INDEPENDENT AUDITOR'S COMBINED REPORT ON BASIC FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION - SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Ladies and Gentlemen:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information (Exhibits A through H) of the Whitfield County Board of Education, as of and for the year ended June 30, 2010, which collectively comprise the Board's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Whitfield County Board of Education's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Whitfield County Board of Education, as of June 30, 2010, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 6, 2011, on our consideration of the Whitfield County Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of

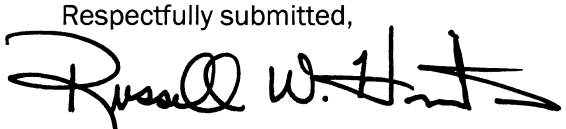

that testing, and not toprovide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual, as presented on pages i through viii and page 25 respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures, to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during the audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Whitfield County Board of Education's financial statements as a whole. The accompanying supplementary information consists of Schedules 2 through 5, which includes the Schedule of Expenditures of Federal Awards as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations,* are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

A copy of this report has been filed as a permanent record in the office of the State Auditor and made available to the press of the State, as provided for by Official Code of Georgia Annotated section 50-6-24.

Respectfully submitted,

Russell W. Hinton, CPA, CGFM

WHITFIELD COUNTY BOARD OF EDUCATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010

INTRODUCTION

Our discussion and analysis of the Whitfield County Board of Education's financial performance provides an overview of the School District's financial activities for the fiscal years ended June 30, 2009 and June 30, 2010. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for the fiscal years 2010 and 2009 are as follows:

- On the District-wide financial statements, the assets of the School District exceeded liabilities by $195.6 million and $184.3 million, respectively, for the fiscal years ended June 30, 2010, and 2009. Of these amounts $10.7 and $12.1 million, respectively, for fiscal years 2010 and 2009 are available for spending at the School District's discretion.

- The School District had $122.5 million and $124.4 million, respectively, in expenses for the fiscal years ended June 30, 2010, and June 30, 2009, relating to governmental activities. Only $82.4 million and $79.8 million of the above mentioned expenses for 2010 and 2009 were offset by program specific charges for services, grants and contributions. General revenues (primarily property and sales taxes) totaling $51.4 million and $54.7 million, respectively, for 2010 and 2009 were adequate to provide for these programs.

- As stated above, general revenues accounted for $51.4 million or 38.5% of all revenues totaling $133.8 million for fiscal year 2010 and $54.7 million or 40.7% of all revenues totaling $134.5 million for fiscal year 2009. Program specific revenues in the form of charges for services, grants and contribution accounted for the rest.

Overview of the Financial Statements

This annual report consists of three parts; management's discussion and analysis, the basic financial statements and required supplementary information. The basic financial statements include two levels of statements that present different views of the School District. These include the District-wide and fund financial statements.

The District-wide financial statements include the Statement of Net Assets and Statement of Activities. These statements provide information about the activities of the School District presenting both short-term and long-term information about the School District's overall financial status.

The fund financial statements focus on individual parts of the School District, reporting the School District's operation in more detail. The Governmental Funds statements disclose how basic services are financed in the short-term as well as what remains for future spending. The Fiduciary Funds statements provide information about the financial relationships in which the School District acts solely as a trustee or agent for the benefit of others. The fund financial statements reflect the School District's most significant funds. In the case of the Whitfield County School District, the General Fund, District-wide Capital Projects Fund, and Debt Service Fund are the most significant funds.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements. Additionally, other supplementary information (not required) is also presented that further supplements understanding of the financial statements.

District-wide Statements

The District-wide financial statements are basically a consolidation of all of the School District's operating funds into one column called governmental activities. In reviewing the District-wide financial statements, a reader might ask the question, are we in a better financial position than last year? The Statement of Net Assets and the Statement of Activities provides the basis for answering this question. These financial statements include all School District's assets and liabilities and uses the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net assets and any changes in those assets. The change in net assets is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the results of many factors, including those not under the School District's control, such as the property tax base, facility conditions, required educational programs and other factors.

The Statement of Net Assets and the Statement of Activities reflects the School District's governmental activities.

Fund Financial Statements

The School District uses many funds to account for a multitude of financial transactions during the fiscal year. However, the fund financial statements presented in this report provide detail information about only the School District's significant or major funds.

Governmental Funds - Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using the **modified accrual method of accounting,** which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The differences between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds are reconciled to the financial statements.

Fiduciary Funds - The School District is the trustee, or fiduciary, for assets that belong to others, such as school clubs and organizations within the principals' accounts. The School District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The School District excludes these activities from the District-wide financial statements because it cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE

Recall that the Statement of Net Assets provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net assets for fiscal years 2010 and 2009.

Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting these services. Table 3 shows, for governmental activities, the total cost of services and the net cost of services. Net cost of services can be defined as the total cost less fees generated by the activities and intergovernmental revenue provided for specific programs. The net cost reflects the financial burden on the School District's taxpayers by each activity.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS

The School District's governmental funds are accounted for using the modified accrual basis of accounting. The governmental funds had total revenues of $133.3 million and total expenditures of $147.8 million for fiscal year 2010 and total revenues of $133.9 million and total expenditures of $156.4 million for fiscal year 2009. The decrease in expenditures is due to a decrease in ESPLOST activity.

General Fund Budgeting Highlights

The School District's budget is prepared according to Georgia Law. The most significant budgeted fund is the General Fund. During the course of fiscal years 2010 and 2009, the School District amended its general fund budget as needed.

During fiscal year 2010, the General Fund had final actual revenues totaling $116.8 million, which was more than the final budgeted amounts of $114.0 million by $2.8 million. This difference (final actual vs. final budget) was primarily due to conservative budgeting. Property and sales taxes (Intangible and Real Estate taxes) exceeded budgeted revenues $1.3 million due to conservative budgeting. State revenues were less than budgeted revenues $8.6 million due to slowing revenue collections. Federal revenue collections exceeded budgeted revenues $7.1 million primarily due to the receipt of Federal stimulus funding (American Reinvestment and Recovery Act). The American Recovery and Reinvestment Act of 2009, abbreviated ARRA and commonly referred to as the Stimulus or The Recovery Act, is an economic stimulus package enacted by the 111th United States Congress in February 2009 and signed into law on February 17, 2009 by President Barack Obama. The primary objective for ARRA was to save and create jobs almost immediately. Secondary objectives were to provide temporary relief programs for those most impacted by the recession and invest in infrastructure, education, health, and 'green' energy. The ARRA funds helped offset the declines in state revenue. Miscellaneous revenues exceeded budgeted revenues $2.7 due to unbudgeted revenues from school activity accounts of $2.6 million. Investment revenue is primarily derived from our investment of cash in the State's Local Government Investment Pool (LGIP). The rate of return continues to decrease as a result of declining interest rates.

During fiscal year 2009, the General Fund had final actual revenues totaling $118.5 million, which was less than the final budgeted amounts of $119.7 million by $1.2 million. This difference (final actual vs. final budget) was primarily due to a reduction in revenues due to a slowing economy. Property and sales taxes (Intangible and Real Estate taxes) exceeded budgeted revenues $1.4 million due to conservative budgeting. State revenues were less than budgeted revenues $6.9 million due to slowing revenue collections. Federal revenue collections exceeded budgeted revenues $1.2 million primarily due to American Recovery and Reinvestment Funds (ARRA). Miscellaneous revenues exceeded budgeted revenues $2.8 due to unbudgeted revenues from school activity accounts of $2.5 million. Investment revenue is primarily derived from our investment of cash in the State's Local Government Investment Pool (LGIP). The rate of return decreased as a result of the slow economy.

During the fiscal year 2010, the General Fund had final actual expenditures totaling $115.9 million, which was less than the final budgeted amount of $118.1 million by $2.2 million. Instructional budget exceeded actual expenses $1.7 million due to conservative budgeting. The total expenditures include unbudgeted expenditures from school activity accounts of $3.2 million.

During the fiscal year 2009, the General Fund had final actual expenditures totaling $118.2 million, which was less than the final budgeted amount of $121.6 million by $3.4 million. Instructional budget exceeded actual expenses $4.0 million due to conservative budgeting. The total expenditures include unbudgeted expenditures from school activity accounts of $3.0 million.

During the fiscal year 2010, the General Fund transferred to the Capital Projects Fund $2.2 million for the purpose of providing sewer service to the new high school under construction through an intergovernmental agreement with Dalton Utilities.

General fund expenditures exceeded revenues and other financing uses resulting in a deficit of $1,329,916 for the fiscal year 2010. General fund expenditures exceeded revenues and other financing uses resulting in a deficit of $155,569 for the fiscal year 2009.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the fiscal years ended June 30, 2010 and June 30, 2009, the School District had $174.7 million and $160.0 million, respectively, invested in capital assets, all in governmental activities. Table 4 reflects a summary of these balances net of accumulated depreciation. The district completed the construction of Cedar Ridge Elementary School and renovation of Dug Gap Elementary School funded through ESPLOST. An Athletic Facility was constructed at Westside Middle School funded by a donation from a member of the Westside community.

Table 4
Capital Assets

Land Improvements	5,057,881	5,172,501
Total	$ 174,738,144	$ 160,002,109

In accordance with the 2006 referendum pass by 2/3's of the voters, the School District has numerous construction projects in progress including a new elementary and high school, additions and renovations.

Debt

At the fiscal years ending June 30, 2010 and June 30, 2009, the School District had $68.5 million and $78.2 million, respectively, in bonds outstanding. Table 5 summarizes the School District's debt for general obligation bonds.

Bond Premium Amortized	3,089,691	3,541,840
Total	$ 71,847,523	$ 82,090,448

At June 30, 2010 and June 30, 2009, the School District's assigned bond rating was "Aa1" as determined by Moody's Investors Services, Inc.

Current Issues

Currently known facts, decisions or conditions that are expected to have a significant effect on financial positions or results of operations.

- Economic Recession – decreases in total State funding for education have been forecasted as a result of slowing state tax revenues. Whitfield County Schools continues to prioritize its educational programs and seek opportunities for gained efficiencies within its resources to meet the growing demands of our customers. The School District continues to provide an increasing amount of local monies to meet various mandated educational requirements. Whitfield County School District remains optimistic about the ability of the School District to maximize all of the financial resources to provide a quality education to our students.

- Capital Improvements - The School District will continue to meet its obligation to the citizens of Whitfield County in accordance with the 2006 ESPLOST referendum. This referendum includes plans for renovations, classroom technology, new elementary and high schools and other capital needs that may arise.

CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT

NOTE 1: DESCRIPTION OF SCHOOL DISTRICT AND REPORTING ENTITY

REPORTING ENTITY

The Whitfield County Board of Education (School District) was established under the laws of the State of Georgia and operates under the guidance of a school board elected by the voters and a Superintendent appointed by the Board. The Board is organized as a separate legal entity and has the power to levy taxes and issue bonds. Its budget is not subject to approval by any other entity. Accordingly, the School District is a primary government and consists of all the organizations that compose its legal entity.

The Whitfield County Career Academy (Charter School) is responsible for the public education of all students attending its school. The Charter School was created through a contract between the School District and the Charter School whereby all State funding associated with the students attending the Charter School and certain specified local funds are turned over to the Charter School to cover the cost of its operations. The financial statements of the Charter School have been included with the School District's general fund.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The School District's basic financial statements are collectively comprised of the District-wide financial statements, fund financial statements and notes to the basic financial statements of the Whitfield County Board of Education.

District-wide Statements:
The Statement of Net Assets and the Statement of Activities display information about the financial activities of the overall School District, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the School District's governmental activities.

- Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses (expenses of the School District related to the administration and support of the School District's programs, such as office and maintenance personnel and accounting) are not allocated to programs.

- Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements:
The fund financial statements provide information about the School District's funds, including fiduciary funds. Eliminations have been made to minimize the double counting of internal activities. Separate statements for each category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The School District reports the following major governmental funds:

- General Fund is the School District's primary operating fund. It accounts for all financial resources of the School District, except those resources required to be accounted for in another fund.

- District-wide Capital Projects Fund accounts for financial resources including Special Purpose Local Option Sales Tax (SPLOST), Bond Proceeds, and grants from Georgia State Financing and Investment Commission to be used for the acquisition, construction or renovation of major capital facilities.

- Debt Service Fund accounts for taxes (sales) legally restricted for the payment of general long-term principal, interest and paying agent's fees.

The School District reports the following fiduciary fund type:

- Agency funds account for assets held by the School District as an agent for various school activity accounts and flexible spending accounts.

BASIS OF ACCOUNTING

The basis of accounting determines when transactions are reported on the financial statements. The District-wide governmental and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the School District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, sales taxes, and grants. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from sales taxes is recognized in the fiscal year in which the underlying transaction (sale) takes place. Revenue from grants is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The School District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Property taxes, sales taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, compensated absences and claims and judgments, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities are reported as other financing sources.

The School District funds certain programs by a combination of specific cost-reimbursement grants, categorical grants, and general revenues. Thus, when program costs are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the School District's policy to first apply grant resources to such programs, followed by cost-reimbursement grants, then general revenues.

The State of Georgia reimburses the School District for teachers' salaries and operating costs through the Quality Basic Education Formula Earnings program (QBE). Generally teachers are contracted for the school year (July 1 - June 30) and paid over a twelve month contract period, generally September 1 through August 31. In accordance with the respective rules and regulations of the QBE program, the State of Georgia reimburses the School District over the same twelve month period in which teachers are paid. At June 30, the amount of teachers' salaries incurred but not paid until July and August of the subsequent year are accrued. Since the State of Georgia recognizes its QBE liability for the July and August salaries at June 30, the School District recognizes the same QBE as a receivable and revenue, consistent with symmetrical recognition.

NEW ACCOUNTING PRONOUNCEMENTS

In fiscal year 2010, the School District adopted the Governmental Accounting and Standards Board (GASB) Statement No. 51, *Accounting and Reporting for Intangible Assets*. The provisions of this Statement generally require retroactive reporting for intangible assets acquired after June 30, 1980, with the exception of those intangible assets that have indefinite useful lives and those that are considered internally generated.

In addition, the School District adopted GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*. The provisions of this Statement impacts disclosure regarding derivative instruments entered into by the state and local governments. Derivative disclosures, if any, will be identified in Note 3.

CASH AND CASH EQUIVALENTS

Composition of Deposits

Cash and cash equivalents consist of cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition in authorized financial institutions. Official Code of Georgia Annotated Section 45-8-14 authorizes the School District to deposit its funds in one or more solvent banks, insured Federal savings and loan associations or insured chartered building and loan associations.

INVESTMENTS

Composition of Investments

Investments made by the School District in nonparticipating interest-earning contracts (such as certificates of deposit) and repurchase agreements are reported at cost. Participating interest-earning contracts and money market investments with a maturity at purchase of one year or less are reported at amortized cost. Both participating interest-earning contracts and money market investments with a maturity at purchase greater than one year are reported at fair value. The Official Code of Georgia Annotated Section 36-83-4 authorizes the School District to invest its funds. In selecting among options for investment or among institutional bids for deposits, the highest rate of return shall be the objective, given equivalent conditions of safety and liquidity. Funds may be invested in the following:

1. Obligations issued by the State of Georgia or by other states,
2. Obligations issued by the United States government,
3. Obligations fully insured or guaranteed by the United States government or a United States government agency,

4. Obligations of any corporation of the United States government,
5. Prime banker's acceptances,
6. The Georgia Fund 1 administered by the State of Georgia, Office of Treasury and Fiscal Services,
7. Repurchase agreements, and
8. Obligations of other political subdivisions of the State of Georgia.

The School District does not have a formal policy regarding investment policies that address credit risks, custodial credit risks, concentration of credit risks, interest rate risks or foreign currency risks.

RECEIVABLES

Receivables consist of amounts due from property and sales taxes, grant reimbursements due on Federal, State or other grants for expenditures made but not reimbursed and other receivables disclosed from information available. Receivables are recorded when either the asset or revenue recognition criteria has been met. Receivables recorded on the basic financial statements do not include any amounts which would necessitate the need for an allowance for uncollectible receivables.

PROPERTY TAXES

The Whitfield County Board of Commissioners fixed the property tax levy for the 2009 tax digest year (calendar year) on November 7, 2009 (levy date). Taxes were due on January 8, 2010 (lien date). Taxes collected within the current fiscal year or within 60 days after year-end on the 2009 tax digest are reported as revenue in the governmental funds for fiscal year 2010. The Whitfield County Tax Commissioner bills and collects the property taxes for the School District, withholds 2.5% of taxes collected as a fee for tax collection and remits the balance of taxes collected to the School District. Property tax revenues, at the fund reporting level, during the fiscal year ended June 30, 2010, for maintenance and operations amounted to $25,885,771.44.

The tax millage rate levied for the 2009 tax year (calendar year) for the Whitfield County Board of Education was as follows (a mill equals $1 per thousand dollars of assessed value):

School Operations	14.756 mills

SALES TAXES

Special Purpose Local Option Sales Tax, at the fund reporting level, during the year amounted to $11,701,762.99 and is to be used for capital outlay for educational purposes or debt service. This sales tax was authorized by local referendum and the sales tax must be re-authorized at least every five years.

INVENTORIES

Consumable Supplies

On the basic financial statements, inventories of consumable supplies are reported at cost (first-in, first-out). The School District uses the consumption method to account for inventories whereby consumable supplies are recorded as an asset when purchased and expense/expenditure are recorded as the inventory items are used.

Food Inventories

On the basic financial statements, inventories of donated food commodities used in the preparation of meals are reported at their Federally assigned value and purchased foods inventories are reported at cost (first-in, first-out). The School District uses the consumption method to account for inventories whereby donated food commodities are recorded as an asset and as revenue when received, and expenses/expenditures are recorded as the inventory items are used. Purchased foods are recorded as an asset when purchased and expenses/expenditures are recorded as the inventory items are used.

CAPITAL ASSETS

Capital assets purchased, including capital outlay costs, are recorded as expenditures in the fund financial statements at the time of purchase (including ancillary charges). On the District-wide financial statements, all purchased capital assets are valued at cost where historical records are available and at estimated historical cost based on appraisals or deflated current replacement cost where no historical records exist. Donated capital assets are recorded at estimated fair market value on the date donated. Disposals are deleted at depreciated recorded cost. The cost of normal maintenance and repairs that do not add to the value of assets or materially extend the useful lives of the assets is not capitalized. Depreciation is computed using the straight-line method. The School District does not capitalize book collections or works of art. During the fiscal year under review, no events or changes in circumstances affecting a capital asset that may indicate impairment were known to the School District.

Capitalization thresholds and estimated useful lives of capital assets reported in the District-wide statements are as follows:

	Capitalization Policy	Estimated Useful Life
Land	All	N/A
Land Improvements	$ 20,000.00	15 years
Buildings and Improvements	$ 100,000.00	70 years
Equipment	$ 10,000.00	10 to 12 years

Depreciation is used to allocate the actual or estimated historical cost of all capital assets over estimated useful lives.

COMPENSATED ABSENCES

Members of the Teachers Retirement System of Georgia (TRS) may apply unused sick leave toward early retirement. The liability for early retirement will be borne by TRS rather than by the individual school districts. Otherwise, sick leave does not vest with the employee, and no liability is reported in the School District's financial statements.

Vacation leave of 10 days is awarded on a fiscal year basis to all full time personnel employed on a twelve month basis. No other employees are eligible to earn vacation leave. Vacation leave not utilized during the fiscal year may be carried over to the next fiscal year, providing such vacation leave does not exceed 15 days. At the end of September, all vacation leave in excess of 15 days is forfeited.

	Beginning of Year Liability	Increases	Decreases	End of Year Liability
2008	$ 256,445.57	$ 221,053.72	$ 193,962.43	$ 283,536.86
2009	$ 283,536.86	$ 212,984.23	$ 192,913.26	$ 303,607.83

GENERAL OBLIGATION BONDS

The School District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. In the District-wide financial statements, bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. The School District recognizes bond issuance costs during the fiscal year bonds are issued. To conform to generally accepted accounting principles, bond issuance costs should be amortized over the life of the bonds on the District-wide statements. The effect of this deviation is deemed to be immaterial to the fair presentation of the basic financial statements. In the fund financial statements, the School District recognizes bond premiums and discounts, as well as bond issuance costs during the fiscal year bonds are issued. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. General obligation bonds are direct obligations and pledge the full faith and credit of the government. The outstanding amount of these bonds is recorded in the Statement of Net Assets.

NET ASSETS

The School District's net assets in the District-wide Statements are classified as follows:

Invested in capital assets, net of related debt - This represents the School District's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.

Restricted net assets - These represent resources for which the School District is legally or contractually obligated to spend resources for continuation of Federal Programs, debt service and capital projects in accordance with restrictions imposed by external third parties.

Unrestricted net assets - Unrestricted net assets represent resources derived from property taxes, sales taxes, grants and contributions not restricted to specific programs, charges for services, and miscellaneous revenues. These resources are used for transactions relating to the educational and general operations of the School District, and may be used at the discretion of the Board to meet current expenses for those purposes.

USE OF ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 3: DEPOSITS AND INVESTMENTS

COLLATERALIZATION OF DEPOSITS

Official Code of Georgia Annotated (O.C.G.A.) Section 45-8-12 provides that there shall not be on deposit at any time in any depository for a time longer than ten days a sum of money which has not been secured by surety bond, by guarantee of insurance, or by collateral. The aggregate of the face value of such surety bond and the market value of securities pledged shall be equal to not less than 110 percent of the public funds being secured after the deduction of the amount of deposit insurance. If a depository elects the pooled method (O.C.G.A. Section 45-8-13.1) the aggregate of the market value of the securities pledged to secure a pool of public funds shall be not less than 110 percent of the daily pool balance.

Acceptable security for deposits consists of any one of or any combination of the following:

1. Surety bond signed by a surety company duly qualified and authorized to transact business within the State of Georgia,
2. Insurance on accounts provided by the Federal Deposit Insurance Corporation,
3. Bonds, bills, notes, certificates of indebtedness or other direct obligations of the United States or of the State of Georgia,
4. Bonds, bills, notes, certificates of indebtedness or other obligations of the counties or municipalities of the State of Georgia,
5. Bonds of any public authority created by the laws of the State of Georgia, providing that the statute that created the authority authorized the use of the bonds for this purpose,
6. Industrial revenue bonds and bonds of development authorities created by the laws of the State of Georgia, and
7. Bonds, bills, notes, certificates of indebtedness, or other obligations of a subsidiary corporation of the United States government, which are fully guaranteed by the United States government both as to principal and interest or debt obligations issued by or securities guaranteed by the Federal Land Bank, the Federal Home Loan Bank, the Federal Intermediate Credit Bank, the Central Bank for Cooperatives, the Farm Credit Banks, the Federal Home Loan Mortgage Association, and the Federal National Mortgage Association.

CATEGORIZATION OF DEPOSITS

Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. At June 30, 2010, the bank balances were $93,115,930.19. The bank balances were entirely covered by Federal depository insurance or collateralized with securities held by the pledging financial institution's trust department or agent in the School District's name.

CATEGORIZATION OF INVESTMENTS

The School District's investments as of June 30, 2010, are presented below. All investments are presented by investment type and debt securities are presented by maturity.

Investment Type	Fair Value	Investment Maturity Less than 1 Year
Debt Securities		
U. S. Treasuries	$ 44.33	$ 44.33
Investment Pools		
Office of Treasury and Fiscal Services		
Georgia Fund 1	5,365,358.37	
Total Investments	$ 5,365,402.70	

The Georgia Fund 1, formerly referred to as LGIP, administered by the State of Georgia, Office of Treasury and Fiscal Services is not required to be categorized since the School District did not own any specific identifiable securities in the pool. The investment policy of the State of Georgia, Office of Treasury and Fiscal Services for the Georgia Fund 1 (Primary Liquidity Portfolio) does not provide for investment in derivatives or similar investments. Additional information on the Georgia Fund 1 is disclosed in the *State of Georgia* Comprehensive Annual Financial Report. This audit can be obtained from the Georgia Department of Audits and Accounts at http://www.audits.ga.gov/SGD/cafr.html.

The Primary Liquidity Portfolio consists of Georgia Fund 1 which is not registered with the SEC as an investment company but does operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940. The investment is valued at the pool's share price, $1.00 per share. The pool is an AAAm rated investment pool by Standard and Poor's. The weighted average maturity of Georgia Fund 1 may not exceed 60 days. The weighted average maturity for Georgia Fund 1 on June 30, 2010, was 46 days.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates of debt investment will adversely affect the fair value of an investment. The School District does not have a formal policy for managing interest rate risk.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the School District will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. The School District does not have a formal policy for managing custodial credit risk.

At June 30, 2010, $44.33 of the School District's applicable investments were (1) uninsured and unregistered, with securities held by the counterparty's trust department or agent in the name of the School District and (2) uninsured or unregistered, with securities held by the counterparty, or by its trust department or agent, but not in the School District's name.

Credit Quality Risk

Credit quality risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The School District does not have a formal policy for managing credit quality risk.

NOTE 4: NON-MONETARY TRANSACTIONS

The School District receives food commodities from the United States Department of Agriculture (USDA) for school breakfast and lunch programs. These commodities are recorded at their Federally assigned value. See Note 2 - Inventories

Transfers are used (1) to move SPLOST funds from Capital Projects to Debt Service for bond payments and, (2) to move local funds from the General Fund to Capital Projects for local building projects.

NOTE 7: RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; job related illness or injuries to employees; acts of God and unemployment compensation.

The School District participates in the Georgia School Boards Association Risk and Insurance Management System, a public entity risk pool organized on July 1, 1994, to develop and administer a plan to reduce risk of loss on account of general liability, motor vehicle liability, or property damage, including safety engineering and other loss prevention and control techniques, and to administer one or more groups of self-insurance funds, including the processing and defense of claims brought against members of the system. The School District pays an annual premium to the system for its general insurance coverage. Additional coverage is provided through agreements by the system with other companies according to their specialty for property, boiler and machinery (including coverage for flood and earthquake), general liability (including coverage for sexual harassment, molestation and abuse), errors and omissions, crime and automobile risks. Payment of excess insurance for the system varies by line of coverage.

The School District has established a limited risk management program for workers' compensation claims. In connection with this program, a self-insurance reserve has been established within the General Fund by the School District. The School District accounts for claims within the General Fund with expenses/expenditures and liability being reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated. An excess coverage insurance policy covers individual claims in excess of $250,000.00 loss per occurrence, up to the statutory limit.

Changes in the workers' compensation claims liability during the last two fiscal years are as follows:

	Beginning of Year Liability	Claims and Changes in Estimates	Claims Paid	End of Year Liability
2009	$ 465,194.10	$ 842,727.52	$ 347,003.46	$ 960,918.16
2010	$ 960,918.16	$ 122,234.90	$ 302,595.31	$ 780,557.75

The School District is self-insured with regard to unemployment compensation claims. The School District accounts for claims within the General Fund with expenses/expenditures and liability being reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated.

Changes in the unemployment compensation claims liability during the last two fiscal years are as follows:

	Beginning of Year Liability	Claims and Changes in Estimates	Claims Paid	End of Year Liability
2009	$ 0.00	$ 8,555.54	$ 8,555.54	$ 0.00
2010	$ 0.00	$ 115,792.00	$ 115,792.00	$ 0.00

The School District has purchased surety bonds to provide additional insurance coverage as follows:

Position Covered	Amount
Superintendent	$ 100,000.00
All Other Employees	$ 100,000.00

NOTE 8: OPERATING LEASES

Whitfield County Board of Education has entered into various leases as lessee for office equipment and mobile units. These leases are considered for accounting purposes to be operating leases. Lease expenditures for the year ended June 30, 2010, for governmental funds amounted to $332,377.04. Future minimum lease payments for these leases are as follows:

Year Ending	Governmental Funds
2011	$ 332,443.68
2012	164,526.86
Total	$ 496,970.54

NOTE 9: LONG-TERM DEBT

COMPENSATED ABSENCES

Compensated absences represent obligations of the School District relating to employees' rights to receive compensation for future absences based upon service already rendered. This obligation relates only to vesting accumulating leave in which payment is probable and can be reasonably estimated. Typically, the General Fund is the fund used to liquidate this long-term debt. The School District uses the vesting method to compute compensated absences.

GENERAL OBLIGATION DEBT OUTSTANDING

General Obligation Bonds currently outstanding are as follows:

Purpose	Interest Rates	Amount
General Government - Series 2006	3.610%	$ 9,910,000.00
General Government - Series 2009	2.50% - 5.00%	58,570,000.00
		$ 68,480,000.00

The changes in Long-Term Debt during the fiscal year ended June 30, 2010, were as follows:

	Governmental Funds				
	Balance July 1, 2009	Additions	Deductions	Balance June 30, 2010	Due Within One Year
G. O. Bonds	$ 78,245,000.00		$ 9,765,000.00	$ 68,480,000.00	$ 10,145,000.00
Compensated Absences (1)	303,607.83	$ 185,557.24	211,332.92	277,832.15	
Bond Premiums Amortized	3,541,840.30		452,149.80	3,089,690.50	452,149.80
	$ 82,090,448.13	$ 185,557.24	$ 10,428,482.72	$ 71,847,522.65	$ 10,597,149.80

(1) The portion of Compensated Absences due within one year has been determined to be immaterial to the basic financial statements.

At June 30, 2010, payments due by fiscal year which includes principal and interest for these items are as follows:

	General Obligation Debt		Unamortized
	Principal	Interest	Bond Premium
Fiscal Year Ended June 30:			
2011	$ 10,145,000.00	$ 2,811,476.00	$ 452,149.80
2012	10,540,000.00	2,304,226.00	452,149.80
2013	8,805,000.00	1,855,976.00	452,149.80
2014	9,160,000.00	1,557,188.50	452,149.80
2015	9,540,000.00	1,305,288.50	452,149.80
2016 - 2017	20,290,000.00	1,239,877.00	828,941.50
Total Principal and Interest	$ 68,480,000.00	$ 11,074,032.00	$ 3,089,690.50

NOTE 10: ON-BEHALF PAYMENTS

The School District has recognized revenues and costs in the amount of $223,426.48 for health insurance and retirement contributions paid on the School District's behalf by the following State Agencies.

Georgia Department of Education
Paid to the Georgia Department of Community Health
For Health Insurance of Non-Certified Personnel
In the amount of $153,001.01

Paid to the Teachers Retirement System of Georgia
For Teachers Retirement System (TRS) Employer's Cost
In the amount of $27,705.13

Office of Treasury and Fiscal Services
Paid to the Public School Employees Retirement System
For Public School Employees Retirement (PSERS) Employer's Cost
In the amount of $42,720.34

NOTE 11: SIGNIFICANT COMMITMENTS

The following is an analysis of significant outstanding construction or renovation contracts executed by the School District as of June 30, 2010, together with funding available:

Project	Unearned Executed Contracts	Funding Available From State
Career Academy	$ 346,618.00	
Eastbrook Middle School	1,284,125.00	
New High School	17,242,929.47	$ 460,463.50
	$ 18,873,672.47	$ 460,463.50

The amounts described in this note are not reflected in the basic financial statements.

NOTE 12: SIGNIFICANT CONTINGENT LIABILITIES

Amounts received or receivable principally from the Federal government are subject to audit and review by grantor agencies. This could result in requests for reimbursement to the grantor agency for any costs which are disallowed under grant terms. The School District believes that such disallowances, if any, will be immaterial to its overall financial position.

The School District is a defendant in various legal proceedings pertaining to matters incidental to the performance of routine School District operations. The ultimate disposition of these proceedings is not presently determinable, but is not believed to be material to the basic financial statements.

NOTE 13: POST-EMPLOYMENT BENEFITS

GEORGIA SCHOOL PERSONNEL EMPLOYEES POST-EMPLOYMENT HEALTH BENEFIT FUND

Plan Description. The Georgia School Personnel Post-employment Health Benefit Fund (School OPEB Fund) is a cost-sharing multiple-employer defined benefit post-employment healthcare plan that covers eligible former employees of public school systems, libraries and regional educational service agencies. The School OPEB Fun provides health insurance benefits to eligible former employees and their qualified beneficiaries through the State Employees Health Insurance Plan administered by the Department of Community Health. The Official Code of Georgia Annotated (OCGA) assigns the authority to establish and amend the benefit provisions of the group health plans, including benefits for retirees, to the Board of Community Health (Board).

Funding Policy. The contribution requirements of plan members and participating employers are established by the Board in accordance with the current Appropriations Act and may be amended by the Board. Contributions of plan members or beneficiaries receiving benefits vary based on plan election, dependent coverage, and Medicare eligibility and election. On average, plan members pay approximately 25 of the cost of health insurance coverage.

Participating employers are statutorily required to contribute in accordance with the employer contribution rates established by the Board. The contribution rates are established to fund all benefits due under the health insurance plans for both active and retired employees based on projected "pay-as-you-go" financing requirements. Contributions are not based on the actuarially calculated annual required contribution (ARC) which represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The combined active and retiree contribution rates established by the Board for employers participating in the School OPEB Fund were as follows for the fiscal year ended June 30, 2010:

For certificated teachers, librarians and regional educational service agencies:

July 2009	18.534%	of covered payroll for August Coverage
August 2009 - October 2009	14.492%	of covered payroll for September - November Coverage
November 2009 - June 2010	18.534%	of covered payroll for December - July Coverage

For non-certificated school personnel:

July 2009 - June 2010	$162.72	per member per month plus Department of Education contribution of $22,838,311.00

No additional contribution was required by the Board for fiscal year 2010 nor contributed to the State OPEB Fund to prefund retiree benefits. Such additional contribution amounts are determined annually by the Board in accordance with the State plan for other post-employment benefits and are subject to appropriation.

The School District's combined active and retiree contributions to the health insurance plans, which equaled the required contribution, for the current fiscal year and the preceding two fiscal years were as follows:

Fiscal Year	Percentage Contributed	Required Contribution
2010	100%	$ 10,774,149.96
2009	100%	$ 7,759,012.74
2008	100%	$ 10,711,828.84

NOTE 14: RETIREMENT PLANS

TEACHERS RETIREMENT SYSTEM OF GEORGIA (TRS)

Plan Description. The TRS is a cost-sharing multiple-employer defined benefit plan created in 1943 by an act of the Georgia General Assembly to provide retirement benefits for qualifying employees in educational service. A Board of Trustees comprised of active and retired members and ex-officio State employees is ultimately responsible for the administration of TRS. The Teachers Retirement System of Georgia issues a separate stand alone financial audit report and a copy can be obtained from the Georgia Department of Audits and Accounts.

On October 25, 1996, the Board created the Supplemental Retirement Benefits Plan of the Georgia Teachers Retirement System (SRBP-TRS). SRBP-TRS was established as a qualified excess benefit plan in accordance with Section 415 of the Internal Revenue Code (IRC) as a portion of TRS. The purpose of SRBP-TRS is to provide retirement benefits to employees covered by TRS whose benefits are otherwise limited by IRC Section 415. Beginning July 1, 1997, all members and retired former members in TRS are eligible to participate in the SRBP-TRS whenever their benefits under TRS exceed the IRC Section 415 imposed limitation on benefits.

TRS provides service retirement, disability retirement, and survivor's benefits. The benefit structure of TRS is defined and may be amended by State statute. A member is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. A member is eligible for early retirement after 25 years of creditable service.

Normal retirement (pension) benefits paid to members are equal to 2% of the average of the member's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. Early retirement benefits are reduced by the lesser of one-twelfth of 7% for each month the member is below age 60 or by 7% for each year or fraction thereof by which the member has less than 30 years of service. It is also assumed that certain cost-of-living adjustments, based on the Consumer Price Index, will be made in future years. Retirement benefits are payable monthly for life. A member may elect to receive a partial lump-sum distribution in addition to a reduced monthly retirement benefit. Death, disability and spousal benefits are also available.

Funding Policy. TRS is funded by member and employer contributions as adopted and amended by the Board of Trustees. Members become fully vested after 10 years of service. If a member terminates with less than 10 years of service, no vesting of employer contributions occurs, but the member's contributions may be refunded with interest. Member contributions are limited by State law to not less than 5% or more than 6% of a member's earnable compensation. Member contributions as adopted by the Board of Trustees for the fiscal year ended June 30, 2010, were 5.25% of annual salary. The member contribution rate will increase to 5.53% effective July 1, 2010. Employer contributions required for fiscal year 2010 were 9.74% of annual salary as required by the June 30, 2007, actuarial valuation. The employer contribution rate will increase to 10.28% effective July 1, 2010.

Employer contributions for the current fiscal year and the preceding two fiscal years are as follows:

Fiscal Year	Percentage Contributed		Required Contribution
2010	100%	$	6,730,783.20
2009	100%	$	6,465,762.11
2008	100%	$	6,214,113.52

Russell W. Hinton
STATE AUDITOR

Honorable Nathan Deal, Governor
Members of the General Assembly
Members of the State Board of Education
and
Superintendent and Members of the
Whitfield County Board of Education

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Ladies and Gentlemen:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Whitfield County Board of Education as of and for the year ended June 30, 2010, which collectively comprise Whitfield County Board of Education's basic financial statements and have issued our report thereon dated October 6, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Whitfield County Board of Education's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Whitfield County Board of Education's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Whitfield County Board of Education's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we consider item FS-7551-10-01, described in the accompanying Schedule of Findings and Questioned Costs to be a significant deficiency in internal control over financial reporting. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

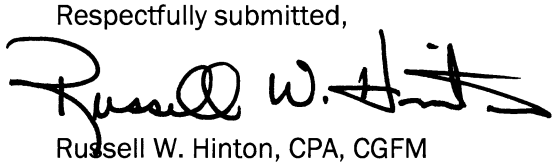

As part of obtaining reasonable assurance about whether Whitfield County Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

We noted certain matters that we have reported to management of Whitfield County Board of Education in a separate letter dated October 6, 2011.

Whitfield County Board of Education's response to the findings identified in our audit is described in the accompanying Schedule of Management's Responses. We did not audit Whitfield County Board of Education's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, members of the Whitfield County Board of Education, others within the entity, Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

Russell W. Hinton, CPA, CGFM

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Ladies and Gentlemen:

Compliance

We have audited Whitfield County Board of Education's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2010. Whitfield County Board of Education's major Federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major Federal programs is the responsibility of Whitfield County Board of Education's management. Our responsibility is to express an opinion on Whitfield County Board of Education's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the Whitfield County Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Whitfield County Board of Education's compliance with those requirements.

As described in item FA-7551-10-01 in the accompanying Schedule of Findings and Questioned Costs, Whitfield County Board of Education did not comply with requirements regarding Activities Allowed/Unallowed and Allowable Costs/Cost Principles that are applicable to its Special Education Cluster. Compliance with such requirements is necessary, in our opinion, for Whitfield County Board of Education to comply with requirements applicable to that program.

In our opinion, except for the noncompliance described in the preceding paragraph, Whitfield County Board of Education complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

Management of Whitfield County Board of Education is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to Federal programs. In planning and performing our audit, we considered Whitfield County Board of Education's internal control over compliance with the requirements that could have a direct and material effect on a major Federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Whitfield County Board of Education's internal control over compliance.

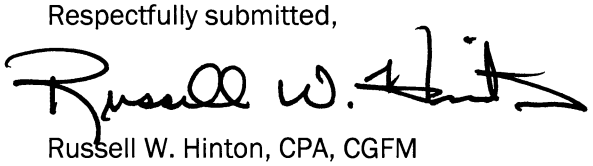

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as item FA-7551-10-01 to be a material weakness.

Whitfield County Board of Education's response to the finding identified in our audit is described in the accompanying Schedule of Management's Responses. We did not audit Whitfield County Board of Education's response and, accordingly, we express no opinion on the response.

This report is intended solely for the information and use of management, members of the Whitfield County Board of Education, others within the entity, Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

II FINANCIAL STATEMENT FINDINGS AND QUESTIONED COSTS

CASH AND CASH EQUIVALENTS
REVENUES/RECEIVABLES/RECEIPTS
EXPENDITURES/LIABILITIES/DISBURSEMENTS
Inadequate Internal Control Procedures over School Activity Accounts
Significant Deficiency
Finding Control Number: FS-7551-10-01

Condition:
This is a repeat finding (FS-7551-09-01, FS-7551-08-01 and FS-7551-07-01) from the years ended June 30, 2009, June 30, 2008, and June 30, 2007, respectively. The accounting procedures of the School District were insufficient to provide for adequate internal controls over the school activity accounts.

Criteria:
The School District's management is responsible for designing and maintaining internal controls that provide reasonable assurance that transactions are processed according to established procedures.

Questioned Cost:
N/A

Information:
Cash and Cash Equivalents
The bank reconciliation function was not separated from the record keeping and voucher payment functions.

Revenues/Receivables/Receipts
Deposit preparation was not separated from the record keeping and cash custody functions.

The following deficiencies were noted during our tests of transactions:

- Receipts were not deposited in a timely manner.
- Revenues were not recorded in the proper account.

Expenditures/Liabilities/Disbursements
The following deficiencies were noted during our tests of transactions:

- Vouchers did not have approval prior to purchase.
- Vouchers did not show evidence of receipt.
- Vouchers did not include invoices.
- Expenditures were not recorded in the proper account.

Cause:
These deficiencies were a result of management's failure to ensure that internal controls were established, implemented and functioning at the school level.

Effect:
Errors and/or irregularities may not be detected in a timely manner.

Recommendation:
Management should revise and monitor controls to provide reasonable assurance that transactions are processed according to established procedures.

III FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

ACTIVITIES ALLOWED/UNALLOWED
ALLOWABLE COSTS/COST PRINCIPLES
Inadequate Internal Control Procedures
Material Weakness
Material Noncompliance
U. S. Department of Education
Through Georgia Department of Education
Special Education Cluster (CFDA 84.027, 84.173, 84.391, and 84.392)
Finding Control Number: FA-7551-10-01

Condition:
A review of expenditures charged to the Special Education Cluster (CFDA 84.027, 84.173, 84.391, and 84.392) programs revealed that the School District failed to implement internal control procedures to ensure expenditures were in compliance with grant requirements.

Criteria:
Provisions of OMB Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments*, require that "to be allowable under Federal awards, costs must be... authorized or not prohibited under state or local laws or regulations" and "conform to any limitations or exclusions set forth in these principles, Federal laws, terms and conditions of the Federal award, or other governing regulations as to types or amounts of cost items."

Questioned Cost:
N/A

Information:
A review of personal service expenditures for the Special Education Cluster revealed that approximately $1.3 million of salaries and benefits were paid to employees that were not Special Education employees. After this situation was discovered by the auditor, Georgia Department of Education allowed the School District to replace these expenditures with Quality Basic Education Special Education program expenditures which resulted in no questioned costs.

Cause:
Management failed to monitor compliance with Federal guidelines to ensure that expenditures charged to the Federal Program were allowable.

Effect:
Failure to ensure that program expenditures are allowable can result in noncompliance with the requirements of the Federal grant.

Recommendation:
The School District should implement procedures to ensure that all expenditures charged to the Federal program are allowable under OMB Circular A-87. The Georgia Department of Education has reviewed this matter and determined that the School District will be able to replace those employees with Special Education employees in order to avoid returning the grant funds.

SECTION V

MANAGEMENT'S RESPONSES

WHITFIELD COUNTY BOARD OF EDUCATION
SCHEDULE OF MANAGEMENT'S RESPONSES
YEAR ENDED JUNE 30, 2010

Finding Control Number: FS-7551-10-01

We concur with this finding. During fiscal year 2009, a Business Advisory committee was created to support and assess accounting transactions and to ensure sound fiscal management through compliance with the district's internal controls. The committee continuously works with our schools' bookkeepers to strengthen their knowledge and understanding of the district's internal controls through internal audits and support.

Finding Control Number: FA-7551-10-01

We concur with this finding. The district will implement necessary training to ensure that employees charged with the responsibility to ensure compliance with federal programs are adequately trained.
