Board of Trustees of the Richmond County Board of Education

Citizens of Richmond County.

We are pleased to submit the annual financial report for the Richmond County School System for the year ended June 30, 2011. This report has been prepared by the Finance and Accounting Department in accordance with generally accepted accounting principles as promulgated by the Governmental Accounting Standards Board (GASB) in compliance with O.C.G.A.§50-6-6. We believe that the information presented is accurate in all material aspects and sets forth the financial position of the school system for the fiscal year ended June 30, 2011.

The basic financial statements and accompanying notes have been examined by Scrotta Maddocks Evans Co., CPA's. Scrotta Maddocks Evans Co., CPA's have issued an unqualified opinion on the financial statements of the Richmond County School System for the fiscal year ended June 30, 2011. Their report is included under Section 1.

Readers of this financial report are encouraged to review Management's Discussion and Analysis which follows the independent auditor's report. The responsibility for the accuracy and completeness of the financial statements, including all note disclosures, rests with the administration of the school system.

Sincerely,

James E. Whitson

INDEPENDENT AUDITORS' REPORT

To the Superintendent and Members of the
Richmond County Board of Education
Augusta, Georgia

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining information of the Richmond County Board of Education, as of and for the year ended June 30, 2011 which collectively comprise the Board's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Richmond County Board of Education's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Richmond County Board of Education, as of June 30, 2011, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 23, 2012, on our consideration of the Richmond County Board of Education 's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages v through xviii and page 35 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Richmond County Board of Education's financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements, and statistical section, are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements. The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

REQUIRED SUPPLEMENTARY INFORMATION

The discussion and analysis of the Richmond County Board of Education's financial performance provides an overall review of the School System's financial activities for the fiscal year ended June 30, 2011. The intent of this discussion and analysis is to look at the School System's financial performance as a whole. Readers are encouraged to review the transmittal letter, the basic financial statements, and the accompanying notes to the basic financial statements to enhance their understanding of the School System's financial performance.

The basic financial statements are comprised of three components:

1) Government-wide financial statements which include the Statement of Net Assets and the Statement of Activities.
2) Fund financial statements.
3) Notes to the financial statements.

FINANCIAL HIGHLIGHTS

Key financial highlights for the fiscal year ended June 30, 2011 are as follows:

On the government-wide financial statements:

- The School System's assets exceeded its liabilities by $527.8 million at June 30, 2011. This represents an increase in net assets of $28.7 million.

- Restricted net assets total $89.0 million of which $49.9 million is committed to capital projects as a result of a 1% special purpose local option sales tax passed by the voters in November 2006.

- Total Revenues increased by $4.3 million. Program specific revenues increased by $4.4 million and general revenues reflected a slight decrease.

- Total net assets include the following:

    1) Capital assets net of related debt of $430.6 million, include property and equipment, net of accumulated depreciation, and reduced for outstanding debt related to the construction or purchase of capital assets.
    2) Restricted net assets of $89.0 million, constraints which are imposed outside of the School System. This includes restrictions for debt covenants and continuance of grants, and capital projects.
    3) Unrestricted net assets of $8.1 million represent the net assets available to sustain the School System's continuing obligations to its citizens and creditors.

On the fund financial statements:

- The School System's General Fund reported a fund balance of $42.2 million at June 30, 2011 which represents an increase of $6.9 million from the prior fiscal year.

The financial highlights noted above are explained in more detail within the financial analysis section of this document.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

This annual report consists of a series of financial statements, the government-wide, and fund statements.

The government-wide financial statements, the Statement of Net Assets, and the Statement of Activities are designed to illustrate the School System as an aggregate of its financial activities and present a longer-term view of its finances. Increases or decreases to net assets may provide an informative indicator of the financial position of the school system as a whole.

The next level of detail is provided by the fund financial statements. These statements reflect the short-term finances as well as the balances available for future needs. Fund financial statements are useful in assessing annual financing requirements and the commitment of existing spendable resources. The fund level statements report the School System's operations in more detail than the government-wide statements.

The notes to the financial statements serve to supplement and clarify the information contained within the financial statements and will provide the reader a more comprehensive understanding of the School System's financial position.

Figure 1 summarizes the significant features of the Richmond County Board of Education's annual financial statements and provides information on the School System's activities and the types of information found in the financial statements.

REPORTING THE SCHOOL SYSTEM AS A WHOLE (GOVERNMENT-WIDE)

Statement of Net Assets and the Statement of Activities

The analysis of the School System as a whole looks at all financial transactions and enables the reader of the financial statements to ascertain whether the School System's financial position has improved or diminished. The statements include all assets and liabilities using the accrual basis of accounting and the economic resources measurement focus. This methodology is similar to the accounting of most private-sector businesses. This basis of accounting considers all the current year's revenues and expenses regardless of when cash is received or paid. There are many factors affecting the financial position of the School System. Some of these factors include the property tax laws, re-evaluation of property, state law requiring the reduction of class sizes, state austerity reductions, state and federal mandates that are unfunded, and the age and condition of school facilities, and the economy of the area.

The Statement of Net Assets and the Statement of Activities are normally divided into two distinct types of activities, governmental and business type activities. All of the School System's activities are reflected as governmental activities. The governmental activities of the Richmond County Board of Education are financed through taxes, state QBE funds, competitive and non-competitive grants.

The Statement of Net Assets provides information about the overall financial activities of the School System; whereas, the Statement of Activities provides a comparison of direct expenses and program revenues. Direct expenses are incurred in association with a specific program or function.

REPORTING THE SCHOOL SYSTEM'S MOST SIGNIFICANT FUNDS (FUND FINANCIALS)

Governmental Funds

The fund financial statements provide detailed information about the School System's major funds. The School System's major governmental funds are the General Fund, District-wide Capital Projects Fund, and the Debt Service Fund.

Most of the School System's activities are reported in governmental funds. These funds are reported using an accounting methodology called modified accrual accounting. This methodology measures cash and financial assets that can be readily converted to cash. The fund statements offer a short-term view of the School System's financial activities. A reconciliation of net changes in governmental fund balances to the governmental activities changes in net assets illustrate the relationships (or differences) between the governmental activities reported in the Statement of Net Assets and the Statement of Activities to the governmental funds presented in the fund financial statements.

Fiduciary Funds

The School System serves as a fiduciary for the Davidson Trust, Linda Gail Hendrick Scholarship, Nora Coxwell Scholarship, Robetta McKenzie Scholarship, Ellen Cauthen Scholarship, Sarah Craig Scholarship, Charles Larke Scholarship, and Melinda Williams Scholarship Funds, and other miscellaneous scholarships. The Davidson Trust is used to account for the principal and earnings which may be expended to provide financial assistance to needy students of Davidson Fine Arts Magnet School. The principal and earnings of the other scholarship funds may be expended to provide scholarships for selected students. The School System also holds assets in a custodial capacity for various governments, employees, and students.

These activities are reported in a separate statement of Fiduciary Net Assets and Changes in Net Assets. The School System has excluded these activities from the School System's other financial statements because the school system may not use these assets to finance its operations.

THE SCHOOL SYSTEM AS A WHOLE

The Statement of Net Assets provides the prospective of the School System as a whole. Table 1 provides a comparative summary of the School System's net assets for fiscal years 2010 and 2011.

TABLE 1

The net cost reflects the financial burden placed on the School System's local taxpayers.

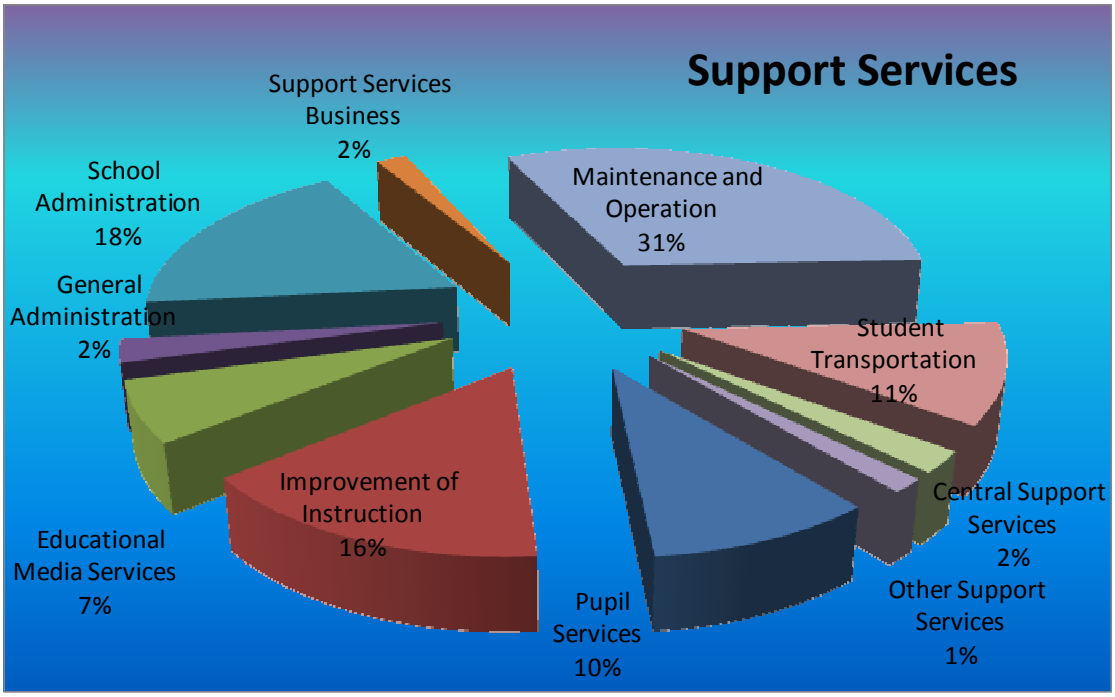

The School System is dependent upon operating grants and property taxes to support governmental activities. The School System received additional funding under the American Recovery and Reinvestment Act (ARRA). The additional funding received helped to save and create jobs while investing in education.

Figure 2.

Instruction expenditures include activities related to the interaction between students and teachers. Teaching may be performed in the classroom, home, or a hospital setting.

Figure 3.

Support services include activities that assess and supplement the teaching process, assist teachers in developing and evaluating the technique of providing instruction, operation of the educational media centers, administration of the policy of the School System, maintenance of the fiscal responsibilities of the School System, transportation costs, and upkeep of the grounds and facilities.

THE SCHOOL SYSTEM'S FUNDS

The School System's funds are accounted for using the modified accrual basis of accounting. All governmental funds had revenues and other financing sources of $345.9 million and expenditures and other financing uses of $371.8 million. The general fund's fund balance reflected an increase of $6.9 million, the debt service fund's fund balance was constant, and the district-wide capital projects funds decreased by $32.8 million.

GENERAL FUND HIGHLIGHTS

The School System's budget is prepared according to Georgia law. The most significant budgeted fund is the General Fund. Throughout fiscal year 2011, the School System amended its general fund budget several times. The most significant changes were attributed to the receipt of funds from the American Recovery and Reinvestment Act (ARRA). Site-based budgeting is used by the School System and is designed to tightly control total site budgets but allow some management flexibility. The School

System's top management monitors a detailed report comparing actual revenues and expenditures to budget on a monthly basis. Site management has access to this information on a demand basis through a report available using the School System's accounting software.

For the general fund, the final budgeted revenues of $328.9 million exceeded the original budget of $299.4 million by $29.5 million. The budgeted revenues exceeded the actual revenues by $25.2 million. In FY 2011, the state continued to cut the Quality Basic Education (QBE) funding to local School Systems. Throughout the year, the School System made a concerted effort to reduce expenditures and was successful in mitigating the loss of funding through the reduction of spending and furloughing staff. The loss of state funding was further alleviated by the receipt of Education Jobs Funding. The actual expenditures were $44.5 million less than the budgeted amount. The significant difference in the comparison of the budget to actual expenditures is the result of many of the federal program funds, including economic stimulus funds being budgeted for periods exceeding the fiscal year. The fund balance was increased by $6.9 million instead of the projected reduction of $12.3 million.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal year 2011, the School System had capital assets of $466.8 million, net of accumulated depreciation.

Table 4 shows comparative statements for 2010 and 2011.

TABLE 4
CAPITAL ASSETS
(Net of Depreciation, in Thousands)

	Governmental Activities June 30, 2011	Governmental Activities June 30, 2010

Land Improvements	9,914	2,788
Total Capital Assets, Net of Depreciation	$ 466,759	$ 440,349

The primary increases occurred in buildings and building improvements. Due to funding from a Special Purpose Local Option Sales Tax and a bond issue, the School System is building and renovating numerous schools.

Debt

At June 30, 2011, the School System had $62.0 million in general obligation bonds, with $30.0 million due within one year. Debt comparisons between fiscal year 2010 and 2011 are shown below.

CURRENT ISSUES

The Richmond County Board of Education has maintained its economic stability by budgeting conservatively and monitoring its expenditures. An area of concern is the State of Georgia's continued amended formula reduction to the QBE funding formula. For fiscal year 2010, the reduction in state funds increased to $30.8 million of which $15.9 million was offset by funds from the American Recovery and Reinvestment Act. For fiscal year 2011, the amended formula adjustment was $22.6 million.

Another area of concern is Augusta's unemployment rate. As reported by the U. S. Department of Labor, the Augusta Richmond County metropolitan statistical area had an unemployment rate of 9.2% in June, 2010. This rate increased to 9.9% in June, 2011.

The 2010 U.S. Census reported Richmond County's population to be 195,844. This reflects a population increase of 662 persons from the 2000 census. Approximately 26.8% of the population was under the age of 18.

The School System showed a slight decrease in the weighted average of full time equivalent students. From 2010 to 2011 the weighted average of full time equivalent students decreased by 17 students. The figure shown below shows the trend in decreasing enrollment.

Contacting the School System's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the School System's finances and to reflect the School System's accountability for the funds it receives. Questions about this report or for additional financial information, please contact the Director of Finance and Accounting, Richmond County Board of Education, 864 Broad Street, Augusta, GA 30901.

Note 1: DESCRIPTION OF SCHOOL SYSTEM AND REPORTING ENTITY

REPORTING ENTITY

The Richmond County Board of Education (School System) was established under the laws of the State of Georgia and operates under the guidance of a school board elected by the voters and a Superintendent appointed by the Board. The Board is organized as a separate legal entity and has the power to levy taxes and issue bonds. Its budget is not subject to approval by any other entity. Accordingly, the School System is a primary government and consists of all the organizations that compose its legal entity.

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The School System's basic financial statements are collectively comprised of the District-wide financial statements, fund financial statements and notes to the basic financial statements of the Richmond County Board of Education.

District-wide Statements:

The Statement of Net Assets and the Statement of Activities display information about the financial activities of the overall School System, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the School System's governmental activities.

- Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses (expenses of the School System related to the administration and support of the School System's programs, such as office and maintenance personnel and accounting) are not allocated to programs.

- Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements:

The fund financial statements provide information about the School System's funds, including fiduciary funds. Eliminations have been made to minimize the double counting

of internal activities. Separate statements for each category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds,each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. The emphasis of fund financial statements is on major governmental funds each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The School System reports the following major governmental funds:

- General Fund is the School System's primary operating fund. It accounts for all financial resources of the School System, except those resources required to be accounted for in another fund.

- District-wide Capital Projects Fund accounts for financial resources including Special Purpose Local Option Sales Tax (SPLOST), Bond Proceeds, and grants from Georgia State Financing and Investment Commission to be used for the acquisition, construction or renovation of major capital facilities.

- Debt Service Fund accounts for taxes (property and sales) legally restricted for the payment of general long-term principal, interest and paying agent's fees.

The School System reports the following fiduciary fund types:

- Private Purpose Trust fund reports a trust arrangement under which principal and income may be expended to provide scholarships for selected students.

- Agency funds account for assets held by the School System as an agent for various Agency funds accounts for assets held by the School System as an agent for various funds, governments, or individuals.

BASIS OF ACCOUNTING

The basis of accounting determines when transactions are reported on the financial statements. The District-wide (governmental and fiduciary) fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the School System gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, sales taxes, and grants. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from sales taxes is recognized in the fiscal year in which the underlying transaction (sale) takes place. Revenue from grants and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

The School System uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School System considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Property taxes, sales taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities are reported as other financing sources.

The School System funds certain programs by a combination of specific cost-reimbursement grants, categorical grants, and general revenues. Thus, when program costs are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the School System's policy to first apply grant resources to such programs, followed by cost-reimbursement grants, then general revenues.

The State of Georgia reimburses the School System for teachers' salaries and operating costs through the Quality Basic Education Formula Earnings program (QBE). Generally teachers are contracted for the school year (July 1 – June 30) and paid over a twelve month contract period, generally September 1 through August 31. In accordance with the respective rules and regulations of the QBE program, the State of Georgia reimburses the School System over the same twelve month period in which teachers are paid. At June 30, the amount of teachers' salaries incurred but not paid until July and August of the subsequent year is accrued. Since the State of Georgia recognizes its QBE liability for the July and August salaries at June 30, the School System recognizes the same QBE as a receivable and revenue, consistent with symmetrical recognition.

NEW ACCOUNTING PRONOUNCEMENTS

In fiscal year 2011, the School System adopted the Governmental Accounting Standards Board (GASB) Statement No. 54, ***Fund Balance Reporting and Governmental Fund Type Definitions***. The provisions of this Statement establish accounting and financial reporting standards for all governments that report governmental funds. It establishes criteria for classifying fund balances into specifically defined classifications and clarifies definitions for governmental funds.

RESTATEMENT OF PRIOR YEAR NET ASSETS

For fiscal year 2011, The School System restated Fiduciary Net Assets due to an error in the classification of the Dorothy Hahn endowment. The School System reclassified $32,425.97 from an agency fund to a private purpose trust.

CASH AND CASH EQUIVALENTS

Composition of Deposits

Cash and cash equivalents consist of cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition in authorized financial institutions. Official Code of Georgia Annotated Section 45-8-14 authorizes the School System to deposit its funds in one or more solvent banks, insured Federal savings and loan associations or insured chartered building and loan associations.

INVESTMENTS

Composition of Investments

Investments made by the School System in nonparticipating interest-earning contracts (such as certificates of deposit) and repurchase agreements are reported at cost. Participating interest-earning contracts and money market investments with a maturity at purchase of one year or less are reported at amortized cost. Both participating interest-earning contracts and money market investments with a maturity at purchase greater than one year and equity investments are reported at fair value. The Official Code of Georgia Annotated Section 36-83-4 authorizes the School System to invest its funds. In selecting among options for investment or among institutional bids for deposits, the highest rate of return shall be the objective, given equivalent conditions of safety and liquidity. Funds may be invested in the following:

1. Obligations issued by the State of Georgia or by other states,
2. Obligations issued by the United States government,
3. Obligations fully insured or guaranteed by the United States government or a United States government agency,
4. Obligations of any corporation of the United States government,
5. Prime banker's acceptances,
6. The Georgia Fund 1 administered by the State of Georgia, Office of the State Treasurer,
7. Repurchase agreements, and
8. Obligations of other political subdivisions of the State of Georgia.

The School System does not have a formal policy regarding investment policies that address credit risks, custodial credit risks, concentration of credit risks, interest rate risks or foreign currency risks.

RECEIVABLES

Receivables consist of amounts due from property and sales taxes, grant reimbursements due on Federal, State or other grants for expenditures made but not reimbursed and other receivables disclosed from information available. Receivables are recorded when either the asset or revenue recognition criteria has been met. Receivables recorded on the basic financial statements do not include any amounts which would necessitate the need for an allowance for uncollectible receivables.

PROPERTY TAXES

The Richmond County Board of Commissioners fixed the property tax levy for the 2010 tax digest year (calendar year) on 8/30/2010 (levy date). Taxes were due on 11/15/2010 (lien date) Taxes collected within the current fiscal year or within 60 days after year-end on the 2010 tax digest are reported as revenue in the governmental funds for fiscal year 2011. The Richmond County Tax Commissioner bills and collects the property taxes for the School System, withholds 2.5% of taxes collected as a fee for tax collection and remits the balance of taxes collected to the School System. Property tax revenues, at the fund reporting level, during the fiscal year ended June 30, 2011, for maintenance and operations amounted to $80,012,580.10.

Tax millage rates levied for the 2010 tax year (calendar year) for the Richmond County Board of Education were as follows (a mill equals $1 per thousand dollars of assessed value):

School Operations	19.110 mills

SALES TAXES

Special Purpose Local Option Sales Tax, at the fund reporting level, during the year amounted to $36,442,500.77 and is to be used for capital outlay for educational purposes or debt service. This sales tax was authorized by local referendum and the sales tax must be re-authorized at least every five years.

INVENTORIES

Food Inventories

On the basic financial statements, inventories of donated food commodities used in the preparation of meals are reported at their Federally assigned value and purchased foods inventories are reported at cost weighted average. The School System uses the consumption method to account for inventories whereby donated food commodities are recorded as an asset and as revenue when received, and expenses/expenditures are recorded as the inventory items are used. Purchased foods are recorded as an asset when purchased and expenses/expenditures are recorded as the inventory items are used.

CAPITAL ASSETS

Capital assets purchased, including capital outlay costs, are recorded as expenditures in the fund financial statements at the time of purchase (including ancillary charges). On the District-wide financial statements, all purchased capital assets are valued at cost where historical records are available and at estimated historical cost based on appraisals or deflated current replacement cost where no historical records exist. Donated capital assets are recorded at estimated fair market value on the date donated. Disposals are deleted at depreciated recorded cost. The cost of normal maintenance and repairs that do not add to the value of assets or materially extend the useful lives of the assets is not capitalized. Depreciation is computed using the straight-line method. The School System does not capitalize book collections. During the fiscal year under review, no events or changes in circumstances affecting a capital asset that may indicate impairment were known to the School System.

Capitalization thresholds and estimated useful lives of capital assets reported in the District-wide statements are as follows:

		Capitalization Policy	Estimated Useful Life
Personal Property (Equipment)	$	5,000	5 to 30 years
Buildings & Building Improvements	$	100,000	25 to 50 years
Land Improvements	$	5,000	20 years
Land	$	Any amount	N/A
Vehicles	$	5,000	8 years
Infrastructure	$	1,000,000	65 years
Works of Art	$	Any amount	N/A
Intangible Assets	$	1,000,000	5 years

Depreciation is used to allocate the actual or estimated historical cost of all capital assets over estimated useful lives, with the exception of intangible assets which are amortized.

COMPENSATED ABSENCES

Members of the Teachers Retirement System of Georgia (TRS) may apply unused sick leave toward early retirement. The liability for early retirement will be borne by TRS rather than by the individual school systems. Otherwise, sick leave does not vest with the employee, and no liability is reported in the School System's financial statements.

Vacation leave of 12 days is awarded on a fiscal year basis to all full time personnel employed on a twelve month basis. No other employees are eligible to earn vacation leave. Vacation leave not utilized during the fiscal year may be carried over to the next fiscal year, providing such vacation leave does not exceed 20 days unless otherwise approved by management.

	Beginning of Year Liability	Additions	Deductions	End of Year Liability
2009	$ 1,585,513.21	$ 1,049,404.46	$ 993,335.91	$ 1,641,581.76
2010	$ 1,641,581.76	$ 920,319.64	$ 837,516.57	$ 1,724,384.83

GENERAL OBLIGATION BONDS

The School System issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. In the District-wide financial statements, bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bond issuance costs are reported as deferred charges and amortized over the term of the debt.

In the fund financial statements, the School System recognizes bond premiums and discounts, as well as bond issuance costs during the fiscal year bonds are issued. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. General obligation bonds are direct obligations and pledge the full faith and credit of the government. The outstanding amount of these bonds is recorded in the Statement of Net Assets.

NET ASSETS

The School System's net assets in the District-wide Statements are classified as follows:

Invested in capital assets, net of related debt - This represents the School System's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.

Restricted net assets - These represent resources for which the School System is legally or contractually obligated to spend resources for bus replacement, continuation of Federal Programs, debt service, and capital projects in accordance with restrictions imposed by external third parties.

Unrestricted net assets - Unrestricted net assets represent resources derived from property taxes, sales taxes, grants and contributions not restricted to specific programs, charges for services, and miscellaneous revenues. These resources are used for transactions relating to the educational and general operations of the School System,

and may be used at the discretion of the Board to meet current expenses for those purposes.

FUND BALANCES

The School System's fund balances are classified as follows:

Nonspendable – Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – Constraints placed on the use of resources are either (1) externally imposed conditions by creditors, grantors, contributors, or laws and regulations of other governments or (2) imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Education. The Board of Education is the School District's highest level of decision-making authority, and the formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a resolution approved by the Board. Committed fund balance also should incorporate contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts that are constrained by the School Systems' *intent* to be used for specific purposes, but are neither restricted nor committed. The intent should be expressed by (1) the Board of Education or (2) the budget or finance committee, or the Superintendent, or designee, to assign amounts to be used for specific purposes.

Unassigned – The residual classification for the General Fund. This classification represents fund balances that have not been assigned to other funds and that have not been restricted, committed, or assigned to specific purposes within the General Fund.

Fund Balances of the Governmental Funds at June 30, 2011, are as follows:

FUND BALANCES		
Nonspendable		
Inventories		$ 1,157,261.94
Restricted		
Arbitrage Rebate Tax	$ 3,119,615.40	
Continuation of Federal Programs	3,833,186.11	
Capital Projects	49,916,485.39	
Debt Service	31,863,161.57	88,732,448.47
Assigned		
Athletics	$ 28,735.98	
Budget	7,025,000.00	
Employee Benefits	778,180.68	
School Activities	958,099.63	8,790,016.29
Unassigned		28,454,057.89
Fund Balance, June 30, 2011		$ 127,133,784.59

USE OF ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 3: DEPOSITS AND INVESTMENTS

COLLATERALIZATION OF DEPOSITS

Official Code of Georgia Annotated (O.C.G.A.) Section 45-8-12 provides that there shall not be on deposit at any time in any depository for a time longer than ten days a sum of money which has not been secured by surety bond, by guarantee of insurance, or by collateral. The aggregate of the face value of such surety bond and the market value of securities pledged shall be equal to not less than 110 percent of the public funds being secured after the deduction of the amount of deposit insurance. If a depository elects the pooled method (O.C.G.A. Section 45-8-13.1) the aggregate of the market value of the securities pledged to secure a pool of public funds shall be not less than 110 percent of the daily pool balance.

Acceptable security for deposits consists of any one of or any combination of the following:

1. Surety bond signed by a surety company duly qualified and authorized to transact business within the State of Georgia,
2. Insurance on accounts provided by the Federal Deposit Insurance Corporation,
3. Bonds, bills, notes, certificates of indebtedness or other direct obligations of the United States or of the State of Georgia,

4. Bonds, bills, notes, certificates of indebtedness or other obligations of the counties or municipalities of the State of Georgia,
5. Bonds of any public authority created by the laws of the State of Georgia, providing that the statute that created the authority authorized the use of the bonds for this purpose,
6. Industrial revenue bonds and bonds of development authorities created by the laws of the State of Georgia, and
7. Bonds, bills, notes, certificates of indebtedness, or other obligations of a subsidiary corporation of the United States government, which are fully guaranteed by the United States government both as to principal and interest or debt obligations issued by or securities guaranteed by the Federal Land Bank, the Federal Home Loan Bank, the Federal Intermediate Credit Bank, the Central Bank for Cooperatives, the Farm Credit Banks, the Federal Home Loan Mortgage Association, and the Federal National Mortgage Association.

CATEGORIZATION OF DEPOSITS

Custodial credit risk is the risk that in the event of a bank failure, the School System's deposits may not be returned to it. The School System does not have a formal policy for managing custodial credit risk. At June 30, 2011, the bank balances were $59,451,958.27. The bank balances were entirely covered by Federal depository insurance or collateralized with securities held by the pledging financial institution's trust department or agent but not in the School System's name.

CATEGORIZATION OF INVESTMENTS

The School System's investments as of June 30, 2011, are presented below. All investments are presented by investment type and debt securities are presented by maturity.

Investment Type	Fair Value	Investment Maturity 1 - 5 Years
Debt Securities		
Repurchase Agreements	$ 76,172,381.64	$ 76,172,381.64
Other Investments		
Equity Mutual Funds	487.23	
Equity Securities - Domestic	73,096.30	
Investment Pools		
Office of Treasury and Fiscal Services		
Georgia Fund 1	6,238,094.95	
Total Investments	$ 82,484,060.12	

The Georgia Fund 1, formerly referred to as LGIP, administered by the State of Georgia, Office of Treasury and Fiscal Services is not required to be categorized since the School System did not own any specific identifiable securities in the pool. The investment policy of the State of Georgia, Office of Treasury and Fiscal Services for the Georgia Fund 1 (Primary Liquidity Portfolio and Extended Asset Portfolio) does not provide for investment in derivatives or similar investments. Additional information on the Georgia Fund 1 is disclosed in the *State of Georgia* Comprehensive Annual Financial Report. This audit can be obtained from the Georgia Department of Audits and Accounts at www.audits.ga.gov/SGD/CAFR.html.

The Primary Liquidity Portfolio consists of Georgia Fund 1 which is not registered with the SEC as an investment company but does operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940. The investment is valued at the pool's share price, $1.00 per share. The pool is an AAAm rated investment pool by Standard and Poor's. The weighted average maturity of Georgia Fund 1 may not exceed 60 days. The weighted average maturity for Georgia Fund 1 on June 30, 2011, was 59 days.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates of debt investment will adversely affect the fair value of an investment. The School System does not have a formal policy for managing interest rate risk.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the School System will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. The School System does not have a formal policy for managing custodial credit risk.

At June 30, 2011, $76,172,381.64 of the School System's applicable investments were uninsured and unregistered, with securities held by the counterparty's trust department or agent in the name of the School System.

Credit Quality Risk

Credit quality risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The School System does not have a formal policy for managing custodial credit risk.

The investments subject to credit quality risk are reflected below:

Rated Debt Investments	Fair Value	Quality Ratings AAA
Debt Securities		
Mutual Funds		
Repurchase Agreement	$ 76,172,381.64	$ 76,172,381.64

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The School System does not have a formal policy for managing concentration of credit risk. More than 5% of the School System's investments are in Federal National Mortgage Association repurchase agreements and US Treasuries. These investments account for 92% of the School System's total investments.

Note 4: NON-MONETARY TRANSACTIONS

The School System receives food commodities from the United States Department of Agriculture (USDA) for school breakfast and lunch programs. These commodities are recorded at their Federally assigned value. **See Note 2 - Inventories**

Note 5: CAPITAL ASSETS

The following is a summary of changes in the Capital Assets during the fiscal year:

Note 6: INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2011, consisted of the following:

Transfer From	Transfer To	Amount
General Fund	District-wide Capital Projects	$ 92,528.70
District-wide Capital Projects	Debt Service Fund	29,653,750.00
		$ 29,746,278.70

Transfers were used to move District-wide Capital Projects Fund sales tax revenue to the Debt Service Fund for payment of bonds and from the General Fund to District-wide Capital Projects for the Davidson canopy.

Note 7: RISK MANAGEMENT

The School System is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; job related illness or injuries to employees; acts of God.

The School System participates in the Georgia School Boards Association Risk and Insurance Management System, a public entity risk pool organized on July 1, 1994, to develop and administer a plan to reduce risk of loss because of school board legal liability, motor vehicle liability, or property damage, including safety engineering and other loss prevention and control techniques, and to administer one or more groups of self-insurance funds, including the processing and defense of claims brought against members of the system. The School System pays an annual premium to the system for its school board legal liability insurance coverage. Additional coverage is provided

through agreements by the system with the Georgia School Boards Association Risk and Insurance Management System for property, boiler and machinery (including coverage for flood and earthquake), general liability (including coverage for sexual harassment, molestation and abuse), errors and omissions, crime and automobile risks. Payment of excess insurance for the system varies by line of coverage.

The School System has elected to self-insure for all losses related to torts.

The School System has established a limited risk management program for workers' compensation claims. The School System accounts for claims within the General Fund with expenses/expenditures and liability being reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated. An excess coverage insurance policy covers individual claims in excess of $500,000.00 loss per occurrence, up to the statutory limit.

Changes in the workers' compensation claims liability during the last two fiscal years are as follows:

	Beginning of Year Liability	Claims and Changes in Estimates	Claims Paid	End of Year Liability
2010	$ 0.00	$ 922,030.18	$ 922,030.18	$ 0.00
2011	$ 0.00	$ 1,150,828.98	$ 1,150,828.98	$ 0.00

The School System is self-insured with regard to unemployment compensation claims. The School System accounts for claims within the General Fund with expenses/expenditures and liability being reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated.

Changes in the unemployment compensation claims liability during the last two fiscal years are as follows:

	Beginning of Year Liability	Claims and Changes in Estimates	Claims Paid	End of Year Liability
2010	$ 0.00	$ 129,537.30	$ 129,537.30	$ 0.00
2011	$ 0.00	$ 131,476.15	$ 131,476.15	$ 0.00

The School System has purchased surety bonds to provide additional insurance coverage as follows:

Position Covered	Amount
Superintendent	$ 50,000.00
President	$ 50,000.00
Vice-President	$ 50,000.00
Controller	$ 50,000.00
Deputy Superintendent	$ 50,000.00
Director of Accounting	$ 20,000.00
Accounting Supervisors	$ 20,000.00
Each Central Office Bookkeeper	$ 10,000.00
Each Principal	$ 5,000.00
Each School Bookkeeper	$ 5,000.00
Each High School Athletic Manager	$ 5,000.00
Each Lunchroom Manager	$ 3,000.00
Each Middle School Athletic Manager	$ 1,000.00

Note 8: POLLUTION REMEDIATION OBLIGATIONS

The School System sold property located at 2083 Heckle Street, and in accordance with the provisions of the closing documents agreed to remediate the pollution caused by leaking underground storage tanks. In 2005, three groundwater monitoring wells were installed to determine the horizontal and vertical extent of contamination. In June, 2008, a Dual Phase Pump & Treat Vacuum System was put in place to treat the groundwater. A target concentration of 5,000 ppb Benzene in groundwater is the remedial goal set by the Environmental Protection Division (EPD). The School System is using a vapor extraction unit to actively remediate the pollution.

Beginning Balance July 1, 2010	Additions	Reductions	Ending Balance July 1, 2011	Current Portion
$ 81,421.00	$ 0.00	$ 42,196.00	$ 39,225.00	$ 39,225.00

Note 9: LONG-TERM DEBT

COMPENSATED ABSENCES

Compensated absences represent obligations of the School System relating to employees' rights to receive compensation for future absences based upon service already rendered. This obligation relates only to vesting accumulating leave in which payment is probable and can be reasonably estimated. Typically, the General Fund is

the fund used to liquidate this long-term debt. The School System uses the vesting method to compute compensated absences.

GENERAL OBLIGATION DEBT OUTSTANDING

General Obligation Bonds currently outstanding are as follows:

Purpose	Interest Rates	Amount
General Government - Series 200	4.00% - 5.00%	$ 62,000,000.00

The changes in Long-Term Debt during the fiscal year ended June 30, 2011, were as follows:

	Year Ended June 30, 2011 Governmental Funds			
	Compensated Absences (1)	General Obligation Bonds	Unamortized Bond Premium	Total
Balance July 1, 2010	$ 1,724,384.83	$ 88,000,000.00	$ 1,093,322.23	$ 90,817,707.06

Debt Retired		26,000,000.00		26,000,000.00
Bond Premium Amortized			1,093,322.23	1,093,322.23
Balance June 30	$ 1,739,996.90	$ 62,000,000.00	$ 0.00	$ 63,739,996.90
Due within One Year	$ 0.00	$ 30,000,000.00	$ 0.00	$ 30,000,000.00

(1) The portion of compensated absences due within one year has been determined to be immaterial to the basic financial statements.

At June 30, 2011, payments due by fiscal year which includes principal and interest for these items are as follows:

Fiscal Year Ended June 30	General Obligation Bonds Principal	Interest
2,012.00	$ 30,000,000.00	$ 2,283,456.25
2,013.00	32,000,000.00	769,081.25
Total Principal and Interest	$ 62,000,000.00	$ 3,052,537.50

Note 10: ON-BEHALF PAYMENTS

The School System has recognized revenues and costs in the amount of $839,349.26 for health insurance and retirement contributions paid on the School System's behalf by the following State Agencies.

Georgia Department of Education

Paid to the Georgia Department of Community Health

For Health Insurance of Non-Certified Personnel

In the amount of $482,507.44

Note 12: SIGNIFICANT CONTINGENT LIABILITIES

ARBITRAGE REBATE TAX

The Federal Tax Reform Act of 1986 requires issuers of tax-exempt debt to make payments to the United States Treasury of Investment Income received at yields that exceed the issuer's tax-exempt borrowing rates. The U. S. Treasury requires payment every five years. The estimated future liability of $3,119,615.40 at June 30, 2011, is based on tax exempt debt subject to the Tax Reform Act. The estimated liability will be updated annually for any tax-exempt issuances or changes in yields through January 30, 2012, at which time payment of the final calculated liability for the five-year period is required to be remitted.

Amounts received or receivable principally from the Federal government are subject to audit and review by grantor agencies. This could result in requests for reimbursement to the grantor agency for any costs which are disallowed under grant terms. The School System believes that such disallowances, if any, will be immaterial to its overall financial position.

The School System is a defendant in various legal proceedings pertaining to matters incidental to the performance of routine School System operations. The ultimate disposition of these proceedings is not presently determinable, but is not believed to be material to the basic financial statements.

Note 13: POSTEMPLOYMENT BENEFITS

GEORGIA SCHOOL PERSONNEL EMPLOYEES POST-EMPLOYMENT HEALTH BENEFIT FUND

Plan Description. The Georgia School Personnel Post-employment Health Benefit Fund (School OPEB Fund) is a cost-sharing multiple-employer defined benefit postemployment healthcare plan that covers eligible former employees of public school systems, libraries and regional educational service agencies. The School OPEB Fund provides health insurance benefits to eligible former employees and their qualified beneficiaries through the State Employees Health Insurance Plan administered by the Department of Community Health. The Official Code of Georgia Annotated (OCGA) assigns the authority to establish and amend the benefit provisions of the group health plans, including benefits for retirees, to the Board of Community Health (Board).

Funding Policy. The contribution requirements of plan members and participating employers are established by the Board in accordance with the current Appropriations Act and may be amended by the Board. Contributions of plan members or beneficiaries receiving benefits vary based on plan election, dependent coverage, and Medicare eligibility and election. On average, plan members pay approximately 25% of the cost of health insurance coverage.

Participating employers are statutorily required to contribute in accordance with the employer contribution rates established by the Board. The contribution rate is established to fund both the active and retired employee health insurance plans based on projected "pay-as-you-go" financing requirements. Contributions are not based on the actuarially calculated annual required contribution (ARC) which represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The combined rates for the active and retiree contribution rates established by the Board for employers participating in the School OPEB Fund were as follows for the fiscal year ended June 30, 2011:

For certificated teachers, librarians and regional educational service agencies:

July 2010 – April 2011	21.955%	of covered payroll for August – April Coverage
May 2011 – June 2011	1.429%	of covered payroll for June – July Coverage

For non-certificated school personnel:

July 2010 – December 2010	$162.72 per member per month
January 2011 – May 2011	$218.20 per member per month
June 2011	$246.20 per member per month

The Department of Education was appropriated an additional $25,081,633 for non-certificated personnel health insurance payments. The amount attributable to the School District is reflected in the On-behalf note disclosure.

No additional contribution was required by the Board for fiscal year 2011 nor contributed to the School OPEB Fund to prefund retiree benefits. Such additional contribution amounts are determined annually by the Board in accordance with the School plan for other postemployment benefits and are subject to appropriation.

The School District's combined active and retiree contributions to the health insurance plans, which equaled the required contribution, for the current fiscal year and the preceding two fiscal years were as follows:

Fiscal Year	Required Contribution	Percent Contributed
2011	$ 26,209,698.45	100%
2010	$ 24,964,698.10	100%
2009	$ 19,173,435.62	100%

NOTE 14: RETIREMENT PLANS

TEACHERS RETIREMENT SYSTEM OF GEORGIA (TRS)

Plan Description. The TRS is a cost-sharing multiple-employer defined benefit plan created in 1943 by an act of the Georgia General Assembly to provide retirement benefits for qualifying employees in educational service. A Board of Trustees comprised of active and retired members and ex-officio State employees is ultimately responsible for the administration of TRS. The Teachers Retirement System of Georgia issues a separate stand alone financial audit report and a copy can be obtained from the Georgia Department of Audits and Accounts.

On October 25, 1996, the Board created the Supplemental Retirement Benefits Plan of the Georgia Teachers Retirement System (SRBP-TRS). SRBP-TRS was established as a qualified excess benefit plan in accordance with Section 415 of the Internal Revenue Code (IRC) as a portion of TRS. The purpose of SRBP-TRS is to provide retirement benefits to employees covered by TRS whose benefits are otherwise limited by IRC Section 415. Beginning July 1, 1997, all members and retired former members in TRS are eligible to participate in the SRBP-TRS whenever their benefits under TRS exceed the IRC Section 415 imposed limitation on benefits.

TRS provides service retirement, disability retirement, and survivor's benefits. The benefit structure of TRS is defined and may be amended by State statute. A member is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. A member is eligible for early retirement after 25 years of creditable service.

Normal retirement (pension) benefits paid to members are equal to 2% of the average of the member's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. Early retirement benefits are reduced by the lesser of one-twelfth of 7% for each month the member is below age 60 or by 7% for each year or fraction thereof by which the member has less than 30 years of service. It is also assumed that certain cost-of-living adjustments, based on the Consumer Price Index, will be made in future years. Retirement benefits are payable monthly for life. A member may elect to receive a partial lump-sum distribution in addition to a reduced monthly retirement benefit. Death, disability and spousal benefits are also available.

Funding Policy. TRS is funded by member and employer contributions as adopted and amended by the Board of Trustees. Members become fully vested after 10 years of service. If a member terminates with less than 10 years of service, no vesting of employer contributions occurs, but the member's contributions may be refunded with interest. Member contributions are limited by State law to not less than 5% or more than 6% of a member's earnable compensation. Member contributions as adopted by the Board of Trustees for the fiscal year ended June 30, 2011 were 5.53% of annual salary. The member contribution rate will increase to 6.00% effective July 1, 2012. Employer contributions required for fiscal year 2011 were 10.28% of annual salary as required by the June 30, 2008, actuarial valuation. The employer contribution rate will increase to 11.41% effective July 1, 2012.

Employer contributions for the current fiscal year and the preceding two fiscal years are as follows:

Fiscal Year	Percent Contributed	Required Contribution
2011	100%	$ 16,932,068.39
2010	100%	$ 16,517,600.41
2009	100%	$ 15,994,743.64

PUBLIC SCHOOL EMPLOYEES' RETIREMENT SYSTEM (PSERS)

Bus drivers, lunchroom personnel, and maintenance and custodial personnel are members of the Public School Employees' Retirement System of Georgia. The System is funded by contributions by the employees and by the State of Georgia. The School District makes no contribution to this plan.

DEFINED CONTRIBUTION PLAN

In November 1999, the Richmond County Board of Education began an employer paid 403(b) annuity plan for the group of employees covered under the Public School Retirement System (PSERS). Recognizing that PSERS was a limited defined contribution and defined benefit plan which did not provide for an adequate retirement for this group of employees, it was the Board's desire to supplement the retirement of this group.

The Board selected Variable Annuity Life Insurance Company (VALIC) as the provider of this plan. For each employee covered under PSERS, the Board began contributing to the plan an amount up to 3% percent of the employee's base pay.

The employee becomes vested in the plan with five years of experience.
Funds accumulated in the employer paid accounts are only available to the employee upon termination of employment and five years of service to the Richmond County Board of Education. If an employee terminates employment prior to achieving five

years of service, funds paid on behalf of the non-vested employee are credited back to the Board.

Employer contributions for the current fiscal year and the preceding two fiscal years are as follows:

Fiscal Year		Amount Contributed
2011	$	249,746.35
2010	$	279,602.66
2009	$	301,117.93

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Superintendent and Members of the
Richmond County Board of Education
Augusta, Georgia

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Richmond County Board of Education as of and for the year ended June 30, 2011, which collectively comprise Richmond County Board of Education's basic financial statements and have issued our report thereon dated February 23, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Richmond County Board of Education's internal control over financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Richmond County Board of Education's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Richmond County Board of Education's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Richmond County Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, members of the Richmond County Board of Education, others within the entity, Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Superintendent and Members of the
Richmond County Board of Education
Augusta, Georgia

Compliance

We have audited Richmond County Board of Education's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Richmond County Board of Education's major federal programs for the year ended June 30, 2011. Richmond County Board of Education's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Richmond County Board of Education's management. Our responsibility is to express an opinion on the Richmond County Board of Education's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Richmond County Board of Education's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Richmond County Board of Education's compliance with those requirements.

In our opinion, the Richmond County Board of Education complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

Internal Control Over Compliance

Management of Richmond County Board of Education is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Richmond County Board of Education's internal control over compliance with requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Richmond County Board of Education's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, members of the Richmond County Board of Education, others within the entity, Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

AUDITEE'S RESPONSE TO PRIOR YEAR FINDINGS AND QUESTIONED COSTS

RICHMOND COUNTY BOARD OF EDUCATION
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2011

Prior Year Findings and Questioned Costs - Financial Statement Audit

No matters were reported.

Prior Year Findings and Questioned Costs - Major Federal Award Programs Audit

FA-7211-10-01 Title I Grants to Local Education Agencies – CFDA No. 84.010; Grant period: Year Ended June 30, 2010

Condition: A review of expenditures charged to the Title I Grants to Local Educational Agencies program revealed that the School District failed to implement internal control procedures to ensure expenditures were allowable.

Criteria: Provisions of OMB Circular A-87, *Cost Principles for Local, State and Indian Tribal Governments*, require that "to be allowable under Federal awards, costs must be…authorized or not prohibited under state or local laws or regulations" and "supported by underlying documentation".

Cause and Effect: Management failed to monitor compliance with Federal guidelines to ensure that expenditures charged to the Federal program were allowable. Failure to ensure the program expenditures are allowable can result in noncompliance with the Federal grant. This resulted in a $5,200.00 questioned cost.

Current Year Status: The Title I Education Program Specialist reviewed this matter and determined that the Richmond County Board of Education did charge an unallowable expenditure to the Title I Grants to Local Educational Agencies. The Richmond County Board of Education refunded $5,278.25 to the Georgia Department of Education. The finding was resolved and closed.
