270 Washington Street, S.W., Suite 1-156
Atlanta, Georgia 30334-8400

Greg S. Griffin
STATE AUDITOR
(404) 656-2174

February 27, 2017

Honorable Nathan Deal, Governor
Members of the General Assembly
Members of the State Board of Education
and
Superintendent and Members of the
Lee County Board of Education

INDEPENDENT AUDITOR'S REPORT

Ladies and Gentlemen:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Lee County Board of Education as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also

(This page left intentionally blank)

includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School District, as of June 30, 2016, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 2 to the financial statements, in 2016, the School District adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 72, *Fair Value Measurement and Application*, GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets that are not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and 68,* and GASB Statement No. 79, *Certain External Investment Pools and Pool Participant*s. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedules of Proportionate Share of the Net Pension Liability, Schedules of Contributions to Retirement Systems, Notes to the Required Supplementary Information and the Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual as presented on pages i through ix and pages 31 through 37 respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The accompanying supplementary information, consisting of Schedules 8 through 10, is presented for the purposes of additional analysis and is not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by Title 2

(This page left intentionally blank)

U. S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* and is also not a required part of the basic financial statements.

The accompanying supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 27, 2017, on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

A copy of this report has been filed as a permanent record in the office of the State Auditor and made available to the press of the State, as provided for by Official Code of Georgia Annotated section 50-6-24.

Respectfully submitted,

Greg S. Griffin
State Auditor

LEE COUNTY BOARD OF EDUCATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

INTRODUCTION

The discussion and analysis of Lee County Board of Education (herein referred to as the "System") financial performance provides an overall review of the System's financial activities for the fiscal year ended June 30, 2016. The intent of this discussion and analysis is to look at the System's financial performance as a whole. Readers should also review the financial statements and notes to the financial statements to enhance their understanding of the System's financial performance.

FINANCIAL HIGHLIGHTS

- During fiscal year 2016, the System adopted new accounting pronouncements GASB Statements 72, 73 and 79. The adoption of these statements only impacted the System's participation in the State of Georgia local investment pool which did not meet the criteria of this statement. Therefore, the investment in this pool is measured at fair value as provided in paragraph 11 of GASB Statement No. 31, as amended.

- The assets of the System exceeded its liabilities and deferred outflows/inflows at June 30, 2016, by $42,689,347.43. Of this amount, a deficit balance of $34,003,871.23 was reflected in unrestricted net position. This deficit was a result of the System's portion of employee pension plans.

- Net position increased by a total of $3,236,928.07 from the beginning of the year. The increase is attributable, primarily, to significantly less deferred inflows of resources related to the defined benefit pension plan.

- At June 30, 2016, the System's general fund reported a fund balance of $6,924,696.70, an increase of $475,565.53 or 7.4% from the last fiscal year. Of this total, $6,363,933.09, represents unassigned fund balance.

- SPLOST collections in fiscal year 2016 decreased 0.01% from collections in fiscal year 2015. This decrease was primarily due to a less taxes being collected on fuel because of lower price fuel prices.

- Principal and interest payments were made on the System's outstanding general obligation bonds.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the System's basic financial statements. The basic financial statements comprise three components: 1) System-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

System-wide Financial Statements

The System-wide financial statements are designed to provide readers with a broad overview of the System's finances in a manner similar to a private-sector business. The Statement of Net Position presents information on all of the System's assets and deferred outflows of resources and liabilities and deferred inflows of resources with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial

position of the System is improving or deteriorating. It is important to note that this statement consolidates the System's current financial resources (short-term) with capital assets and long-term liabilities.

The Statement of Activities presents information showing how the System's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g. uncollected taxes, etc.)

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been separated for specific activities or objectives. The System, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the System can be divided into two categories: governmental funds and fiduciary funds.

Governmental Funds - Most of the System's activities are reported in governmental funds focusing on how money flows in and out of those funds and the balances left at year-end available for spending in future periods. The governmental fund statements provide a detailed short-term view of the System's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent in the near future to finance educational programs.

Fiduciary Funds - The System is the trustee, or fiduciary, for assets that belong to others such as club and class funds and payroll withholding funds. The System is responsible for ensuring assets reported in these funds are used only for their intended purposes and by those to whom the assets belong.

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the system-wide and fund financial statements.

SYSTEM-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. As of June 30, 2016, System assets exceeded liabilities and deferred inflows/outflows by $42,689,347.43. This amount represents an 8.2% increase in net position over fiscal year 2015.

The largest portion of the System's net position reflects its investment in capital assets (e.g. buildings, land, machinery and equipment, construction in progress) less any related debt used to acquire those assets that remain outstanding. The System uses the capital assets to provide services to our students, faculty, and community; consequently, these assets are not available for future spending.

The following chart details the major categories of assets, deferred outflows, liabilities, deferred inflows and net position with a comparison to the prior fiscal year.

Table 1
Net Position

	Governmental Activities	
	Fiscal Year 2016	Fiscal Year 2015
Assets		
Current and Other Assets	$ 23,028,825.59	$ 24,341,384.65
Capital Assets	84,317,136.95	84,357,913.64
Total Assets	107,345,962.54	108,699,298.29
Deferred Outflows of Resources	4,366,659.43	3,979,627.75
Liabilities		
Current and Other Liabilities	6,881,053.12	6,564,518.20
Long-Term Liabilities	58,388,884.42	55,038,724.48
Total Liabilities	65,269,937.54	61,603,242.68
Deferred Inflows of Resources	3,753,337.00	11,623,264.00
Net Position		
Net Investment in Capital Assets	74,414,074.71	72,760,456.92
Restricted	2,279,143.75	2,555,724.92
Unrestricted (Deficit)	(34,003,871.23)	(35,863,762.48)
Total Net Position	$ 42,689,347.23	$ 39,452,419.36

An additional portion of the System's total net position represents resources that are subject to external restrictions on how they may be used. Comprising the majority of restricted net position are funds being accumulated for debt service payments on general obligation bonds accounting for 92.1% of total restricted assets. Funds accumulated for use in capital projects represented 3.8% of total restricted net position. The remaining 4.1% represents funds restricted for ongoing federal programs.

Unrestricted deficit of ($34,003,871.23) includes the System net liability and deferred inflows/outflows for pension plans ($39,686,040.57). Prior to the implementation of GASB Statements 68 and 71 in Fiscal Year 2015, this liability was not reported by school districts in Georgia. Without the reporting of this liability, the System would reflect a net position of $5,682,169.34 of unrestricted assets. Because the majority of the pension liability is long-term, its reporting should not impact the System’s position to meet current system operations and obligations.

CHANGES IN NET POSITION FROM OPERATING RESULTS

Net position increased $3,236,928.07 from operating results in the fiscal year ended June 30, 2016 compared to an increase of $1,279,236.78 in the prior fiscal year. Key elements of this increase are as follows on the next chart:

Table 2

Change in Net Position

	Governmental Activities	
	Fiscal Year 2016	Fiscal Year 2015
Revenues		
Program Revenues:		
Operating Grants and Contributions	$ 33,666,760.21	$ 32,216,581.54
Capital Grants and Contributions	77,220.00	154,440.00
Charges for Services	1,457,633.12	1,406,446.89

Increase in Net Position	$ 3,236,928.07	$ 1,279,236.78

FINANCIAL ANALYSIS OF THE SYSTEM'S FUNDS

General Fund Budgetary Highlights

The System's budget is prepared in accordance with Georgia law and is based on accounting for certain transactions on the modified accrual basis of accounting. The System uses site-based budgeting and the budgeting system is designed to tightly control site budgets but provide flexibility for site management.

The most significant budgeted fund is the general fund. As originally adopted, general fund revenues were projected to be $53,348,750.52 with appropriated expenditures totaling $57,934,289.63 up 0.04% from the fiscal year 2015 final amended budget. The Board appropriated $4,585,539.11 from unreserved fund balance to cover the shortfall. Of significance, austerity reductions to funding formula earnings were reduced to $1,701,588.00 at mid-term which increased state funding by $707,584.69 over fiscal year 2015. The Board of Education reduced its property tax levy from 17.50 to 17.465 mills for operations and continued funding a 180 day school calendar with no furlough days. Additionally, all noncertified staff were granted a step increase in salary and additional teachers were hired to offset growth and decrease class size.

As fiscal year 2016 progressed, the final amended general fund budget increased $18,849.00 for revenues, an increase of 0.04% from the original budget for the year. The reason for the amendment was to adjust grants from estimates to actual awarded amounts.

The original budget for fiscal year 2016 included appropriated expenditures of $57,934,289.63, which was an increase of $1,482,861.97 over the 2015 final budget appropriated expenditures. This increase was primarily due to the increase in state funding for growth and austerity reduction which were used to fund the additional noncertified health insurance increase, additional teaching positions, step increases for noncertified employees and the increase in teacher's retirement employer cost. The System included no new school bus purchases as part of the original fiscal year 2016 budget other than the one funded by the State's bonds for buses formula. As with revenues, the final amended budget was increased by $18,849.00 from the original budget to adjust grants from estimates to actual awarded amounts.

General Fund Operations

The general fund finished fiscal year 2016 with a fund balance of $6,924,696.70, an increase of $475,565.53, or 7.4%, from fiscal year 2015. Actual revenues were above budget projections by $2,238,408.44 while actual expenditures were $3,396,696.20 less than budgeted. A significant portion of this is related to the fact that school activity account revenues and expenditures of $1,396,091.59 and $1,360,704.31 respectively are not included in the budget amounts. Several other important factors led to the actual results for the year.

First, state revenues were increased by a significant decrease of "austerity reductions." Austerity reductions occur when the Georgia General Assembly fails to appropriate sufficient dollars in the state budget to fully fund the results of the State's Quality Basic Education (QBE) formula. By year end, the System experienced a total austerity reduction of $1,701,588.00 as compared to an austerity reduction of $2,718,289.00 in 2015. In total, state funding increased by $1,000,124.05 in fiscal year 2016 and increased from 57.24% of total revenue in 2015 to 57.73% in 2016.

Federal revenues decreased slightly $20,654.01 due to federal grant award decreases in the Special Education Cluster and Title I which was offset by a modest increase in National School Lunch Program revenues. Federal revenues as a percentage of total revenues decreased from 7.30% in 2015 to 7.10% in 2016.

Local revenue sources represented 35.16% of total general fund revenues for the year, down from 35.46% in the prior year. Though local revenues increased by $282,838.20, this increase was slightly disproportionate to the increase in state funding. Local funds are mostly comprised of local taxes, which saw a modest increase due to digest growth. The remainder of local revenues consists of other taxes, interest, tuition and other miscellaneous income.

At year end, total expenditures were under budget by $3,396,696.20. Total expenditures grew from $53,404,296.16 in 2015 to $54,556,442.43 in 2016. This was an increase of $1,152,146.27 or 2.2%. Expenditures for direct classroom instruction (e.g. teacher salaries and benefits, textbooks, classroom supplies, etc.) accounted for 62.5% of total general fund expenditures, increased by $1,137,794.51 over the prior fiscal year. The increase was due to hiring of additional teachers for system growth, the increase of group health insurance for paraprofessionals and other noncertified employees by $1,200.00 per year and the increase in employee benefits related to teacher's retirement. The employer share for Teachers Retirement contribution increased from 13.15% in 2015 to 14.27% in 2016. Several functional areas reflected increased expenditures compared to the prior year as a result of these increases.

The following chart details the major components of revenues and expenditures by function for fiscal year 2016 as well as a comparison of changes compared to the previous fiscal year.

Table 3
General Fund
Revenue and Expenditure Comparison

	Amount	% of Total	Increase (Decrease) Over Fiscal Year 2015
REVENUES			
State	$ 32,104,091.36	57.74%	$ 1,000,124.05
Federal	3,948,539.31	7.10%	(20,654.01)
Local	19,553,377.29	35.16%	282,838.20
Total Revenues	55,606,007.96	100.00%	1,262,308.24
EXPENDITURES			
Instruction	34,087,083.71	62.48%	1,137,794.51
Pupil Support Services	2,443,294.14	4.48%	132,874.32
Improvement of Instructional Services	1,429,929.47	2.62%	83,067.05
Educational Media Services	1,166,801.93	2.14%	44,932.56
General Administration	420,413.13	0.77%	(21,044.42)
School Administration	3,307,891.15	6.06%	118,430.00
Business Administration	333,232.94	0.61%	(5,611.44)
Maintenance and Operation	4,417,150.14	8.10%	9,349.09
Student Transportation Services	3,396,164.18	6.23%	(71,843.83)
Central Support Services	99,967.28	0.18%	3,306.67
Other Support Services	22,498.46	0.04%	(8,332.34)
Community Service Operations	502,710.80	0.92%	(86,918.88)
Food Service Operations	2,929,305.10	5.37%	(183,857.02)
Total Expenditures	$ 54,556,442.43	100.00%	$ 1,152,146.27

Capital Projects Fund Operations

The capital projects fund is used to account for school construction and the purchase of large capital assets. Expenditures in 2016 decreased by $845,097.25 under 2015 due the timing of the projects. The remaining project which was not completed in the general obligation bond issue approved by the voters of Lee County in May, 2014 was a $7.5 million dollar multipurpose building. The architectural drawings of this project were not completed until late in fiscal year 2016, so the only projects in 2016 were a portion of this project and the remaining portion of the 9th grade paving project.

Debt Service Fund Operations

The debt service fund is used to accumulate resources for the retirement of long-term debt represented primarily by the general obligation bonds outstanding. Debt service payments totaling $4,067,061.25 in principal, interest and fiscal agent charges on the 2011B, 2014A and 2014B general obligation bond issues were made during the year. All debt service sinking fund requirements were met at the end of fiscal year 2016.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The System's investment in capital assets for its governmental activities as of June 30, 2016, totaled $74,414,074.71 net of accumulated depreciation and related debt. The investment in capital assets includes land, buildings, vehicles, and equipment used in providing services to our students and community as well as construction in progress on several building projects. Note 5 to the basic financial statements provides additional information on the System's capital assets including a detailed breakdown of the types of capital assets included in the computation of depreciation charges. As of June 30, 2016, 32.87% of the cost basis of depreciable assets had been taken as a depreciation charge since the various assets were placed in service.

A summary of capital assets follows:

Table 4
Capital Assets at June 30
(Net of Depreciation)

	Governmental Activities	
	Fiscal Year 2016	Fiscal Year 2015
Land	$ 1,673,624.95	$ 1,673,624.95
Construction in Progress	1,820,337.59	429,753.46
Buildings and Improvements	77,079,742.16	78,778,382.78
Equipment and Improvements	1,687,189.87	1,855,870.50
Land Improvements	2,056,242.38	1,620,281.95
Total	$ 84,317,136.95	$ 84,357,913.64

Debt Administration

At June 30, 2016, the System had $17,500,000.00 in outstanding general obligation bond indebtedness. The current debt limitation for the System is $89,240,466.70 based on state law limiting the amount of general obligation debt a government entity may issue to ten (10) percent of the total assessed value of taxable property. The System maintains a rating of AA from Moody's for general obligation debt subject to the State intercept program. Additional information on the System's long-term debt can be found in Note 7 to the basic financial statements.

Outlook for the Future

The System enjoys a strong financial position in light of current economic conditions affecting local revenues as well as the effect of state revenue pressures through austerity reductions to the QBE funding formula and new programmatic requirements. Austerity reductions will continue in fiscal year 2017 but, similar to the current fiscal year, will see a significant reduction of approximately $1.0 million. These additional state funds will be used to offset the increase in noncertified health insurance, reduce class sizes with additional teaching positions and provide pay increases for both certified and noncertified employees. The State's reduction of austerity in 2014, 2015, 2016 and 2017 is a positive sign of revenue collections at the state level. Until all funds are restored, the continued relaxation of class size requirements and other waivers by the Georgia Department of Education are providing the flexibility the System needs to offset the shortfall of state funding.

The assessed net value of the county property digest increased by 2.87% in 2016. The Board of Education reduced the millage rate it adopted for fiscal year 2017 operations from 17.465 to 17.395. With the fiscal year 2017 M&O millage set at 17.395, the ability to raise additional local revenue through property taxes is limited given the constitutional limit which caps school millage rates at 20 mills. The Board of Education will continue to be careful in obligating funds for programs and uses that might be needed to cover expenses not funded through state appropriations. As of June 30, 2016, the General Fund reflected a fund balance of $6,924,696.70 translating to 25.67 days of operation based on the fiscal year 2016 budget. At this time, the objective is to maintain a strong financial condition to better address any further cutbacks in State funding that could have an adverse effect on operations and financial reserves. The system continues to grow but not at the rate experienced in years past. System FTE for the upcoming fiscal year (2017) is 6,185 which is down slightly from the 2016 amount of 6,321. FTE is expected to stay pretty constant in this range for the foreseeable future and should not require additional classrooms or schools within five or more years.

Requests for Information

This financial report is designed to provide a general overview of the Lee County Board of Education's finances for those with an interest in the System's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to:

Gary Kelley, CPA,
Assistant Superintendent – Business and Finance
Lee County Board of Education
P.O. Box 399
Leesburg, Georgia 31763

LEE COUNTY BOARD OF EDUCATION
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF
REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITIES
JUNE 30, 2016

EXHIBIT "F"

Net change in fund balances total governmental funds (Exhibit "E")		$ (1,782,170.85)
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense.		
Capital outlay	$ 2,511,924.08	
Depreciation expense	(2,552,700.77)	(40,776.69)
Taxes reported in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.		126,243.54
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and the difference between the carrying value of refunded debt and the acquisition cost of refunded debt when debt is first issued. These amounts are deferred and amortized in the Statement of Activities.		
Amortization of bond premium	$ 159,874.06	
Bond principal retirements	3,440,000.00	3,599,874.06
District pension contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability is measured a year before the District's report date. Pension expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities.		
Pension expense		1,306,924.68
Some items reported in the Statement of Activities do no require the use of current financial resources and therefore are not reported as expenditures in the governmental fund.		
Accrued Interest		26,833.33
Change in net position of governmental activities (Exhibit "B")		$ 3,236,928.07

NOTE 1: DESCRIPTION OF SCHOOL DISTRICT AND REPORTING ENTITY

REPORTING ENTITY

The Lee County Board of Education (School District) was established under the laws of the State of Georgia and operates under the guidance of a board elected by the voters and a Superintendent appointed by the Board. The School District is organized as a separate legal entity and has the power to levy taxes and issue bonds. Its budget is not subject to approval by any other entity. Accordingly, the School District is a primary government and consists of all the organizations that compose its legal entity.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles. The most significant of the School District's accounting policies are described below.

BASIS OF PRESENTATION

The School District's basic financial statements are collectively comprised of the government-wide financial statements, fund financial statements and notes to the basic financial statements. The government-wide statements focus on the School District as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the information's usefulness.

GOVERNMENT-WIDE STATEMENTS:

The Statement of Net Position and the Statement of Activities display information about the financial activities of the overall School District, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The Statement of Net Position presents the School District's non-fiduciary assets and liabilities, with the difference reported as net position. Net position is reported in three categories as follows:

1. Net investment in capital assets consists of the School District's total investment in capital assets, net of accumulated depreciation, and reduced by outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.
2. Restricted net position consists of resources for which the School District is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties or imposed by law through constitutional provisions or enabling legislation.
3. Unrestricted net position consists of resources not meeting the definition of the two preceding categories. Unrestricted net positon often has constraints on resources imposed by management which can be removed or modified.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the School District's governmental activities.

Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses (expenses of the School District related to the administration and support of the School District's programs, such as office and maintenance personnel and accounting) are not allocated to programs.

Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

FUND FINANCIAL STATEMENTS:

The fund financial statements provide information about the School District's funds, including fiduciary funds. Eliminations have been made to minimize the double counting of internal activities. Separate financial statements are presented for governmental) and fiduciary funds. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The School District reports the following major governmental funds:

- The general fund is the School District's primary operating fund. It accounts for and reports all financial resources not accounted for and reported in another fund.
- The capital projects fund accounts for and reports financial resources including Education Special Purpose Local Option Sales Tax (ESPLOST) and Bond Proceeds that are restricted, committed or assigned for capital outlay expenditures, including the acquisition or construction of capital facilities and other capital assets.
- The debt service fund accounts for and reports financial resources that are restricted, committed, or assigned including taxes (property and sales) legally restricted for the payment of general long-term principal and interest.

The School District reports the following fiduciary fund type:

- Agency funds are used to report resources held by the School District in a purely custodial capacity (assets equal liabilities) and do not involve measurement of results of operations.

BASIS OF ACCOUNTING

The basis of accounting determines when transactions are reported on the financial statements. The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the School District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, sales taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from sales taxes is recognized in the fiscal year in which the underlying transaction (sale) takes place. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The School District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. The School District considers all intergovernmental revenues to be available if they are collected within 120 days after year-end. Property taxes, sales taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-

term debt which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities are reported as other financing sources.

The School District funds certain programs by a combination of specific cost-reimbursement grants, categorical grants, and general revenues. Thus, when program costs are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the School District's policy to first apply grant resources to such programs, followed by cost-reimbursement grants, then general revenues.

NEW ACCOUNTING PRONOUNCEMENTS

In fiscal year 2016, the School District adopted Governmental Accounting Standards Board (GASB) Statement No. 72, *Fair Value Measurement and Application.* This statement addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement provides guidance for determining a fair value measurement for financial reporting purposes. This statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements. The School District did not have any items that required a reassessment of value for reporting purposes as a result of adoption of this statement.

In fiscal year 2016, the School District adopted Governmental Accounting Standards Board (GASB) Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets that are not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and 68.* This statement establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68*, Accounting and Financial Reporting for Pensions*, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement 68. It also amends certain provisions of Statement No. 67, *Financial Reporting for Pension Plans*, and Statement No. 68 for pension plans and pensions that are within their respective scopes. The adoption of this statement does not have a significant impact on the School District’s financial statements.

In fiscal year 2016, the School District adopted Governmental Accounting Standards Board (GASB) Statement No. 79, *Certain External Investment Pools and Pool Participants.* This statement addresses accounting and financial reporting for certain external investment pools and pool participants. If an external investment pool meets the criteria in this statement and measures all of its investments at amortized cost, the pool’s participants also should measure their investments in that external investment pool at amortized cost for financial reporting purposes. The School District participates in an external investment pool, the State of Georgia local government investment pool (Georgia Fund 1), which does not meet the criteria of this statement. Therefore, the investment in this pool is measured at fair value as provided in paragraph 11 of GASB Statement No. 31, as amended.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash on hand, demand deposits, investments in the State of Georgia local government investment pool (Georgia Fund 1) and short-term investments with original maturities of three months or less from the date of acquisition in authorized financial institutions. Official Code of Georgia Annotated (O.C.G.A.) §45-8-14 authorizes the School District to deposit its funds in one or more solvent banks, insured Federal savings and loan associations or insured chartered building and loan associations.

RECEIVABLES

Receivables consist of amounts due from property and sales taxes, grant reimbursements due on Federal, State or other grants for expenditures made but not reimbursed and other receivables disclosed from information available. Receivables are recorded when either the asset or revenue recognition criteria has been met. Receivables recorded on the basic financial statements do not include any amounts which would necessitate the need for an allowance for uncollectible receivables.

INVENTORIES

Food Inventories

On the basic financial statements, inventories of donated food commodities used in the preparation of meals are reported at their Federally assigned value and purchased foods inventories are reported at cost (calculated on the first in, first out basis). The School District uses the consumption method to account for inventories whereby donated food commodities are recorded as an asset and as revenue when received, and expenses/expenditures are recorded as the inventory items are used. Purchased foods are recorded as an asset when purchased and expenses/expenditures are recorded as the inventory items are used.

CAPITAL ASSETS

On the government-wide financial statements, capital assets are recorded at cost where historical records are available and at estimated historical cost based on appraisals or deflated current replacement cost where no historical records exist. Donated capital assets are recorded at acquisition cost on the date donated. The cost of normal maintenance and repairs that do not add to the value of assets or materially extend the useful lives of the assets is not capitalized. The School District does not capitalize book collections or works of art.

Capital acquisition and construction are recorded as expenditures in the governmental fund financial statements at the time of purchase (including ancillary charges), and the related assets are reported as capital assets in the governmental activities column in the government-wide financial statements.

Depreciation is computed using the straight-line for all assets, except land, and is used to allocate the actual or estimated historical cost of capital assets over estimated useful lives.

Capitalization thresholds and estimated useful lives of capital assets reported in the government-wide statements are as follows:

	Policy	Useful Life
Land	25,000.00	N/A
Land Improvements	25,000.00	50 years
Buildings and Improvements	25,000.00	50 years
Equipment	25,000.00	5 to 25 years
Intangible Assets	25,000.00	5 to 10 years

DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the statement of financial position will report a separate section for deferred outflows of resources. This separate financial statement element, represents a consumption of resources that applies to a future period(s) and therefore will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of resources that applies to a future period(s) and therefore will not be recognized as an inflow of resources (revenue) until that time.

LONG-TERM LIABILITIES AND BOND DISCOUNTS/PREMIUMS

In the School District's government-wide financial statements, outstanding debt is reported as liabilities. Bond premiums and discounts and the difference between the reacquisition price and the net carrying value of refunded debt are deferred and amortized over the life of the bonds using the straight-line method. To conform to generally accepted accounting principles, bond premiums and discounts should be amortized using the effective interest method. The effect of this deviation is deemed to be immaterial to the fair presentation of the basic financial statements. Bond issuance costs are recognized as an outflow of resources in the fiscal year in which the bonds are issued.

In the governmental fund financial statements, the School District recognizes the proceeds of debt and premiums as other financing sources of the current period. Bond issuance costs are reported as debt service expenditures.

PENSIONS

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the pension plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

FUND BALANCES

Fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

The School District's fund balances are classified as follows:

Nonspendable consists of resources that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted consists of resources that can be used only for specific purposes pursuant constraints either (1) externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or (2) imposed by law through constitutional provisions or enabling legislation.

Committed consists of resources that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board. The Board is the School District's highest level of decision-making authority, and the formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a resolution approved by the Board. Committed fund balance also should incorporate contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned consists of resources constrained by the School District's intent to be used for specific purposes, but are neither restricted nor committed. The intent should be expressed by (1) the Board or (2) the budget or finance committee, or the Superintendent, or designee, to assign amounts to be used for specific purposes.

Unassigned consists of resources within the general fund not meeting the definition of any aforementioned category. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, it may be necessary to report a negative unassigned fund balance.

USE OF ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

PROPERTY TAXES

The Lee County Board of Commissioners adopted the property tax levy for the 2015 tax digest year (calendar year) on July 30, 2015 (levy date) based on property values as of January 1, 2015. Taxes were due on December 20, 2015 (lien date). Taxes collected within the current fiscal year or within 60 days after year-end on the 2015 tax digest are reported as revenue in the governmental funds for fiscal year 2016. The Lee County Tax Commissioner bills and collects the property taxes for the School District, withholds 1.29% of taxes collected as a fee for tax collection and remits the balance of taxes collected to the School District. Property tax revenues, at the fund reporting level, during the fiscal year ended June 30, 2016, for maintenance and operations amounted to $15,083,255.33 and for school bonds amounted to $344,554.05.

Tax millage rates levied for the 2015 tax year (calendar year) for the School District were as follows (a mill equals $1 per thousand dollars of assessed value):

School Operations	17.465	mills
School Bonds	0.400	mills
	17.865	mills

Additionally, Title Ad Valorem Tax revenues, at the fund reporting level, amounted to $1,111,004.62 during fiscal year ended June 30, 2016.

SALES TAXES

Education Special Purpose Local Option Sales Tax (ESPLOST), at the fund reporting level, during the year amounted to $3,242,725.09 and is to be used for capital outlay for educational purposes or debt service. This sales tax was authorized by local referendum and the sales tax must be re-authorized at least every five years.

NOTE 3: BUDGETARY DATA

The budget is a complete financial plan for the School District's fiscal year, and is based upon careful estimates of expenditures together with probable funding sources. The budget is legally adopted each year for the general, debt service, and capital projects funds. There is no statutory prohibition regarding over expenditure of the budget at any level. The budget for all governmental funds, except the various school activity (principal) accounts, is prepared and adopted by fund, function and object. The legal level of budgetary control was established by the Board at the aggregate function level. The budget for the general fund was prepared in accordance with accounting principles generally accepted in the United States of America.

The budgetary process begins with the School District's administration presenting an initial budget for the Board's review. The administration makes revisions as necessary based on the Board's guidelines, and a tentative budget is approved. After approval of this tentative budget by the Board, such budget is advertised at least once in a newspaper of general circulation in the locality, as well as the School

District's website. At the next regularly scheduled meeting of the Board after advertisement, the Board receives comments on the tentative budget, makes revisions as necessary and adopts a final budget. The approved budget is then submitted, in accordance with provisions of O.C.G.A. §20-2-167(c), to the Georgia Department of Education. The Board may increase or decrease the budget at any time during the year. All unexpended budget authority lapses at fiscal year-end.

See the General Fund Schedule of Revenues, Expenditures and Changes in Fund Balances – Budget to Actual in the Supplementary Information Section for a detail of any over/under expenditures during the fiscal year under review.

NOTE 4: DEPOSITS AND CASH EQUIVALENTS

COLLATERALIZATION OF DEPOSITS

O.C.G.A. § 45-8-12 provides that there shall not be on deposit at any time in any depository for a time longer than ten days a sum of money which has not been secured by surety bond, by guarantee of insurance, or by collateral. The aggregate of the face value of such surety bond and the market value of securities pledged shall be equal to not less than 110% of the public funds being secured after the deduction of the amount of deposit insurance. If a depository elects the pooled method (O.C.G.A. § 45-8-13.1) the aggregate of the market value of the securities pledged to secure a pool of public funds shall be not less than 110% of the daily pool balance.

Acceptable security for deposits consists of any one of or any combination of the following:

(1) Surety bond signed by a surety company duly qualified and authorized to transact business within the State of Georgia,

(2) Insurance on accounts provided by the Federal Deposit Insurance Corporation,

(3) Bonds, bills, notes, certificates of indebtedness or other direct obligations of the United States or of the State of Georgia,

(4) Bonds, bills, notes, certificates of indebtedness or other obligations of the counties or municipalities of the State of Georgia,

(5) Bonds of any public authority created by the laws of the State of Georgia, providing that the statute that created the authority authorized the use of the bonds for this purpose,

(6) Industrial revenue bonds and bonds of development authorities created by the laws of the State of Georgia, and

(7) Bonds, bills, notes, certificates of indebtedness, or other obligations of a subsidiary corporation of the United States government, which are fully guaranteed by the United States government both as to principal and interest or debt obligations issued by or securities guaranteed by the Federal Land Bank, the Federal Home Loan Bank, the Federal Intermediate Credit Bank, the Central Bank for Cooperatives, the Farm Credit Banks, the Federal Home Loan Mortgage Association, and the Federal National Mortgage Association.

CATEGORIZATION OF DEPOSITS

Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District does not have a deposit policy for custodial credit risk. At June 30, 2016, the School District had deposits with a carrying amount of $18,038,644.66 and a bank balance of $20,169,941.12. The bank balances insured by Federal depository insurance were $250,000.00 and the bank balances collateralized with securities held by the pledging financial institution or by the pledging financial institution’s trust department or agent in the School District’s name were $19,919,941.12.

Reconciliation of cash and cash equivalents balances to carrying value of deposits:

Statement of Net Position		
Cash and cash equivalents	$	17,917,921.60
Statement of Fiduciary Net Position		
Cash and cash equivalents		133,964.49
Total cash and cash equivalents		18,051,886.09
Add:		
Deposits with original maturity of three months or less reported as investments		-
Less:		
Cash on hand		-
Investment pools reported as cash and cash equivalents		
Georgia Fund 1		13,241.43
Total carrying value of deposits - June 30, 2016	$	18,038,644.66

CATEGORIZATION OF CASH EQUIVALENTS

The School District reported cash equivalents of $13,241.43 in Georgia Fund 1, a local government investment pool. Georgia Fund 1 is not registered with the SEC as an investment company and does not operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940. The investment is valued at the pool's share price, $1.00 per share, which approximates fair value. The pool is an AAAf rated investment pool by Standard and Poor's. The weighted average maturity of Georgia Fund 1 may not exceed 60 days. The weighted average maturity for Georgia Fund 1 on June 30, 2016, was 42 days.

Georgia Fund 1, administered by the State of Georgia, Office of the State Treasurer, is not required to be categorized since the School District did not own any specific identifiable securities in the pool. The investment policy of the State of Georgia, Office of the State Treasurer for the Georgia Fund 1, does not provide for investment in derivatives or similar investments. Additional information on the Georgia Fund 1 is disclosed in the *State of Georgia* Comprehensive Annual Financial Report. This audit can be obtained from the Georgia Department of Audits and Accounts at www.audits.ga.gov/SGD/CAFR.html.

NOTE 5: CAPITAL ASSETS

The following is a summary of changes in the capital assets for governmental activities during the fiscal year:

	Balances July 1, 2015	Increases	Decreases	Transfers	Balances June 30, 2016
Governmental Activities					
Capital Assets, Not Being Depreciated:					
Land	$ 1,673,624.95	$ -	$ -	$ -	$ 1,673,624.95
Construction in Progress	429,753.46	1,952,464.74		(561,880.61)	1,820,337.59
Total Capital Assets Not Being Depreciated	2,103,378.41	1,952,464.74	-	(561,880.61)	3,493,962.54
Capital Assets Being Depreciated					
Buildings and Improvements	111,845,816.25	458,482.34	-	-	112,304,298.59
Equipment	5,738,159.31	103,977.00	159,774.84	-	5,682,361.47
Land Improvements	1,843,357.61	-	-	561,880.61	2,405,238.22
Less Accumulated Depreciation for:					
Buildings and Improvements	33,067,433.47	2,157,122.96	-	-	35,224,556.43
Equipment	3,882,288.81	269,657.63	156,774.84	-	3,995,171.60
Land Improvements	223,075.66	125,920.18	-	-	348,995.84
Total Capital Assets, Being Depreciated, Net	82,254,535.23	(1,990,241.43)	3,000.00	561,880.61	80,823,174.41
Governmental Activity Capital Assets - Net	$ 84,357,913.64	$ (37,776.69)	$ 3,000.00	$ -	$ 84,317,136.95

Current year depreciation expense by function is as follows:

Instruction		$ 1,926,598.26
Support Services		
Pupil Services	$ 83,424.75	
Improvements of Instructional Services	3,744.00	
Educational Media Services	49,265.03	
General Administration	8,985.60	
School Administration	62,261.06	
Business Administration	1,123.20	
Maintenance and Operation of Plant	17,441.85	
Student Transportation Services	272,306.69	
Central Support Services	1,123.20	499,675.38
Food Services		126,427.13
		$ 2,552,700.77

NOTE 6: INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2016, consisted of the following:

Transfers to	Transfers From General Fund
Debt Service Fund	$ 574,000.00

Transfers are used to move property tax revenues collected by the general fund to the debt service fund to meet debt service requirements.

NOTE 7: LONG-TERM LIABILITIES

The changes in long-term liabilities during the fiscal year for governmental activities, were as follows:

	Balance July 1, 2015	Additions	Deductions	Balance June 30, 2016	Due Within One Year
General Obligation (G.O.) Bonds	$ 20,940,000.00	$ -	$ 3,440,000.00	$ 17,500,000.00	$ 3,590,000.00
Unamortized Bond Premiums	749,395.48	-	159,874.06	589,521.42	159,874.06
	$ 21,689,395.48	$ -	$ 3,599,874.06	$ 18,089,521.42	$ 3,749,874.06

GENERAL OBLIGATION DEBT OUTSTANDING

The School District's bonded debt consists of various issues of general obligation bonds that are generally callable with interest payable semiannually. Bond proceeds primarily pay for acquiring or constructing capital facilities. The School District repays general obligation bonds from voter-approved property taxes. General obligation bonds are direct obligations and pledge the full faith and credit of the School District.

Of the total amount originally authorized, $14,500,000.00 remains unissued. General obligation bonds currently outstanding are as follows:

Description	Interest Rates	Issue Date	Maturity Date	Amount Issued	Amount Outstanding
General Government - Series 2011B	2.00% - 4.00%	11/15/2011	2/1/2018	$ 9,490,000.00	$ 6,440,000.00
General Government - Series 2014A	1.00% - 2.25%	7/24/2014	2/1/2020	2,115,000.00	1,675,000.00
General Government - Series 2014B	3.00% - 4.00%	7/24/2014	2/1/2034	9,385,000.00	9,385,000.00
				$ 20,990,000.00	$ 17,500,000.00

The following schedule details debt service requirements to maturity for the School District's total general obligation bonds payable:

	General Obligation Debt		Unamortized Bond
Fiscal Year Ended June 30:	Principal	Interest	Premium
2017	$ 3,590,000.00	$ 556,675.00	$ 159,874.06
2018	3,760,000.00	489,375.00	25,273.38
2019	475,000.00	348,175.00	25,273.38
2020	490,000.00	338,675.00	25,273.38
2021	500,000.00	326,150.00	25,273.38
2022 - 2026	2,805,000.00	1,393,750.00	126,366.90
2027 - 2031	3,420,000.00	856,150.00	126,366.90
2032 - 2034	2,460,000.00	200,000.00	75,820.04
Total Principal and Interest	$ 17,500,000.00	$ 4,508,950.00	$ 589,521.42

NOTE 8: RISK MANAGEMENT

INSURANCE

Commercial Insurance

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors or omissions; job related illness or injuries to employees; and natural disasters. Except as described below, the School District carries commercial insurance for these risks. Settled claims resulting from these insured risks have not exceed commercial insurance coverage in any of the past three fiscal years.

The School District has elected to self-insure for losses related to natural disasters. The School District has not experienced any losses related to these risks in the past three years.

UNEMPLOYMENT COMPENSATION

The School District is self-insured with regard to unemployment compensation claims. The School District accounts for claims within the general fund with expenses/expenditures and liability being reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated.

Changes in the unemployment compensation claims liability during the last two fiscal years are as follows:

	Beginning of Year Liability	Claims and Changes in Estimates	Claims Paid	End of Year Liability
2015	$ -	$ 8,240.00	$ 8,240.00	$ -
2016	$ -	$ 930.00	$ 930.00	$ -

SURETY BOND

The School District purchased surety bonds to provide additional insurance coverage as follows:

Position Covered	Amount
Superintendent	$ 50,000.00
Each Principal	$ 25,000.00

NOTE 9: FUND BALANCE CLASSIFICATION DETAILS

The School District's financial statements include the following amounts presented in the aggregate at June 30, 2016:

Nonspendable		
Inventories		$ 34,616.95
Restricted		
Continuation of Federal Programs	$ 59,862.23	
Capital Projects	6,471,842.84	
Debt Service	2,326,110.88	8,857,815.95
Committed		
Local Capital Outlay Projects		502,714.84
Assigned		
School Activity Accounts		466,284.43
Unassigned		6,363,933.09
Fund Balance, June 30, 2016		$ 16,225,365.26

When multiple categories of fund balance are available for expenditure, the School District will start with the most restricted category and spend those funds first before moving down to the next category with available funds.

It is the goal of the School District to achieve and maintain a committed, assigned, and unassigned fund balance in the general fund at fiscal year-end of not less than 7% of or expenditures, not to exceed 15% of the total budget of the subsequent fiscal year, in compliance with O.C.G.A. § 20-2-167(a)5. If the unassigned fund balance at fiscal year-end falls below the goal, the School District shall develop a restoration plan to achieve and maintain the minimum fund balance.

NOTE 10: BROADBAND SPECTRUM LEASE

Effective April 11, 2006, the School District entered into a thirty year lease agreement with Nextel Spectrum Acquisition Corp. for the lease of excess spectrum capacity on Education Broadband Service licenses currently held by School District. These licenses were granted to the School District by the Federal Communications Commission. The lease agreement requires monthly lease payments over the term of the lease, of which $24,000.00 was recognized during Fiscal Year 2016 as a general revenue on the Statement of Activities.

NOTE 11: SIGNIFICANT COMMITMENTS

COMMITMENTS UNDER CONSTRUCTION CONTRACTS

The following is an analysis of significant outstanding construction or renovation contracts executed by the School District as of June 30, 2016:

Project	Unearned Executed Contracts (1)	Payments through June 30, 2016 (2)
Lee County High School Multipurpose	$ 6,370,069.17	$ 1,698,826.79

(1) The amounts described are not reflected in the basic financial statements.
(2) Payments include Contracts and Retainages Payable at year end.

OPERATING LEASES

The School District leases copiers under the provisions of one or more long-term lease agreements classified as operating leases for accounting purposes. Rental expenditures under the terms of the operating leases totaled $180,693.24 for governmental activities for the year ended June 30, 2016. The following future minimum lease payments were required under operating leases at June 30, 2016:

Year Ending	Governmental Funds
2017	$ 170,474.48
2018	136,595.48
2019	102,720.02
2020	61,737.72
2021	15,434.43
Total	$ 486,962.13

NOTE 12: SIGNIFICANT CONTINGENT LIABILITIES

FEDERAL GRANTS

Amounts received or receivable principally from the Federal government are subject to audit and review by grantor agencies. This could result in requests for reimbursement to the grantor agency for any costs which are disallowed under grant terms. Any disallowances resulting from the grantor audit may become a liability of the School District. However, the School District believes that such disallowances, if any, will be immaterial to its overall financial position.

LITIGATION

The School District is a defendant in various legal proceedings pertaining to matters incidental to the performance of routine School District operations. The ultimate disposition of these proceedings is not presently determinable, but is not believed to have a material adverse effect on the financial condition of the School District.

NOTE 13: POST-EMPLOYMENT BENEFITS

GEORGIA SCHOOL PERSONNEL POST-EMPLOYMENT HEALTH BENEFIT FUND

Plan Description. The Georgia School Personnel Post-Employment Health Benefit Fund (School OPEB Fund) is a cost-sharing multiple-employer defined benefit post-employment healthcare plan that covers eligible former employees of public school systems, libraries and regional educational service agencies. The School OPEB Fund provides health insurance benefits to eligible former employees and their qualified beneficiaries through the State Employees Health Benefit Plan administered by the Department of Community Health. The Official Code of Georgia Annotated (O.C.G.A.) assigns the authority to establish and amend the benefit provisions of the group health plans, including benefits for retirees, to the Board of Community Health (Board). Additional information about the School OPEB Fund is disclosed in the *State of Georgia* Comprehensive Annual Financial Report. This report can be obtained from the Georgia Department of Audits and Accounts at www.audits.ga.gov/SGD/CAFR.html.

Funding Policy. The contribution requirements of plan members and participating employers are established by the Board in accordance with the current Appropriations Act and may be amended by the School Board. Contributions of plan members or beneficiaries receiving benefits vary based on plan election, dependent coverage, and Medicare eligibility and election. For members with fewer than five years of service as of January 1, 2012, contributions also vary based on years of service. On average, members with five years or more of service as of January 1, 2012 pay approximately 25% of

the cost of the health insurance coverage. In accordance with the Board resolution dated December 8, 2011, for members with fewer than five years of service as of January 1, 2012, the State provides a premium subsidy in retirement that ranges from 0% for fewer than 10 years of service to 75% (but no greater than the subsidy percentage offered to active employees) for 30 or more years of service. The subsidy for eligible dependents ranges from 0% to 55% (but no greater than the subsidy percentage offered to dependents of active employees minus 20%). No subsidy is available to Medicare eligible members not enrolled in a Medicare Advantage Option. The Board of Community Health sets all member premiums by resolution and in accordance with the law and applicable revenue and expense projections. Any subsidy policy adopted by the Board may be changed at any time by Board resolution and does not constitute a contract or promise of any amount of subsidy.

Participating employers are statutorily required to contribute in accordance with the employer contribution rates established by the Board. The contribution rates are established to fund all benefits due under the health insurance plans for both active and retired employees based on projected "pay-as-you-go" financing requirements. Contributions are not based on the actuarially calculated annual required contribution (ARC) which represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The combined active and retiree contribution rates established by the Board for employers participating in the School OPEB Fund were as follows for the fiscal year ended June 30, 2016:

For certificated teachers, librarians and regional educational service agencies and certain other eligible participants:

July 1, 2015 – June 30, 2016	$945.00 per member per month

For non-certificated school personnel:

July 1, 2015 – December 31, 2015	$596.20 per member per month
January 1, 2016 – June 30, 2016	$746.20 per member per month

No additional contribution was required by the Board for fiscal year 2016 nor contributed to the School OPEB Fund to prefund retiree benefits. Such additional contribution amounts are determined annually by the Board in accordance with the School plan for other post-employment benefits and are subject to appropriation.

The School District's combined active and retiree contributions to the health insurance plans, which equaled the required contribution, for the current fiscal year and the preceding two fiscal years were as follows:

Fiscal Year	Percentage Contributed	Required Contribution
2016	100%	$ 5,973,425.20
2015	100%	$ 5,677,981.00
2014	100%	$ 5,395,322.88

NOTE 14: RETIREMENT PLANS

The School District participates in various retirement plans administered by the State of Georgia, as further explained below.

TEACHERS RETIREMENT SYSTEM OF GEORGIA (TRS)

Plan Description: All teachers of the School District as defined in O.C.G.A §47-3-60 and certain other support personnel as defined by §47-3-63 are provided a pension through the Teachers Retirement System of Georgia (TRS). TRS, a cost-sharing multiple- employer defined benefit pension plan, is administered by the TRS Board of Trustees (TRS Board). Title 47 of the *O.C.G.A.* assigns the authority to establish and amend the benefit provisions to the State Legislature. The Teachers Retirement System of Georgia issues a publicly available separate financial audit report that can be obtained at www.trsga.com/publications.

Benefits Provided: TRS provides service retirement, disability retirement, and death benefits. Normal retirement benefits are determined as 2% of the average of the employee's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. An employee is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. Ten years of service is required for disability and death benefits eligibility. Disability benefits are based on the employee's creditable service and compensation up to the time of disability. Death benefits equal the amount that would be payable to the employee's beneficiary had the employee retired on the date of death. Death benefits are based on the employee's creditable service and compensation up to the date of death.

Contributions: Per Title 47 of the O.C.G.A., contribution requirements of active employees and participating employers, as actuarially determined, are established and may be amended by the TRS Board. Pursuant to O.C.G.A. §47-3-63, the employer contributions for certain full-time public school support personnel are funded on behalf of the employer by the State of Georgia. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employees were required to contribute 6% of their annual pay during fiscal year 2016. The School District's contractually required contribution rate for the year ended June 30, 2016 was 14.27% of annual School District payroll, of which 14.21% of payroll was required from the School District and 0.06% of payroll was required from the State. For the current fiscal year, employer contributions to the pension plan were $4,022,573.17 and $16,827.43 from the School District and the State, respectively.

EMPLOYEES' RETIREMENT SYSTEM

Plan description: The Employees' Retirement System of Georgia (ERS) is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly during the 1949 Legislative Session for the purpose of providing retirement allowances for employees of the State of Georgia and its political subdivisions. ERS is directed by a Board of Trustees. Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. ERS issues a publicly available financial report that can be obtained at www.ers.ga.gov/formspubs/formspubs.

Benefits provided: The ERS Plan supports three benefit tiers: Old Plan, New Plan, and Georgia State Employees' Pension and Savings Plan (GSEPS). Employees under the old plan started membership prior to July 1, 1982 and are subject to plan provisions in effect prior to July 1, 1982. Members hired on or after July 1, 1982 but prior to January 1, 2009 are new plan members subject to modified plan provisions. Effective January 1, 2009, new state employees and rehired state employees who did not retain membership rights under the Old or New Plans are members of GSEPS. ERS members hired prior to January 1, 2009 also have the option to irrevocably change their membership to GSEPS.

Under the old plan, the new plan, and GSEPS, a member may retire and receive normal retirement benefits after completion of 10 years of creditable service and attainment of age 60 or 30 years of creditable service regardless of age. Additionally, there are some provisions allowing for early retirement after 25 years of creditable service for members under age 60.

Retirement benefits paid to members are based upon the monthly average of the member's highest 24 consecutive calendar months, multiplied by the number of years of creditable service, multiplied by the applicable benefit factor. Annually, postretirement cost-of-living adjustments may also be made to members' benefits, provided the members were hired prior to July 1, 2009. The normal retirement pension is payable monthly for life; however, options are available for distribution of the member's monthly pension, at reduced rates, to a designated beneficiary upon the member's death. Death and disability benefits are also available through ERS.

Contributions: Member contributions under the old plan are 4% of annual compensation, up to $4,200.00, plus 6% of annual compensation in excess of $4,200.00. Under the old plan, the state pays member contributions in excess of 1.25% of annual compensation. Under the old plan, these state contributions are included in the members' accounts for refund purposes and are used in the computation of the members' earnable compensation for the purpose of computing retirement benefits. Member contributions under the new plan and GSEPS are 1.25% of annual compensation. The School District's contractually required contribution rate, actuarially determined annually, for the year ended June 30, 2016 was 24.72% of annual covered payroll for old and new plan members and 21.69% for GSEPS members. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employer contributions to the pension plan were $4,529.54 for the current fiscal year.

PUBLIC SCHOOL EMPLOYEES RETIREMENT SYSTEM (PSERS)

Plan description: PSERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly in 1969 for the purpose of providing retirement allowances for public school employees who are not eligible for membership in the Teachers Retirement System of Georgia. The ERS Board of Trustees, plus two additional trustees, administers PSERS. Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. PSERS issues a publicly available financial report that can be obtained at www.ers.ga.gov/formspubs/formspubs.

Benefits provided: A member may retire and elect to receive normal monthly retirement benefits after completion of ten years of creditable service and attainment of age 65. A member may choose to receive reduced benefits after age 60 and upon completion of ten years of service.

Upon retirement, the member will receive a monthly benefit of $14.75, multiplied by the number of years of creditable service. Death and disability benefits are also available through PSERS. Additionally, PSERS may make periodic cost-of-living adjustments to the monthly benefits. Upon termination of employment, member contributions with accumulated interest are refundable upon request by the member. However, if an otherwise vested member terminates and withdraws his/her member contribution, the member forfeits all rights to retirement benefits.

Contributions: The general assembly makes an annual appropriation to cover the employer contribution to PSERS on behalf of local school employees (bus drivers, cafeteria workers, and maintenance staff). The annual employer contribution required by statute is actuarially determined and paid directly to PSERS by the State Treasurer in accordance with O.C.G.A. §47-4-29(a) and 60(b). Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Individuals who became members prior to July 1, 2012 contribute $4 per month for nine months each fiscal year. Individuals who became members on or after July 1, 2012 contribute $10 per month for nine months each fiscal year. The State of Georgia, although not the employer of PSERS members, is required by statute to make employer contributions actuarially determined and approved and certified by the PSERS Board of Trustees. The current fiscal year contribution was $141,519.00.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the School District reported a liability of $40,299,363.00 for its proportionate share of the net pension liability for TRS ($40,267,803.00) and ERS ($31,560.00).

The TRS net pension liability reflected a reduction for support provided to the School District by the State of Georgia for certain public school support personnel. The amount recognized by the School District as its proportionate share of the net pension liability, the related State of Georgia support, and the total portion of the net pension liability that was associated with the School District were as follows.

School District's proportionate share of the net pension liability	$ 40,267,803.00
State of Georgia's proportionate share of the net pension liability associated with the School District	166,855.00
Total	$ 40,434,658.00

The net pension liability for TRS and ERS was measured as of June 30, 2015. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2014. An expected total pension liability as of June 30, 2015 was determined using standard roll-forward techniques. The School District's proportion of the net pension liability was based on contributions to TRS and ERS during the fiscal year ended June 30, 2015.

At June 30, 2015, the School District's TRS proportion was 0.264502%, which was an increase of 0.000759% from its proportion measured as of June 30, 2014. At June 30, 2015, the School District's ERS proportion was 0.000779%, which was an increase of 0.000009% from its proportion measured as of June 30, 2014.

At June 30, 2016, the School District did not have a PSERS liability for a proportionate share of the net pension liability because of a Special Funding Situation with the State of Georgia, which is responsible for the net pension liability of the plan. The amount of the State's proportionate share of the net pension liability associated with the School District is $662,324.00.

The PSERS net pension liability was measured as of June 30, 2015. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2014. An expected total pension liability as of June 30, 2015 was determined using standard roll-forward techniques. The State's proportion of the net pension liability associated with the School District was based on actuarially determined contributions paid by the State during the fiscal year ended June 30, 2015.

For the year ended June 30, 2016, the School District recognized pension expense of $2,722,307.00 for TRS, $2,136.00 for ERS and $39,497.00 for PSERS and revenue of $4,337.00 for TRS and $39,497.00 for PSERS. The revenue is support provided by the State of Georgia. For TRS the State of Georgia support is provided only for certain support personnel.

At June 30, 2016, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	TRS		ERS	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ -	$ 354,176.00	$ -	$ 252.00
Net difference between projected and actual earnings on pension plan investments	-	3,396,632.00	-	2,277.00
Changes in proportion and differences between School District contributions and proportionate share of contributions	339,124.00	-	442.00	-
School District contributions subsequent to the measurement date	4,022,573.17	-	4,520.26	-
Total	$ 4,361,697.17	$ 3,750,808.00	$ 4,962.26	$ 2,529.00

The School District contributions subsequent to the measurement date of $4,022,573.17 for TRS and $4,520.26 for ERS are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30:	TRS	ERS
2017	$ (1,567,697.00)	$ (824.00)
2018	$ (1,567,697.00)	$ (1,016.00)
2019	$ (1,567,700.00)	$ (1,015.00)
2020	$ 1,303,299.00	$ 768.00
2021	$ (11,889.00)	$ -

Actuarial assumptions: The total pension liability as of June 30, 2015 was determined by an actuarial valuation as of June 30, 2014, using the following actuarial assumptions, applied to all periods included in the measurement:

Teachers Retirement System:

Inflation	3.00%
Salary increases	3.75% – 7.00%, average, including inflation
Investment rate of return	7.50%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females set back two years for males and set back three years for females.

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2004 – June 30, 2009.

Employees' Retirement System:

Inflation	3.00%
Salary increases	5.45% – 9.25%, average, including inflation
Investment rate of return	7.50%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 Combined Mortality Table for the periods after service retirement, for dependent beneficiaries, and for deaths in active service, and the RP-2000 Disabled Mortality Table set back eleven years for males for the period after disability retirement.

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2004 – June 30, 2009.

Public School Employees Retirement System:

Inflation	3.00%
Salary increases	N/A
Investment rate of return	7.50%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 Combined Mortality Table set forward one year for males for the period after service retirement, for dependent beneficiaries, and for deaths in active service, and the RP-2000 Disabled Mortality Table set back two years for males and set forward one year for females for the period after disability retirement.

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2004 – June 30, 2009.

The long-term expected rate of return on TRS, ERS and PSERS pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Long-term expected real rate of return*
Fixed income	30.00%	3.00%
Domestic large stocks	39.70%	6.50%
Domestic mid stocks	3.70%	10.00%
Domestic small stocks	1.60%	13.00%
International developed market stocks	18.90%	6.50%
International emerging market stocks	6.10%	11.00%
Total	100.00%	

* Rates shown are net of the 3.00% assumed rate of inflation

Discount rate: The discount rate used to measure the total TRS, ERS and PSERS pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and

nonemployer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the TRS, ERS and PSERS pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School District's proportionate share of the net pension liability to changes in the discount rate: The following presents the School District's proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

Teachers Retirement System:	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
School District's proportionate share of the net pension liability	$ 69,197,175.00	$ 40,267,803.00	$ 16,423,117.00

Employees' Retirement System:	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
School District's proportionate share of the net pension liability	$ 44,738.00	$ 31,560.00	$ 20,326.00

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued TRS, ERS and PSERS financial report which is publically available at www.trsga.com/publications and http://www.ers.ga.gov/formspubs/formspubs.html.

NOTE 15: SUBSEQUENT EVENTS

In the subsequent fiscal year, the School District issued general obligation bonds in the amount of $13,550,000.00. The proceeds from these bonds will be used for paying all or a portion of the costs of acquiring and retrofitting buses with air conditioning; adding to, renovating, repairing, improving, furnishing, and equipping Kinchafoonee Primary School, including constructing a new roof; adding to, constructing, renovating, furnishing, and equipping athletic facilities, including tennis courts, a track, and a gymnasium; adding to, constructing, renovating and replacing flooring and retrofitting restrooms at Lee County High School; acquiring technology systems and equipment, band equipment, instructional equipment, safety and security equipment, and a livestock trailer; paving bus yard; paying previously incurred general obligation debt; paying capitalized interest on the Bonds and issuing the Bonds.

Teachers Retirement System

Changes of assumptions: In 2010 and later, the expectation of retired life mortality was changed to the RP 2000 Mortality Tables rather than the 1994 Group Annuity Mortality Table, which was used prior to 2010. In 2010, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience. In 2010, assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

Method and assumptions used in calculations of actuarially determined contributions: The actuarially determined contribution rates in the schedule of contributions are calculated as of June 30, three years prior to the end of the fiscal year in which contributions are reported. The following actuarial methods and assumptions were used to determine the contractually required contributions for year ended June 30, 2016 reported in that schedule:

Valuation date	June 30, 2013
Actuarial cost method	Entry age
Amortization method	Level percentage of payroll, closed
Remaining amortization period	30 years
Asset valuation method	Five-year smoothed market
Inflation rate	3.00%
Salary increases	3.75 – 7.00%, including inflation
Investment rate of return	7.50%, net of pension plan investment expense, including inflation

Employees' Retirement System

Changes of assumptions: There were no changes in assumptions or benefits that affect the measurement of the total pension liability since the prior measurement date.

Method and assumptions used in calculations of actuarially determined contributions: The actuarially determined contribution rates in the schedule of contributions are calculated as of June 30, three years prior to the end of the fiscal year in which contributions are reported. The following actuarial methods and assumptions were used to determine the contractually required contributions for year ended June 30, 2016 reported in that schedule:

Valuation date	June 30, 2013
Actuarial cost method	Entry age
Amortization method	Level dollar, closed
Remaining amortization period	25 years
Asset valuation method	Five-year smoothed market
Inflation rate	3.00%
Salary increases	5.45% - 9.25%
Investment rate of return	7.50%, net of pension plan investment expense, including inflation

Public School Employees Retirement System

Method and assumptions used in calculations of actuarially determined contributions: The actuarially determined contribution rates in the schedule of contributions are calculated as of June 30, three years prior to the end of the fiscal year in which contributions are reported. The following actuarial methods and assumptions were used to determine the contractually required contributions for year ended June 30, 2016 reported in that schedule:

Valuation date	June 30, 2013
Actuarial cost method	Entry age
Amortization method	Level dollar, closed
Remaining amortization period	25 years
Asset valuation method	Five-year smoothed market
Inflation rate	3.00%
Salary increases	N/A
Investment rate of return	7.50%, net of pension plan investment expense, including inflation
Cost-of living adjustments	1.50% semi-annually

Notes to the Schedule of Expenditures of Federal Awards

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the Lee County Board of Education (the "Board") under programs of the federal government for the year ended June 30, 2016. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Board, it is not intended to and does not present the financial position or changes in net assets of the Board.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The Board has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

February 27, 2017

Honorable Nathan Deal, Governor
Members of the General Assembly
Members of the State Board of Education
and
Superintendent and Members of the
Lee County Board of Education

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

INDEPENDENT AUDITOR'S REPORT

Ladies and Gentlemen:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Lee County Board of Education (School District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated February 27, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

(This page left intentionally blank)

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

Greg S. Griffin
State Auditor

and
Superintendent and Members of the
Lee County Board of Education

REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

INDEPENDENT AUDITOR'S REPORT

Ladies and Gentlemen:

Report on Compliance for Each Major Federal Program

We have audited Lee County Board of Education's (School District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016. The School District's major federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

(This page left intentionally blank)

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

Report on Internal Control over Compliance

Management of the School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

Greg S. Griffin
State Auditor
