Honorable Nathan Deal, Governor
Members of the General Assembly
Members of the State Board of Education
and
Superintendent and Members of the
White County Board of Education

INDEPENDENT AUDITOR'S COMBINED REPORT ON BASIC FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION - SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Ladies and Gentlemen:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information (Exhibits A through I) of the White County Board of Education, as of and for the year ended June 30, 2011, which collectively comprise the Board's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the White County Board of Education's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the White County Board of Education, as of June 30, 2011, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The White County Board of Education has not presented Management's Discussion and Analysis that accounting principles generally accepted in the United States of America has determined is necessary to supplement, although not to be part of, the basic financial statements.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 8, 2012, on our consideration of the White County Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual, as presented on page 27, is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the White County Board of Education's financial statements as a whole. The accompanying supplementary information consists of Schedules 2 through 5, which includes the Schedule of Expenditures of Federal Awards as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations,* are presented for purposes of additional analysis and are not a required part of the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

A copy of this report has been filed as a permanent record in the office of the State Auditor and made available to the press of the State, as provided for by Official Code of Georgia Annotated section 50-6-24.

Respectfully submitted,

Greg S. Griffin
State Auditor

WHITE COUNTY BOARD OF EDUCATION
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF
REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITIES
JUNE 30, 2011

EXHIBIT "F"

Total Net Change in Fund Balances - Governmental Funds (Exhibit "E")		$ -5,939,853.87
Amounts reported for Governmental Activities in the Statement of Activities are different because:		
Capital Outlays are reported as expenditures in Governmental Funds. However, in the Statement of Activities, the cost of Capital Assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:		
Capital Outlay	$ 9,629,092.07	
Depreciation Expense	-1,043,147.53	
Excess of Capital Outlay over Depreciation Expense		8,585,944.54
Taxes reported in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.		154,135.85
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, donations, and disposals) is to decrease net assets.		-100,919.54
Bond issuance costs, deferred gains on refundings and similar items when debt is first issued are reported as an expenditure in Governmental Funds, but are reported as deferred charges on the Statement of Net Assets and amortized over the term of the debt, using the straight-line method. The details of this difference in the current period are as follows:		
Amortization of Bond Issuance Costs		-17,605.76
Repayment of Long-Term Debt is reported as an expenditure in Governmental Funds, but the repayment reduces Long-Term Liabilities in the Statement of Net Assets. In the current year, these amounts consist of:		
Amortization of Bond Premium	$ 93,387.58	
Redemption of Principal	3,070,000.00	
Total Long-Term Debt Repayments		3,163,387.58
Change in Net Assets of Governmental Activities (Exhibit "B")		$ 5,845,088.80

The notes to the basic financial statements are an integral part of this statement.

NOTE 1: DESCRIPTION OF SCHOOL DISTRICT AND REPORTING ENTITY

REPORTING ENTITY

The White County Board of Education (School District) was established under the laws of the State of Georgia and operates under the guidance of a school board elected by the voters and a Superintendent appointed by the Board. The Board is organized as a separate legal entity and has the power to levy taxes and issue bonds. Its budget is not subject to approval by any other entity. Accordingly, the School District is a primary government and consists of all the organizations that compose its legal entity.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The School District's basic financial statements are collectively comprised of the District-wide financial statements, fund financial statements and notes to the basic financial statements of the White County Board of Education.

District-wide Statements:

The Statement of Net Assets and the Statement of Activities display information about the financial activities of the overall School District, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the School District's governmental activities.

- Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses (expenses of the School District related to the administration and support of the School District's programs, such as office and maintenance personnel and accounting) are not allocated to programs.
- Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements:

The fund financial statements provide information about the School District's funds, including fiduciary funds. Eliminations have been made to minimize the double counting of internal activities. Separate statements for each category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds.

The School District reports the following major governmental funds:

- General Fund is the School District's primary operating fund. It accounts for and reports all financial resources not accounted for and reported in another fund.
- District-wide Capital Projects Fund accounts for and reports financial resources including Special Purpose Local Option Sales Tax (SPLOST), Bond Proceeds, and grants from Georgia State Financing and Investment Commission that are restricted, committed or assigned to the expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

- Debt Service Fund accounts for and reports financial resources that are restricted, committed, or assigned including taxes (property and sales) legally restricted for the payment of general long-term principal and interest.

The School District reports the following fiduciary fund types:

- Private Purpose Trust fund reports trust arrangements under which principal and income benefit a scholarship.
- Agency funds account for assets held by the School District as an agent for various funds, governments or individuals.

BASIS OF ACCOUNTING

The basis of accounting determines when transactions are reported on the financial statements. The District-wide governmental and fiduciary financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the School District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, sales taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from sales taxes is recognized in the fiscal year in which the underlying transaction (sale) takes place. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The School District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Property taxes, sales taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities are reported as other financing sources.

The School District funds certain programs by a combination of specific cost-reimbursement grants, categorical grants, and general revenues. Thus, when program costs are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the School District's policy to first apply grant resources to such programs, followed by cost-reimbursement grants, then general revenues.

The State of Georgia reimburses the School System for teachers' salaries and operating costs through the Quality Basic Education Formula Earnings program (QBE). Generally teachers are contracted for the school year (July 1 – June 30) and paid over a twelve month contract period, generally September 1 through August 31. In accordance with the respective rules and regulations of the QBE program, the State of Georgia reimburses the School System over the same twelve month period in which teachers are paid. At June 30, the amount of teachers' salaries incurred but not paid until July and August of the subsequent year are accrued. Since the State of Georgia recognizes its QBE liability for the July and August salaries at June 30, the School System recognizes the same QBE as a receivable and revenue, consistent with symmetrical recognition.

NEW ACCOUNTING PRONOUNCEMENTS

In fiscal year 2011, the School District adopted the Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The provisions of this Statement establish accounting and financial reporting standards for all governments that report governmental funds. It establishes criteria for classifying fund balances into specifically defined classifications and clarifies definitions for governmental funds.

RESTATEMENT OF PRIOR YEAR NET ASSETS

For fiscal year 2011, the School District restated various Capital Assets accumulated depreciation balances due to errors and omissions. The result is a decrease in Net Assets at July 1, 2010, of $1,122,309.86. This change is in accordance with generally accepted accounting principles.

Net assets, July 1, 2010 as previously reported	$	45,505,710.41
Adjustment to Accumulated Depreciation		-1,122,309.86
Net assets, July 1, 2010, as restated	$	44,383,400.55

CASH AND CASH EQUIVALENTS

Composition of Deposits

Cash and cash equivalents consist of cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition in authorized financial institutions. Official Code of Georgia Annotated Section 45-8-14 authorizes the School District to deposit its funds in one or more solvent banks, insured Federal savings and loan associations or insured chartered building and loan associations.

INVESTMENTS

Composition of Investments

Investments made by the School District in nonparticipating interest-earning contracts (such as certificates of deposit) and repurchase agreements are reported at cost. Participating interest-earning contracts and money market investments with a maturity at purchase of one year or less are reported at amortized cost. Both participating interest-earning contracts and money market investments with a maturity at purchase greater than one year are reported at fair value. The Official Code of Georgia Annotated Section 36-83-4 authorizes the School District to invest its funds. In selecting among options for investment or among institutional bids for deposits, the highest rate of return shall be the objective, given equivalent conditions of safety and liquidity. Funds may be invested in the following:

1. Obligations issued by the State of Georgia or by other states,
2. Obligations issued by the United States government,
3. Obligations fully insured or guaranteed by the United States government or a United States government agency,
4. Obligations of any corporation of the United States government,
5. Prime banker's acceptances,
6. The Georgia Fund 1 administered by the State of Georgia, Office of the State Treasurer,
7. Repurchase agreements, and
8. Obligations of other political subdivisions of the State of Georgia.

The School District does not have a formal policy regarding investment policies that address credit risks, concentration of credit risks, interest rate risks or foreign currency risks.

RECEIVABLES

Receivables consist of amounts due from property and sales taxes, grant reimbursements due on Federal, State or other grants for expenditures made but not reimbursed and other receivables disclosed from information available. Receivables are recorded when either the asset or revenue recognition criteria has been met. Receivables recorded on the basic financial statements do not include any amounts which would necessitate the need for an allowance for uncollectible receivables.

PROPERTY TAXES

The White County Board of Commissioners fixed the property tax levy for the 2010 tax digest year (calendar year) on July 29, 2010 (levy date). Taxes were due on November 15, 2010 (lien date). Taxes collected within the current fiscal year or within 60 days after year-end on the 2010 tax digest are reported as revenue in the governmental funds for fiscal year 2011. The White County Tax Commissioner bills and collects the property taxes for the School District, withholds 2.5% of taxes collected as a fee for tax collection and remits the balance of taxes collected to the School District. Property tax revenues, at the fund reporting level, during the fiscal year ended June 30, 2011, for maintenance and operations amounted to $15,138,516.65 and for school bonds amounted to $365,797.78.

Tax millage rates levied for the 2010 tax year (calendar year) for the White County Board of Education were as follows (a mill equals $1 per thousand dollars of assessed value):

School Operations	14.650	mills
School Bonds	0.339	mills
	14.989	mills

SALES TAXES

Special Purpose Local Option Sales Tax, at the fund reporting level, during the year amounted to $3,361,732.35 and is to be used for capital outlay for educational purposes or debt service. This sales tax was authorized by local referendum and the sales tax must be re-authorized at least every five years.

INVENTORIES

Food Inventories

On the basic financial statements, inventories of donated food commodities used in the preparation of meals are reported at their Federally assigned value and purchased foods inventories are reported at cost (first-in, first out). The School District uses the consumption method to account for inventories whereby donated food commodities are recorded as an asset and as revenue when received, and expenses/expenditures are recorded as the inventory items are used. Purchased foods are recorded as an asset when purchased and expenses/expenditures are recorded as the inventory items are used.

CAPITAL ASSETS

Capital assets purchased, including capital outlay costs, are recorded as expenditures in the fund financial statements at the time of purchase (including ancillary charges). On the District-wide financial statements, all purchased capital assets are valued at cost where historical records are available and at estimated historical cost based on appraisals or deflated current replacement cost where no historical records exist. Donated capital assets are recorded at estimated fair market value on the date donated. Disposals are deleted at depreciated recorded cost. The cost of normal maintenance and repairs that do not add to the value of assets or materially extend the useful lives of the assets is not capitalized. Depreciation is computed using the straight-line method. The School District does not capitalize book collections or works of art. During the fiscal year under review, no events or changes in circumstances affecting a capital asset that may indicate impairment were known to the School District.

Capitalization thresholds and estimated useful lives of capital assets reported in the District-wide statements are as follows:

	Capitalization Policy	Estimated Useful Life
Land	Any Amount	N/A
Land Improvements	$ 10,000.00	20 years
Buildings and Improvements	$ 10,000.00	10 to 80 years
Equipment	$ 10,000.00	5 to 20 years
Computer Applications	$ 45,000.00	6 years

Depreciation is used to allocate the actual or estimated historical cost of all capital assets over estimated useful lives, with the exception of intangible assets which are amortized.

Amortization of intangible assets such as water, timber, and mineral rights, easements, patents, trademarks, copyrights and internally generated software is computed using the straight-line method over the estimated useful lives of the assets, generally 10 to 20 years.

GENERAL OBLIGATION BONDS

The School District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. In the District-wide financial statements, bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bond issuance costs are reported as deferred charges and amortized over the term of the debt.

In the fund financial statements, the School District recognizes bond premiums and discounts, as well as bond issuance costs during the fiscal year bonds are issued. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. To conform to generally accepted accounting principles, the 2003 Refunding Series, 2006 Series and 2007 Refunding Series general obligation bond issuance costs should be amortized over the life of the bonds on the District-wide statements. The effect of this deviation is deemed to be immaterial to the fair presentation of the basic financial statements. In addition, general obligation bonds have been issued to refund existing general obligation bonds. General obligation bonds are direct obligations and pledge the full faith and credit of the government. The outstanding amount of these bonds is recorded in the Statement of Net Assets.

NET ASSETS

The School District's net assets in the District-wide Statements are classified as follows:

Invested in capital assets, net of related debt - This represents the School District's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.

Restricted net assets - These represent resources for which the School District is legally or contractually obligated to spend resources for bus replacement, continuation of Federal programs, debt service and capital projects in accordance with restrictions imposed by external third parties.

Unrestricted net assets - Unrestricted net assets represent resources derived from property taxes, sales taxes, grants and contributions not restricted to specific programs, charges for services, and miscellaneous revenues. These resources are used for transactions relating to the educational and general operations of the School District, and may be used at the discretion of the Board to meet current expenses for those purposes.

FUND BALANCES

The School District's fund balances are classified as follows:

Nonspendable – Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – Constraints are placed on the use of resources are either (1) externally imposed conditions by creditors, grantors, contributors, or laws and regulations of other governments or (2) imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Education. The Board of Education is the School District's highest level of decision-making authority, and the formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a resolution approved by the Board. Committed fund balance also should incorporate contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts that are constrained by the School District's *intent* to be used for specific purposes, but are neither restricted nor committed. The intent should be expressed by (1) the Board of Education or (2) the budget or finance committee, or the Superintendent, or designee, to assign amounts to be used for specific purposes.

Unassigned – The residual classification for the General Fund. This classification represents fund balances that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

Fund Balances of the Governmental Funds at June 30, 2011, are as follows:

Nonspendable		
Inventories		$ 93,189.96
Restricted		
Continuation of Federal Programs	$ 406,078.71	
Capital Projects	4,953,363.73	
Debt Service	2,113,664.03	7,473,106.47
Assigned		
School Activity Accounts		438,072.01
Unassigned		1,960,934.27
Fund Balance, June 30, 2011		$ 9,965,302.71

When multiple categories of fund balance are available for expenditure, the School District will start with the most restricted category and spend those funds first before moving down to the next category with available funds.

USE OF ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 3: DEPOSITS

COLLATERALIZATION OF DEPOSITS

Official Code of Georgia Annotated (O.C.G.A.) Section 45-8-12 provides that there shall not be on deposit at any time in any depository for a time longer than ten days a sum of money which has not been secured by surety bond, by guarantee of insurance, or by collateral. The aggregate of the face value of such surety bond and the market value of securities pledged shall be equal to not less than 110 percent of the public funds being secured after the deduction of the amount of deposit insurance. If a depository elects the pooled method (O.C.G.A. Section 45-8-13.1) the aggregate of the market value of the securities pledged to secure a pool of public funds shall be not less than 110 percent of the daily pool balance.

Acceptable security for deposits consists of any one of or any combination of the following:

1. Surety bond signed by a surety company duly qualified and authorized to transact business within the State of Georgia,
2. Insurance on accounts provided by the Federal Deposit Insurance Corporation,
3. Bonds, bills, notes, certificates of indebtedness or other direct obligations of the United States or of the State of Georgia,
4. Bonds, bills, notes, certificates of indebtedness or other obligations of the counties or municipalities of the State of Georgia,
5. Bonds of any public authority created by the laws of the State of Georgia, providing that the statute that created the authority authorized the use of the bonds for this purpose,
6. Industrial revenue bonds and bonds of development authorities created by the laws of the State of Georgia, and

7. Bonds, bills, notes, certificates of indebtedness, or other obligations of a subsidiary corporation of the United States government, which are fully guaranteed by the United States government both as to principal and interest or debt obligations issued by or securities guaranteed by the Federal Land Bank, the Federal Home Loan Bank, the Federal Intermediate Credit Bank, the Central Bank for Cooperatives, the Farm Credit Banks, the Federal Home Loan Mortgage Association, and the Federal National Mortgage Association.

CATEGORIZATION OF DEPOSITS

Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District does not have a deposit policy for custodial credit risk. At June 30, 2011, the bank balances were $12,892,546.88. The amounts exposed to custodial credit risk are classified into three categories as follows:

Category 1 - Uncollateralized,
Category 2 - Cash collateralized with securities held by the pledging financial institution, or
Category 3 - Cash collateralized with securities held by the pledging financial institution's trust department or agent but not in the School District's name.

The School District's deposits by custodial risk category at June 30, 2011, are as follows:

Custodial Credit Risk Category	Bank Balance
1	$ 0.00
2	0.00
3	12,585,220.15
Total	$ 12,585,220.15

NOTE 4: NON-MONETARY TRANSACTIONS

The School District receives food commodities from the United States Department of Agriculture (USDA) for school breakfast and lunch programs. These commodities are recorded at their Federally assigned value. See Note 2 - Inventories

NOTE 5: CAPITAL ASSETS

The following is a summary of changes in the Capital Assets during the fiscal year:

	Balances July 1, 2010 (Restated)	Increases	Decreases	Balances June 30, 2011
Governmental Activities				
Capital Assets, Not Being Depreciated:				
Land	$ 2,021,886.00			$ 2,021,886.00
Construction Work In Progress	1,462,541.88	$ 8,603,571.17	$ 554,915.77	9,511,197.28
Total Capital Assets, Not Being Depreciated	$ 3,484,427.88	$ 8,603,571.17	$ 554,915.77	$ 11,533,083.28
Capital Assets, Being Depreciated:				
Buildings and Improvements	$ 49,524,702.13	$ 834,453.25	$ 54,181.59	$ 50,304,973.79
Equipment	6,462,122.75	606,520.49	165,275.49	6,903,367.75
Land Improvements	2,643,738.16	139,462.93	425,877.55	2,357,323.54
Less: Accumulated Depreciation:				
Buildings and Improvements	6,739,148.75	622,668.09	3,134.60	7,358,682.24
Equipment	3,972,881.57	400,747.33	126,049.90	4,247,579.00
Land Improvements	2,378,789.46	19,732.11	415,230.59	1,983,290.98
Total Capital Assets, Being Depreciated, Net	$ 45,539,743.26	$ 537,289.14	$ 100,919.54	$ 45,976,112.86
Governmental Activity Capital Assets - Net	$ 49,024,171.14	$ 9,140,860.31	$ 655,835.31	$ 57,509,196.14

Current year depreciation expense by function is as follows:

Instruction		$ 756,302.06
Support Services		
Pupil Services	$ 26,703.72	
Educational Media Services	5,897.49	
General Administration	11,708.05	
School Administration	16,028.82	
Maintenance and Operation of Plant	5,347.12	
Student Transportation Services	181,410.48	247,095.68
Enterprise Operations		5,670.85
Food Services		34,078.94
		$ 1,043,147.53

NOTE 6: INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2011, consisted of the following:

Transfer to	Transfers From District-wide Capital Projects
General Fund	$ 315,313.11
Debt Service Fund	3,314,138.69
Total	$ 3,629,451.80

Transfers are used (1) to move Special Purpose Local Option Sales Tax (SPLOST) revenues collected by the District-wide Capital Projects Fund to the Debt Service Fund for the current year bond principal and interest payments and (2) to transfer unspent local Capital Project Funds back to the General Fund at project completion.

NOTE 7: RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; job related illness or injuries to employees; acts of God and unemployment compensation.

The School District participates in the Georgia School Boards Association Risk and Insurance Management System, a public entity risk pool organized on July 1, 1994, to develop and administer a plan to reduce risk of loss on account of general liability, motor vehicle liability, or property damage, including safety engineering and other loss prevention and control techniques, and to administer one or more groups of self-insurance funds, including the processing and defense of claims brought against members of the system. The School District pays an annual premium to the system for its general insurance coverage. Additional coverage is provided through agreements by the system with other companies according to their specialty for property, boiler and machinery (including coverage for flood and earthquake), general liability (including coverage for sexual harassment, molestation and abuse), errors and omissions, crime and automobile risks. Payment of excess insurance for the system varies by line of coverage.

The School District is self-insured with regard to unemployment compensation claims. The School District accounts for claims within the General Fund with expenses/expenditures and liability being reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated.

Changes in the unemployment compensation claims liability during the last two fiscal years are as follows:

	Beginning of Year Liability	Claims and Changes in Estimates	Claims Paid	End of Year Liability
2010	$ 0.00	$ 13,065.00	$ 13,065.00	$ 0.00
2011	$ 0.00	$ 14,898.00	$ 14,898.00	$ 0.00

The School District participates in the Georgia School Boards Association Workers' Compensation Fund, a public entity risk pool organized on July 1, 1992, to develop, implement, and administer a program of workers' compensation self-insurance for its member organizations. The School District pays an annual premium to the Fund for its general insurance coverage. Additional insurance coverage is provided through an agreement by the Fund with the Safety National Casualty Corporation to provide coverage for potential losses sustained by the Fund in excess of $500,000.00 loss per occurrence, up to the statutory limit. Employers' Liability insurance coverage is also provided by Safety National Casualty Corporation to provide coverage for potential losses sustained by the Fund in excess of $500,000.00 loss per occurrence, up to $2,000,000.00.

The School District has purchased a surety bond to provide additional insurance coverage as follows:

Position Covered	Amount
Superintendent	$ 50,000.00

NOTE 8: SHORT-TERM DEBT

The School District obtains temporary loans in advance of property tax collections, depositing the proceeds in its General Fund. This short-term debt is to provide cash for operations until property tax collections are received by the School District. Article IX, Section V, Paragraph V of the Constitution of the State of Georgia limits the aggregate amount of short-term debt to 75 percent of the total gross income from taxes collected in the preceding year and requires all short-term debt to be repaid no later than December 31 of the calendar year in which the debt was incurred.

Short-term debt activity for the fiscal year is as follows:

	Beginning Balance	Issued	Redeemed	Ending Balance
Temporary Loans	$ 0.00	$ 3,300,000.00	$ 3,300,000.00	$ 0.00

NOTE 9: LONG-TERM DEBT

GENERAL OBLIGATION DEBT OUTSTANDING

General Obligation Bonds currently outstanding are as follows:

Purpose	Interest Rates	Amount
General Government - Refunding - Series 2003	2.90%	$ 1,830,000.00
General Government - Series 2006	3.6% - 3.73%	4,225,000.00
General Government - Series 2007	3.85%	1,085,000.00
General Government - Series 2010	3.0% - 5.0%	10,000,000.00
		$ 17,140,000.00

Voters have authorized $6,000,000.00 in general obligation debt for designated capital purchases which was not issued as of June 30, 2011.

The changes in Long-Term Debt during the fiscal year ended June 30, 2011, were as follows:

	Governmental Funds				
	Balance July 1, 2010	Additions	Deductions	Balance June 30, 2011	Due Within One Year
G. O. Bonds	$ 20,210,000.00	$ 0.00	$ 3,070,000.00	$ 17,140,000.00	$ 3,190,000.00
Bond Premiums Amortized	747,100.61		93,387.58	653,713.03	93,387.58
	$ 20,957,100.61	$ 0.00	$ 3,163,387.58	$ 17,793,713.03	$ 3,283,387.58

At June 30, 2011, payments due by fiscal year which includes principal and interest for these items are as follows:

	General Obligation Debt		Unamortized
	Principal	Interest	Bond Premium
Fiscal Year Ended June 30:			
2012	$ 3,190,000.00	$ 625,836.60	$ 93,387.58
2013	3,320,000.00	510,847.60	93,387.58
2014	2,495,000.00	391,135.00	93,387.58
2015	1,940,000.00	307,400.00	93,387.58
2016	2,000,000.00	249,200.00	93,387.58
2017 - 2018	4,195,000.00	296,200.00	186,775.13
Total Principal and Interest	$ 17,140,000.00	$ 2,380,619.20	$ 653,713.03

NOTE 10: ON-BEHALF PAYMENTS

The School District has recognized revenues and costs in the amount of $127,944.69 for health insurance and retirement contributions paid on the School District's behalf by the following State Agencies.

Georgia Department of Education
Paid to the Georgia Department of Community Health
For Health Insurance of Non-Certificated Personnel
In the amount of $82,985.68

Paid to the Teachers' Retirement System of Georgia
For Teachers' Retirement System (TRS) Employer's Cost
In the amount of $26,805.01

Office of the State Treasurer
Paid to the Public School Employees' Retirement System
For Public School Employees' Retirement (PSERS) Employer's Cost
In the amount of $18,154.00

NOTE 11: SPECIAL ITEM

In the process of demolishing the existing middle school structure, in order to build a new middle school, assets were retired from the books that had a net book value. These items were leasehold improvements and other items that were permanent components of the middle school building and could not be separated from the structure prior to demolition. The amount of $100,919.54 was recorded as a loss for those assets.

NOTE 12: SIGNIFICANT COMMITMENTS

The following is an analysis of significant outstanding construction or renovation contracts executed by the School District as of June 30, 2011, together with funding available:

Project	Unearned Executed Contracts	Funding Available From State
White County Middle School	$ 5,204,197.90	$ 1,544,191.57

The amounts described in this note are not reflected in the basic financial statements.

NOTE 13: SIGNIFICANT CONTINGENT LIABILITIES

Amounts received or receivable principally from the Federal government are subject to audit and review by grantor agencies. This could result in requests for reimbursement to the grantor agency for any costs which are disallowed under grant terms. The School District believes that such disallowances, if any, will be immaterial to its overall financial position.

The School District is a defendant in various legal proceedings pertaining to matters incidental to the performance of routine School District operations. The ultimate disposition of these proceedings is not presently determinable, but is not believed to be material to the basic financial statements.

NOTE 14: POST-EMPLOYMENT BENEFITS

GEORGIA SCHOOL PERSONNEL POST-EMPLOYMENT HEALTH BENEFIT FUND

Plan Description. The Georgia School Personnel Post-employment Health Benefit Fund (School OPEB Fund) is a cost-sharing multiple-employer defined benefit post-employment healthcare plan that covers eligible former employees of public school systems, libraries and regional educational service agencies. The School OPEB Fund provides health insurance benefits to eligible former employees and their qualified beneficiaries through the State Employees Health Benefit Plan administered by the Department of Community Health. The Official Code of Georgia Annotated (O.C.G.A.) assigns the authority to establish and amend the benefit provisions of the group health plans, including benefits for retirees, to the Board of Community Health (Board). The Department of Community Health, which includes the School OPEB Fund, issues a separate stand alone financial audit report and a copy can be obtained from the Georgia Department of Audits and Accounts.

Funding Policy. The contribution requirements of plan members and participating employers are established by the Board in accordance with the current Appropriations Act and may be amended by the Board. Contributions of plan members or beneficiaries receiving benefits vary based on plan election, dependent coverage, and Medicare eligibility and election. On average, plan members pay approximately 25 percent of the cost of the health insurance coverage.

Participating employers are statutorily required to contribute in accordance with the employer contribution rates established by the Board. The contribution rates are established to fund all benefits due under the health insurance plans for both active and retired employees based on projected "pay-as-you-go" financing requirements. Contributions are not based on the actuarially calculated annual required contribution (ARC) which represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The combined active and retiree contribution rates established by the Board for employers participating in the School OPEB Fund were as follows for the fiscal year ended June 30, 2011:

For certificated teachers, librarians and regional educational service agencies:

July 2010 - April 2011	21.955%	of covered payroll for August - May Coverage
May 2011 - June 2011	1.429%	of covered payroll for June - July Coverage

For non-certificated school personnel:

July 2010 - December 2010	$162.72	per member per month
January 2011 - May 2011	$218.20	per member per month
June 2011	$246.20	per member per month

The Department of Education was appropriated an additional $25,081,633 for non-certificated personnel health insurance payments. The amount attributable to the School District is reflected in the On-behalf note disclosure.

No additional contribution was required by the Board for fiscal year 2011 nor contributed to the School OPEB Fund to prefund retiree benefits. Such additional contribution amounts are determined annually by the Board in accordance with the School plan for other post-employment benefits and are subject to appropriation.

The School District's combined active and retiree contributions to the health insurance plans, which equaled the required contribution, for the current fiscal year and the preceding two fiscal years were as follows:

Fiscal Year	Percentage Contributed	Required Contribution
2011	100%	$ 3,282,512.76
2010	100%	$ 3,669,921.20
2009	100%	$ 2,318,984.76

NOTE 15: RETIREMENT PLANS

TEACHERS' RETIREMENT SYSTEM OF GEORGIA (TRS)

Plan Description. The TRS is a cost-sharing multiple-employer defined benefit plan created in 1943 by an act of the Georgia General Assembly to provide retirement benefits for qualifying employees in educational service. A Board of Trustees comprised of active and retired members and ex-officio State employees is ultimately responsible for the administration of TRS. The Teachers' Retirement System of Georgia issues a separate stand alone financial audit report and a copy can be obtained from the Georgia Department of Audits and Accounts.

On October 25, 1996, the Board created the Supplemental Retirement Benefits Plan of the Georgia Teachers' Retirement System (SRBP-TRS). SRBP-TRS was established as a qualified excess benefit plan in accordance with Section 415 of the Internal Revenue Code (IRC) as a portion of TRS. The purpose of SRBP-TRS is to provide retirement benefits to employees covered by TRS whose benefits are otherwise limited by IRC Section 415. Beginning July 1, 1997, all members and retired former members in TRS are eligible to participate in the SRBP-TRS whenever their benefits under TRS exceed the IRC Section 415 imposed limitation on benefits.

TRS provides service retirement, disability retirement, and survivor's benefits. The benefit structure of TRS is defined and may be amended by State statute. A member is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. A member is eligible for early retirement after 25 years of creditable service.

Normal retirement (pension) benefits paid to members are equal to 2% of the average of the member's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. Early retirement benefits are reduced by the lesser of one-twelfth of 7% for each month the member is below age 60 or by 7% for each year or fraction thereof by which the member has less than 30 years of service. It is also assumed that certain cost-of-living adjustments, based on the Consumer Price Index, will be made in future years. Retirement benefits are payable monthly for life. A member may elect to receive a partial lump-sum distribution in addition to a reduced monthly retirement benefit. Death, disability and spousal benefits are also available.

Funding Policy. TRS is funded by member and employer contributions as adopted and amended by the Board of Trustees. Members become fully vested after 10 years of service. If a member terminates with less than 10 years of service, no vesting of employer contributions occurs, but the member's contributions may be refunded with interest. Member contributions are limited by State law to not less than 5% or more than 6% of a member's earnable compensation. Member contributions as adopted by the Board of Trustees for the fiscal year ended June 30, 2011, were 5.53% of annual salary. The member contribution rate will increase to 6.00% effective July 1, 2012. Employer contributions required for fiscal year 2011 were 10.28% of annual salary as required by the June 30, 2008, actuarial valuation. The employer contribution rate will increase to 11.41% effective July 1, 2012.

Employer contributions for the current fiscal year and the preceding two fiscal years are as follows:

Fiscal Year	Percentage Contributed		Required Contribution
2011	100%	$	2,331,210.10
2010	100%	$	2,137,946.25
2009	100%	$	2,045,707.77

PUBLIC SCHOOL EMPLOYEES' RETIREMENT SYSTEM (PSERS)

Bus drivers, lunchroom personnel, and maintenance and custodial personnel are members of the Public School Employees' Retirement System of Georgia. The System is funded by contributions by the employees and by the State of Georgia. The School District makes no contribution to this plan.

(iv) acquiring, constructing and equipping a new central office facility	600,000.00	627,994.00	154,278.00	473,715.90	Completed
(v) acquiring, constructing and equipping a new gymnasium at the existing intermediate school,	1,200,000.00				Ongoing
(vi) acquiring heating, air conditioning and energy efficiency equipment,	1,706,029.00				Ongoing
(vii) acquiring textbooks and other instructional materials and transportation equipment,	136,000.00	136,000.00	44,466.00		Ongoing
(viii) paying a portion of the principal and interest due on the School District's Series 2003 General Obligation Bonds on August 1, 2013, the maximum amount of such payment not to exceed $320,000.00 (If needed, see 2006 SPLOST above)	320,000.00	320,000.00			Ongoing
	$ 23,000,000.00	$ 17,600,000.00	$ 7,435,090.10	$ 781,615.37	
	$ 28,170,052.00	$ 22,903,864.54	$ 10,194,670.14	$ 3,325,899.87	

(1) The School District's original cost estimate as specified in the resolution calling for the imposition of the Local Option Sales Tax.

(2) The School District's current estimate of total cost for the projects. Includes all cost from project inception to completion.

(3) The voters of White County approved the imposition of a 1% sales tax to fund the above projects and retire associated debt. Amounts expended for these projects may include sales tax proceeds, state, local property taxes and/or other funds over the life of the projects.

(4) In addition to the expenditures shown above, the School District has incurred interest to provide advance funding for the above projects as follows:

Prior Years	$ 1,564,750.49
Current Year	674,965.10
Total	$ 2,239,715.59

(5) In the 2009 Resolution, the School District obtained approval to issue a total of $16,000,000 in general obligation debt. At this time, only $10,000,000.00 of general obligation debt has been issued with a balance of $6,000,000.00 to be issued at the School District's discretion.

(6) The School District tore down the existing middle school and built a new middle school and new middle school gymnasium on the site utilizing some 2006 SPLOST funds and other funds of the District. Amounts shown include only 2006 SPLOST funds.

(7) The School District expended 2006 SPLOST funds and funds from ad valorem tax to pay debt service on the series 2003 Bonds.

See notes to the basic financial statements.

COMPLIANCE AND INTERNAL CONTROL REPORTS

DEPARTMENT OF AUDITS AND ACCOUNTS

270 Washington Street, S.W., Suite 1-156
Atlanta, Georgia 30334-8400

Greg S. Griffin
STATE AUDITOR
(404) 656-2174

October 8, 2012

Honorable Nathan Deal, Governor
Members of the General Assembly
Members of the State Board of Education
and
Superintendent and Members of the
White County Board of Education

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Ladies and Gentlemen:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of White County Board of Education as of and for the year ended June 30, 2011, which collectively comprise White County Board of Education's basic financial statements and have issued our report thereon dated October 8, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of White County Board of Education is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered White County Board of Education's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the White County Board of Education's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the White County Board of Education's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we consider item FS-7541-11-01, described in the accompanying Schedule of Findings and Questioned Costs to be a significant deficiency in internal control over financial reporting. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether White County Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

We noted certain matters that we have reported to management of White County Board of Education in a separate letter dated October 8, 2012.

White County Board of Education's response to the findings identified in our audit is described in the accompanying Schedule of Management's Responses. We did not audit White County Board of Education's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, members of the White County Board of Education, others within the entity, Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

Greg S. Griffin
State Auditor

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Ladies and Gentlemen:

Compliance

We have audited White County Board of Education's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2011. White County Board of Education's major Federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major Federal programs is the responsibility of White County Board of Education's management. Our responsibility is to express an opinion on White County Board of Education's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the White County Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on White County Board of Education's compliance with those requirements.

In our opinion, the White County Board of Education complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2011.

Internal Control Over Compliance

Management of White County Board of Education is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to Federal programs. In planning and performing our audit, we considered White County Board of Education's internal control over compliance with the requirements that could have a direct and material effect on a major Federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the White County Board of Education's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified a certain deficiency in internal control over compliance that we consider to be a material weakness and another deficiency that we consider to be a significant deficiency.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A *material weakness in* internal *control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as item FA-7541-11-01, to be a material weakness.

A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as item FA-7541-11-02, to be a significant deficiency.

White County Board of Education's responses to the findings identified in our audit is described in the accompanying Schedule of Management's Responses. We did not audit White County Board of Education's responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of management, members of the White County Board of Education, others within the entity, Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

Greg S. Griffin
State Auditor

SECTION III

AUDITEE'S RESPONSE TO PRIOR YEAR FINDINGS AND QUESTIONED COSTS

WHITE COUNTY BOARD OF EDUCATION
AUDITEE'S RESPONSE
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2011

PRIOR YEAR FINANCIAL STATEMENT FINDINGS AND QUESTIONED COSTS

No matters were reported.

PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

No matters were reported.

SECTION IV

FINDINGS AND QUESTIONED COSTS

WHITE COUNTY BOARD OF EDUCATION
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2011

I SUMMARY OF AUDITOR'S RESULTS

Financial Statements

Type of auditor's report issue:
Governmental Activities; General Fund; Capital Projects Fund; Debt Service Fund; Aggregate Remaining Fund Information — Unqualified

Internal control over financial reporting:
- Material weakness identified? — No
- Significant deficiency identified? — Yes

Noncompliance material to financial statements noted: — No

Federal Awards

Internal Control over major programs:
- Material weakness identified? — Yes
- Significant deficiency identified? — Yes

Type of auditor's report issued on compliance for major programs:
All major programs — Unqualified

Any audit findings disclosed that are required to be reported in accordance with OMB Circular A-133, Section 510(a)? — Yes

Identification of major programs:

CFDA Numbers	Name of Federal Program or Cluster
10.553, 10.555	Child Nutrition Cluster
84.027, 84.173, 84.391, 84.392	Special Education Cluster
84.410	Education Jobs Fund
84.395	Race-to-the-Top Incentive Grants

Dollar threshold used to distinguish between Type A and Type B programs: $300,000.00

Auditee qualified as low-risk auditee? — No

II FINANCIAL STATEMENT FINDINGS AND QUESTIONED COSTS

CAPITAL ASSETS
Failure to Adequately Maintain Capital Assets
Significant Deficiency
Finding Control Numbers: FS-7541-11-01

Condition:
The School District failed to adequately maintain the capital assets records.

II FINANCIAL STATEMENT FINDINGS AND QUESTIONED COSTS

Criteria:

Chapter 37, *Implementing a Capital Assets Management System,* of the Financial Management for Georgia Local Units of Administration indicates that School Districts must establish fixed asset policies, define system requirements, implement a fixed asset system and maintain fixed asset inventory records.

Questioned Cost:

N/A

Information:

A review of the School District's capital assets records noted the following deficiencies and errors or omissions:

- Based on our analysis, the School District incorrectly calculated its depreciation resulting in an overstatement of capital assets (net). The auditors proposed and the entity accepted an adjusting entry to correct this overstatement in the amounts of $1,058,586.42, $1,122,309.86, and $63,723.44 for capital assets, beginning net assets and depreciation expense, respectively.
- The School District improperly capitalized an item with an acquisition cost below the capitalization threshold of $10,000.00 as determined by the School District's capital assets policy.

Cause:

The School District failed to ensure that adequate accounting procedures were in place to process, record, and report capital assets and related activity.

Effect:

The failure of the School District to accurately calculate depreciation, the value of its intangible assets and to properly capitalize assets in accordance with its policy can lead to inaccurate internal and external reporting, as well as noncompliance with generally accepted accounting principles.

Recommendation:

The School District should review its capital assets records and make appropriate adjustments to ensure that the capital assets are properly maintained and correctly reported.

III FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

ACTIVITIES ALLOWED/UNALLOWED
ALLOWABLE COSTS/COST PRINCIPLES
Time and Attendance Records Not Utilized
Material Weakness
U. S. Department of Education
Through Georgia Department of Education
Race to the Top (CDFA 84.395)
Finding Control Number: FA-7541-11-01

Condition:

A review of salaries charged to the Race to the Top (CDFA 84.395) program revealed that the hours charged to this Federal program, for one split funded employee, were not supported by time and attendance records as required by OMB Circular A-87.

Criteria:

Provisions of the OMB Circular A-87, *Cost Principles for State, Local and Indian Tribal Governments,* Attachment B, *Selected items of Cost*, require that:

"Where employees work on multiple activities or cost objectives, a distribution of their salaries or wages will be supported by personnel activity reports or equivalent documentation that meets the following standards:

(a) They must reflect an after-the-fact distribution of the actual activity of each employee,
(b) They must account for the total activity for which the employee is compensated,
(c) They must be prepared at least monthly and must coincide with one or more pay periods, and
(d) They must be signed by the employee.

Such documentary support will be required where employees work on:

(a) More than one Federal award, or
(b) A Federal award and a non-Federal award"

Questioned Cost:

$18,234.00

Information:

A review of one split-funded employee's time records identified an average time worked on Race to the Top to be 50% with the other 50% of time worked on a non-Federal award. Actual employee compensation charged to the Race to the Top program equated to 97.45% of the employee's annual salary.

Cause:

Management failed to implement controls for monitoring compliance with Federal guidelines to ensure that employee compensation expenses paid from Federal award programs were properly supported by time and attendance documentation.

III FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

Effect:
Failure to adequately monitor compliance related to employee compensation expense paid from Federal award programs could result in material noncompliance with the requirements of this Federal grant.

Recommendation:
The School District should strengthen controls to ensure that employee compensation expenses paid from Federal award programs are allowable and properly documented in accordance with OMB Circular A-87. The Georgia Department of Education should review this matter to determine if a reclaim of funds is appropriate.

ACTIVITIES ALLOWED/UNALLOWED
ALLOWABLE COSTS/COST PRINCIPLES
Expenditures Not Properly Supported
Significant Deficiency
U. S. Department of Agriculture
Through Georgia Department of Education
Child Nutrition Cluster (CFDA 10.553, 10.555)
Finding Control Number: FA-7541-11-02

Condition:
A review of the Child Nutrition Cluster revealed unapproved, undocumented and unsupported expenditures.

Criteria:
OMB Circular A-87, *Cost Principles for State, Local and Indian Tribal Governments*, guidelines require that: "Governmental units assume responsibility for administering Federal funds in a manner consistent with underlying agreements, program objectives, and the terms and conditions of the Federal award. To be allowable under Federal awards, costs must meet the following general criteria:... Be necessary and reasonable for proper and efficient performance and administration of Federal Awards... Be authorized or not prohibited under State and local laws or regulations. Be consistent with policies, regulations, and procedures that apply uniformly to both Federal awards and other activities of the governmental unit... Be adequately documented."

Questioned Cost:
N/A

Information:
A review of expenditures charged to the Child Nutrition Cluster program identified numerous instances of expenditure payments for goods and services that did not show evidence of approval or authorization by appropriate management

Cause:
Management failed to implement internal controls for monitoring compliance with Federal grant requirements and School District policies.

III FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

Effect:

Failure to monitor expenditures for compliance can result in noncompliance with the requirements of the Federal grant.

Recommendation:

The School District should implement procedures to ensure that all expenditures are reviewed and approved by the Program Director for allowability.

SECTION V

MANAGEMENT'S RESPONSES

WHITE COUNTY BOARD OF EDUCATION
SCHEDULE OF MANAGEMENT'S RESPONSES
YEAR ENDED JUNE 30, 2011

Finding Control Number: FS-7541-11-01

We concur with this finding. The Finance department acknowledges that depreciation expense and accumulated depreciation has been calculated incorrectly for many assets since their inception due to misstatement of the useful life of the asset in our SSUI fixed asset program. We recognize that maintaining accurate records is critical and must be corrected. A complete internal audit will be done beginning October 22, 2012 to ensure the accuracy of each asset record. In addition, as part of our conversion from SSUI to CSI software in November of 2012, these assets will be manually entered into the new system to avoid any misstatements that may occur from conversion from the existing database. Procedures have been put in place for the current fiscal year to identify capital purchases on a timely basis for inclusion in the capital asset module. This will facilitate accurate calculation of depreciation expense, ensure compliance with the capitalization thresholds identified in our capital asset policy and result in assets that are properly maintained and correctly reported.

Finding Control Number: FA-7541-11-01

We concur with this finding. The White County School System understands that when employees work on multiple activities or cost objectives, a distribution of their salaries or wages will be supported by personnel activity reports or equivalent documentation that meets state and federally outlined standards. We have implemented controls for monitoring compliance with Federal guidelines to ensure that employee compensation expenses paid from Federal award programs are properly supported by time and attendance documentation. Documentation will be maintained when an employee works on more than one federal award or one federal and one non-federal award that meets the following standards: they will reflect an after the fact distribution of the actual activity of each employee, they will account for the total activity for which the employee was compensated, they will be prepared monthly and coincide with one or more pay periods, and they will be signed by the employee.

Finding Control Number: FA-7541-11-02

We concur with this finding. The Nutrition Department acknowledges that expenditures charged to the Child Nutrition Cluster should have proper documentation and show clear evidence of approval or authorization by the School Nutrition Director. We have implemented controls for approval of invoices to include an approval stamp that will be put on each invoice to allow for coding of the invoice to the appropriate cost center and to facilitate evidence of appropriate approval by the Nutrition Director of both the coding of the expense and the appropriateness of the expenditure under federal award guidelines. There will also be procedures that will allow for batch approval of certain types of invoices where significant volume is present.
