October 30, 2013

To the Honorable Members of the Griffin-Spalding County Board of Education and Citizens of Spalding County

The Comprehensive Annual Financial Report of the Griffin-Spalding County School System (System) for the fiscal year ended June 30, 2013, is herewith submitted. The report was prepared by the Finance Department of the Griffin-Spalding County School System. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with management.

This report consists of management's representations concerning the finances of the System. To provide a reasonable basis for making these representations, management of the System has established a comprehensive internal control framework that is designed to protect the assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the financial statements in conformity with generally accepted accounting principles (GAAP). Because the cost of internal controls should not outweigh their benefits, the System's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this report is complete and reliable in all material respects.

Designed to meet the needs of a broad spectrum of readers of financial statements, this comprehensive annual financial report (CAFR) is divided into four major sections:

- Introductory section – introduces the reader to the report and includes this transmittal letter, organizational chart of the System, and the list of elected and appointed officials.
- Financial section – consists of the independent auditor's report, management's discussion and analysis, the basic financial statements, and combining and fund statements and schedules.
- Statistical section – contains substantial financial information, but presents tables that differ from financial statements in that they present non-accounting data, cover several years, and are designed to reflect social and economic data and financial and fiscal trends as well as the fiscal capacity of the System.

- Single Audit section – contains auditor's reports on the internal control structure and compliance with applicable laws and regulations, schedule of expenditures of federal awards, and findings and questioned costs as required by the provisions of the Single Audit Act Amendments of 1996 and U.S. Office of Management and Budget Circular A-133, "*Audits of State, Local Governments, and Nonprofit Organizations*".

Independent Audit

In accordance with state law, an annual audit of the financial records, books of account, and financial affairs of the System has been made by an independent auditor. The goal of the independent audit was to provide reasonable assurance that the financial statements of the System for the year ended June 30, 2013, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. The auditor's opinion, as prepared by Robinson, Grimes and Company, P.C., is included within the financial section of this report.

The independent audit of the financial statements of the System is part of a broader, federally mandated "Single Audit" process designed to meet the needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are included in the Single Audit section of this report.

Management's Discussion and Analysis

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial reports in the form of a management's discussion and analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The System's MD&A can be found immediately following the report of the independent auditors.

System Profile

The System was created pursuant to an amendment to the Constitution of the State of Georgia ratified in November 1952 and acts of the General Assembly of the State of Georgia. The System resulted from the consolidation of separate city and county school districts within the borders of Spalding County, Georgia. The System is a legally separate entity enjoying all rights and privileges accorded political subdivisions of the State of Georgia. The System is fiscally independent. Policymaking and legislative authority are vested in the Board of Education consisting of five members, each elected from single member districts. Board members, elected on a non-partisan basis, serve

four-year staggered terms with no more than three board members elected every two years. The Board of Education is responsible for, among other things, developing policy, adopting the budget, levying taxes, incurring bonded debt with voter approval, and hiring all System employees.

The primary purpose of the System is to provide public education for those who reside within the boundaries of Spalding County, Georgia. During the 2012-13 school year, the System serviced eleven elementary schools (pre-kindergarten through grade five), four middle schools (grades six through eight), and three high schools (grades nine through twelve). The third high school, A.Z. Kelsey Academy, opened in August, 2007, as an alternative setting for students in need of additional academic emphasis and greater organizational structure. In addition, the System operated a center for elementary school students qualifying for services under the gifted education program. The System also operated a center for middle and high school students with disciplinary issues.

The System served 10,582 students as of the student enrollment count taken in October 2012, a decrease of 32 from the prior year. Total enrollment includes 478 students served in the pre-kindergarten program funded through proceeds of the State of Georgia's lottery for education program. System enrollment has remained fairly steady for the past few years. Current trends suggest that enrollment will remain constant for the foreseeable future in line with the slow, but steady, growth in county population.

System of Internal Controls

Management of the System is responsible for establishing and maintaining internal controls designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting records are maintained to allow for the preparation of financial statements in conformity with generally accepted accounting principles. Internal controls over major business functions are subject to periodic evaluation by management. Included therein are controls over data processing functions as well as the security of backup information in the event of catastrophic damage or loss to the primary records. Financial policies adopted by the Board of Education are a primary component of the internal control system and are subject to annual review in light of current conditions.

Budgetary Control

The System adopts an annual budget for its funds. This budget acts as the financial operating plan for the entire year. Revisions may be implemented during the year authorizing a larger appropriation of available resources with approval from the Board of Education. All annual appropriations lapse at year-end with the exception of those indicated as assignment of fund balance.

The System Superintendent submits an annual budget to the Board of Education in May prior to the commencement of the new fiscal year on July 1. The budget includes proposed expenditures as well as the means of financing them. Public hearings are held

on the budget after which the Board of Education adopts a budget for the year by resolution. In addition, under provisions of state law, public hearings must be held if the proposed property tax millage rate exceeds the rate of the prior year, or if the rate is not rolled back sufficiently to fully offset the effects of revaluation increases on the taxable value of property in the County.

Budgetary control is maintained at the aggregate level for each budgeted fund. For fiscal year 2013, budgets were adopted for the general fund, special revenue fund, debt service fund, and capital projects fund.

Major Initiatives

The Board of Education adopted a five year strategic plan in 2010 to guide our instructional program. Five primary strategic directions form the framework of the strategic plan.

- Student Achievement
  - Increase Test Scores
  - Close Achievement Gaps
  - Increase Progression Rates
- Student and Stakeholder Engagement
  - Partner with Students
  - Partner with Parents
  - Partner with the Community
- Teacher Effectiveness
  - Be a Professional Learning Community
  - Know Technology
  - Do Standards-based Classrooms
- Reliable Organization
  - Manage Processes and Projects
  - Manage Finances and Personnel
  - Manage Perceptions
  - Maintain a Safe Learning Environment
- Learning and Growth
  - Recruit and Train the Right People
  - Learn GSCS Values and Culture
  - Grow from Evaluations

Several instructional initiatives have been implemented to support these goals. Examples include the following programs.

- Infinite Campus – student information system
- Performance Matters – data analysis software
- Odysseyware On-line Learning Program
- Read 180

- Race to the Top – one of 26 Georgia school districts participating
- School Improvement Grant – Griffin High School
- Special Entities
    - Program Challenge Elementary Gifted Center
    - Elementary Science Enrichment Center
    - A. Z. Kelsey Academy
    - Partnership with Southern Crescent Technical College
    - Partnership with University of Georgia – Griffin campus
    - Partnership with Georgia Institute of Technology
    - Elementary After School Program
- Parent/Community Involvement
    - PTA/PTO
    - School Councils
    - Griffin-Spalding Partners in Education, Inc.

Economic Condition and Outlook

Spalding County, Georgia, has experienced modest economic growth over the past several years with a varied manufacturing and industrial base adding to the relative stability of the area. The county government continues work developing the infrastructure for a new industrial park. As of now, no business or industry has located within the new industrial park leaving uncertain the date as to when the local property tax digest will be positively impacted. In addition, the county government completed a comprehensive review and revaluation of the entire tax digest in 2012 for the first time since the 1960s. In addition to establishing full fair market value on parcels of property, insuring the completeness of the digest is a primary goal of the process. However, the revaluation process resulted in numerous appeals by property owners, many of which remain unresolved after several months. The System's ability to issue property tax levies on a complete digest has been adversely affected.

The average annual unemployment rate in Spalding County dropped to 11.3% for calendar year 2012 from 12.8% the prior year. While some jobs have been created by small business and light industry, no prospects have been identified to make a more significant impact to the unemployment level. However, Southern Crescent Technical College and the University of Georgia – Griffin Campus have both experienced enrollment increases along with physical plant expansions designed to improve the level of preparedness of the available workforce.

Countywide population changes mirror those experienced within the school system. Total population in Spalding County is estimated to have dropped about 0.2% over the past twelve months. The major residential development showing signs of construction activity has been designated as an "active adult community" with no school-age children to impact local enrollment. Spalding County has also experienced a sizeable number of mortgage foreclosures which ultimately affects residential values reflected on the county property tax digest.

Construction projects for expanded and renovated school facilities continue under the Special Purpose Local Option Sales Tax (SPLOST) approved by voters in 2007. The SPLOST renewal approved by voters in 2012 for a three year period allows the school system to continue work to upgrade and equip school facilities. Currently, school facilities have an average age of thirty-five years. However, this includes buildings placed in service within the past three years as well as others that are over eighty years old.

Long-term Financial Planning

SPLOST collections declined 2.9% in fiscal year 2013. In addition to funding expansion and renovation projects discussed previously, debt service on outstanding 2007 Series General Obligation bonds has been met. The final payment on remaining 2007 Series bonds was made in October, 2012.

Spalding County voters approved an extension of SPLOST for a three year period ending June 30, 2015. The referendum covers a project list including facility expansion and renovation along with the purchase of new technology for classroom use. The issuance of bonds was not part of financial plans for the next three years; therefore, no bonds will be issued meaning work projects will be funded on a pay-as-you-go basis.

The System continues to monitor budget related activity in the Georgia General Assembly. State revenues have risen modestly over the past year. However, significant funding cuts continue to be passed to local school systems by the state and are expected for the foreseeable future. The System is reviewing several aspects of operations to identify areas for cost reduction and improvement in efficiency including personnel allocation, employee benefits, student transportation services, and document production practices. Sustainability is becoming a key phrase when budget issues are discussed. Budget items proposed for inclusion or modification are viewed in terms of the system's ability to sustain the item into the future. Adequate, available fund reserves are key to preserving the school system's ability to operate free of short-term borrowing to fund daily operations.

Relevant Financial Policies

During fiscal year 2013, financial policies related to purchasing and procurement continued to be important, particularly with the increase in federal funds coming to the school system. In particular, the establishment of procedures surrounding the purchase of computer hardware and software while maintaining compliance with applicable federal grant guidelines was significant. In addition, an annual review is conducted of all financial policies to determine the need for any additions or changes.

Awards

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the System for its Comprehensive Annual Financial Report for the year ended June 30, 2012. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement for Excellence, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. This is the eighth consecutive year that the System has received this prestigious award. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we will be submitting it to GFOA to determine its eligibility for another certificate.

The System also received the Association of School Business Officials (ASBO) International's Certificate of Excellence in Financial Reporting for its Comprehensive Annual Financial Report for the year ended June 30, 2012.

The award certifies that the report substantially conforms to the principles and standards of financial reporting as recommended and adopted by the Association of School Business Officials International. The Certificate of Excellence is valid for a one year period. This is the eighth consecutive year the System has received this prestigious award. We believe our current report continues to conform to Certificate of Excellence program requirements, and we will be submitting it to ASBO to determine its eligibility for another certificate.

Acknowledgements

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of the Finance Department. We would like to express appreciation to all members of the department who assisted in the preparation of this report. We would also like to express our appreciation to the members of the Board of Education who continue to show their interest and support in conducting the financial affairs of the System in a responsible and progressive manner.

Respectfully submitted,

GRIFFIN-SPALDING COUNTY SCHOOL SYSTEM
BOARD OF EDUCATION

FUNCTION AND COMPOSITION

The Griffin-Spalding County Board of Education governs all matters relating to education and operations in the Griffin-Spalding County School System, as provided by Georgia law.

The Board is responsible, through its oversight function, for maintaining a reasonable and uniform system of public schools serving students in grades pre-kindergarten through 12. With the advice of the Superintendent, the Board determines policies and prescribes rules and regulations for the management of the school system. This includes, but is not limited to, adopting system wide goals and objectives, developing a financial budget for the school year, and receiving regular reports on the progress of serving students and families through out the year.

The Board currently consists of five members elected from single member districts. The Board has independent taxing authority for the purpose of funding public education inside Spalding County, Georgia.

Regular meetings of the Board of Education are held on the first and last Tuesday of each month beginning at 6:00 p.m. in the Board meeting room of the main administration building located at 216 South Sixth Street, Griffin, Georgia. Special meetings may be called at other times by the Board Chairperson. At all meetings, a majority of the entire membership constitutes a quorum. All meetings are open to the public.

The Board elects a Chairperson and Vice-Chairperson annually from its members.

As of June 30, 2013, the members of the Board of Education and dates of expiration of their terms are as follows:

Name	Title	Term Expiration
Mr. James R. Westbury	Chairperson	12/31/16
Mr. James A. Graham	Vice-Chairperson	12/31/14
Mrs. Barbara Jo Cook	Member	12/31/16
Mr. Zachery B. Holmes	Member	12/31/14
Mr. Michael Kendall	Member	12/31/14

Independent Auditor's Report

The Board of Education
Griffin-Spalding County School System
Griffin, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Griffin-Spalding County School System, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise Griffin-Spalding County School System's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Griffin-Spalding County School System's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

5637 Whitesville Rd. P.O. Box 4299, Columbus, Georgia 31914 • Telephone 706-324-5435 • Fax 706-324-1209 • Email info@robinsongrimes.com
Members of: American Institute of CPAs and related Private Companies Practice Section,
Employee Benefit Plan Audit Quality and Government Audit Quality Center • Center for Audit Quality • Georgia Society of CPAs • CPAmerica International
• **www.robinsongrimes.com**

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Griffin-Spalding County School System, as of June 30, 2013, and the respective changes in financial position and thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

The management's discussion and analysis on pages 4 through 14 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Griffin-Spalding County School System's financial statements. The introductory section, combining nonmajor fund financial statements and other schedules, and statistical tables and the Schedule of Expenditures of Federal Awards, required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, are presented for purposes of additional analysis and are not a required part of the financial statements. The combining nonmajor fund financial statements and other schedules and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain other procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements and other schedules and the Schedule of Expenditures of Federal Awards are fairly stated in all material respects in relation to the financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Griffin-Spalding County School System's basic financial statements. The introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Report on Other Legal and Regulatory Requirements

In accordance with Government Auditing Standards, we have also issued our report dated October 30, 2013 on our consideration of Griffin-Spalding County School System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Columbus, Georgia

October 30, 2013

The discussion and analysis of Griffin-Spalding County School System's (herein referred to as the "System") financial performance provides an overall review of the System's financial activities for the fiscal year ended June 30, 2013. The intent of this discussion and analysis is to look at the System's financial performance as a whole. Readers should also review the financial statements and notes to the financial statements to enhance their understanding of the System's financial performance.

Financial Highlights

- The assets of the System exceeded its liabilities at June 30, 2013, by $175,238,087. Of this amount, $16,580,187 (unrestricted net position) may be used to meet the System's ongoing obligations and operations as a public school district.

- Net position increased by a total of $10,620,485 from the beginning of the year. The increase is attributable, primarily, to Special Purpose Local Option Sales Tax (SPLOST) revenue which financed investments made in capital assets during the year.

- At June 30, 2013, the System's General Fund reported a fund balance of $12,317,009, an increase of $3,685,239, or 42.7 percent from the last fiscal year. Of this total, $428,995 has been committed to the risk management function in compliance with GASB 54 and $400,693 has been assigned to subsequent period expenditures. Unassigned fund balance totaled $11,487,321.

- SPLOST collections in fiscal year 2013 decreased 2.9% from collections in fiscal year 2012.

- Final principal and interest payments were made on the Series 2007 general obligation bonds, fully retiring the issue.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the System's basic financial statements. The basic financial statements comprise three components: 1) System-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

System-wide Financial Statements

The System-wide financial statements are designed to provide readers with a broad overview of the System's finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the System's assets and liabilities with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the System is improving or deteriorating. It is important to note that this statement consolidates the System's current financial resources (short-term) with capital assets and long-term liabilities.

The Statement of Activities presents information showing how the System's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g. uncollected taxes, etc.)

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The System, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the System can be divided into two categories: governmental funds and fiduciary funds

Governmental Funds

Most of the System's activities are reported in governmental funds focusing on how money flows in and out of those funds and the balances left at year-end available for spending in future periods. The governmental fund statements provide a detailed short-term view of the System's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent in the near future to finance educational programs.

Fiduciary Funds

The System is the trustee, or fiduciary, for assets that belong to others such as club and class funds and payroll withholding funds. The System is responsible for ensuring assets reported in these funds are used only for their intended purposes and by those to whom the assets belong.

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the system-wide and fund financial statements.

System-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. As of June 30, 2013, System assets exceeded liabilities by $175,238,087.

By far, the largest portion the System's net position (78.4 percent) reflects its investment in capital assets (e.g. buildings, land, machinery and equipment, construction in progress) less any related debt used to acquire those assets that remain outstanding. The System uses the capital assets to provide services to our students, faculty, and community; consequently, these assets are not available for future spending.

The following chart details the major categories of assets, liabilities, and net position with a comparison to the prior fiscal year.

Griffin-Spalding County School System
Net Position – as of June 30, 2013 and 2012

	Governmental Activities	
	FY 2013	FY 2012
Current and other assets	$ 49,994,471	$ 48,240,190
Capital Assets	137,395,409	135,053,662
Total assets	187,389,880	183,293,852
Current and other liabilities	12,151,793	13,733,763
Long-term liabilities	0	4,942,487
Total liabilities	12,151,793	18,676,250
Net Position:		
Invested in capital assets, net of related debt	137,395,409	130,111,176
Restricted	21,262,491	21,657,810
Unrestricted	16,580,187	12,848,616
Total net position	$ 175,238,087	$ 164,617,602

An additional portion of the System's total net position represents resources that are subject to external restrictions on how they may be used (12.1 %). Comprising the majority of restricted net position are assets being accumulated for use in capital projects accounting for 89.6% of total restricted net position. The remaining 10.4% of restricted net position represents non-expendable, permanent funds and funds set aside for the continuation of federal and other programs.

Unrestricted net position, 9.5% of total net position, may be used to meet ongoing obligations and operations of the System.

Changes in Net Position from Operating Results

Net position increased $10,620,485 from operating results in the fiscal year ended June 30, 2013, compared to an increase of $7,639,240 in the prior fiscal year. Key elements of this increase are as follows on the next page:

Financial Analysis of the System's Funds

General Fund Budgetary Highlights

The System's budget is prepared in accordance with Georgia law and is based on accounting for certain transactions on the modified accrual basis of accounting. The System uses site-based budgeting and the budgeting system is designed to tightly control site budgets but provide flexibility for site management.

The most significant budgeted fund is the general fund. The original fiscal year 2013 budget was adopted as a surplus budget with revenues exceeding appropriated expenditures by $2,300,931. Revenues were projected to be $75,944,635, up 2.67% over fiscal year 2012 actual revenues. Appropriated expenditures were projected to be $73,643,704, down 2.60% from fiscal year 2012 actual expenditures. Of significance, the state revenue budget was negatively impacted by a $7,427,745 "austerity reduction" equaling 15.24% of the System's earnings under the State's Quality Basic Education funding formula. Austerity reductions, imposed for the eleventh consecutive year, occur when the Georgia General Assembly fails to appropriate sufficient dollars in the state budget to fully fund formula earnings. However, the System benefited from a lower required local match against state earnings and a higher state equalization grant due to the System's drop in rankings comparing the relative property wealth per student among Georgia school districts. The net result was higher projected state revenues than the previous year. The Board of Education raised the local property tax millage rate from 19.06 mills to 19.47 mills to offset a portion of the effect expected from a declining property tax digest.

As fiscal year 2013 progressed, the final amended general fund budget added $189,707 to revenues, an increase of 0.20% from the original budget for the year. The largest component of the change was the addition of $118,390 in state Quality Basic Education (QBE) formula earnings primarily due to student counts shifting from lower earning programs into higher earning programs. During the amendment process, expected revenues were also increased to include the addition of several local grants and programs arising during the year. While changes to appropriated expenditures, discussed in the following paragraph, did not equal the changes to projected revenues, the amended budget for fiscal year 2013 reflected an expected surplus with revenues exceeding expenditures by $2,149,870.

The original budget for fiscal year 2013 included appropriated expenditures of $73,643,704. Several cost reduction initiatives were included in the fiscal year 2013 budget in recognition of continuing funding cuts from the state level and pressure on local revenue sources. Most system employees had their work schedules reduced by five days during the year. The state did not provide funds for teacher pay raises in fiscal year 2013. In addition, other pay schedules were frozen where legally permitted. Sixty-two and a half positions were eliminated including thirty-five and a half teaching positions and five school administration positions. Travel reimbursement rates were lowered below the permissible federal guidelines by up to 50%. The district continued using a

schedule of staggered opening times for the various grade configurations in an effort to utilize existing student transportation vehicles in a more efficient manner.

As the year progressed, an amended budget appropriating a total of $74,253,491 was approved by the Board of Education, an increase of $609,787 in appropriated expenditures. The primary additions to expenditure categories were $100,000 to student transportation for fleet maintenance and $75,000 to fund the worker's compensation expenditures. In addition, expenditures related to several local grants and programs arising during the fiscal year were added to the general fund budget during the amendment process.

General Fund Operations

The general fund finished fiscal year 2013 with a fund balance of $12,317,009, an increase of $3,685,239, or 42.7%, from fiscal year 2012. $428,995 of the fund balance was committed to the risk management function in compliance with GASB 54 requirements and $400,693 was assigned to subsequent period expenditures. Actual revenues exceeded budget projections by $623,184 while actual expenditures were $945,535 lower than budgeted. Several important factors led to the actual results for the year.

First, state revenues were impacted by "austerity reductions" for the eleventh consecutive year. By year end, the System experienced a total austerity reduction of $7,427,745, or 15.24% of formula earnings. Additionally, the full time equivalent (FTE) student count used in the QBE formula to determine actual dollars earned by the local system decreased from10,211 in fiscal year 2012 to 10,154 in fiscal year 2013. State funding cuts were tempered somewhat by a reallocation in the local required match against state formula earnings and an increase in the state allowance for property tax equalization.

Second, local revenue sources represented 34.88% of total general fund revenues for the year, down from 37.34% in the prior year. Local revenues exceeded budgeted projections by $471,741. Collections of local ad valorem property tax, the largest single piece of local revenue exceeded budget expectations for the year due to a strong collection of delinquent taxes. Interest income on short-term investments declined due to falling interest rates and lower cash balances available for investment. The System used the State's local government investment pool, Georgia Fund I, as its primary investment vehicle. The remainder of local revenues consisted of other taxes, tuitions and a few small local grants.

At year end, total expenditures were under budget by $945,535. Expenditures for direct classroom instruction (e.g. teacher salaries and benefits, textbooks, classroom supplies, etc.) accounted for 64.76% of total general fund expenditures, down slightly from the prior fiscal year. No pay increases were given to employees during fiscal year 2013. Virtually all employees had work schedules reduced by five days during the year resulting in a reduction to salary and benefit costs of approximately $1,500,000. The

employer's share of health insurance premiums for classified employees (those without teaching certificates) rose by 50.6% in fiscal year 2013 as part of a planned series of rate increases by the State Health Benefit Plan. Several functional areas reflected reduced expenditures compared to the prior year. The majority of the expenditure reductions came in the form of unfilled staff positions.

The following chart details the major components of revenues and expenditures by function for fiscal year 2013 as well as a comparison of changes compared to the previous fiscal year.

Griffin-Spalding County School System
General Fund – Revenue and Expenditure Comparison

	Amount	% of Total	Increase (Decrease) Over FY 2012

Totals	$ 73,537,657	100.00%	$ (2,233,323)

Capital Projects Fund Operations

The capital projects fund is used to account for school construction and the purchase of large capital assets. Renovation work continued at Spalding High School and Griffin High School. The Griffin High School renovation has a total estimated cost of approximately $19 million and completion date in fiscal year 2014. Additionally,

$1,082,265 was spent to purchase instructional technology equipment for various schools. Proceeds from the 2007 general obligation bond issue ($14,000,000) have been fully expended leaving current capital construction costs to be paid directly from SPLOST collections. SPLOST collections in fiscal year 2013 decreased 2.9% compared to fiscal year 2012 with receipts of $8,450,570 and $8,706,803, respectively. The entire SPLOST collection was recorded in the capital projects fund as all debt service requirements on the 2007 general obligation bond issue had been met.

Debt Service Fund Operations

The debt service fund is used to accumulate resources for the retirement of long-term debt represented primarily by the general obligation bonds outstanding. Debt service payments totaling $4,957,275 in principal, interest and fiscal charges on the 2007 general obligation bond issue were made during the year. These payments represent the retirement of all outstanding general obligation bonds.

Capital Assets and Debt Administration

Capital Assets

The System's investment in capital assets for its governmental activities as of June 30, 2013, totaled $137,395,409, net of accumulated depreciation. The investment in capital assets includes land, buildings, vehicles, and equipment used in providing services to our students and community as well as construction in progress on several building projects.

The majority of changes to the System's capital asset accounts came from the renovation of existing buildings. Renovation work at Spalding High School and Griffin High School constituted the majority of the year's activity. Note 4 to the basic financial statements provides additional information on the System's capital assets including a detailed breakdown of the types of capital assets included in the computation of depreciation charges. As of June 30, 2013, 23.25% of the cost basis of depreciable assets had been taken as a depreciation charge since the various assets were placed in service.
A summary of capital assets follows.

Griffin-Spalding County School System
Capital Assets, Net of Accumulated Depreciation

	Governmental Activities	
	FY 2013	FY 2012
Land	$ 3,347,052	$ 3,347,052
Construction in progress	12,027,700	7,519,655
Buildings	108,238,462	110,012,627
Building Improvements	9,261,140	9,098,358
Vehicles and Equipment	4,521,055	5,075,970
Total	$ 137,395,409	$ 135,053,662

Debt Administration

At June 30, 2013, the System had no outstanding general obligation bonds or long-term capital lease obligations. The current debt limitation for the System is $146,827,746 based on state law limiting the amount of general obligation debt a government entity may issue to ten (10) percent of the total assessed value of taxable property.

No new debt issues are planned for fiscal year 2014. The System maintains a rating of AA from Standard & Poor's for general obligation debt subject to the State intercept program.

Additional information on the System's long-term debt can be found in Note 9 to the basic financial statements.

Outlook for the Future

The System enjoys a strong financial position in light of current economic conditions affecting local revenues as well as the effect of state revenue pressures through austerity reductions to the QBE funding formula and new programmatic requirements. Austerity reductions will continue in fiscal year 2014. Current indications are that austerity reductions for fiscal year 2014 will remain approximately 14% of state formula earnings. Adjustments to school and staff work calendars along with other significant operational changes may be necessary. Looking out further, while state revenues improved during fiscal year 2013 and the first part of fiscal year 2014, expectations are that austerity reductions will continue in fiscal year 2015 and beyond at some undetermined level. However, the State is continuing a relaxation of class size requirements and is providing other waivers of rules and regulations as long as the budget crisis continues.
The assessed net value of the county property digest increased approximately 0.94% in 2013, the first year of growth following four years of decline. Little growth in terms of

new taxable property was realized in 2013, but exemptions from taxation declined. Following a full countywide revaluation of property values in 2012, numerous appeals were filed by property owners. Currently, over 2,000 appeals remain unresolved making final digest values difficult to access.

The Board of Education, while adopting the fiscal year 2014 general fund operating budget, set the millage rate at 19.47 mills, unchanged from the prior year. With the fiscal year 2014 M&O millage set at 19.47, the ability to raise additional local revenue through property taxes is limited given the constitutional limit which caps school millage rates at 20 mills. The Board of Education will continue to be careful in obligating funds for programs and uses that might be needed to cover expenses not funded through state appropriations.

As of June 30, 2013, the General Fund reflected a fund balance of $12,317,009 translating to 59 days of operation based on the fiscal year 2014 budget. Of this balance, $428,995 was committed for risk management purposes by the Board of Education and $400,693 was assigned to subsequent period expenditures. Through careful planning, the System has not been forced to resort to personnel layoffs or major delays in the purchase of classroom materials to maintain financial strength despite cuts in funding from the State. The fiscal year 2014 budget includes a full 180 day student calendar and no reductions in staff work calendars. At this time the objective is to maintain a strong financial condition to better address any further cutbacks in State funding that could have an adverse effect on operations and financial reserves.

Of continuing concern is stagnant residential growth county-wide. The residential growth that is occurring is within an "active adult" community with no school age children. Therefore, we expect student enrollment to remain constant for the foreseeable future in line with slow growth in county population.

Requests for Information

This financial report is designed to provide a general overview of Griffin-Spalding County School System's finances for those with an interest in the System's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to James D. Smith, CPA, Assistant Superintendent/CFO, Griffin-Spalding County School System, P.O. Drawer N, Griffin, Georgia 30224. Alternatively, you may send requests to the following e-mail address: jim.smith@gscs.org.

Amounts reported for governmental activities in the statement of net assets are different because:		
Other long-term assets are not available to pay for current period expenditures:	$ 2,372,630	
Property taxes deferred in the funds	152,270	2,524,900
Note receivable deferred in the funds		
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of the assets is $179,026,977 and the accumulated depreciation is $41,631,568		137,395,409
Total net position - governmental activities		$ 175,238,087

The Notes to the Basic Financial Statements are an Integral Part of this Statement.

GRIFFIN, GEORGIA
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2013

Total net change in fund balances - governmental funds		$ 3,201,708
Amounts reported for governmental activities in the statement of activities are different because:		
Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceed depreciation in the period.		
Capital outlays	$ 5,318,127	
Depreciation	(2,976,379)	2,341,748
Repayment of capital lease obligations is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.		88,838
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.		4,840,000
Governmental funds do not present revenues that are not available to pay current obligations. In contrast, such revenues are reported in the Statement of Activities when earned:		
Deferred property tax revenue	$ 203,590	
Note receivable	(60,000)	143,590
Governmental funds report the effect of issuance costs and bond premiums when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities.		4,601
Change in net position of governmental activities		$ 10,620,485

The Notes to the Basic Financial Statements are an Integral Part of this Statement.

Total assets	126,900
LIABILITIES	
Due to student and faculty groups	126,900
Total liabilities	$ 126,900

The Notes to the Basic Financial Statements are an Integral Part of this Statement.

NOTE 1: Summary of Significant Accounting Policies

A. Reporting Entity

The Griffin-Spalding County School System (the "System") was established under the laws of the State of Georgia and operates under the guidance of a school board elected by the voters and a Superintendent appointed by the Board. The financial statements of the System have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The System's combined financial statements include the accounts of all System operations. The criteria for including organizations as component units within the System's reporting entity, as set forth in Financial Reporting Standards, include whether:

- The organization is legally separate
- The Board holds the corporate powers of the organization
- The Board appoints a voting majority of the organization's board
- The Board is able to impose its own will on the organization
- The organization has the potential to impose a financial benefit/burden on the System
- There is fiscal dependency by the organization on the System

Based on the aforementioned criteria, the System has no component units.

B. System-wide and fund financial statements

The system-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. However, interfund services provided and used are not eliminated in the process of consolidation. Normally, governmental activities are supported by taxes and intergovernmental revenues.

NOTE 1: Summary of Significant Accounting Policies (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the district-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The system-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting.* The fiduciary fund financial statements are also reported using the *accrual basis of accounting*; however, fiduciary funds have *no measurement focus*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The State of Georgia reimburses the School System for teachers' salaries and operating costs through the Quality Basic Education Formula Earnings program (QBE). Generally teachers are contracted for the school year (July 1 – June 30) and paid over a twelve month contract period, generally September 1 through August 31. In accordance with the respective rules and regulations of the QBE program, the State of Georgia reimburses the School System over the same twelve month period in which teachers are paid. At June 30, the amount of teachers' salaries incurred but not paid until July and August of the subsequent year are accrued. Since the State of Georgia recognizes its QBE liability for the July and August salaries at June 30, the School System recognizes its portion of that reimbursement as a receivable and revenue, consistent with symmetrical recognition.

NOTE 1: Summary of Significant Accounting Policies (Continued)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the System considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Property taxes associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the System.

The System reports the following major governmental funds:

The *general fund* is the operating fund of the System. It is used to account for all financial resources except those required to be accounted for in another fund.

The *capital projects fund* is used to account for financial resources to be used for the acquisition or construction of major capital facilities.

The *debt service fund* is used to account for the accumulation of financial resources for the payment of principal, interest and related costs on general long-term debt.

Additionally, the School System reports the following funds:

The *special revenue funds* are used to account for federal and state funded grants. These grants are awarded to the System for the purpose of accomplishing specific educational tasks, which are defined in the grant agreements. These funds contain several locally funded programs whose expenditures are restricted to specific purposes. In addition, these funds are used to account for the school nutrition program whose revenues and expenditures are associated with the operations of the school cafeterias.

NOTE 1: Summary of Significant Accounting Policies (Continued)

Permanent funds are used to account for assets held by the System resulting from a trust arrangement in which the System is the beneficiary which include scholarships and endowments.

The *permanent funds* apply the current financial resources measurement focus and modified accrual basis of accounting. Nonexpendable permanent funds account for assets of which the principal may not be spent.

Agency funds are used to account for assets held on behalf of outside parties.

The *agency funds* are custodial in nature (assets equal liabilities) and do not present the results of operations nor have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. These fiduciary funds are used to account for assets that the System holds on behalf of other funds of the System and are comprised primarily of amounts collected through fundraising efforts of individual school activity organizations.

Amounts reported as *program revenues* include 1) charges to customers or application for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, *general revenues* include all taxes.

When both restricted and unrestricted resources are available for use, it is the System's policy to use restricted resources first, then unrestricted resources as they are needed. As a general rule the effect of interfund activity has been eliminated from the system-wide financial statements.

D. Assets, liabilities, and net position or equity

Cash, Cash Equivalents and Investments

The System's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Investments of the System are reported at fair value.

Statutes authorize the System to invest in obligations of the United States and of its agencies and instrumentalities; bonds or certificates of indebtedness of the state of Georgia and of its agencies and instrumentalities; certificates of deposit of banks insured by the F.D.I.C. to the extent that such investments are legal investments; repurchase agreements; and the Local Government Investment Pool, administered by the State of Georgia. Certificates of deposit must be collateralized to the extent they exceed $250,000.

NOTE 1: Summary of Significant Accounting Policies (Continued)

Receivables

Property taxes were levied on November 26, 2012, based on property values assessed as of January 1, 2012, and were payable on or before February 8, 2013. Property taxes became an enforceable lien on March 11, 2013. Taxes levied in calendar year 2012 for operations were levied at 19.47 mills.

Receivables due but not available are deferred in the fund financial statements in accordance with the modified accrual basis, but not deferred in the district-wide financial statements in accordance with the accrual basis.

Total property tax revenues reported for the fiscal year amounted to $25.6 million, including $3 million reported as taxes receivable of which $2.4 million is reflected as deferred revenue in the general fund.

The State of Georgia, Department of Revenue receivable represents Special Local Option Sales Tax (SPLOST) revenues earned in the prior year but received within 60 days after year-end from the State Department of Revenue. Amounts due from the State of Georgia, Department of Education reflect QBE allotments related to the State's reimbursement amount for its portion of general fund salaries and benefits, which totaled $5.9 million at June 30, 2013.

Other receivables consist of amounts due to the System from other grants, tuition, or other revenue sources. The System anticipates collection of all receivables within one year.

Inventories

Inventories consist of donated food commodities and purchased foods used in the preparation of meals. Inventories are stated at cost (principally first in, first-out), which is not in excess of market. The district utilizes the consumption method to recognize inventory usage. Under the consumption method, inventories are recorded as expenditures when used rather than when purchased. Reported inventories are reflected as nonspendable fund balance. The United States Department of Agriculture (USDA) commodity portion of the food services inventory consists of food donated by the USDA. It is valued at estimated market prices by the USDA. The amount of commodities on hand at year-end is reflected as deferred revenue.

NOTE 1: Summary of Significant Accounting Policies (Continued)

Capital Assets

Capital assets, which include property, plant and equipment, are reported in the district-wide financial statements. Capital assets are defined by the System as assets with an initial cost of more than $5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Land and construction in progress are not depreciated. Depreciation of all other capital assets is charged as an expense against their operations in the Statement of Activities. Property, plant and equipment is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Permanent buildings	40 - 80
Portable buildings	10
Building improvements	20
Vehicles	5 - 10
Office equipment	3 - 10
Computer equipment	3 - 10

Accrued Salaries and Benefits

Accrued salaries and benefits relate primarily to salaries of employees paid over a twelve-month period for contract services of ten months. The twelve-month pay period begins September 1 and ends August 31. Salaries payable in July and August along with the employee benefits relating to those salaries are accrued as of the end of the fiscal year.

Compensated Absences

It is the System's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the System does not have a policy to pay any amounts when employees separate from service with the System. Vacation pay is awarded on a fiscal year basis, with no provisions for carryover of unused days. Accordingly, as of June 30, there is no liability for accrued vacation pay.

NOTE 1: Summary of Significant Accounting Policies (Continued)

Long-term Obligations

In the system-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the life of the related debt.

Fund Balance

In accordance with the requirements of GASB 54 "Fund Balance Reporting and Governmental Fund Type Definitions", the following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance- amounts that are not in a spendable form or are required to be maintained intact;
- Restricted fund balance- amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government, through constitutional provisions, or by enabling legislation);
- Committed fund balance- amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Education. The Board of Education is the System's highest level of decision-making authority, and the formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a resolution approved by the Board;
- Assigned fund balance- amounts the System intends to use for a specific purpose; but are neither restricted nor committed. The Board of Education may assign fund balance. In addition, the Board has authorized the Superintendent or Chief Financial Officer to assign amounts to be used for specific purposes;
- Unassigned fund balance- amounts that are available for any legal purpose.

The Board establishes (and modifies or rescinds) fund balance commitments through adoptions and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the Board through adoption or amendment of the budget as intended for a specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes). When multiple categories of fund balance are available for expenditure, the System will start with the most restricted category and spend those funds first before moving down to the next category with available funds.

NOTE 1: Summary of Significant Accounting Policies (Continued)

E. Budgetary Information

General Budget Policies

The System has a legally authorized appropriated budget which is formally approved by the Board at the aggregate level for each budgeted fund. Budgets are prepared to provide a basis for funding operations. There is no legal prohibition regarding over expenditure of the aggregate budget as long as there is an adequate available fund balance. The budget process begins when the System's administration prepares a tentative aggregated budget for the Board's approval. After approval of this tentative budget by the Board, such budget is advertised at least once in a newspaper of general circulation in the locality. At the next regular meeting of the Board after advertisement, the Board receives comments on the tentative budget, makes revisions as necessary and adopts a final school budget. This final budget is then submitted, in accordance with provisions of the Quality Basic Education Act, OCGA Section 20-2-167, to the Georgia Department of Education. From time to time, the budget is amended by Board approval at the fund level.

The System prepares its budgets on the modified accrual basis, which is the same basis it presents its fund financial statements. In addition, certain on-behalf payments for retirement benefits are not included in the general fund budget. The actual results on page 20 have, accordingly, been restated for comparative purposes. The System legally adopts budgets for its general fund, special revenue (excluding “other funds”), capital projects and debt service funds.

Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods and services. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of resources recorded in order to reserve that portion of the applicable appropriation, is utilized by the System. Encumbrances outstanding at year-end are reported as assignments of fund balance since they do not constitute actual expenditures or liabilities. They are reappropriated in the subsequent fiscal year since appropriations lapse at year-end.

NOTE 2: Deposits and Investments

The System maintains a cash and investment pool that is available for use by all governmental funds. Each fund type's portion of this pool is included in "Cash and cash equivalents". In addition, deposits are separately held by several of the System's funds.

The System has not adopted a formal investment policy. Most of the System's cash is invested in the State of Georgia Government Pool. Other investments consist of securities backed by Federal Government agencies and one-day repurchase agreements with local banks. The following pages will disclose deposit and investment risks that could affect the System's ability to provide services and meet its obligations as they become due.

Custodial Credit Risk – Deposits

The System's cash and cash equivalents are summarized below. All deposits are carried at cost plus accrued interest.

Depository Accounts	Bank Balance	Book Balance
Insured	$ 798,065	$ 798,065
Collateralized		
Collateral held by pledging bank's trust department in the System's name	19,982,298	17,740,158
Local government investment pool	17,803,572	17,803,572
Total Deposits	38,583,935	36,341,795
Less: Investments shown below	(1,075,483)	(1,075,483)
Net cash and cash equivalents	$ 37,508,452	$ 35,266,312

Agency funds had bank deposits totaling $126,900 as reported on the Statement of Fiduciary Assets and Liabilities.

The System's investment in the local government investment pool is comprised of Georgia Fund 1 and another local investment pool, which has not been categorized as to risk level because it is a pool managed by another government. Georgia Fund 1, which was created by the Official Code of Georgia Annotated (OCGA) 36-83-8, is a stable net asset value investment pool which follows Standard and Poor's criteria for AAA rated market funds. However, Georgia Fund 1 operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the Securities and Exchange Commission as an investment company.

NOTE 2: Deposits and Investments (Continued)

The pool's primary objectives are safety of capital, investment income liquidity and diversification while maintaining principal ($1.00 per share value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participant's shares sold and redeemed based on $1.00 per share. The Georgia State Department of Audits is the regulatory oversight agency of Georgia Fund 1.

Credit Risk, Concentration of Credit Risk, and Interest Rate Risk – Investments
The System follows state law for its choices of investments. The System has few investments and chooses to disclose its investments by specifically identifying each. As of June 30, 2013, the System's investments were as follows:

Investment	Maturities	Fair Value	%
First National Bank - Certificate of Deposit	7 months	$ 30,000	2.79%
First National Bank - Certificate of Deposit	8 months	20,000	1.86%
Treasury Money Market	n/a	83,595	7.77%
US Government Bonds	various	465,516	43.28%
US Government Asset Backed/CMO Securities	various	476,372	44.30%
Total		$ 1,075,483	100.00%

State law limits investments in commercial paper and corporate bonds to the top two ratings issued by nationally recognized statistical rating organizations. The System has no investment policy that would further limit its investment choices.

Interest Rate Risk - the System does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Credit Risk - the System is not limited on the amount that may be invested in any one issuer.

NOTE 3: Note Receivable

Governmental funds defer revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period; therefore, the note receivable has been recorded as deferred revenue for the year ended June 30, 2013.

The note receivable, which bears zero percent annual interest had annual principal payments of $60,000, with a balance payment of $212,270 due January 13, 2013, represents the balance on the 2010 sale of Varsity Road land. This note receivable was revised on January 14, 2013 due to a merger between Griffin Technical College and Flint River Technical College. The new annual principal payments are $75,000, with a balance payment of $152,270 due December 15, 2014.

NOTE 4: Interfund Receivables, Payables and Transfers

During the course of its operations, the School System makes transfers between funds to finance operations, provide services, acquire assets, and service debt. To the extent that certain transfers between funds have not been received as of year-end, balances of interfund amounts receivable or payable have been recorded. Outstanding balances between funds are reported as "due to/from other funds."

Interfund receivable and payable balances are as follows:

Receivable Fund	Payable Fund	Amount
General Fund	Nonmajor Governmental Funds	$ 1,430,453

The general fund was due $1,430,453 from other special revenue funds to be repaid upon receipt of grant revenues.

Transfers from/to other funds at June 30, 2013 are as follows:

Transfers to	Transfers from	Amount
Nonmajor Governmental Funds	General Fund	$ 47,444

These transfers are to cover overages from the operation of certain grants.

NOTE 5: Capital Assets

Governmental capital asset activity for the year ended June 30, 2013 was as follows:

	Beginning Balance	Increases	Decreases	Transfers	Ending Balance
Capital assets, not being depreciated:					
Land	$ 3,347,052	$ 0	$ 0	$ 0	$ 3,347,052
Construction in progress	7,519,654	4,751,162	0	(243,116)	12,027,700
Total capital assets, not being depreciated	10,866,706	4,751,162	0	(243,116)	15,374,752
Capital assets, being depreciated:					
Buildings	135,275,379	0	0	0	135,275,379
Building improvements	13,407,667	216,186	0	243,116	13,866,969
Vehicles and equipment	14,628,328	350,779	(469,229)	0	14,509,878
Total capital assets, being depreciated	163,311,374	566,965	(469,229)	243,116	163,652,226
Less accumulated depreciation for:					
Buildings	(25,262,753)	(1,774,164)	0	0	(27,036,917)
Building improvements	(4,309,309)	(296,520)	0	0	(4,605,829)
Vehicles and equipment	(9,552,357)	(905,695)	469,229	0	(9,988,823)
Total accumulated depreciation	(39,124,419)	(2,976,379)	469,229	0	(41,631,569)
Total capital assets, being depreciated, net	124,186,955	(2,409,414)	0	243,116	122,020,657
Capital assets, net	$ 135,053,661	$ 2,341,748	$ 0	$ 0	$ 137,395,409

NOTE 5: Capital Assets (Continued)

Depreciation expense was charged to functions/ programs of the primary government as follows:

Instruction	$ 1,509,115
Improvement of instructional services	29,259
Media services	82,589
General and school administration	75,393
Maintenance and operations	489,226
Transporation	238,825
Central support services	7,015
School nutrition	300,188
Unallocated depreciation	244,769
Total depreciation expense	$ 2,976,379

NOTE 6: Other Assets

Other assets include bond closing costs, which have been fully amortized as of June 30, 2013. In addition, other assets include permanent fund deposits.

NOTE 7: Non-Monetary Transactions and On-Behalf Payments

The System received from the United States Department of Agriculture through the Georgia Department of Education approximately $266,045 in donated food commodities for its lunchroom programs. The federally assigned value of these commodities is reflected as revenues and expenditures in the Other Governmental Funds.

The Georgia Department of Education paid $5,776,728 to the State Health Benefit Plan, $16,591 to the Teachers Retirement System, and $213,111 to the Public School Employee Retirement System on behalf of the System for the fiscal year ending June 30, 2013. These on-behalf payments were for health insurance and retirement contributions and were reported in the General Fund as both revenues and expenditures

NOTE 8: Short-term Debt

The System obtained a $5,000,000 tax anticipation note in early December, 2012, and deposited the proceeds in the General fund. This short-term debt is to provide cash for operations until property tax collections are received by the System. State law limits the aggregate amount of short-term debt to 75 percent of the total gross income from taxes collected in the preceding year and requires all short-term debt to be repaid no later than December 31 of the calendar year in which the debt is incurred. The note was repaid in late December, 2012.

NOTE 9: Capital Leases

The System has entered into various lease agreements as lessee for buses and other capital items. Assets acquired under these capital lease agreements have a historical cost and accumulated amortization of $480,497 and $221,800 respectively. These lease agreements qualify as capital leases and have been recorded at the present value of the future minimum lease payments.

The changes in capital leases during the year ended June 30, 2013, were as follows:

Balance Beginning	Additions	Reductions	Balance Ending
$ 88,833	$ 0	$ (88,833)	$ 0

NOTE 10: Long-Term Debt

Bonds Payable

In June 2007, the System issued $14,000,000 in general obligation bonds with interest rates ranging from 3.625% - 5.00%, based on current market rates. Interest is payable semi-annually beginning October 2007 and principal is due annually beginning in 2010 with final payment due in 2012. The bonds were issued to finance various planned construction activities for the System.

A summary of changes in bonds payable for the year ended June 30, 2013 follows:

	Balance June 30, 2012	Additions	Deletions	Balance June 30, 2013
2007 General Obligation	$ 4,840,000	$ 0	$ (4,840,000)	$ 0
Unamortized bond premium	13,649	0	(13,649)	0
Total	$ 4,853,649	$ 0	$ (4,853,649)	$ 0

NOTE 11: Special Purpose Local Option Sales Tax (SPLOST)

On March 20, 2007, the voters of Spalding County authorized the imposition of a Special Purpose Local Option Sales Tax (SPLOST) effective July 1, 2007. The sales tax was authorized for a maximum period of time not to exceed five years for the purpose of raising not more than $57,000,000, although the SPLOST only generated $42,407,828. Total expenditures of 2007 SPLOST proceeds incurred in 2013 were $5,027,196. The funds were used to retire the general obligations bonds issued June 26, 2007 as well as fund new construction projects.

On March 6, 2012, the voters of Spalding County authorized the SPLOST to be reimposed effective July 1, 2012. The reimposed sales tax was authorized for a maximum period of time not to exceed three years for the purpose of raising not more than $30,000,000. The funds generated by the sales tax will be used to renovate, remove, repair, improve, and equip existing school facilities and acquire system-wide technology improvements.

The status of the 2012 SPLOST project is as follows:

Anticipated proceeds, as originally projected	$ 30,000,000
Amount not yet collected	(21,549,430)
Amount collected through June 30, 2013	$ 8,450,570
Amounts expended to date	$ 1,022,376

NOTE 12: Risk Management

The System is exposed to various risks of loss related to torts: theft of loss, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disaster. The System has established a limited risk management program for Workers' Compensation. Estimated claims are budgeted by management based on known claims and prior experience. An excess coverage insurance policy covers aggregate claims in excess of $500,000 up to $1,000,000.

NOTE 12: Risk Management (Continued)

Claims and associated expenses incurred during the fiscal years 2013, 2012 and 2011 are shown below. Outstanding year end liabilities are considered to be immaterial.

Year	Balance July 1, 2012	Current Year Claims Accrued	Current Year Claims Paid	Unpaid Balance June 30, 2013
2013	$ 0	$ 539,904	$ (539,904)	$ 0
2012	$ 0	$ 327,866	$ (327,866)	$ 0
2011	$ 0	$ 507,078	$ (507,078)	$ 0

The System participates in Georgia School Boards Association Risk Management Fund for property and liability insurance. Coverage for losses arising from certain liability and property risks to the System is provided through a group self-insurance plan. For accounting purposes this plan is considered to be a Risk Transfer Pool. Under this plan, the System is responsible for the first $5,000 of each property loss, $5,000 of each machinery breakdown loss, $1,000 of auto physical damage loss, and the first $10,000 of each liability claim. The plan assumes certain risks of the System in excess of state retentions up to certain customary coverage limits. The System is required to make a financial contribution to the plan each year in an amount determined on the basis of actuarial projections of losses.

Settled claims have not exceeded insurance coverage in any of the past three years.

NOTE 13: Contingencies and Commitments

The System is a defendant in various legal proceedings pertaining to matters incidental to the performance of routine System operations. It is the opinion of management and legal counsel that the System has adequate legal defenses or insurance coverage and these actions will not materially affect the System's results of operations or financial position.

At June 30, 2013, the System's future construction commitments consist of additions to Griffin High School and Spalding High School in the amounts of approximately $1,529,587 and $342,487, respectively.

NOTE 14: Retirement Plans

TEACHERS RETIREMENT SYSTEM OF GEORGIA (TRS)

TRS PLAN DESCRIPTION

Substantially all teachers, administrative and clerical personnel employed by local school systems are covered by the Teachers Retirement System of Georgia (TRS), which is a cost-sharing multiple-employer public employee retirement system (PERS). TRS provides service retirement, disability retirement and survivor's benefits for its members. Title 47, Chapter 3 of the Official Code of Georgia Annotated, assigns the authority to establish and amend benefit provisions to the TRS Board of Trustees. A member is eligible for service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. A member is eligible for early retirement after 25 years of creditable service and attainment of age 55, at a reduced benefit.

Retirement benefits paid to members are equal to 2% of the average of the member's two consecutive highest paid years of service multiplied by the number of years of creditable service up to 40 years. The normal retirement pension is payable monthly for life. Options are available for distribution of the member's monthly pension at a reduced rate to a designated beneficiary on the member's death.

Retirement benefits also include death and disability benefits. A disabled member or surviving spouse is entitled to receive annually an amount equal to the member's service retirement benefit or disability retirement, whichever is greater. The death benefit is the amount that would be payable to the member's beneficiary had the member retired on the date of death on either a service retirement allowance or a disability retirement allowance, whichever is larger. The benefit is based on the member's creditable service (minimum of 10 years of service) and compensation up to the time of disability or death.

Members become fully vested after ten years of service. If a member terminates with less than ten years of service, no vesting of employer contributions occurs, but the member's contributions are refunded with interest.

TRS CONTRIBUTIONS REQUIRED AND MADE

Employees of the System who are covered by TRS are required to contribute 6% of their gross earnings. The System makes monthly employer contributions at rates adopted by the TRS Board of Trustees as advised by their independent actuary. For fiscal year 2013 that rate for employer contributions was 11.41% of its gross payroll from July through June.

NOTE 14: Retirement Plans (Continued)

Total contributions made during fiscal years 2013, and are as follows:

	Total Contributions	Contributions Made By The System	Employer Percentage Contributed	Contributions Made By Employees
2013	$8,705,462	$5,699,685 (or 11.41% of covered salaries)	100%	$3,005,777 (or 6.00% of covered salaries)
2012	$8,330,375	$5,409,811 (or 10.28% of covered salaries)	100%	$2,920,564 (or 5.53% of covered salaries)
2011	$8,584,790	$5,574,002 (or 10.28% of covered salaries)	100%	$3,010,788 (or 5.53% of covered salaries)

PUBLIC SCHOOL EMPLOYEES RETIREMENT SYSTEM OF GEORGIA (PSERS)

PSERS PLAN DESCRIPTION
Substantially all bus drivers, maintenance, custodial, and lunchroom personnel employed by local school systems are covered by the Public School Employees Retirement System of Georgia (PSERS), which is a cost-sharing multiple-employer PSERS. All employer contributions are made by the State of Georgia.

PSERS provides service retirement, disability retirement and survivor's benefits for its members. A member is eligible for normal service retirement after 10 years of service and attainment of age 65. A member applying for service retirement with 10 years of service and retiring between the ages of 60 and 65 receives a reduced benefit. Monthly retirement benefits paid to members are equal to $14.75 per month multiplied by the number of years of creditable service. Options are available for distribution of the member's monthly pension at a reduced rate to a designated beneficiary on the member's death.

Retirement provisions include death and disability benefits. Disability benefits are the same as if the employee had retired at age 65 as long as the employee has 15 or more years of creditable service. Death benefits are dependent upon the number of years of service. If there are less than ten years of service, a lump sum refund of the employee's contributions and interest are made to the beneficiary. If there are more than ten years of service, the beneficiary shall receive for life half of what the employee would have received upon retirement.

NOTE 14: Retirement Plans (Continued)

Members become fully vested after ten years of service. If a member terminates with less than ten years of service, no vesting of employer contributions occurs, but the member's contributions are refunded with interest.

PSERS CONTRIBUTIONS REQUIRED AND MADE
Covered employees are required by State statute to contribute $4.00 per month for the nine-month school year. Unlike TRS, the System makes no contribution to PSERS. The State of Georgia is required by statute to make employer contributions actuarially determined and approved and certified by the PSERS' Board of Trustees.

Total contributions made to PSERS by the employees during fiscal years 2013, and are as follows:

2013	$10,440
2012	$11,780
2011	$12,096

Ten-year historical trend information is presented in each plan's annual financial statement. This information is useful in assessing the pension plan's accumulation of sufficient assets to pay pension benefits as they become due. This information may be obtained by contacting TRS and PSERS directly at Two Northside 75, Suite 400, Atlanta, Georgia 30318 or on the internet at www.trsga.com and www.ersga.org.

NOTE 15: Post Employment Benefits

GEORGIA RETIREE HEALTH BENEFIT FUND

PLAN DESCRIPTION

The School District contributes to the Georgia Retiree Health Benefit Fund (GRHBF), a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the Department of Community Health. GRHBF provides health insurance benefits to eligible retirees and their qualified beneficiaries. Pursuant to Title 45, Chapter 18 of the Official Code of Georgia Annotated, the authority to establish and amend the benefit provisions of the plan is assigned to the Board of Community Health. The Department of Community Health issues a publicly available financial report that includes financial statements and required supplementary information for GRHBF. That report may be obtained from the Department of Community Health at 2 Peachtree Street, Atlanta, Georgia 30303.

NOTE 15: Post Employment Benefits (Continued)

FUNDING POLICY

The contribution requirements of plan members and participating employers are established and may be amended by the Board of Community Health. Contributions of plan members or beneficiaries receiving benefits vary based on plan elections, dependent coverage, and Medicare eligibility and election. On average, plan members pay approximately twenty-five percent (25%) of the cost of health insurance coverage.

Participating employers are required by statute to contribute in accordance with the employer contribution rate established by the Board of Community Health. This contribution rate is established to fund both the active and retired employee health insurance plans based on projected pay-as-you-go financing requirements. The employer contribution rates for the combined active and retiree plans varied during the fiscal year ended June 30, 2013 as follows:

Teachers:	
July 2012 - February 2013	$912.34 per month
March 2013 - June 2013	$937.34 per month
Non-Certificated Employees:	
July 2012-August 2013	$446.20 per month

The School System's contribution to the State Health Benefit Plan for the fiscal year ended June 30, 2013, was $9,864,565, which equaled the required contribution.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Description

Special revenue funds are used to account for revenues received from other governmental agencies or locally generated revenues that are legally restricted to expenditures for specified purposes.

School Nutrition Program: This fund was established to provide accounting of the System's School Food Service operations.

Other Special Revenue Funds:

Title I: This fund used to account for federal categorical grant funds flowing through the Department of Education, State of Georgia, for the purpose of providing remedial education in the areas of reading and math.

Title VIB: This fund was established to provide accounting of federal categorical grant funds flowing through the Department of Education, State of Georgia, for the purpose of providing special education programs for handicapped students.

Perkins CTAE: This fund was established to provide accounting of federal categorical grant funds flowing through the Department of Education, State of Georgia, for the purpose of developing career, technical, vocation, and academic skills of students.

Title IIA & Title IID: This fund was established to provide accounting of federal categorical grant funds flowing through the Department of Education, State of Georgia, for the purpose of improving teacher and principal quality and ensuring that all teachers are highly qualified.

Race to the Top: This fund was established to provide accounting of federal categorical grant funds flowing through the Department of Education, State of Georgia, for the purpose of closing achievement gaps, improving high school graduation rates and ensuring student preparation for success in college careers.

Title III (LEP & Immigrant): This fund was established to provide accounting of federal categorical grant funds flowing through the Department of Education, State of Georgia, for the purpose of improving the education of limited English proficient (LEP) and immigrant students by helping them learn English and meet student academic achievement standards.

Title IV (Drug Free Schools): This fund was established to provide accounting of federal categorical grant funds flowing through the Department of Education, State of Georgia, for the purpose supporting programs that prevent the illegal use of alcohol, tobacco, and drugs.

Other Special Revenue Funds: (Continued)

School Activity Accounts: Consistent with the philosophy of financial independence of the schools, this fund was established to provide accounting for the accounts maintained at the school level.

Mainstay Psycho Ed: This fund was established to provide accounting of state and federal grant funds flowing through the Georgia Network for Educational and Therapeutic Support (GNETS), State of Georgia, for the purpose of providing specialized educational treatment for emotionally disturbed students.

Pre-K: This fund was established to provide accounting of state lottery funds flowing through the Georgia Department of Early Care and Learning, for the purpose of providing early care and education programs for pre-kindergarten students.

Nursing Grant: This fund was established to provide accounting of funds donated by the Hospital Authority, a local foundation, for the purpose of providing nurses in each school.

Other Funds: This fund was established to provide accounting for certain special programs that are typically one-time monies awarded for distinct program objectives.

PERMANENT FUNDS

Description

The permanent funds are used to account for assets held by the System resulting from a trust arrangement in which the System is the beneficiary which include scholarships and endowments.

STATISTICAL SECTION

This part of the System's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, notes, and required supplementary information says about the System's overall financial health.

Contents

	Page
Financial Trends *These schedules contain trend information to help the reader understand how the System's financial performance and well-being have changed over time.*	63
Revenue Capacity *These schedules contain information to help the reader assess the System's most significant local revenue source, the property tax.*	68
Debt Capacity *These schedules present information to help the reader assess the affordability of the System's current levels of outstanding debt and the System's ability to issue additional debt in the future.*	76
Demographic and Economic Information *These schedules offer demographic and economic indicators to help the reader understand the environment within which the System's financial activities take place.*	81
Operating Information *These schedules contain service and infrastructure data to help the reader understand how the information in the System's financial report relates to the services the System provides and the activities it performs.*	87

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Griffin-Spalding County School System
Direct and Overlapping Governmental Activities Debt
As of June 30, 2013

Governmental Unit	
Debt repaid with property taxes:	
Spalding County:	
General obligation bonds	$6,500,000
Certificates of participation	5,474,116
Capital leases	2,053,925
City of Griffin:	
Capital leases	4,011,000
Sub-total, overlapping debt	$18,039,041
Direct:	
Griffin-Spalding County School System:	
General obligation bonds	$0
Capital leases	0
Sub-total, direct debt	$0
Total, overlapping and direct debt	$18,039,041

Percentage of Overlapping Debt Applicable to the School District is 100%

Notes:
In addition to the System's debt obligations, property owners in the System are responsible for certain debt obligations of other taxing entities in the proportion to which the jurisdiction of the System overlaps such entities. Set forth below is the estimated overlapping general obligation debt and estimated overlapping property tax supported or guaranteed revenue debt of the System as of June 30, 2013. The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the municipality/authority's taxable assessed value that is within the School System's boundaries and dividing it by the municipality/authority's total taxable assessed value. Although the System has attempted to obtain accurate information as to the outstanding overlapping debt, it does not warrant its completeness or accuracy, as there is no central reporting entity which has this information available, and the amounts are based on information supplied by others.

Griffin-Spalding County School System
Insurance Coverage

Insurance coverage of the System is summarized below.

Type	Amount in Force
Property	$302,739,300
Boiler & Machinery	25,000,000
Fidelity Bond	100,000
Superintendent Bond	100,000

	Limits of Liability	
Type	Each Occurance	Aggregate
General Liability	$1,000,000	$2,000,000
School Board Errors and Omissions	1,000,000	1,000,000
Automobile Liability	1,000,000	1,000,000
Excess Workers' Compensation	Statutory	Statutory

Notes:
The System is partially self-insured for workers compensation claims through a self-insurance program that is periodically reviewed for actuarial soundess by an actuary. Refer to Note 11 and MD&A of the System's financial statements for a discussion of the System's risk management program. The System requires payment and performance surety bonds and builders' risk insurance of all contractors and subcontractors involved in construction related to the System's facilities.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

The Board of Education
Griffin-Spalding County School System
Griffin, Georgia

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Griffin-Spalding County School Systemas of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise Griffin-Spalding County School System's basic financial statements, and have issued our report thereon dated October 30, 2013.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Griffin-Spalding County School System's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Griffin-Spalding County School System's internal control. Accordingly, we do not express an opinion on the effectiveness of Griffin-Spalding County School System's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Griffin-Spalding County School System's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

We noted certain matters that we reported to management of the System in a separate letter dated October 30, 2013.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance with Requirements that Could Have a Direct and Material Effect on Each Major Program and on Internal Control over Compliance in Accordance with OMB Circular A-133

The Board of Education
Griffin-Spalding County School System
Griffin, Georgia

Compliance

We have audited the compliance of Griffin-Spalding County School System with the types of compliance requirements described in the U.S. Office of Management and Budget Circular A-133 Compliance Supplement that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013. Griffin-Spalding County School System's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the entity's management.

Auditor's Responsibility

Our responsibility is to express an opinion on Griffin-Spalding County School System's compliance with the applicable compliance requirements based on our compliance audit.

We conducted our compliance audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and Circular A-133 require that we plan and perform the compliance audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. A compliance audit includes examining, on a test basis, evidence about Griffin-Spalding County School System's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our compliance audit provides a reasonable basis for our opinion. Our compliance audit does not provide a legal determination on Griffin-Spalding County School System's compliance with those requirements.

Opinion

In our opinion, Griffin-Spalding County School System complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Internal Control over Compliance

The management of Griffin-Spalding County School System is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our compliance audit, we considered Griffin-Spalding County School System's internal control over compliance with requirements that could have a direct and material effect on a major federal program as a basis for designing our compliance auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Griffin-Spalding County School System's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Restricted Use

The purpose of this report is solely to describe the scope of our testing of internal control over compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control over compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the System's internal control over compliance. Accordingly, this report is not suitable for any other purpose.

GRIFFIN-SPALDING COUNTY SCHOOL SYSTEM
GRIFFIN, GEORGIA
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2013

NOTE 1: Summary of Significant Accounting Policies

Basis of Accounting - The schedule of expenditures of federal awards has been prepared utilizing the modified accrual basis of accounting. Under this method, revenues are recognized when they become measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities for the current period. Expenditures are recognized when the liability is incurred.
