INDEPENDENT AUDITOR'S COMBINED REPORT ON BASIC FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION - SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Ladies and Gentlemen:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information (Exhibits A through H) of the Wilkinson County Board of Education, as of and for the year ended June 30, 2012, which collectively comprise the Board's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Wilkinson County Board of Education's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Wilkinson County Board of Education, as of June 30, 2012, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Management has omitted Management's Discussion and Analysis that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an

essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

In accordance with *Government Auditing Standards*, we have also issued our report dated July 22, 2013, on our consideration of the Wilkinson County Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual, as presented on page 27, is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Wilkinson County Board of Education's financial statements as a whole. The accompanying supplementary information consists of Schedules 2 through 5, which includes the Schedule of Expenditures of Federal Awards as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations,* are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

A copy of this report has been filed as a permanent record in the office of the State Auditor and made available to the press of the State, as provided for by Official Code of Georgia Annotated section 50-6-24.

Respectfully submitted,

Greg S. Griffin
State Auditor

Note 1: DESCRIPTION OF SCHOOL DISTRICT AND REPORTING ENTITY

REPORTING ENTITY

The Wilkinson County Board of Education (School District) was established under the laws of the State of Georgia and operates under the guidance of a school board elected by the voters and a Superintendent appointed by the Board. The Board is organized as a separate legal entity and has the power to levy taxes and issue bonds. Its budget is not subject to approval by any other entity. Accordingly, the School District is a primary government and consists of all the organizations that compose its legal entity.

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The School District's basic financial statements are collectively comprised of the District-wide financial statements, fund financial statements and notes to the basic financial statements of the Wilkinson County Board of Education.

District-wide Statements:
The Statement of Net Assets and the Statement of Activities display information about the financial activities of the overall School District, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the School District's governmental activities.

- Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses (expenses of the School District related to the administration and support of the School District's programs, such as office and maintenance personnel and accounting) are not allocated to programs.

- Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements:
The fund financial statements provide information about the School District's funds, including fiduciary funds. Eliminations have been made to minimize the double counting of internal activities. Separate statements for each category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. The School District has no funds which were reported as nonmajor funds.

The School District reports the following major governmental funds:

- General Fund is the School District's primary operating fund. It accounts for and reports all financial resources not accounted for and reported in another fund.

- District-wide Capital Projects Fund accounts for and reports financial resources including Special Purpose Local Option Sales Tax (SPLOST), Bond Proceeds and grants from Georgia State Financing and Investment Commission that are restricted, committed or assigned to the expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

- Debt Service Fund accounts for and reports financial resources that are restricted, committed, or assigned including taxes (sales) legally restricted for the payment of general long-term principal and interest.

The School District reports the following fiduciary fund type:

- Agency funds account for assets held by the School District as an agent for various funds, clubs, governments or individuals.

BASIS OF ACCOUNTING

The basis of accounting determines when transactions are reported on the financial statements. The District-wide governmental and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the School District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, sales taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from sales taxes is recognized in the fiscal year in which the underlying transaction (sale) takes place. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The School District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Property taxes, sales taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities and acquisitions under capital leases are reported as other financing sources.

The School District funds certain programs by a combination of specific cost-reimbursement grants, categorical grants, and general revenues. Thus, when program costs are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the School District's policy to first apply grant resources to such programs, followed by cost-reimbursement grants, then general revenues.

CASH AND CASH EQUIVALENTS

Composition of Deposits
Cash and cash equivalents consist of cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition in authorized financial institutions. Official Code of Georgia Annotated Section 45-8-14 authorizes the School District to deposit its funds in one or more solvent banks, insured Federal savings and loan associations or insured chartered building and loan associations.

INVESTMENTS

Composition of Investments
Investments made by the School District in nonparticipating interest-earning contracts (such as certificates of deposit) and repurchase agreements are reported at cost. Participating interest-earning contracts and money market investments with a maturity at purchase of one year or less are reported at amortized cost. Both participating interest-earning contracts and money market investments with a maturity at purchase greater than one year are reported at fair value. The Official Code of Georgia Annotated Section 36-83-4 authorizes the School District to invest its funds. In selecting among options for investment or among institutional bids for deposits, the highest rate of return shall be the objective, given equivalent conditions of safety and liquidity. Funds may be invested in the following:

(1) Obligations issued by the State of Georgia or by other states,

(2) Obligations issued by the United States government,

(3) Obligations fully insured or guaranteed by the United States government or a United States government agency,

(4) Obligations of any corporation of the United States government,

(5) Prime banker's acceptances,

(6) The Georgia Fund 1 administered by the State of Georgia, Office of the State Treasurer,

(7) Repurchase agreements, and

(8) Obligations of other political subdivisions of the State of Georgia.

The School District does not have a formal policy regarding investment policies that address credit risks, custodial credit risks, concentration of credit risks, interest rate risks or foreign currency risks.

RECEIVABLES

Receivables consist of amounts due from property and sales taxes, grant reimbursements due on Federal, State or other grants for expenditures made but not reimbursed and other receivables disclosed from information available. Receivables are recorded when either the asset or revenue recognition criteria has been met. Receivables recorded on the basic financial statements do not include any amounts which would necessitate the need for an allowance for uncollectible receivables.

PROPERTY TAXES

The Wilkinson County Board of Commissioners fixed the property tax levy for the 2011 tax digest year (calendar year) on September 27, 2011 (levy date). Taxes were due on December 20, 2011 (lien date). Taxes collected within the current fiscal year or within 60 days after year-end on the 2011 tax digest are reported as revenue in the governmental funds for fiscal year 2012. The Wilkinson County Tax Commissioner bills and collects the property taxes for the School District, withholds 2.5% of taxes collected as a fee for tax collection and remits the balance of taxes collected to the School District. Property tax revenues, at the fund reporting level, during the fiscal year ended June 30, 2012, for maintenance and operations amounted to $7,244,032.67.

The tax millage rate levied for the 2011 tax year (calendar year) for the Wilkinson County Board of Education was as follows (a mill equals $1 per thousand dollars of assessed value):

School Operations	19.66 mills

SALES TAXES

Special Purpose Local Option Sales Tax, at the fund reporting level, during the year amounted to $1,799,561.79 and is to be used for capital outlay for educational purposes or debt service. This sales tax was authorized by local referendum and the sales tax must be re-authorized at least every five years. The current active authorization expires March 2013. However, a new authorization was approved November 2, 2010, and collections based on that authorization will begin April 1, 2013.

INVENTORIES

Food Inventories

On the basic financial statements, inventories of donated food commodities used in the preparation of meals are reported at their Federally assigned value and purchased foods inventories are reported at cost (first-in, first out). The School District uses the consumption method to account for inventories whereby donated food commodities are recorded as an asset and as revenue when received, and expenses/expenditures are recorded as the inventory items are used. Purchased foods are recorded as an asset when purchased and expenses/expenditures are recorded as the inventory items are used.

CAPITAL ASSETS

Capital assets purchased, including capital outlay costs, are recorded as expenditures in the fund financial statements at the time of purchase (including ancillary charges). On the District-wide financial statements, all purchased capital assets are valued at cost where historical records are available and at estimated historical cost based on appraisals or deflated current replacement cost where no historical records exist. Donated capital assets are recorded at estimated fair market value on the date donated. Disposals are deleted at depreciated recorded cost. The cost of normal maintenance and repairs that do not add to the value of assets or materially extend the useful lives of the assets is not capitalized. Depreciation is computed using the straight-line method. The School District does not capitalize book collections or works of art. During fiscal year 2012, no material events or changes in circumstances affecting a capital asset that may indicate impairment were known to the School District.

Capitalization thresholds and estimated useful lives of capital assets reported in the District-wide statements are as follows:

	Capitalization Policy	Estimated Useful Life
Land	All	N/A
Land Improvements	$ 10,000.00	15 to 80 years
Buildings and Improvements	$ 10,000.00	10 to 80 years
Equipment	$ 10,000.00	3 to 20 years
Intangible Assets	$ 100,000.00	individually determined
Construction in Progress	$ 10,000.00	N/A

Depreciation is used to allocate the actual or estimated historical cost of all capital assets over estimated useful lives, with the exception of intangible assets which are amortized.

Amortization of intangible assets such as water, timber, and mineral rights, easements, patents, trademarks, copyrights and internally generated software is computed using the straight-line method over the estimated useful lives of the assets.

GENERAL OBLIGATION BONDS

The School District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. In the District-wide financial statements, bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bond issuance costs are reported as deferred charges and amortized over the term of the debt.

In the fund financial statements, the School District recognizes bond premiums and discounts, as well as bond issuance costs during the fiscal year bonds are issued. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. General obligation bonds are direct obligations and pledge the full faith and credit of the government. The outstanding amount of these bonds is recorded in the Statement of Net Assets.

NET ASSETS

The School District's net assets in the District-wide Statements are classified as follows:

Invested in capital assets, net of related debt - This represents the School District's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.

Restricted net assets - These represent resources for which the School District is legally or contractually obligated to spend resources for bus replacement, continuation of Federal programs, debt service and capital projects in accordance with restrictions imposed by external third parties.

Unrestricted net assets - Unrestricted net assets represent resources derived from property taxes, sales taxes, grants and contributions not restricted to specific programs, charges for services, and miscellaneous revenues. These resources are used for transactions relating to the educational and general operations of the School District, and may be used at the discretion of the Board to meet current expenses for those purposes.

FUND BALANCES

The School District's fund balances are classified as follows:

Nonspendable – Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – Constraints are placed on the use of resources are either (1) externally imposed conditions by creditors, grantors, contributors, or laws and regulations of other governments or (2) imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Education. The Board of Education is the School District's highest level of decision-making authority, and the formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a resolution approved by the Board. Committed fund balance also should incorporate contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts that are constrained by the School District's *intent* to be used for specific purposes, but are neither restricted nor committed. The intent should be expressed by (1) the Board of Education or (2) the budget or finance committee, or the Superintendent, or designee, to assign amounts to be used for specific purposes.

Unassigned – The residual classification for the General Fund. This classification represents fund balances that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

Fund Balances of the Governmental Funds at June 30, 2012, are as follows:

Nonspendable		
Inventories		$ 12,928.47
Restricted		
Bus Replacement	$ 157,393.00	
Continuation of Federal Programs	92,792.11	
Capital Projects	1,596,198.94	
Debt Service	1,514,761.00	3,361,145.05
Committed		
School Activity Accounts		36,405.29
Unassigned		1,914,484.75
Fund Balance, June 30, 2012		$ 5,324,963.56

When multiple categories of fund balance are available for expenditure (e.g. a project is being funded partly by a grant, funds set aside by the Board, and unassigned fund balance), the School District will start with the most restricted category and spend those funds first before moving down to the next category with available funds.

USE OF ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 3: BUDGETARY DATA

The budget is a complete financial plan for the School District's fiscal year, and is based upon careful estimates of expenditures together with probable funding sources. The budget is legally adopted each year for the General Fund. The original budget for the General Fund excluded Federal Programs, School Activity accounts and certain other Sponsored State programs. However, the amended budget excluded only School Activity Accounts and the Federal Program-Early Reading First Program. There is no statutory prohibition regarding over expenditure of the budget at any level. The budget for General Fund, as described above, is prepared and adopted by fund, function and object. The legal level of budgetary control was established by the Board at the aggregate fund function level. The School District's formal budget was prepared in accordance with accounting principles permitted by the State of Georgia but not in accordance with generally accepted accounting principles in the United States of America.

The budgetary process begins with the School District's administration presenting an initial budget for the Board's review. The administration makes revisions as necessary based on the Board's guidelines and a tentative budget is approved. After approval of this tentative budget by the Board, such budget is advertised at least once in a newspaper of general circulation in the locality, as well as the School District's website. At the next regularly scheduled meeting of the Board after advertisement, the Board receives comments on the tentative budget, makes revisions as necessary, and approves the Budget if no outstanding issues remain. If it is necessary to approve the budget before the next scheduled meeting, the date, time and place of approval are advertised with the budget to notify the public of a called meeting. Also a notice is placed on the board office door 24 hours in advance of the called meeting. The approved budget is then submitted, in accordance with provisions of Official Code of Georgia Annotated section 20-2-167(c), to the Georgia Department of Education. The Board may increase or decrease the budget at any time during the year. All unexpended budget authority lapses at fiscal year-end.

The Superintendent is authorized by the Board to approve adjustments of no more than 5% percent of the amount budgeted for expenditures in any budget function for any fund. The Superintendent shall report any such adjustments to the Board. If expenditure of funds in any budget function for any fund is anticipated to be more than 5% percent of the budgeted amount, the Superintendent shall request Board approval for the budget amendment. Under no circumstance is the Superintendent or other staff person authorized to spend funds that exceed the total budget without approval by the Board.

See Schedule 1 – General Fund Schedule of Revenues, Expenditures and Changes in Fund Balances – Budget to Actual for a detail of any over/under expenditures during fiscal year 2012.

Budgetary/GAAP Basis Reconciliation

In the General Fund, accounting principles used in developing budgets on a budgetary basis differ from those used in preparing financial statements in conformity with generally accepted accounting principles (GAAP).

The primary differences between the budget basis and GAAP basis are:

1. Revenues and expenditures for School Principal's accounts, and the Federal Program-Early Reading First are not included in the General Fund Amended Budget.

2. Payments made by the State of Georgia for school district employee benefits are recognized as revenues and expenditures under GAAP and are not recognized on the budget basis.

Thus, there is an accounting basis difference between the budget and actual Statement of Revenues, Expenditures and Changes in Fund Balances in the General Fund that is reconciled as follows:

Actual Revenues, GAAP Basis		$ 18,059,779.78
Various Fund Revenues Omitted from Budget	$ -1,263,116.43	
On-Behalf Revenues Omitted from Budget	-19,962.00	-1,283,078.43
Actual Revenues, Budgetary Basis		$ 16,776,701.35
Actual Expenditures, GAAP Basis		$ 17,609,955.63
Various Fund Expenditures Omitted from Budget	$ -1,263,116.43	
On-Behalf Benefits Omitted from Budget	-19,962.00	-1,283,078.43
Actual Expenditures, Budgetary Basis		$ 16,326,877.20
Revenues Over Expenditures, Budgetary Basis		$ 449,824.15
Revenues Over Expenditures, GAAP Basis		$ 449,824.15

Note 4: DEPOSITS AND INVESTMENTS

COLLATERALIZATION OF DEPOSITS

Official Code of Georgia Annotated (O.C.G.A.) Section 45-8-12 provides that there shall not be on deposit at any time in any depository for a time longer than ten days a sum of money which has not been secured by surety bond, by guarantee of insurance, or by collateral. The aggregate of the face value of such surety bond and the market value of securities pledged shall be equal to not less than 110 percent of the public funds being secured after the deduction of the amount of deposit insurance. If a depository elects the pooled method (O.C.G.A. Section 45-8-13.1) the aggregate of the market value of the securities pledged to secure a pool of public funds shall be not less than 110 percent of the daily pool balance.

Acceptable security for deposits consists of any one of or any combination of the following:

(1) Surety bond signed by a surety company duly qualified and authorized to transact business within the State of Georgia,

(2) Insurance on accounts provided by the Federal Deposit Insurance Corporation,

(3) Bonds, bills, notes, certificates of indebtedness or other direct obligations of the United States or of the State of Georgia,

(4) Bonds, bills, notes, certificates of indebtedness or other obligations of the counties or municipalities of the State of Georgia,

(5) Bonds of any public authority created by the laws of the State of Georgia, providing that the statute that created the authority authorized the use of the bonds for this purpose,

(6) Industrial revenue bonds and bonds of development authorities created by the laws of the State of Georgia, and

(7) Bonds, bills, notes, certificates of indebtedness, or other obligations of a subsidiary corporation of the United States government, which are fully guaranteed by the United States government both as to principal and interest or debt obligations issued by or securities guaranteed by the Federal Land Bank, the Federal Home Loan Bank, the Federal Intermediate Credit Bank, the Central Bank for Cooperatives, the Farm Credit Banks, the Federal Home Loan Mortgage Association, and the Federal National Mortgage Association.

CATEGORIZATION OF DEPOSITS

Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. At June 30, 2012, the bank balances were $2,446,247.54. These amounts were covered by Federal depository insurance or collateralized with securities held by the pledging financial institution's trust department or agent in the School District's name.

CATEGORIZATION OF INVESTMENTS

The School District's investments as of June 30, 2012, are presented below. All investments are presented by investment type and debt securities are presented by maturity.

Investment Type		Fair Value
Other Investments		
Federated Government Obligations Fund (SS)	$	6,409.27
Investment Pools		
Office of State Treasurer		
Georgia Fund 1		4,867,648.60
Total Investments	$	4,874,057.87

The Georgia Fund 1, formerly referred to as LGIP, administered by the State of Georgia, Office of the State Treasurer is not required to be categorized since the School District did not own any specific identifiable securities in the pool. The investment policy of the State of Georgia, Office of the State Treasurer for the Georgia Fund 1 (Primary Liquidity Portfolio) does not provide for investment in derivatives or similar investments. Additional information on the Georgia Fund 1 is disclosed in the *State of Georgia* Comprehensive Annual Financial Report. This audit can be obtained from the Georgia Department of Audits and Accounts at www.audits.ga.gov/SGD/CAFR.html.

The Primary Liquidity Portfolio consists of Georgia Fund 1 which is not registered with the SEC as an investment company but does operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940. The investment is valued at the pool's share price, $1.00 per

share. The pool is an AAAm rated investment pool by Standard and Poor's. The weighted average maturity of Georgia Fund 1 may not exceed 60 days. The weighted average maturity for Georgia Fund 1 on June 30, 2012, was 48 days.

The Federated Government Obligations Fund (SS) (GOSXX) is an Institutional Portfolio Fund managed by managed by Federated Investors, Incorporated. The goal of the fund is to pursue current income consistent with the stability of principal and liquidity. Funds are invested primarily in short term Treasury and Government securities and include repurchase agreements collateralized by the U. S. Treasury and governmental agency securities for higher yield potential than a Treasury exclusive portfolio. The Fund is rated Aaa-mf by Moody's and AAAm by Standard and Poor's. The weighted average maturity of the Fund's daily portfolio is 50 days.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates of debt investment will adversely affect the fair value of an investment. The School District does not have a formal policy for managing interest rate risk.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The School District does not have a formal policy for managing concentration of credit risk. Less than 5% of the School District's investments are in the Federated Governmental Obligations Fund (SS) (GOSXX).

Note 5: NON-MONETARY TRANSACTIONS

The School District receives food commodities from the United States Department of Agriculture (USDA) for school breakfast and lunch programs. These commodities are recorded at their Federally assigned value. See Note 2 - Inventories

Student Transportation Services	193,040.00	209,274.00
Food Services		11,625.00
		$ 713,845.00

Note 7: RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; job related illness or injuries to employees; acts of God and unemployment compensation.

The School District has obtained commercial insurance for risk of loss associated with torts, assets, errors or omissions, and acts of God. However, the errors or omissions policy excludes coverage for sexual harassment and discrimination. The School District has neither significantly reduced coverage for these risks nor incurred losses (settlements) which exceeded the School District's insurance coverage in any of the past three years.

The School District is self-insured with regard to unemployment compensation claims. The School District accounts for claims with expenses/expenditures and the related liability being reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated.

Changes in the unemployment compensation claims liability during the last two fiscal years are as follows:

	Beginning of Year Liability	Claims and Changes in Estimates	Claims Paid	End of Year Liability
2011	$ 0.00	$ 4,953.00	$ 4,953.00	$ 0.00
2012	$ 0.00	$ 6,447.45	$ 6,447.45	$ 0.00

The School District participates in the Georgia Education Workers' Compensation Trust, a public entity risk pool organized on December 1, 1991, to develop, implement and administer a program of workers' compensation self-insurance for its member organizations. The School District pays an annual premium to the Trust for its general workers' compensation insurance coverage. Specific excess of loss insurance coverage is provided through an agreement by the Trust with the Safety National Casualty Company to provide coverage for potential losses sustained by the Trust in excess of $1 million loss per occurrence, up to the statutory limit. Employers' Liability insurance coverage is also provided with limits of $2 million. The Trust covers the first $1 million of each Employers Liability claim with Safety National providing additional Employers Liability limits up to a $2 million per occurrence maximum. Safety National Casualty Company also provides aggregate cover to the Trust with a loss fund percentage of 100%, based on the Fund's annual normal premium, up to a maximum limit of indemnity of aggregate limit of $2 million.

The School District has purchased surety bonds to provide additional insurance coverage as follows:

Position Covered	Amount
Superintendent	$ 100,000.00
All Employees	$ 100,000.00

Note 8: SHORT-TERM DEBT

The School District issues tax anticipation notes in advance of property tax collections, depositing the proceeds in its General Fund. This short-term debt is to provide cash for operations until property tax collections are received by the School District. Article IX, Section V, Paragraph V of the Constitution of the State of Georgia limits the aggregate amount of short-term debt to 75 percent of the total gross income from taxes collected in the preceding year and requires all short-term debt to be repaid no later than December 31 of the calendar year in which the debt was incurred.

Short-term debt activity for the fiscal year is as follows:

	Beginning Balance	Issued	Redeemed	Ending Balance
Tax Anticipation Notes	$ 0.00	$ 925,000.00	$ 925,000.00	$ 0.00

Note 9: LONG-TERM DEBT

GENERAL OBLIGATION DEBT OUTSTANDING

General Obligation Bonds currently outstanding are as follows:

Purpose	Interest Rates	Amount
General Government - Series 2007	3.35%	$ 1,260,000.00
General Government - Series 2008	3.97%	850,000.00
General Government - Series 2011 (QSCB)	4.58% - 5.78%	16,500,000.00
		$ 18,610,000.00

The changes in Long-Term Debt during the fiscal year ended June 30, 2012, were as follows:

	Governmental Funds				
	Balance July 1, 2011	Additions	Deductions	Balance June 30, 2012	Due Within One Year
G. O. Bonds	$ 19,610,000.00	$ 0.00	$ 1,000,000.00	$ 18,610,000.00	$ 1,035,000.00

At June 30, 2012, payments due by fiscal year which includes principal and interest for these items are as follows:

	General Obligation Debt	
	Principal	Interest
Fiscal Year Ended June 30:		
2013	$ 1,035,000.00	$ 940,899.25
2014	1,075,000.00	902,921.75
2015		883,567.00
2016		883,567.00
2017		883,567.00
2018 - 2022	2,500,000.00	4,353,005.00
2023 - 2027	14,000,000.00	2,036,434.50
Total Principal and Interest	$ 18,610,000.00	$ 10,883,961.50

In fiscal 2011, the Wilkinson County Board of Education sold $16,500,000.00 of Qualified School Construction Bonds (QCSB) for the purpose of constructing a new Primary/Elementary School in the School District. Under Federal Law, these bonds are eligible to receive an interest subsidy from the U. S. Government which will materially offset the School District's liability to make full interest debt service amortization payments as scheduled. To qualify for this subsidy the School District is required to periodically file appropriate documents with the Internal Revenue Service. The amount of interest due on QCSB bonds included in the above amortization schedule is $10,807,274.50. The interest subsidy received by the School District from the U. S. Government in fiscal year 2012 funded the interest expense due on the series 2011 QCSB bonds. The planned interest subsidy to be received by the School District from the U. S. Government subsequent to June 30, 2012, is $10,625,759.50.

Note 10: ON-BEHALF PAYMENTS

The School District has recognized revenues and costs in the amount of $1,029,360.00 for health insurance and retirement contributions paid on the School District's behalf by the following State Agencies.

Georgia Department of Education
Paid to the Georgia Department of Community Health
For Health Insurance of District Personnel
In the amount of $1,009,398.00

Office of the State Treasurer
Paid to the Public School Employees' Retirement System
For Public School Employees' Retirement (PSERS) Employer's Cost
In the amount of $19,962.00

Note 11: SIGNIFICANT COMMITMENTS

The following is an analysis of significant outstanding construction or renovation contracts executed by the School District as of June 30, 2012:

Project	Unearned Executed Contracts
New Primary/Elementary School	$ 205,971.19

The amount described in this note is not reflected in the basic financial statements.

Note 12: SIGNIFICANT CONTINGENT LIABILITIES

Amounts received or receivable principally from the Federal government are subject to audit and review by grantor agencies. This could result in requests for reimbursement to the grantor agency for any costs which are disallowed under grant terms. The School District believes that such disallowances, if any, will be immaterial to its overall financial position.

The School District is a defendant in various legal proceedings pertaining to matters incidental to the performance of routine School District operations. The ultimate disposition of these proceedings is not presently determinable, but is not believed to be material to the basic financial statements.

Note 13: RELATED PARTY TRANSACTIONS

During fiscal year 2012, the School District paid $11,500.00 to James S. Price Construction Company to repair damages from a storm that occurred. The company is owned by and operated by James S. Price, the stepfather of Kathy Jackson, who is currently the Bookkeeper for the Wilkinson County Board of Education.

Also, Johnny Jackson, a local landscaper and the husband of Kathy Jackson, the bookkeeper of Wilkinson County Board of Education, contracted with Rodney Dudley, Maintenance Director to grade and grass the softball fields at the High School. Mr. Jackson was paid a total of $3,434.69 for the services rendered.

Note 14: POST-EMPLOYMENT BENEFITS

Georgia School Personnel Post-employment Health Benefit Fund

Plan Description. The Georgia School Personnel Post-employment Health Benefit Fund (School OPEB Fund) is a cost-sharing multiple-employer defined benefit post-employment healthcare plan that covers eligible former employees of public school systems, libraries and regional educational service agencies. The School OPEB Fund provides health insurance benefits to eligible former employees and their qualified beneficiaries through the State Employees Health Benefit Plan administered by the Department of Community Health. The Official Code of Georgia Annotated (O.C.G.A.) assigns the authority to establish and amend the benefit provisions of the group health plans, including benefits for retirees, to the Board of Community Health (Board). The Department of Community Health, which includes the School OPEB Fund, issues a separate stand alone financial audit report and a copy can be obtained from the Georgia Department of Audits and Accounts.

Funding Policy. The contribution requirements of plan members and participating employers are established by the Board in accordance with the current Appropriations Act and may be amended by the Board. Contributions of plan members or beneficiaries receiving benefits vary based on plan election, dependent coverage, and Medicare eligibility and election. For members with fewer than five years of service as of January 1, 2012, contributions also vary based on years of service. On average, members with five years or more of service as of January 1, 2012, pay approximately 25 percent of the cost of the health insurance coverage. In accordance with the Board resolution dated December 8, 2011, for members with fewer than five years of service as of January 1, 2012, the State provides a premium subsidy in retirement that ranges from 0% for fewer than 10 years of service to 75% (but no greater than the subsidy percentage offered to active employees) for 30 or more years of service. The subsidy for eligible dependents ranges from 0% to 55% (but no greater than the subsidy percentage offered to dependents of active employees minus 20%). No subsidy is available to Medicare eligible members not enrolled in a Medicare Advantage Option. The Board of Community Health sets all member premiums by resolution and in accordance with the law and applicable revenue and expense projections. Any subsidy policy adopted by the Board may be changed at any time by Board resolution and does not constitute a contract or promise of any amount of subsidy.

Participating employers are statutorily required to contribute in accordance with the employer contribution rates established by the Board. The contribution rates are established to fund all benefits due under the health insurance plans for both active and retired employees based on projected "pay-as-you-go" financing requirements. Contributions are not based on the actuarially calculated annual required contribution (ARC) which represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The combined active and retiree contribution rates established by the Board for employers participating in the School OPEB Fund were as follows for the fiscal year ended June 30, 2012:

For certificated teachers, librarians and regional educational service agencies and certain other eligible participants:

June 2011	1.429%	of covered payroll for July coverage
July 2011	18.534%	of covered payroll for August coverage
August 2011 - March 2012	24.000%	of covered payroll for September - April coverage
April 2012 - June 2012	3.958%	of covered payroll for May - July coverage

For non-certificated school personnel:

July 2011 - August 2011	$246.20	per member per month
September 2011 - June 2012	$296.20	per member per month

No additional contribution was required by the Board for fiscal year 2012 nor contributed to the School OPEB Fund to prefund retiree benefits. Such additional contribution amounts are determined annually by the Board in accordance with the School plan for other post-employment benefits and are subject to appropriation.

The School District's combined active and retiree contributions to the health insurance plans, which equaled the required contribution, for the current fiscal year and the preceding two fiscal years were as follows:

Fiscal Year	Percentage Contributed	Required Contribution
2012	100%	$ 1,576,888.45
2011	100%	$ 1,440,292.95
2010	100%	$ 1,506,064.79

Note 15: RETIREMENT PLANS

TEACHERS' RETIREMENT SYSTEM OF GEORGIA (TRS)

Plan Description. The TRS is a cost-sharing multiple-employer defined benefit plan created in 1943 by an act of the Georgia General Assembly to provide retirement benefits for qualifying employees in educational service. A Board of Trustees comprised of active and retired members and ex-officio State employees is ultimately responsible for the administration of TRS. The Teachers' Retirement System of Georgia issues a separate stand alone financial audit report and a copy can be obtained from the Georgia Department of Audits and Accounts.

On October 25, 1996, the Board created the Supplemental Retirement Benefits Plan of the Georgia Teachers' Retirement System (SRBP-TRS). SRBP-TRS was established as a qualified excess benefit plan in accordance with Section 415 of the Internal Revenue Code (IRC) as a portion of TRS. The purpose of SRBP-TRS is to provide retirement benefits to employees covered by TRS whose benefits are otherwise limited by IRC Section 415. Beginning July 1, 1997, all members and retired former members in TRS are eligible to participate in the SRBP-TRS whenever their benefits under TRS exceed the IRC Section 415 imposed limitation on benefits.

TRS provides service retirement, disability retirement, and survivor's benefits. The benefit structure of TRS is defined and may be amended by State statute. A member is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. A member is eligible for early retirement after 25 years of creditable service.

Normal retirement (pension) benefits paid to members are equal to 2% of the average of the member's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. Early retirement benefits are reduced by the lesser of one-twelfth of 7% for each month the member is below age 60 or by 7% for each year or fraction thereof by which the member has less than 30 years of service. It is also assumed that certain cost-of-living adjustments, based on the Consumer Price Index, will be made in future years. Retirement benefits are payable monthly for life. A member may elect to receive a partial lump-sum distribution in addition to a reduced monthly retirement benefit. Death, disability and spousal benefits are also available.

Funding Policy. TRS is funded by member and employer contributions as adopted and amended by the Board of Trustees. Members become fully vested after 10 years of service. If a member terminates with less than 10 years of service, no vesting of employer contributions occurs, but the member's contributions may be refunded with interest. Member contributions are limited by State law to not less than 5% or more than 6% of a member's earnable compensation. Member contributions as adopted by the Board of Trustees for the fiscal year ended June 30, 2012, were 5.53% of annual salary. The member contribution rate will increase to 6.00% effective July 1, 2012. Employer contributions required for fiscal year 2012 were 10.28% of annual salary as required by the June 30, 2009, actuarial valuation. The employer contribution rate will increase to 11.41% effective July 1, 2012.

Employer contributions for the current fiscal year and the preceding two fiscal years are as follows:

Fiscal Year	Percentage Contributed		Required Contribution
2012	100%	$	883,001.58
2011	100%	$	920,848.33
2010	100%	$	943,854.06

PUBLIC SCHOOL EMPLOYEES' RETIREMENT SYSTEM (PSERS)

Bus drivers, lunchroom personnel, and maintenance and custodial personnel are members of the Public School Employees' Retirement System of Georgia. The System is funded by contributions by the employees and by the State of Georgia. The School District makes no contribution to this plan.

Notes to the Schedule of Revenues, Expenditures and Changes in Fund Balances Budget and Actual

(1) Original and Final Budget amounts do not include actual revenues ($318,247.99) or expenditures ($322,738.77) of the various principal accounts.

The accompanying schedule of revenues, expenditures and changes in fund balances budget and actual includes the Original and Final Budget that is presented on a basis other than accounting principles generally accepted in the United States of America (GAAP) as allowed by the State of Georgia. The primary differences between the budget basis and GAAP for fund financial statements include salary and benefit expenditures that are recorded on the budget when paid rather than when the liability is incurred and state revenues recorded on the budget when received rather than when earned.

See notes to the basic financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Ladies and Gentlemen:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Wilkinson County Board of Education as of and for the year ended June 30, 2012, which collectively comprise Wilkinson County Board of Education's basic financial statements and have issued our report thereon dated July 22, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of Wilkinson County Board of Education is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Wilkinson County Board of Education's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Wilkinson County Board of Education's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Wilkinson County Board of Education's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Wilkinson County Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

We noted certain matters that we have reported to management of Wilkinson County Board of Education in a separate letter dated July 22, 2013.

This report is intended solely for the information and use of management, members of the Wilkinson County Board of Education, others within the entity, Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

Greg S. Griffin
State Auditor

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Ladies and Gentlemen:

Compliance

We have audited Wilkinson County Board of Education's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2012. Wilkinson County Board of Education's major Federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major Federal programs is the responsibility of Wilkinson County Board of Education's management. Our responsibility is to express an opinion on Wilkinson County Board of Education's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the Wilkinson County Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Wilkinson County Board of Education's compliance with those requirements.

In our opinion, the Wilkinson County Board of Education complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

Management of Wilkinson County Board of Education is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to Federal programs. In planning and performing our audit, we considered Wilkinson County Board of Education's internal control over compliance with the requirements that could have a direct and material effect on a major Federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Wilkinson County Board of Education's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be *material weaknesses*, as defined above.

This report is intended solely for the information and use of management, members of the Wilkinson County Board of Education, others within the entity, Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

Greg S. Griffin
