November 30, 2020

To the Members of the Walton County Board of Education and Citizens of Walton County Georgia:

We are pleased to submit to you the comprehensive annual financial report (CAFR) of the Walton County School District (District) for the fiscal year ended June 30, 2020. This report conforms to generally accepted accounting principles as applicable to governmental entities. The Department of Finance prepared this report. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the District's administration and is presented for your review.

We believe the data, as presented, is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the District as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the District's financial activity have been included. A comprehensive framework of internal control is in place to give reasonable assurance that the financial statements are free of any material misstatements.

Readers of this report are encouraged to consider the information presented here in conjunction with additional information presented in the Management's Discussion and Analysis beginning on page four of this report.

PROFILE OF THE SCHOOL DISTRICT

Walton County School District is one of two school districts located in Walton County, Georgia. The District serves the entire county area with the exception of the City of Social Circle, which has its own independent school district. It provides a program of public education from kindergarten through grade twelve. The purpose and responsibility of the District is to provide a thorough and efficient educational system for the children enrolled in public schools within its boundaries whereby each student has access to programs and services that are appropriate to his or her educational needs.

The District is governed by a Board of Education consisting of seven members elected from seven county posts. Members serve four year terms and each year appoints a chairperson and vice-chairperson. The Board appoints a Superintendent to oversee the day-to-day administration of the School District.

WALTON COUNTY SCHOOL DISTRICT
"In Pursuit of Excellence"

Equal Opportunity Employer

The Walton County Board of Education approved Dr. Nathan Franklin as the superintendent of the Walton County School District effective July 1, 2016. Dr. Franklin began his teaching career in 1996 at his alma mater, Dacula High School in Gwinnett County. He later went on to teach and coach at Norcross High School before becoming an associate principal and athletic director. Dr. Franklin came to Walton County as an assistant principal at Loganville High School in 2007. In November 2007, shortly after joining Loganville High School, Dr. Franklin was named the school's principal. He transitioned from school to district level administration in May 2012 becoming the assistant superintendent of facilities, maintenance and operations where he remained until becoming superintendent.

Dr. Franklin has earned five degrees: an associate's degree in science from Spartanburg Methodist College, a bachelor's degree in mathematics education from the University of Georgia, a master's in mathematics education from Piedmont College, in addition to both a specialist in administration and leadership and a doctorate in executive leadership from Lincoln Memorial University.

Through his involvement with a variety of professional organizations, Dr. Franklin connects with education professionals on local, state and national levels. During his tenure as an assistant superintendent and principal, he worked with the Council of Education Facility Planners International (CEFPI), Georgia Association of School Facilities Administrators (GASFA), Professional Association of Georgia Educators (PAGE), National Association of Secondary School Principals (NASSP) and the Georgia Association of Secondary School Principals (GASSP). He currently serves as a member of the Georgia School Superintendents Association (GSSA), The National School Superintendents Association (AASA), the Northeast Georgia Regional Service Agency (NEGA RESA). In addition, he is a Leadership Georgia Alumni (2019) and sits on the GSSA Board of Directors and Georgia School Boards Association Risk Management Fund Board of Trustees.

In addition to his professional experience, Dr. Franklin has extensive coaching experience having served as a wrestling, baseball, golf and football coach. He is an active member in the Walton community serving on a wide-range of committees and boards including United Way of Walton County, Walton County Chamber of Commerce Board of Directors, Walton County Board of Health, Foothills Education Charter High School Board of Control, Kiwanis of Loganville, Bay Creek Baptist Church, Walton County Chamber of Commerce Education Committee, Walton County Community Development Board and Leadership Walton Alumni Association.

He and his wife, Julie, along with their three children, Ryan, Will and Anna, make their home in Monroe, Ga.

WALTON COUNTY SCHOOL DISTRICT ACADEMIC HIGHLIGHTS (2020)

Due to the COVID-19 pandemic, the spring Georgia Milestones administrations of EOG and EOC were cancelled. Therefore, only EOC scores for the first semester (Winter) are available. Additionally, the Climate and CCRPI accountability ratings and scores were not calculated.

Georgia Milestones

Comparison to State – EOC Winter

- English/Language Arts: Proficiency rates exceeded the State in both 9th Grade Literature and American Literature, 6 and 12 percentage points, respectively.
- Mathematics: Proficiency rates met or exceeded the State. In Algebra, the rate was 27 percentage points above the State. The Geometry rate met the State rate.
- Science: The Biology proficiency rate exceeded the State by 3 percentage points.
- Social Studies: The proficiency rates in Economics and US History exceeded the State by 6 and 15 percentage points, respectively.
- The percent of students scoring at the highest level (Distinguished) exceeded the State in 6 of 7 tested areas.
- The district's percent of students scoring at Developing, Proficient or Distinguished levels on EOC assessments surpassed the State all content areas and subjects.

ACCESS for ELL

- Elementary level: For the third consecutive year, the district continued to post high English Learner progress toward English language proficiency -- 98.31 percent.

Beyond the Core

- Nearly 100 percent of students in grades K – 5 earned a passing grade in a fine arts course.
- Nearly 100 percent of middle school students earned a passing grade in a fine arts, world language, PE/health, or career exploratory course.

Attendance

- Maintained better than a 90 percent student attendance rate for the 15th consecutive year.

Graduation Rate

- The 2020 WCSD graduation rate is the highest rate ever (91.8 percent);
- The rate exceeded the State's rate for the 10th consecutive year (and by more than 8 points in 2020);
- For the 5th consecutive year, all three high schools had rates above the State;
- Nearly all subgroups exceeded the prior year's graduation rate;
- All Walton County subgroups exceeded the State subgroup rates in 2020.
- The graduation rate for students with disabilities increased by 20.3 percentage points in 2020 and by more than 59 percentage points since 2011.
- Walton County English Learners (75.9%) exceeded the State English Learner rate by 13.9 percentage points.
- For the second time in district history, two schools earned a graduation rate of better than 90 percent (Loganville High School 93.0 and Monroe Area High School 92.6).

ECONOMIC CONDITION AND OUTLOOK

The District is located in the north central quadrant of Georgia, approximately 45 miles east of Atlanta and 27 miles west of Athens. With a population forecasted to be 105,778 in calendar year 2020, student enrollment is expected to increase. The county seat is Monroe.

The District expects state funding, as well as property tax revenue, to increase in the upcoming years.

LONG-TERM FINANCIAL PLANNING

In May, 2016, the citizens of Walton County voted to renew the current Education Local Option Sales Tax (ELOST). The renewed ELOST began January 1, 2018 through December 31, 2022. The District plans capital improvements as future capital needs arise due to increased student population and facility repair and maintenance needs. Specific capital expenditure plans are formalized in conjunction with ELOST and anticipated annual receipts of capital outlay funds from the state of Georgia Department of Education.

OTHER INFORMATION

Independent Audit: The financial statements have been audited by Mauldin & Jenkins, LLC, whose opinion is expressed on page 1. The District complies with the requirements of the Single Audit Act and associated reports and schedules are presented in the last section of this report.

Acknowledgments: We wish to express our appreciation to Robin Bryant, Director of Finance, Katie Childers, Accountant, and to the entire staff of the Finance Division whose dedicated efforts have enabled this report to be prepared on a timely basis. The active involvement and professional support of Mauldin & Jenkins, LLC Director, Josh Carroll and his auditing staff has been instrumental in the prompt completion of the associated audit of this report.

In closing, sincere gratitude is expressed to the Board of Education for their leadership and dedication to Walton County School District, its taxpayers, employees, and most importantly, its students. To the citizens of the Walton County School District, please accept our gratitude for your support of our successful school district.

Respectfully submitted,

Nathan Franklin, Ed.D.

WALTON COUNTY SCHOOL DISTRICT
FUNCTION AND COMPOSITION
JUNE 30, 2020

All matters relating to education and operations in Walton County School District are governed and controlled by the Board of Education as provided by Georgia law. The Board has the responsibility to maintain a uniform system of public schools providing quality education for all young people of Walton County. With the advice of the Superintendent, the Board must determine the policies and prescribe the rules and regulations for the management and administration of the school system.

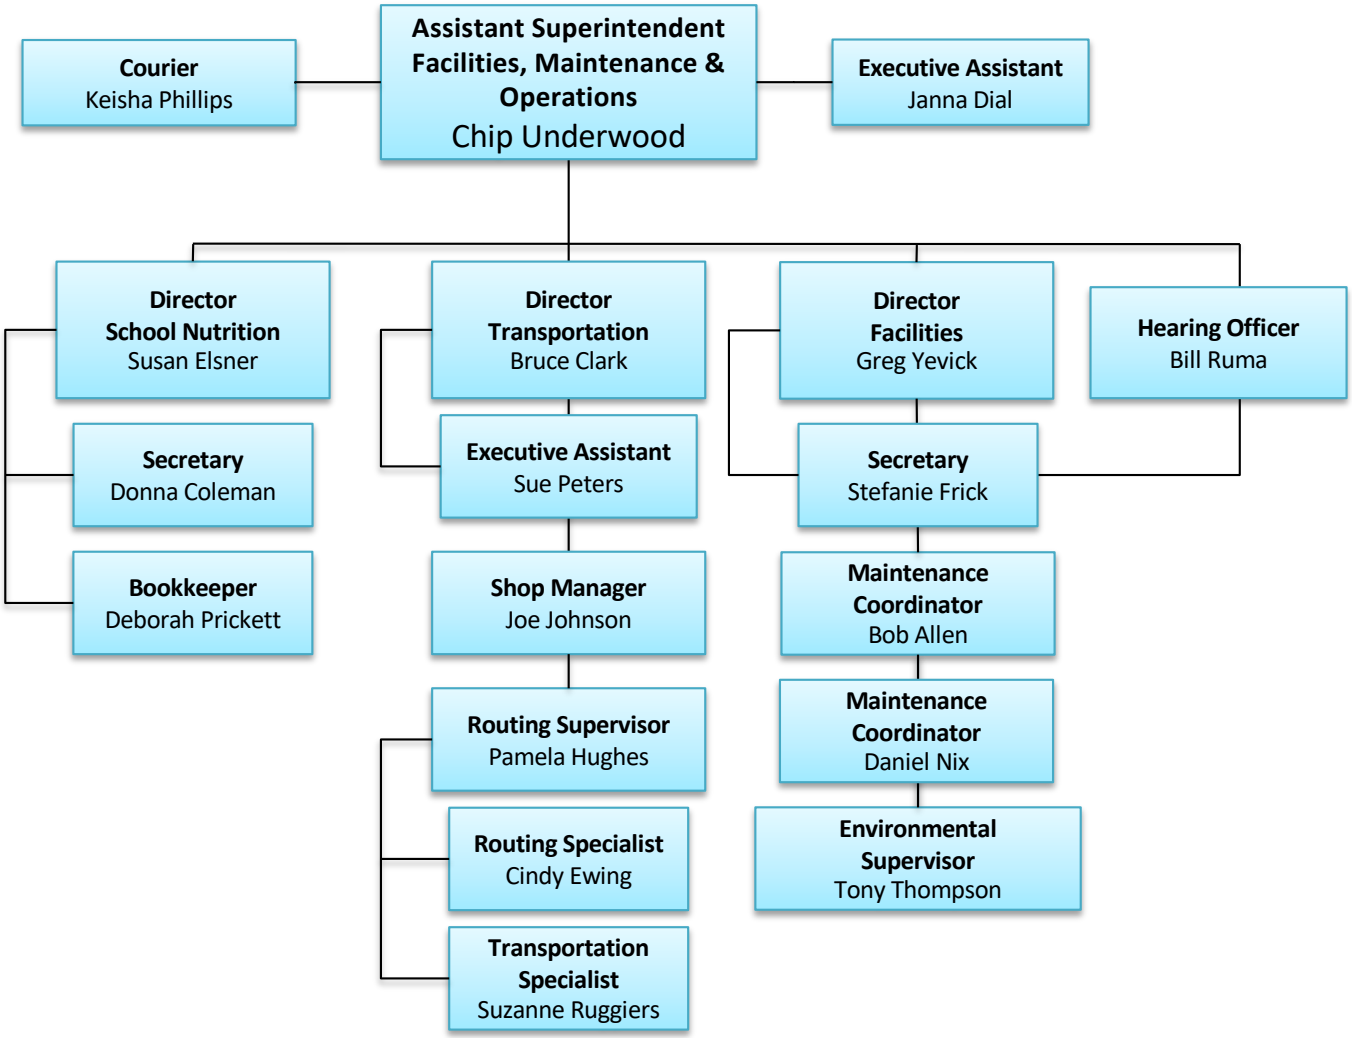

Generally, the board holds public meetings twice a month to conduct normal business with special sessions as needed. The Board is composed of seven members who are each elected for four years from one of seven geographical districts in the county. The Board elects a Chairman and Vice-Chairman from the seven members to govern the body for a one year period. As of June 30, 2020 the members of the Board and years of expiration of their terms are as follows:

Title	Name	Term Expires
Chair	Mrs. Diane Turner	December 31, 2020
Vice-Chair	Mr. Coleman Landers	December 31, 2020
Board Member	Mr. David Breedlove	December 31, 2020
Board Member	Mr. John Jessup	December 31, 2020
Board Member	Mrs. Simoan Capers Baker	December 31, 2022
Board Member	Mrs. Karen Brown	December 31, 2022

INDEPENDENT AUDITOR'S REPORT

To the Superintendent and Members of
the Walton County Board of Education
Monroe, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **Walton County Board of Education** (the "District") as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2020, and the respective changes in financial position, and where applicable, cash flows thereof and the budgetary comparison for the General Fund, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (on pages 4 through 13), the Schedule of Proportionate Share of Net Pension Liability – TRS, the Schedule of Contributions – TRS, the Schedule of Proportionate Share of Net Pension Liability – PSERS, the Schedule of Proportionate Share of Net OPEB Liability – School OPEB Fund, and the Schedule of Contributions – School OPEB Fund (pages 56, 57, 59, 61 and 62) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund statements and schedules, the schedule of expenditures of special purpose local option sales tax proceeds, and the accompanying schedule of expenditures of federal awards, as required by *Title 2 U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Additionally, the introductory and statistical sections are presented for purposes of additional analysis and are also not a required part of the basic financial statements.

The combining and individual fund statements and schedules, the schedule of expenditures of special purpose local option sales tax proceeds, and the schedule of expenditures of federal awards (collectively the "supplementary information") are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Governmental Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2020 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Mauldin & Jenkins, LLC

Atlanta, Georgia

MANAGEMENT'S DISCUSSION AND ANALYSIS

WALTON COUNTY SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

INTRODUCTION

Our discussion and analysis of the Walton County School District's ("School District")'s financial performance provides an overview of the School District's financial activities for the fiscal year ended June 30, 2020. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the notes to the basic financial statements to enhance their understanding of the School District's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for fiscal year 2020 are as follows:

- On the District-wide financial statements, the assets and deferred outflows of resources of the School District's governmental activities exceeded liabilities and deferred inflows of resources by approximately $52.8 million, while the assets and deferred outflows of resources of the business-type activities were $255,381 more than liabilities and deferred inflows of resources. For governmental activities there is a deficit unrestricted net position of $182.4 million.

- The School District had $165.9 million in expenses relating to governmental activities and $1.2 million in expenses for business-type activities; only approximately $100.5 million of the governmental activities' expenses are offset by program specific charges for services, grants, and contributions, while $1.2 million of the business-type expenses are offset by charges for services. General revenues (primarily property and sales taxes) of approximately $74.2 million were provided for the governmental activities' programs.

- As stated above, general revenues accounted for approximately $74.2 million or 42.2% of all revenues totaling $175.0 million. Program specific revenues in the form of charges for services, grants and contributions accounted for the rest.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: management's discussion and analysis, the basic financial statements, and required supplementary information. The basic financial statements include two levels of statements that present different views of the School District. These include the district-wide and fund financial statements.

The district-wide financial statements include the Statement of Net Position and Statement of Activities. These statements provide information about the governmental and business-type activities of the School District presenting both short-term and long-term information about the School District's overall financial status.

The fund financial statements focus on individual parts of the School District, reporting the School District's operation in more detail. The Governmental Funds statements disclose how basic services are financed in the short-term as well as what remains for future spending. The Fiduciary Funds statements provide information about the financial relationships in which the School District acts solely as a trustee

or agent for the benefit of others. The fund financial statements reflect the School District's most significant funds. In the case of the Walton County School District, the General Fund, the District-wide Capital Projects Fund, and the Debt Service Fund are the most significant funds.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements. Additionally, other supplementary information (not required) is also presented that further supplements understanding of the financial statements.

District-Wide Statements

The District-wide financial statements are basically a consolidation of the entire District's operating funds into two columns, one called governmental activities and the other business-type activities. In reviewing the District-wide financial statements, a reader might ask the question, are we in a better financial position than last year. The Statement of Net Position and the Statement of Activities provides the basis for answering this question. These financial statements include all District's assets, deferred outflows of resources, deferred inflows of resources, and liabilities and uses the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and any changes in net position. The change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the results of many factors, including those not under the School District's control, such as the property tax base, facility conditions, required educational programs and other factors.

The Statement of Net Position and the Statement of Activities reflects the School District's governmental activities and the business-type activities.

Fund Financial Statements

The School District uses many funds to account for a multitude of financial transactions during the fiscal year. However, the fund financial statements presented in this report provide detail information about only the School District's significant or major funds.

Governmental Funds - Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using the modified accrual method of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The differences between governmental activities (reported in the

Statement of Net Position and the Statement of Activities) and governmental funds are reconciled to the financial statements. The basic governmental fund financial statements can be found on pages 16-18 of this report.

Proprietary Fund - When the School District charges customers for the services it provides-whether to outside customers or to other units of the School District, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the School District's enterprise fund (a type of proprietary fund) is the same as the business-type activities we report in the government-wide statements but provide more detail and additional information, such as cash flows, for proprietary fund. The School District's Fuel Center Fund, is used to account for the operations of the School District's fuel center, and is included in the proprietary fund group as an enterprise fund. The proprietary fund statements begin on page 20.

Fiduciary Funds - The School District is the trustee, or fiduciary, for assets that belong to others, such as school clubs and organizations within the principals' accounts. The School District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The School District excludes these activities from the district-wide financial statements because it cannot use these assets to finance its operations.

THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE

Recall that the Statement of Net Position provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net position for this fiscal year.

Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting these services. Table 3 shows, for governmental activities, the total cost of services and the net cost of services. Net cost of services can be defined as the total cost less fees generated by the activities and intergovernmental revenue provided for specific programs. The net cost reflects the financial burden on the School District's taxpayers by each activity.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS

The School District's governmental funds are accounted for using the modified accrual basis of accounting. The governmental funds had total revenues and other financing sources of approximately $174.8 million and total expenditures and other financing uses of approximately $171.7 million.

General Fund

The School District's budget is prepared according to Georgia Law. The most significant budgeted fund is the General Fund. During the course of fiscal year 2020, the School District amended its General Fund budgeted as needed. For the General Fund, the actual revenues of approximately $133.2 million came over the final budgeted amounts of approximately $132.1 million by approximately $1.1 million. This difference was primarily due to State and Federal grants, local revenue and taxes obtained throughout the year. The final actual expenditures of approximately $130.6 million came under the final budgeted amount of approximately $131.8 million by approximately $1.2 million.

The fund balance of the School District's General Fund increased by $1.4 million or 5.6%, during the 2020 fiscal year. This increase was due to the QBE midyear adjustment from the state.

District-wide Capital Projects

The fund balance of the District-wide Capital Project Fund increased by $1.5 million, during the 2020 fiscal year. This was attributed to State funds from GSFIC for Loganville High School.

Debt Service

The fund balance of the Debt Service Fund decreased by $280,699 during the 2020 fiscal year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At fiscal year ended June 30, 2020, the School District had approximately $252.4 million invested in capital assets, all in governmental activities. Table 4 reflects a summary of these balances net of accumulated depreciation.

Table 4
Capital Assets
(Net of Depreciation)

	Governmental Activities Fiscal Year 2020	Governmental Activities Fiscal Year 2019
Land	$ 16,547,869	$ 16,547,869
Construction in Progress	14,177,181	5,509,052
Buildings and Improvements	218,016,631	220,929,758
Equipment	3,681,217	2,705,325
Total	$252,422,898	$245,692,004

Additional information on the School District's Capital Assets can be found in Note 6.

Debt

At fiscal year ended June 30, 2020, the School District had approximately $263.5 million in long-term liabilities outstanding. Table 5 summarizes the School District's debt for general obligation bonds and premium on bonds sold.

Table 5
Debt at June 30

	Governmental Activities Fiscal Year 2020	Governmental Activities Fiscal Year 2019
General Obligation Bonds	$ 32,130,000	$ 36,620,000
Bond Premium	2,335,981	3,124,999
Capital Leases	81,900	101,595
Net Pension Liability	133,986,359	115,607,062
Net OPEB Liability	92,882,715	94,284,062
Claims Payable	922,408	664,753
Compensated Absences	1,130,350	848,222
Total	$263,469,713	$251,250,693

Additional information on the School District's Debt can be found in Note 9.

CURRENT ISSUES

Currently known facts, decisions or conditions that are expected to have a significant effect on financial positions or results of operations:

- Capital Improvements - The School District plans capital improvements as future capital needs arise due to increased student population and facility repair and maintenance needs. Renovations and additions are completed at Loganville High School and Bay Creek Elementary renovations are expected to be completed the summer of 2021. Renovations at Walnut Grove Elementary School are expected to begin the summer of 2021. Specific capital expenditure plans are formalized in conjunction with Educational Local Option Sales Tax (ELOST) and anticipated annual receipts of capital outlay funds from the Georgia Department of Education. The School District regularly monitors anticipated capital outlay needs. The current ELOST began January 1, 2018 and will end December 31, 2022.

- The COVID 19 pandemic has not significantly impacted the District, however its full effects are not yet known and the District will continue to monitor its impact.

CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Mr. Harry S. Lee, Chief Financial Officer, at Walton County School District, 200 Double Springs Church Road, Monroe, Georgia 30656. You may also email your question to Mr. Lee at hlee@walton.k12.ga.us.

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds.	
Cost	309,872,736
Less accumulated depreciation	(57,449,838)
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred inflows of resources in the governmental funds.	
Property taxes	189,027
Sales taxes	1,034,567
The net pension liability is not due and payable in the current period and is therefore not reported in governmental funds, along with related amounts.	
Net pension liability	(133,986,359)
Deferred outflows of resources - pension items	38,126,077
Deferred inflows of resources - pension items	(3,289,253)
The net OPEB liability is not due and payable in the current period and is therefore not reported in governmental funds, along with related amounts.	
Net OPEB liability	(92,882,715)
Deferred outflows of resources - OPEB items	8,734,886
Deferred inflows of resources - OPEB items	(23,356,000)
Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the governmental funds.	
Bonds	(32,130,000)
Bonds premium, net of amortization	(2,335,981)
Deferred charge on refunding	2,180,289
Claims payable	(922,408)
Accrued interest	(680,031)
Compensated absences	(1,130,350)
Capital leases	(81,900)
Net position of governmental activities	$ 52,846,627

The accompanying notes are an integral part of these financial statements.

WALTON COUNTY SCHOOL DISTRICT

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2020

Amounts reported for governmental activities in the statement of activities are different because:		
Net change in fund balances - total governmental funds		$ 3,032,029
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The amount by which capital outlays exceeded depreciation is as follows:		
Capital outlay	$ 11,246,016	
Depreciation expense	(4,031,624)	7,214,392
The effect of disposals of capital assets is to decrease net position.		(483,498)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds.		
Property taxes		(194,501)
Sales taxes		1,034,567
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.		
Principal payments - bonds	$ 4,490,000	
Principal payments - capital leases	19,695	
Bond premium amortization expense	789,018	
Amortization on deferred charge on refunded general obligation debt	(421,992)	4,876,721
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
Change in compensated absences	$ (282,128)	
Claims payable	(257,655)	
Pension expense	(6,059,385)	
OPEB expense	(146,000)	
Change in accrued interest	93,542	(6,651,626)
Change in net position of governmental activities		$ 8,828,084

The accompanying notes are an integral part of these financial statements.

NOTES TO BASIC FINANCIAL STATEMENTS

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Walton County School District ("School District") was established under the laws of the State of Georgia and operates under the guidance of a school board ("Board of Education") elected by the voters and a Superintendent appointed by the Walton County School District. The School District is organized as a separate legal entity and has the power to levy taxes and issue bonds. Its budget is not subject to approval by any other entity. Accordingly, the School District is a primary government and consists of all the organizations that compose its legal entity.

Basis of Presentation

The School District's basic financial statements are collectively comprised of the District-wide financial statements, fund financial statements and notes to the basic financial statements of the Walton County School District.

District-wide Statements:
The Statement of Net Position and the Statement of Activities display information about the financial activities of the overall School District, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions are reported separately from Business-type activities, which rely to a significant extent on fees and charges for support. Agency funds are excluded from the District-wide Statements.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the School District's governmental activities, as well as the business-type activities.

- Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses (expenses of the School District related to the administration and support of the School District's programs, such as office and maintenance personnel and accounting) are not allocated to programs.

- Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation (Continued)

In the Statement of Net Position, equity is reported as net position and consists of amounts invested in capital assets, net of related debt, amounts restricted by outside parties for specific purposes and unrestricted amounts. The net investment in capital assets is calculated as follow:

Capital assets, net of depreciation	$	252,422,898
Less:		
Bonds payable		(34,465,981)
Contracts (retainage) payable		(738,196)
Capital leases payable		(81,900)
Plus deferred charge on refunding		2,180,289
	$	219,317,110

Fund Financial Statements:
The fund financial statements provide information about the School District's funds, including fiduciary funds. Eliminations have been made to minimize the double counting of internal activities. Separate statements for each category (governmental, proprietary, and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The School District reports the following major governmental funds:

- *General Fund* is the School District's primary operating fund. It accounts for all financial resources of the School District, except those resources required to be accounted for in another fund.

- *District-Wide Capital Projects Fund* accounts for financial resources including Special Purpose Local Option Sales Tax (SPLOST), Bond Proceeds and grants from Georgia State Financing and Investment Commission to be used for the acquisition, construction or renovation of major capital facilities.

- *Debt Service Fund* accounts for taxes (property and sales) legally restricted for the payment of general long-term principal, interest and paying agent's fees.

The School District reports the following fund types:

- *Special Revenue Funds* account for revenues and the related expenditures from restricted or committed sources, such as federal and state grants or restricted donations made to the School District.

- *Enterprise funds* account for operations that provide services to other departments and other governmental entities on a cost reimbursement basis. The School District uses an enterprise fund to account for the School District’s fuel center as the primary users are external entities.

- *Agency Fund* accounts for assets held by the School District as an agent for various clubs or school groups.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting/Measurement Focus

The basis of accounting determines when transactions are reported on the financial statements. The District-wide governmental, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Agency funds are custodial in nature and do not present results of operations or have a measurement focus. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the School District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, sales taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from sales taxes is recognized in the fiscal year in which the underlying transaction (sale) takes place. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The School District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Property taxes and sales taxes are recognized as revenue in the period for which they were levied, if they are collected within sixty days of year end. All other revenues reported in the governmental funds are considered to be available if they are collected within one year after year-end. Property taxes, sales taxes, intergovernmental revenues, and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities and acquisitions under capital leases are reported as other financing sources.

Revenue from grants and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting/Measurement Focus (Continued)

The State of Georgia reimburses the School District for teachers' salaries and operating costs through the Quality Basic Education (QBE) Formula Earnings program. State of Georgia law defines the formula driven grant that determines the cost of an academic school year and the State of Georgia's share in this cost. Generally teachers are contracted for the school year (July 1 – June 30) and paid over a twelve month contract period, generally September 1 through August 31. In accordance with the requirements of the enabling legislation of the QBE program, the State of Georgia reimburses the School District over the same twelve month period in which teachers are paid, funding the academic school year expenditures. At June 30, the amount of teachers' salaries incurred but not paid until July and August of the subsequent year are accrued as the State of Georgia has only postponed the final payment of their share of the cost until the subsequent appropriations for cash management purposes. By June 30 of each year, the State of Georgia has a signed appropriation that includes this final amount, which represents the State of Georgia's intent to fund this final payment. Based on guidance in Government Accounting Standards Board (GASB) Statement No. 33, paragraph 74, the State of Georgia recognizes its QBE liability for the July and August salaries at June 30, and the School District recognizes the same QBE as a receivable and revenue, consistent with symmetrical recognition.

The School District funds certain programs by a combination of specific cost-reimbursement grants, categorical grants, and general revenues. Thus, when program costs are incurred, there are both restricted and unrestricted net position available to finance the program. It is the School District's policy to first apply grant resources to such programs, followed by cost-reimbursement grants, then general revenues.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the enterprise fund is charges to customers for sales and services provided. Operating expenses for the enterprise fund include the cost of sales and services and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition in authorized financial institutions. The Official Code of Georgia Annotated Section 45-8-14 authorizes the School District to deposit its funds in one or more solvent banks or insured Federal Savings and Loan Associations.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments

The local government investment pool, "Georgia Fund 1," created by OCGA 36-83-8, is a stable asset value investment pool, which follows Standard and Poor's criteria for AAAf rated money market funds and is regulated by the Georgia Office of the State Treasurer. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal ($1 per share value). The asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participant's shares sold and redeemed based on $1 per share. The pool also adjusts the fair value of its investments to fair market value as of year-end and the District's investment in Georgia Fund 1 is reported at fair value. The regulatory oversight agency for Georgia Fund 1 is the State Treasurer of the State of Georgia. As of June 30, 2020, the District considers amounts held in Georgia Fund 1 as cash equivalents for financial statement presentation.

Receivables

Receivables consist of amounts due from property and sales taxes, grant reimbursements due on Federal, State or other grants for expenditures made but not reimbursed and other receivables disclosed from information available. Receivables are recorded when either the asset or revenue recognition criteria has been met.

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year as well as all other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, represent long-term borrowing arrangements with established repayment schedules, and are offset by non-spendable fund balance in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property Taxes

The Walton County Tax Commissioner approved the property tax levy for the 2019 tax digest year (calendar year) on August 13, 2019 (levy date). Taxes were due on November 15, 2019 (lien date). Taxes collected within the current fiscal year or within 60 days after year-end on the 2019 tax digest are reported as revenue in the governmental funds for fiscal year 2020. The Walton County Tax Commissioner bills and collects the property taxes for the School District, withholds 2.5% of taxes collected as a fee for tax collection and remits the balance of taxes collected to the School District.

The Georgia Constitution, Article VIII, Section VI, Paragraph I requires the board of education of each school system to annually certify to its fiscal authority or authorities a school tax not greater than 20 mills per dollar for the support and maintenance of education (operations). The Walton County School District is in compliance with this law. Tax millage rates levied for the 2019 tax year (calendar year) for the Walton County School District were as follows (a mill equals $1 per thousand dollars of assessed value):

School Operations	18.6 mills
School Bonds	2.3 mills
Total	20.9 mills

Sales Taxes

Special Purpose Local Option Sales Tax, at the fund reporting level, during the year amounted to $12,450,574 and is to be used for capital outlay for educational purposes or debt service. This sales tax was authorized by local referendum and the sales tax must be re-authorized at least every five years.

Inventories

On the basic financial statements, inventories of donated food commodities used in the preparation of meals are reported at their Federally assigned value and purchased foods inventories are reported at cost (first-in, first-out). The School District uses the consumption method to account for inventories whereby donated food commodities are recorded as an asset and as revenue when received, and expenses/expenditures are recorded as the inventory items are used. Purchased foods are recorded as an asset when purchased and expenses/expenditures are recorded as the inventory items are used.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The prepaid items are recognized on the consumption method.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets

Capital assets purchased, including capital outlay costs, are recorded as expenditures in the fund financial statements at the time of purchase (including ancillary charges). On the District-wide financial statements, all purchased capital assets are valued at cost where historical records are available and at estimated historical cost based on appraisals or deflated current replacement cost where no historical records exist.

Donated capital assets are recorded at estimated acquisition value on the date donated. Disposals are deleted at depreciated recorded cost. The cost of normal maintenance and repairs that do not add to the value of assets or materially extend the useful lives of the assets is not capitalized. Depreciation is computed using the straight-line method. The School District does not capitalize book collections or works of art.

Capitalization thresholds and estimated useful lives of capital assets reported in the District-wide statements are as follows:

	Capitalization Policy	Estimated Useful Life
Land	$1,000	N/A
Land Improvements	$50,000	20 to 80 years
Buildings and Improvements	$100,000	15 to 80 years
Equipment	$35,000	5 to 50 years
Intangible Assets, software	$100,000	5 to 10 years

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Governmental Activities report five types of deferred outflows of resources related to the reporting of the net pension liability and net OPEB liability. Governmental Activities report (1) the deferred outflow of resources being recognized is the School District's actual contributions to the pension and OPEB plan during the fiscal year ended June 30, 2020 which will be recognized in fiscal year 2021; (2) a deferred outflow of resources for experience gains or losses related to the pension plan which will be amortized over the remaining service period; (3) a deferred outflow of resources for the changes in actuarial assumptions related to the pension plan which will be amortized over the remaining service period; and (4) a deferred outflow of resources for the net difference between projected and actual investment earnings on the OPEB assets which will be amortized over a five year period and (5) a deferred outflow of resources for the difference between the School District's actual contributions towards the pension and OPEB plan and the School District's proportionate share of contributions, which will be amortized over the remaining service period. Another item reported at the governmental activities level is the deferred charge on refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or the refunding debt.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The School District has one type of deferred inflow under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes and sales taxes and these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available. The School District has four items that qualify for reporting in this category which occurs only in the governmental activities. Governmental Activities report (1) a deferred inflow of resources for the difference between the School District's actual contributions towards the pension and OPEB plan and the School District's proportionate share of contributions, which will be amortized over the remaining service period; and (2) a deferred inflow of resources for experience gains or losses from periodic studies by the actuary related to the pension plan and OPEB plan, which will be amortized over the remaining service period; and (3) a deferred inflow of resources for the changes in actuarial assumptions related to the OPEB plan which will be amortized over the remaining service period; and (4) a deferred inflow of resources for the net difference between projected and actual investment earnings on the pension plan assets which will be amortized over a five year period.

Compensated Absences

It is the School District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for non-vesting accumulated rights to receive sick pay benefits since the School District does not have a policy to pay any amounts when employees separate from service with the School District. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Georgia School Employees Postemployment Benefit Fund (School OPEB Fund) and additions to/deductions from the School OPEB Fund's fiduciary net position have been determined on the same basis as they are reported by the School OPEB Fund. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers Retirement System of Georgia (TRS) and additions to/deductions from TRS's fiduciary net position have been determined on the same basis as they are reported by TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Obligation Bonds

The School District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. In addition, general obligation bonds have been issued to refund existing general obligation bonds. Bond issuance costs are recognized in the financial statements during the fiscal year bonds are issued. General obligation bonds are direct obligations and pledge the full faith and credit of the government.

In the fund financial statements, the face amount of debt issued and any related premiums, is reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts and a deferred loss on refunding are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Deferred loss on refunding is reported as a deferred outflow of resources and is amortized over the term of the related debt.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, deferred inflows of resources, and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between the assets, liabilities and deferred inflows of resources under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- ***Nonspendable*** – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.
- ***Restricted*** – Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- ***Committed*** – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Education through the adoption of a resolution. Only the Board of Education may modify or rescind the commitment, also through a resolution.
- ***Assigned*** – Fund balances are reported as assigned when amounts are constrained by the School District's intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the Board of Education has authorized the Superintendent or his or her designee to assign fund balances.
- ***Unassigned*** – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The School District reports positive unassigned fund balance only in the General Fund. Negative unassigned fund balances may be reported in all funds.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the School District's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the School District's policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Equity (Continued)

Net Position – Net position represent the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources in reporting which utilizes the economy resources measurement focus. Net investment capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the School District has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position is reported as unrestricted.

Note 2: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

The School District adopts an annual budget for its General Fund. The budget is prepared in accordance with provisions of the Quality Basic Education Act, OCGA Section 20-2-167 and in accordance with U.S. generally accepted accounting principles. After the Board of Education has tentatively adopted the budget, such budget is advertised at least one time in a local newspaper of general circulation. At the next regular meeting of the Board of Education after advertisement, the budget is revised as necessary and adopted as the final budget. The following functions had excesses of actual expenditures over appropriations in the amount shown for the fiscal year ended June 30, 2020.

	Amount
General Fund	
Instruction	$ 1,273,054
Educational media services	37,129
School administration	77,909
Transfers out	907,647
Grant Fund	
Instruction	2,441,941
Improvement of instructional services	1,069,532
Educational media services	71,663
General administration	233,952
School administration	48,817
Maintenance and operation of plant	20,617
Other support services	747,131
Enterprise operations	74,754
Capital outlay	24,386

Note 3: DEPOSITS AND INVESTMENTS

Deposits

State statutes require all deposits and investments (other than federal or state government instruments) to be covered by depository insurance or pledged securities. Amounts that exceed standard depository insurance limits are required to be collateralized either (1) individually by the financial institutions through pledged obligations of the U.S. Government, obligations backed by the full faith and credit of the U.S. Government, obligations of the State of Georgia or other states, or obligations of counties, municipalities, or public authorities of the State of Georgia, or (2) participation in the State of Georgia Secure Deposit Program. As of June 30, 2020, the financial institution holding all of the School District's deposits is a participant of the State of Georgia Secure Deposit Program, which is administered by the Office of the State Treasurer, requires participating banks holding deposits of public funds to pledge collateral at varying rates depending on tier assigned by the State. As of June 30, 2020, all of the School District's bank balances were insured and/or collateralized as defined by GASB and required by State Statutes.

Custodial credit risk - deposits

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the School District will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. Government, or bonds of public authorities, counties, or municipalities. As of June 30, 2020, the School District's cash accounts and investments were properly collateralized as required by State statutes.

At June 30, 2020, all investments of the School District, totaling $28,506,882, were invested in Georgia Fund 1, the local government investment pool administered by the State of Georgia. The Georgia Fund 1 is an investment pool which does not meet the criteria of GASB Statement No. 79 and is thus valued at fair value in accordance with GASB Statement No. 31. As a result, the School District does not disclose investments in the Georgia Fund 1 within the fair value hierarchy.

Credit risk

Georgia Fund 1, created by OCGA 36-83-8, is a stable asset value investment pool which follows Standard and Poor's criteria for AAAf rated money market funds. Regulatory oversight of the fund is provided by the Georgia Office of the State Treasurer. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal ($1 per share value). The District reports its investment in Georgia Fund 1 as a cash equivalent as of June 30, 2020. As of June 30, 2020 Georgia Fund 1 has a 38 day weighted average maturity.

Note 4: RECEIVABLES

Receivables at June 30, 2020, for the School District's individual major funds and aggregate nonmajor funds, including any applicable allowances for uncollectible accounts are as follows:

	General	District-Wide Capital Projects	Debt Service	Nonmajor Governmental
Receivables:				
Intergovernmental	$ 10,840,189	$ 2,227,435	$ -	$ 2,788,164
Taxes	1,177,941	-	84,503	-
Accounts	3,132	-	-	1,941
Total receivables	12,021,262	2,227,435	84,503	2,790,105
Less allowance for uncollectible	58,897	-	4,226	-
Net total receivable	$ 11,962,365	$ 2,227,435	$ 80,277	$ 2,790,105

Note 5: NON-MONETARY TRANSACTIONS

The School District receives food commodities from the United States Department of Agriculture (USDA) for school breakfast and lunch programs. Commodities usage is recorded at their federally assigned value of $357,632 for the year ended June 30, 2020.

Note 6: CAPITAL ASSETS

The following is a summary of changes in the capital assets during the fiscal year:

	Balance June 30, 2019	Increases	Decreases	Transfers	Balance June 30, 2020
Capital assets not being depreciated					
Land and improvements	$ 16,547,869	$ -	$ -	$ -	$ 16,547,869
Construction in progress	5,509,052	9,596,312	(483,498)	(444,685)	14,177,181
Total capital assets not being depreciated	22,056,921	9,596,312	(483,498)	(444,685)	30,725,050
Capital assets being depreciated					
Buildings and Improvements	261,368,840	107,800	-	444,685	261,921,325
Equipment	16,340,517	1,541,904	(656,060)	-	17,226,361
Total capital assets being depreciated	277,709,357	1,649,704	(656,060)	444,685	279,147,686
Less accumulated depreciation for					
Buildings and Improvements	40,439,082	3,465,612	-	-	43,904,694
Equipment	13,635,192	566,012	(656,060)	-	13,545,144
Total accumulated depreciation	54,074,274	4,031,624	(656,060)		57,449,838
Total capital assets being depreciated, net	223,635,083	(2,381,920)	-	444,685	221,697,848
Total governmental activities capital assets, net	$ 245,692,004	$ 7,214,392	$ (483,498)	$ -	$ 252,422,898

Current year depreciation expense by function is as follows:

Instruction	$ 3,492,025
Support Services:	
Maintenance and operation of plant	6,205
Student transportation services	507,396
Food services operations	25,998
	$ 4,031,624

Note 7: INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. The composition of interfund balances as of June 30, 2020 is as follows:

Receivable fund	Payable fund	Amount
General Fund	Nonmajor governmental funds	$ 445,580

Interfund transfers, the purpose of which is to supplement the operations of the funds, for the year ended June 30, 2020, consisted of the following:

Transfers from	Transfers to	Amount
General Fund	Nonmajor governmental funds	$ 1,284,777

Note 8: RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; job related illness or injuries to employees; and acts of God. The School District has obtained commercial insurance for risk of loss associated with torts, assets, errors or omissions and job related illness or injuries to employees, and acts of God. The School District has neither significantly reduced coverage for these risks nor incurred losses (settlements) which exceeded the School District's insurance coverage in any of the past three years.

The School District has established a limited risk management program for workers' compensation claims. A premium is charged when needed by the General Fund to each user program on the basis of the percentage of that program's payroll to total payroll in order to cover estimated claims budgeted by management based on known claims and prior experience. The School District accounts for claims with expenses/expenditures and liability being reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated, as well as an estimated incurred but unreported amount of claims. An excess coverage insurance policy covers individual claims in excess of $300,000 loss per occurrence, up to the statutory limit.

Changes in the workers' compensation claims liability during the last two fiscal years is as follows:

	Beginning of Year Liability	Claims and Changes in Estimates	Claims Paid	End of Year Liability	Due Within One Year
2019	$ 556,156	$ 699,315	$ 590,718	$ 664,753	$ 664,753
2020	664,753	1,097,928	840,273	922,408	922,408

The School District is self-insured with regard to unemployment compensation claims. The School District accounts for claims within the General Fund with expense/expenditures and liability being reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated.

Note 8: RISK MANAGEMENT (Continued)

Changes in the unemployment compensation claims liability during the prior fiscal year were as follows:

	Beginning of Year	Changes in Estimates	Claims Paid	End of Year
2019	$ -	$ -	$ -	$ -
2020	-	3,144	3,144	-

The School District has purchased a surety bond to provide additional insurance coverage for the Superintendent in the amount of $100,000.

Note 9: LONG-TERM DEBT

The School District has entered into a finance purchase agreement as lessee for a building. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of the future minimum lease payments as of the date of its inception.

The following is a schedule of the future minimum lease payments under the capital lease, and the present value of the net minimum lease payments at June 30, 2020:

Fiscal Year Ending June 30,	
2021	$ 82,948
Total minimum lease payments	82,948
Less amount representing interest	1,048
Present value of future minimum lease payments	81,900
Less current maturities	81,900
Net of current maturities	$ -

As of June 30, 2020, the School District had $829,447 of land and buildings, with associated accumulated depreciation of $102,543, financed under the capital leases. The related depreciation expense for these assets is included in the capital asset depreciation expense.

The School District issued Series 2012 General Obligation Bonds during fiscal year 2012 as a partial refunding of the Series 2005A General Obligation Bonds. The original deferred charge on refunding was $5,626,556 and the economic gain was $3,402,593. General Obligation Bonds currently outstanding are as follows:

Purpose	Interest Rates	Amount
General Obligation – Refunding - Series 2005A	2.00% - 5.25%	$ 32,130,000

Note 9: LONG-TERM DEBT (Continued)

At June 30, 2020, payments due by fiscal year which includes principal and interest, for these items are as follows:

	General Obligation Debt		
	Principal	Interest	Total
Year Ending June 30			
2021	$ 4,740,000	$ 1,513,575	$ 6,253,575
2022	4,975,000	1,270,700	6,245,700
2023	5,210,000	1,018,575	6,228,575
2024	5,450,000	747,763	6,197,763
2025	5,730,000	458,007	6,188,007
2026	6,025,000	155,657	6,180,657
Total Principal and Interest	$ 32,130,000	$ 5,164,277	$ 37,294,277

The changes in Long-Term obligations during the fiscal year ended June 30, 2020, were as follows:

	Beginning Balance	Increases	Deductions	Ending Balance	Due within one year
General Obligation Bonds	$ 36,620,000	$ -	$ (4,490,000)	$ 32,130,000	$ 4,740,000
Premium on bonds	3,124,999	-	(789,018)	2,335,981	-
Net bonds	39,744,999	-	(5,279,018)	34,465,981	4,740,000
Finance purchases	101,595	-	(19,695)	81,900	81,900
Net pension liability	115,607,062	34,302,518	(15,923,221)	133,986,359	-
Net OPEB liability	94,284,062	10,634,936	(12,036,283)	92,882,715	-
Claims payable	664,753	1,097,928	(840,273)	922,408	922,408
Compensated absences	848,222	587,433	(305,305)	1,130,350	1,051,226
Total long-term liabilities	$ 251,250,693	$ 46,622,815	$ (34,403,795)	$ 263,469,713	$ 6,795,534

Compensated absences, claims payable, the net pension liability, and the net OPEB liability are liquidated by the General Fund.

Note 10: ON-BEHALF PAYMENTS

The School District has recognized revenues and costs in the amount of $321,818 for retirement contributions paid on the School District's behalf by the following State Agencies.

Georgia Department of Education
Paid the Teachers Retirement System (TRS)
For Teachers Retirement
In the amount of $44,608

Office of Treasury and Fiscal Services
Paid to the Public School Employees Retirement System (PSERS)
For Public School Employees Retirement Employer's Cost
In the amount of $277,210

Note 11: CONTINGENCIES

The School District is a defendant in various legal proceedings pertaining to matters incidental to the performance of routine School District operations. The ultimate disposition of these proceedings is not presently determinable, but is not believed to be material to the basic financial statements.

The School District participates in numerous State and Federal grant programs, which are governed by various rules and regulations of the grantor agencies.

Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the School District has not complied with the rules and regulations governing the grants, refunds of any amounts received may be required and the collectability of any related receivable at year-end may be impaired. In the opinion of the School District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

The School District has entered into various construction contracts. At year end, the uncompleted and unpaid portion of these contracts totaled $10,174,057.

Note 12: RETIREMENT PLANS

TEACHERS RETIREMENT SYSTEM OF GEORGIA (TRS)

Plan description: All teachers of the School District as defined in §47-3-60 of the *Official Code of Georgia Annotated* (O.C.G.A.) and certain other support personnel as defined by §47-3-63 are provided a pension through the Teachers Retirement System of Georgia (TRS). TRS, a cost-sharing multiple-employer defined benefit pension plan, is administered by the TRS Board of Trustees (TRS Board). Title 47 of the *O.C.G.A.* assigns the authority to establish and amend the benefit provisions to the State Legislature. TRS issues a publicly available financial report that can be obtained at www.trsga.com/publications.

Benefits provided: TRS provides service retirement, disability retirement, and death benefits. Normal retirement benefits are determined as 2% of the average of the employee's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. An employee is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. Ten years of service is required for disability and death benefits eligibility. Disability benefits are based on the employee's creditable service and compensation up to the time of disability. Death benefits equal the amount that would be payable to the employee's beneficiary had the employee retired on the date of death. Death benefits are based on the employee's creditable service and compensation up to the date of death.

Contributions: Per Title 47 of the O.C.G.A., contribution requirements of active employees and participating employers, as actuarially determined, are established and may be amended by the TRS Board. Pursuant to O.C.G.A. §47-3-63, the employer contributions for certain full-time public school support personnel are funded on behalf of the employer by the State of Georgia. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employees were required to contribute 6.00% of their annual pay during fiscal year 2019. The school district's contractually required contribution rate for the year ended June 30, 2020 was 21.14% of annual school district payroll. District contributions to TRS were $16,948,851 for the year ended June 30, 2020.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: At June 30, 2020, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for support provided to the District by the State of Georgia for certain public school support personnel. The amount recognized by the District as its proportionate share of the net pension liability, the related State of Georgia support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	$	133,986,359
State of Georgia's proportionate share of the net pension liability associated with the District		365,761
Total	$	134,352,120

Note 12: RETIREMENT PLANS (Continued)

TEACHERS RETIREMENT SYSTEM OF GEORGIA (TRS) (Continued)

The net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2018. An expected total pension liability as of June 30, 2019 was determined using standard roll-forward techniques. The District's proportion of the net pension liability was based on contributions to TRS during the fiscal year ended June 30, 2019. At June 30 2019, the District's proportion was 0.623114%, which was an increase of 0.000303% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the District recognized pension expense of $23,008,236 and revenue/expense of $109,860 for support provided by the State of Georgia for certain support personnel. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	$ -	$ 3,190,624
Changes in proportion and differences between District contributions and proportionate share of contributions	767,333	58,905
Net difference between expected and actual experience	7,552,154	39,724
Changes in assumption	12,857,739	-
District contributions subsequent to the measurement date	16,948,851	-
Total	$ 38,126,077	$ 3,289,253

District contributions subsequent to the measurement date of $16,948,851 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30:	
2021	$ 7,557,016
2022	1,503,352
2023	4,399,329
2024	4,428,276
Total	$ 17,887,973

Note 12: RETIREMENT PLANS (Continued)

TEACHERS RETIREMENT SYSTEM OF GEORGIA (TRS) (Continued)

Actuarial assumptions: The total pension liability as of June 30, 2019 was determined by an actuarial valuation as of June 30, 2018 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	3.00 – 8.75%, average, including inflation
Investment rate of return	7.25%, net of pension plan investment expense, including inflation
Postretirement benefit Increase	1.50% semi-annually

Postretirement mortality rates were based on the RP-2000 White Collar Mortality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB (set forward one year for males) for service requirements and dependent beneficiaries. The RP-2000 Disabled Mortality table with future mortality improvement projected to 2025 with Society of Actuaries' projection scale BB (set forward two years for males and four years for females) was used for the death after disability retirement. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014.

THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK

Note 12: RETIREMENT PLANS (Continued)

TEACHERS RETIREMENT SYSTEM OF GEORGIA (TRS) (Continued)

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Long-term expected real rate of return*
Fixed income	30.00%	(0.10)%
Domestic large equities	51.00	8.90
Domestic small equities	1.50	13.20
International developed market equities	12.40	8.90
International emerging market equities	5.10	10.90
Total	100.00%	

* Rates shown are net of the 2.50% assumed rate of inflation

Discount rate: The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and State of Georgia contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Note 12: RETIREMENT PLANS (Continued)

TEACHERS RETIREMENT SYSTEM OF GEORGIA (TRS) (Continued)

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

	1% Decrease (6.25%)	Current discount rate (7.25%)	1% Increase (8.25%)
District's proportionate share of the net pension liability	$ 217,499,076	$ 133,986,359	$ 65,309,233

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued TRS financial report which is publically available at www.trsga.com/publications.

Payables to the pension plan

As of June 30, 2020 the District is reporting $2,192,512 in accrued benefits payable for the Teachers Retirement System Plan.

GENERAL INFORMATION ABOUT THE PUBLIC SCHOOL EMPLOYEES RETIREMENT SYSTEM (PSERS)

Plan description: PSERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly in 1969 for the purpose of providing retirement allowances for public school employees who are not eligible for membership in the Teachers Retirement System of Georgia. The ERS Board of Trustees, plus two additional trustees, administers PSERS. Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. PSERS issues a publicly available financial report that can be obtained at www.ers.ga.gov/formspubs/formspubs.

Benefits provided: A member may retire and elect to receive normal monthly retirement benefits after completion of ten years of creditable service and attainment of age 65. A member may choose to receive reduced benefits after age 60 and upon completion of ten years of service.

Note 12: RETIREMENT PLANS (Continued)

GENERAL INFORMATION ABOUT THE PUBLIC SCHOOL EMPLOYEES RETIREMENT SYSTEM (PSERS) (Continued)

Upon retirement, the member will receive a monthly benefit of $15.00, multiplied by the number of years of creditable service. Death and disability benefits are also available through PSERS. Additionally, PSERS may make periodic cost-of-living adjustments to the monthly benefits. Upon termination of employment, member contributions with accumulated interest are refundable upon request by the member. However, if an otherwise vested member terminates and withdraws his/her member contribution, the member forfeits all rights to retirement benefits.

Contributions: The general assembly makes an annual appropriation to cover the employer contribution to PSERS on behalf of local school employees (bus drivers, cafeteria workers, and maintenance staff). The annual employer contribution required by statute is actuarially determined and paid directly to PSERS by the State Treasurer in accordance with O.C.G.A. §47-4-29(a) and 60(b). Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Individuals who became members prior to July 1, 2012 contribute $4 per month for nine months each fiscal year. Individuals who became members on or after July 1, 2012 contribute $10 per month for nine months each fiscal year. The State of Georgia, although not the employer of PSERS members, is required by statute to make employer contributions actuarially determined and approved and certified by the PSERS Board of Trustees.

Pension Liabilities and Pension Expense: At June 30, 2020, the District did not have a liability for a proportionate share of the net pension liability because of the related State of Georgia support. The amount of the State's proportionate share of the net pension liability associated with the District is as follows:

State of Georgia's proportionate share of the Net Pension Liability associated with the District	$ 1,636,795

The net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2018. An expected total pension liability as of June 30, 2019 was determined using standard roll-forward techniques. The State's proportion of the net pension liability associated with the District was based on actuarially determined contributions paid by the State during the fiscal year ended June 30, 2019.

For the year ended June 30, 2020, the District recognized pension expense of $504,768 and revenue of $504,768 for support provided by the State of Georgia.

Note 12: RETIREMENT PLANS (Continued)

GENERAL INFORMATION ABOUT THE PUBLIC SCHOOL EMPLOYEES RETIREMENT SYSTEM (PSERS) (Continued)

***Actuarial assumptions*:** The total pension liability was determined by an actuarial valuation as of June 30, 2018, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increase	N/A
Investment rate of return	7.30%, net of pension plan investment expense, including inflation

Postretirement mortality rates were based on the RP-2000 Blue-Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females) for the period after service retirements and for dependent beneficiaries. The RP-2000 Disabled Mortality projected to 2025 with projection scale BB (set forward 5 years for both males and females) was used for death after disability retirement. There is a margin for future mortality improvement in the tables used by the System. Based on the results of the most recent experience study adopted by the Board on December 17, 2015, the numbers of expected future deaths are 9-11% less than the actual number of deaths that occurred during the study period for healthy retirees and 9-11% less than expected under the selected table for disabled retirees. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014.

Note 12: RETIREMENT PLANS (Continued)

GENERAL INFORMATION ABOUT THE PUBLIC SCHOOL EMPLOYEES RETIREMENT SYSTEM (PSERS) (Continued)

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Long-term expected real rate of return*
Fixed income	30.00%	(0.10)%
Domestic large equities	46.20	8.90
Domestic small equities	1.30	13.20
International developed market equities	12.40	8.90
International emerging market equities	5.10	10.90
Alternatives	5.00	12.00
Total	100.00%	

* Rates shown are net of the 2.75% assumed rate of inflation

Discount rate: The discount rate used to measure the total pension liability was 7.30%. The projection of cash flows used to determine the discount rate assumed that Plan member contributions will be made at the current contribution rate and that employer and nonemployer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Note 13: POSTEMPLOYMENT BENEFITS

GEORGIA SCHOOL PERSONNEL EMPLOYEES POSTEMPLOYMENT HEALTH BENEFIT (OPEB) FUND

Plan Description: The District participates in the State of Georgia School Employees Postemployment Benefit Fund (the School OPEB Fund) which is another postemployment benefit (OPEB) plan administered by the State of Georgia Department of Community Health (DCH). Certified teachers and non-certified employees of the District as defined in §20-2-875 of the Official Code of Georgia Annotated (O.C.G.A.) are provided OPEB through the School OPEB Fund - a cost-sharing multiple-employer defined benefit postemployment healthcare plan, reported as an employee trust fund of the State of Georgia and administered by a Board of Community Health (DCH Board). Title 20 of the O.C.G.A. assigns the authority to establish and amend the benefit terms of the group health plan to the DCH Board. The School OPEB Fund is included in the State of Georgia Comprehensive Annual Financial Report which is publicly available and can be obtained at https://sao.georgia.gov/comprehensive-annual-financial-reports.

Benefits: The School OPEB Fund provides healthcare benefits for retirees and their dependents due under the group health plan for public school teachers, including librarians, other certified employees of public schools, regional educational service agencies, and non-certified public school employees. Retiree medical eligibility is attained when an employee retires and is immediately eligible to draw a retirement annuity from Employees' Retirement System (ERS), Georgia Judicial Retirement System (JRS), Legislative Retirement System (LRS), Teachers Retirement System (TRS) or Public School Employees Retirement System (PSERS). If elected, dependent coverage starts on the same day as retiree coverage. Medicare-eligible retirees are offered Standard and Premium Medicare Advantage plan options. Non-Medicare eligible retiree plan options include Health Reimbursement Arrangement (HRA), Health Maintenance Organization (HMO) and a High Deductible Health Plan (HDHP). The School OPEB Fund also pays for administrative expenses of the fund. By law, no other use of the assets of the School OPEB Fund is permitted.

Contributions: As established by the Board of Community Health, the School OPEB Fund is substantially funded on a pay-as-you-go basis; that is, annual cost of providing benefits will be financed in the same year as claims occur. Contributions required and made to the School OPEB Fund from the District were $2,530,237 for the year ended June 30, 2020. Active employees are not required to contribute to the School OPEB Fund.

NOTE 13: POSTEMPLOYMENT BENEFITS (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020, the District reported a liability of $92,882,715 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2019. The total OPEB liability used to calculate the net OPEB liability was based on an actuarial valuation as of June 30, 2018. An expected total OPEB liability as of June 30, 2019 was determined using standard roll-forward techniques. The District's proportion of the net OPEB liability was actuarially determined based on employer contributions to the School OPEB Fund during the fiscal year ended June 30, 2019. At June 30 2019, the District's proportion was 0.756858%, which was an increase of 0.015030% from its proportion measured as of June 30, 2019.

For the year ended June 30, 2020, the District recognized OPEB expense of $2,676,237. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on OPEB plan investments	$ 202,270	$ -
Changes in proportion and differences between Board contributions and proportionate share of contributions	2,776,743	157,799
Changes in plan assumptions	3,225,636	13,093,529
Differences between expected and actual experience	-	10,104,672
Board contributions subsequent to the measurement date	2,530,237	-
Total	$ 8,734,886	$ 23,356,000

District contributions subsequent to the measurement date of $2,530,237 are reported as deferred outflows of resources and will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ending June 30:	
2021	$ (3,969,987)
2022	(3,969,987)
2023	(3,977,763)
2024	(3,344,167)
2025	(1,612,411)
2026	(277,036)
Total	$ (17,151,351)

NOTE 13: POSTEMPLOYMENT BENEFITS (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Actuarial assumptions: The total OPEB liability as of June 30, 2019 was determined by an actuarial valuation as of June 30, 2018 using the following actuarial assumptions and other inputs, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2019:

Inflation	2.75%
Salary Increases	TRS – 3.25-7.00%, including inflation PSERS – N/A
Long-term expected rate of return	7.30%, compounded annually, net of investment expense, and including inflation
Municipal bond index rate	3.58%
Healthcare cost trend rate:	
Pre-Medicare eligible	7.25%
Medicare eligible	5.375%
Ultimate trend rate	
Pre-Medicare eligible	4.75%
Medicare eligible	4.75%
Year of ultimate trend rate	
Pre-Medicare eligible	2028
Medicare eligible	2022

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale BB as follows:

- For TRS Members: The RP-2000 White Collar Mortality Table projected to 2025 with projection scale BB (set forward 2 years for both males and females) was used for death after service retirement and beneficiaries. The RP-2000 Disabled Mortality Table projected to 2025 with projection scale BB (set back 7 years for males and forward 3 years for females) was used for death after disability retirement.

- For PSERS Members: The RP-2000 Blue Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females) was used for the period after service retirement and for beneficiaries of deceased members. The RP-2000 Disabled Mortality Table projected to 2025 with projection scale BB (set forward 5 years for both males and females) was used for the period after disability retirement.

NOTE 13: POSTEMPLOYMENT BENEFITS (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the pension system, which covered the five-year period ending June 30, 2014.

Projection of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the District and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculation.

Additionally, there was a change that affected measurement of the total OPEB liability since the prior measurement date. The methodology used to determine employee and retiree participation in the School OPEB Fund is based on their current or last employer payroll location. Current and former employees of public school districts, libraries, regional educational service agencies, and community colleges are allocated to the School OPEB Fund irrespective of retirement system affiliation.

The long-term expected rate of return on OPEB plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Long-term expected real rate of return
Fixed Income	30.00%	-0.10%
Domestic Stocks - Large Cap	46.20%	8.90%
Domestic Stocks - Small Cap	1.30%	13.20%
International Stocks - Developed Market	12.40%	8.90%
International Stocks - Emerging Market	5.10%	10.90%
Alternatives	5.00%	12.00%
Total	100.00%	

NOTE 13: POSTEMPLOYMENT BENEFITS (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Discount rate: The discount rate has changed since the prior measurement date from 3.87% to 3.58%. In order to measure the total OPEB liability for the School OPEB Fund, a single equivalent interest rate of 3.58% was used as the discount rate. This is comprised mainly of the yield or index rate for 20 year tax-exempt general obligation municipal bonds with an average rating of AA or higher (3.58% per the Bond Buyer Index). The projection of cash flows used to determine the discount rate assumed that the current sharing of costs between the employer and the member will continue and that contributions from the employer will be made at the current level as averaged over the last five years, adjusted for annual projected changes in headcount. Projected future benefit payments for all current plan members were projected through 2115. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make OPEB payments for inactive employees through year 2028. Therefore, the long-term expected rate of return on OPEB plan investments was applied to discount projected benefit payments until 2028. The discount rate of 3.58% was the single rate which, when applied to all projected benefit payments, resulted in the same present value of benefit payments when the above discussed calculations are combined. The calculated discount rate of 3.58% was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the discount rate: The following presents the District's proportionate share of the net OPEB liability calculated using the discount rate of 3.58%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.58%) or 1-percentage-point higher (4.58%) than the current rate:

	1% Decrease (2.58%)	Current discount rate (3.58%)	1% Increase (4.58%)
District's proportionate share of the net OPEB liability	$ 107,960,372	$ 92,882,715	$ 80,617,718

NOTE 13: POSTEMPLOYMENT BENEFITS (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the healthcare cost trend rate: The following presents the District's proportionate share of the net OPEB liability calculated using the healthcare cost trend rates of 7.25% to 4.75%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (6.25% to 3.75%) or 1-percentage-point higher (8.25% to 5.75%) than the current rates:

	1% Decrease (6.25% to 3.75%)	Current discount rate (7.25% to 4.75%)	1% Increase (8.25% to 5.75%)
District's proportionate share of the net OPEB liability	$ 78,243,847	$ 92,882,715	$ 111,475,188

WALTON COUNTY SCHOOL DISTRICT

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION - TRS

FOR THE FISCAL YEAR ENDED JUNE 30, 2020

***Changes of assumptions*:** In 2010 and later, the expectation of retired life mortality was changed to the RP-2000 Mortality Tables rather than the 1994 Group Annuity Mortality Table, which was used prior to 2010. In 2010, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience. In 2010, assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

***Method and assumptions used in calculations of actuarially determined contributions*:** The actuarially determined contribution rates in the schedule of contributions are calculated as of June 30, three years prior to the end of the fiscal year in which contributions are reported.

WALTON COUNTY SCHOOL DISTRICT

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION - PSERS

FOR THE FISCAL YEAR ENDED JUNE 30, 2020

***Changes of assumptions*:** In 2010 and later, the expectation of retired life mortality was changed to the RP-2000 Mortality Tables rather than the 1994 Group Annuity Mortality Table, which was used prior to 2010. In 2010, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience.

On December 17, 2015, the Board adopted recommended changes to the economic and demographic assumptions utilized by the System. Primary among the changes were the updates to rates of mortality, retirement and withdrawal. The expectation of retired life mortality was changed to the RP-2000 Blue Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females).

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION - OPEB

FOR THE FISCAL YEAR ENDED JUNE 30, 2020

Changes of benefit terms **:** In the June 30, 2010 actuarial valuation, there was a change of benefit terms to require Medicare-eligible recipients to enroll in a Medicare Advantage plan to receive the State subsidy.

Changes in assumptions: In the revised June 30, 2017 actuarial valuation, there was a change relating to employee allocation. Employees were previously allocated based on their Retirement System membership, and currently employees are allocated based on their current employer payroll location.

In the June 30, 2015 actuarial valuation, decremental and underlying inflation assumptions were changed to reflect the Retirement Systems' experience studies.

In the June 30, 2012 actuarial valuation, a data audit was performed and data collection procedures and assumptions

Overlapping rates are those of local and county governments that apply to property owners within the County.

Not all potential overlapping rates apply to all County property owners (e.g., the rates for special districts apply only proportion of the government's property owners whose property is located within the geographic boundaries of the special district.)

WALTON COUNTY SCHOOL DISTRICT

DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT
as of June 30, 2020
(amounts expressed in thousands)

Jurisdiction	Debt Outstanding	Percentage Applicable to Government	Amount Applicable to Government
Direct:			
General Obligation Bonds of School District	$ 34,466	100%	$ 34,466
Capital leases	82	100%	82
Total direct debt	34,548		34,548
Overlapping:			
Walton County:			
Capital leases	10,190	100%	10,190
Intergovernmental contracts (1)	2	100%	2
Total overlapping debt	10,192		10,192
Total Direct and Overlapping	$ 44,740		$ 44,740

Sources: Assessed value data used to estimate applicable percentages provided by the State Department of Revenue. Debt outstanding provided by the School District.

(1) Intergovernmental contracts are general obligations of the issuer to which its full faith and credit and taxing powers are pledged.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the county. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the county. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the county's taxable assessed value that is within the government's boundaries and dividing it by the county's total taxable assessed value.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Superintendent and Members of
the Walton County Board of Education
Monroe, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Walton County Board of Education (the "District"), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 30, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be materail weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other mattesr that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MAULDIN & JENKINS
CPAs & ADVISORS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Superintendent and Members of
the Walton County Board of Education
Monroe, Georgia

Report on Compliance for Each Major Federal Program

We have audited Walton County Board of Education's (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2020. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title *2 U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies, and therefore, material weakness or significant deficiencies may exist that have not been identified. However, as disucssed below, we did identify a certin deficiency in internal control over compliance that we consider to be a material weakness.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

WALTON COUNTY SCHOOL DISTRICT

STATUS OF PRIOR YEAR AUDIT FINDINGS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

2019-001 Budgeted Deficit Fund Balance – Compliance

Criteria: State of Georgia Law (OCGA 20-2-67) prohibits Local School Districts from adopting an unbalanced budget or budgeting for a deficit.

Condition and Context: Management did not adopt a balanced budget for the Grants Fund and budgeted for a deficit.

Status: Finding was resolved during the current year.

2019-002 Allowable Costs/Cost Principles

Program: Title IV (CFDA No. 84.287)
CFDA Program Title: 21st Century Learning
Pass-through Agency: Georgia Department of Education

Criteria: In accordance with the terms of the 21st Century Learning and 2 CFR 200, *Cost Principles for States, Local Governments, and Indian Tribes*, specific documentation must be maintained to support salaries and wages charged to the federal program. Where employees are expected to work solely on a single Federal award or cost objective, charges for their salaries and wages will be supported by periodic certifications that the employees worked solely on that program for the period covered by the certification. These certifications will be prepared at least semi-annually and will be signed by the employee or supervisory official having first-hand knowledge of the work performed by the employee. Where employees work on multiple activities or cost objectives, a distribution of their salaries or wages will be supported by personnel activity reports or equivalent documentation.

Condition and Context: For the fiscal year ended June 30, 2019, internal controls over compliance were not sufficient to ensure the District was properly charging payroll costs which were reimbursed by the 21st Century Learning grant. In our sample of forty (40) employees who were paid with Child Nutrition funds, we noted twelve of the selected employees did not have one or both of the required semi-annual certifications.

Status: Finding was resolved during the current year.
