.5%. The increase is largely due to the property and sales tax revenue increases, which increased the Debt Service fund balance from $72.8 million in 2019 to $76.6 million in 2020, an increase of 5.1%. The Capital Projects' fund balance of $50.4 million is primarily due to the issuance of general obligation bonds in January 2020. The General Fund's fund balance increased by $8.8 million, due primarily to an increase in property tax receipts and a sharp decrease in operating expenditures (utilities, fuel for buses, supplies, etc.) in the final quarter of the fiscal year as a result of school closures due to the COVID-19 pandemic.

- Total revenue increased from $496.4 million in 2019 to $528.7 million in 2020, an increase of $32.3 million, or 6.5%. The revenue increase was primarily from higher state funding and increased property and sales tax receipts.

- Total net position changed from negative $327.2 million in 2019 to negative $323.8 million in 2020, an increase of $3.5 million, or an improvement of net position of 1.1%. Total assets and deferred outflows increased 10.9%, driven primarily by a 28.3% increase in current assets. Total liabilities and deferred inflows increased 7.7%, driven primarily by a 16.6% increase in Net Pension Liability, as calculated by the Teachers Retirement System of Georgia.

Overview of the Financial Statements

This annual report consists of three parts: management's discussion and analysis, the basic financial statements and required supplementary information. The basic financial statements include two levels of statements that present different views of the School District. These include the Government-wide and fund financial statements.

The Government-wide financial statements include the Statement of Net Position and Statement of Activities. These statements provide information about the activities of the School District presenting both short-term and long-term information about the overall financial status.

The fund financial statements focus on individual parts, reporting the School District's operation in more detail. The Governmental Funds statements disclose how basic services are financed in the short-term as well as what remains for future spending.

The fund financial statements reflect the School District's most significant funds. For the years ending June 30, 2020 and June 30, 2019, the General Fund, the Capital Projects Fund, and the Debt Service Fund represent the most significant funds.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements. Additionally, the Individual Fund Schedules Section (other supplementary information that is not required) is presented that further supplements understanding of the financial statements.

Government-wide Statements

The government-wide financial statements provide readers with a broad overview of the School District's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the School District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

The Statement of Activities presents information showing how the School District's net position changed during the most recent fiscal year. Changes in net position appear as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses appear in this statement for some items that will result in future fiscal period's cash flows (e.g., uncollected taxes and earned but unused vacation leave).

The Statement of Net Position and the Statement of Activities reflect the School District's governmental activities.

Fund Financial Statements

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

All of the School District's activities are reported in governmental funds. The governmental fund statements focus on how money flows in and out of those funds and the balances left at year-end that are available for spending in future periods. These funds are reported using the modified accrual basis of accounting which measures cash and all other financial assets that can readily be converted to cash. These statements also provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund

information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The School District maintains numerous governmental funds with the majority of activities occurring in the General Fund. The differences between governmental activities (reported in Statement of Net Position and Statement of Activities) and governmental funds are reconciled in the financial statements.

Financial Analysis of the School District as a Whole

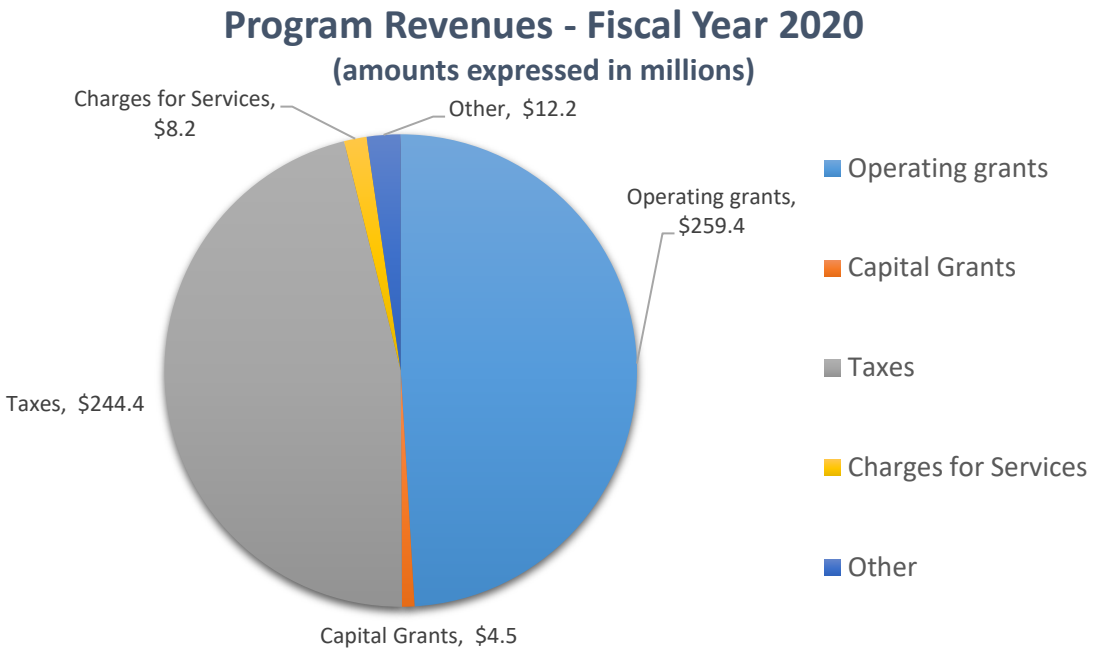

Recall that the Statement of Net Position provided the perspective of the School District as a whole. The table below provides a summary of the School District's net position as of June 30, 2020 and June 30, 2019.

Net Position

	Governmental Activities		Change
	June 30, 2020	June 30, 2019	2019-2020
Assets			
Current Assets	$ 255,040,000	$ 198,787,415	28.3%
Capital Assets, Net	574,931,925	579,441,720	-0.8%
Total Assets	**$ 829,971,925**	**$ 778,229,135**	**6.6%**
Deferred Outflows of Resources	$ 152,687,459	$ 107,575,797	41.9%
Liabilities			
Current Liabilities	$ 59,972,834	$ 51,658,186	16.1%
Long-Term Liabilities	1,167,446,582	1,096,063,167	6.5%
Total Liabilities	**$ 1,227,419,416**	**$ 1,147,721,353**	**6.9%**
Deferred Inflows of Resources	$ 79,023,781	$ 65,326,054	21.0%
Net Position			
Invested in Capital Assets	$ 144,061,247	$ 114,343,646	26.0%
Restricted	88,589,088	87,138,047	1.7%
Unrestricted	(556,434,148)	(528,724,168)	-5.2%
Total Net Position	**$ (323,783,813)**	**$ (327,242,475)**	**1.1%**

Governmental accounting standards require the School District to report its proportional liability of state administered pension and OPEB plans in which the School District participates for the benefit of its employees. The long-term liabilities related to Pension and OPEB at June 30, 2020 of $693.2 million increased by 8.4%, or $53.5 million from June 30, 2019. Deferred Outflows of Resources reflected an increase of 43.8% and Deferred Inflows of Resources increased 21.0%, due to this reporting. Although the resulting negative net position of this reporting causes a deficit balance in unrestricted net position, it should not be considered a financial weakness as the pension and OPEB costs are spread out over multiple years well into the future.

The graph below shows the Program Revenues for fiscal year 2020.

The graph below shows the Program Expenses for fiscal years ending June 30, 2020 and June 30, 2019 by expense category.

The table below shows the Changes in Net Position for fiscal years ending June 30, 2020 and June 30, 2019.

Changes in Net Position

	Governmental Activities		Change
	Fiscal Year 2020	Fiscal Year 2019	2019-2020
Revenues			
Program Revenues			
Charges for Services	$ 8,179,194	$ 21,246,091	-61.5%
Operating Grants and Contributions	259,413,966	241,765,291	7.3%
Capital Grants and Contributions	4,500,880	7,441,006	-39.5%
General Revenues			
Taxes	$ 244,373,236	$ 223,069,354	9.6%
Other	12,233,806	2,918,238	319.2%
Total Revenues	**$ 528,701,082**	**$ 496,439,980**	**6.5%**
Expenses			
Instructional Services	$ 349,806,598	$ 299,191,977	16.9%
Pupil and Imp. Instructional Services	46,935,305	39,280,213	19.5%
School and Administrative Services	37,335,377	32,778,523	13.9%

Revenues

In 2020, the School District's total revenues increased 6.5%, or $32.3 million, over the prior year due primarily to an increase in state funding and increased tax revenue.

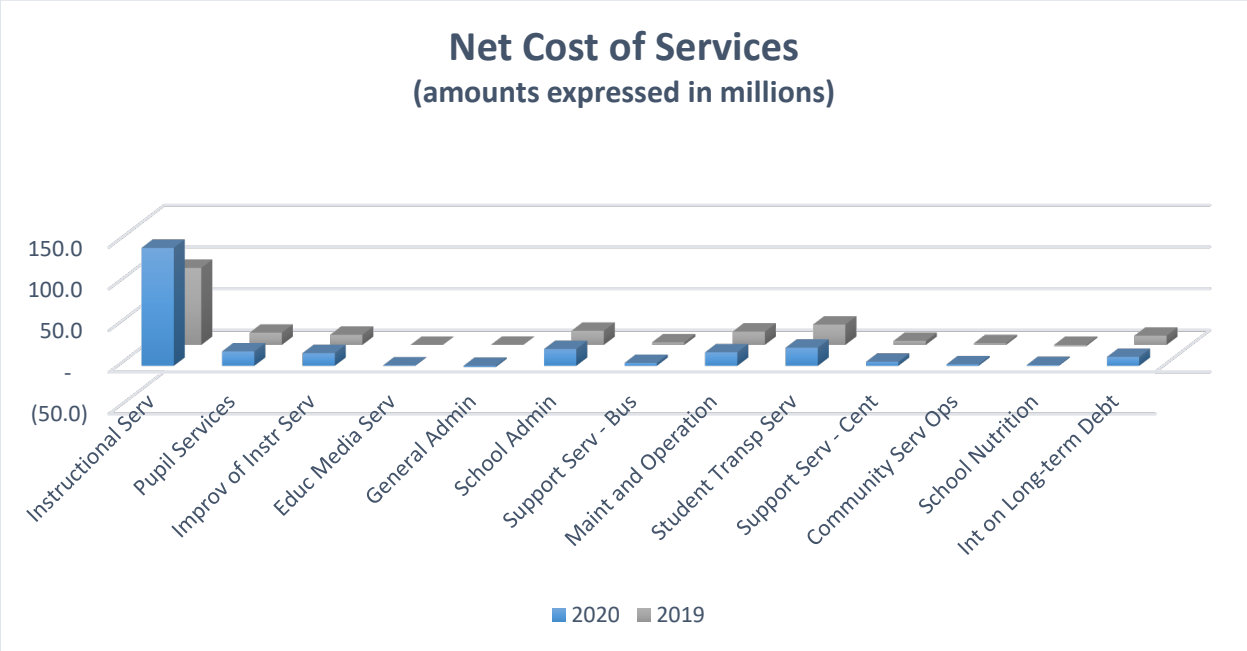

- Operating Grants and Contributions increased 7.3%, or $17.6 million, over the prior year due to an increase in state instructional program revenue.
- Capital Grants and Contributions decreased 39.5%, or $2.9 million, over the prior year due primarily to decreased eligibility for state funds for certain construction projects.
- General Revenues - Taxes increased 9.6%, or $21.3 million, over the prior year due to an 8.9% increase in real property tax receipt (M&O and Debt Service combined) and a 6.3% increase in sales taxes within the School District's county during the year ended June 30, 2020.

Expenses

In 2020, the School District's total expenses increased 12.8%, or $59.5 million, over the prior year due primarily to an increase in salaries and benefits and in instructional operating costs offset by decreases in transportation and school nutrition operating costs.

- The School District added 30 teachers in fiscal year 2020 to address student population growth and assure appropriate staffing levels to support instruction of all students.
- Initiatives to attract and retain the best teachers, principals and support staff in fiscal year 2020 included providing a $3,000 per year per teacher pay increase, a 2% cost-of-living raise for classified employees, an annual longevity-step increase for all eligible employees and closing identified gaps in salary for certain clerical staff, school police officers and school nurses.
- The School District provided funding to continue competitive employee fringe benefits and to address cost increases in employer contributions to Teachers Retirement System of Georgia.
- Instructional operating costs increased due to an increase in textbook adoption expenses as well as purchase of laptop computers for student use during fiscal year 2020.
- Total operating costs decreased during the fourth quarter of the fiscal year due to a sharp decrease in operating expenditures (food and fuel expenditures) as a result of school closures due to the COVID-19 pandemic.

The graph below shows the change in the Net Cost of Services for fiscal years ending June 30, 2020 and June 30, 2019.

The Cost of Services table below shows, for governmental activities, the total cost of services and the net cost of services. Net cost of services can be defined as the total cost less fees generated by the activities and intergovernmental revenue provided for specific programs. The net cost reflects the financial burden on the School District's taxpayers by each activity (48.3% overall for the year ended June 30, 2020).

Cost of Services

Financial Analysis of the School District's Funds

The School District ended fiscal year 2020 with a positive fund balance in its governmental funds. The combined balance of all governmental funds, at $203.3 million, was 31.5% higher than 2019's ending balance of $154.7 million. The General Fund's fund balance increased by $8.8 million, or 13.0%. This level achieves the Board Policy goal of the School District achieving and maintaining an unassigned fund balance in the General Fund at fiscal year-end of not less than 12.0-15.0% of prior year general fund budgeted expenditures. Capital Projects fund increased its fund balance by $36.1 million, an increase of 253.1%, due primarily to the issuance of general obligation bonds in January 2020. Debt Service increased its fund balance by $3.7 million, an increase of 5.1%, due in large part to the movement by the School Board of an additional one-half mill of property tax from maintenance and operations to debt service in FY20, bringing the total to 1.0 mills dedicated to debt service.

General Fund Budgeting Highlights

The most significant fund for the School District is the General Fund, funded primarily through state revenue and local property tax revenue. The State of Georgia is required to maintain a balanced budget (a constitutional requirement in Georgia), as are all state-funded school districts.

For the General Fund, actual revenues of $468.4 million were 101% of the final budgeted amount of $463.7 million. The final actual expenditures of $460.4 million were 99.5% of the final budgeted amount of $462.6 million. While budgeted revenues exceeded budgeted expenditures by $1.1 million, actual results for the fiscal year show that expenditures were under revenues by $8.1 million. This was primarily due to decreased operating expenses (utilities, fuel for buses, supplies, etc.) for the last quarter of the fiscal year as a result of school closure in response to COVID-19.

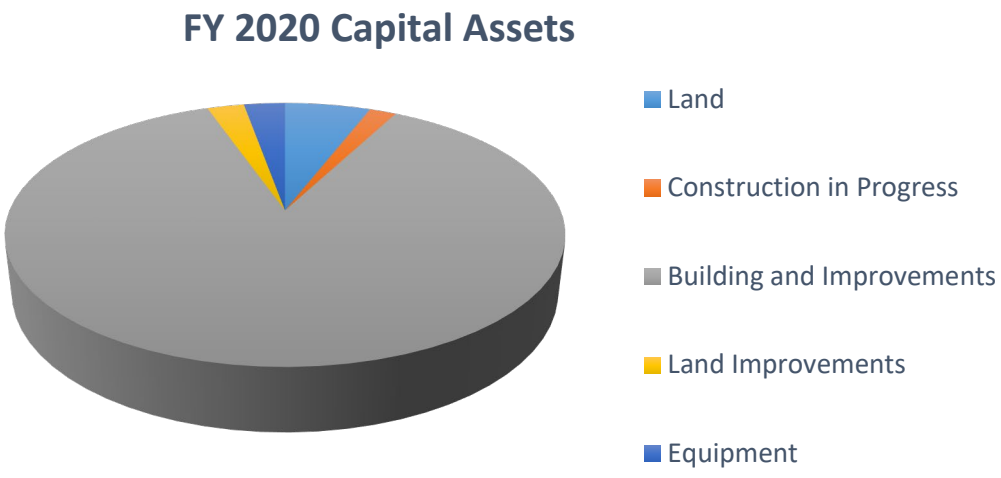

General Fund Balance

As the operating fund of the School District, General Fund revenue from state and federal sources accounted for 54.8% of revenue. The other 45.2% is from local sources, primarily ad valorem taxes. In fiscal year 2020, state funding increased by $17.6 million, due to increased state funding for student enrollment growth and a $3,000 per year per teacher salary increase and resulting increases in associated benefit costs. Local revenues increased by $10.7 million, primarily as a result of 8.4% growth in the property tax digest over prior year. The School District's maintenance and operation millage rate is 18.45 mills, which is a reduction of .5 mills from fiscal year 2019. The School Board moved the one-half mill from maintenance and operation to debt service in fiscal year 2020. $3.0 million of the June 30, 2020 General Fund balance has been assigned to Instructional Services.

Capital Assets and Debt Administration

Capital Assets

As of June 30, 2020 and June 30, 2019, the School District had $574.9 million and $579.4 million, respectively, invested in a broad range of capital assets, including land, buildings, and furniture and equipment for its governmental activities.

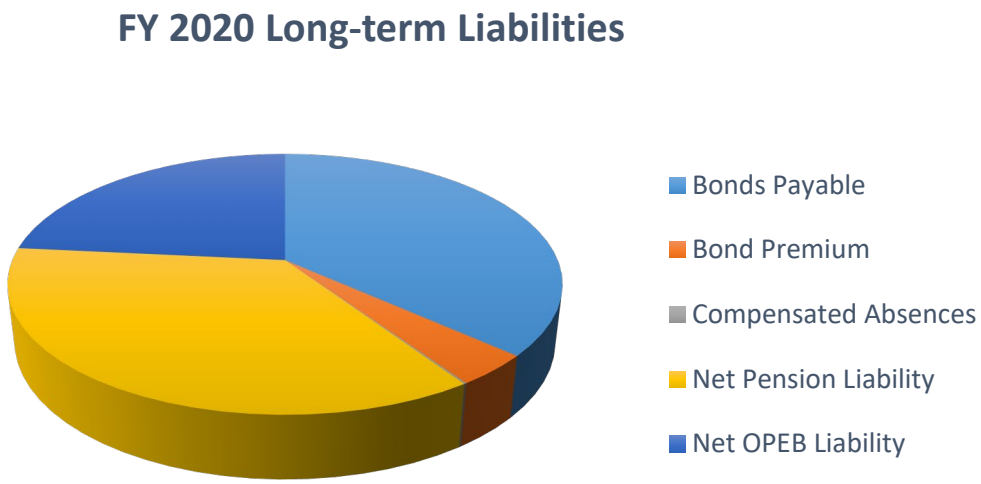

The table below summarizes and compares the capital assets for 2020 and 2019, breaking down the asset balances, by class, net of accumulated depreciation.

Capital Assets
(Net of Accumulated Depreciation)

	Governmental Activities	
	Fiscal Year 2020	**Fiscal Year 2019**
Land	$ 33,975,645	$ 33,975,645
Construction in Progress	10,623,303	6,531,152
Building and Improvements	499,408,983	510,910,043
Land Improvements	14,631,463	14,660,400
Equipment	16,292,531	13,364,480
Total	$ 574,931,925	$ 579,441,720

Long-Term Obligations

As of June 30, 2020, the School District had $427.5 million in general obligation and qualified school construction bonds outstanding with $21.3 million due within one year. On November 8, 2016, the citizens of Cherokee County approved a referendum to collect a one cent Education Special Purpose Local Option Sales Tax (Ed-SPLOST) for five years beginning January 1, 2018 and ending December 31, 2022. The bonds will be repaid from sales tax proceeds of this continuing Ed-SPLOST and from proceeds derived from 1 mill of ad valorem property tax, a one-half mill increase from 2019.

The table below summarizes and compares the School District's liabilities for 2020 and 2019.

Long-term Liabilities at June 30

	Governmental Activities	
	Fiscal Year 2020	**Fiscal Year 2019**
Bonds Payable	$ 427,525,000	$ 413,085,000
Bond Premium	45,185,291	41,788,073
Compensated Absences	1,538,346	1,537,230
Net Pension Liability	419,413,252	359,724,288
Net OPEB Liability	273,784,693	279,928,576
Total	$ 1,167,446,582	$ 1,096,063,167

At June 30, 2020, the School District's assigned long-term bond ratings were Aa2 Stable and AA Stable as determined by Moody's Investor Services, Inc. and Standard and Poor's Rating Services, respectively.

Additional information on the School District's capital assets and long-term obligations can be found in Note 5 and Note 8 of the Basic Financial Statements section of this document.

Factors Affecting the School District's Future

The fiscal year 2021 budget was presented to the public and tentatively adopted by the Board of Education on June 18, 2020 with the final adoption on July 16, 2020. The budget represents an investment plan for the School District, its students, employees, and the communities as a whole. The budget is tied directly to the strategic vision and direction of the Board of Education. The budget for the General Fund expenditures for fiscal year 2021 is $410.5 million, representing a reduction of $7.6 million or 1.8% from the fiscal year 2020 General Fund budget. This decrease is reflective of a significant decrease in state funding due to a $23.3 million Austerity Reduction applied to the State's Quality Basic Education funding formula for public education and resulting budgetary decreases in the General Fund. This reduction in State of Georgia funding reflects the downturn in the state economy due to the COVID-19 pandemic.

The fiscal year 2021 millage rate is 19.45 mills, with 18.45 mills to support the School District's operating budget (Maintenance and Operations) and 1.0 mills for bond debt service. The rate remains unchanged from 2020. The 1.0 mill for debt services reduces pressure on the 2018-2022 Ed-SPLOST for debt service payments and allows the School District to use a portion of the proceeds to fund current needs as it relates to technology, repairs/maintenance and other voter-approved capital outlay projects.

Positively impacting revenue estimates is projected growth in the local property tax digest. The value of the ad valorem tax digest increased by 6.1% in fiscal year 2019 and 8.4% in fiscal year 2020. The tax digest is projected to increase by 7.4% in fiscal year 2021. This indicates that existing property values have stabilized, and new construction is being added to the digest.

The School District plans capital improvements as future capital needs arise due to increased student population, age of the physical plant and facility repair and maintenance needs. Specific capital expenditure plans are formalized in conjunction with individual general obligation bond issues, collections from Ed-SPLOST, and anticipated annual receipts of capital outlay funds from the State of Georgia Department of Education. The School District regularly monitors anticipated capital outlay needs and budgets resources accordingly.

Contacting the School District's Office of Financial Management

This financial report is designed to provide a general overview of the Cherokee County School District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of Financial Management, Cherokee County School District, P.O. Box 769, Canton, Georgia, 30169.

CHEROKEE COUNTY SCHOOL DISTRICT

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities
For the Year Ended June 30, 2020

Net Change in Fund Balances - Total Governmental Funds		$ 48,120,205
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The amount by which capital outlays exceeded depreciation expense is as follows:		
Capital Outlay	14,756,535	
Depreciation Expense	(19,180,086)	(4,423,551)
The net effect of various miscellaneous transactions involving capital assets during the fiscal year decreased net position.		(86,244)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Property Taxes		(179,928)
District pension contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension/OPEB liability is measured a year before the District's report date. Pension/OPEB expense, which is the change in the net pension/OPEB liability adjusted for changes in deferred outflows and inflows of resources related to pensions/OPEB, is reported in the Statement of Activities.		
Pension expense		(20,750,373)
OPEB expense		(1,038,923)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.		
Bond Issuance	(30,550,000)	
Bond Premium	(9,886,918)	
Principal Payments - Bonds	16,110,000	(24,326,918)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.		
Amortization of Bond Premium	6,489,700	
Amortization of Deferred Charge on Refunding	(341,850)	
Change in Claims Payable	(218,285)	
Change in Compensated Absences	(1,116)	
Change in Accrued Interest	(327,676)	5,600,773
Change in Net Position of Governmental Activities		$ 2,915,041

The accompanying notes are an integral part of this financial statements.

The accompanying notes are an integral part of this financial statement.

NOTE 1: DESCRIPTION OF SCHOOL DISTRICT AND REPORTING ENTITY

REPORTING ENTITY

The Cherokee County School District (School District) was established under the laws of the State of Georgia and operates under the guidance of a board elected by the voters and a Superintendent appointed by the Board. The School District is organized as a separate legal entity and has the power to levy taxes and issue bonds. Its budget is not subject to approval by any other entity. Accordingly, the School District is a primary government and consists of all the organizations that compose its legal entity.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles. The most significant of the School District's accounting policies are described below.

BASIS OF PRESENTATION

The School District's basic financial statements are collectively comprised of the government-wide financial statements, fund financial statements and notes to the basic financial statements. The government-wide statements focus on the School District as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the information's usefulness.

GOVERNMENT-WIDE STATEMENTS:

The Statement of Net Position and the Statement of Activities display information about the financial activities of the overall School District, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The Statement of Net Position presents the School District's non-fiduciary assets, deferred outflows of resources, deferred inflows of resources and liabilities, with the difference reported as net position. Net position is reported in three categories as follows:

1. Net investment in capital assets consists of the School District's total investment in capital assets, net of accumulated depreciation, and reduced by outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.
2. Restricted net position consists of resources for which the School District is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties or imposed by law through constitutional provisions or enabling legislation.
3. Unrestricted net position consists of resources not meeting the definition of the two preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the School District's governmental activities.

Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses (expenses of the School District

related to the administration and support of the School District's programs, such as office and maintenance personnel and accounting) are not allocated to programs.

Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

FUND FINANCIAL STATEMENTS

The fund financial statements provide information about the School District's governmental funds. Eliminations have been made to minimize the double counting of internal activities. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The School District reports the following major governmental funds:

- The general fund is the School District's primary operating fund. It accounts for and reports all financial resources not accounted for and reported in another fund.
- The capital projects fund accounts for and reports financial resources including Education Special Purpose Local Option Sales Tax (Ed-SPLOST), Bond Proceeds and grants from Georgia State Financing and Investment Commission that are restricted, committed or assigned for capital outlay expenditures, including the acquisition or construction of capital facilities and other capital assets.
- The debt service fund accounts for and reports financial resources that are restricted, committed, or assigned including taxes (property and sales) legally restricted for the payment of general long-term principal and interest.

BASIS OF ACCOUNTING

The basis of accounting determines when transactions are reported on the financial statements. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the School District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, sales taxes and grants. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from sales taxes is recognized in the fiscal year in which the underlying transaction (sale) takes place. Revenue from grants is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The School District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. The School District considers all intergovernmental revenues to be available if they are collected within six months after year-end. Property taxes, sales taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities are reported as other financing sources.

The School District funds certain programs by a combination of specific cost-reimbursement grants, categorical grants, and general revenues. Thus, when program costs are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the Schools District's policy to first apply grant resources to such programs, followed by cost-reimbursement grants, then general revenues.

NEW ACCOUNTING PRONOUNCEMENTS

In fiscal year 2020, the School District adopted Governmental Accounting Standards Board (GASB) Statement No. 84, Fiduciary Activities. This statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. Governments with activities meeting the criteria should present a statement of fiduciary net position and a statement of changes in fiduciary net position. As noted in the Restatement of Net Position and Fund Balance note disclosure, the School District restated beginning net position and beginning fund balance for the general fund for the cumulative effect of this accounting change.

In fiscal year 2020, the School District adopted Governmental Accounting Standards Board (GASB) Statement No. 90, *Majority Equity Interests*. It defines a majority equity interest and specifies that majority equity interest in a legal separate organization should be reported as an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special-purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value. The adoption of this statement did not have an impact on the School District’s financial statements.

In fiscal year 2020, the School District adopted Governmental Accounting Standards Board (GASB) Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance. The primary objective of this statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. That objective is accomplished by postponing the effective dates of certain provisions in statements and Implementation Guides that first became effective or are scheduled to become effective for period beginning after June 15, 2018, and later.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash on hand, demand deposits, investments in the State of Georgia local government investment pool (Georgia Fund 1) and short-term investments with original maturities of three months or less from the date of acquisition in authorized financial institutions. Official Code of Georgia Annotated (O.C.G.A.) §45-8-14 authorizes the School District to deposit its funds in one or more solvent banks, insured Federal savings and loan associations or insured chartered building and loan associations.

INVESTMENTS

The School District can invest its funds as permitted by O.C.G.A. §36-83-4. In selecting among options for investment or among institutional bids for deposits, the highest rate of return shall be the objective, given equivalent conditions of safety and liquidity.

Investments made by the School District in nonparticipating interest-earning contracts (such as certificates of deposit) and repurchase agreements are reported at cost. Participating interest-earning contracts and money market investments with a maturity at purchase of one year or less are reported at amortized cost. All other investments are reported at fair value.

For accounting purposes, certificates of deposit are classified as investments if they have an original maturity greater than three months when acquired.

RECEIVABLES

Receivables consist of amounts due from property and sales taxes, grant reimbursements due on Federal, State or other grants for expenditures made but not reimbursed and other receivables disclosed from information available. Receivables are recorded when either the asset or revenue recognition criteria has been met. Receivables recorded on the basic financial statements do not include any amounts which would necessitate the need for an allowance for uncollectible receivables.

Due to other funds and due from other funds consist of activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year.

INVENTORIES

Food Inventories

On the basic financial statements, inventories of donated food commodities used in the preparation of meals are reported at their Federally assigned value and purchased foods inventories are reported at cost (calculated on the first-in first-out (FIFO) basis). The School District uses the consumption method to account for inventories whereby donated food commodities are recorded as an asset and as revenue when received, and expenses/expenditures are recorded as the inventory items are used. Purchased foods are recorded as an asset when purchased and expenses/expenditures are recorded as the inventory items are used.

Supplies/Equipment Inventories

On the basic financial statements, inventories of stored supplies and equipment are reported at cost using the first-in, first-out method. The School District uses the consumption method to account for the inventories whereby items are recorded as an asset when purchased and expenses are recorded when the item is put into use.

CAPITAL ASSETS

On the government-wide financial statements, capital assets are recorded at cost where historical records are available and at estimated historical cost based on appraisals or deflated current replacement cost where no historical records exist. Donated capital assets are recorded at the acquisition value on the date donated. The cost of normal maintenance and repairs that do not add to the value of assets or materially extend the useful lives of the assets is not capitalized. The School District does not capitalize book collections or works of art.

Capital acquisition and construction are recorded as expenditures in the governmental fund financial statements at the time of purchase (including ancillary charges), and the related assets are reported as capital assets in the governmental activities' column in the government-wide financial statements.

Depreciation is computed using the straight-line method for all assets, except land, and is used to allocate the actual or estimated historical cost of capital assets over estimated useful lives.

Capitalization thresholds and estimated useful lives of capital assets reported in the government-wide statements are as follows:

	Capitalization Policy	Estimated Useful Life
Land	Any Amount	N/A
Land Improvements	$10,000	20 Years
Buildings and Improvements	$10,000	20-50 Years
Equipment	$10,000	5-10 Years

DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the statement of financial position will report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of resources that applies to a future period(s) and therefore will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of resources that applies to a future period(s) and therefore will not be recognized as an inflow of resources (revenue) until that time.

COMPENSATED ABSENCES

Compensated absences payable consists of vacation leave employees earned based on services already rendered.

Vacation leave of 12 days is awarded on a fiscal year basis to all full-time personnel employed on a twelve-month basis. No other employees are eligible to earn vacation leave. Vacation leave not utilized during the fiscal year may be carried over to the next fiscal year, providing such vacation leave does not exceed 45 days. Vacation leave of 20 days is awarded on a fiscal year basis to the Superintendent and there are no limits on the amount that may be carried over. Upon terminating employment, the School District pays all unused and unforfeited vacation benefits to employees. Accordingly, vacation benefits are accrued as a liability in the government-wide financial statements. A liability for these amounts is reported in the governmental fund financial statements only if they have matured, for example, as a result of employee resignations and retirements by fiscal-year end.

Members of the Teachers Retirement System of Georgia (TRS) may apply unused sick leave toward early retirement. The liability for early retirement will be borne by TRS rather than by the individual School Districts. Otherwise, sick leave does not vest with the employee, and no liability is reported in the School District's financial statements.

LONG-TERM LIABILITIES AND BOND DISCOUNTS/PREMIUMS

In the School District’s government-wide financial statements, outstanding debt is reported as liabilities. Bond premiums and discounts and the difference between the reacquisition price and the net carrying value of refunded debt are deferred and amortized over the life of the bonds using the effective interest method and the straight-line method, respectively. Bond issuance costs are recognized as an outflow of resources in the fiscal year in which the bonds are issued.

In the governmental fund financial statements, the School District recognizes the proceeds of debt and premiums as other financing sources of the current period. Bond issuance costs are reported as debt service expenditures.

PENSIONS

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the pension plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Georgia School Employees Postemployment Benefit Fund (School OPEB Fund) and additions to/deductions from School OPEB Fund fiduciary net position have been determined on the same basis as they are reported by School OPEB Fund. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

FUND BALANCES

Fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

The School District's fund balances are classified as follows:

Nonspendable consists of resources that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted consists of resources that can be used only for specific purposes pursuant to constraints either (1) externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or (2) imposed by law through constitutional provisions or enabling legislation.

Committed consists of resources that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board. The Board is the School District's highest level of decision-making authority, and the formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a resolution approved by the Board. Committed fund balance also should incorporate contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned consists of resources constrained by the School District's intent to be used for specific purposes but are neither restricted nor committed. The intent should be expressed by (1) the Board or (2) the budget or finance committee, or the Superintendent, or designee, to assign amounts to be used for specific purposes.

Unassigned consists of resources within the general fund not meeting the definition of any aforementioned category. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, it may be necessary to report a negative unassigned fund balance.

When multiple categories of fund balance are available for expenditure, the School District will start with the most restricted category and spend those funds first before moving down to the next category with available funds.

It is the goal of the School District to achieve and maintain a committed, assigned, and unassigned fund balance in the general fund at fiscal year-end of not less than 12% of prior year general fund budgeted expenditures, not to exceed 15% of the total budget of the subsequent fiscal year, in compliance with O.C.G.A. § 20-2-167(a)5. If the unassigned fund balance at fiscal year-end falls below

the goal, the School District shall develop a restoration plan to achieve and maintain the minimum fund balance.

USE OF ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

PROPERTY TAXES

The Cherokee Board of Commissioners adopted the property tax levy for the 2019 tax digest year (calendar year) on June 20, 2019 (levy date) based on property values as of January 1, 2019. Taxes were due on November 15, 2019 (lien date). Taxes collected within the current fiscal year or within 60 days after year-end on the 2019 tax digest are reported as revenue in the governmental funds for fiscal year 2020. The Cherokee Board of Commissioners bills and collects the property taxes for the School District, withholds 2.00% of taxes collected as a fee for tax collection and remits the balance of taxes collected to the School District. Property tax revenues, at the fund reporting level, during the fiscal year ended June 30, 2020, for maintenance and operations amounted to $166,236,537 and for school bonds amounted to $8,962,221.

Tax millage rates levied for the 2019 tax year (calendar year) for the School District were as follows (a mill equals $1 per thousand dollars of assessed value):

School Operations	18.45	mills
School Bonds	1.00	mills
	19.45	mills

Additionally, Title Ad Valorem Tax revenues, at the fund reporting level, amounted to $14,848,076 during fiscal year ended June 30, 2020.

SALES TAXES

Education Special Purpose Local Option Sales Tax (Ed-SPLOST), at the fund reporting level, during the year ended June 30, 2020 amounted to $45,014,445 and is to be used for capital outlay for educational purposes or debt service. This sales tax was authorized by local referendum and the sales tax must be re-authorized at least every five years.

NOTE 3: BUDGETARY DATA

The budget is a complete financial plan for the School District's fiscal year and is based upon careful estimates of expenditures together with probable funding sources. The budget is legally adopted each year for the general, debt service, and capital projects funds. There is no statutory prohibition regarding over expenditure of the budget at any level. The budget for all governmental funds, except the various school activity (principal) accounts, is prepared and adopted by fund, function and object. The legal level of budgetary control was established by the Board at the aggregate function level. The budget for the general fund was not prepared in accordance with accounting principles generally accepted in the United States of America.

The budgetary process begins with the School District's administration presenting an initial revenue estimate for the Board's review and requesting the Board’s priorities. The administration develops a budget based on the Board’s priorities and available revenue, makes revisions as necessary based on the Board's guidelines, and a tentative budget is presented to the Board for approval. After approval

of this tentative budget by the Board, such budget is advertised at least once in a newspaper of general circulation in the locality, as well as the School District's website and statutorily required public hearings are convened. At the next regularly scheduled meeting of the Board after advertisement, the Board receives comments on the tentative budget, makes revisions as necessary and adopts a final budget. The approved budget is then submitted, in accordance with provisions of O.C.G.A. §20-2-167(c), to the Georgia Department of Education. The Board may increase or decrease the budget at any time during the year. All unexpended budget authority lapses at fiscal year-end.

The Superintendent is authorized by the Board to approve adjustments of no more than 5% of the amount budgeted for expenditures in any budget function for any fund. The Superintendent shall report any such adjustments to the Board. If expenditure of funds in any budget function for any fund is anticipated to be more than 5% of the budgeted amount, the Superintendent shall request Board approval for the budget amendment.

See the General Fund Statement of Revenues, Expenditures and Changes in Fund Balances – Budget to Actual in the Basic Financial Statements Section for a detail of any over/under expenditures during the fiscal year under review.

BUDGETARY/GAAP BASIS RECONCILIATION

In the general fund, accounting principles used in developing budgets on a budgetary basis differ from those used in preparing financial statements in conformity with generally accepted accounting principles (GAAP).

The primary differences between the budget basis and GAAP basis are:

- Proceeds and repayments of tax anticipation notes are budgeted by the School District as revenues and expenditures of the general fund. Under generally accepted accounting principles, a tax anticipation note is considered a short-term debt issuance.

Thus, there is an accounting basis difference between the budget and actual Statement of Revenues, Expenditures and Changes in Fund Balances in the general fund that is reconciled as follows:

Actual Revenues, GAAP Basis	$ 468,447,162	
TAN Proceeds	9,750,000	
Actual Revenues, Budgetary Basis		$ 478,197,162
Actual Expenditures, GAAP Basis	$ 460,387,903	
Payback of TAN Principal	9,750,000	
Actual Expenditures, Budgetary Basis		470,137,903
Other Financing Sources (Uses) - Net		211,673
Revenues Over Expenditures and Other Financing Sources (Uses), Budgetary Basis		$ 8,270,932
Revenues Over Expenditures and Other Financing Sources (Uses), GAAP Basis		$ 8,270,932

NOTE 4: DEPOSITS, CASH EQUIVALENTS AND INVESTMENTS

COLLATERALIZATION OF DEPOSITS

O.C.G.A. § 45-8-12 provides that there shall not be on deposit at any time in any depository for a time longer than ten days a sum of money which has not been secured by surety bond, by guarantee of insurance, or by collateral. The aggregate of the face value of such surety bond and the market value of securities pledged shall be equal to not less than 110% of the public funds being secured after the deduction of the amount of deposit insurance. If a depository elects the pooled method (O.C.G.A. § 45-8-13.1) the aggregate of the market value of the securities pledged to secure a pool of public funds shall be not less than 110% of the daily pool balance. As of June 30, 2020, the School District's deposits were secured by surety bond, insurance, or collateral.

Acceptable security for deposits consists of any one of or any combination of the following:

(1) Surety bond signed by a surety company duly qualified and authorized to transact business within the State of Georgia,

(2) Insurance on accounts provided by the Federal Deposit Insurance Corporation,

(3) Bonds, bills, notes, certificates of indebtedness or other direct obligations of the United States or of the State of Georgia,

(4) Bonds, bills, notes, certificates of indebtedness or other obligations of the counties or municipalities of the State of Georgia,

(5) Bonds of any public authority created by the laws of the State of Georgia, providing that the statute that created the authority authorized the use of the bonds for this purpose,

(6) Industrial revenue bonds and bonds of development authorities created by the laws of the State of Georgia, and

(7) Bonds, bills, notes, certificates of indebtedness, or other obligations of a subsidiary corporation of the United States government, which are fully guaranteed by the United States government both as to principal and interest or debt obligations issued by or securities guaranteed by the Federal Land Bank, the Federal Home Loan Bank, the Federal Intermediate Credit Bank, the Central Bank for Cooperatives, the Farm Credit Banks, the Federal Home Loan Mortgage Association, and the Federal National Mortgage Association.

CATEGORIZATION OF DEPOSITS

Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District does not have a formal deposit policy for managing custodial credit risk. At June 30, 2020, the School District had deposits with a carrying amount of $44,894,922, which included $1,084,846 in Certificates of Deposit that are recorded as investments, and a bank balance of $45,706,430. The bank balances insured by Federal depository insurance were $6,172,662 and the bank balances collateralized with securities held by the pledging financial institution's trust department or agent in the School District's name, or by a multiple financial institution collateral pool authorized by the State of Georgia that insures public deposits were $39,533,768.

CATEGORIZATION OF CASH EQUIVALENTS

The School District reported cash equivalents of $140,240,896 in Georgia Fund 1, a local government investment pool, which is included in the cash balances above. Georgia Fund 1 is not registered with the SEC as an investment company and does not operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940. The investment is valued at the pool's share price, $1.00 per share, which approximates fair value. The pool is an AAAf rated investment pool by Standard and

Poor's. The weighted average maturity of Georgia Fund 1 may not exceed 60 days. The weighted average maturity for Georgia Fund 1 on June 30, 2020, was 38 days.

Georgia Fund 1, administered by the State of Georgia, Office of the State Treasurer, is not required to be categorized since the School District did not own any specific identifiable securities in the pool. The investment policy of the State of Georgia, Office of the State Treasurer for the Georgia Fund 1, does not provide for investment in derivatives or similar investments. Additional information on the Georgia Fund 1 is disclosed in the State of Georgia Comprehensive Annual Financial Report. This audit can be obtained from the Georgia Department of Audits and Accounts at www.audits.ga.gov/SGD/CAFR.html.

CATEGORIZATION OF INVESTMENTS

The School District measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

Level 1: Quoted prices for identical investments in active markets;
Level 2: Observable inputs other than quoted market prices; and,
Level 3: Unobservable inputs

At June 30, the School District had the following investments which were not required to be reported under this fair value hierarchy:

Investment Type		Value	Maturity
Repurchase Agreements	$	20,150,809	Less than 1 year
Certificates of Deposit		1,084,846	1-5 years
Total investments	$	21,235,655	

Repurchase Agreements and Certificates of Deposit are reported at cost.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The School District does not have a formal policy for managing interest rate risk.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the School District will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. The School District does not have a formal policy for managing custodial credit risk.

At June 30, 2020, $21,235,655 of the School District's applicable investments were insured or registered, with securities held by the entity or its agent, in the School District's name.

Credit Quality Risk

Credit quality risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law limits investments to those prescribed by O.C.G.A. §36-83-4. The School District does not have a formal policy that would further limit its investment choices or one that addresses credit risk.

The investments subject to credit quality risk are reflected below:

Investment Type	Value	Unrated
Repurchase Agreements	$ 20,150,809	$ 20,150,809
	$ 20,150,809	20,150,809

NOTE 5: CAPITAL ASSETS

The following is a summary of changes in the capital assets for governmental activities during the fiscal year:

	Balances July 1, 2019	Increases	Decreases	Transfers	Balances June 30, 2020
Governmental Activities					
Capital Assets, Not Being Depreciated:					
Land	$ 33,975,645	$ -	$ -	$ -	$ 33,975,645
Construction in Progress	6,531,152	4,092,151	-	-	10,623,303
Total Capital Assets Not Being Depreciated	40,506,797	4,092,151	-	-	44,598,948
Capital Assets Being Depreciated:					
Buildings and Improvements	724,377,485	3,548,995	-	-	727,926,480
Equipment	50,540,942	6,123,168	2,924,534	-	53,739,576
Land Improvements	30,026,480	992,221	-	-	31,018,701
Less Accumulated Depreciation for:					
Buildings and Improvements	213,467,442	15,050,055	-	-	228,517,497
Equipment	37,176,462	3,108,873	2,838,290	-	37,447,045
Land Improvements	15,366,080	1,021,158	-	-	16,387,238
Total Capital Assets Being Depreciated - Net	538,934,923	(8,515,702)	86,244	-	530,332,977
Governmental Activities Capital Assets - Net	$ 579,441,720	$ (4,423,551)	$ 86,244	$ -	$ 574,931,925

Current year depreciation expense by function is as follows:

Instruction		$ 15,938,157
Support Services		
General Administration	$ 881,370	
School Administration	478,134	
Support Services - Business	31,269	
Maintenance and Operation of Plant	321,323	
Student Transportation Services	1,479,646	3,191,742
Food Services		50,187
		$ 19,180,086

NOTE 6: INTERFUND ASSETS, LIABILITIES, AND TRANSFERS

INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2020, consisted of the following:

	Transfer from	
Transfer to	Capital Projects Fund	Total
Debt Service Fund	$ 27,020,579	$ 27,020,579

Transfers are used to move Ed-SPLOST proceeds from the Capital Project fund to the Debt Service fund for debt service costs.

NOTE 7: SHORT-TERM DEBT

The School District issues tax anticipation notes in advance of property tax collections, depositing the proceeds in its general fund. This short-term debt is to provide cash for operations until property tax collections are received by the School District. Article IX, Section V, Paragraph V of the Constitution of the State of Georgia limits the aggregate amount of short-term debt to 75% of the total gross income from taxes collected in the preceding year and requires all short-term debt to be repaid no later than December 31 of the calendar year in which the debt was incurred.

Short-term debt activity for the fiscal year is as follows:

	Beginning Balance	Issued	Redeemed	Ending Balance
Tax Anticipation Notes	$ -	$ 9,750,000	$ 9,750,000	$ -

NOTE 8: LONG-TERM LIABILITIES

The changes in long-term liabilities during the fiscal year for governmental activities were as follows:

	Governmental Activities				
	Balance July 1, 2019	Additions	Deductions	Balance June 30, 2020	Due Within One Year
General Obligation (G.O.) Bonds	$ 373,030,000	$ 30,550,000	$ 16,110,000	$ 387,470,000	$ 21,270,000
Unamortized Bond Premiums	41,788,073	9,886,918	6,489,700	45,185,291	6,909,809
Qualified School Construction Bonds	40,055,000	-	-	40,055,000	-
Compensated Absences	1,537,230	957,247	956,131	1,538,346	956,131
	$ 456,410,303	$ 41,394,165	$ 23,555,831	$ 474,248,637	$ 29,135,940

The School District's bonded debt consists of various issues of general obligation bonds and Qualified School Construction Bonds (QSCB) that are generally callable with interest payable semiannually.

Bond proceeds primarily pay for acquiring or constructing capital facilities. Bonds have also been issued to advance-refund previously issued bonds. The School District repays general obligation bonds and QSCB from voter-approved property taxes and sales taxes. General obligation bonds and QSCB are direct obligations and pledge the full faith and credit of the School District.

In the event the entity is unable to make the principal and interest payments using proceeds from the Education Special Purpose Local Option Sales Tax (Ed-SPLOST), the debt will be satisfied from a direct annual ad valorem tax levied upon all taxable property within the School District. Additional security is provided by the State of Georgia Intercept Program which allows for state appropriations entitled to the School District to be transferred to the Debt Service Account Custodian for the payment of debt. The School District had no unused line of credit as of June 30, 2020.

GENERAL OBLIGATION DEBT OUTSTANDING

During fiscal year 2020, the School District issued general obligation bonds totaling $30,550,000 to finance the costs of adding to, renovating, repairing, improving, and equipping existing school facilities, including athletic facilities, and acquiring system-wide technology improvements, school buses and land for future facilities.

Voters have authorized $44,765,000 in general obligation debt for capital outlay projects and the costs of issuing and paying capitalized interest which was not issued as of June 30, 2020.

General obligation bonds currently outstanding are as follows:

Description	Interest Rates	Issue Date	Maturity Date	Amount Issued	Amount Outstanding
2009B Series	5.00%	6/18/2009	8/1/2028	$ 48,375,000	$ 48,375,000
2012 Series	5.00%	11/1/2012	8/1/2033	35,930,000	32,170,000
2014A Series	3.75-5.00%	2/6/2014	8/1/2033	46,885,000	34,775,000
2014B Series	5.00%	2/6/2014	8/1/2025	34,430,000	34,430,000
2015 Series	4.00-5.00%	2/15/2015	2/1/2033	108,960,000	106,625,000
2016 Series	5.00%	5/19/2016	8/1/2023	42,685,000	42,685,000
2017 Series	3.00-5.00%	5/9/2017	2/1/2033	18,175,000	18,175,000
2018 Series	5.00%	5/3/2018	8/1/2033	39,685,000	39,685,000
2020 Series	5.00%	1/16/2020	2/1/2033	30,550,000	30,550,000
				$ 405,675,000	$ 387,470,000

The following schedule details debt service requirements to maturity for the School District's total general obligation bonds payable:

Payments Due in Fiscal Year Ended June 30:	General Obligation Debt Principal	General Obligation Debt Interest	Amortization of Bond Premium
2021	$ 21,270,000	$ 19,147,811	$ 6,909,809
2022	25,100,000	18,037,450	6,254,622
2023	27,105,000	16,755,825	5,508,450
2024	29,285,000	15,372,450	4,701,802
2025	32,265,000	13,803,871	4,376,653
2026 - 2030	161,440,000	41,891,924	14,280,225
2031 - 2035	91,005,000	9,060,800	3,153,731
2036 - 2040	-	-	-
Total Principal and Interest	$ 387,470,000	$ 134,070,131	$ 45,185,292

QUALIFIED SCHOOL CONSTRUCTION BONDS (QSCB)

Section 1521 of the American Recovery and Reinvestment Act (ARRA) of 2009 provides for a source of capital at no or at nominal interest rates for costs incurred by School Districts in connection with the construction, rehabilitation or repair of a public-school facility or for the acquisition of land where a school will be built. Investors receive Federal income tax credits at prescribed tax credit rates in lieu of interest, which essentially allows School Districts to borrow without incurring interest costs.

When the stated interest rate on the QSCB results in interest payments that exceed the supplemental interest payments discussed in the preceding paragraph, the School District may apply for a direct cash subsidy payment from the U.S. Treasury which is intended to reduce the stated interest rate to a nominal percentage. To qualify for this subsidy, the School District is required to periodically file appropriate documents with the Internal Revenue Service. These subsidy payments do not include the amount of any supplemental interest paid on a QSCB. The interest subsidy received by the School District in fiscal year 2020 was $2,048,831, which funded all but $204,663 of interest expense due on the QSCB.

Debt currently outstanding under Qualified School Construction Bonds is as follows:

Description	Interest Rates	Issue Date	Maturity Date	Amount Issued	Amount Outstanding
2010B Series	5.63%	11/11/2010	8/1/2028	$ 40,055,000	$ 40,055,000
				$ 40,055,000	$ 40,055,000

The following is a schedule of total Qualified School Construction Bond payments:

Payments Due in Fiscal Year Ended June 30:	Principal	Interest
2021	$ -	$ 2,253,494
2022	-	2,253,494
2023	-	2,253,494
2024	-	2,253,494
2025	-	2,253,494
2026 - 2030	40,055,000	6,821,666
2031 - 2035	-	-
2036 - 2040	-	-
Total Principal and Interest	$ 40,055,000	$ 18,089,136

COMPENSATED ABSENCES

Compensated absences represent obligations of the School District relating to employees' rights to receive compensation for future absences based upon service already rendered. This obligation relates only to vesting accumulating leave in which payment is probable and can be reasonably estimated. Typically, the general fund is the fund used to liquidate this long-term debt. The School District uses the vesting method to compute compensated absences.

NOTE 9: RISK MANAGEMENT

COMMERCIAL INSURANCE

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors or omissions; job related illness or injuries to employees; and natural disasters. The School District is self-insured for workers' compensation, unemployment claims, and dental claims. The School District purchases commercial insurance for all other risks or loss. Settled claims resulting from these insured risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

WORKERS' COMPENSATION

The School District has established a limited risk management program for workers' compensation claims. The School District accounts for claims within the general fund with expenses/expenditures and liability being reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated. An excess coverage insurance policy covers individual claims in excess of $400,000 loss per occurrence, up to the statutory limit.

Changes in the workers' compensation claims liability during the last two fiscal years are as follows:

	Beginning of Year Liability	Claims and Changes in Estimates	Claims Paid	End of Year Liability
2019	$ 479,706	$ 976,419	$ 995,302	$ 460,823
2020	$ 460,823	$ 1,132,222	$ 913,937	$ 679,108

UNEMPLOYMENT COMPENSATION

The School District is self-insured with regard to unemployment compensation claims. The School District accounts for claims within the general fund with expenses/expenditures and liability being reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated. There was no liability reported for unemployment compensation claims during the last two fiscal years.

DENTAL CLAIMS

The School District is self-insured with regard to dental claims. The School District accounts for dental claims expenditures and liability in the general fund when it is probable that a loss has occurred, and the amount of the loss can be reasonably estimated.

Changes in the dental claims liability during the last two fiscal years are as follows:

	Beginning of Year Liability	Claims and Changes in Estimates	Claims Paid	End of Year Liability
2019	$ 38,428	$ 2,834,219	$ 2,853,102	$ 19,545
2020	$ 19,545	$ 2,738,380	$ 2,690,415	$ 67,510

SURETY BOND

The School District purchased surety bonds to provide additional insurance coverage as follows:

Position Covered	Amount
Superintendent	$ 100,000
Chief Financial Officer	100,000
School Principals	10,000

NOTE 10: SIGNIFICANT COMMITMENTS

COMMITMENTS UNDER CONSTRUCTION CONTRACTS

The following is an analysis of significant outstanding construction or renovation contracts executed by the School District as of June 30, 2020, together with funding available:

Project	Unearned Executed Contracts [1]	Payments through June 30, 2020 [2]	Funding Available From State [1]
Creekview HS Science Lab (E-414-FY20)	$ 1,013,583	$ 906,840	$ 182,541
Mill Creek MS Addition	124,340	7,298,160	-
Etowah HS Athletic Improvement	3,766,063	158,937	-
New Fuel Island	1,614,608	52,833	-
Sequoyah HS Healthcare Lab	31,506	235,720	-
Woodstock HS Gym	3,477,211	750,448	-
Woodstock MS Addition	5,252,557	308,615	-
	$ 15,279,868	$ 9,711,553	$ 182,541

[1] The amounts described are not reflected in the basic financial statements.

[2] Payments include Contracts and Retainages Payable at year end.

OPERATING LEASES

The School District leases office equipment under the provisions of one or more long-term lease agreements classified as operating leases for accounting purposes. Rental expenditures under the terms of the operating leases(s) totaled $311,016 for governmental activities for the year ended June 30, 2020. The following future minimum lease payments were required under operating leases at June 30, 2020:

Year Ending		Lease Payments
2021	$	311,937
2022		25,995
Total	$	337,932

NOTE 11: SIGNIFICANT CONTINGENT LIABILITIES

FEDERAL GRANTS

Amounts received or receivable principally from the Federal government are subject to audit and review by grantor agencies. This could result in requests for reimbursement to the grantor agency for any costs which are disallowed under grant terms. Any disallowances resulting from the grantor audit may become a liability of the School District. However, the School District believes that such disallowances, if any, will be immaterial to its overall financial position.

LITIGATION

The School District is a defendant in various legal proceedings pertaining to matters incidental to the performance of routine School District operations. The ultimate disposition of these proceedings is not presently determinable but is not believed to have a material adverse effect on the financial condition of the School District.

NOTE 12: OTHER POST-EMPLOYMENT BENEFITS (OPEB)

GEORGIA SCHOOL PERSONNEL POST-EMPLOYMENT HEALTH BENEFIT FUND

Plan Description: Certified teachers and non-certified public school employees of the School District as defined in §20-2-875 of the *Official Code of Georgia Annotated* (O.C.G.A.) are provided OPEB through the School OPEB Fund - a cost-sharing multiple-employer defined benefit postemployment healthcare plan, reported as an employee trust fund and administered by a Board of Community Health (Board). Title 20 of the O.C.G.A. assigns the authority to establish and amend the benefit terms of the group health plan to the Board.

Benefits Provided: The School OPEB Fund provides healthcare benefits for retirees and their dependents due under the group health plan for public school teachers, including librarians, other certified employees of public schools, regional educational service agencies and non-certified public school employees. Retiree medical eligibility is attained when an employee retires and is immediately eligible to draw a retirement annuity from Employees' Retirement System (ERS), Georgia Judicial Retirement System (JRS), Legislative Retirement System (LRS), Teachers Retirement System (TRS) or Public School Employees Retirement System (PSERS). If elected, dependent coverage starts on the same day as retiree coverage. Medicare-eligible retirees are offered Standard and Premium Medicare Advantage plan options. Non-Medicare eligible retiree plan options include Health Reimbursement Arrangement (HRA), Health Maintenance Organization (HMO) and a High Deductible Health Plan

(HDHP). The School OPEB Fund also pays for administrative expenses of the fund. By law, no other use of the assets of the School OPEB Fund is permitted.

Contributions: As established by the Board, the School OPEB Fund is substantially funded on a pay-as-you-go basis; that is, annual cost of providing benefits will be financed in the same year as claims occur. Contributions to the School OPEB Fund from the School District were $7,631,155 for the year ended June 30, 2020. Active employees are not required to contribute to the School OPEB Fund.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020, the School District reported a liability of $273,784,693 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2019. The total OPEB liability used to calculate the net OPEB liability was based on an actuarial valuation as of June 30, 2018. An expected total OPEB liability as of June 30, 2019 was determined using standard roll-forward techniques. The School District's proportion of the net OPEB liability was actuarially determined based on employer contributions during the fiscal year ended June 30, 2019. At June 30, 2019, the School District's proportion was 2.23%, which was an increase of 0.028% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the School District recognized OPEB expense of $8,670,077. At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	OPEB	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ -	$ 29,784,925
Changes of assumptions	9,508,008	38,594,997
Net difference between projected and actual earnings on OPEB plan investments	596,219	-
Changes in proportion and differences between School District contributions and proportionate share of contributions	9,738,053	-
School District contributions subsequent to the measurement date	7,631,155	-
Total	$ 27,473,435	$ 68,379,922

School District contributions subsequent to the measurement date are reported as deferred outflows of resources and will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended June 30:	OPEB
2021	$ (10,920,589)
2022	(10,920,589)
2023	(10,943,509)
2024	(9,606,787)
2025	(5,151,940)
Thereafter	(994,228)

Actuarial assumptions: The total OPEB liability as of June 30, 2019 was determined by an actuarial valuation as of June 30, 2018 using the following actuarial assumptions and other inputs, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2019:

OPEB:

Inflation	2.75%
Salary increases	3.25% - 8.75%, including inflation
Long-term expected rate of return	7.30%, compounded annually, net of investment expense, and including inflation
Healthcare cost trend rate	
Pre-Medicare Eligible	7.250%
Medicare Eligible	5.375%
Ultimate trend rate	
Pre-Medicare Eligible	4.75%
Medicare Eligible	4.75%
Year of Ultimate trend rate	
Pre-Medicare Eligible	2028
Medicare Eligible	2022

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale BB as follows:

- For TRS members: The RP-2000 White Collar Mortality Table projected to 2025 with projection scale BB (set forward 1 year for males) is used for death after service retirement and beneficiaries. The RP-2000 Disabled Mortality Table projected to 2025 with projection scale BB (set forward two years for males and four years for females) is used for death after disability retirement.

- For PSERS members: The RP-2000 Blue-Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females) is used for the period after service retirement and for beneficiaries of deceased members. The RP-2000 Disabled Mortality Table projected to 2025 with projection scale BB (set forward 5 years for both males and females) is used for the period after disability retirement.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the pension systems, which covered the five-year period ending June 30, 2014, and adopted by the pension Board on December 17, 2015. The next experience study for TRS will be for the period ending June 30, 2018.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2018 valuation were based on a review of recent plan experience done concurrently with the June 30, 2018 valuation.

Projection of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculation.

The long-term expected rate of return on OPEB plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. During fiscal year 2018, the School OPEB fund updated their investment strategy to a more long-term approach. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Long-Term Expected Real Rate of Return*
Fixed income	30.00%	(0.50)%
Domestic Stocks -- Large Cap	46.20%	8.90%
Domestic Stocks -- Small Cap	1.30%	13.20%
Int'l Stocks - Developed Mkt	12.40%	8.90%
Int'l Stocks - Emerging Mkt	5.10%	10.90%
Alternatives	5.00%	12.00%
Total	100.00%	

*Net of Inflation

Discount rate: The discount rate has changed since the prior measurement date from 3.87% to 3.58%. In order to measure the total OPEB liability for the School OPEB Fund, a single equivalent interest rate of 3.58% was used as the discount rate. This is comprised mainly of the yield or index rate for 20-year tax-exempt general obligation municipal bonds with an average rating of AA or higher (3.50% per the Bond Buyers Index). The projection of cash flows used to determine the discount rate assumed that contributions from members and from the employer will be made at the current level as averaged over the last five years, adjusted for annual projected changes in headcount. Projected future benefit payments for all current plan members were projected through 2119. Based on these assumptions,

the OPEB plan's fiduciary net position was projected to be available to make OPEB payments for inactive employees through year 2026. Therefore, the calculated discount rate of 3.58% was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the School District's proportionate share of the net OPEB liability to changes in the discount rate: The following presents the School District's proportionate share of the net OPEB liability calculated using the discount rate of 3.58%, as well as what the School District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.58%) or 1 percentage-point higher (4.58%) than the current discount rate:

	1% Decrease (2.58%)	Current Discount Rate (3.58%)	1% Increase (4.58%)
Net OPEB Liability	$ 318,228,180	$ 273,784,693	$ 237,631,913

Sensitivity of the School District's proportionate share of the net OPEB liability to changes in the healthcare cost trend rates: The following presents the School District's proportionate share of the net OPEB liability, as well as what the School District's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
Net OPEB Liability	$ 230,634,597	$ 273,784,693	$ 328,588,590

OPEB plan fiduciary net position: Detailed information about the OPEB plan's fiduciary net position is available in the Comprehensive Annual Financial Report (CAFR) which is publicly available at https://sao.georgia.gov/comprehensive-annual-financial-reports.

NOTE 13: RETIREMENT PLANS

The School District participates in various retirement plans administered by the State of Georgia, as further explained below.

TEACHERS RETIREMENT SYSTEM OF GEORGIA (TRS)

Plan Description: All teachers of the School District as defined in O.C.G.A §47-3-60 and certain other support personnel as defined by §47-3-63 are provided a pension through the Teachers Retirement System of Georgia (TRS). TRS, a cost-sharing multiple-employer defined benefit pension plan, is administered by the TRS Board of Trustees (TRS Board). Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. The Teachers Retirement System of Georgia issues a publicly available separate financial report that can be obtained at www.trsga.com/publications.

Benefits Provided: TRS provides service retirement, disability retirement, and death benefits. Normal retirement benefits are determined as 2% of the average of the employee's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. An employee is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. Ten years of service is required for disability and death benefits eligibility. Disability benefits are based on the employee's creditable service and compensation up to the time of disability. Death benefits equal the amount that would be payable to the employee's beneficiary had the employee retired on the date of death. Death benefits are based on the employee's creditable service and compensation up to the date of death.

Contributions: Per Title 47 of the O.C.G.A., contribution requirements of active employees and participating employers, as actuarially determined, are established and may be amended by the TRS Board. Pursuant to O.C.G.A. §47-3-63, the employer contributions for certain full-time public school support personnel are funded on behalf of the employer by the State of Georgia. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employees were required to contribute 6.00% of their annual pay during fiscal year 2020. The School District's contractually required contribution rate for the year ended June 30, 2020 was 21.14% of annual School District payroll, of which 21.08% of payroll was required from the School District and 0.06% of payroll was required from the State. For the current fiscal year, employer contributions to the pension plan were $53,468,629 and $159,741 from the School District and the State, respectively.

EMPLOYEES' RETIREMENT SYSTEM

Plan description: The Employees' Retirement System of Georgia (ERS) is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly during the 1949 Legislative Session for the purpose of providing retirement allowances for employees of the State of Georgia and its political subdivisions. ERS is directed by a Board of Trustees. Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. ERS issues a publicly available financial report that can be obtained at www.ers.ga.gov/financials.

Benefits provided: The ERS Plan supports three benefit tiers: Old Plan, New Plan, and Georgia State Employees' Pension and Savings Plan (GSEPS). Employees under the Old plan started membership prior to July 1, 1982 and are subject to plan provisions in effect prior to July 1, 1982. Members hired on or after July 1, 1982 but prior to January 1, 2009 are New plan members subject to modified plan provisions. Effective January 1, 2009, new state employees and rehired state employees who did not retain membership rights under the Old or New Plans are members of GSEPS. ERS members hired prior to January 1, 2009 also have the option to irrevocably change their membership to GSEPS.

Under the Old Plan, the New Plan, and GSEPS, a member may retire and receive normal retirement benefits after completion of 10 years of creditable service and attainment of age 60 or 30 years of creditable service regardless of age. Additionally, there are some provisions allowing for early retirement after 25 years of creditable service for members under age 60.

Retirement benefits paid to members are based upon the monthly average of the member's highest 24 consecutive calendar months, multiplied by the number of years of creditable service, multiplied by the applicable benefit factor. Annually, postretirement cost-of-living adjustments may also be made to members' benefits, provided the members were hired prior to July 1, 2009. The normal retirement pension is payable monthly for life; however, options are available for distribution of the member's monthly pension, at reduced rates, to a designated beneficiary upon the member's death. Death and disability benefits are also available through ERS.

Contributions: Member contributions under the Old Plan are 4% of annual compensation, up to $4,200, plus 6% of annual compensation in excess of $4,200. Under the Old Plan, the state pays member contributions in excess of 1.25% of annual compensation. Under the Old Plan, these state contributions are included in the members' accounts for refund purposes and are used in the computation of the members' earnable compensation for the purpose of computing retirement benefits. Member contributions under the New Plan and GSEPS are 1.25% of annual compensation. The School District's contractually required contribution rate, actuarially determined annually, for the year ended June 30, 2020 was 24.66% of annual covered payroll for Old and New Plan members and 21.64% for GSEPS members. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. There were no employer contributions to the pension plan for the current fiscal year.

PUBLIC SCHOOL EMPLOYEES RETIREMENT SYSTEM (PSERS)

Plan description: PSERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly in 1969 for the purpose of providing retirement allowances for public school employees who are not eligible for membership in the Teachers Retirement System of Georgia. The ERS Board of Trustees, plus two additional trustees, administers PSERS. Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. PSERS issues a publicly available financial report that can be obtained at www.ers.ga.gov/financials.

Benefits provided: A member may retire and elect to receive normal monthly retirement benefits after completion of ten years of creditable service and attainment of age 65. A member may choose to receive reduced benefits after age 60 and upon completion of ten years of service.

Upon retirement, the member will receive a monthly benefit of $15.25, multiplied by the number of years of creditable service. Death and disability benefits are also available through PSERS. Additionally, PSERS may make periodic cost-of-living adjustments to the monthly benefits. Upon termination of employment, member contributions with accumulated interest are refundable upon request by the member. However, if an otherwise vested member terminates and withdraws his/her member contribution, the member forfeits all rights to retirement benefits.

Contributions: The general assembly makes an annual appropriation to cover the employer contribution to PSERS on behalf of local school employees (bus drivers, cafeteria workers, and maintenance staff). The annual employer contribution required by statute is actuarially determined and paid directly to PSERS by the State Treasurer in accordance with O.C.G.A. §47-4-29(a) and 60(b). Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Individuals who became members prior to July 1, 2012 contribute $4 per month for nine months each fiscal year. Individuals who became members on or after July 1, 2012 contribute $10 per month for nine months each fiscal year. The State of Georgia, although not the employer of PSERS members, is required by statute to make employer contributions actuarially determined and approved and certified by the PSERS Board of Trustees. The current fiscal year contribution was $575,871.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the School District reported a liability of $419,413,252 for its proportionate share of the net pension liability for TRS.

The TRS net pension liability reflected a reduction for support provided to the School District by the State of Georgia for certain public school support personnel. The amount recognized by the School District as its proportionate share of the net pension liability, the related State of Georgia support, and the total portion of the net pension liability that was associated with the School District were as follows:

School District's proportionate share of the net pension liability	$	419,413,252
State of Georgia's proportionate share of the net pension liability associated with the School District		1,355,315
Total	$	420,768,567

The net pension liability for TRS and ERS was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2018. An expected total pension liability as of June 30, 2019 was determined using standard roll-forward

techniques. The School District's proportion of the net pension liability was based on contributions to TRS and ERS during the fiscal year ended June 30, 2019.

At June 30, 2019, the School District's TRS proportion was 1.95%, which was an increase of 0.01% from its proportion measured as of June 30, 2018. At June 30, 2019, the School District's ERS proportion was 0%, which did not change from its proportion measured as of June 30, 2018.

At June 30, 2020, the School District did not have a PSERS liability for a proportionate share of the net pension liability because of a Special Funding Situation with the State of Georgia, which is responsible for the net pension liability of the plan. The amount of the State's proportionate share of the net pension liability associated with the School District is $3,383,345.

The PSERS net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2018. An expected total pension liability as of June 30, 2019 was determined using standard roll-forward techniques. The State's proportion of the net pension liability associated with the School District was based on actuarially determined contributions paid by the State during the fiscal year ended June 30, 2019.

For the year ended June 30, 2020, the School District recognized pension expense of $74,412,403 for TRS, ($41,962) for ERS and $1,043,382 for PSERS and revenue of $138,029 for TRS and $1,043,382 for PSERS. The revenue is support provided by the State of Georgia. For TRS the State of Georgia support is provided only for certain support personnel.

At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	TRS		ERS	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 23,640,269	$ 124,345	$ -	$ -
Changes of assumptions	40,248,174	-	-	-
Net difference between projected and actual earnings on pension plan investments	-	9,987,509	-	-
Changes in proportion and differences between School District contributions and proportionate share of contributions	4,438,449	506,286	-	25,719
School District contributions subsequent to the measurement date	53,468,629	-	-	-
Total	$ 121,795,521	$ 10,618,140	$ -	$ 25,719

The School District contributions subsequent to the measurement date for TRS are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30:	TRS	ERS
2021	$ 24,307,375	$ 25,719
2022	4,735,980	-
2023	14,368,568	-
2024	14,296,829	-
2025	-	-
Thereafter	-	-

Actuarial assumptions: The total pension liability as of June 30, 2019 was determined by an actuarial valuation as of June 30, 2018, using the following actuarial assumptions, applied to all periods included in the measurement:

Teachers Retirement System:

Inflation	2.50%
Salary increases	3.00% – 8.75%, average, including inflation
Investment rate of return	7.25%, net of pension plan investment expense, including inflation
Post-retirement benefit increases	1.50% semi-annually

Post-retirement mortality rates were based on the RP-2000 White Collar Mortality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB (set forward one year for males) for service requirements and dependent beneficiaries. The RP-2000 Disabled Mortality table with future mortality improvement projected to 2025 with Society of Actuaries' projection scale BB (set forward two years for males and four years for females) was used for the death after disability retirement. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014, with the exception of the long-term assumed rate of return.

Employees' Retirement System:

Inflation	2.75%
Salary increases	3.25% – 7.00%, including inflation
Investment rate of return	7.30%, net of pension plan investment expense, including inflation

Post-retirement mortality rates were based on the RP-2000 Combined Mortality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB and set forward 2 years for both males and females for service retirements and dependent beneficiaries. The RP- 2000 Disabled Mortality Table with future mortality improvement projected to 2025 with Society

of Actuaries' projection scale BB and set back 7 years for males and set forward 3 years for females was used for death after disability retirement. There is a margin for future mortality improvement in the tables used by the System. Based on the results of the most recent experience study adopted by the Board on December 17, 2015, the numbers of expected future deaths are 9-12% less than the actual number of deaths that occurred during the study period for service retirements and beneficiaries and for disability retirements. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014, with the exception of the assumed investment rate of return.

Public School Employees Retirement System:

Inflation	2.75%
Salary increases	N/A
Investment rate of return	7.30%, net of pension plan investment expense, including inflation
Post-retirement benefit increases	1.50% semi-annually

Post-retirement mortality rates were based on the RP-2000 Blue-Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females) for the period after service retirements and for dependent beneficiaries. The RP-2000 Disabled Mortality projected to 2025 with projection scale BB (set forward 5 years for both males and females) was used for death after disability retirement. There is a margin for future mortality improvement in the tables used by the System. Based on the results of the most recent experience study adopted by the Board on December 17, 2015, the numbers of expected future deaths are 9-11% less than the actual number of deaths that occurred during the study period for healthy retirees and 9-11% less than expected under the selected table for disabled retirees. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014, with the exception of the assumed investment rate of return.

The long-term expected rate of return on TRS, ERS and PSERS pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	TRS Target allocation	ERS/PSERS Target allocation	Long-term expected real rate of return*
Fixed income	30.00%	30.00%	(0.10)%
Domestic large stocks	51.00%	46.20%	8.90%
Domestic small stocks	1.50%	1.30%	13.20%
International developed market stocks	12.40%	12.40%	8.90%
International emerging market stocks	5.10%	5.10%	10.90%
Alternative	-	5.00%	12.00%
Total	100.00%	100.00%	

* Rates shown are net of assumed rate of inflation.

Discount rate: The discount rate used to measure the total TRS pension liability was 7.25%. The discount rate used to measure the total ERS and PSERS pension liability was 7.30%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and nonemployer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the TRS, ERS and PSERS pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School District's proportionate share of the net pension liability to changes in the discount rate: The following presents the School District's proportionate share of the net pension liability calculated using the discount rate of 7.25% and 7.30%, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25% and 6.30%) or 1-percentage-point higher (8.25% and 8.30%) than the current rate:

Teachers Retirement System:	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
School District's proportionate share of the net pension liability	$ 680,830,462	$ 419,413,252	$ 204,435,420

Employees' Retirement System:	1% Decrease (6.30%)	Current Discount Rate (7.30%)	1% Increase (8.30%)
School District's proportionate share of the net pension liability	$ -	$ -	$ -

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued TRS, ERS and PSERS financial report which is publicly available at www.trsga.com/publications and http://www.ers.ga.gov/financials.

Payables to the pension plan: At June 30, 2020, the School District reported a payable in the amount of $5,642,887 To the TRS plan for the employee and employer contributions attributable to June of 2020.

DEFINED CONTRIBUTION PLAN

In August 2001, Cherokee County Board of Education adopted the CCSD 403(b) pension plan for the group of employees covered under the Public School Employees' Retirement System (PSERS). Recognizing that PSERS was a limited defined contribution and defined benefit plan which did not provide for an adequate retirement for this group of employees, it was the Board's desire to supplement the retirement savings of this group.

The Board selected VALIC as the provider of the CCSD 403(b) plan. For each employee covered under PSERS, the Board began contributing to the plan an amount equal to $.50 for each $1.00 of employee contributions up to four percent of the employee's regular earnings.

An employee becomes vested in employer contributions in accordance with the following schedule:

0-35 months of service:	0%
36-47 months of service:	50%
48-59 months of service:	75%
60+ months of service:	100%

Employees who have already completed five years of service at the time of enrollment are immediately vested upon enrollment. Employees at all times are 100% vested in employee contributions.

Funds accumulated through employer contributions are only available to the employee upon termination of employment or by achieving normal retirement age as determined by the Internal Revenue Service. If an employee terminates employment prior to achieving vested status, funds contributed by CCSD on behalf of the non-vested employee are credited back to the Board.

Employer contributions for the current fiscal year and the preceding two fiscal years are as follows:

Fiscal Year	Percentage Contributed	Required Contribution
2020	100%	$ 228,537
2019	100%	215,560
2018	100%	190,396

NOTE 14: RESTATEMENT OF PRIOR YEAR NET POSITION

For fiscal year 2020, the School District made prior period adjustments due to the adoption of GASB Statement No, 84, as described in "New Accounting Pronouncements," which requires the restatement of the June 30, 2019 net position in governmental activities and fund balance in the general fund. These changes are in accordance with generally accepted accounting principles.

Net Position, July 1, 2019 as previously reported	$	(327,242,475)
Prior Period Adjustment - Implementation of GASB No. 84: School Activity Account Reclassification		543,621
Net Position, July 1, 2019, as restated	$	(326,698,854)
Fund Balance (General Fund), July 1, 2019, as previously reported	$	67,555,309
Prior Period Adjustment - Implementation of GASB No. 84: School Activity Account Reclassification		543,621
Fund Balance (General Fund), July 1, 2019, as restated	$	68,098,930
Net Position (Fiduciary Funds), July 1, 2019 as previously reported	$	543,621
Prior Period Adjustment - Implementation of GASB No. 84: Restatement for Custodial Funds Beginning Net Position		(543,621)
Net Position (Fiduciary Funds), July 1, 2019, as restated	$	-

NOTE 15: PRIOR YEAR DEFEASEMENT OF DEBT

In prior years, the School District defeased certain general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the School District's basic financial statements. During fiscal year 2020, $44,880,000 of bonds considered defeased were retired and are no longer outstanding.

NOTE 16: TAX ABATEMENTS

The public purpose of the Cherokee County Development Authority is promoting and expanding for the public good and welfare, industry and trade within Cherokee County and reducing unemployment to the greatest extent possible. The Cherokee County Development Authority, in coordination with Cherokee County government, provide a tax incentive program for qualified industries locating/located in Cherokee County. The purpose of this program is to encourage additional investment from new and existing industries to grow and diversify the tax base and local economy. Eligibility for the tax abatement program is based off the number and quality of jobs created as well as the amount of capital investment. There are claw-back provisions should the recently located company not meet their committed jobs and capital investment numbers.

For the fiscal year ended June 30, 2020, the Cherokee County Development Authority abated property taxes due to the School District that were levied on June 20, 2019 and due on November 15, 2019 totaling $1,972,812.

This schedule is intended to show information for 10 years. Additional years will be displayed as they become available.

Teachers Retirement System

Changes of assumptions: In 2010 and later, the expectation of retired life mortality was changed to the RP-2000 Mortality Tables rather than the 1994 Group Annuity Mortality Table, which was used prior to 2010. In 2010, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience. In 2010, assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

On November 18, 2015, the Board adopted recommended changes to the economic and demographic assumptions utilized by the System. Primary among the changes were the updates to rates of mortality, retirement, disability, withdrawal and salary increases. The expectation of retired life mortality was changed to RP-2000 White Collar Mortality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB (set forward one year for males).

On May 15, 2019, the Board adopted recommended changes from the smoothed valuation interest rate methodology that had been in effect since June 30, 2009, to a constant interest rate method. In conjunction with the methodology, the long-term assumed rate of return in assets (discount rate) has been changed from 7.50% to 7.25%, and the assumed annual rate of inflation has been reduced from 2.75% to 2.50%.

Employees' Retirement System

Changes of assumptions: On December 17, 2015, the Board adopted recommended changes to the economic and demographic assumptions utilized by the System. Primary among the changes were the updates to rates of mortality, retirement, disability, withdrawal and salary increases.

On March 15, 2018, the Board adopted a new funding policy. Because of this new funding policy, the assumed investment rate of return was reduced from 7.50% to 7.40% for the June 30, 2017 actuarial valuation. In addition, based on the Board's new funding policy, the assumed investment rate of return was further reduced by 0.10% from 7.40% to 7.30% as of the June 30, 2018 Measurement Date.

Public School Employees Retirement System

Changes of assumptions: In 2010 and later, the expectation of retired life mortality was changed to the RP-2000 Mortality Tables rather than the 1994 Group Annuity Mortality Table, which was used prior to 2010. In 2010, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience.

On December 17, 2015, the Board adopted recommended changes to the economic and demographic assumptions utilized by the System. Primary among the changes were the updates to rates of mortality, retirement and withdrawal. The expectation of retired life mortality was changed to the RP-2000 Blue Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females).

On March 15, 2018, the Board adopted a new funding policy. Because of this new funding policy, the assumed investment rate of return was reduced from 7.50% to 7.40% for the June 30, 2017 actuarial valuation. In addition, based on the Board's new funding policy, the assumed investment rate of return was further reduced by 0.10% from 7.40% to 7.30% as of the June 30, 2018 Measurement Date.

School OPEB Fund

Changes of benefit terms: There have been no changes in benefit terms.

Changes in assumptions:

- June 30, 2017 valuation: the June 30, 2017 actuarial valuation was revised, for various factors, including the methodology used to determine how employees and retirees were assigned to each of the OPEB Funds and anticipated participation percentages. Current and former employees of State organizations (including technical colleges, community service boards and public health departments) are now assigned to the State OPEB fund based on their last employer payroll location, irrespective of retirement affiliation.

- The discount rate was updated from 3.07% as of June 30, 2016 to 3.58% as of June 30, 2017 to 3.87% as of June 30, 2018, and back to 3.58% as of June 30, 2019.

Source: State of Georgia Department of Revenue, Tax Digest Consolidation Summary, School, https://apps.dor.ga.gov/digestconsolidation/default.aspx

Property in Cherokee County is reassessed annually. The county assesses property at 40 percent of actual value for all types of real and personal property. Estimated actual value is calculated by dividing the assessed value by this percentage.

[1] As of March 1, 2013, only motor vehicles titles prior to March 1, 2013 are subject to ad valorem tax. Motor vehicles titles after that date are subject instead to a one-time state and local title fee. As a result of this change in law, the assessed value of motor vehicles subject to ad valorem tax decreased by approximately $471.4 million from 2013 to 2019, and the District expects the assessed value of motor vehicles to continue to decrease in future years as motor vehicles subject to ad valorem tax come out of service.

[2] Per $1,000 of assessed value.

[3] The tax year is one year prior to the fiscal year.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Superintendent and Members of
The Cherokee County Board of Education
Canton, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Cherokee County School District (the "School District") as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued our report thereon dated December 18, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Superintendent and Members of
The Cherokee County Board of Education
Canton, Georgia

Report on Compliance for Each Major Federal Program

We have audited the Cherokee County School District's (the "School District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the School District's major federal programs for the year ended June 30, 2020. The School District's major federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and the audit requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the School District's compliance.

Opinion on Each Major Program

In our opinion, the School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

CHEROKEE COUNTY SCHOOL DISTRICT
Notes to the Schedule of Expenditures of Federal Awards
For the Fiscal Year Ended June 30, 2020

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the Cherokee County Board of Education (the "Board") under programs of the federal government for the year ended June 30, 2020. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Board, it is not intended to and does not present the financial position or changes in net position of the Board.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherin certain types of expenditures are not allowable or are limited as to reimbursement.

Total federal revenues presented in the Statement of Revenues, Expenditures, and Changes in Fund Balance - Governmental Funds differ from the total federal expenditures presented in this schedule due to federal payments received that were not associated with a specific federal program. Those differences totaled $136,868.

[1] Includes the federally assigned value of donated commodities for the Food Donation Program in the amount of $1,205,670.

CHEROKEE COUNTY SCHOOL DISTRICT
